• Mr. MCCONNELL. Mr. President, although I hardly expect the Senate to take up this legislation now that we have come to the end of the session, I hope it offers a beginning point for discussion between the administration, the business community, and Members of Congress interested in Indochina and particularly Vietnam.

The bill I am introducing attempts to bridge the differences between those members of the business community who would like to see the trade embargo lifted tomorrow to further American commercial interests in an emerging market and those in the administration and Congress who would like to continue to use the embargo and normalization of relations as leverage in encouraging the Vietnamese on important policy priorities.

My legislation explicitly defines the expectations we have of the Vietnamese Government and requires the President report that these conditions have been met prior to lifting the embargo. However, my bill injects certainty into the process by establishing a date when the embargo will be lifted if the conditions are met.

There are three principle conditions which I have asked the President to report on. The first issue bears on the status of American POW's and MIA's. I cannot think of any issue which evokes a stronger and more emotional response than the question of our POW-MIA's. I was glad to see the select committee established to pursue the matter and believe the Members are off to a strong start in their inquiry. I am also committed to guaranteeing that the Vietnamese fully cooperate in resolving all outstanding cases and returning recovered and recoverable remains.

I also think progress on identifying and releasing those people held in political reeducation camps must be addressed. While we are no longer looking at the thousands of victims we were a matter of years ago, every person who is being detained because of an association with or loyalty to the United States must be released.

Finally, the Vietnamese must continue to actively support the U.N. peace agreement and transition to democracy in Cambodia. Their role and responsibility to see the process through to successful elections should be a factor in any changes in their political or economic relationship with the United States.

Having laid out the conditions, I also must add that I think the business community has legitimate concern about being shut out of an important emerging Asian market. Without some confidence that they will be given an opportunity to act on contracts—to really close deals—they are at a distinct disadvantage compared with many of America's trade competitors. The Japanese, French, Canadians, the British to name just a few do not observe a trade embargo with Vietnam. In fact, foreign investment in Vietnam is estimated to be as high as $5 billion.

Mr. President, offering a date when business will be allowed to move into Vietnam does not compromise our short- or long-term leverage. There are other important international lending and trading privileges such as most-favored-nation status which might be extended at some point in the future. We will continue to have options and opportunities available to offer Vietnam an incentive to make serious progress on the agenda of concern to this country.

However, given our major trade deficit, I think we should do what we can to assure American companies have access to a market where they have obvious strengths. Vietnam needs what American companies are good at—telecommunications, energy exploration and development, banking and infrastructure, and construction projects. American companies simply are not players in this important trade game—they are benched as they watch time and opportunity slip by.

I am hopeful that this legislation will guarantee the Vietnamese stay engaged in the peace process as they fulfill their absolute obligations to resolve POW-MIA cases and release political detainees. Should these conditions be met, it would seem reasonable to offer the American business community the assurance that they will have an opportunity on a specific date to close negotiations and begin to trade with Vietnam.•

By Mr. SPECTER:

S. 2126. A bill to extend the temporary suspension of duties on L-alanyl-L-proline, also known as Ala Pro; to the Committee on Finance.

S. 2127. A bill to suspend temporarily the duty on {3R-{3-alpha(R); 4-beta}}-4(acetyloxy)-3-{{(1,1-dimethyl ethyl) dimethyl-siyl}oxy}ethyl}-2-azetidinone; to the Committee on Finance.

S. 2128. A bill to suspend temporarily the duty on 3-chloro peroxybenzoic acid; to the Committee on Finance.

S. 2129. A bill to suspend temporarily the duty on composite vials of timolol maleate/pilocarpine solutions and diluents; to the Committee on Finance.

SUSPENSION DUTY ON CERTAIN CHEMICALS

Mr. SPECTER. Mr. President, today I am introducing legislation that will suspend temporarily the respective duty on the following chemicals or materials: L-alanyl-L-proline, also known as Ala Pro; acetoxy azetidinone; 3-chloro peroxybenzoic acid, also known as MCPBA; and composite vials of timolol maleate/pilocarpine hydrochloric solution. Merck & Co., Inc. is seeking these duty suspensions for its operations in West Point, PA, and Danville, PA in order to allow it to remain competitive in the world marketplace with its respective products, namely Vasotec, PRIMAXIN/TIENAM, Prilosec, and Timpilo.

With regard to these products Mr. President, I am informed that Vasotec is one of the world's leading medicines for the treatment of hypertension. For many patients, Vasotec is also highly effective adjuntive therapy in management of heart failure.

Merck represents that its PRIMAXIN/TIENAM formulations have a broad spectrum of activity against gram-positive and gram-negative aerobic and anaerobic bacteria including strains resistant to penicillin, cephalosporins, and aminoglycosides.

As for Prilosec, I am informed that it is for a new class of gastrointestinal drug called acid pump inhibitors. It is approved for use in treating poorly responsive gastroesophageal reflux disease [GERD], severe erosive esophagitis, and conditions such as Zollinger-Ellison syndrome.

I am also informed that Timpilo is a combination formulation not manufactured by anyone in the U.S. and is used to lower intraocular pressure in the treatment of glaucoma.

As you are aware, Mr. President, duty suspension legislation is routinely adopted by Congress where no unfair competitive advantage, vis-a-vis other U.S. companies or industries, is gained by the beneficiary of such legislation. In this regard, I am informed that Merck & Co., will not gain any such advantage by any of the bills that I am introducing today. My staff has consulted with the Commerce Department's Office of Industrial Trade, the House of Representatives' Ways and Means Subcommittee on Trade, which has jurisdiction over the respective companion bills, H.R. 1857, H.R. 1942, H.R. 1935, and H.R. 3719, and with the offices of Representative LARRY COUGHLIN, the sponsor of H.R. 1857 and H.R. 3719, Representative GEORGE GEKAS, the sponsor of H.R. 1935, and Representative PAUL KANJORSKI, the sponsor of H.R. 1942. Each such office has informed my staff that there is no domestic opposition to Merck & Co.'s duty suspension requests.

Mr. President, Merck & Co. represents that without the requested duty suspensions, it is faced with operating at an economic disadvantage vis-a-vis its respective European and Japanese competitors because none of the chemicals or materials for which it seeks duty suspensions are manufactured here in the United States. For instance, Merck represents that it must pay a duty on Ala Pro that it imports from French and Japanese manufacturers. Similarly, acetoxy azetidinone is imported from Japan; MCPBA is imported from Belgium; and the composite vials of timolol maleate/pilocarpine hydrochloric solution and diluent are imported from France. Each of these, I am told, are also subject to import duty.

In sum, Mr. President, without these duty suspensions, the ability of Merck & Co., Inc. to preserve its integrity and continue to compete in the world marketplace while maintaining its facilities in West Point and Danville, Pennsylvania is made more difficult.

For the foregoing reasons, Mr. President, I, therefore, urge my colleagues to join me in supporting this legislation.

By Mr. DECONCINI (for himself and Mr. HATCH):

S. 2130. A bill to amend title 35, United States Code, to permit separate patent extensions for each product under a patent which is subject to full regulatory review and approval; to the Committee on the Judiciary.

PATENT REVIEW AND APPROVAL

• Mr. DECONCINI. Mr. President, I rise today to introduce with my distinguished colleague from Utah, Senator HATCH, a narrow but important amendment to one of the most significant pieces of legislation enacted by Congress in many years—the Drug Price Competition and Patent Restoration Act of 1984. That legislation will ultimately save American consumers billions of dollars. Besides providing massive savings to our citizens, especially elderly citizens, who must of necessity consume an inordinate share of prescription drugs, the act increases incentives to the innovative, research-based pharmaceutical community to develop new drugs that would not otherwise become available.

It has been almost 7 years since the act's passage and there have been no amendments to it. The bill we offer today in no way modifies or disturbs that most delicate balance between research-based pharmaceuticals, generic products, and the public. We believe that it rectifies a narrow consequence of the act that was unintended in that it was unanticipated.

At the heart of the 1984 act lies an elegantly simple quid pro quo. In return for additional years of patent life to compensate for the difficult, expensive, and time-consuming FDA drug-approval process, the pharmaceutical industry agreed to support wholesale changes in both the law and the rules surrounding the approval by FDA of generic versions of off-patent drugs.

Surrounding that seemingly simple core stands an extremely complex legislative edifice. While making patent extensions available to offset legitimate delays and loss of patent life, Congress also wanted to ensure that companies would not be able to use the law to extend a patent forever and thus unnecessarily prolong their market position on pharmaceuticals covered by these patents.

Toward this end, the act provides that any patent can receive only one extension. This was done to avoid the possibility of old patents being kept alive by claiming new uses for the same drug. This, of course, is only one of the elements in the 1984 act designed to prevent evergreening. However, it is the focus of the legislation that Senator HATCH and I are introducing, today.

In crafting the 1984 act, it was assumed that any particular patent would cover only one drug. It was certainly not anticipated that one patent would actually encompass two or more separate new drugs that is, new chemical entities each requiring a full, separate and independent review by the FDA. Indeed, such situations rarely occur.

Mostly, they arise within university research departments where the researchers are conducting seminal research leading to broad, landmark inventions. These researchers are more interested in pursuing their basic conceptual research and publishing their results for the benefit of the scientific community than they are in pursuing the various potential commercial applications. Because of this, they must file patent applications promptly to protect rights that would be lost or forfeited by publication.

Rarely do these researchers direct their work to identifying particular commercial embodiments that enable them to file separate patent applications on the various commercial embodiments of their broad invention.

Thus, university researchers tend, therefore, to patent these fundamental discoveries early, too early to appreciate the full commercial implications of their discoveries. These pioneer patents will contain broad claims that will cover many potential commercial embodiments. When the university later tries to find companies willing to commit the millions required to take additional embodiments of the broad invention through the process of becoming a drug, these efforts are stymied by the 1984 act preventing any patent—regardless of the fact that it may encompass more than one drug—from having more than one extension.

One of the first questions a company will ask is whether the drug will ultimately qualify for patent extension. Given the high risks, long lead times and large sums of money involved, the few years of patent extension created by the 1984 act often spell the difference between financial success and failure. If, for example, a university has a patent encompassing two separate drugs, only the one that is first granted patent extension can be extended. The other is out of luck. As a practical matter, this means simply that the university will not find a company willing to risk the sums required to bring the second drug to market. The university loses and thus the public loses.

This measure seeks to correct this anomaly by allowing a university held patent to be extended for more than one new drug if the new drug otherwise qualifies for patent extension. It should be well understood that we are not talking about extensions on top of extensions. If a patent, for example, expires in 1994 nothing in this bill can extend it beyond 1999 since the 1984 act allows a maximum of 5 years extension. The only difference my amendment would make is that more than one separate drug under that patent could receive an extension.

My objective, as well as that of Senator HATCH, is to see as many promising new drugs come to the American people as possible. And since this particular provision of the 1984 act hinders rather than promotes that process, we seek to change it.

Mr. President, our constitutionally mandated patent system provides for a 17-year life for a patent. It is rigid but predictable. Indeed, with the exception of the terms of the 1984 act, the patent system provides no flexibility with regard to the 17-year period.

Earlier this year, the Judiciary Subcommittee on Patents, Copyrights and Trademarks of which I am chairman, held a hearing on the issue of private patent extension requests. Unlike those measures, which require compelling circumstances and strict scrutiny, this legislation provides uniform and limited protection to a particular but important inventive sector—universities.

It is for that reason that I believe this legislative measure is reasonable. Most importantly, it promotes the objectives of the 1984 act without disrupting its delicate balance. It will promote the development of new drugs to benefit the American people and the world. Let me add that this measure will gain support throughout the university community in this country. I urge my colleagues to support it.

Mr. President, I ask unanimous consent that the text of the legislation be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2130

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 156 of title 35 is amended—

(1) in subsection (a):

(A) in paragraph (2), by inserting ", except as otherwise provided in subsection (i)" after "extended"; and

(B) in the second sentence, by inserting ", and in subsection (i)", after "and (5)"; and

(2) by adding at the end the following new subsection:

"(i)(1) Notwithstanding the provisions of subsection (a)(2), if a claim or claim of any patent on an invention that was conceived or reduced to practice substantially in the performance of work at a qualified nonprofit organization cover more than one drug product, each of which is subject to a regulatory review period before its commercial marketing or use, the term of such patent may be separately extended for each such drug product.

"(2) For each extension obtained under this subsection (i), the rights derived from any patent the term of which is extended shall be limited to the drug product for which extension is sought.

"(3) As used in this subsection, the term "qualified nonprofit organization" means a university or other nonprofit institution of higher education incorporated or formed under the laws of a State, territory or possession of the United States".•

By Mr. MOYNIHAN:

S. 2132. A bill to require the Administrator of the Environmental Protection Agency to seek ongoing advice from independent experts in ranking relative environmental risks; to conduct the research and monitoring necessary to insure a sound scientific basis for decisionmaking; and to use such information in managing available resources to protect society from the greatest risks to human health, welfare, and ecological resources; to the Committee on Environment and Public Works.

ENVIRONMENTAL RISK REDUCTION ACT

• Mr. MOYNIHAN. Mr. President, on January 25 of this year I presided over a rather extraordinary hearing before the Committee on Environment and Public Works. Before us were Mr. Reilly, the capable Administrator of the U.S. Environmental Protection Agency, and Prof. Raymond C. Loehr, the Chairman of EPA's Science Advisory Board. Mr. Reilly and Professor Loehr told us of the results of months of study by three blue ribbon panels of scientific experts on environmental risk. The fruits of their efforts was a three-volume report entitled "Reduction Risk."

This report told us that our perception of risks, and our emphasis on reducing it, did not necessarily accord with the professional judgement of the experts. This is important, if true. We now believe, although it is difficult to calculate exactly, that we spend considerably more than $115 billion each year to protect the environment, and to clean it up where we failed to protect it in the past. If we are not spending this considerable sum on the most egregious risks, protecting the largest number of people, we need to consider soon how to do better.

To do this, we need to do two things. First, we need to consult the scientists to get the facts about how pollutants in the environment create risk and, not incidentally, which cause the greatest risk. Second, we need to have environmental statistics to tell us how the concentrations of pollutants in the environment are changing, and where, and what impact this is actually having on human health and natural resources.

We took an important step toward this goal last month when we passed S. 533, the Department of the Environment Act. In that bill, we created a Bureau of Environmental Statistics to be housed in a new Department of the Environment. Unfortunately, the measure was deficient, in that it failed to provide adequately for data collection, and I rose on that occasion to say that I would remedy that deficiency.

Today I am offering a bill, the Environmental Risk Reduction Act of 1991, that directs the Administrator of the Environmental Protection Agency to continue the process begun by Professor Loehr's panel, to constitute expert panels to advise the Administrator and Congress periodically on the best scientific assessment of relative risks, and the potential benefits of alternative ways of reducing such risks. The bill also creates an Environmental Monitoring and Assessment Program to be conducted by the EPA and coordinated with the activities of other Federal agencies with health and natural resource management responsibilities. This program would collect data on the exposure of humans, plants, and animals to pollutants and the resulting health of people and natural resources.

I look forward to working with my colleagues in the Senate to make sure that we are using our environmental protection resources wisely, and that we are getting what we pay for.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2132

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Environmental Risk Reduction Act".

SEC. 2. FINDINGS AND POLICY.

(a) FINDINGS.—The Congress finds that—

(1) the cost of protecting the quality of the environment currently exceeds $115 billion per year;

(2) protecting society from global climate change, stratospheric ozone depletion, loss of biological diversity, and waste products from an ever-increasing population will cause these costs to increase in the future;

(3) although these costs are not necessarily excessive, they are too high to be used ineffectively or inefficiently;

(4) funds can only be used most effectively when they protect the largest number of people from the most egregious harm;

(5) ecological resources are extraordinarily valuable, and risks to them either directly or indirectly degrade human health and the economy;

(6) ranking of relative risks to human health, welfare, and ecological resources is a complex task, and is best performed by technical experts free from interests that could bias their objective judgment;

(7) applying technology and resources at the highest ranked risks within the intent of existing environmental statutes and identifying highly ranked risks not addressed by current statutes can significantly reduce risks to human health, welfare, and ecological resources;

(8) better risk assessment methodologies and a long-term commitment to collecting monitoring data on the condition of ecological resources and exposure of humans and ecosystems to pollutants are necessary to insure that the greatest risks can be identified, and that environmental statutes are accomplishing their intended results;

(9) ranking risks must be an ongoing process and reflect improvements in environmental data and scientific understanding; and

(10) effective and efficient strategies to reduce risks must quantify significant costs and benefits to the greatest extent possible.

(b) POLICY.—It is the policy of the United States that—

(1) Federal environmental protection activities administered by the Environmental Protection Agency shall attain the greatest risk reduction possible with the resources available; and

(2) the ability to reduce risks requires—

(A) accurate, quantitative estimates of the exposure of humans and ecosystems to all important risk factors;

(B) accurate techniques for predicting the effects of such exposures;

(C) an adequate understanding of technical, economic, social, and legal alternatives to reduce exposure to risk factors; and

(D) accurate estimates of the costs and benefits of alternatives for reducing risks.

SEC. 3. DEFINITIONS.

For the purposes of this Act, the term—

(1) "Agency" means the Environmental Protection Agency;

(2) "Administrator" means the Administrator of the Environmental Protection Agency;

(3) "risk" means the probability of the occurrence of an event;

(4) "stressor" means a physical, chemical, or biological factor resulting from human activity and capable of causing an effect on human health, welfare, or ecological resources;

(5) "exposure" means the juxtaposition in time and space of some stressor with a human or other living thing or a non-living thing important to human welfare, such that an effect could result;

(6) "effect" or "response" mean a deleterious change in the condition of a human or other living thing, including but not limited to death, cancer or other chronic illness, decreased reproductive capacity, or disfigurement, or in the condition of a non-living thing important to human welfare, including but not limited to, destruction, degeneration, loss of intended function, and increased costs for maintenance;

(7) "ecological resources" means nonhuman living things and their interactions, including, but not limited to, lakes, streams, forests, wetlands, deserts, tundra, oceans, estuaries, beaches, grassland, agricultural areas, and vegetated urban and suburban areas;

(8) "sustainable" means the ability of ecological resources to maintain diverse, self-reproducing biological communities, capable of meeting current needs of mankind without compromising the ability of future generations to meet their own needs, including natural resources such as food, fiber, lumber, fish, and game; environmental services such as flood mitigation, water storage, and regulation of the chemistry of the atmosphere, oceans, and inland waters, and opportunities for recreation, scientific study; and appreciation of the beauty and diversity of nature;

(9) "likelihood" means the estimated probability that an effect will occur;

(10) "seriousness" means the intensity of effect, independent of the magnitude;

(11) "magnitude" means the number of people or the amount of ecological resources or other resources contributing to human welfare affected by exposure to a stressor;

(12) "irreversibility" means the extent to which a return to conditions prior to the occurrence of an effect are either very slow or will never occur;

(13) "uncertainty" means the quantifiable and unquantifiable potential error in the estimation of risk which is caused by the quality of data, or the assumptions used in risk estimation;

(14) "environmental statutes" means the environmental laws administered by the Agency which include within their intent protection of the environment, including but not limited to—

(A) title XIV of the Public Service Health Act (the Safe Drinking Water Act),

(B) the Clean Water Act,

(C) the Clean Air Act,

(D) the Federal Insecticide, Fungicide, and Rodenticide Act,

(E) the Toxic Substances Control Act,

(F) the Solid Waste Disposal Act,

(G) the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, and the Superfund Amendments and Reauthorization Act of 1986,

(H) the Marine Protection, Research, and Sanctuaries Act of 1972, and

(I) laws dealing with protection from sources of radiation.

SEC. 4. EXPERT ADVISORY COMMITTEES.

(a) IN GENERAL.—The Administrator shall act to use available resources under all environmental laws to reduce the most likely, most serious, most irreversible, highest magnitude risks to human health, welfare, and ecological resources through the careful assessment and ranking of relative risks and options for their management. In order to insure that such action is based on the best available scientific understanding, the Administrator shall establish and seek advice from two expert advisory committees to be established within the Science Advisory Board.

(b) COMMITTEE ON RELATIVE RISKS.—

(1) The Administrator shall establish a standing Committee on Relative Risks within the Science Advisory Board to provide expert advice on ranking the relative risks of different stressors to human health, welfare, and ecological resources.

(2) The Committee on Relative Risks shall consist of 15 experts selected by the executive committee of the Science Advisory Board. In the case of the initial selections, 5 shall be selected for a term of 2 years, 5 for a term of 4 years, and 5 for a term of 6 years. Thereafter, each individual selected shall serve for a term of 6 years.

(3) Such experts shall be chosen to represent a broad and balanced spectrum of experience in the areas of human health effects, ecological effects, and welfare effects.

(4) Members of the Committee on Relative Risks shall elect a chairperson who shall serve for a term of 24 months.

(5) After establishing appropriate criteria and guidelines, the Committee on Relative Risks shall—

(A) identify and rank the greatest environmental risks to human health, welfare, and ecological resources; incorporating the overall likelihood, seriousness, magnitude, and irreversibility of each risk;

(B) identify a common list of the greatest risks to human health, welfare, and ecological resources;

(C) assess the state of pertinent scientific understanding and other factors contributing to uncertainty in the ranking of relative risk.

(6) Risks shall be identified by the Committee on Relative Risks in such a way that the need for new laws, and priorities within the intent of existing laws, can be identified.

(7) As a Federal advisory committee, the Committee on Relative Risks shall hold open public meetings to solicit input from the public and other sources in accordance with the Federal Advisory Committee Act.

(c) COMMITTEE ON ENVIRONMENTAL BENEFITS.—

(1) The Administrator shall establish a standing Committee on Environmental Benefits within the Science Advisory Board to provide expert advice on estimating quantitative benefits of reducing risks.

(2) The Committee on Environmental Benefits shall consist of 15 experts selected by the executive committee of the Science Advisory Board. In the case of the initial selections, 5 shall be selected for a term of 2 years, 5 for a term of 4 years, and 5 for a term of 6 years. Thereafter, each individual selected shall serve for a term of 6 years.

(3) Experts shall be chosen to represent a broad and balanced spectrum of experience in areas including but not limited to economics, engineering, public administration, and health care.

(4) Members shall elect a chairperson initially, and at 24-month intervals after each major change in the Committee membership.

(5) After establishing appropriate guidelines and criteria, the Committee on Environmental Benefits shall estimate the value of—

(A) avoiding premature mortality;

(B) avoiding cancer, diseases, birth defects, and other health effects that reduce the quality of life;

(C) preserving biological diversity and sustainable ecological resources;

(D) an aesthetic environment;

(E) services performed by ecosystems (such as flood mitigation, provision of food or materials, or regulating the chemistry of the air or water) that, if lost or degraded, would have to be replaced by technology; and

(F) avoiding other risks identified by the Committee on Relative Risks.

(6) As a Federal advisory committee, the Committee on Environmental Benefits shall hold public meetings to solicit input from the public and other sources in accordance with the Federal Advisory Committee Act.

(7) The Committee on Relative Risks and the Committee on Costs and Benefits shall report their findings to the Administrator and to the appropriate committees of Congress on or before August 1, 1992, and prior to the expiration of each 24-month period thereafter.

(d) REIMBURSEMENT.—Members of the committees established under this section shall be reimbursed for travel, as authorized by section 5703 of title 5, United States Code, subsistence, and other necessary expenses incurred in the performance of the duties of the committees.

(e) AUTHORIZATION OF APPROPRIATIONS.—For purposes of carrying out this section, there is authorized to be appropriated $3,000,000 for fiscal year 1992, and each of the next following 6 fiscal years.

SEC. 5. RISK ASSESSMENT GUIDELINES.

(a) IN GENERAL.—The Administrator shall act to protect human health and the environment on the basis of careful assessments of risk and evaluation of options for reducing risks. In making decisions about the conduct of risk assessments, the Administrator shall balance the costs of such assessments and of damage to human health or the environment that might be caused by such delays against the savings to society expected to result from more cost-effective risk reduction options identified through the risk assessment process.

(b) RISK ASSESSMENT GUIDELINES.—The Administrator shall develop, and revise as appropriate, guidelines to ensure consistency and technical quality in risk assessments by specifying minimum standards for different risk assessment approaches, depending on the scale of the problem, the level of scientific understanding, and the available data.

(c) INITIAL GUIDELINES.—The initial set of guidelines shall include risk assessments involving—

(1) human mutagenicity;

(2) human carcinogenicity;

(3) human developmental toxicants;

(4) human reproductive effects;

(5) human systemic toxicants;

(6) ecological effects of sources of pollutants from single sites;

(7) ecological effects of pollutants that originate from many sites;

(8) ecological effects from physical alteration of the environment;

(9) ecological effects of introducing non-native or genetically engineered organisms;

(10) pollutants affecting man-made materials; and

(11) pollutants affecting the productivity of soils.

(d) ADDITIONAL GUIDELINES.—The Administrator shall develop additional risk assessment guidelines as warranted by the state of pertinent scientific understanding and the need for sound decisions to protect human health, welfare, and the environment.

(e) MINIMUM REQUIREMENTS.—Risk assessment guidelines developed under this section shall include the following components:

(1) a hazard identification which demonstrates whether exposure to a stressor is or is not causally linked to an effect;

(2) an assessment that measures or estimates the exposure of well-defined individuals, populations, or materials to a stressor;

(3) an assessment which determines or estimates the magnitude of response of affected individuals, populations, or materials associated with different levels of exposure to a stressor under representative environmental conditions; and

(4) a risk characterization which provides an overall description of the nature and magnitude of probable effects resulting from alternative risk management options (including no action), together with a quantitative estimate of the attendant uncertainties.

(f) PUBLICATION IN THE FEDERAL REGISTER AND REPORTS TO CONGRESS.—The Administrator shall—

(1) publish all initial risk assessment guidelines in subsection (c) in the Federal Register within 60 months following the date of the enactment of this Act, and shall report annually to Congress on progress toward this goal; and

(2) publish new and revised guidelines in the Federal Register as necessitated by subsection (d).

SEC. 6. RISK ASSESSMENT RESEARCH.

(a) IN GENERAL.—The Administrator shall conduct a long-term core research program in environmental risk assessment research in order to insure that the risk assessment process is based on adequate environmental data and scientific understanding, in order to provide the most cost-effective use of environmental protection resources.

(b) ENVIRONMENTAL MONITORING AND ASSESSMENT PROGRAM.—The Administrator shall conduct a research program to—

(1) design and evaluate methods and networks to collect monitoring data on the current and changing condition of the environment (including, but not limited to, human health, ecological resources, materials, and exposure to environmental stressors relevant to making decisions at the Federal level about alternative risk assessment and risk reduction options;

(2) implement such monitoring programs, in cooperation with relevant programs in other Federal agencies;

(3) manage data from such monitoring programs in forms and formats readily accessible to the scientific community and the public; and

(4) provide annual statistical reports and periodic interpretive reports of the results of such monitoring programs to Congress and the public.

(c) ENVIRONMENTAL RISK ASSESSMENT RESEARCH PROGRAM.—The Administrator will conduct a long-term core program to establish a firm scientific basis for initial and subsequent risk assessment guidelines, including methods for—

(1) assessing exposure of humans, ecological resources, and materials to stressors, including methods for determining the environmentally effective level of the stressor that actually initiates the effect;

(2) accurately predicting the effects of exposure to stressors on human health, ecological resources, and materials;

(3) quantifying statistical uncertainty in exposure and stress-response estimates; and

(4) quantifying the social and economic values of effects on human health, welfare, and ecological resources.

(d) LONG-TERM RESEARCH PLANNING.—At least one-half of the research conducted under this Act shall be under contracts or assistance agreements with universities and other nonprofit or not-for-profit organizations awarded under full and open competition, under which full funding for at least 3 years of the contract will be obligated at the beginning of the contract or agreement.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated the sum of $80,000,000 for fiscal year 1992, $130,000,000 for fiscal year 1993, and $200,000,000 for each of the fiscal years 1994 through 1998, to carry out the provisions of this section.

SEC. 7. INTERAGENCY PANEL ON RISK ASSESSMENT AND REDUCTION.

(a) ESTABLISHMENT.—There is established an Inter-agency Panel on Risk Assessment and Reduction (hereafter in this Act referred to as "Interagency Panel") for the purpose of coordinating Federal research, data gathering, and implementation of environmental risk assessment and risk reduction activities.

(b) MEMBERSHIP.—The Interagency Panel shall consist of one representative each from—

(1) the Environmental Protection Agency;

(2) the Department of the Interior;

(3) the Department of Health and Human Services;

(4) the Department of Energy;

(5) the Department of Commerce;

(6) the Department of Agriculture;

(7) the Corps of Engineers;

(8) the Council on Environmental Quality; and

(9) any other Federal department or agency that the President, or the Chairman of the Interagency Committee, considers appropriate.

Each such representative shall be designated by the head of the entity named.

(c) CHAIRMAN.—The member of the Interagency Panel representing the Environmental Protection Agency shall serve as the Chairperson of the Interagency Panel.

SEC. 8. REPORTS TO CONGRESS.

(a) ASSESSMENT OF ENVIRONMENTAL RISK REDUCTION OPTIONS.—Within 24 months following the date of enactment of this Act, the Administrator shall prepare and submit a report to the Congress which identifies—

(1) a prioritized list of the human health, welfare, and ecological resource risks considered by the Committee on Relative Risks;

(2) public awareness of the likelihood, seriousness, magnitude, and irreversibility of each risk;

(3) alternative options for reducing risks and corresponding estimated costs and benefits to society, including costs to Federal agencies and the private sector, and any adverse effects that cannot yet be quantified in monetary terms;

(4) the time required for reducing risks through each option;

(5) evaluation of the uncertainty associated with relevant aspects of the assessment process; and

(6) research or data collection that would significantly reduce the uncertainty in any assessment within 24 months of the submission of the report to Congress.

(b) INTENT OF CONGRESS.—It is the intent of Congress that the information contained in the annual report be used to assist in directing the activities of the Agency so as to result in reducing the most serious and probable risks to the greatest number of people and sustainable ecological resources. The Administrator shall carry out this Act in a reasonable and prudent manner so as to insure the protection of public health and the environment, and in a manner open to public inspection, but he shall not be delayed in carrying out his responsibilities under other environmental laws by his responsibilities under this Act.

(c) ONGOING ASSESSMENT.—The Administrator shall revise and update the report submitted under this section at least every 24 months to reflect new data or scientific understanding.

SEC. 9. AUTHORIZATION OF APPROPRIATIONS.

Except as otherwise provided in sections 4 and 6, nothing in this Act shall constitute a new authorization for the appropriation of funds.•

By Mr. DODD (for himself and Mr. LAUTENBERG):

S. 2133. A bill to provide for the economic conversion and diversification of industries in the defense industrial base of the United States that are adversely affected by significant reductions in spending; to the Committee on Banking, Housing, and Urban Affairs.

DEFENSE INDUSTRIAL STABILIZATION AND COMMUNITY TRANSITION ACT OF 1991

• Mr. DODD. Mr. President, I rise today to introduce the Defense Industrial Stabilization and Community Transition Act of 1991, a bill to provide economic adjustment assistance to industries, communities and dislocated workers impacted by cuts in defense spending.

There can be no doubt, Mr. President, that the past few years have brought sweeping changes across the globe. In the Soviet Union, communism has collapsed. In Eastern Europe, democracy and free market ideology have taken root. In Angola, Cambodia, and other tortured regions around the world, the end of the cold war has given people an opportunity to lift themselves from war and build for themselves a better life.

We would be fooling ourselves, however, if we believed that there are no more threats left in the world. The instability in the Soviet Republics and the Civil war in Yugoslavia are proof of that. We still need an active, vigilant defense, equipped with the best available technologies and armed with the best available weaponry. And we must view any prospective cuts in our defense budget with a tempered, cautious eye.

But the fact is the cascade of world events nearly assures that cuts will eventually come to the defense budget. Our task is to see to it that those cuts are careful, measured, and responsible. Most importantly, however, it is our responsibility to ensure that those cuts are carried out with the least possible disruption to our economy.

The bill I am introducing today is a first step, Mr. President, in meeting that important mandate.

Mr. President, during my 17 years in the U.S. Congress I have spoken often about the need for communities and industries to diversify their production. That is a conviction I held in 1978, when I sponsored defense diversification legislation in the House of Representatives. It is a conviction I held when, over a decade ago, I hosted a conference in Connecticut on the defense diversification issue.

And it is a conviction I hold even more firmly today.

The legislation I am introducing today will not cure the problem of dislocated workers. It is not a panacea for the plague of closed plants or dormant production lines. But it is a vital first step to give defense-dependent communities and industries the resources to help themselves. And it is an attempt to provide defense workers with the same sense of stability and security they have helped create for all Americans.

As 1991 draws to a close, whom do we thank for our victory in the cold war? Certainly we must honor the brave Americans who risked their lives in combat for the price of freedom. And we owe a debt of gratitude to the U.S. ground forces and air patrols that for decades have kept a vigilant watch in Europe and the Pacific.

But as we take the roll of honor in the struggle against communism, as we sum up the achievements of the glorious and the proud, as we hand out the placards and the awards and the trophies, there is one aspect of the battle we must never forget.

It is a capable sector of our economy known as the defense industry, Mr. President, that makes it all possible.

Mr. President, I have long believed that the workers in our defense industry are the veterans of the cold war. Whether in Groton, CT, or St. Louis, MI, or Fort Worth, TX—indeed in communities all across the Nation—the defense industry has given our fighting men and women the best armaments that money can buy. This vast army of workers and engineers answered the call of patriotism and rose to their Nation's defense in the way they knew how—with machine tools and carbon welds, drafting boards and blueprints.

As veterans of the cold war, Mr. President, these defense workers deserve more than our debt of gratitude. We owe them our pledge that their jobs and their livelihoods will not be jeopardized by the very peace they helped bring about.

In communities across the Nation, a sudden drop in Federal defense expenditures threatens to slam shut the doors of factories, dry up local resources, and cast workers and managers alike onto the street. The very people who devoted their souls to the preservation of this Nation's defense may face the horrible prospect of being forced from their jobs, victims of their own success.

But Mr. President, the potential threat goes deeper than that. Let me cite one example within my State. Just yesterday, I was approached by a representative of Colt Manufacturing, the firearms producer that employs nearly 1,000 people in Hartford. I was told that due to declining expenditures, the company may be forced to shut down its entire production line, both commercial and military, within two months.

The loss, of 1,000 employees, in an economy such as Connecticut's, would be staggering. But even more disturbing is the fact that the Nation's leading manufacturer of firearms—and one that has been in my State for over 100 years—would be lost forever. The skill and experience developed over more than a century would simply evaporate, never to be regained.

In the global economic competition of the 21st century, the loss of a manufacturer with such expertise would be terribly damaging. And in a world that still remains dangerous—despite the dramatic transformations of the past few years—our ability to retool our industries for defense production must be preserved.

We must not repeat the experience after World War II, when we let our defense industrial base collapse and found ourselves unprepared for the outbreak of the Korean war. We must remain vigilant and prepared to meet any contingency. We must apply the same expertise and ingenuity to the transition of the defense economy as we did to its creation, or we will lose forever these technologies, this industrial base, and important jobs.

These are the problems we face, Mr. President, as we prepare to adapt the economy of the United States. It is a daunting challenge—but it must be met head on. The restructuring of budget priorities provides us with a unique opportunity to assess our technological strengths, and a challenge to solidify our gains.

Sadly, we have not met this challenge to date.

President Bush maintains that economic adjustment is not necessary. He says the reduction in the deficit caused by lower defense spending will stimulate the economy to create new opportunities. But the President misses the trees for the forest. I fail to see how New London County—which received over $9,000 per capita in defense dollars last year and by one estimate stands to lose over 21,000 jobs by 1996 due to defense cuts—will gain from a reduction in the deficit.

It is for this reason, Mr. President, that I have chosen to introduce this bill. I am pleased to be joined by Senator LIEBERMAN in this effort. And I am pleased to join him on the bill he has introduced, the Industrial Diversification and Economic Adjustment Act of 1991.

In drafting the bill I am putting forward today, I followed a few simple guidelines.

First, any effort at diversification must be coordinated. This bill calls for the establishment of a Presidential Council on Economic Adjustment. Among the duties of this council will be the planning and evaluation of Federal adjustment initiatives, the carrying out of studies on technology transfer and marketing potential for newly developing industries, and the maintaining of a clearinghouse for Federal and State initiatives.

But the most important aspect of this council, Mr. President, is that it serve as a liaison—a vital link between companies and communities that are endangered by defense cuts, and the Federal programs that can help them adjust to those cuts. There are a host of programs already available, whether oriented toward technology transfer, export assistance, economic development, job training, or small business. The Presidential Council on Economic Adjustment shall be responsible for ensuring those resources are amply used.

Second, companies and communities must have the flexibility to utilize those measures appropriate for them. The bill rejects the use of mandates or other requirements that industries or communities must meet. Rather, this legislation provides a panorama of options from which those in need can choose.

Defense companies may receive Federal matching grants for the establishment of alternative use committees to explore other ways to utilize their production lines. They will become eligible under the Defense Production Act for loans, loan guarantees, and joint Federal-private initiatives aimed at diversification. And to help smooth out the transition, defense companies shall become eligible for State Department-backed loan guarantees for the export of military goods to NATO countries, plus Japan, Israel, Australia, or New Zealand.

The goal of these provisions is simple: to encourage defense contractors to keep their lines open, commercialize their products and keep skilled labor in place. When companies stay open, job security is maintained. It is as simple as that.

But we do not focus entirely on companies in this bill. Flexibility must apply to the individual and the community, as well. That is why we provide additional funding for assistance to paid off defense workers through the Job Training Partnership Act. And it is why we allow defense-dependent communities to apply for additional assistance under Title IX of the Public Works and Development Act. There is truly something for everyone in this bill.

Third, the bill adheres to the fundamental premise regarding an ounce of prevention. It requires the Presidential Council to identify on an annual basis not only those communities that are currently at risk due to planned defense cuts, but those communities that are potentially at risk in the future due to a heavy concentration of defense-dependent industries. Such communities would also be eligible for assistance under this bill.

Finally, the bill recognizes that a program of this scope is not without its costs. To pay for its provisions, it sets aside 10 percent of the approximate savings from reductions in the defense budget. This provides an ample and responsible funding base.

Mr. President, as I have said before, I certainly do not regard this bill as a panacea. It is not the final say on this matter. But with it we are laying down a marker—stating firmly and unequivocably that the issue of defense economic adjustment deserves attention and debate. We owe it to our defense industry. We owe it to our defense industry workers. And ultimately, we owe it to ourselves.

If we are to take some responsibility for our future capabilities in production and engineering, if we are to start planning today for the economy of tomorrow, we must reinvigorate the debate on this fundamentally important issue. This is not about rewarding the defense industry, or subsidizing the defense worker. It is not preserving the basic technological developments that brought us into this decade—and seeking the technologies to catapult us into the next one.

I look forward to working with Senator LIEBERMAN and the leadership of the Congress on this important legislation.•

By Mr. NUNN (for himself and Mr. FOWLER):

S. 2134. A bill to provide for the minting of commemorative coins to support the 1996 Atlanta Centennial Olympic games and the programs of the United States Olympic Committee; to the Committee on Banking, Housing, and Urban Affairs.

1996 ATLANTA CENTENNIAL OLYMPIC GAMES COMMEMORATIVE COIN ACT

• Mr. NUNN. Mr. President, I rise today to join my colleague from Georgia, Senator WYCHE FOWLER, in introducing legislation to honor and assist the centennial Olympic games being held in Atlanta in the summer of 1996 by authorizing a special commemorative coin. This is an exact counterpart to a House bill already introduced by Representative DOUG BARNARD, who is the Georgia congressional delegation's lead member on this issue.

This legislation follows the precedent established when the United States last hosted the Olympics, in Los Angeles in 1984. As in 1984, we are establishing a 2-year commemorative coin program to culminate in the Olympic year, with proceeds divided between the Olympic Organizing Committee and the U.S. Olympic Committee.

The 1984 Olympic coin helped make the Los Angeles Olympics a financial success, raising $73 million. The Atlanta Committee for the Olympic games hopes to raise a total of $100 million with its commemorative coin, a small but crucial element in its projected budget of $1.2 billion.

Aside from its financial aspects, this commemorative coin program provides both American citizens and international supporters of the Olympic movement a means of participating in the centennial games.

From the moment last autumn in Tokyo when Atlanta concluded its upset victory in the bid for the 1996 games, there has been an exceptional air of excitement about this event. It has galvanized not just Atlanta but the entire southeastern region. As the first summer games ever held on the east coast of the United States, the 1996 games will be the most widely broadcast in history, and one of the most heavily attended, with more than 150,000 people per day expected.

Mr. President, I urge my Senate colleagues to express their support for America's centennial games by supporting establishment of this commemorative coin program.•

By Mr. KENNEDY:

S. 2135. A bill to amend the Federal Food, Drug, and Cosmetic Act to enhance the enforcement authority of the Food and Drug Administration, and for other purposes; to the Committee on Labor and Human Resources.

FOOD, DRUG, COSMETIC, AND DEVICE ENFORCEMENT AUTHORITIES ACT

Mr. KENNEDY. Mr. President, today I am pleased to introduce the Food, Drug, Cosmetic and Device Enforcement Authorities Act of 1991. The legislation will finally provide the Food and Drug Administration [FDA] with the same enforcement tools granted to other regulatory agencies, and will enable the FDA to more effectively carry out its critical responsibilities under the Food, Drug and Cosmetic Act.

The FDA regulates products which account for 25 cents of every dollar spent in this country—a statistic about the agency that is cited often. However, more important than the sheer volume of products subject to FDA oversight is the degree to which these regulated products affect the lives of every American in vital ways each day. Ineffective oversight by the FDA exposes the public to substantial risks from unsafe or defective products.

The stark reality is that the FDA simply does not have the necessary means to enforce the law. The enforcement provisions in the Food, Drug and Cosmetic Act are more than 50 years old. The enforcement authorities were written prior to the first therapeutic use of Penicillin, and have been rendered obsolete by the development of products unimagined half a century ago. The FDA has a unique mission as both a scientific agency, and an agency charged with consumer protection. The FDA cannot fulfill its mandates without enforcement authorities which give it the ability to obtain essential information concerning regulated products in an efficient and timely manner.

Earlier this year the Edwards Committee, a blue ribbon panel of FDA experts, criticized what it called the FDA's mixed bag of enforcement tools and recommended that "the Agency should be armed with the same tools for all products that it regulates." Last year, passage of the Safe Medical Devices Act gave the Agency the ability to impose administrative civil penalties for medical device violations. However, for violations relating to foods, drugs or cosmetics, FDA must still rely solely on the harsh sanction of criminal penalties, which is a severe limitation of FDA's ability to institute appropriate sanctions. Last year Congress also provided FDA with the authority to recall medical devices which posed unacceptable risks, but FDA cannot institute mandatory recalls of foods, drugs or cosmetics. The FDA has record inspection authority to inspect the records of drug and medical device manufacturers, but that authority does not extend to food or cosmetic facilities.

In contrast to the FDA, the enforcement authorities of other U.S. regulatory agencies have been improved over time. For example, the FDA does not have authority to subpoena documents and witnesses in connection with investigations, unlike the Environmental Protection Agency, the Federal Trade Commission, and the Consumer Product Safety Commission. There is no reason for the FDA, with its enormous responsibilities, to have enforcement authorities inferior to those of other regulatory agencies.

While there is an urgent need to increase FDA's enforcement authorities, the regulated industries have raised concerns about the scope of these authorities. As a result, these new enforcement powers are carefully circumscribed in this bill.

The legislation would grant the following authorities:

The Federal courts would be able to recall products which were in violation of the Food, Drug and Cosmetic Act. This provision reflects the standard included in an original health and human services bill on enforcement authorities;

The administrative recall provision employs the same standard for food, drug, or cosmetic recalls as current law for medical devices. Administrative recall could be instituted if there was a reasonable probability that a food, drug, or cosmetic will cause serious adverse health consequences or death;

The seizure authority of the agency would be refined, and the agency would be given the authority to embargo products while a seizure order is being obtained. Currently, there is no Federal embargo authority for food, drugs, or cosmetics, and the FDA must rely on state embargo authority; and

The agency would be granted subpoena authority in connection with an administrative investigation. Subpoenas could only be issued by the Commissioner, the Chief Counsel of FDA, or an administrative law judge in connection with a hearing.

The bill identifies a variety of special protections for formulas and other trade secret information, certain types of financial information and patients names in medical or research files. The legislation also directs the Secretary, to the extent appropriate, to follow the requirements of the Federal Trade Commission Act when issuing guidelines on the use of subpoenas, and on the protection of confidential information obtained by subpoena. The Federal Trade Commission statute has proven to be a model in protecting the confidentiality of commercial information obtained in investigations, and it should serve as a helpful example to the Commisssioner.

The bill would provide the agency with administrative civil money penalty authority for violations involving all the products that it regulates. This is another area where the most recent revision of the medical device amendments provided such administrative civil money penalties, but such authority must be agency wide to permit maximum flexiblity.

The inspection authority of the agency would be strengthened, making food facilities subject to the kinds of inspections to which other drug and device facilities are already subject. The legislation imposes explicit limitations on this general inspection authority.

The agency would be authorized to order the destruction of imported products determined to be hazardous to health, preventing the port shopping which currently allows many hazardous products to successfully evade current inspection efforts.

The bill would define all products affecting interstate commerce as subject to the new enforcement laws, making the FDA enforcement activities more efficient and effective. Under current law, FDA must waste valuable resources preparing to prove that products move in interstate commerce.

The FDA cannot maintain its credibility as an enforcement agency without enforcement tools that allow it to regulate aggressively and consistently. We cannot continue to handcuff the agency responsible for assuring the safety and efficacy of essential products with antiquated enforcement laws. I look forward to an early hearing on this legislation next year.

I also look forward to pursuing other important FDA reforms. As the Edwards Committee report made clear, the FDA needs broad reform in several areas, including the need to assure the independence of the FDA commissioner, the need to remedy the crippling short-fall in FDA resources, and the need to improve utilization of existing facilities and personnel. I will be introducing legislation next year which will address these issues. While improved enforcement is crucial to FDA's mission, the agency cannot meet the unprecedented challenges it faces without fundamental change in many areas.

By Mr. CONRAD:

S. 2136. A bill to authorize construction of the northwest area water supply/Fort Berthold intergrated water supply project, hereinafter referred to as the "Na chiin Huun—Dakota Project," and for other purposes; to the Committee on Energy and Natural Resources.

NA CHIIN HUNN—DAKOTA PROJECT ACT OF 1991

Mr. CONRAD. Mr. President, I rise today to introduce legislation to provide much needed water supplies to the Fort Berthold Reservation and northwestern North Dakota.

This legislation was developed after a number of years of study. The first study of how to meet the water needs of northwestern North Dakota was conducted in 1988. Dramatic water quality and supply needs were identified in nearly all of the region. The three affiliated tribes were also studying ways to meet their own significant water quality and supply needs.

The State and the three affiliated tribes decided to combine their efforts into one overall integrated water supply system serving regional demands. This bill implements their proposals.

This legislation was developed through a consultative process within the State of North Dakota. I understand it will be amended as we move through this process, and I look forward to receiving comments on this legislation and hearings on this subject.

ADDITIONAL COSPONSORS

S. 359

At the request of Mr. BOREN, the name of the Senator from Idaho [Mr. CRAIG] was added as a cosponsor of S. 359, a bill to amend the Internal Revenue Code of 1986 to provide that charitable contributions of appreciated property will not be treated as an item of tax preference.

S. 474

At the request of Mr. DECONCINI, the name of the Senator from North Dakota [Mr. CONRAD] was added as a cosponsor of S. 474, a bill to prohibit sports gambling under State law.

S. 493

At the request of Mr. KENNEDY, the name of the Senator from North Dakota [Mr. CONRAD] was added as a cosponsor of S. 493, a bill to amend the Public Health Service Act to improve the health of pregnant women, infants and children through the provision of comprehensive primary and preventive care, and for other purposes.

S. 747

At the request of Mr. PRYOR, the name of the Senator from Maine [Mr. MITCHELL] was added as a cosponsor of S. 747, a bill to amend the Internal Revenue Code of 1986 to clarify portions of the Code relating to church pension benefit plans, to modify certain provisions relating to participants in such plans, to reduce the complexity of and to bring workable consistency to the applicable rules, to promote retirement savings and benefits, and for other purposes.

S. 891

At the request of Mr. MACK, the names of the Senator from Colorado [Mr. WIRTH] and the Senator from Mississippi [Mr. COCHRAN] were added as cosponsors of S. 891, a bill to amend the Internal Revenue Code of 1986 to provide a refundable credit for qualified cancer screening tests.

S. 1257

At the request of Mr. BOREN, the name of the Senator from Utah [Mr. GARN] was added as a cosponsor of S. 1257, a bill to amend the Internal Revenue Code of 1986 with respect to the treatment of certain real estate activities under the limitations on losses from passive activities.

S. 1261

At the request of Mr. DOLE, the name of the Senator from Louisiana [Mr. BREAUX] was added as a cosponsor of S. 1261, a bill to amend the Internal Revenue Code of 1986 to repeal the luxury excise tax.

S. 1521

At the request of Mr. MCCONNELL, the name of the Senator from Minnesota [Mr. DURENBERGER] was added as a cosponsor of S. 1521, a bill to provide a cause of action for victims of sexual abuse, rape, and murder, against producers and distributors of hard-core pornographic material.

S. 1557

At the request of Mr. LAUTENBERG, the name of the Senator from Minnesota [Mr. WELLSTONE] was added as a cosponsor of S. 1557, a bill to improve the implementation and enforcement of the Federal cleanup program.

S. 1597

At the request of Mr. HATFIELD, the name of the Senator from North Dakota [Mr. CONRAD] was added as a cosponsor of S. 1597, a bill to amend the Public Health Service Act to provide grants to entities in rural areas that design and implement innovative approaches to improve the availability and quality of health care in such rural areas, and for other purposes.

S. 1627

At the request of Mr. FORD, the name of the Senator from Wyoming [Mr. WALLOP] was added as a cosponsor of S. 1627, a bill to amend section 615 of title 38, United States Code, to require the Secretary of Veterans Affairs to permit persons who receive care at medical facilities of the Department of Veterans Affairs to have access to and to consume tobacco products.

S. 1647

At the request of Mr. CHAFEE, the name of the Senator from Mississippi [Mr. LOTT] was added as a cosponsor of S. 1647, a bill to amend the Internal Revenue Code of 1986 to provide that the deduction for State and local income and franchise taxes shall not be allocated to foreign source income.

S. 1698

At the request of Mr. SARBANES, the name of the Senator from Hawaii [Mr. INOUYE] was added as a cosponsor of S. 1698, a bill to establish a National Fallen Firefighters Foundation.

S. 1774

At the request of Mr. BRYAN, the name of the Senator from New Jersey [Mr. LAUTENBERG] was added as a cosponsor of S. 1774, a bill to establish a silver congressional commemorative medal for members of the United States Armed Forces who served in a combat zone in connection with the Persian Gulf conflict.

S. 1786

At the request of Mr. BAUCUS, the name of the Senator from Mississippi [Mr. LOTT] was added as a cosponsor of S. 1786, a bill to amend the Internal Revenue Code of 1986 to more accurately codify the depreciable life of semiconductor manufacturing equipment.

S. 1788

At the request of Mr. WIRTH, the name of the Senator from North Dakota [Mr. CONRAD] was added as a cosponsor of S. 1788, a bill to establish the National Air and Space Museum Expansion Site Advisory Panel for the purpose of developing a national competition for the evaluation of possible expansion sites for the National Air and Space Museum, and to authorize the Board of Regents of the Smithsonian Institution to select, plan, and design such site.

S. 1877

At the request of Mr. BOND, the name of the Senator from North Dakota [Mr. CONRAD] was added as a cosponsor of S. 1877, a bill to require the use of child restraint systems on commercial aircraft.

S. 1886

At the request of Mr. MCCONNELL, the name of the Senator from Florida [Mr. MACK] was added as a cosponsor of S. 1886, a bill to delay until September 30, 1992, the issuance of any regulations by the Secretary of Health and Human Services changing the treatment of voluntary contributions and provider-specific taxes by States as a source of a State's expenditures for which Federal financial participation is available under the Medicaid Program and to maintain the treatment of intergovernmental transfers as such a source.

S. 1931

At the request of Mr. STEVENS, the names of the Senator from Washington [Mr. GORTON] and the Senator from South Dakota [Mr. PRESSLER] were added as cosponsors of S. 1931, a bill to authorize the Air Force Association to establish a memorial in the District of Columbia or its environs.

S. 1950

At the request of Mr. DANFORTH, the name of the Senator from Hawaii [Mr. AKAKA] was added as a cosponsor of S. 1950, a bill to amend the Internal Revenue Code of 1986 to extend for 1 year certain expiring tax provisions.

S. 2015

At the request of Mr. DOLE, the name of the Senator from Virginia [Mr. WARNER] was added as a cosponsor of S. 2015, a bill to urge and request the award of the Bronze Star to Navy and Marine Corps personnel who served in the the defense of Corregidor Island, the Philippines, under General Wainwright.

S. 2065

At the request of Mr. DIXON, the name of the Senator from Kansas [Mrs. KASSEBAUM] was withdrawn as a cosponsor of S. 2065, a bill to federalize the crime of child molestation for repeat offenders.

S. 2089

At the request of Mr. MCCAIN, his name was added as a cosponsor of S. 2089, a bill to repeal exemptions from civil rights and labor laws for Members of Congress.

S. 2091

At the request of Mr. DECONCINI, the names of the Senator from Minnesota [Mr. DURENBERGER] and the Senator from Maryland [Mr. SARBANES] were added as cosponsors of S. 2091, a bill to assure the protection of Haitians in the United States or in United States custody pending the resumption of democratic rule in Haiti.

S. 2117

At the request of Mr. SASSER, the names of the Senator from Georgia [Mr. FOWLER], the Senator from Nevada [Mr. BRYAN], and the Senator from Nevada [Mr. REID] were added as cosponsors of S. 2117, a bill to ensure proper service to the public by the Social Security Administration by providing for proper budgetary treatment of Social Security administrative expenses.

SENATE JOINT RESOLUTION 113

At the request of Mr. LAUTENBERG, the name of the Senator from New York [Mr. D'AMATO] was added as a cosponsor of Senate Joint Resolution 113, a joint resolution designating the oak as the national arboreal emblem.

SENATE CONCURRENT RESOLUTION 43

At the request of Mr. DODD, the names of the Senator from Washington [Mr. GORTON], the Senator from Tennessee [Mr. SASSER], the Senator from Mississippi [Mr. COCHRAN], the Senator from Ohio [Mr. METZENBAUM], the Senator from Virginia [Mr. WARNER], and the Senator from West Virginia [Mr. ROCKEFELLER] were added as cosponsors of Senate Concurrent Resolution 43, a concurrent resolution concerning the emancipation of the Baha'i community of Iran.

SENATE CONCURRENT RESOLUTION 57

At the request of Mr. BOREN, the name of the Senator from Utah [Mr. HATCH] was added as a cosponsor of Senate Concurrent Resolution 57, a concurrent resolution to establish a Joint Committee on the Organization of Congress.

SENATE CONCURRENT RESOLUTION 65

At the request of Mr. DECONCINI, the names of the Senator from Alabama [Mr. SHELBY] and the Senator from Washington [Mr. ADAMS] were added as cosponsors of Senate Concurrent Resolution 65, a concurrent resolution to express the sense of the Congress that the President should recognize Ukraine's independence.

SENATE CONCURRENT RESOLUTION 75

At the request of Mr. REID, the name of the Senator from California [Mr. SEYMOUR] was added as a cosponsor of Senate Concurrent Resolution 75, a concurrent resolution expressing the sense of the Congress that the President should award the Presidential Unit Citation to the crew of the U.S.S. Nevada for their heroism and gallantry during the attack on Pearl Harbor on December 7, 1941.

SENATE RESOLUTION 230

At the request of Mr. D'AMATO, the name of the Senator from South Carolina [Mr. THURMOND] was added as a cosponsor of Senate Resolution 230, a resolution in support of Machine Tools VRA.

SENATE CONCURRENT RESOLUTION 83—CORRECTING THE ENROLLMENT OF S. 543

Mr. GARN submitted the following concurrent resolution; which was considered and agreed to:

S. CON. RES. 83

Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the bill, S. 543, the Secretary of the Senate shall make the following correction:

At the appropriate place, insert:

SEC. . SPECIAL INSURED DEPOSITS.

For purposes of the Federal Deposit Insurance Act (12 U.S.C. 1811 et seq.), the deposits of the Freedom National Bank of New York and the deposits of Community National Bank and Trust Company of New York that—

(1) were deposited by a charitable organization as such term is defined by New York State law, or by a religious organization; and

(2) were deposits of such bank on the date of its closure by the Office of the Comptroller of the Currency,

shall be fully insured notwithstanding any other provisions of the Federal Deposit Insurance Act.

SENATE CONCURRENT RESOLUTION 84—CORRECTING THE ENROLLMENT OF H.R. 3435

Mr. RIEGLE submitted the following concurrent resolution; which was considered and agreed to:

S. CON. RES. 84

Resolved by the Senate (the House of Representatives concurring), The Clerk of the House is directed to make the following changes in the enrollment of H.R. 3435:

Strike Section 618.

SENATE CONCURRENT RESOLUTION NO. 85—CORRECTING A TECHNICAL ERROR IN THE ENROLLMENT OF THE BILL (H.R. 3531)

Mr. FORD (for Mr. DECONCINI) submitted the following concurrent resolution; which was considered and agreed to:

S. CON. RES. 85

Resolved by the Senate (the House of Representatives concurring), That in the enrollment of the bill (H.R. 3531), an Act to authorize appropriations for the Patent and Trademark Office in the Department of Commerce for fiscal year 1992, and for other purposes, the Clerk of the House of Representatives shall make the following corrections:

(1) In section 8 of the bill insert a semicolon immediately after the first quotation marks.

(2) In section 5(d)(2)(C) insert quotation marks immediately before "CHAPTER 4—PATENT FEES;".

SENATE CONCURRENT RESOLUTION NO. 86—CORRECTING THE ENROLLMENT OF H.R. 2950

Mr. CHAFEE (for Mr. DOLE) submits a concurrent resolution; which was considered and agreed to:

S. CON. RES. 86

Resolved by the Senate (the House of Representatives concurring), That the Clerk of the House is directed to make the following changes in the enrollment of H.R. 2950, section 1014(e)(2).

At page 73, line 2, strike "91" and insert "81";

At page 73, line 4, strike "91" and insert "81".

SENATE RESOLUTION 238—RELATIVE TO SENATE PERQUISITES

Mr. SPECTER submitted the following resolution; which was referred to the Commitee on Rules and Administration:

S. RES. 238

Whereas, there is an important open issue on the propriety of perquisites enjoyed by members of the Senate, including but not limited to medical services, dental services, gymnasium facilities, cut rates for barber/beauty shop services, limousine service for the leadership, use of artwork, and airport parking;

Whereas, an objective evaluation should be made as to appropriate payment for such services for purposes of computing overall compensation as well as taxable income: Now, therefore, be it

Resolved, That the Committee on Rules and Administration shall report to the full Senate on or before June 30, 1992 on a plan to deal with Senators' perquisites with a view toward having Members of the Senate pay full market value for such perquisites or having such value of such perquisites included in the overall compensation of each Member of the Senate.

Mr. SPECTER. Mr. President, recent events in the U.S. Congress have raised questions as to the propriety of certain perquisites and privileges available to Members of Congress. Such events in this Senator's view, are facilitating a loss of public confidence in Congress. Accordingly, I believe there is an urgent need for this body to review its practices and procedures in order to bolster public confidence in Congress.

To this end Mr. President, today I am introducing a resolution calling on the Senate Rules Committee to perform an objective evaluation of perquisites for Members of the Senate and to report back to the full Senate by June 30, 1992, with a plan to deal with those perquisites that are not required for performing the constitutional duties of a U.S. Senator. In particular, I believe that those perks that are required for performing our duties should be paid for by Senators and not subsidized by American taxpayers.

Mr. President, as Senators we receive a number of perquisites that are incidental and integral to the performance of our official duties. These perks include among others, the franking privilege and our office allowances. However, there are a number of other perquisites such as medical and dental services, gymnasium privileges, airport parking, and the use of artwork from the National Gallery of Art, for which we do not pay and which are not integral to the performance of such duties.

In view of these latter perquisites, my resolution calls on the Rules Committee to evaluate all of the perquisites which members of this body receive to determine which are appropriate payment or otherwise be included in such members' overall compensation.

SENATE RESOLUTION NO. 239—RELATING TO THE ALBERT EINSTEIN SENATE FELLOWSHIP PROGRAM

Mr. CHAFEE (for Mr. HATFIELD) submitted the following resolution; which was considered and agreed to:

S. RES. 239

Resolved,

SECTION 1. SHORT TITLE.

This resolution may be referred to as the "Albert Einstein Senate Fellowship Program Resolution".

SEC. 2. REAUTHORIZATION.

The authority provided in Senate Resolution 173 of the One Hundred-second Congress (agree to on August 2, 1991), as amended by Senate Resolution 208 of the One Hundred-second Congress (agreed to on October 25, 1991), and further amended by Senate Resolution 228 of the One Hundred-second Congress (agreed to on November 21, 1991), is hereby reauthorized in accord with the provisions of this resolution.

SEC. 3. FELLOWSHIP PROGRAM.

(a) IN GENERAL.—The President pro tempore of the Senate is authorized to enter into an agreement with the Triangle Coalition for Science and Technology Education (hereafter in this resolution referred to as "Coalition") to establish an Albert Einstein Senate Fellowship Program (hereafter in this resolution referred to as the "fellowship program"), which, beginning with the fiscal year 1991, provides for two fellowships in the Senate for each fiscal year.

(b) RESPONSIBILITIES.—The President pro tempore of the Senate may enter into the agreement described in subsection (a), and authorize the expenditure of funds pursuant to section 4(e), only if the Coalition—

(1) undertakes the application responsibilities referred to in section 4(a);

(2) participates in the evaluation referred to in section 5; and

(3) provides the funding for administration and evaluation costs referred to in section 6(b), and partial compensation referred to in section 4(e)(1)(A).

SEC. 4. SELECTION PROCESS.

(a) APPLICATION RESPONSIBILITIES.—The Coalition shall—

(1) develop and administer an application process in accord with subsection (d);

(2) publicize the fellowship program; and

(3) conduct an initial screening of applicants for the fellowship program.

(b) SELECTION.—Each fiscal year the President pro tempore of the Senate, upon the recommendation of the Majority Leader, in consultation with the Minority Leader, shall select the two recipients of the Senate fellowships from among the applicants processed under subsection (a).

(c) PLACEMENT OF FELLOWSHIPS.—

(1) The President pro tempore of the Senate, upon the recommendation of the Majority Leader, in consultation with the Minority Leader, and the chairmen and ranking minority party members of the Committee on Labor and Human Resources and the Committee on Commerce, Science, and Transportation of the Senate, may place one

fellowship recipient on the staff of the Committee on Labor and Human Resources, and may place one fellowship recipient on the staff of the Committee on Commerce, Science, and Transportation.

(2) Notwithstanding paragraph (1), either or both fellowship recipients may instead be placed on the personal staff of a member of the Senate.

(d) Eligible Recipients.—Applicants screened under subsection (a) shall be from among a pool of nationally recognized outstanding secondary school science and mathematics teachers. The pool shall include teachers who have received Presidential Awards for Excellence in Science and Mathematics Teaching, as established by section 117(a) of the National Science Foundation Authorization Act of 1988 (42 U.S.C. 1881b), or other similar recognition of skills, experience, and ability as science or mathematics teachers.

(e) Compensation.—

(1) Each recipient of a Senate fellowship shall be compensated—

(A) in part by the Coalition;

(B) in part from funds made available under section 6(a).

(2) The President pro tempore of the Senate shall fix the compensation of each recipient authorized in paragraph (1)(B) at not to exceed one-half of the funds authorized to be available for each respective fiscal year under section 6(a).

(f) Length of Term.—Each fellowship recipient shall serve for a period of ten months.

SEC. 5. EVALUATION.

The Chairman of each committee or the member of the Senate in whose office a fellowship recipient is placed, and the Executive Director of the Coalition shall submit to the President pro tempore of the Senate an annual report evaluating the fellowship program, and shall make recommendations concerning the continuation of the program.

SEC. 6. FUNDING.

(a) Fellowships.—For fiscal years 1991, 1992, and 1993, the funds authorized to compensate Senate fellowship recipients under section 4(e) shall be paid from the contingent fund of the Senate, but not to exceed a total of $40,000 in fiscal year 1991 with such funds to remain available through September 30, 1992, $42,500 in fiscal year 1992, and $45,000 in fiscal year 1993 for the Senate fellowships.

(b) Administration and Evaluation.—The Coalition shall provide the funds necessary for the administration of the fellowship program, and for evaluations conducted pursuant to section 5.

SEC. 7. SUPERSEDING PREVIOUS AUTHORITY.

This resolution supersedes the resolutions referred to in section 2.

SEC. 8. TERMINATION DATE.

The provisions of this resolution shall terminate September 30, 1993.

SENATE RESOLUTION NO. 240—RELATING TO THE UNITED STATES CAPITOL PRESERVATION COMMISSION

Mr. FORD (for Mr. Byrd) submitted the following resolution; which was considered and agreed to:

S. Res. 240

Resolved, That paragraph 1 of Rule IV of the Rules for the Regulation of the Senate Wing of the United States Capitol be temporarily suspended for the sole and specific purpose of permitting the United States Capitol Preservation Commission and its designated agents to conduct activities in accordance with the purposes of the Commission on such dates and times, and in such manner as determined by the Senate Co-chair of the Commission or his designee.

Sec. 2. The Sergeant at Arms of the Senate is authorized and directed to make the necessary arrangements to facilitate activities authorized by this resolution.

SENATE RESOLUTION NO. 241—RELATING TO THE UNITED STATES VERSUS PETER MACDONALD CASE

Mr. MITCHELL (for himself and Mr. Dole) submitted the following resolution; which was considered and agreed to:

S. Res. 241

Whereas, in the case of *United States* v. *Peter MacDonald, Jr., et al.*, No. CR-91-087-PCT-EHC, pending in the United States District Court for the District of Arizona, counsel for defendant Peter MacDonald, Jr., has requested the testimony of Kenneth M. Ballen, a former employee of the Senate on the Staff of the Special Committee on Investigations of the Select Committee on Indian Affairs;

Whereas, pursuant to section 703(a) and 704(a)(2) of the Ethics in Government Act of 1978, 2 U.S.C. §§ 288b(a) and 288c(a)(2), the Senate may direct its counsel to represent employees of the Senate with respect to any subpoena, order, or request for testimony relating to their official responsibilities;

Whereas, by the privileges of the Senate of the United States and Rule XI of the Standing Rules of the Senate, no evidence under the control or in the possession of the Senate, can, by administrative or judicial processs, be taken from such control or possession but by permission of the Senate;

Whereas, when it appears that evidence under the control or in the possession of the Senate is needed for the promotion of justice, the Senate will take such action as will promote the ends of justice consistent with the privileges of the Senate: Now, therefore, be it

Resolved, That Kenneth M. Ballen, and any other employee or former employee of the Senate from whom testimony may be necessary, are authorized to testify in *United States* v. *Peter MacDonald, Jr., et al.*, except concerning matters for which a privilege should be asserted.

Sec. 2. That the Senate Legal Counsel is authorized to represent Kenneth M. Ballen, and any other employee or former employee of the Senate from whom testimony may be necessary, in connection with their testimony in *United States* v. *Peter MacDonald, Jr., et al.*

AMENDMENTS SUBMITTED

RESOLUTION TRUST CORPORATION REFINANCING ACT

DOMENICI (AND OTHERS) AMENDMENT NO. 1450

(Ordered to lie on the table)

Mr. DOMENICI (for himself, Mr. Rudman, Mr. Symms, Mr. Chafee, Mr. Mack, Mr. Danforth, and Mr. McCain) submitted an amendment intended to be proposed by them to the bill (H.R. 3435) to provide funding for the resolution of failed savings associations and working capital for the Resolution Trust Corporation, to restructure the Oversight Board and the Resolution Trust Corporation, and for other purposes; as follows:

At the appropriate place in the bill insert the following:

SEC. . CREDIT AVAILABILITY.

Section 5(t)(5) of the Home Owners' Loan Act (12 U.S.C. 1464(t)(5)) is amended by adding at the end the following new paragraph:

"(F) Exceptions granted by director.—

"(i) In general.—The Director may grant such limited and temporary exceptions from subparagraphs (A) and (D) as the Director deems necessary and appropriate, if the Director determines that—

"(I) extraordinary circumstances exist or that economic conditions at the national, regional, or local level are such that an insufficient opportunity exists for the association to divest a subsidiary engaged in activities not permissible for a national bank or any investment in or extension of credit to such subsidiary; and

"(II) the conditions set forth in paragraph (7)(C)(i) of this subsection are satisfied.

"(ii) Limitation.—An exception under this subparagraph applies only to the amount of the savings association's investments in or extensions or credit to a subsidiary as of April 12, 1989, and the amounts that have been or will be expended to complete projects or investments that were initiated by such subsidiary prior to the date of enactment of this subparagraph. In granting an exception pursuant to this subparagraph, the Director shall require the same percentage deduction from capital for amounts invested and credit extended as of April 12, 1989, and for amounts invested and credit extended thereafter.

"(iii) Duration.—No exception under this subparagraph shall be effective after July 1, 1999.

"(iv) Amount.—No exception shall reduce the percentage deduction from capital to a percentage less than that required as of the date of enactment of this subsection for investments and extensions of credit made prior to April 12, 1989.".

RECLAMATION STATES EMERGENCY DROUGHT RELIEF

JOHNSTON AMENDMENT NO. 1451

Mr. MITCHELL (for Mr. Johnston] proposed an amendment to the bill (H.R. 355) to provide emergency drought relief to the reclamation States, and for other purposes, as follows:

Delete all after the enacting clause and substitute the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Reclamation States Emergency Drought Relief Act of 1991".

SEC. 2. DEFINITIONS.

As used in this Act:

(1) The term "Secretary" means the Secretary of the Interior.

(2) The term "Federal Reclamation laws" means the Act of June 17, 1902 (32 Stat. 388)

and Acts supplementary thereto and amendatory thereof.

(3) The term "Federal Reclamation project" means any project constructed or funded under Federal Reclamation law. Such term includes projects having approved loans under the Small Reclamation Projects Act of 1956 (70 Stat. 1044).

TITLE I—DROUGHT PROGRAM

SEC. 101. ASSISTANCE DURING DROUGHT; WATER PURCHASES.

(a) CONSTRUCTION, MANAGEMENT, AND CONSERVATION.—Consistent with existing contractual arrangements and applicable State and applicable Federal law, and without further authorization, the Secretary is authorized to undertake construction, management, and conservation activities that will minimize, or can be expected to have an effect in minimizing, losses and damages resulting from drought conditions. Any construction activities undertaken pursuant to the authority of this subsection shall be limited to temporary facilities designed to minimize losses and damages from drought conditions, except that wells drilled to minimize losses and damages from drought conditions may be permanent facilities.

(b) ASSISTANCE TO WILLING BUYERS AND SELLERS.—In order to minimize losses and damages resulting from drought conditions, the Secretary may provide non-financial assistance to willing buyers in their purchase of available water supplies from willing sellers.

(c) WATER PURCHASES BY BUREAU.—In order to minimize losses and damages resulting from drought conditions, the Secretary may purchase water from willing sellers, including, but not limited to, water made available by Federal Reclamation project contractors through conservation or other means with respect to which the seller has reduced the consumption of water. Except with respect to water stored, conveyed or delivered to Federal and State wildlife habitat, the Secretary shall deliver such water pursuant to temporary contracts under section 102: *Provided*, That any such contract shall require recovery of any costs, including interest if applicable, incurred by the Secretary in acquiring such water.

(d) WATER BANKS.—In order to respond to a drought, the Secretary is authorized to participate in water banks established by a State.

SEC. 102. AVAILABILITY OF WATER ON A TEMPORARY BASIS.

(a) GENERAL AUTHORITY.—In order to mitigate losses and damages resulting from drought conditions, the Secretary may make available, by temporary contract, project and non-project water and may permit the use of facilities at Federal Reclamation projects for the storage or conveyance of project or non-project water, for use both within and outside an authorized project service area.

(b) SPECIAL PROVISIONS APPLICABLE TO TEMPORARY WATER SUPPLIES PROVIDED UNDER THIS SECTION.—

(1) TEMPORARY SUPPLIES.—Each temporary contract for the supply of water entered into pursuant to this section shall terminate no later than two years from the date of execution or upon a determination by the Secretary that water supply conditions no longer warrant that such contracts remain in effect, whichever occurs first. The costs associated with any such contract shall be repaid within the term of the contract.

(2) OWNERSHIP AND ACREAGE LIMITATIONS.—Lands not subject to Reclamation law that receive temporary irrigation water supplies under temporary contracts under this section shall not become subject to the ownership and acreage limitations or pricing provisions of Federal Reclamation law because of the delivery of such temporary water supplies. Lands that are subject to the ownership and acreage limitations of Federal Reclamation law shall not be exempted from those limitations because of the delivery of such temporary water supplies.

(3) TREATMENT UNDER RECLAMATION REFORM ACT OF 1982.—No temporary contract entered into by the Secretary under this section shall be treated as a "contract" as that term is used in sections 203(a) and 220 of the Reclamation Reform Act of 1982 (Public Law 97–293).

(4) AMENDMENTS OF EXISTING CONTRACTS.—Any amendment to an existing contract to allow a contractor to carry out the provisions of this title shall not be considered a new and supplemental benefit for purposes of the Reclamation Reform Act of 1982 (Public Law 97–293).

(c) CONTRACT PRICE.—The price for project water, other than water purchased pursuant to section 101(c), delivered under a temporary contract entered into by the Secretary under this section shall be at least sufficient to recover all Federal operation and maintenance costs and administrative costs, and an appropriate share of capital costs, including interest on such capital costs allocated to municipal and industrial water, except that, for project water delivered to non-project landholdings, the price shall include full cost (as defined in section 202(3) of the Reclamation Reform Act of 1982 (Public Law 97–293; 96 Stat. 1263; 43 U.S.C. 390bb)). For all contracts entered into by the Secretary under the authority of this title,

(1) the interest rate used for computing interest during construction and interest on the unpaid balance of the capital costs expended pursuant to this Act shall be at a rate to be determined by the Secretary of the Treasury based on average market yields on outstanding marketable obligations of the United States with remaining periods to maturity of one year occurring during the last month of the fiscal year preceding the date of execution of the temporary contract or,

(2) in the case of existing facilities the rate as authorized for that Federal Reclamation project or,

(3) in the absence of such authorized rate, the interest rate as determined by the Secretary of the Treasury as of the beginning of the fiscal year in which construction was initiated on the basis of the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations which were neither due nor callable for redemption for fifteen years from date of issue: *Provided*, That for all deliveries of water for municipal and industrial purposes from existing facilities to non-project contractors, the rate shall be as set forth in paragraph (1) of this subsection.

(d) FISH AND WILDLIFE.—The Secretary may make water from Federal Reclamation projects and non-project water available on a nonreimbursable basis for the purposes of protecting or restoring fish and wildlife resources, including mitigation losses, that occur as a result of drought conditions or the operation of a Federal Reclamation project during drought conditions. The Secretary may store and convey project and non-project water for fish and wildlife purposes, and may provide conveyance of any such water for both State and Federal wildlife habitat and for habitat held in private ownership. The Secretary may make available water for these purposes outside the authorized project service area. Use of the Federal storage and conveyance facilities for these purposes shall be on a nonreimbursable basis. Water made available by the Secretary in 1991 from the Central Valley Project, California, to the Grasslands Water District for the purpose of fish and wildlife shall be nonreimbursable.

(e) NON-PROJECT WATER.—The Secretary is authorized to store and convey non-project water utilizing Federal Reclamation project facilities for use outside and inside the authorized project service area for municipal and industrial uses, fish and wildlife, and agricultural uses. Except in the case of water supplied for fish and wildlife, which shall be nonreimbursable, the Secretary shall charge the recipients of such water for such use of Federal Reclamation project facilities at a rate established pursuant to section 102(c) of this Act.

(f) RECLAMATION FUND.—The payment of capital costs attributable to the sale of project or non-project water or the use of Federal Reclamation project facilities shall be covered into the Reclamation Fund and be placed to the credit of the project from which such water or use of such facilities is supplied.

SEC. 103. LOANS.

The Secretary of the Interior is authorized to make loans to water users for the purposes of undertaking construction, management, conservation activities, or the acquisition and transportation of water consistent with State law, that can be expected to have an effect in mitigating losses and damages, including those suffered by fish and wildlife, resulting from drought conditions. Such loans shall be made available under such terms and conditions as the Secretary deems appropriate: *Provided*, That the Secretary shall not approve any loan unless the applicant can demonstrate an ability to repay such loan within the term of the loan; *Provided further*, That for all loans approved by the Secretary under the authority of this section, the interest rate shall be the rate determined by the Secretary of the Treasury based on average market yields on outstanding marketable obligations of the United States with periods to maturity comparable to the repayment period of the loan. The repayment period for loans issued under this section shall not exceed fifteen years. The repayment period for such loans shall begin when the loan is executed. Sections 203(a) and 220 of the Reclamation Reform Act of 1982 and sections 105 and 106 of Public Law 99–546 shall not apply to any contract to repay such loan. The Secretary shall notify the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives in writing of any loan which the Secretary intends to approve not less than 30 days prior to granting final approval.

SEC. 104. APPLICABLE PERIOD OF DROUGHT PROGRAM.

(a) IN GENERAL.—The programs and authorities established under this title shall become operative in any Reclamation State only after the Governor or Governors of the affected State or States, or on a reservation, when the governing body of the affected Tribe has made a request for temporary drought assistance and the Secretary has determined that such temporary assistance is merited, or upon the approval of a drought contingency plan as provided in title II of this Act.

(b) COORDINATION WITH BPA.—If a Governor referred to in subsection (a) is the Governor of the State of Washington, Oregon, Idaho, or Montana, the Governor shall coordinate with the Administrator of the Bonneville Power Administration before making a request under subsection (a).

(c) TERMINATION OF AUTHORITY.—The authorities established under this title shall terminate ten years after the date of enactment of this Act.

TITLE II—DROUGHT CONTINGENCY PLANNING

SEC. 201. IDENTIFICATION OF OPPORTUNITIES FOR WATER SUPPLY CONSERVATION, AUGMENTATION AND USE.

The Secretary is authorized to conduct studies to identify opportunities to conserve, augment, and make more efficient use of water supplies available to Federal Reclamation projects and Indian water resource developments in order to be prepared for and better respond to drought conditions. The Secretary is authorized to provide technical assistance to States and to local and Tribal government entities to assist in the development, construction, and operation of water desalinization projects, including technical assistance for purposes of assessing the technical and economic feasibility of such projects.

SEC. 202. DROUGHT CONTINGENCY PLANS.

The Secretary, acting pursuant to the Federal Reclamation laws, utilizing the resources of the Department of the Interior, and in consultation with other appropriate Federal and State officials, Indian tribes, public, private, and local entities, is authorized to prepare or participate in the preparation of cooperative drought contingency plans (hereinafter in this title referred to as "contingency plans") for the prevention or mitigation of adverse effects of drought conditions.

SEC. 203. PLAN ELEMENTS.

(a) PLAN PROVISIONS.—Elements of the contingency plans prepared pursuant to section 202 may include, but are not limited to, any or all of the following:

(1) Water banks.

(2) Appropriate water conservation actions.

(3) Water transfers to serve users inside or outside authorized Federal Reclamation project service areas in order to mitigate the effects of drought.

(4) Use of Federal Reclamation project facilities to store and convey non-project water for agricultural, municipal and industrial, fish and wildlife, or other uses both inside and outside an authorized Federal Reclamation project service area.

(5) Use of water from dead or inactive reservoir storage or increased use of ground water resources for temporary water supplies.

(6) Water supplies for fish and wildlife resources.

(7) Minor structural actions.

(b) FEDERAL RECLAMATION PROJECTS.—Each contingency plan shall identify the following two types of plan elements related to Federal Reclamation projects;

(1) those plan elements which pertain exclusively to the responsibilities and obligations of the Secretary pursuant to Federal Reclamation law and the responsibilities and obligations of the Secretary for a specific Federal Reclamation project; and

(2) those plan elements that pertain to projects, purposes, or activities not constructed, financed, or otherwise governed by the Federal Reclamation law.

(c) DROUGHT LEVELS.—The Secretary is authorized to work with other Federal and State agencies to improve hydrologic data collection systems and water supply forecasting techniques to provide more accurate and timely warning of potential drought conditions and drought levels that would trigger the implementation of contingency plans.

(d) COMPLIANCE WITH LAW.—The contingency plans and plan elements shall comply with all requirements of applicable Federal law, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321), section 715(a) of the Water Resource Development Act of 1986 (33 U.S.C. 2265(a), and the Fish and Wildlife Coordination Act, and shall be in accordance with applicable State law.

(e) REVIEW.—The contingency plans shall include provisions for periodic review to assure the adequacy of the contingency plan to respond to current conditions, and such plans may be modified accordingly.

SEC. 204. RECOMMENDATIONS.

(a) APPROVAL.—The Secretary shall submit each plan prepared pursuant to section 202 to the Congress, together with the Secretary's recommendations, including recommendations for authorizing legislation, if needed.

(b) PACIFIC NORTHWEST REGION.—A contingency plan under subsection (a) for the State of Washington, Oregon, Idaho, or Montana, may be approved by the Secretary only at the request of the Governor of the affected State in coordination with the other States in the region and the Administrator of the Bonneville Power Administration.

SEC. 205. RECLAMATION DROUGHT RESPONSE FUND.

The Secretary shall undertake a study of the need, if any, to establish a Reclamation Drought Response Fund to be available for defraying those expenses which the Secretary determines necessary to implement plans prepared under section 202 and to make loans for nonstructural and minor structural activities for the prevention or mitigation of the adverse effects of drought.

SEC. 206. TECHNICAL ASSISTANCE AND TRANSFER OF PRECIPITATION MANAGEMENT TECHNOLOGY.

(a) TECHNICAL ASSISTANCE.—The Secretary is authorized to provide technical assistance for drought contingency planning in any of the States not identified in section 1 of the Reclamation Act (Act of June 17, 1902, 32 Stat. 388), and the District of Columbia, Puerto Rico, the Republic of the Marshall Islands, the Federated States of Micronesia, the Trust Territory of the Pacific Islands, and upon termination of the Trusteeship, the Republic of Palau, the United States Virgin Islands, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands.

(b) TECHNOLOGY TRANSFER PROGRAM.—The Secretary is authorized to conduct a Precipitation Management Technology Transfer Program to help alleviate problems caused by precipitation variability and droughts in the West, as part of a balanced long-term water resources development and management program. In consultation with State, Tribal, and local water, hydropower, water quality and instream flow interests, areas shall be selected for conducting field studies cost-shared on a 50-50 basis to validate and quantify the potential for appropriate precipitation management technology to augment stream flows. Validated technologies shall be transferred to non-Federal interests for operational implementation.

TITLE III—GENERAL AND MISCELLANEOUS PROVISIONS

SEC. 301. AUTHORIZATION OF APPROPRIATIONS.

Except as otherwise provided in section 303 of this Act (relating to temperature control devices at Shasta Dam, California), there is authorized to be appropriated not more than $90,000,000 in total for fiscal years 1992, 1993, 1994, 1995, and 1996.

SEC. 302. AUTHORITY OF SECRETARY.

The Secretary is authorized to perform any and all acts and to promulgate such regulations as may be necessary and appropriate for the purpose of implementing this Act. In carrying out the authorities under this Act, the Secretary shall give specific consideration to the needs of fish and wildlife, together with other project purposes, and shall consider temporary operational changes which will mitigate, or can be expected to have an effect in mitigating, fish and wildlife losses and damages resulting from drought conditions, consistent with the Secretary's other obligations.

SEC. 303. TEMPERATURE CONTROL AT SHASTA DAM, CENTRAL VALLEY PROJECT.

The Secretary is authorized to complete the design and specifications for construction of a device to control the temperature of water releases from Shasta Dam, Central Valley Project, California, and to construct facilities needed to attach such device to the dam. There is authorized to be appropriated to carry out the authority of this section not more than $12,000,000.

SEC. 304. EFFECT OF ACT ON OTHER LAWS.

(a) CONFORMITY WITH STATE AND FEDERAL LAW.—All actions taken pursuant to this Act pertaining to the diversion, storage, use, or transfer of water shall be in conformity with applicable State and applicable Federal law.

(b) EFFECT ON JURISDICTION, AUTHORITY, AND WATER RIGHTS.—Nothing in this Act shall be construed as expanding or diminishing State, Federal, or Tribal jurisdiction or authority over water resources development, control, or water rights.

SEC. 305. EXCESS STORAGE AND CARRYING CAPACITY.

The Secretary is authorized to enter into contracts with municipalities, public water districts and agencies, other Federal agencies, State agencies, and private entities, pursuant to the Act of February 21, 1911 (43 U.S.C. 523), for the impounding, storage, and carriage of non-project water for domestic, municipal, fish and wildlife, industrial, and other beneficial purposes using any facilities associated with the Central Valley Project, Cachuma Project, and the Ventura River Project, California, the Truckee Storage Project, and the Washoe Project, California and Nevada. The Secretary is further authorized to enter into contracts for the exchange of water for the aforementioned purposes using facilities associated with the Cachuma Project, California.

SEC. 306. REPORT.

There shall be included as part of the President's annual budget submittal to the Congress a detailed report on past and proposed expenditures and accomplishments under this Act.

SEC. 307. FEDERAL RECLAMATION LAWS.

This Act shall constitute a supplement to the Federal Reclamation laws.

ENVIRONMENTAL CLEANUP AT THE PHOENIX INDIAN SCHOOL PROPERTY

McCAIN AMENDMENT NO. 1452

Mr. SEYMOUR (for Mr. McCAIN) proposed an amendment to the bill (S. 2034) to establish certain requirements for the Secretary of the Interior to un-

dertake environmental cleanup at the Phoenix Indian School property, as follows:

Delete section 1 of the bill in its entirety and substitute therefor the following:

SECTION 1. The Secretary of the Interior shall remove, at the earliest possible date, all asbestos within buildings and related infrastructure, including underground pipes, located on the 110 acre parcel of federal property known as the Phoenix Indian School. The obligation of the Secretary to carry out these activities shall continue beyond the date of transfer of the Phoenix Indian School property from federal ownership."

MINTING OF COINS IN COMMEMORATION OF THE 200TH ANNIVERSARY OF THE WHITE HOUSE

CRANSTON (AND OTHERS) AMENDMENT NO. 1453

Mr. MITCHELL for Mr. CRANSTON, for himself, Mr. WALLOP, Mr. KENNEDY, and Mr. HATCH) proposed an amendment to the bill (H.R. 3337) to require the Secretary of the Treasury to mint coins in commemoration of the 200th anniversary of the White House, and for other purposes, as follows:

At the appropriate place in the bill, insert the following:

TITLE ____—COINS

SEC. ____01. DENOMINATIONS, SPECIFICATIONS, AND DESIGN OF COINS.

Subsection (d)(1) of section 5112 of title 31, United States Code, is amended by striking the fourth sentence.

SEC. ____02. DESIGN CHANGES REQUIRED FOR CERTAIN COINS.

Subsection (d) of section 5112 of title 31, United States Code, is amended by adding at the end the following new paragraph:

"(3) The design on the reverse side of the half dollar, quarter dollar, dime coin, 5-cent coin and one-cent coin shall be selected for redesigning. One or more coins may be selected for redesign at the same time, but the first redesigned coin shall have a design commemorating the two hundredth anniversary of the ratification of the Bill of Rights to the United States Constitution for a period of 2 years after issuance. After the 2-year period, the bicentennial coin shall have its design changed in accordance with the provisions of this subsection. The minting of the first selected coin shall begin January 1993, and the issuance shall begin as soon as practical thereafter. All such redesigned coins shall conform with the inscription requirements set forth in paragraph (1) of this subsection.".

SEC. ____03. DESIGN ON OBVERSE SIDE OF COINS.

Subsection (d) of section 5112 of title 31, United States Code, is amended by adding at the end the following new paragraph:

"(4) Subject to paragraph (2), the design on the obverse side of the half dollar, quarter dollar, dime coin, 5-cent coin, and one-cent coin shall contain the likenesses of those currently displayed and shall be considered for redesign. All such coin obverse redesigns shall conform with the inscription requirements set forth in paragraph (1) of this subsection."

SEC. ____04. SELECTION OF DESIGNS.

The design changes for each coin authorized by the amendments made by this title shall take place at the discretion of the Secretary and shall be done at the rate of one or more coins per year, to be phased in over 6 years after the date of the enactment of this Act. In selecting new designs, the Secretary shall consider, among other factors, thematic representations of the following concepts from the Bill of Rights: freedom of speech and assembly; freedom of the press; the right to due process of law; and other appropriate themes. The designs shall be selected by the Secretary upon consultation with the United States Commission of Fine Arts.

SEC. ____05. REDUCTION OF THE NATIONS DEBT.

Subsection (a)(1) of section 5132 of title 31, United States Code, is amended by inserting after the third sentence the following: "Any profits received from the sale of uncirculated and proof sets of coins shall be deposited by the Secretary in the general fund of the Treasury and shall be used for the sole purpose of reducing the national debt.".

TITLE ____—JAMES MADISON COINS

SEC. ____01. SHORT TITLE.

This title may be cited as the "James Madison—Bill of Rights Commemorative Coin Act".

SEC. ____02. COIN SPECIFICATIONS.

(a) FIVE DOLLAR GOLD COINS.—

(1) ISSUANCE.—The Secretary of the Treasury (hereafter in this Act referred to as the "Secretary") shall mint and issue not more than 300,000 five dollar coins each of which shall—

(A) weigh 8.359 grams;

(B) have a diameter of .850 inches; and

(C) be composed of 90 percent gold and 10 percent alloy.

(2) DESIGN.—The design of the five dollar coins shall be emblematic of the first ten Amendments of the Constitution of the United States, known as the Bill of Rights. The Director of the United States Mint shall sponsor a nationwide open competition for the design of the five dollar coin beginning not later than 3 months after the date of the enactment of this Act. The Director of the United States Mint shall convene the Design Panel established under subsection (e) which shall select 10 designs to be submitted to the Secretary who shall select the final design.

(b) ONE DOLLAR SILVER COINS.—

(1) ISSUANCE.—The Secretary shall mint and issue not more than 900,000 one dollar coins each of which shall—

(A) weigh 26.73 grams;

(B) have a diameter of 1.5 inches; and

(C) be composed of 90 percent silver and 10 percent copper.

(2) DESIGN.—The obverse design of the one dollar coins shall be emblematic of James Madison, the fourth President of the United States. The reverse design shall be emblematic of James Madison's home, Montpelier, between the years 1751 and 1836. The Director of the United States Mint shall sponsor a nationwide open competition for the design of the one dollar coin beginning not later than 3 months after the date of the enactment of this Act. The Director of the United States Mint shall convene the Design Panel established under subsection (e) which shall select 10 designs to be submitted to the Secretary who shall select the final design.

(c) HALF DOLLAR SILVER COINS.—

(1) ISSUANCE.—The Secretary shall mint and issue not more than 1,000,000 half dollar coins each of which shall—

(A) weigh 12.50 grams;

(B) have a diameter of 30.61 millimeters; and

(C) be composed of 90 percent silver and 10 percent copper.

(2) DESIGN.—The design of the half dollar silver coins shall be emblematic of the first ten Amendments of the Constitution of the United States, known as the Bill of Rights. The Director of the United States Mint shall sponsor a nationwide open competition for the design of the half dollar coin beginning not later than 3 months after the date of the enactment of the Act. The Director of the United States Mint shall convene the Design Panel established under subsection (e) which shall select 10 designs to be submitted to the Secretary who shall select the final design.

(d) INSCRIPTIONS.—All coins minted and issued under this Act shall bear a designation of the value of the coin, an inscription of the year of issue and inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum".

(e) DESIGN PANEL.—The Design Panel referred to in subsections (a), (b), and (c) shall consist of the following members:

(1) The Chairperson of the Commission of Fine Arts.

(2) The president of the James Madison Memorial Fellowship Foundation.

(3) The Executive Director, National Numismatic Collection, the Smithsonian Institution.

(4) A representative member of the American Numismatic Association.

(5) A representative member of a national sculpture society or association.

(6) Two representatives of the United States Mint selected by the Director of the United States Mint.

The Secretary shall reimburse the members of the Design Panel for per diem expenses and other official expenses from the revenues received from the sale of the coins. The Design Panel shall not be subject to the Federal Advisory Committee Act (5 U.S.C. App.), and shall terminate following the selection process set forth in subsections (a), (b), and (c).

(f) LEGAL TENDER.—The coins issued under this title shall be legal tender as provided in section 5103 of title 31, United States Code.

SEC. ____03. SOURCES OF BULLION.

(a) GOLD.—The Secretary shall obtain gold for minting coins under this title pursuant to the authority of the Secretary under existing law.

(b) SILVER.—The Secretary shall obtain silver for minting coins under this Act only from stockpiles established under the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98 et seq.).

SEC. ____04. ISSUANCE OF COINS.

(a) FIVE DOLLAR COINS.—The five dollar coins minted under this Act may be issued in uncirculated and proof qualities and shall be struck at the United States Mint at West Point, New York.

(b) ONE DOLLAR COINS AND HALF DOLLAR COINS.—The one dollar and half dollar coins minted under this Act may be issued in uncirculated and proof qualities, except that not more than one facility of the United States Mint may be used to strike any particular combination of denomination and quality.

(c) COMMENCEMENT OF ISSUANCE.—The coins authorized and minted under this title may be issued beginning on January 1, 1993.

(d) TERMINATION OF AUTHORITY.—Coins may not be minted under this title after December 31, 1993.

SEC. ____05. SALE OF COINS.

(a) IN GENERAL.—Notwithstanding any other provision of law, the Secretary shall sell the coins minted under this title at a price at least equal to the face value, plus the cost of minting and issuing the coins (including labor, materials, overhead, distribution, and promotional expenses).

(b) BULK SALES.—The Secretary shall make any bulk sales of the coins minted under this Act at a reasonable discount.

(c) PREPAID ORDERS.—The Secretary shall accept prepaid orders for the coins minted under this title prior to the issuance of such coins. Sale prices with respect to such prepaid orders shall be at a reasonable discount.

(d) SURCHARGES.—All sales of coins minted under this Act shall include a surcharge of $30 per coin for the five dollar coins, $6 per coin for the one dollar coins, and $3 per coin for the half dollar coins.

SEC. _____06. FINANCIAL ASSURANCES.

(a) NO NET COST TO THE GOVERNMENT.—The Secretary shall take such actions as may be necessary to ensure that minting and issuing coins under this title will not result in any net cost to the United States Government.

(b) PAYMENT FOR COINS.—A coin shall not be issued under this Act unless the Secretary has received—

(1) full payment for the coin;

(2) security satisfactory to the Secretary to indemnify the United States for full payment; or

(3) a guarantee of full payment satisfactory to the Secretary from a depository institution the deposits of which are insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration Board.

(c) REPORTS TO CONGRESS.—Not later than fifteen days after the last day of each month, the Secretary shall transmit to the committee on Banking, Finance, and Urban Affairs of the House of Representatives and the committee on Banking, Housing, and Urban Affairs of the Senate a report detailing activities carried out under this title during such month. The report shall include a review of all marketing activities and a financial statement which details sources of funds, surcharges generated, and expenses incurred for manufacturing, materials, overhead, packaging, marketing, and shipping. No report shall be required after January 15, 1994.

SEC. _____07. DISTRIBUTION OF SURCHARGES.

The surcharges received by the Secretary shall be transmitted promptly to the James Madison Memorial Fellowship Trust Fund established in 1986 by the James Madison Memorial Fellowship Act (20 U.S.C. 4501 et seq.). Such transmitted amounts shall qualify under section 811(a)(2) of that Act as funds contributed from private sources. In accordance with the purposes of the James Madison Fellowship Program, the funds transmitted to the Trust Fund shall be used to encourage teaching and graduate study of the Constitution of the United States, its roots, its formation, its principles, and its development.

SEC. _____08. AUDITS.

The Comptroller General of the United States shall have the right to examine such books, records, documents, and other data as may be related to the expenditure of amounts transmitted under section ____07 of this title. The expenditures and audit of surcharge funds deposited in the James Madison Memorial Fellowship Trust Fund under section ____07 of this Act shall be done in accordance with section 812 of the James Madison Memorial Fellowship Act (20 U.S.C. 4511). Annual reports shall be submitted by the Chairman of the James Madison Memorial Fellowship Foundation to both Houses of Congress on all expenditures of surcharge funds.

SEC. _____09. GENERAL WAIVER OF PROCUREMENT REGULATIONS.

(a) IN GENERAL.—Except as provided in subsection (b), no provision of law governing procurement or public contracts shall be applicable to the procurement of goods and services necessary for carrying out the provisions of this title.

(b) EQUAL EMPLOYMENT OPPORTUNITY.—Subsection (a) shall not relieve any person entering into a contract under the authority of this title from complying with any law relating to equal employment opportunity.

CORRECTIONS IN THE ENROLLMENT OF H.R. 3435

MURKOWSKI AMENDMENT NO. 1454

Mr. MURKOWSKI proposed an amendment to the concurrent resolution (S. Con. Res. 84) to correct the enrollment of H.R. 3435, the RTC funding bill, as follows:

SEC. . Subsection 12(b)(7)(vii) of Pub. L. No. 94–204, as amended, and subsection 9102(e) of Pub. L. No. 101–165, as amended, are each amended further by deleting in the appropriate place the phrase "real, personal," and substituting in lieu thereof the phrase "real, personal (including, but not limited to intangible assets such as financial instruments, notes, loans bonds, and licenses).".

REPEAL OF A SECTION OF THE RESOLUTION TRUST CORPORATION LEGISLATION

MURKOWSKI AMENDMENT NO. 1455

Mr. RIEGLE (for Mr. MURKOWSKI) proposed an amendment to the bill (S. 2131) to repeal section 618 of the Resolution Trust Corporation, Refinancing, Restructuring and Improvement Act of 1991, as follows:

Insert at the end:

SEC. . Subsection 12(b) (7) of Pub. L. No. 94–204, as amended, and subsection 9102(e) of Pub. L. No. 101–165, as amended, are each further amended by deleting in the appropriate place the phrase "real, personal," and substituting in lieu thereof the phrase "real, personal (including, but not limited to intangible assets sold or offered by the Federal Deposit Insurance Corporation or the Resolution Trust Corporation such as financial instruments, notes, loans and bonds).".

HEALTH PROMOTION AND DISEASE PREVENTION ACT

KENNEDY AMENDMENT NO. 1456

Mr. FORD (for Mr. KENNEDY) proposed an amendment to the bill (H.R. 3635) to amend the Public Health Service Act to revise and extend the program of block grants for preventive health and human services, and for other purposes, as follows:

Strike out all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Health Promotion and Disease Prevention Act of 1991".

(b) TABLE OF CONTENTS.—The table of contents is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. References.

TITLE I—HEALTH PROMOTION AND DISEASE PREVENTION ASSISTANCE

Sec. 101. Short title.

Subtitle A—Preventive Health and Health Services Block Grant

Sec. 110. Reauthorization of preventive health and health services block grant.
Sec. 111. Reporting and data collection improvements.
Sec. 112. Establishment of block grant requirement to address health promotion and disease prevention related to women's health.
Sec. 113. Reauthorization of State planning functions.
Sec. 114. Health promotion and disease prevention research centers.
Sec. 115. Use of allotments.
Sec. 116. Training of State and local public health personnel.

Subtitle B—National Health Objectives Project Grants to States

Sec. 121. National health objectives project grants to States.

Subtitle C—Categorical Programs

Sec. 131. National demonstration projects for women's health.
Sec. 132. Increased injury prevention activities.
Sec. 133. Establishment of an Office of Adolescent Health.
Sec. 134. Improvement in lead poisoning screening and prevention.
Sec. 135. Prevention and control of sexually transmitted diseases.
Sec. 136. Screening and early detection of prostate cancer.
Sec. 137. Special regional and national demonstration projects for minority health promotion and disease prevention.

TITLE II—COORDINATION OF HEALTH PROMOTION AND DISEASE PREVENTION ACTIVITIES

Sec. 201. Short title.
Sec. 202. Health information and health promotion.
Sec. 203. Interdepartmental Coordinating Council.
Sec. 204. Dissemination of health information.
Sec. 205. Report on national health status improvement.
Sec. 206. Health education curriculum.
Sec. 207. State offices of minority health.

TITLE III—PREVENTABLE CASES OF INFERTILITY

Sec. 301. Establishment of program of grants regarding preventable cases of infertility arising as result of sexually transmitted diseases.

TITLE IV—COMPREHENSIVE MATERNAL AND EARLY CHILDHOOD HEALTH CARE

Sec. 401. Short title.
Sec. 402. Migrant and community health center initiatives.
Sec. 403. Expansion of immunization programs for young children.
Sec. 404. Project grants for maternal and child preventive health and health care services.
Sec. 405. Birth defects proposal.

TITLE V-MISCELLANEOUS

Sec. 501. Establishment of an Advisory Council on Health Promotion and Disease Prevention.

Sec. 502. Responsibilities of members of the Commissioned Corps for health promotion and disease prevention.
Sec. 503. Responsibilities of the Surgeon General for disseminating information and recommendations.
Sec. 504. Change in name of Centers for Disease Control.
Sec. 505. Study concerning the reduction of the risk of bloodborne disease transmission.

SEC. 2. REFERENCES.

Except as otherwise provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Public Health Service Act (42 U.S.C. 201 et seq.).

TITLE I—HEALTH PROMOTION AND DISEASE PREVENTION ASSISTANCE

SEC. 101. SHORT TITLE.

This title may be cited as the "Health Promotion and Disease Prevention Assistance Act of 1991".

Subtitle A—Preventive Health and Health Services Block Grant

SEC. 110. REAUTHORIZATION OF PREVENTIVE HEALTH AND HEALTH SERVICES BLOCK GRANT.

Section 1901 (42 U.S.C. 300–w) is amended—

(1) in subsection (a), by striking out "$95,000,000" and all that follows through the end thereof and inserting the following: "$275,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1996.";

(2) in subsection (b), by striking out "at least $3,500,000" and inserting in lieu thereof "at least $7,000,000"; and

(3) by adding at the end thereof the following new subsection:

"(c) Notwithstanding any other provision of this subtitle and subject to the provisions of subsection (b), if amounts appropriated under subsection (a) for any fiscal year exceed $150,000,000 all of such amounts shall be used to carry out subpart 2 for such fiscal year.".

SEC. 111. REPORTING AND DATA COLLECTION IMPROVEMENTS.

(a) ANNUAL REPORTS.—Subsection (a) of section 1906 (42 U.S.C. 300w–5(a)) shall be amended to read as follows:

"(a)(1) Each State receiving an allotment, and each entity receiving a grant, under this part shall prepare and submit to the Secretary an annual report concerning the activities carried out by such State or grantee with amounts received under this part. Such reports shall describe the services provided using such amounts in accordance with subsections (a) and (e) of section 1904.

"(2) The Secretary, acting through the Centers for Disease Control and Prevention and in consultation with the States and the National Health Objectives Advisory Committee, shall develop uniform data items and data formats for the annual reports required under paragraph (1). Such uniform data items and formats shall constitute the minimum requirements that States must meet in submitting annual reports under paragraph (1).

"(3) In addition to complying with the uniform data item and format requirements of paragraph (2), an annual report submitted under paragraph (1) shall specifically provide if readily available—

"(A) the number of individuals provided with services in the service areas designated under subsections (a) and (e) of section 1904;

"(B) the percentage of minorities and disadvantaged individuals served within each of the service areas described in subparagraph (A); and

"(C) any other demographic information that the Secretary, after consultation with the States, determines appropriate.".

(b) INVESTIGATIONS.—Subsection (d) of section 1906 (42 U.S.C. 300w–5(d)) is amended to read as follows:

"(d) The Secretary, in consultation with the States and the National Health Objectives Advisory Committee, shall periodically update a set of priority national health status indicators, to be used to evaluate and monitor the overall health of the United States and of selected subgroups within the United States.".

(c) HEALTH STATUS REPORTS.—Section 1906 (42 U.S.C. 300w–5) is amended by adding at the end thereof the following new subsection:

"(e)(1) The Secretary shall determine the capability of each State to evaluate and submit a report, in a uniform format, concerning the health status of the State as measured in terms of the health objectives parameters as described in subsection (d).

"(2)(A) Except as provided in subparagraph (B), with respect to a State that is determined by the Secretary under paragraph (1) to be unable to adequately evaluate its health status, such State shall be required to utilize not more than 10 percent of the amounts paid to the State under section 1903 for a fiscal year to develop the capacity to make such an evaluation. Amounts under section 1903 shall be so utilized until such time as the Secretary determines that such capacity has been achieved by the State.

"(B) The Secretary may waive the requirement of subparagraph (A) in the case of a State, territory or Indian tribe that is determined by the Secretary to be unable to develop the capacity required under paragraph (1) through the utilization of the funds required under such subparagraph.

"(3) With respect to entities that are eligible to receive grants under this part, that apply for such grants, and that the Secretary determines do not have the resources to efficiently establish the capacity for evaluating their health status as provided for in paragraph (1), the Secretary, in consultation with the State agencies, may provide technical assistance to enable such entities to make such evaluations and such entities shall be exempt from the requirements of paragraph (1).

"(4) An entity described in paragraph (3) shall indicate in the annual report submitted by such entity under subsection (a) the status of such entity under such paragraph and the Secretary shall review such status once during every 3-year period.".

(d) REPORT TO CONGRESS.—Section 1906 (42 U.S.C. 300w–5(b)) (as amended by subsection (a)) is amended—

(1) by striking out paragraph (6) of subsection (b); and

(2) by adding at the end thereof the following new subsection:

"(f) Not later than 3 years after the date of enactment of this subsection, and every 3 years thereafter, the Secretary shall prepare and submit a report to Congress concerning the activities of the States that have received funds under this part. Such report shall include State compilations of the information contained in the reports prepared under subsection (a), and any recommendations for appropriate changes in legislation necessary to facilitate improvement in the health status indicators described in subsection (d), facilitate the implementation of the State plans described in subsection (a)(3)(A) and ensure compliance with section 1905(c)(8), and to facilitate other changes determined appropriate by the Secretary under this part.".

(e) APPLICATION.—Section 1905 (42 U.S.C. 300w–4) is amended—

(1) in subsection (c)—

(A) by striking out "and" at the end of paragraph (6);

(B) by striking out the period at the end of paragraph (7) and inserting in lieu thereof "; and"; and

(C) by adding at the end thereof the following new paragraph:

"(8) agrees that continuing education credits in the utilization of universal precautions, and infection control procedures for the prevention of bloodborne disease transmission, shall be required as part of those credits required for health professional relicensure."; and

(2) in subsection (d), by striking out the last sentence and inserting in lieu thereof the following new sentences: "The description shall include, a summary of the manner in which the funds will be allocated under section 1904(a)(1), and which health status indicators (as described in section 1906(d)) such allocations are intended to address. The description shall also include prior year information concerning the State's health status according to the health status indicators (as described in section 1906(d)).".

SEC. 112. ESTABLISHMENT OF BLOCK GRANT REQUIREMENT TO ADDRESS HEALTH PROMOTION AND DISEASE PREVENTION RELATED TO WOMEN'S HEALTH.

Section 1904 (42 U.S.C. 300w–3) is further amended by adding at the end thereof the following new subsection:

"(e) Each State that receives payments under section 1903 shall demonstrate that a portion of such payments are being utilized in each fiscal year for health promotion and disease prevention activities related to women's health problems, such as osteoporosis, physical abuse, diabetes and tobacco use.".

SEC. 113. REAUTHORIZATION OF STATE PLANNING FUNCTIONS.

Section 7 of the Year 2000 Health Objectives Planning Act (Public Law 101–582) is amended to read as follows:

"SEC. 7. AUTHORIZATION OF APPROPRIATIONS.

"For the purpose of carrying out this Act and for the establishment and operation of State Health Objectives Advisory Committees under section 19101(b) of the Public Health Service Act, there are authorized to be appropriated $10,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1996.".

SEC. 114. HEALTH PROMOTION AND DISEASE PREVENTION RESEARCH CENTERS.

Section 1706(e) (42 U.S.C. 300u–5(e)) is amended by striking out "$3,000,000" and all that follows through the end thereof and inserting "$10,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1996.".

SEC. 115. USE OF ALLOTMENTS.

Section 1904(a)(1) (42 U.S.C. 300w–4(a)(1)) is amended in the matter preceding subparagraph (A) by striking out "and (c)" and inserting in lieu thereof "(c), (e), and (f)".

SEC. 116. TRAINING OF STATE AND LOCAL PUBLIC HEALTH PERSONNEL.

Part A of title XIX (42 U.S.C. 300w et seq.) is amended by adding at the end thereof the following new section:

"SEC. 1910A. TRAINING.

"(a) IN GENERAL.—The Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall, to the extent appropriations are available, provide assistance for the professional training of public health personnel, including—

"(1) the identification of new knowledge bases and skills for State and local public health personnel that are reasonably necessary and appropriate to permit the States to achieve the national health priorities; and

"(2) encouraging the training and education of appropriate numbers of such personnel, including racial and ethnic minority personnel, in such knowledge bases and skills, including cross cultural skills, by establishing cooperative agreements with schools of public health, schools of nursing, schools of medicine, and other institutions that train and educate such personnel; and

"(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $10,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1996.".

Subtitle B—National Health Objectives Project Grants to States

SEC. 121. NATIONAL HEALTH OBJECTIVES PROJECT GRANTS TO STATES.

Part A of title XIX (42 U.S.C. 300w et seq.) is amended—

(1) in the part heading, to read as follows:

"PART A—PREVENTIVE HEALTH AND NATIONAL HEALTH OBJECTIVES GRANTS";

(2) by inserting after the part heading the following:

"Subpart 1—Preventive Health and Health Services Block Grant";

and

(3) by adding at the end thereof the following new subpart:

"Subpart 2—National Health Objectives Project Grants to States

"SEC. 1910D. OPERATION OF SUBPART.

"The Secretary, in accordance with subsection (c) of section 1901, shall use amounts appropriated under subsection (a) of such section for a fiscal year to carry out this subpart in such fiscal year.

"SEC. 1910E. DEFINITIONS AND ADMINISTRATION.

"(a) DEFINITIONS.—As used in this subpart:

"(1) ADVISORY COMMITTEE.—The term 'Advisory Committee' means the National Health Objectives Advisory Committee established under section 1910K(a).

"(2) CORE PRIORITIES.—The term 'core priorities' means the three national health priorities that are designated by the Secretary as 'core national health priorities' and that must be included in the State health objectives provided in the State health objectives plan of each State.

"(3) NATIONAL HEALTH PRIORITIES.—The term 'national health priorities' means the priorities established under section 1910K(b).

"(4) STATE AGENCY.—The term 'State agency' means the department, agency, commission, or other entity designated and vested with authority under State law over matters concerning public health.

"(5) STATE PLAN.—The term 'State plan' means the health objectives plan of a State submitted under section 1910I.

"(6) STATE REPORT.—The term 'State report' means the annual report of a State required under section 1910J.

"(b) ADMINISTRATION.—The Secretary shall carry out this subpart through the Centers for Disease Control and Prevention.

"SEC. 1910F. ALLOTMENTS.

"(a) IN GENERAL.—Amounts available pursuant to section 1910D for each fiscal year shall be utilized to make allotments in accordance with subsections (b), (c), and (d).

"(b) FORMULA.—The amount of an allotment to a State under subsection (a) shall be equal to the amount of the allotment for such State under section 1902 for fiscal year 1992.

"(c) REMAINDER.—From the remainder of the amounts available pursuant to section 1910D, the Secretary shall allot in each fiscal year to each State an amount that equals—

"(1) $12,500, if the population of the State does not exceed 50,000;

"(2) $37,500, if the population of the State exceeds 50,000 but does not exceed 450,000;

"(3) $500,000, if the population of the State exceeds 450,000 but does not exceed 1,000,000;

"(4) $750,000, if the population of the State exceeds 1,000,000 but does not exceed 3,000,000;

"(5) $1,000,000, if the population of the State exceeds 3,000,000 but does not exceed 6,000,000;

"(6) $1,250,000, if the population of the State exceeds 6,000,000 but does not exceed 10,000,000;

"(7) $1,500,000, if the population of the State exceeds 10,000,000 but does not exceed 15,000,000; and

"(8) $2,000,000, if the population of the State exceeds 15,000,000.

"(d) RELATIVE POPULATION.—To the extent that all amounts available for allotment under subsection (a) for each fiscal year are not otherwise allotted to States under subsection (c), such excess shall be allotted to each State in an amount that bears the same ratio to such excess amount for such fiscal year as the total population of the State bears to the population of all States.

"(e) ADJUSTMENT.—If for any fiscal year the amount available under section 1910D is less than the total of all amounts listed under subsection (b), the amount allotted to each State shall be an amount that bears the same ratio to the total of all amounts available for allotment under such section as the amount of the allotment that the State is entitled to under subsection (b) bears to the total of all such amounts under such paragraph.

"(f) INDIANS.—

"(1) IN GENERAL.—If the Secretary—

"(A) receives a request from the governing body of an Indian tribe or tribal organization within any State that funds under this subpart be provided directly by the Secretary to such tribe or organization; and

"(B) determines that the members of such tribe or tribal organization would be better served by means of grants made directly by the Secretary under this subpart;

the Secretary shall reserve from amounts which would otherwise be allotted to such State under subsection (a) for the fiscal year the amount determined under paragraph (2).

"(2) ELIGIBILITY.—For an Indian tribe or tribal organization to be eligible for a grant for a fiscal year under this subsection, it shall submit to the Secretary a plan for such fiscal year which meets such criteria as the Secretary may prescribe.

"(3) DEFINITIONS.—As used in this subsection, the terms 'Indian tribe' and 'tribal organization' shall have the same meaning given such terms in section 4(b) and section 4(c) of the Indian Self-Determination and Education Assistance Act.

"SEC. 1910G. PAYMENTS UNDER ALLOTMENTS TO STATES.

"(a) IN GENERAL.—

"(1) PLAN REQUIREMENT.—For each fiscal year, the Secretary shall make payments from amounts available under section 1910D for that fiscal year, as provided for in section 6503(a) of title 31, United States Code, to each State, if such State has submitted an approved State plan, from its allotment under section 1910F.

"(2) CARRYOVER FUNDS.—Any amount paid to a State for a fiscal year and remaining unobligated at the end of such year shall remain available for the next fiscal year to such State for the purposes for which it was made.

"(b) SUPPLIES AND SERVICES IN LIEU OF GRANT FUNDS.—

"(1) IN GENERAL.—

"(A) AIDING GRANTEE IN CARRYING OUT DUTIES.—Upon the request of a grantee under subsection (a), the Secretary may, subject to subparagraph (B), provide supplies, equipment, and services for the purpose of aiding the grantee in carrying out such subsection and, for such purposes, may detail to the grantee any officer or employee of the Department of Health and Human Services.

"(B) LIMITATION.—With respect to a request described in subparagraph (A), the Secretary shall reduce the amount of the grant to the grantee involved by an amount equal to the costs of detailing personnel and fair market value of any supplies, equipment, or services provided by the Secretary. The Secretary shall, for the payment of expenses incurred in complying with such request, expend the amounts withheld.

"(2) USE OF REDUCTION.—The amount by which any payment is reduced under paragraph (1) shall be available for payment by the Secretary of the costs incurred in furnishing the supplies or equipment or in detailing the personnel, on which the reduction of the payment is based, and the amount shall be considered to be subpart of the payment and to have been paid to the State.

"SEC. 1910H. USE OF ALLOTMENTS.

"(a) STATE PLAN.—A State shall utilize amounts paid to it under section 1910G, from the allotment of such State under section 1910F, to develop and implement a State plan, in accordance with section 1910I, in order to—

"(1) develop and collect data to assess the public health needs and health status of the individuals, including minorities, that reside in the State;

"(2) provide assistance for planning necessary to assist projects and programs to be included in the State plan;

"(3) provide assistance to projects and programs described in the State plan; and

"(4) make appropriate State data and the State plan available to local health departments to facilitate improved local planning.

"(b) LIMITATIONS.—A State shall not use amounts paid to it under section 1910G, to—

"(1) provide inpatient services;

"(2) make cash payments to intended recipients of health services;

"(3) purchase or improve land, purchase, construct, or permanently improve (other than minor remodeling) any building or other facility, or purchase major medical equipment; or

"(4) satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds.

"(c) ADMINISTRATION.—Not more than 10 percent of the total amount paid to a State under section 1910G from the State allotment under section 1910F for any fiscal year shall be used for administering the funds made available under section 1910G. The State shall pay from non-Federal sources any additional costs of administering such funds. For purposes of this subsection, the term 'administration' shall not be construed to include collection or assessment of data or assistance provided by States for the planning or implementation of projects and programs.

“SEC. 1910I. STATE HEALTH OBJECTIVES PLAN AND DESCRIPTION OF ACTIVITIES.

“(a) IN GENERAL.—To receive a payment under section 1910G from the State allotment for a fiscal year under section 1910F, a State shall prepare and submit, to the Secretary, a State health objectives plan at such time, in such manner, and containing such information as the Secretary shall require. Such State plan shall—

“(1) be developed by the State health agency in consultation with the State Health Objectives Advisory Committee established under subsection (b);

“(2) meet the requirements of subsection (c); and

“(3) contain assurances satisfactory to the Secretary that the State will meet the requirements of subsection (d).

“(b) ADVISORY COMMITTEE.—

“(1) ESTABLISHMENT.—Not later than 6 months after the enactment of this subpart, each State shall establish a State Health Objectives Advisory Committee, that shall be chaired by the State health officer, and shall consist of members of the public and health directors that represent local health departments.

“(2) REPRESENTATIVES.—States are encouraged to include entities receiving grants under this subpart, representatives of community-based organizations including minority community-based organizations, and a representative of an academic institution that trains public health professionals, as part of the State committee established under paragraph (1).

“(3) MEETINGS.—The State Health Objectives Advisory Committee shall meet not less than twice each year.

“(4) RESPONSIBILITIES.—The Advisory Committee established under paragraph (1) shall review and make recommendations to the State health agency concerning—

“(A) health assessment and policy development and assurance functions associated with the program established under this subpart; and

“(B) State plans, data collection efforts, the establishment of State health objectives, coordination of efforts funded under this subpart, coordination with other similar programs, public hearings, and the allocation of funds within the State annual report.

“(c) REQUIREMENTS.—A State plan submitted under subsection (a) shall—

“(1) be developed in consultation with the State Health Objectives Committee;

“(2) contain a specific set of not less than five State health objectives that shall be chosen from the national health priorities described by the Secretary under section 1910K, and that shall include all core priorities identified under such section;

“(3) contain an annual budget that describes the manner in which the payments made under section 1910G are to be used by the State, and such budget shall—

“(A) specify the portion of such funds that are to be used at each level of the State or local government, and the portion of such funds that are to be allocated for grants to local agencies of public health, community-based organizations, including minority community-based organizations, voluntary nonprofit health organizations, and other entities selected by the State help meet State objectives under paragraph (7); and

“(B) commit the State to use not less than 80 percent of such payments to meet State objectives that, as determined by the State agency after an analysis of the national health priorities, and based on the available State data described in paragraph (4), are critical to improving the health status of the individuals who reside within the State;

“(4) in terms of each State objective—

“(A) provide assurances satisfactory to the Secretary that there is a minimum set of data available to satisfactorily measure the health status of individuals including racial and ethnic minorities, who reside within the State;

“(B) utilize the data described in subparagraph (A) to identify the improvement that the State expects to make in the health status of individuals who reside within the State during the term of the State plan;

“(C) specify the particular strategies, projects and programs intended to be used by the State to improve the health status of individuals who reside within the State;

“(D) specify the methods intended to be used by the State to evaluate the progress made by the State in improving the health status of individuals who reside within the State; and

“(E) provide services targeted at improving the health status of individuals who reside within the State at the level of State or local government that the State determines are most likely to be effective in achieving the State objectives especially with respect to addressing inner city and rural disparities in health status indicators;

“(5) provide for the establishment of practices and procedures through which the State shall assist local health agencies in the development of community health plans and to monitor the progress of local health agencies, community-based organizations, including minority community-based organizations, and health organizations in implementing the State objectives;

“(6) identify public health personnel requirements that the State determines are reasonably necessary and appropriate to permit the State to achieve the State objectives;

“(7) identify the mechanism by which the State shall select, and allocate assistance provided under this subpart to local units of government, local agencies of public health, community-based health, including minority community-based organizations, voluntary nonprofit health organizations, and other entities within the State to help meet the State objectives;

“(8) contain a description (that may be revised throughout the year as may be necessary to reflect substantial changes in the projects and programs assisted by the State) of the intended use of the payments the State will receive under section 1910G for the fiscal year for which the State plan is submitted, including information concerning the projects and programs to be supported and services to provided, which shall be made available to the public within the State in a manner that will facilitate comment from any individual during the period of the development of the description and after the transmittal of such; and

“(9) contain a plan for conducting health education and disease prevention programs for identifiable racial and ethnic communities. .

“(d) ASSURANCES.—As part of the State plan required under subsection (a), a State shall provide assurances satisfactory to the Secretary that such State—

“(1) shall use the amounts allotted to it under section 1910F in accordance with the requirements of the State plan and of this subpart;

“(2) shall establish reasonable criteria for the evaluation of the effective performance of entities that receive assistance from the allotment to the State under this subpart;

“(3) shall identify those populations including racial and ethnic minorities, areas, and localities in the State that demonstrate a need for the services for which funds may be provided by the State under this subpart;

“(4) shall use amounts made available under section 1910G for any period to supplement and increase the level of State, local, and other Federal assistance that would, in the absence of amounts available under section 1910G, be made available for the programs and activities for which funds are provided for under this subpart, and shall not use funds made available under this subpart to supplant such State, local, and other Federal funds; and

“(5) shall require the State Health Objectives Advisory committee to consult with community-based minority organizations.

“SEC. 1910J. STATE HEALTH OBJECTIVES REPORT.

“(a) IN GENERAL.—Not later than 120 days after the end of each fiscal year for which assistance is provided under this subpart, each State, in cooperation with participating local units of government, shall prepare and submit, to the Secretary, an annual State health objectives report concerning the activities of the State under this subpart, that meets the requirements of this section.

“(b) REQUIREMENTS.—A State report submitted under subsection (a) shall be in such form and contain such information as the Secretary determines, after consultation with the heads of the State agencies and the Comptroller General, to be necessary—

“(1) to determine whether funds were expended by the State in accordance with this subpart and consistent with the needs within the State as proscribed in the State plan;

“(2) to secure a description of the projects and programs within the State operated or assisted with amounts provided under allotments made under this subpart; and

“(3) to secure a record of—

“(A) the purposes for which amounts provided under this subpart were expended;

“(B) the recipients of such funds; and

“(C) the progress made toward achieving the purposes for which such funds were provided.

“(c) UNIFORM DATA ITEM.—A State report submitted under subsection (a) shall include information concerning at least one uniform data item on each national health priority described in section 1910K(b) to be determined in consultation with the Secretary.

“(d) UNIFORM DATA SETS.—Each State shall report uniform data sets, as prescribed by the Secretary under section 1910K(f), for each national health priority addressed in the State plan that shall commence not later than 4 years after the date of enactment of this subpart.

“(e) ADDITIONAL CONTENTS.—The Secretary may require States to include additional information in the State report submitted under this section.

“(f) AVAILABILITY.—The State shall ensure that the State report is available for public inspection within the State, and the State Health Official shall provide copies at cost, on request, to any interested individual.

“SEC. 1910K. RESPONSIBILITIES OF THE SECRETARY.

“(a) ADVISORY COMMITTEE.—

“(1) ESTABLISHMENT.—Not later than 3 months after the enactment of this subpart, the Secretary, acting through the Assistant Secretary for Health, shall establish an advisory committee, to be known as the ‘National Health Objectives Advisory Committee’, to advise the Secretary concerning national health priorities.

"(2) Composition.—The Advisory Committee shall be composed of 12 members, of which—

"(A) one member shall be the Assistant Secretary for Health, who shall serve as the chairperson of the Advisory Committee;

"(B) two members shall be appointed by the Secretary from the general public;

"(C) one member shall be appointed by the Administrator of the Environmental Protection Agency;

"(D) two member shall be appointed by the Association of State and Territorial Health Officials;

"(E) one member shall be appointed by the National Association of County Health Officials;

"(F) one member shall be appointed by the United States Conference of Local Health Officials;

"(G) one member shall be appointed by the Association of Schools of Public Health;

"(H) one member shall be appointed by the American Public Health Association;

"(I) one member shall be the Director of the Centers for Disease Control and Prevention; and

"(J) one member shall be the Director of the Office of Disease Prevention and Health Promotion.

"(3) Meetings and duty.—The Advisory Committee shall meet not less than once each year for the purpose of providing advice to the Secretary concerning the selection, revision, implementation, and evaluation of the national health priorities, and the development and adoption of the uniform data set.

"(b) National Health Priorities.—The Secretary, in consultation with the heads of other Federal agencies and the Advisory Committee, and taking into account the 'Year 2000 Health Objectives' developed by the United States Public Health Service, shall establish—

"(1) national health priorities that shall form the basis for all activities that receive assistance under this subpart;

"(2) from the priorities established under paragraph (1), a set of three core priorities that shall be included in each State plan; and

"(3) in cooperation with other appropriate national organizations, an estimate of the personnel and training that will be needed throughout the United States to accomplish the priorities established under paragraph (1).

"(c) Review of State Plans.—The Secretary shall review each proposed State plan, and each proposed amendment thereto, submitted by a State under section 1910I, and approve each such plan or amendment, or each portion of such plan or amendment, that the Secretary determines complies with the requirements of this subpart.

"(d) State Report.—The Secretary shall receive and review each State report submitted by a State under section 1910J, and shall compile, evaluate, and prepare and submit, every 3 years, to the appropriate Committees of Congress and the President, an annual national health objectives report concerning the data and information contained in such State report.

"(e) Other Assistance.—The Secretary shall provide consultation, guidance, and technical assistance to State, and through State to local units of government, and to other entities participating in the programs created under this subpart, to—

"(1) assist in the development of data sets as required under section 1910I, and uniform data items required under section 1910J; and

"(2) assist States with the development of local and State plans, or amendments to such plans, that the Secretary determines does not comply with the requirements of this subpart, in revising such plans or amendments to comply with the requirements of this subpart.

"(f) Uniform Data Sets.—The Secretary, acting through the Director of the Centers for Disease Control and Prevention and in consultation with State and local health officials and the National Health Objectives Advisory Committee, shall establish uniform data sets for each of the national health priorities described in subsection (b). Such data sets shall be consistent with those established under section 1906 and shall be adopted not later than 2 years after the date of the enactment of this subpart.

"(g) Implementation.—In implementing the provisions of sections 1910I, 1910J and this section, with respect to data sets and data items, the Secretary shall, to the extent practicable, rely on previously developed uniform data sets, systems and indicators.

"(h) Report to Congress.—Not later than 3 years after the date of enactment of this subpart, and every 3 years thereafter, the Secretary shall prepare and submit to the appropriate committees of Congress a report concerning the activities of the States that have received funds under this subpart. Such report shall include State compilations of the information contained in the reports prepared under section 1910J, and any recommendations for appropriate changes in legislation necessary to facilitate improvement in the health status of the United States and of selected subgroups within the United States, facilitate the implementation of the State plans described in section 1910I and to facilitate other changes determined appropriate by the Secretary under subpart 2.".

Subtitle C—Categorical Programs

SEC. 131. NATIONAL DEMONSTRATION PROJECTS FOR WOMEN'S HEALTH.

Section 317(k) (42 U.S.C. 247b(k)) is amended—

(1) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively; and

(2) by inserting after paragraph (3) the following new paragraph:

"(4)(A) The Secretary shall award grants to States, and in consultation with State health agencies, to political subdivisions of States, community based organizations, and other public and nonprofit private entities for—

"(i) the establishment of demonstration projects for the prevention of conditions or diseases that adversely affect women;

"(ii) the establishment of demonstration projects for the promotion of women's health; and

"(iii) the development and dissemination of information for health promotion and disease prevention related to issues of women's health.

"(B) The projects and activities carried out under this subsection shall have an emphasis on, but not be restricted to the prevention or control of osteoporosis, coronary heart disease, diabetes, obesity and tobacco use.

"(C) There are authorized to be appropriated to carry out this paragraph, $10,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1996.".

SEC. 132. INCREASED INJURY PREVENTION ACTIVITIES.

(a) Injury Control Activities.—Section 392 (42 U.S.C. 280b–1) is amended by adding at the end thereof the following new subsections:

"(c) The Secretary, acting through the Director of the Centers for Disease Control and Prevention, may establish a national information clearinghouse to facilitate the exchange and dissemination of information concerning the prevention and control of injuries in homes, schools, public buildings and other such locations not otherwise covered by the Occupational Safety and Health Act of 1970.

"(d) The Secretary, acting through the Director of the Centers for Disease Control and Prevention, may award grants to, or enter into contracts with, State departments of health and education, and in consultation with State authorities, to local departments of health and education, for the purposes of helping public schools to implement effective programs to prevent injuries and behaviors associated with unnecessary risks for injuries. As a condition of awarding a grant under this subsection to a State or local department of education, the Secretary shall require that such department of education coordinate with the relevant department of health in utilizing amounts received under such grant.

"(e)(1) The Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall award grants to States, and in consultation with State health agencies, to political subdivisions of States, community based organizations, and other public and nonprofit private entities for the establishment of 10 demonstration projects for the prevention and control of injuries in homes, schools, public buildings and other such locations not otherwise covered by the Occupational Safety and Health Act of 1970.

"(2)(A) Not more than 50 percent the amount appropriated under section 394 for fiscal year 1993 that exceeds $30,000,000, but in no event in excess of $2,000,000, shall be used to establish five demonstration projects under paragraph (1) in such fiscal year.

"(B) Not more than 50 percent of the amount appropriated under section 394 for fiscal year 1994 that exceeds the amount appropriated under such section for fiscal year 1993, but in no event in excess of $2,000,000, shall be used to establish the remaining five demonstration projects required under paragraph (1) in such fiscal year. Additional projects may be established under such paragraph if appropriations remain available.

"(3) The projects and activities carried out under this subsection shall place an emphasis on, but not be restricted to, childhood injuries, particularly injuries to children under five years of age, prevention of motor vehicle injuries, violence and falls.".

(b) Report and Recommendations.—Section 393 (42 U.S.C. 280b–2) is amended—

(1) in the section heading to read as follows:

"REPORT AND RECOMMENDATIONS";

(2) by inserting "(a)" after the section designation; and

(3) by adding at the end thereof the following new subsection:

"(b) The Director of the Centers for Disease Control and Prevention shall biennially prepare and submit to the Secretary a report, together with recommendations and guidelines, concerning new technologies and practices based on established research findings of efficacy for injury prevention and control. The Secretary shall consider such recommendations and guidelines in determining whether to approve the purchase or lease of equipment, including vehicles, for use by the Department of Health and Human Services. The Secretary shall forward such recommendations and guidelines to the Congress, the Director of the General Services Administration, and any other agency head or State Governor that requests a copy of such recommendations and guidelines.".

(c) AUTHORIZATION OF APPROPRIATIONS.—Section 394 (42 U.S.C. 280b–3) is amended—

(1) by striking out "$10,000,000" and all that follows and inserting "$40,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1996.";

(2) by inserting "(a)" after the section designation; and

(3) by adding at the end thereof the following new subsection:

"(b) The Secretary shall only make grants under section 392(e) for a fiscal year if amounts appropriated under subsection (a) for such fiscal year are in excess of the amount appropriated under this section for fiscal year 1991.".

SEC. 133. ESTABLISHMENT OF AN OFFICE OF ADOLESCENT HEALTH.

Title III (42 U.S.C. 241 et seq.) is amended by adding at the end thereof the following new part:

"Part M—Adolescent Health

"SEC. 399F. OFFICE OF ADOLESCENT HEALTH.

"(a) ESTABLISHMENT.—The Secretary shall establish an Office of Adolescent Health (hereafter referred to in this part as the 'Office') and provide administrative support and support services to the Director of such Office.

"(b) DIRECTOR.—The Office shall be headed by a Director (hereafter referred to in this part as the 'Director') who shall be appointed by the Secretary.

"(c) PURPOSE AND DUTIES.—It shall be the purpose of the Office to ensure the sufficiency of the efforts of the Federal government to improve the health status of adolescents. The Office shall—

"(1) coordinate all activities within the Department that relate to the monitoring of trends in the health status of adolescents through data collection;

"(2) coordinate all activities (including research) within the Department concerning the design of, support for, and evaluation of, adolescent health services;

"(3) establish a national information clearinghouse to facilitate the exchange of information concerning all Federal research activities and initiatives as such relates to adolescent health and to facilitate access to such information;

"(4) oversee multidisciplinary disease, injury, and disability prevention research projects concerning conditions and diseases unique to, more prevalent in, or neglected in adolescents;

"(5) coordinate the training of health providers who work with adolescents, particularly nurse practitioners, physician assistants, social workers;

"(6) establish within the Office an advisory committee under section 399H to be known as the National Advisory Committee on Adolescent Health;

"(7) provide advice to Congress concerning adolescent health issues; and

"(8) in collaboration with the National Adolescent Health Advisory Commission, develop a national strategic plan to access adolescent health issues.

"SEC. 399G. ADOLESCENT HEALTH INITIATIVES.

"(a) GRANTS.—The Secretary, acting through the Office of Adolescent Health, shall award grants to, or enter into contract with, State health agencies and other eligible applicants to assist such applicant in funding activities authorized under an application approved under section (d).

"(b) USE OF AMOUNTS.—Amounts provided under a grant or contract under subsection (a) shall be used by the recipients of such amounts to fund multidisciplinary projects based on established research findings of efficacy that are designed to—

"(1) use new and innovative methods to train health care practitioners to provide services to adolescents; and

"(2) demonstrate and evaluate innovative multidisciplinary methods and models designed to prevent adolescent violence.

"(c) ELIGIBLE APPLICANTS.—To be eligible to receive a grant or contract under this section an entity shall be a State or local health department, nonprofit organization and public or nonprofit college, university or school of, or program that specializes in, adolescent medicine, nursing, medicine, osteopathy, social work, psychology, public health, and programs that train physician assistants and shall prepare and submit to the Secretary for approval an application under subsection (d). Eligible entities shall not include for-profit entities, either directly or through a subcontract or subgrant.

"(d) APPLICATIONS.—

"(1) SUBMISSION.—To be eligible to receive a grant or contract under subsection (a) an entity shall prepare and submit an application to the Secretary at such time, in such form, and containing such information as the Secretary shall require.

"(2) REQUIREMENTS.—Applications submitted under this subsection shall—

"(A) be submitted by a coalition or consortium of at least three eligible applicants with the express purpose of establishing long-term collaborative relationships with adolescent health care providers; and

"(B) provide any additional information required by the Secretary.

"(e) PEER REVIEW.—

"(1) IN GENERAL.—Each application for a grant or contract under this section shall be submitted to a peer review group for an evaluation of the merits of the proposals made in the application.

"(2) ESTABLISHMENT.—The Secretary shall establish such peer review groups as may be necessary to carry out paragraph (1). The Secretary shall make appointments to the peer review groups from among appropriately qualified persons who are not officers or employees of the United States.

"(3) REPORT OF FINDINGS.—With respect to applications referred to in paragraph (1), a peer review group established pursuant to such paragraph shall report its finding and recommendations to the Secretary. The Secretary may not approve such an application unless a peer review group has recommended the application for approval, and awards should be made in the order of priority from the peer review process.

"(4) ADMINISTRATION.—This paragraph shall be carried out by the Secretary.

"(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section, $10,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1996.

"SEC. 399H. NATIONAL ADOLESCENT HEALTH ADVISORY COMMISSION.

"(a) COMPOSITION.—The Advisory Commission (hereafter referred to in this section as the 'Commission') established under section 399F(c)(6) shall be composed of—

"(1) the Assistant Secretary of Health;

"(2) the Assistant Secretary of Education for Elementary and Secondary Schools;

"(3) a representative of the Health Resources and Services Administration to be appointed by the Secretary;

"(4) a representative of the Centers for Disease Control and Prevention to be appointed by the Secretary;

"(5) a representative of the National Institute of Health to be appointed by the Secretary;

"(6) five individuals appointed by the Secretary from among physicians, practitioners, scientists, and other health professionals whose clinical practice and research specialization focus on adolescent health; and

"(7) a parent of an adolescent to be appointed by the Secretary.

"(b) APPOINTMENTS.—Not later than April 1, 1992, the Secretary shall appoint the members of the Commission in accordance with subsection (a).

"(c) MEETINGS.—The Commission shall meet not less than twice annually to provide advice and make recommendations to the Secretary and to the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives, with respect to—

"(1) priority research needs;

"(2) appropriate research activities to be supported by the Office;

"(3) deficiencies and needs for improvements in existing data bases concerning adolescent health status and steps that should be taken to eliminate such deficiencies; and

"(4) identify problems in adolescent health and make recommendations for the resolution of such problems.

"(d) REPORTS.—

"(1) INTERIM REPORTS.—Not later than 1 year and 3 years after the date on which the initial meeting of the Commission is held, the Commission shall prepare and submit to the individual and entities described in subsection (c) a progress report concerning the activities of the Commission.

"(2) FINAL REPORT.—Not later than April 1, 1996, the Commission shall prepare and submit to the individuals and entities described in subsection (c) a final report concerning its activities.

"(e) STAFF SUPPORT FOR THE ADVISORY COMMISSION.—The Director of the Centers for Disease Control and Prevention, acting through the Division of Adolescent and School Health, shall provide the staff support for the Commission.".

SEC. 134. IMPROVEMENT IN LEAD POISONING SCREENING AND PREVENTION.

(a) AUTHORITY FOR GRANTS.—

(1) IN GENERAL.—Section 317A(a) (42 U.S.C. 247b–1(a)) is amended to read as follows:

"(a) AUTHORITY FOR GRANTS.—

"(1) IN GENERAL.—The Secretary, acting through the Director of the Centers for Disease Control and Prevention, may make grants to public and nonprofit private entities (including States and political subdivisions of States) for the initiation and expansion of community programs designed—

"(A) to provide, for infants and children—

"(i) screening for elevated blood-lead levels;

"(ii) referral for treatment of such levels; and

"(iii) referral for environmental intervention associated with such levels; and

"(B) to provide education about childhood lead poisoning.

"(2) PROVISION OF ALL SERVICES AND ACTIVITIES THROUGH EACH GRANTEE.—In making grants under paragraph (1), the Secretary shall ensure that each of the services and activities described in such paragraph is provided through each grantee under such paragraph. The Secretary may authorize such a grantee to provide the services and activities directly, or through arrangements with other providers."; and

(2) CONFORMING AMENDMENTS.—Section 317A (42 U.S.C. 247b-1) is amended—

(A) by redesignating subsections (b) through (j) as subsections (d) through (l), respectively;

(B) in subsection (h) (as so redesignated)—

(i) in paragraph (1), by striking the comma after "recipient" and inserting a semicolon; and

(ii) in paragraph (2), by striking the comma at the end and inserting a semicolon; and

(C) by inserting before subsection (d) (as so redesignated) the following:

"(c) PRIORITY IN MAKING GRANTS.—In making grants under subsection (a), the Secretary shall give priority to applications for programs that will serve areas with a high incidence of elevated blood-lead levels in infants and children.".

(b) ESTABLISHMENT OF REQUIREMENT REGARDING STATUS AS MEDICAID PROVIDER.—Section 317A, as amended by subsection (a)(2)(A), is further amended by inserting after subsection (a) the following new subsection:

"(b) STATUS AS MEDICAID PROVIDER.—

"(1) IN GENERAL.—Subject to paragraph (2), the Secretary may not make a grant under subsection (a) unless, in the case of any service described in such subsection that is made available pursuant to the State plan approved under title XIX of the Social Security Act for the State involved—

"(A) the applicant for the grant will provide the service directly, and the applicant has entered into a participation agreement under the State plan and is qualified to receive payments under such plan; or

"(B) the applicant will enter into an agreement with a provider under which the provider will provide the service, and the provider has entered into such a participation agreement and is qualified to receive such payments.

"(2) WAIVER REGARDING CERTAIN SECONDARY AGREEMENTS.—

"(A) In the case of a provider making an agreement pursuant to paragraph (1)(B) regarding the provision of services, the requirement established in such paragraph regarding a participation agreement shall be waived by the Secretary if the provider does not, in providing health care services, impose a charge or accept reimbursement available from any third-party payor, including reimbursement under any insurance policy or under any Federal or State health benefits plan.

"(B) A determination by the Secretary of whether a provider referred to in subparagraph (A) meets the criteria for a waiver under such subparagraph shall be made without regard to whether the provider accepts voluntary donations regarding the provision of services to the public.".

(c) GRANT APPLICATION.—

(1) COORDINATION.—Section 317A, as amended by subsection (a)(2)(A), is further amended—

(A) by striking out subsection (f); and

(B) in subsection (d)(1)—

(i) by inserting ", including the sources of lead exposure, the immediate risk of lead-based paints, other sources of lead including drinking water and soil, the potential dangers of lead exposure during home renovations, the importance of screening young children for lead, and the preventive steps that parents can take in reducing the risk for lead poisoning," after "infants and children" in subparagraph (B);

(ii) by redesignating subparagraph (E) as subparagraph (F); and

(iii) by inserting after subparagraph (D) the following new subparagraph:

"(E) Assurances satisfactory to the Secretary that the program to be provided under the grant applied for will include educational programs designed to communicate to health professionals and paraprofessionals updated knowledge concerning lead poisoning and research, the health consequences, if any, of low-level lead burden, the prevalence of lead poisoning among all socioeconomic groupings, the benefits of expanded lead screening, and the therapeutic and other interventions available to prevent and combat lead poisoning in affected children and families.".

(2) REPORT.—Section 317A(d)(2), as redesignated by subsection (a)(2)(A), is amended to read as follows:

"(2) ANNUAL REPORT.—Not later than February 1 of each year, the Secretary shall submit to Congress, a report on the effectiveness during the preceding fiscal year of programs carried out with grants under subsection (a) and of any programs that are carried out by the Secretary pursuant to subsection (l)(2). Such reports shall, include in addition to any other information that the Secretary shall require a description of the number of individuals screened, age distribution of individuals screened, minority representation of the screened population, number of screening sites, percentage of children screened with blood levels greater than 10 micrograms per deciliter, and prior years information for these categories where available. Recipients of grants under this section that are required to report equivalent information to the Secretary under other sections of this Act shall be exempt from the requirements of this subsection.".

(3) TECHNICAL AND CONFORMING AMENDMENTS.—Section 317A(d)(1), as redesignated by subsection (a)(2)(A) and amended by subsection (c)(1)(B)(i), is further amended—

(A) by striking out "(d) GRANT" and all that follows through "No grant" and inserting the following:

"(d) GRANT APPLICATION.—

"(1) IN GENERAL.—No grant";

(B) by moving each of subparagraphs (A) through (F) 2 ems to the right; and

(C) in subparagraph (C), by striking out "effectiveness" and all that follows and inserting in lieu thereof "effectiveness.".

(d) ESTABLISHMENT OF PROVISION REGARDING RELATIONSHIP TO ITEMS AND SERVICES UNDER OTHER PROGRAMS.—Section 317A, as amended by subsection (c)(1)(A), is further amended by inserting after subsection (e) the following new subsection:

"(f) RELATIONSHIP TO SERVICES AND ACTIVITIES UNDER OTHER PROGRAMS.—

"(1) IN GENERAL.—A recipient of a grant under subsection (a) may not make payments from the grant for any service or activity to the extent that payment has been made, or can reasonably be expected to be made, with respect to such service or activity—

"(A) under any State compensation program, under an insurance policy, or under any Federal or State health benefits program; or

"(B) by an entity that provides health services on a prepaid basis.

"(2) APPLICABILITY TO CERTAIN SECONDARY AGREEMENTS FOR PROVISION OF SERVICES.—Paragraph (1) shall not apply in the case of a provider through which a grantee under subsection (a) provides services under such subsection if the Secretary has provided a waiver under subsection (b)(2) regarding the provider.".

(e) AUTHORIZATION OF APPROPRIATIONS.—Section 317A(l), as redesignated by subsection (a)(2)(A), is further amended—

(1) by striking out "There are" and all that follows through "not more than" and inserting in lieu thereof the following: "For the purpose of carrying out this section, there are authorized to be appropriated";

(2) by striking "and" after "1990,"; and

(3) by inserting before the period the following: ", $40,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1996.".

(f) NATIONAL EDUCATION PROGRAM.—Title III is amended by inserting after section 317A (42 U.S.C. 247b-1) the following new section:

"SEC. 317B. NATIONAL LEAD POISONING PREVENTION EDUCATION PROGRAM.

"The Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall establish and implement a national program designed to educate health professionals and paraprofessionals and the general public concerning lead poisoning. As part of such educational program the Secretary shall ensure that such individuals have access to information concerning the health effects of low-level lead toxicity, the most serious causes of lead poisoning, and the primary and secondary preventive measures that may be taken to combat the problem of lead poisoning.".

(g) RESEARCH AND DEVELOPMENT.—Title III (as amended by subsection (f) is further amended by inserting after section 317B the following new section:

"SEC. 317C. NATIONAL LEAD POISONING TECHNOLOGY ASSESSMENT AND EPIDEMIOLOGY PROGRAM.

"The Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall establish and implement a concerted technology assessment and epidemiology program to—

"(1) develop improved testing measures that may be administered to children to detect lead toxicity using methods that are sufficiently reliable, sensitive, applicable and cost-effective;

"(2) more accurately assess the prevalence of lead poisoning by State, socioeconomic grouping, and health care insurance status; and

"(3) conduct any applied research necessary to improve the effectiveness of childhood lead poisoning prevention programs.".

(h) TASK FORCE TO COORDINATE EFFORTS TO PREVENT LEAD POISONING.—Title III (as amended by subsections (f) and (g) is further amended by inserting after section 317C the following new section:

"SEC. 317D. INTERAGENCY TASK FORCE ON THE PREVENTION OF LEAD POISONING.

"(a) ESTABLISHMENT.—Not later than 6 months after the date of enactment of this Act, the Secretary shall establish a task force, to be known as the 'Interagency Task Force on the Prevention of Lead Poisoning', to coordinate the efforts of Federal agencies to prevent lead poisoning.

"(b) COMPOSITION.—The task force established under subsection (a) shall be composed of—

"(1) the Secretary, who shall serve as the chairperson of the task force;

"(2) the Secretary of Housing and Urban Development;

"(3) the Administrator of the Environmental Protection Agency; and

"(4) senior staff selected by the Secretary of Health and Human Services, Secretary of

Housing and Urban Development and Administrator of the Environmental Protection Agency.

"(c) DUTIES.—The task force established under subsection (a) shall—

"(1) review, evaluate and coordinate current strategies and plans formulated by the Department of Health and Human Services (including the Strategic Plan for the Elimination of Lead Poisoning of February 21, 1991), the Department of Housing and Urban Development (including the Comprehensive and Workable Plan for the Abatement of Lead-Based Paint in Privately Owned Housing of December 7, 1990) and the Environmental Protection Agency (including the Strategy for Reducing Lead Exposures of February 21, 1991) and develop a unified implementation plan for programs related to the prevention of lead poisoning that receive assistance from the Federal Government;

"(2) establish a mechanism for sharing and disseminating information among and to agencies participating in the task force;

"(3) identify the most promising areas of research and education concerning lead poisoning;

"(4) identify the practical and technological constraints to expanding lead poisoning prevention;

"(5) annually carry out a comprehensive review of Federal programs providing assistance to prevent lead poisoning, and prepare and submit not later than May 1 of each year to the Committee on Labor and Human Resources and the Committee on the Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House of Representatives, a report that summarizes the review conducted under this paragraph and contains any program, policy and budgetary recommendations of the task force; and

"(6) annually review and coordinate departmental and agency budgetary requests with respect to all lead poisoning prevention activities of the Federal Government.".

(i) EFFECTIVE DATE.—The amendments made by this section shall take effect October 1, 1991, or upon the date of the enactment of this Act, whichever occurs later.

SEC. 136. SCREENING AND EARLY DETECTION OF PROSTATE CANCER.

Title III is amended by inserting after Section 318 (42 U.S.C. 247c) the following new section:

"SEC. 318A. PROSTATE CANCER SCREENING AND EARLY DETECTION.

"(a) IN GENERAL.—The Secretary, acting through the Director of the Centers for Disease Control and Prevention, may make grants to States, academic medical centers, or other public or nonprofit private entities—

"(1) to determine the prevalence, incidence and mortality rates and stage at diagnosis of prostate cancer, nationally, within regions and within subgroups of the population; and

"(2) to determine the state of current practices for the screening and diagnosis of prostate cancer and the effectiveness of such practices in reducing mortality.

Such grants shall be awarded on the basis of an established competitive review process.

"(b) COORDINATION WITH THE NATIONAL INSTITUTES OF HEALTH.—The Director of the Centers of Disease Control and Prevention shall coordinate with the Director of the National Institutes of Health to—

"(1) evaluate existing methods for the screening and diagnosis of prostate cancer in order to develop more sensitive and specific, less expensive screening and diagnostic methods;

"(2) evaluate and improve reporting of surveillance data relative to prostate cancer;

"(3) disseminate information concerning such methods to health professionals; and

"(4) collaborate to expedite the review of research and development of technologies that insure early detection of prostate cancer.

"(c) APPLICATION REQUIREMENTS.—The Secretary may not make a grant under subsection (a) unless an application for such grant is submitted to the Secretary. Such application shall be in such form, submitted at such time, and contain such information as the Secretary determines to be appropriate to carry out this section, including a description of the activities, as described in subsection (a), that the applicant intends to use the amounts received under such grant to carry out.

"(d) DESCRIPTION OF INTENDED USE OF GRANTS.—The Secretary may not make a grant under subsection (a) unless the applicant for such grant submits to the Secretary a description of the purposes for which the applicant intends to expend the amounts received under the grant that—

"(1) identifies the populations, areas and locations to be assessed under the grant; and

"(2) provides assurances that the grant funds will be used in the most cost-effective manner practicable.

"(e) TECHNICAL ASSISTANCE.—The Secretary may provide training and technical assistance with respect to the planning, development and operation of activities carried out under grants awarded under this section.

"(f) REPORTS.—Not later than 18 months after the awarding of grants under this section, and annually thereafter, the Secretary shall prepare and submit to the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce in the House of Representatives, a report that contains—

"(1) a summary of the findings derived from the activities carried out under grants awarded under this section during the preceding fiscal year; and

"(2) recommendations for administrative and legislative initiatives to improve the public health based upon the findings described in paragraph (1) that the Secretary determines to be appropriate.

"(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $10,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1996.".

SEC. 137. SPECIAL REGIONAL AND NATIONAL DEMONSTRATION PROJECTS FOR MINORITY HEALTH PROMOTION AND DISEASE PREVENTION.

Title XVII (42 U.S.C. 300u) is amended by adding at the end thereof the following new section:

"SEC. 1708. SPECIAL REGIONAL AND NATIONAL DEMONSTRATION PROJECTS FOR MINORITY HEALTH PROMOTION AND DISEASE PREVENTION.

"(a) GRANTS.—The Secretary, acting through the Assistant Secretary of Health, shall award grants to States, political subdivisions of States, public or nonprofit community-based organizations, and other public and nonprofit private entities for the establishment of demonstration projects for the prevention of diseases that disproportionately affect minorities.

"(b) PRIORITY.—In awarding grants for projects under subsection (a), the Secretary shall give priority to projects that are designed to address the leading causes of death, disease and disability in minority populations, including cancer, cardiovascular disease, diabetes, violence, homicide, and tobacco use.

"(c) APPLICATION.—To be eligible to receive a grant under this section, an entity of the type described in subsection (a) shall prepare and submit to the Secretary an application, at such time, in such form, and containing such information as the Secretary determines appropriate.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $10,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1996.".

TITLE II—COORDINATION OF HEALTH PROMOTION AND DISEASE PREVENTION ACTIVITIES

SEC. 201. SHORT TITLE.

This title may be cited as the "Health Promotion and Disease Prevention Coordination Act of 1991".

SEC. 202. HEALTH INFORMATION AND HEALTH PROMOTION.

(a) OFFICE OF DISEASE PREVENTION AND HEALTH PROMOTION.—Paragraph (11) of section 1701(a) (42 U.S.C. 300u(a)(11)) is amended to read as follows:

"(11) establish in the Office of the Assistant Secretary for Health an Office of Disease Prevention and Health Promotion, to be headed by a director appointed by the Secretary, that shall—

"(A) ensure interagency and interdepartmental coordination of all activities related to health promotion and disease prevention, specifically including nutrition, physical fitness, children and school health, worksite health promotion, health promotion for special populations at risk for preventable disease and disability, and other matters that involve various agencies of the Department or collaboration with other Federal departments and agencies;

"(B) coordinate Federal activities of the type described in subparagraph (A) with similar activities conducted by the private sector and encourage the establishment of additional activities of this type in the private sector;

"(C) establish a national information clearinghouse to—

"(i) facilitate the exchange of information concerning matters relating to health information and health promotion, preventive health services, and education in the appropriate use of health care;

"(ii) facilitate the access of health care providers, other providers of health information, and health care consumers to such information; and

"(iii) facilitate and assist entities in the access of such information and the analysis of issues and problems relating to such matters;

"(D) support projects, conduct research, and disseminate information relating to health promotion, disease prevention, preventive medicine and physical fitness and exercise;

"(E) coordinate, in collaboration with agencies within the Department and other Federal Departments and agencies, a national effort to promote health and prevent disease through the enhancement of health related behavior, improve access to preventive health services, and health information, communication and education with respect to the appropriate use of health care; and

"(F) report to the public, through the publication of a short, easy-to-understand annual report on key Healthy People 2000 objective indicators and on progress made toward achieving the Healthy People 2000 objectives, to—

"(i) focus attention on an easily identifiable and understandable set of core health objective indicators;

"(ii) highlight national, State, and individual health status indicators and cite specific examples;

"(iii) stress quality of life indicators;

"(iv) maximize the use of the print and electronic media to promote the health status of the United States and the Healthy People 2000 objectives;

"(v) highlight priority areas where additional efforts are needed, either at the national, State, or individual level, to attain specific Healthy People 2000 objectives; and

"(vi) report on the current ranking of the United States with respect to the infant mortality and life expectancy rates.".

(b) Authorization of Appropriations.—Subsection (b) of section 1701 (42 U.S.C. 300u(b)) is amended to read as follows—

"(b) For the purpose of carrying out this section and sections 1702 through 1705, there are authorized to be appropriated $10,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1996.".

(c) Target Populations.—Section 1701 (42 U.S.C. 300u) is amended by adding at the end thereof the following new subsection:

"(d) With respect to activities carried out with amounts appropriated under this title, particular emphasis shall be placed on the target populations under each grant, contract or other activity under this title to ensure that appropriate priority is provided to populations and groups with documented historically poor health.".

(d) Literacy Requirements.—Section 1701(a)(3) (42 U.S.C. 300u(a)(3)) is amended—

(1) in subparagraph (B), by striking out "and" at the end thereof;

(2) in subparagraph (C), by adding "and" after the semicolon; and

(3) by adding at the end thereof the following new subparagraph:

"(D) ensure that, after January 1, 1992, at least one-half of all new or revised health education and promotion materials developed or funded by the Department is in a form that does not exceed a level of functional literacy, as defined in the National Literacy Act of 1991 (Public Law 102–73);".

SEC. 203. INTERDEPARTMENTAL COORDINATING COUNCIL.

Section 1701 (42 U.S.C. 300u) (as amended by section 202(c)) is further amended by adding at the end thereof the following new subsection:

"(e)(1) The Secretary, in consultation with the Secretary of Education, shall establish an interdepartmental group for coordinating activities and fostering cooperation with respect to programs concerning multidimensional school health programs, including school health education. Multidimensional school health programs may include—

"(A) school health education;

"(B) school-linked or school based health services designed to prevent, detect and address health problems;

"(C) programs to create a healthy and safe school environment;

"(D) physical education;

"(E) healthful school food services;

"(F) psychological assessment and counseling to promote child development and emotional health;

"(G) schoolsite health promotion for faculty and staff; and

"(H) integrated school and community disease prevention and health promotion efforts.

"(2) The group established under paragraph (1) shall foster cooperation in linking national health objectives established by the Secretary with national education goals established by the Secretary of Education, and promote the establishment of multidimensional school health programs, particularly comprehensive school education, to improve the health of American youth.

"(3) The Secretary and the Secretary of Education, shall serve as co-chairpersons of the group established under paragraph (1). The Secretary shall appoint individuals to serve as a members of the group from among representatives of appropriate components of the Department of Health and Human Services and the Department of Education. The co-chairpersons may solicit appropriate representation from other Federal departments and agencies. The Public Health Service shall provide staff support for convening the group established under paragraph (1).".

SEC. 204. DISSEMINATION OF HEALTH INFORMATION.

(a) Research.—Section 1702(a) (42 U.S.C. 300u–1(a)) is amended—

(1) in the matter preceding paragraph (1), by striking out "health information and";

(2) striking out paragraph (2);

(3) redesignating paragraphs (3) through (6) as paragraphs (2) through (5), respectively; and

(4) in paragraph (5) (as so redesignated), by striking out "paragraph (5)" and inserting in lieu thereof "paragraph (4)".

(b) Information.—Section 1704 (42 U.S.C. 300u–3) is amended by adding at the end thereof the following new paragraph:

"(6) A determination of the most effective methods of disseminating information concerning personal health behavior, preventive health services and the appropriate use of health care and of affecting behavior so that such information is applied to maintain and improve health, and prevent disease, reduce risk, or modify its course or severity.".

SEC. 205. REPORT ON NATIONAL HEALTH STATUS IMPROVEMENT.

Subsection (a) of section 1705 (42 U.S.C. 300u–4(a)) is amended to read as follows:

"(a) The Secretary shall annually prepare and submit to the President, for subsequent transmittal to the appropriate committees of Congress, a report concerning the status of the nation's health. Each such report shall include—

"(1) a description of the activities carried out under this title for the period for which the report is being submitted and the extent to which each such activity achieves the purpose of the title;

"(2) a description of the goals and strategy formulated pursuant to section 1701(a)(1), the model standards developed under this title, and the results of the study conducted under subsection (b) of this section;

"(3) an analysis of the manner in which the health status of the nation has changed since during the period for which the report is submitted, including information concerning the nation's health status according to the national health status indicators developed under section 5 of the Year 2000 National Health Objectives Planning Act (Public Law 101–582); and

"(4) such recommendations as the Secretary considers appropriate for legislation with respect to health promotion, disease prevention, health information, preventive health services, and education in the appropriate use of health care, including recommendations for revisions and extensions of this title.".

SEC. 206. HEALTH EDUCATION CURRICULUM.

Section 1707(b)(6) (42 U.S.C. 300u–6(b)(6)) is amended—

(1) by striking out "and" at the end of subparagraph (D);

(2) by adding "and" after the semicolon in subparagraph (E);

(3) by adding at the end thereof the following new subparagraph:

"(F) the development of model curricula and programs for health information and education for use in community and workplace settings.".

SEC. 207. STATE OFFICES OF MINORITY HEALTH.

Title XVII (42 U.S.C. 300u et seq.) is amended by adding at the end thereof the following new section:

"SEC. 1709. GRANTS TO STATES FOR OPERATION OF OFFICES OF MINORITY HEALTH.

"(a) In General.—The Secretary, acting through the Deputy Assistant Secretary for Minority health (as established under section 1707), may make grants to States for the purpose of improving the health status in minority communities, through the operation of State offices of minority health established to monitor and facilitate the achievement of the Health Objectives for the Year 2000 as they affect minority populations.

"(b) Certain Requirement for States.—

"(1) Minimum qualifications.—The Secretary may not make a grant to a State under subsection (a) unless such State receives, under any provision of this Act other than subsection (a), one or more grants, cooperative agreements, or contracts for the fiscal year for which the State is applying pursuant to subsection (g) to receive a grant under subsection (a).

"(2) Administration of program.—The Secretary may not make a grant to a State under subsection (a) unless such State agrees that the program carried out by the State with amounts received under the grant will be administered directly by a single State agency.

"(c) Certain Required Activities.—The Secretary may not make a grant to a State under subsection (a) unless such State agrees that activities carried out by an office operated under the grant received pursuant to such subsection will—

"(1) establish and maintain within the State a clearinghouse for collecting and disseminating information on—

"(A) minority health care issues;

"(B) research findings relating to minority health care; and

"(C) innovative approaches to the delivery of health care and social services in minority communities;

"(2) coordinate the activities carried out in the State that relate to minority health care, including providing coordination for the purpose of avoiding redundancy in such activities; and

"(3) identify Federal and State programs regarding minority health, and providing technical assistance to public and non-profit entities regarding participation in such program.

"(d) Requirement Regarding Annual Budget for Office.—The Secretary may not make a grant to a State under subsection (a) unless such State agrees that, for any fiscal year for which the State receives such a grant, the office operated under such grant will be provided with an annual budget of not less than $50,000.

"(e) Certain Uses of Funds.—

"(1) RESTRICTIONS.—The Secretary may not make a grant to a State under subsection (a) unless such State agrees that—

"(A) if research with respect to minority health is conducted pursuant to the grant, not more than 10 percent of the amount receive under the grant will be expended for such research; and

"(B) amounts provided under the grant will not be expended—

"(i) to provide health care (including providing cash payments regarding such care);

"(ii) to conduct activities for which Federal funds are expended—

"(I) within the state to provide technical and other non-financial assistance under subsection (m) of section 340A;

"(II) under a memorandum of agreement entered into with the State under subsection (h) of such section;

"(III) under a grant under section 388I;

"(iii) to purchase medical equipment, to purchase ambulances, aircraft, or other vehicles, or to purchase major communications equipment;

"(iv) to purchase or improve real property; or

"(v) to carry out any activity regarding a certificate of need.

"(2) AUTHORITIES.—Activities for which a State may expend amounts received under a grant under subsection (a) include—

"(A) paying the costs of establishing an office of minority health for purposes of subsection (a);

"(B) subject to paragraph (1)(B)(ii)(III), paying the costs of any activity carried out with respect to recruiting and retaining health professionals to serve in minority communities in the State; and

"(C) providing grants and contracts to public and non-profit private entities to carry out activities authorized in this section.

"(f) REPORTS.—The Secretary may not make a grant to a State under subsection (a) unless such State agrees—

"(1) to submit to the Secretary reports containing such information as the Secretary may require regarding activities carried out under this section by the State; and

"(2) to submit such a report not later than January 10 of each fiscal year immediately following any fiscal year for which the State has received such a grant.

"(g) REQUIREMENT OF APPLICATION.—The Secretary may not make a grant to a State under subsection (a) unless an application for the grant is submitted to the Secretary and the application in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines to be necessary to carry out such subsection.

"(h) NONCOMPLIANCE.—The Secretary may not make payments under subsection (a) to a State for any fiscal year subsequent to the first fiscal year of such payments unless the Secretary determines that, for the immediately preceding fiscal year, the State has complied with each of the agreements made by the State under this section.

"(i) DEFINITIONS.—For purposes of making grants under subsection (a) there are authorized to be appropriated $3,000,000 for fiscal year 1992, $4,000,000 for fiscal year 1993, $3,000,000 for fiscal year 1994, and such sums as may be necessary for each of the fiscal years 1995 through 1996.

"(2) AVAILABILITY.—Amounts appropriated under paragraph (1) shall remain available until expended.

"(k) TERMINATION OF PROGRAM.—No grant may be made under this section after the aggregate amounts appropriated under subsection (j)(1) are equal to $10,000,000.".

TITLE III—PREVENTABLE CASES OF INFERTILITY

SEC. 301. ESTABLISHMENT OF PROGRAM OF GRANTS REGARDING PREVENTABLE CASES OF INFERTILITY ARISING AS RESULT OF SEXUALLY TRANSMITTED DISEASES.

Title III (42 U.S.C. 241 et seq.) (as amended by sections 133 and 302), is further amended by adding at the end the following new part:

"PART O—PREVENTABLE CASES OF INFERTILITY

"SEC. 399N. INFERTILITY ARISING AS RESULT OF SEXUALLY TRANSMITTED DISEASES.

"(a) GRANTS.—The Secretary may make grants to States, political subdivisions of States, and any other public or nonprofit private entities for the purpose of carrying out the activities described in subsection (c) regarding any treatable sexually transmitted disease that can cause infertility in women if treatment is not received for the disease. The Secretary shall carry out this section acting through the Director of the Centers for Disease Control and Prevention.

"(b) SPECIFICATION OF RELEVANT DISEASES.—

"(1) IN GENERAL.—For each fiscal year, the Secretary shall make a determination specifying all sexually transmitted diseases that are diseases described in subsection (a).

"(2) DISEASES APPLICABLE WITH RESPECT TO GRANTEE INVOLVED.—In making a grant under subsection (a) to an applicant for the grant, the Secretary shall make a determination in order to select, from among the diseases specified for purposes of paragraph (1) for the fiscal year involved, the particular diseases with respect to which the grant is to be made to the applicant. The Secretary may select, for purposes of the determination, any or all of the diseases so specified. The Secretary may not make such a grant unless the applicant agrees to carry out this section only with respect to the disease or diseases selected for the applicant through the determination.

"(c) AUTHORIZED ACTIVITIES.—With respect to any sexually transmitted disease described in subsection (a), the activities referred to in such subsection are—

"(1) providing counseling to women on the prevention and control of the disease, including, in the case of a woman with the disease, counseling on the benefits of locating and providing such counseling to any individual from whom the woman may have contracted the disease and any individual whom the woman may have exposed to the disease;

"(2) screening women for the disease and for secondary conditions resulting from the disease;

"(3) providing treatment to women for the disease;

"(4) providing for the provision of necessary medical services to women screened pursuant to paragraph (2), and referrals for evaluation and treatment regarding acquired immune deficiency syndrome and other sexually transmitted diseases;

"(5) providing follow-up services to determine the outcomes of medical services;

"(6) in the case of any woman receiving services pursuant to any of paragraphs (1) through (5), providing to the partner of the woman the services described in such paragraphs, as appropriate;

"(7) providing outreach services to inform women of the fact that the services described in paragraphs (1) through (6) are available from the grantee involved;

"(8) providing to the public information and education on the prevention and control of the disease, including disseminating such information;

"(9) providing training to health care providers in carrying out the counseling and screenings described in paragraphs (1) and (2);

"(10) in the case of services and activities described in this subsection, coordinating the services and activities in accordance with subsection (g); and

"(11) collecting, in accordance with subsection (k), data on the incidence and prevalence of the disease in order to assist in carrying out activities for the prevention and control of the disease, including activities to educate the public regarding the disease.

"(d) REQUIREMENT OF AVAILABILITY OF ALL SERVICES THROUGH EACH GRANTEE.—The Secretary may not make a grant under subsection (a) unless the applicant involved agrees that each authorized service will be available through the applicant. With respect to compliance with such agreement, the applicant may expend the grant to provide any of the services directly, and may expend the grant to enter into agreements with other public or nonprofit private entities under which the entities provide the services.

"(e) REQUIRED PROVIDERS REGARDING CERTAIN SERVICES.—The Secretary may not make a grant under subsection (a) unless the applicant involved agrees that, in expending the grant to provide authorized services, the services described in paragraphs (1) through (7) of subsection (c) will be provided only through entities that are State or local health departments, grantees under section 329, 330, or 1001 or are other public or nonprofit private entities that provide health services to a significant number of low-income women.

"(f) QUALITY ASSURANCE REGARDING SCREENING FOR DISEASES.—For purposes of this section, the Secretary shall establish criteria for ensuring the quality of screening procedures for diseases described in subsection (a). The Secretary may not make a grant under such subsection unless the applicant involved agrees, with respect to any disease selected in the determination made under subsection (b)(2) for the applicant, to carry out screenings for the disease in accordance with such criteria.

"(g) COORDINATION OF SERVICES.—The Secretary may not make a grant under subsection (a) unless the applicant involved agrees to coordinate all authorized services provided through the applicant for the purpose of ensuring efficiency in the provision of the services.

"(h) CONFIDENTIALITY.—The Secretary may not make a grant under subsection (a) unless the applicant involved agrees to maintain the confidentiality of information on individuals regarding screenings of the individuals for sexually transmitted diseases, subject to complying with applicable law.

"(i) LIMITATION ON IMPOSITION OF FEES FOR SERVICES.—The Secretary may not make a grant under subsection (a) unless the applicant involved agrees that, if a charge is imposed for the provision of services or activities under the grant, such charge—

"(1) will be made according to a schedule of charges that is made available to the public;

"(2) will be adjusted to reflect the income of the individual involved; and

"(3) will not be imposed on any individual with an income of less than 150 percent of the official poverty line, as established by the Director of the Office of Management and Budget and revised by the Secretary in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981.

"(j) Limitations on Certain Expenditures.—The Secretary may not make a grant under subsection (a) unless the applicant for the grant agrees that—

"(1) in the case of the first fiscal year for which the applicant receives payments under the grant, not more than 20 percent of the grant will be expended for the purpose of carrying out paragraphs (8) through (11) and subsection (c); and

"(2) in the case of any subsequent fiscal year for which the applicant receives payments under any grant under subsection (a), not more than 15 percent of the grant will be expended for such purpose.

"(k) Reports to Secretary.—

"(1) Collection of data.—The Secretary may not make a grant under subsection (a) unless the applicant for the grant agrees, with respect to any disease selected in the determination made under subsection (b)(2) for the applicant, to submit to the Secretary, for each fiscal year for which the applicant receives such a grant, a report providing—

"(A) the incidence of the disease among the population of individuals served by the applicant;

"(B) the number and demographic characteristics of individuals in such population;

"(C) the types of interventions and treatments provided by the applicant, and the health conditions with respect to which referrals have been made pursuant to subsection (c)(4);

"(D) an estimate by the applicant of the effect of the services provided under the grant on the community in which the services have been provided; and

"(E) providing such other information as is available to the applicant and determined by the Secretary to be relevant regarding the prevention and control of the disease.

"(2) Utility and comparability of data.—The Secretary shall carry out activities for the purpose of ensuring the utility and comparability of data collected pursuant to paragraph (1). The Secretary may not make a grant under subsection (a) unless the applicant involved makes such agreements as the Secretary determines to be necessary for such purpose.

"(l) Maintenance of Effort.—

"(1) In general.—With respect to activities for which a grant under subsection (a) is authorized to be expended, the Secretary may not, subject to paragraph (2), make such a grant for any fiscal year unless the applicant agrees to maintain expenditures of non-Federal amounts for such activities at a level that is not less than the level of such expenditures maintained by the entity for the fiscal year preceding the first fiscal year for which the entity receives such a grant.

"(2) Applicability to private entities.—In the case of a nonprofit private entity making an agreement under paragraph (1), the Secretary may require the entity to comply with the agreement only to the extent of the amount of non-Federal amounts that are available to the entity for the activities to which the agreement applies.

"(m) Submission of Plan for Program of Grantee.—

"(1) In general.—The Secretary may not make a grant under subsection (a) unless the applicant involved submits to the Secretary a plan describing the manner in which the applicant will comply with the agreements required as a condition of receiving such a grant, including a specification of the entities through which authorized services will be provided and a specification of the manner in which such services will be coordinated for purposes of subsection (g).

"(2) Participation of certain entities.—The Secretary may not make a grant under subsection (a) unless the applicant provides assurances satisfactory to the Secretary that the plan submitted under paragraph (1) has been prepared in consultation with an appropriate number and variety of—

"(A) representatives of entities in the geographic area involved that provide services for the prevention and control of sexually transmitted diseases, including programs to provide to the public information and education regarding such diseases; and

"(B) representatives of entities in such area that provide family planning services.

"(n) Requirement of Application.—The Secretary may not make a grant under subsection (a) unless an application for the grant is submitted to the Secretary, the application contains the plan required in subsection (m), and the application is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines to be necessary to carry out this section.

"(o) Duration of Grant.—The period during which payments are made to an entity from a grant under subsection (a) may not exceed 3 years. The provision of such payments shall be subject to annual approval by the Secretary of the payments and subject to the availability of appropriations for the fiscal year involved to make the payments in such year. The preceding sentence may not be construed to establish a limitation on the number of grants under such subsection that may be made to an entity.

"(p) Technical Assistance, and Supplies and Services in Lieu of Grant Funds.—

"(1) Technical assistance.—The Secretary may provide training and technical assistance to grantees under subsection (a) with respect to the planning, development, and operation of any program or service carried out under such subsection. The Secretary may provide such technical assistance directly or through grants or contracts.

"(2) Supplies and services in lieu of grant funds.—

"(A) Upon the request of a grantee under subsection (a), the Secretary may, subject to subparagraph (B), provide supplies, equipment, and services for the purpose of aiding the grantee in carrying out such subsection and, for such purpose, may detail to the grantee any officer or employee of the Department of Health and Human Services.

"(B) With respect to a request described in subparagraph (A), the Secretary shall reduce the amount of the grant to the grantee involved by an amount equal to the costs of detailing personnel and the fair market value of any supplies, equipment, or services provided by the Secretary. The Secretary shall, for the payment of expenses incurred in complying with such request, expend the amounts withheld.

"(q) Evaluations and Reports by Secretary.—

"(1) Evaluations.—The Secretary shall, directly or through contracts with public or private entities, provide for annual evaluations of programs carried out pursuant to subsection (a) in order to determine the quality and effectiveness of the programs.

"(2) Report to congress.—Not later than 1 year after the date on which amounts are first appropriated pursuant to subsection (t), and annually thereafter, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives, and to the Committee on Labor and Human Resources of the Senate, a report—

"(A) summarizing the information provided to the Secretary in reports made pursuant to subsection (k), including information on the incidence of sexually transmitted diseases described in subsection (a); and

"(B) summarizing evaluations carried out pursuant to paragraph (1) during the preceding fiscal year.

"(r) Coordination of Federal Programs.—The Secretary shall coordinate the activities carried out under the program established in this section with any similar activities regarding sexually transmitted diseases that are carried out under other programs administered by the Secretary, including the coordination of such activities of the Director of the Centers for Disease Control and Prevention with such activities of the Director of the National Institutes of Health.

"(s) Definitions.—For purposes of this section, the term 'authorized service' means any service or activity described in subsection (c).

"(t) Authorization of Appropriations.—For the purpose of carrying out this section, other than subsections (q) and (u), there are authorized to be appropriated $50,000,000 for each of the fiscal years 1992 through 1996.

"(u) Separate Grants for Research on Delivery of Services.—

"(1) In general.—The Secretary may make grants for the purpose of conducting research on the manner in which the delivery of services under subsection (a) may be improved. The Secretary may make such grants only to grantees under such subsection and to public and nonprofit private entities that are carrying out projects substantially similar to projects carried out under such subsection.

"(2) Authorization of appropriations.—For the purpose of carrying out paragraph (1), there are authorized to be appropriated such sums as may be necessary for each of the fiscal years 1992 through 1996.".

TITLE IV—COMPREHENSIVE MATERNAL AND EARLY CHILDHOOD HEALTH CARE

SEC. 401. SHORT TITLE.

This title may be cited as the "Comprehensive Maternal and Early Childhood Health Care Act".

SEC. 402. MIGRANT AND COMMUNITY HEALTH CENTER INITIATIVES.

(a) Migrant Health Centers.—Paragraph (2) of subsection (h) of section 329 (42 U.S.C. 254b(g)) is amended to read as follows:

"(2)(A) For purposes of subparagraph (B), from the amounts appropriated in each fiscal year under paragraph (1)(A), that are in excess of the amounts necessary to maintain the level of services provided with amounts appropriated under such paragraph in the year preceding the year for which such amounts are appropriated, the Secretary shall utilize, in each of the fiscal years 1992 through 1994, such sums as may be necessary in each such fiscal year for the development and operation of new Comprehensive Perinatal and Early Childhood Health Programs in medically underserved areas where such programs do not exist, and expand the capacity of services provided for pregnant women and children up to the age of three, in medically underserved areas where Migrant Health Centers are currently operating Comprehensive Perinatal Care Programs. The Secretary shall utilize such amounts to supplement and not supplant amounts expended on the date of enactment of this paragraph for Comprehensive Perinatal Care Programs under this section.

"(B) The Secretary shall make grants to Migrant Health Centers to assist such Centers in the development and operation of Comprehensive Perinatal and Early Childhood Health Programs. Such Programs shall be designed to provide coordinated health care and support services to pregnant women and young children to increase positive birth outcomes, reduce infant mortality, and support healthy child development. Such services shall include—

"(i) public information, outreach and case finding services provided through the use of media, community canvassing (using volunteer and paraprofessional personnel), referrals, or other methods targeted to reach women at high-risk of receiving inadequate health care;

"(ii) individualized risk assessment and case management services for pregnant women, infants, and children to ensure early, continuous, and comprehensive health care and support services including—

"(I) health care (including prenatal health care, nutrition counseling, and smoking cessation interventions), and health education concerning the risks of smoking, alcohol, substance abuse, and inadequate nutrition; and

"(II) perinatal care, primary and preventive health care for infants and children (including screening for vision, hearing, dental conditions, developmental delay, nutritional status, and lead poisoning), timely provision of immunizations, and referral for specialized early periodic screening diagnostic treatment services, services under part H of the Individuals with Disabilities Education Act, and other necessary health and support services;

"(iii) substance abuse screening, outpatient substance abuse counseling services, and referral to and as necessary for the purchase of community-based residential substance abuse treatment services for women with substance abuse problems;

"(iv) parenting skill training and child development education (including services stressing the importance of regular health screenings, adequate nutrition, child safety measures and basic growth patterns and expectations) through both center based counseling and through distribution of the Maternal Child Health Handbooks as available;

"(v) necessary support services, including counseling, child care, transportation, translation services, benefit eligibility determination, and housing assistance, either provided directly or through referral with appropriate follow-up; and

"(vi) collaboration with other community-based health and support service providers, hospitals, clinics, recipients of grants under title V of the Social Security Act, State and local health and social service departments, alcohol and drug treatment programs, State and local special supplemental food programs for women, infants and children under section 17 of the Child Nutrition Act of 1966, Medicaid offices, and other organizations providing services to women, infants, children, and families.

"(C) To the maximum extent practicable, comprehensive health and support services under this paragraph should be delivered on site at the health center (including services delivered by outposted Medicaid workers in accordance with section 1902 of the Social Security Act (42 U.S.C. 1396a), by workers eligible to provide services under section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786), by drug treatment service providers and through others) to ensure access and coordination.".

(b) COMMUNITY HEALTH CENTERS.—Subsection (g) of section 330 (42 U.S.C. 254c(g)) is amended:

(1) in paragraph (1) by adding at the end thereof the following new subparagraph:

"(C) Of the amounts appropriated under subparagraph (A), that are in excess of the amounts necessary to maintain the level of services provided with amounts appropriated under such subparagraph in the year preceding the year for which such amounts are appropriated, the Secretary shall utilize, in each of the fiscal years 1992 through 1994, such sums as may be necessary in each such fiscal year to make grants under subsections (c) and (d) for the planning and development of health centers to serve medically underserved populations. New community health centers shall be equitably distributed between underserved urban and rural areas with satellite models used where appropriate."; and

(2) in paragraph (2) to read as follows:

"(2)(A) For purposes of subparagraph (B), from the amounts appropriated in each fiscal year under paragraph (1)(A), that are in excess of the amounts necessary to maintain the level of services provided with amounts appropriated under such paragraph in the year preceding the year for which such amounts are appropriated, the Secretary shall utilize, in each of the fiscal years 1992 through 1994, such sums as may be necessary in each such fiscal year for—

"(i) the development and operation of new Comprehensive Perinatal and Early Childhood Health Programs in medically underserved areas where such programs do not exist; and

"(ii) expanding the capacity of services provided for pregnant women and children up to the age of three, in medically underserved areas where community health centers are currently operating Comprehensive Perinatal Care Programs in areas with high infant mortality.

The Secretary shall utilize such amounts to supplement and not supplant amounts expended on the date of enactment of this paragraph for Comprehensive Perinatal Care Programs under this section.

"(B) The Secretary shall make grants to Community Health Centers to assist such Centers in the development and operation of Comprehensive Perinatal and Early Childhood Health Programs. Such programs shall be designed to provide coordinated health care and support services to pregnant women and young children to increase positive birth outcomes, reduce infant mortality, and support healthy child development. Such services shall include—

"(i) public information, outreach and case finding services provided through the use of media, community canvassing (using volunteer and paraprofessional personnel), referrals, or other methods targeted to reach women at high-risk of receiving inadequate health care;

"(ii) individualized risk assessment and case management services for pregnant women, infants, and children to ensure early, continuous, and comprehensive health care and support services including—

"(I) health care (including prenatal health care, nutrition counseling, and smoking cessation interventions), and health education concerning the risks of smoking, alcohol, substance abuse, and inadequate nutrition; and

"(II) perinatal care, primary and preventive health care for infants and children (including screening for vision, hearing, dental conditions, developmental delay, nutritional status, and lead poisoning), timely provision of immunizations, and referral for specialized early periodic screening diagnostic treatment services, services under part H of the Individuals with Disabilities Education Act, and other necessary health and support services;

"(iii) substance abuse screening, outpatient substance abuse counseling services, and referral to and as necessary the purchase of community-based residential substance abuse treatment services for women with substance abuse problems;

"(iv) parenting skill training and child development education (including services stressing the importance of regular health screenings, adequate nutrition, child safety measures and basic growth patterns and expectations) through both center-based counseling and through distribution of the Maternal Child Health Handbooks as available;

"(v) necessary support services, including counseling, child care, transportation, translation services, benefit eligibility determination, and housing assistance, either provided directly or through referral with appropriate follow-up; and

"(vi) collaboration with other community-based health and support service providers, hospitals, clinics, recipients of grants under title V of the Social Security Act, State and local health and social service departments, alcohol and drug treatment programs, State and local special supplemental food programs for women, infants and children under section 17 of the Child Nutrition Act of 1966, Medicaid offices, and other organizations providing services to women, infants, children, and families.

"(C) To the maximum extent practicable, comprehensive health and support services under this paragraph should be delivered on site at the health center, (including services delivered by outposted Medicaid workers in accordance with section 1902 of the Social Security Act (42 U.S.C. 1396a), by workers eligible to provide services under section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786), by drug treatment service providers and by others) to ensure access and coordination.".

(c) PROGRAMS FOR THE BENEFIT OF HOMELESS INDIVIDUALS.—Subsection (q) of section 340 (42 U.S.C. 256(q)) is amended by adding at the end thereof the following new paragraph:

"(3)(A) For purposes of subparagraph (B), from the amounts appropriated in each fiscal year under paragraph (1)(A), that are in excess of the amounts necessary to maintain the level of services provided with amounts appropriated under such paragraph in the year preceding the year for which such amounts are appropriated, the Secretary shall utilize, in each of the fiscal years 1992 through 1994, such sums as may be necessary in each such fiscal year for—

"(i) the development and operation of new Comprehensive Perinatal and Early Childhood Health Programs in medically underserved areas where such programs do not exist; and

"(ii) expanding the capacity of services provided for pregnant women and children up to the age of three, in medically underserved areas where grantees under this section are currently operating Comprehensive Perinatal Care Programs.

The Secretary shall utilize such amounts to supplement and not supplant amounts expended on the date of enactment of this paragraph for Comprehensive Perinatal Care Programs under this section.

"(B) The Secretary shall make grants to grantees under this section to assist such

grantees in the development and operation of Comprehensive Perinatal and Early Childhood Health Programs. Such Programs shall be designed to provide coordinated health care and support services to pregnant women and young children to increase positive birth outcomes, reduce infant mortality, and support healthy child development. Such services should include—

"(i) public information, outreach and case finding services provided through the use of media, community canvassing (using volunteer and paraprofessional personnel), referrals, or other methods targeted to reach women at high-risk of receiving inadequate health care;

"(ii) individualized risk assessment and case management services for pregnant women, infants, and children to ensure early, continuous, and comprehensive health care and support services including—

"(I) health care (including prenatal health care, nutrition counseling, and smoking cessation interventions), and health education concerning the risks of smoking, alcohol, substance abuse, and inadequate nutrition; and

"(II) perinatal care, primary and preventive health care for infants and children (including screening for vision, hearing, dental conditions, developmental delay, nutritional status, and lead poisoning), timely provision of immunizations, and referral for specialized early periodic screening diagnostic treatment services, services under part H of the Individuals with Disabilities Education Act, and other necessary health and support services;

"(iii) substance abuse screening, outpatient substance abuse counseling services, and referral to and as necessary the purchase of community-based residential substance abuse treatment services for women with substance abuse problems;

"(iv) parenting skill training and child development education (including services stressing the importance of regular health screenings, adequate nutrition, child safety measures and basic growth patterns and expectations) through both center-based counseling and through distribution of the Maternal Child Health Handbooks as available;

"(v) necessary support services, including counseling, child care, transportation, translation services, benefit eligibility determination, and housing assistance, either provided directly or through referral with appropriate follow-up; and

"(vi) collaboration with other community-based health and support service providers, hospitals, clinics, recipients of grants under title V of the Social Security Act, State and local health and social service departments, alcohol and drug treatment programs, State and local special supplemental food programs for women, infants and children under section 17 of the Child Nutrition Act of 1966, Medicaid offices, and other organizations providing services to women, infants, children, and families.

"(C) To the maximum extent practicable, comprehensive health and support services under this paragraph should be delivered on site at a health center, (including services delivered by outposted Medicaid workers in accordance with section 1902 of the Social Security Act (42 U.S.C. 1396a), by workers eligible to provide services under section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786), by drug treatment service providers and by others) to ensure access and coordination.".

SEC. 403. EXPANSION OF IMMUNIZATION PROGRAMS FOR YOUNG CHILDREN.

(a) Vaccine Bulk Purchase Program.—Part B of title III (as amended by section 134) is further amended by adding after section 317D the following new section:

"SEC. 317E. VACCINE BULK PURCHASE PROGRAM.

"(a) In General.—The Secretary acting through the Director of the Centers for Disease Control and in accordance with the preventative health grant provisions of subsections (a) and (j)(1)(B) of section 317, shall provide to the health department of each State or large city that is operating an immunization project, vaccines for immunization purposes.

"(b) Distribution.—Vaccines provided to grantees with existing immunization projects under subsection (a) shall be made available for distribution and immunization services through the public health departments of such States or cities, recipients of grants under section 329, 330, and 340 in the State or city, Federally qualified health centers under section 1905(l)(2)(B) of the Social Security Act operating in the State or city, and public health professionals.

"(c) Quantity.—In determining the quantity of vaccine that is needed by a grantee under subsection (a), the Administrator of the Health Resources and Services Administration shall make available to the Director of the Centers for Disease Control data from annual reports submitted by recipients of grants under section 329, 330, and 340 and from entities certified as Federally qualified health centers under section 1905(l)(2)(B) of the Social Security Act. The Director of such Centers shall direct the health department of the State, county or city to equitably allocate vaccines made available under the bulk purchase program among those recipients described in subsection (b) who are providing immunization services to children, except that the amounts received by each provider on the date of enactment of this section shall not be diminished relative to the population served, and that grantees shall receive not less than the amount such grantees received under their bulk vaccine allotment as of January 1, 1991.

"(d) Maintenance of Supply.—The provisions of this section shall be effective only to the extent to which the Secretary, acting through the Director of the Centers for Disease Control, provides assurances that the implementation of this section will not result in a reduction in the supply of vaccines available to grantees receiving vaccine allotments under the bulk purchasing programs as of January 1, 1991.".

(b) Immunization Demonstration Projects for Outreach Programs.—Subsection (b) of section 2 of the Vaccine and Immunization Amendments of 1990 (Public Law 101–502) is amended to read as follows:

"(b) Demonstration Projects for Outreach Programs.—

"(1) In general.—The Secretary of Health and Human Services, acting through the Director of the Centers for Disease Control, may make grants to States for the purpose of carrying out demonstration projects—

"(A) to provide, without administrative charge, immunizations for vaccine preventable diseases to children not more than 2 years of age who reside in communities whose population includes a significant number of low income individuals, increasing the capacity of public health departments to deliver vaccines and facilitating outreach activities to improve the percentage of fully immunized children;

"(B) to expand the capacity of public health departments, recipients of grants under sections 329, 330, and 340 of the Public Health Service Act, and other health provider entities that are co-located with centers providing services under section 17 of the Child Nutrition Act of 1966 in order to provide immunizations to participants in the program established under such section 17 during regular hours, and to enable State health departments working through State directors of the program established under such section 17 to make available to such centers vaccines and adequate funds to administer immunizations; and

"(C) to maintain private provider participation in the provision of immunization services and to encourage private physicians to provide such services to infants and children enrolled for benefits under title XIX of the Social Security Act.

"(2) Authorization of Appropriations.—For the purposes of carrying out paragraph (1), there are authorized to be appropriated $25,000,000 in fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1995.".

SEC. 404. PROJECT GRANTS FOR MATERNAL AND CHILD PREVENTIVE HEALTH AND HEALTH CARE SERVICES.

Section 314 (42 U.S.C. 246) is amended by adding at the end thereof the following new subsection:

"(g)(1) The Secretary is authorized to award grants to eligible entities for the development and operation of Comprehensive Perinatal and Early Childhood Health Programs, to provide coordinated health care and support services to pregnant women and young children to increase positive birth outcomes, reduce infant mortality, and support healthy child development.

"(2)(A) To be eligible to receive a grant under this subsection, an entity shall be a public health department or public or private nonprofit health entity that—

"(i) does not receive assistance under section 329 or 330;

"(ii) is located in a medically underserved or health professional shortage area not served by an entity receiving funds under section 329 or 330; and

"(iii) has demonstrated a commitment to serving low income and uninsured individuals and families.

"(B) Notwithstanding subparagraph (A), entities located in areas served by grantees under section 329 or 330 may apply for and receive a grant under this subsection, if such 329 or 330 grantees do not intend to apply for expanded funding for prenatal and early childhood health care services, and if such entities can demonstrate that—

"(i) the women and children to be served, or the services to be provided, using funds provided under the grant are in addition to those populations served and services offered by such existing section 329 or 330 grantees; and

"(ii) the entity will not use funds provided under this subsection to supplant State expenditures.

"(3) Services to be provided with funds under a grant awarded under this subsection shall be delivered in a culturally sensitive manner and made accessible to the population to be served. Such services shall include—

"(A) public information, outreach, or case finding services provided through the use of media, community canvassing (including the use of volunteer and paraprofessional personnel), referrals, or other methods targeted to reach women at high-risk of receiving inadequate health care;

"(B) individualized risk assessment and case management services for pregnant women, infants, and children to ensure early, continuous, and comprehensive health care and support services including—

"(i) health care (including prenatal health care, nutrition counseling, and smoking cessation interventions), and health education concerning the risks of smoking, alcohol, substance abuse, and inadequate nutrition; and

"(ii) perinatal care, primary and preventive health care for infants and children (including screening for vision, hearing, dental conditions, developmental delay, nutritional status, and lead poisoning), timely immunizations, and referral for specialized early periodic screening diagnostic treatment services, services under part H of the Individuals with Disabilities Education Act, and other necessary health and support services;

"(C) collaboration with other community-based health and support service providers, hospitals, clinics, recipients of grants under title V of the Social Security Act, State and local health and social service departments, alcohol and drug treatment programs, State and local special supplemental food programs for women, infants and children under section 17 of the Child Nutrition Act of 1966, Medicaid offices, and other organizations providing services to women, infants, children and families;

"(D) substance abuse screening, outpatient substance abuse counseling services, or referral to substance abuse treatment services for women with substance abuse problems;

"(E) necessary support services, including counseling, child care, transportation, translation services, benefit eligibility determination, and housing assistance, either provided directly or through referral with appropriate follow-up; and

"(F) parenting skill training and child development education (including services stressing the importance of regular health screenings, adequate nutrition, child safety measures and basic growth patterns and expectations) through both counseling provided directly by the grantee, and through distribution of the Maternal Child Health Handbooks as available.

Services described in subparagraphs (D), (E) and (F) shall be provided by grantees under this subsection to the maximum extent practicable.

"(4) To the maximum extent practicable, services provided under this subsection shall be delivered in a single location by the grantee, except that such may include multiple sites if mobile health care provider units are utilized (including services delivered by outposted Medicaid workers in accordance with section 1902 of the Social Security Act, by workers eligible to provide services under section 17 of the Child Nutrition Act of 1966, by drug treatment service providers, and by others) to ensure access and coordination.

"(5) The Secretary may not award a grant under this subsection unless—

"(A) the applicant for the grant has entered into, or will enter into, a participation agreement within 180 days of the date of the grant award with the State agency administering funds under title XIX of the Social Security Act and is qualified to receive such payments for services provided;

"(B) the applicant for the grant has prepared a schedule of fees or payments for the provision of services under paragraph (3) consistent with locally prevailing rates or charges, and has prepared a corresponding schedule of discounts to be applied to the payment of such fees or payments, such discounts to be adjusted on the basis of the patient's ability to pay;

"(C) the applicant for the grant provides assurances that every reasonable effort will be made to secure from patients and third party reimbursement entities, including any State compensation program, health insurance entity, any entity providing health services on a prepaid basis, or any Federal or State health benefits program, full payment for the services provided under paragraph (3).

Amounts awarded under this subsection shall be used as the payment source of last resort for services provided.

"(6) In addition to providing the services required under paragraph (3), a grantee may use amounts provided under the grant for minor remodeling and rehabilitation of the facilities needed to support the delivery of such services. No funds may be used for the construction of new buildings or the acquisition of properties.

"(7) A grantee shall not use in excess of 5 percent of the amounts received under a grant awarded under this subsection for administration, accounting, reporting and program oversight functions.

"(8) To be eligible to receive a grant under this subsection, an entity, in addition to meeting the requirements of paragraph (2), shall prepare and submit to the Secretary an application at such time, in such form, and containing such information as the Secretary shall require, including assurances adequate to ensure—

"(A) that funds received under a grant awarded under this subsection will be utilized to supplement not supplant State funds made available to the entity for the provision of maternal and child health and social services, with identification of funding received from other sources for such purposes;

"(B) that prenatal and early childhood health care will be provided under a case management model, that continuity of care will be provided for all individuals, and that services to be provided are accessible to the target population to be served;

"(C) that the entity will serve low income women and children in the service delivery area, and have a plan for outreach to those at risk of inadequate health care services;

"(D) that the entity has outlined a needs assessment of the health care delivery system in the service delivery area, to include health status indicators for women of childbearing age and young children, and identification of other health care provider groups in the area;

"(E) that the entity has reviewed the application for a grant under this section with the State agency administering amounts received under title V of the Social Security Act and the local health department, and that such application is consistent with the State plan for the delivery of maternal and child health services; and

"(F) that the entity will submit a report to the Secretary and to the State and relevant local health departments that will include demographic data on the number of individuals served and those services provided with funds provided under this subsection, and a description of the manner in which services provided by the entity are integrated with those services provided by other health care agencies or provider groups in the service delivery area.

"(9) In awarding grants under this subsection, the Secretary should give priority to—

"(A) those applications submitted by entities that are an association of one or more public, and one or more nonprofit private health care and social service providers, except that in areas where such an association would not be possible as a result of the absence of more than one provider entity, no such priority shall be given; and

"(B) those applications providing evidence of local investment (such as State, health care provider, local charity, and volunteer organization contributions) in maternal and child health initiatives, through a 10 percent local contribution to match Federal funds, in cash or in kind, fairly evaluated, not including any portion of any service subsidized by the Federal Government or other copayments under paragraph (5).

Grants under this subsection shall be awarded on an equitable basis among eligible rural and urban applicants.

"(10) Not later than 30 months after the date of enactment of this subsection, the Secretary shall prepare and submit, to the Senate Committee on Labor and Human Resources, the Senate Finance Committee, and the House Committee on Energy and Commerce, an evaluation of the program established under this subsection, that shall include—

"(A) an analysis of the manner in which funds provided under this subsection have been used by grantees, with a review of the services provided;

"(B) the infant mortality rates and immunization rates in the communities served by grantees prior to the receipt of such a grant and at the time such evaluation is prepared, and an assessment of the impact of enhanced services on such rates;

"(C) an analysis of the manner in which entities receiving grants under this subsection have integrated the services provided under such grants with other available health and social service providers in the service delivery area; and

"(D) recommendations concerning any modifications necessary to improve program effectiveness in reaching the stated goals of the program in a cost-effective manner.

"(11) There are authorized to be appropriated for each of the fiscal years 1992 through 1994, such sums as may be necessary to carry out this subsection.".

SEC. 405. BIRTH DEFECTS PROPOSAL.

Part B of title III (42 U.S.C. 243 et seq.) (as amended by section 403) is further amended by inserting after section 317E, the following new section:

"SEC. 317F. COORDINATION OF BIRTH DEFECTS SURVEILLANCE AND EPIDEMIOLOGY RESEARCH PROGRAMS.

"(a) FINDINGS.—Congress finds that—

"(1) birth defects are the leading cause of infant mortality, directly responsible for one out every five infant deaths;

"(2) thousands of the 250,000 infants born with a birth defect annually face a lifetime of chronic disability and illness; and

"(3) there is no national effort to record birth defect data and perform epidemiologic surveillance even though such data would aid research efforts to understand and reduce the incidence of preventable birth defects.

"(b) PLAN FOR IMPLEMENTING A NATIONAL BIRTH DEFECTS MONITORING SYSTEM AND SURVEILLANCE PROGRAM.—

"(1) DEVELOPMENT.—The Secretary, acting through the Centers for Disease Control, shall develop a plan to establish regional birth defects monitoring programs to serve all States for the purpose of collecting and analyzing data on the incidence of birth defects with relevant epidemiologic data. Such plan shall specify how collaborative efforts between the Centers for Disease Control and responsible State agencies will be carried out, and may include the provision of grants or cooperative agreements, and technical assistance.

"(2) CLEARINGHOUSE.—The Centers for Disease Control shall develop a program plan to serve as the national clearinghouse of the collection and storage of data and information generated from birth defects monitoring programs developed under paragraph (1). Functions of the clearinghouse will include facilitating the coordination of birth defects research.

"(3) REPORT.—The Secretary shall prepare and submit to the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report containing the plan required under paragraph (1), together with recommendations to facilitate the immediate implementation of such plan, on or before July 1, 1993.

"(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $5,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 and 1994.".

TITLE V—MISCELLANEOUS

SEC. 501. ESTABLISHMENT OF AN ADVISORY COUNCIL ON HEALTH PROMOTION AND DISEASE PREVENTION.

Title XVII (42 U.S.C. 300u et seq.) (as amended by sections 137 and 207) is further amended by adding at the end thereof the following new section:

"SEC. 1710. SECRETARY'S ADVISORY COUNCIL.

"(a) IN GENERAL.—The Secretary shall establish an advisory council on health promotion and disease prevention to be known as the Secretary's Advisory Council on Health Promotion and Disease Prevention (hereafter referred to in this section as the 'Council').

"(b) COMPOSITION.—The Council shall be composed of—

"(1) the Secretary;

"(2) recognized leaders in health promotion, academia, industry, non-profit private organizations and representatives of health care consumer groups, to be appointed by the Secretary;

"(3) ex officio members who shall include representatives of—

"(A) the Department of Health and Human Services as designated by the Secretary;

"(B) the Departments of Education;

"(C) the Department of Agriculture;

"(D) the Office of Science and Technology Policy;

"(E) the Surgeon Generals of all of the uniformed services; and

"(F) the chief medical officer of the Department of Veterans Affairs; and

"(4) the members of the National Health Objectives Advisory Committee established under section 1910K.

"(c) DUTIES.—The Council shall provide advice and recommendations to the Secretary concerning the goals and priorities of the Department relating to health promotion, disease prevention, preventive health services and the objectives established by the Secretary for the health status of the population of the United States under section 1906(d). The Council may also direct that recommendations for changes in priorities or programs be prepared and submitted to the Congress and the President.

"(d) FUNDING.—The Secretary is authorized to transfer not to exceed one percent of any appropriation authorized under this Act to provide the funds necessary for the operation of the Council. The total amount transferred under this subsection shall not exceed $400,000 for each fiscal year.".

SEC. 502. RESPONSIBILITIES OF MEMBERS OF THE COMMISSIONED CORPS FOR HEALTH PROMOTION AND DISEASE PREVENTION.

Section 204 (42 U.S.C. 205) is amended—

(1) by inserting "(a)" after the section designation; and

(2) by adding at the end thereof the following new subsection:

"(b) The Surgeon General shall notify all active members of the Commissioned Corps concerning any guidelines and recommendations for clinical practice that are developed or issued by the Public Health Service. The Surgeon General shall also ensure that members of the Commissioned Corps who are engaged in clinical practice are properly utilizing such guidelines and recommendations.".

SEC. 503. RESPONSIBILITIES OF THE SURGEON GENERAL FOR DISSEMINATING INFORMATION AND RECOMMENDATIONS.

Title XVII (42 U.S.C. 300u) (as amended by sections 137, 207 and 501) is further amended by adding at the end thereof the following new section:

"SEC. 1711. DISSEMINATION OF PREVENTION RECOMMENDATIONS.

"The Secretary, in consultation with the Assistant Secretary for Health, the Director of the Office of Disease Prevention and Health Promotion, the Surgeon General of the Public Health Service, and the Director of the Agency for Health Care Policy and Research, shall inform the Surgeon Generals of all the uniformed services, the Secretary of Veterans Affairs, and the Administrator of the Office of Personnel Management concerning any guidelines or recommendations for clinical practice that are developed by the Public Health Service. The Secretary shall annually prepare and submit to the appropriate committees of Congress, a report describing all such recommendations transmitted under this section.".

SEC. 504. CHANGE IN NAME OF CENTERS FOR DISEASE CONTROL.

(a) COMPREHENSIVE SMOKING EDUCATION ACT.—Section 3(b)(1)(A) of the Comprehensive Smoking Education Act (15 U.S.C. 1341(b)(1)(A)) is amended by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention".

(b) EDUCATION AMENDMENTS OF 1978.—Section 1121(b)(2) of the Education Amendments of 1978 is amended by striking out "Federal Center for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention".

(c) VETERANS' BENEFITS AND SERVICES ACT OF 1988.—Section 123(b)(1) of the Veterans' Benefits and Services Act of 1988 (38 U.S.C. 210 note) is amended by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention".

(d) PUBLIC HEALTH SERVICE ACT.—The Public Health Service Act is amended—

(1) in section 227 (42 U.S.C. 236) by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention";

(2) in section 317A(a) (42 U.S.C. 247b–1(a)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(3) in section 319(a) (42 U.S.C. 247d(a)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(4) in section 391 (42 U.S.C. 280b) by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention";

(5) in section 392 (42 U.S.C. 280b–1) by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention";

(6) in section 393 (42 U.S.C. 280b–2) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(7) in section 430(b)(2)(A)(i) (42 U.S.C. 285c–4(b)(2)(A)(i)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(8) in section 442(b)(2)(A) (42 U.S.C. 285d–7(b)(2)(A)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(9) in section 464D(b)(2)(A) (42 U.S.C. 285m–4(b)(2)(A)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(10) in section 494(a) (42 U.S.C. 289c(a)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(11) in section 508(b)(6) (42 U.S.C. 290aa–6(b)(6)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(12) in section 509B(a) (42 U.S.C. 290aa–9(a)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(13) in section 1706(c)(2)(B) (42 U.S.C. 300u–5(c)(2)(B)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(14) in section 2102 (42 U.S.C. 300aa–2) by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention";

(15) in section 2119(a)(2) (42 U.S.C. 300aa–19(a)(2)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(16) in section 2126(b)(2) (42 U.S.C. 300aa–26(b)(2)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(17) in section 2301(b)(4) (42 U.S.C. 300cc(b)(4)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(18) in section 2303 (42 U.S.C. 300cc–2) by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention";

(19) in section 2315(b) (42 U.S.C. 300cc–15(b)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(20) in section 2317 (42 U.S.C. 300cc–17) by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention";

(21) in section 2320 (42 U.S.C. 300cc–20) by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention";

(22) in section 2341(a) (42 U.S.C. 300cc–31(a)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(23) in section 2521 (42 U.S.C. 300ee–31) by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention";

(24) in section 2522(a) (42 U.S.C. 300ee–32(a)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(25) in section 2524(b)(2) (42 U.S.C. 300ee-34(b)(2)) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(26) in section 2601 by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention";

(27) in section 2602(a)(1) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(28) in section 2603(a)(3)(B)(i) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(29) in section 2607(2) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(30) in section 2617(d)(3)(A) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(31) in section 2618(c)(1) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(32) in section 2641(a) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(33) in section 2643(c)(1)(A) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention";

(34) in section 2649 by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention"; and

(35) in section 2675(a) by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention".

(e) HEALTH OMNIBUS PROGRAMS EXTENSION OF 1988.—The Health Omnibus Programs Extension of 1988 is amended—

(1) in section 161 (42 U.S.C. 241 note) by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention";

(2) in section 252 (42 U.S.C. 300ee–1) by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention"; and

(3) in section 253 (42 U.S.C. 300ee–2) by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention".

(f) HEALTH RESEARCH EXTENSION ACT OF 1985.—Section 5(b)(1)(G) of the Health Research Extension Act of 1985 (42 U.S.C. 281 note) is amended by striking out "Centers for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention".

(g) PAINT POISONING PREVENTION.—Section 501(3)(B)(i) of Public Law 91–695 (42 U.S.C. 4841(3)(B)(i)) is amended by striking out "Center for Disease Control" and inserting in lieu thereof "Centers for Disease Control and Prevention".

(h) COMPREHENSIVE ENVIRONMENTAL RESPONSE, COMPENSATION AND LIABILITY ACT OF 1980.—Section 104 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (42 U.S.C. 9604) is amended by striking out "Centers for Disease Control" each place that such occurs and inserting in lieu thereof "Centers for Disease Control and Prevention".

SEC. 505. STUDY CONCERNING THE REDUCTION OF THE RISK OF BLOODBORNE DISEASE TRANSMISSION.

(a) STUDY.—The Secretary of Health and Human Services shall request the National Academy of Sciences, acting through the Institute of Medicine, to conduct a study concerning surgical technique, including oral surgery, and medical device innovation to further reduce the risk of bloodborne disease transmission in the health care setting. The study shall review techniques and medical devices used in performing various surgical and dental procedures that present a risk of percutaneous injury and examine mechanisms, such as improvements in technique and product design modification, to enhance injury prevention during such procedures to further reduce the risk of bloodborne disease transmission.

(b) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary of Health and Human Services shall prepare and submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate, a report concerning the results of the study conducted under subsection (a).

FLOWER GARDEN BANKS NATIONAL MARINE SANCTUARY

BREAUX AMENDMENT NO. 1457

Mr. FORD (for himself Mr. BREAUX) proposed an amendment to the bill (H.R. 3866) to provide for the designation of the Flower Garden Banks National Marine Sanctuary, as follows:

Strike all after the enacting clause and insert in lieu thereof the following:

TITLE I—NATIONAL MARINE SANCTUARY

FLOWER GARDEN BANKS NATIONAL MARINE SANCTUARY

SEC. 101. Notwithstanding section 304(b) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1434(b))—

(1) the Secretary of Commerce shall, on January 17, 1992 (or as soon thereafter as is practicable), publish under that Act in the Federal Register a notice of designation of the Flower Garden Banks National Marine Sanctuary, as described in the notice of designation submitted to the Congress on November 20, 1991; and

(2) that designation shall take effect on January 1, 1992.

TITLE II—MERCHANT MARINE PROVISIONS

NON-VESSEL-OPERATING COMMON CARRIERS

SEC. 201. (a) SHORT TITLE.—This section may be cited as the "Non-Vessel-Operating Common Carrier Act of 1991".

(b) PROHIBITED ACTS.—Section 10(b) of the Shipping Act of 1984 (46 U.S.C. App. 1709(b)) is amended—

(1) in paragraph (14), by inserting ", insurance, or other surety" after "bond"; and

(2) in paragraph (15), by inserting ", insurance, or other surety" after "bond".

(c) SURETY FOR NVOCC'S.—Section 23 of the Shipping Act of 1984 (46 U.S.C. App. 1721), is amended—

(1) in the section heading by striking "BONDING OF" and inserting in lieu thereof "SURETY FOR";

(2) by amending subsection (a) to read as follows:

"(a) SURETY.—Each non-vessel-operating common carrier shall furnish to the Commission a bond, proof of insurance, or such other surety, as the Commission may require, in a form and an amount determined by the Commission to be satisfactory to insure the financial responsibility of that carrier. Any bond submitted pursuant to this section shall be issued by a surety company found acceptable by the Secretary of the Treasury.";

(3) by striking subsection (b) and redesignating subsections (c) through (e) as subsections (b) through (d), respectively;

(4) in subsection (b), as so redesignated—

(A) by striking "BOND" in the subsection heading and inserting in lieu thereof "SURETY";

(B) by inserting ", insurance, or other surety" after "bond"; and

(C) by inserting "under this Act" after "transportation-related activities"; and

(5) in subsection (d), as so redesignated—

(A) by inserting ", insurance, or other surety" after "bond"; and

(B) by striking "subsection (d)" and inserting in lieu thereof "subsection (c)".

(d) INTERIM RULES AND REGULATIONS.—The Federal Maritime Commission may prescribe interim rules and regulations necessary to carry out the amendments made by this section.

(e) CONFORMING AMENDMENT.—The item relating to section 23 in the table of contents in the first section of the Shipping Act of 1984 is amended by striking "Bonding of" and inserting in lieu thereof "Surety for".

(f) EFFECTIVE DATE.—This section shall become effective 90 days after the date of its enactment.

CLARIFICATIONS OF, AND LIMITATIONS ON, GAMBLING DEVICES PROHIBITIONS

SEC. 202. (a) TRANSPORT TO A PLACE IN A STATE, ETC.—Section 2 of the Act of January 2, 1951 (15 U.S.C. 172; commonly referred to as the "Johnson Act"), is amended—

(1) by inserting before the first paragraph the following: "(a) GENERAL RULE.—";

(2) in subsection (a) (as so designated) by striking ", District of Columbia,";

(3) by inserting before the second paragraph the following: "(b) AUTHORITY OF FEDERAL TRADE COMMISSION.—"; and

(4) by adding at the end the following:

"(c) EXCEPTION.—This section does not prohibit the transport of a gambling device to a place in a State or a possession of the United States on a vessel on a voyage, if—

"(1) use of the gambling device on a portion of that voyage is, by reason of subsection (b) of section 5, not a violation of that section; and

"(2) the gambling device remains on board that vessel while in that State.".

(b) REPAIR, OTHER TRANSPORT, ETC.—Section 5 of that Act (15 U.S.C. 1175) is amended—

(1) by inserting before "It shall be unlawful" the following: "(a) GENERAL RULE.—";

(2) by inserting before the period at the end the following: ", including on a vessel documented under chapter 121 of title 46, United States Code, or documented under the laws of a foreign country"; and

(3) by adding at the end the following:

"(b) EXCEPTION.—

"(1) IN GENERAL.—Except as provided in paragraph (2), this section does not prohibit—

"(A) the repair, transport, possession, or use of a gambling device on a vessel that is not within the boundaries of any State or possession of the United States; or

"(B) the transport or possession, on a voyage, of a gambling device on a vessel that is within the boundaries of any State or possession of the United States, if—

"(i) use of the gambling device on a portion of that voyage is, by reason of subparagraph (A), not a violation of this section; and

"(ii) the gambling device remains on board that vessel while the vessel is within the boundaries of that State or possession.

"(2) APPLICATION TO CERTAIN VOYAGES.—

"(A) GENERAL RULE.—Paragraph (1)(A) does not apply to the repair or use of a gambling device on a vessel that is on a voyage or segment of a voyage described in subparagraph (B) of this paragraph if the State or possession of the United States in which the voyage or segment begins and ends has enacted a statute the terms of which prohibit that repair or use or that voyage or segment.

"(B) VOYAGE AND SEGMENT DESCRIBED.—A voyage or segment of a voyage referred to in subparagraph (A) is a voyage or segment, respectively—

"(i) that begins and ends in the same State or possession of the United States, and

"(ii) during which the vessel does not make an intervening stop within the boundaries of another State or possession of the United States or a foreign country.".

(c) BOUNDARIES DEFINED.—The first section of that Act (15 U.S.C. 1171) is amended by adding at the end the following:

"(f) The term 'boundaries' has the same meaning given that term in section 2 of the Submerged Lands Act.".

STEVENS (AND MURKOWSKI) AMENDMENT NO. 1458

Mr. CHAFEE (for Mr. STEVENS, for himself and Mr. MURKOWSKI) proposed an amendment to the bill H.R. 3866, supra; as follows:

At the appropriate place, insert the following new title:

TITLE —IMPLEMENTATION OF MARITIME BOUNDARY AGREEMENT

AMENDMENTS TO MAGNUSON FISHERY CONSERVATION AND MANAGEMENT ACT

SEC. 1. (a) PURPOSES.—Section 2(b)(1) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 180(b)(1)) is amended by inserting ", and fishery resources in the special areas" immediately before the semicolon at the end.

(b) DEFINITIONS.—Section 3 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1802) is amended—

(1) by redesignating paragraphs (24) through (32) as paragraphs (25) through (33), respectively; and

(2) by inserting immediately after paragraph (23) the following new paragraph:

"(24) The term 'special areas' means the areas referred to as eastern special areas in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, the term refers to those areas east of the United States-Soviet maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of the Soviet Union is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured."

(c) UNITED STATES MANAGEMENT AUTHORITY.—(1) Section 101(a) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1811(a)) is amended by inserting "and special areas" immediately before the period at the end.

(2) Section 101(b) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1811(b)) is amended by inserting immediately after paragraph (2) the following new paragraph:

"(3) All fishery resources in the special area.".

(d) FOREIGN FISHING.—Section 201 of the Magnuson Fishery Conservation and Management (16 U.S.C. 1821) is amended—

(1) in subsection (a)—

(A) by inserting "within the special area," immediately before "or for anadromous species"; and

(B) by striking "beyond the exclusive economic zone" and inserting in lieu thereof "beyond such zone or areas";

(2) in subsection (e)(1)(E)(IV), by inserting "or special areas" immediately after "exclusive economic zone";

(3) in subsection (i)—

(A) by inserting "or special areas" immediately before the period at the end of paragraph (1)(A);

(B) by inserting "or special areas" immediately after "exclusive economic zone" in paragraph (2)(A); and

(C) by inserting "or special areas" immediately after "exclusive economic zone" in paragraph (2)(B); and

(4) in subsection (j)—

(A) by inserting ", special areas," immediately after "exclusive economic zone"; and

(B) by inserting ", areas," immediately after "such zone".

(e) INTERNATIONAL FISHERY AGREEMENTS.—Section 202 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1822) is amended—

(1) in subsection (b)—

(A) by inserting "or special areas" immediately after "February 28, 1977)"; and

(B) by striking "such zone or area" and inserting in lieu thereof "such zone or areas";

(2) in subsection (c)—

(A) by inserting "or special areas" immediately after "February 28, 1977)"; and

(B) by striking "such zone or area" and inserting in lieu thereof "such zone or areas"; and

(3) by adding at the end the following new subsection:

"(g) FISHERY AGREEMENT WITH UNION OF SOVIET SOCIALIST REPUBLICS.—(1) The Secretary of State, in consultation with the Secretary, is authorized to negotiate and conclude a fishery agreement with the Union of Soviet Socialist Republics of a duration of no more than 3 years, pursuant to which—

"(A) the Union of Soviet Socialist Republics will give United States fishing vessels the opportunity to conduct traditional fisheries within waters claimed by the United States prior to the conclusion of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990, west of the maritime boundary, including the western special area described in Article 3(2) of the Agreement;

"(B) the United States will give fishing vessels of the Union of Soviet Socialist Republics the opportunity to conduct traditional fisheries within waters claimed by the Union of soviet Socialist Republics prior to the conclusion of the agreement referred to in subparagraph (A), east of the Maritime boundary, including the eastern special areas described in article 3(1) of the Agreement;

"(C) catch data shall be made available to the government of the country exercising fisheries jurisdiction over the waters in which the catch occurred; and

"(D) each country shall have the right to place observers on board vessels of the other country and to board and inspect such vessels.

"(2) Vessels operating under a fishery agreement negotiated and concluded pursuant to paragraph (1) shall be subject to regulations and permit requirements of the country in whose waters the fisheries are conducted only to the extent such regulations and permit requirements are specified in that agreement.

"(3) The Secretary of Commerce may promulgate such regulations, in accordance with section 553 of title 5, United States Code, as may be necessary to carry out the provisions of any fishery agreement negotiated and concluded pursuant to paragraph (1).".

(f) PERMITS FOR FOREIGN FISHING.—Section 204(a) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1824 (a)) is amended—

(1) by inserting "within the special areas," immediately before "or for anadromous species"; and

(2) by inserting "or areas" immediately after "such zone".

(g) CONTENTS OF FISHERY MANAGEMENT PLANS.—Section 303(b)(1)(A) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1853(b)(1)(A)) is amended—

(1) by inserting "or special areas," immediately after "exclusive economic zone"; and

(2) by inserting "or areas" immediately after "such zone".

(h) PROHIBITED ACTS.—Section 307 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1857) is amended—

(1) in paragraph (1)(K), by inserting "or special areas" immediately after "exclusive economic zone";

(2) in paragraph (2)(B)—

(A) by inserting "within the special areas," immediately after "exclusive economic zone";

(B) by inserting "or areas" immediately after "such zone";

(3) in paragraph (3), by inserting "or special areas" immediately after "exclusive economic zone"; and

(4) in paragraph (4), by inserting "or special areas" immediately after "exclusive economic zone".

(i) ENFORCEMENT.—Section 311(b)(2) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1861(b)(2)) is amended by inserting "and special areas" immediately after "exclusive economic zone".

AMENDMENTS TO NORTHERN PACIFIC HALIBUT ACT OF 1982

SEC. 2. (a) DEFINITIONS.—(1) Section 2(c) of the Northern Pacific Halibut Act of 1982 (16 U.S.C. 773(c)) is amended to read as follows:

"(c) 'Exclusive economic zone' means the zone established by Proclamation Numbered 5030, dated March 10, 1983. For purposes of applying this Act, the inner boundary of that zone is a line coterminous with the seaward boundary of each of the coastal States.".

(2) Section 2 of the Northern Pacific Halibut Act of 1982 (16 U.S.C. 773) is amended by adding at the end the following new subsection:

"(h) 'Special areas' means the areas referred to as eastern special areas in Article

3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, the term refers to those areas east of the United States-Soviet maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of the Soviet Union is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured.".

(b) UNLAWFUL ACTS.—Section 7(b) of the Northern Pacific Halibut Act of 1982 (16 U.S.C. 773e(b)) is amended by striking "fishery conservation zone" and inserting in lieu thereof "exclusive economic zone and special areas".

AMENDMENTS TO FUR SEAL ACT OF 1966

SEC. 3. Section 101 of the Fur Seal Act of 1966 (16 U.S.C. 1151) is amended—

(1) by redesignating subsections (f) through (m) as subsections (g) through (n), respectively; and

(2) by inserting immediately after subsection (e) the following new subsection:

"(f) 'Jurisdiction of the United States' includes jurisdiction over the special areas defined in section 3(24) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1802(24)).".

AMENDMENTS TO MARINE MAMMAL PROTECTION ACT OF 1972

SEC. 4. Section 3(14) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1362(14)) is amended to read as follows:

"(14) the term 'waters under the jurisdiction of the United States' means—

"(A) the territorial sea of the United States;

"(B) the waters included within a zone, contiguous to the territorial sea of the United States, of which the inner boundary is a line coterminous with the seaward boundary of each coastal State, and the outer boundary is a line drawn in such a manner that each point on it is 200 nautical miles from the baseline from which the territorial sea is measured; and

"(C) the areas referred to as eastern special areas in Article 3(1) of the agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, those areas east of the United States-Soviet Maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of the Soviet Union is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured.".

RELATIONSHIP TO ENDANGERED SPECIES ACT OF 1973

SEC. 5. The special areas defined in section 3(24) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1802(24)) shall be considered places that are subject to the jurisdiction of the United States for the purposes of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

AMENDMENTS TO PACIFIC SALMON TREATY ACT OF 1985

SEC. 6. (a) DEFINITIONS.—Section 2 of the Pacific Salmon Treaty Act of 1985 (16 U.S.C. 3631) is amended—

(1) by redesignating subsections (h) through (j) as subsections (i) through (k), respectively; and

(2) by inserting immediately after subsection (g) the following new subsection:

"(h) 'Special areas' means the areas referred to as eastern special areas in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, the term refers to those areas east of the United States-Soviet maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of the Soviet Union is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured.".

(b) RULEMAKING.—Section 7(a) of the Pacific Salmon Treaty Act of 1985 (16 U.S.C. 3636(a)) is amended by inserting "and special areas" immediately after "Exclusive Economic Zone".

NATIONAL SEA GRANT COLLEGE PROGRAM

SEC. 7.(a) DEFINITIONS.—Section 203(6) of the National Sea Grant College Program Act (33 U.S.C. 1122(6)) is amended—

(1) by striking "and" at the end of subparagraph (E);

(2) by redesignating subparagraph (F) as subparagraph (G); and

(3) by inserting immediately after subparagraph (E) the following new subparagraph:

"(F) the special areas defined in section 3(24) of the Magnuson Fishery Conservation and Management Act (18 U.S.C. 1802(24)); and".

(b) INTERNATIONAL PROGRAM.—Section 3(a)(6) of the Sea Grant Program Improvement Act of 1976 (33 U.S.C. 1124a(a)(6)) is amended by inserting "and special areas" immediately after "exclusive economic zone".

EFFECTIVE DATES

SEC. 8.(a) IN GENERAL.—The amendment made by section 1(e)(3) takes effect on the date of enactment of this Act, and the amendments made by the other provisions of this title, except as provided in subsection (b), shall be effective on the date on which the Agreement between the United States and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990, enters into force for the United States.

(b) AUTHORITY TO PRESCRIBE REGULATIONS.—The authority to prescribe regulations to implement the amendments made by this title shall be effective on the date of enactment of this Act, but no such regulation may be effective until the date on which the Agreement described in subsection (a) enters into force for the United States.

AMERICAN TECHNOLOGY PREEMINENCE ACT

HOLLINGS AMENDMENT NO. 1459

Mr. FORD (for Mr. HOLLINGS) proposed an amendment to the bill (S. 1034) to enhance the position of U.S. industry through the application of the results of Federal research and development, and for other purposes, as follows:

Strike all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE

This Act may be cited as the "American Technology Preeminence Act of 1991".

SEC. 2. DEFINITIONS.

As used in the Act—

(1) the term "high-resolution information systems" means equipment and techniques required to create, store, recover, and play back high-resolution images and accompanying sound;

(2) the term "advanced manufacturing technology" means numerically-controlled machine tools, robots, automated process control equipment, computerized flexible manufacturing systems, associated computer software, and other technology for improving manufacturing and industrial processes;

(3) the term "advanced materials" means a field of research including the study of composites, ceramics, metals, polymers, superconducting materials, materials produced through biotechnology, and materials production technologies, including coated systems, that provide the potential for significant advantages over existing materials;

(4) the term "Institute" means the National Institute of Standards and Technology'

(5) the term "Secretary" means the Secretary of Commerce; and

(6) the term "Under Secretary" means the Under Secretary of Commerce for Technology.

TITLE I—DEPARTMENT OF COMMERCE RESEARCH AND TECHNOLOGY

SEC. 101.SHORT TITLE.

This title may be cited as the "Technology Administration Authorization Act of 1991".

SEC. 102. STATEMENT OF POLICY.

Congress finds that in order to help United States industries to speed the development of new products and processes so as to maintain the economic competitiveness of the Nation, it is necessary to strengthen the programs and activities of the Department of Commerce's Technology Administration and National Institute of Standards and Technology.

SEC. 103. TECHNOLOGY ADMINISTRATION.

(a) FISCAL YEAR 1992—(1) There are authorized to be appropriated to the Secretary, to carry out the activities of the Under Secretary and the Assistant Secretary for Technology Policy, $10,000,000 for fiscal year 1992, which shall be available for the following line items:

(A) Office of the Under Secretary, $2,000,000.

(B) Technology Policy, $4,000.000.

(C) Japanese Technical Literature, $1,500,000.

(D) Clearinghouse on State and Local Initiatives on Productivity, Technology, and Innovation, $1,000,000.

(E) National Technical Information Service, $1,500,000 to carry out the modernization plan described in section 212(f)(3)(D) of the National Technical Information Act of 1988 (15 U.S.C. 3704b(f)(3)(D)).

(2) Funds may be transferred among the line items listed in paragraph (1), so long as the net funds transferred to or from any line item do not exceed 10 percent of the amount authorized for that line item in such paragraph and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives are notified in advance of any such transfer.

(b) FISCAL YEAR 1993.—(1) There are authorized to be appropriated to the Secretary, to carry out the activities of the Under Secretary and the Assistant Secretary for Technology Policy, $10,000,000 for fiscal year 1993, which shall be available for the following line items:

(A) Office of the Under Secretary, $2,000,000.

(B) Technology Policy, $4,000,000.

(C) Japanese Technical Literature, $1,500,000.

(D) Clearinghouse on State and Local Initiatives on Productivity, Technology, and Innovation, $1,000,000.

(E) National Technical Information Service, $1,500,000 to carry out the modernization plan described in section 212(f)(3)(D) of the National Technical Informtion Act of 1988 (15 U.S.C. 3704b(f)(3)(D)).

(2) Funds may be transferred among the line items listed in paragraph (1), so long as the net funds transferred to or from any line item to not exceed 10 percent of the amount authorized for that line item in such paragraph and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives are notified in advance of any such transfer.

(c) Operating Costs.—Operating costs for the National Technical Information Service associated with the acquisition, processing, storage, bibliographic control, and archiving of information and documents shall be recovered primarily through the collection of fees.

(d) Report and Certification to Congress.—Within 90 days after the date of enactment of this Act, the Secretary shall submit to Congress a report which—

(1) describes the Department of Commerce's response to the Inspector General's Report No. ATD-024-0-001;

(2) includes a revised detailed modernization plan for the National Technical Information Service;

(3) contains a business plan for the National Technical Information Service which includes detailed profit and loss analysis for groups of products and services and for major market segments; and

(4) certifies that the National Technical Information Service has—

(A) employed a chief financial officer who is a certified public accountant or equivalently experienced accountant with experience in the dissemination of scientific and technical information; and

(B) begun taking reasonable steps toward strengthening its accounting system in response to the Inspector General's report described in paragraph (1).

(e) Technical Amendment.—Section 5422(a) of the Omnibus Trade and competitiveness Act of 1988 (15 U.S.C. 4603a(a)) and section 273(c)(4) of the National Defense Authorization Act for Fiscal years 1988 and 1989 (15 U.S.C. 4603(c)(4)) are each amended by striking "Economic Affairs" and inserting in lieu thereof "Technology".

SEC. 104. NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY.

(a) Fiscal Year 1992.—(1) There are authorized to be appropriated to the Secretary, to carry out the intramural scientific and technical research and services activities of the Institute, $210,000,000 for fiscal year 1992, which shall be available for the following line items:

(A) Electronics and Electrical Measurements, $33,700,000.

(B) Manufacturing Engineering, $13,500,000.

(C) Chemical Science and Technology, $22,000,000.

(D) Physics, $27,000,000.

(E) Materials Science and Engineering, $30,000,000.

(F) Building and Fire Research, $12,300,000.

(G) Computer Systems, $16,000,000.

(H) Applied Mathematics and Scientific Computing, $6,500,000.

(I) Technology Assistance, $11,000,000.

(J) Research Support Activities, $38,000,000.

(2)(A) Of the total of the amounts authorized under paragraph (1), $2,000,000 are authorized only for steel technology.

(B) Of the amount authorized under paragraph (1)(I)—

(i) $500,000 are authorized only for the evaluation of nonenergy-related inventions and related technology extension activities;

(ii) $250,000 are authorized only for Institute participation in the pilot program established under subsection (e); and

(iii) $2,700,000 are authorized only for the Institute's management of the extramural funding programs authorized under section 105.

(C) Of the total amount authorized under paragraph (1)(J), $7,565,000 are authorized only for the technical competence fund.

(b) Fiscal Year 1993.—(1) There are authorized to be appropriated to the Secretary, to carry out the intramural scientific and technical research and services activities of the Institute, $221,200,000 for fiscal year 1993, which shall be available for the following line items:

(A) Electronics and Electrical Measurements, $36,000,000.

(B) Manufacturing Engineering, $16,000,000.

(C) Chemical Science and Technology, $22,500,000.

(D) Physics, $28,700,000.

(E) Materials Science and Engineering, $39,400,000.

(F) Building and Fire Research, $12,000,000.

(G) Computer Systems $20,600,000.

(H) Applied Mathematics and Scientific Computing, $6,300,000.

(I) Technology Assistance, $10,800,000.

(J) Research Support Activities, $25,000,000.

(K) Pay Raise, $3,900,000.

(2)(A) Of the total of the amounts authorized under paragraph (1), $2,000,000 are authorized only for steel technology.

(B) Of the amount authorized under paragraph (1)(I)—

(i) $500,000 are authorized only for the evaluation of nonenergy-related inventions and related technology extension activities;

(ii) $250,000 are authorized only for Institute participation in the pilot program established under subsection (e); and

(iii) $5,000,000 are authorized only for the Institute's management of the extramural funding programs authorized under section 105.

(C) Of the total amount authorized under paragraph (1)(J), $7,223,000 are authorized only for the technical competence fund.

(3) In addition to the amounts authorized under paragraph (1), there are authorized to be appropriated to the Secretary for fiscal year 1993 $34,800,000 for the renovation and upgrading of the Institute's facilities.

(c) Transfers.—(1) Funds may be transferred among the line items listed in subsection (a)(1) and among the line items listed in subsection (b)(1), so long as the net funds transferred to or from any line item do not exceed 10 percent of the amount authorized for that line item in such subsection and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives are notified in advance of any such transfer.

(2) The Secretary may propose transfers to or from any line item listed in subsection (a)(1) or subsection (b)(1) exceeding 10 percent of the amount authorized for such line item, but such proposed transfer may not be made unless—

(A) a full and complete explanation of any such proposed transfer and the reason therefor are transmitted in writing to the Speaker of the House of Representatives, the President of the Senate, and the appropriate authorizing Committees of the House of Representatives and the Senate, and

(B) 30 calendar days have passed following the transmission of such written explanation.

(d) Relation to Other Authorizations.—Except for authorizations provided in the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100-418; 102 Stat. 1448), the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.), and the Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988 (15 U.S.C. 5101 et seq.), this Act contains the complete authorizations of appropriations for the Institute for fiscal years 1992 and 1993. This subsection shall not limit the authority of the Institute to accept funds appropriated to any other Federal agency or to perform work for others.

(e) Pilot Program.—Pursuant to the authorizations contained in subsections (a)(1)(I) and (b)(1)(I), the Secretary is authorized to pay the Federal share of the cost of establishing and carrying out a standards assistance pilot program under section 112 of the National Institute of Standards and Technology Authorization Act for Fiscal Year 1989 (15 U.S.C. 272 note). The purpose of the pilot program is to assist a country or countries that have requested assistance from the United States in the development of comprehensive industrial standards by providing the continuous presence of United States personnel on-site for a period of 2 or more years to provide such assistance and by providing, as necessary, additional technical support from within the Institue. Such funds shall be made available for such purpose only to the extent that matching funds are received by the National Institute of Standards and Technology from sources outside the Federal Government.

(f) Construction of Facilities.—Section 14 of the National Institute of Standards and Technology Act (15 U.S.C. 278d) is amended by striking "herein" and all that follows, and inserting in lieu thereof "herein.".

(g) Fire and Building Programs.—The fire research and building technology programs of the Institute may be combined for administrative purposes only, and separate budget accounts for fire research and building technology shall be maintained. No later than December 31, 1992, the Secretary, acting through the Director of the Institute, shall report to Congress on the results of the combination, on efforts to preserve the integrity of the fire research and building technology programs, on the long-range basic and applied research plans of the two programs, on procedures for receiving advice on fire and earthquake research priorities from constituencies concerned with public safety, and on the relation between the combined program at the Institute and the United States Fire Administration.

(h) Educational Programs.—(1) Section 18 of the National Institute of Standards and Technology Act (15 U.S.C. 278g-1)) is amended by striking the period at the end of the first sentence and inserting in lieu thereof ", and to United States citizens for research and technical activities on Institute programs.".

(2) Section 17 of the National Institute of Standards and Technology Act (15 U.S.C. 278g) is amended by adding at the end the following new subsection:

"(d) For any scientific and engineering disciplines for which there is a shortage of suitably qualified and available United States citizens and nationals, the Secretary is authorized to recruit and employ in scientific and engineering fields at the Institute foreign nationals who have been lawfully admitted to the United States for permanent residence under the Immigration and Nationality Act and who intend to become United States citizens. Employment of a person under this pragraph shall not be subject to the provisions of title 5, United States Code, governing employment in the competitive service, or to any prohibition in any other Act against the employment of aliens, or against the payment of compensation to them.".

(i) Core Program Funding.—It is the sense of the Congress that the intramural scientific and technical research and services activities of the National Institute of Standards and Technology should share fully in any funding increases provided to the Institute.

SEC. 105. EXTRAMURAL PROGRAMS OF THE INSTITUTE.

(a) Fiscal Year 1992.—In addition to any sums otherwise authorized under this Act, there are authorized to be appropriated to the Secretary, to carry out the extramural industrial technology services programs of the Institute created under sections 25, 26, and 28 of the National Institute of Standards and Technology Act (15 U.S.C. 278k, 2781, and 278n), $217,500,000 for fiscal year 1992, which shall be available for the following line items:

(1) Regional Centers for the Transfer of Manufacturing Technology, $25,000,000.

(2) State Technology Extension Program, $2,500,000.

(3) Advanced Technology Program, $100,000,000.

(b) Fiscal Year 1993.—In addition to any sums otherwise authorized under this Act, there are authorized to be appropriated to the Secretary, to carry out the extramural industrial technology services programs of the Institute created under sections 25, 26, and 28 of the National Institute of Standards and Technology Act (15 U.S.C. 278k, 2781, and 278n), $127,500,000 for fiscal year 1993, which shall be available for the following line items:

(1) Regional Centers for the Transfer of Manufacturing Technology and Satellite Manufacturing Centers, $25,000,000.

(2) State Technology Extension Program, $2,500,000.

(3) Advanced Technology Program, $100,000,000.

(c) Limitation.—No funds are authorized under this section for any project under the extramural programs of the Institute which have not been competitively reviewed through the merit review processes required by the National Institute of Standards and Technology Act (15 U.S.C. 271 et seq.).

(d) Amendments to Extension Program.—Section 5121(b) of the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 2781 note) is amended by striking paragraph (5).

(e) Amendments to Extension Activities.—(1) Section 25(c)(6) of the National Institute of Standards and Technology Act (15 U.S.C. 278k(c)(6)) is amended by inserting before the period at the end the following: "except for contracts for such specific technology extension or transfer services as may be specified by statute or by the Director".

(2) Section 25(d) of the National Institute of Standards and Technology Act (15 U.S.C. 278k(d)) is amended to read as follows:

"(d) In addition to such sums as may be authorized and appropriated to the Secretary and Director to operate the Centers program, the Secretary and Director also may accept funds from other Federal departments and agencies for the purpose of providing Federal funds to support Centers. Any Center which is supported with funds which originally came from other Federal departments and agencies shall be selected and operated according to the provisions of this section.".

(f) Advisory Committee.—Section 5142(f) of the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 4632(f)) is amended by striking "and 1990" and inserting in lieu thereof "1990, 1991, 1992, and 1993".

SEC. 106. SALARY ADJUSTMENTS.

In addition to any sums otherwise authorized by this Act, there are authorized to be appropriated to the Secretary for fiscal years 1992 and 1993 such additional sums as may be necessary to make any adjustments in salary, pay, retirement, and other employee benefits which may be provided for by law.

SEC. 107. METRIC AMENDMENT.

(a) The Fair Packaging and Labeling Act (15 U.S.C. 1451 et seq.) is amended—

(1) in sections 4(a)(2), (4), and (5), 4(b), and 5(c)(1), by striking "weight" and inserting in lieu thereof "weight or mass";

(2) in sections 4(a)(5) and 5(d), by striking "weights" and inserting in lieu thereof "weights or masses";

(3) in section 4(a)(2), by inserting ", using the most appropriate units of the SI metric system as the primary system for measuring quantity" after "panel of that label"; and

(4) in section 4(a)(3)(A)—

(A) by striking "containing" and inserting in lieu thereof "that also displays the avoirdupois system of measure, and that contains" in clause (i);

(B) by striking "that also displays the avoirdupois system of measure" after "random package" in clause (ii);

(C) by inserting "that also displays the avoirdupois system of measure" after "linear measure" in clause (iii); and

(D) by inserting "that also displays the avoirdupois system of measure" after "measure of area" in clause (iv).

(b) This section shall take effect 2 years after the date of enactment of this Act.

SEC. 108. TRANSFER OF FEDERAL SCIENTIFIC AND TECHNICAL INFORMATION.

(a) Transfer.—The head of each Federal executive department or agency shall transfer in a timely manner to the National Technical Information Service unclassified scientific, technical, and engineering information which results from federally funded research and development activities for dissemination to the private sector, academia, State and local governments, and Federal agencies. Only information which would otherwise be available for public dissemination shall be transferred under this subsection. Such information shall include technical reports and information, computer software, application assessments generated pursuant to section 11(c) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(c)), and information regarding training technology and other federally owned or originated technologies. The Secretary shall issue regulations within one year after the date of enactment of this Act outlining procedures for the ongoing transfer of such information to the National Technical Information Service.

(b) Annual Report to Congress.—As part of the annual report required under section 212(f)(3) of the National Technical Information Act of 1988, the Secretary shall report to Congress on the status of efforts under this section to ensure access to Federal scientific and technical information by the public. Such report shall include—

(1) an evaluation of the comprehensiveness of transfers of information by each Federal executive department or agency under subsection (a);

(2) a description of the use of Federal scientific and technical information;

(3) plans for improving public access to Federal scientific and technical information; and

(4) recommendations for legislation necessary to improve public access to Federal scientific and technical information.

SEC. 109. AVAILABILITY OF APPROPRIATIONS.

Appropriations made under the authority provided in this Act shall remain available for obligation, for expenditure, or for obligation and expenditure for periods specified in the Acts making such appropriations.

SEC. 110. REPORT ON FACILITIES NEEDS.

By March 1, 1992, the Director of the Institute shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on what renovations and upgrades of Institute facilities are necessary over the next decade. The report shall include a ranking of facilities needs in order of priority, an estimate of costs, and the Director's plan for meeting these needs.

SEC. 111. BUY-AMERICAN PROVISIONS.

(a) Restrictions on Contract Awards.—No contract or subcontract made with funds authorized under this title may be awarded for the procurement of an article, material, or supply produced or manufactured in a foreign country whose government unfairly maintains in government procurement a significant and persistent pattern or practice of discrimination against United States products or services which results in identifiable harms to United States businesses, ad identified by the President pursuant to subsection (g)(1)(A) of section 305 of the Trade Agreements Act of 1979 (19 U.S.C. 2515(g)(1)(A)). Any such determination shall be made in accordance with such section 305.

(b) Prohibition Against Fraudulent Use of "Made in America" Labels.—If it has been finally determined by a court or a Federal agency that any person intentionally affixed a label bearing a "Made in America" inscription, or an inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, that person shall be ineligible to receive any contract or subcontract from the Department of Commerce, pursuant to the debarment, suspension, and ineligibility procedures in subpart 9.4 of chapter 1 of title 48, Code of Federal Regulations.

(c) Buy-American Requirement.—(1) The Secretary is authorized to award to a domestic firm a contract for the purchase of goods that, under the use of competitive procedures, would be awarded to a foreign firm, if—

(A) the final product of the domestic firm will be completely assembled in the United States;

(B) when completely assembled, more than 50 percent of the final product of the domestic firm will be domestically produced; and

(C) the difference between the bids submitted by the foreign and domestic firms is not more than 6 percent.

(2) This subsection shall not apply to the extent to which—

(A) in the opinion of the Secretary, after taking into consideration international obligations and trade relations, such applicability would not be in the public interest;

(B) in the opinion of the Secretary, after consultation with the Secretary of Defense, compelling national security considerations require otherwise; or

(C) the President determines that such an award would be in violation of the General

Agreement on Tariffs and Trade or an international agreement to which the United States is a party.

(3) This subsection shall apply only to contracts made for which—

(A) amounts are authorized by this title to be made available; and

(B) solicitations for bids are issued after the date of enactment of this Act.

(4) The Secretary, before January 1, 1993, shall report to the Congress on contracts covered under this subsection—

(A) entered into with foreign firms pursuant to a determination made under paragraph (2) of this subsection; and

(B) awarded to domestic firms pursuant to paragraph (1) of this subsection, in fiscal years 1991 and 1992.

(5) For purposes of this subsection—

(A) the term "domestic firm" means a business entity that is incorporated in the United States and that conducts business operations in the United States; and

(B) the term "foreign firm" means a business entity not described in subparagraph (A).

TITLE II—ADVANCED TECHNOLOGY PROGRAM AMENDMENTS

SEC. 201. EMERGING TECHNOLOGIES RESEARCH AND DEVELOPMENT.

(a) SHORT TITLE.—This title may be cited as the "Emerging Technologies and Advanced Technology Program Amendments Act of 1991".

(b) FINDINGS AND PURPOSES.—(1) The Congress finds that—

(A) technological innovation and its profitable inclusion in commercial products are critical components of the ability of the United States to raise the living standards of Americans and to compete in world markets;

(B) maintaining viable United States-based high technology industries is vital to both the national security and the economic well-being of the United States;

(C) the Department of Commerce has reported that the United States is losing or losing badly, relative to Japan and Europe, in many important emerging technologies and risks losing much of the $350 billion United States market and $1 trillion world market expected to develop by the year 2000 for products based on emerging technologies;

(D) it is in the national interest for the Federal Government to encourage and, in selected cases, provide limited financial assistance to industry-led private sector efforts to increase research and development in economically critical areas of technology;

(E) joint ventures are a particularly effective and appropriate way to pool resources to conduct research that no single company is likely to undertake but which will create new generic technologies that will benefit an entire industry and the welfare of the Nation;

(F) it is vital that industry within the United States attains a leadership role and capability in development, design, and manufacturing in fields such as high-resolution information systems, advanced manufacturing, and advanced materials; and

(G) the Advanced Technology Program, established under section 28 of the National Institute of Standards and Technology Act (15 U.S.C. 278n), is the appropriate vehicle for the United States Government to provide limited assistance to joint development within the United States of new high technology capabilities in fields such as high-resolution information systems, advanced manufacturing technology, and advanced materials, and can help encourage United States industry to work together on problems of mutual concern.

(2) The purposes of this section are—

(A) to strengthen the Advanced Technology Program created under section 28 of the National Institute of Standards and Technology Act (15 U.S.C. 278n), and to provide improved guidelines for the allocation of Advanced Technology Program funds appropriated under the authorizations contained in section 105 of this Act;

(B) to promote and assist in the development of advanced technologies and the generic application of such technologies to civilian products, processes, and services;

(C) to improve the competitive position of United States industry by supporting industry-led research and development projects in areas of emerging technology which have substantial potential to advance the economic well-being and national security of the United States, such as high-resolution information systems, advanced manufacturing technology, and advanced materials; and

(D) to support projects that range from idea exploration to prototype development and address long-term, high-risk areas of technological research, development, and application that are not otherwise being adequately developed by the private sector, but are likely to yield important benefits to the Nation.

(c) ADVANCED TECHNOLOGY PROGRAM.—(1) Section 28(a) of the National Institute of Standards and Technology Act (15 U.S.C. 278n(a)), is amended by adding at the end the following new sentence: "In operating the Program, the Secretary and Director shall, as appropriate, be guided by the findings and recommendations of the Biennial National Critical Technology Reports prepared pursuant to section 603 of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6683)."

(2) Section 28(b)(1) of the National Institute of Standards and Technology Act (15 U.S.C. 278n(b)(1)), is amended by inserting "industry-led" immediately after "aid".

(3) Section 28(b)(1)(B) of the Act of March 3, 1901 (15 U.S.C. 278n(b)(1)(B)), is amended by inserting "by means of grants, cooperative agreements, or contracts" immediately after "such joint ventures".

(4) Section 28(b)(2) of the National Institute of Standards and Technology Act (15 U.S.C. 278n(b)(2)), is amended to read as follows:

"(2) provide grants to and enter into contracts and cooperative agreements with United States businesses (especially small businesses), provided that emphasis is placed on applying the Institute's research, research techniques, and expertise to those organizations' research programs;".

(5) Section 28(d)(2) of the National Institute of Standards and Technology Act (15 U.S.C. 278n(d)(2)), is amended to read as follows:

"(2) In the case of joint ventures, the Program shall not make an award unless the award will facilitate the formation of a joint venture or the initiation of a new research and development project by an existing joint venture.".

(6) Section 28(d) of the Act of National Institute of Standards and Technology Act (15 U.S.C. 278n(d)(7)), is amended—

(A) by striking paragraph (7);

(B) by redesignating paragraphs (8) and (9) as paragraphs (7) and (8), respectively; and

(C) by adding at the end the following new paragraphs:

"(9) A company shall be eligible to receive financial assistance under this section only if—

"(A) the Secretary finds that the company's participation in the Program would be in the economic interest of the United States as evidenced by investments in the United States in research, development, and manufacturing (including, for example, the manufacture of major components or subassemblies in the United States); significant contributions to employment in the United States; and agreement with respect to any technology arising from assistance provided under this section to promote the manufacture within the United States of products resulting from that technology (taking into account the goals of promoting the competitiveness of United States industry), and to procure parts and materials from competitive suppliers; and

"(B) either—

"(i) the company is a United States-owned company; or

"(ii) the Secretary finds that the company is incorporated in the United States and has a parent company which is incorporated in a country which affords to United States-owned companies opportunities, comparable to those afforded by any other company, to participate in any joint venture similar to those authorized under this Act; affords to United States-owned companies local investment opportunities comparable to those afforded to any other company; and affords adequate and effective protection for the intellectual property rights of United States-owned companies.

"(10) Grants, contracts, and cooperative assignments under this section shall be designed to support projects which are high risk and which have the potential for eventual substantial widespread commercial application. In order to receive a grant, contract, or cooperative agreement under this section, a research and development entity shall demonstrate to the Secretary the requisite ability in research and technology development and management in the project area in which the grant, contract, or cooperative agreement is being sought.

"(11)(A) Title to any intellectual property arising from assistance provided under this section shall vest in a company or companies incorporated in the United States. The United States may reserve a nonexclusive, nontransferable, irrevocable paid-up license, to have practiced for or on behalf of the United States, in connection with any such intellectual property, but shall not, in the exercise of such license, publicly disclose proprietary information related to the license. Title to any such intellectual property shall not be transferred or passed, except to a company incorporated in the United States, until the expiration of the first patent obtained in connection with such intellectual property.

"(B) For purposes of this paragraph, the term 'intellectual property' means an invention patentable under title 35, United States Code, or any patent on such an invention.

"(C) Nothing in this paragraph shall be construed to prohibit the licensing to any company of intellectual property rights arising from assistance provided under this section.".

(7) Section 28(e) of the National Institute of Standards and Technology Act (15 U.S.C. 278n(e)), is amended to read as follows:

"(e) The Secretary may, within 30 days after notice to Congress, suspend a company or joint venture from continued assistance under this section if the Secretary determines that the company, the country of incorporation of the company or a parent company, or the joint venture has failed to satisfy any of the criteria set forth in subsection (d)(9), and that it is in the national interest of the United States to do so.".

(8) Section 28 of the National Institute of Standards and Technology Act (15 U.S.C. 278n), is amended by adding at the end the following new subsections:

"(f) When reviewing private sector requests for awards under the Program, and when monitoring the progress of assisted research projects, the Secretary and the Director shall, as appropriate, coordinate with the Secretary of Defense and other senior Federal officials to ensure cooperation and coordination in Federal technology programs and to avoid unnecessary duplication of effort. The Secretary and the Director are authorized to work with the Director of the Office of Science and Technology Policy, the Secretary of Defense, and other appropriate Federal officials to form interagency working groups or special project offices to coordinate Federal technology activities.

"(g) In order to analyze the need for the value of joint ventures and other research projects in specific technical fields, to evaluate any proposal made by a joint venture or company requesting the Secretary's assistance, or to monitor the progress of any joint venture or any company research project which receives Federal funds under the Program, the Secretary, the Under Secretary of Commerce for Technology, and the Director may, notwithstanding any other provision of law, meet with such industry sources as they consider useful and appropriate.

"(h) Up to 10 percent of the funds appropriated for carrying out this section may be used for standards development and technical activities by the Institute in support of the purposes of this section.

"(i) In addition to such sums as may be authorized and appropriated to the Secretary and Director to operate the Program, the Secretary and Director also may accept funds from other Federal departments and agencies for the purpose of providing Federal funds to support awards under the Program. Any Program award which is supported with funds which originally came from other Federal departments and agencies shall be selected and carried out according to the provisions of this section.

"(j) As used in this section—

"(1) the term 'joint venture' means any group of activities, including attempting to make, making, or performing a contract, by two or more persons for the purpose of—

"(A) theoretical analysis, experimentation, or systematic study of phenomena or observable facts;

"(B) the development or testing of basic engineering techniques;

"(C) the extension of investigative finding or theory of a scientific or technical nature into practical application for experimental and demonstration purposes, including the experimental production and testing of models, prototypes, equipment, materials, and processes;

"(D) the collection, exchange, and analysis of research information;

"(E) the production of any product, process, or service; or

"(F) any combination of the purposes specified in subparagraphs (A), (B), (C), (D), and (E),

and may include the establishment and operation of facilities for the conducting of research, the conducting of such venture on a protected and proprietary basis, and the prosecuting of applications for patents and the granting of licenses for the results of such venture; and

"(2) the term 'United States-owned company' means a company that has majority ownership or control by individuals who are citizens of the United States."

(d) EFFECTIVE DATE.—The amendments in subsection (c) shall take effect immediately upon enactment; however, the amendments shall not apply to applications submitted before the date of enactment of this Act.

(e) MANAGEMENT COSTS.—Section 2 of the National Institute of Standards and Technology Act (15 U.S.C. 272) is amended by adding at the end thereof the following new subsection:

"(d) In carrying out the extramural funding programs of the Institute, including the programs established under section 25, 26, and 28 of this Act, the Secretary may retain reasonable amounts of any funds appropriated pursuant to authorizations for these programs in order to pay for the Institute's management of these programs.".

(f) COMPREHENSIVE REPORT. The Secretary shall, not later than 4 years after the date of enactment of this Act, submit to each House of the Congress and the President a comprehensive report on the results of the Advanced Technology Program established under section 28 of the National Institute of Standards and Technology Act (15 U.S.C. 278n), including any activities in the areas of high-resolution information systems, advanced manufacturing technology, and advanced materials.

TITLE III—AMENDMENTS TO THE STEVENSON-WYDLER TECHNOLOGY INNOVATION ACT OF 1980

SEC. 301. FEDERAL LABORATORY CONSORTIUM.

(a) Section 11(e)(2) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(e)(2)) is amended by inserting "senior" after "Consortium and a".

(b) Section 11 (e)(6) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(e)(6)) is amended by adding at the end the following: "Such report shall include an annual independent audit of the financial statements of the Consortium, conducted in accordance with generally accepted accounting principles.".

(c) Section 11(e)(7)(B)(ii) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(e)(7)(B)(ii)) is amended by striking "or 1991" and inserting in lieu thereof "1991, 1992, 1993, 1994, 1995, or 1996".

(d) Section 11(e)(8) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(e)(8)) is repealed.

SEC. 302. COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENTS.

(a) Section 12(d)(1) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a(d)(1)) is amended by inserting "intellectual property," after "equipment," both places it appears.

(b) Within 6 months after the date of enactment of this Act, the Secretary shall report to the Congress on the advisability of authorizing a new form of cooperative research and development agreement which would permit Federal contributions of funds.

SEC. 303. RESEARCH EQUIPMENT.

Section 11 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710) is amended by adding at the end the following new subsection:

"(i) RESEARCH EQUIPMENT.—The Director of a laboratory, or the head of any Federal agency or department, may give research equipment that is excess to the needs of the laboratory, agency, or department to an educational institution or nonprofit organization for the conduct of technical and scientific education and research activities. Title of ownership shall transfer with a gift under the section.".

SEC. 304. DEFINITION OF FEDERAL AGENCY.

Section 4(8) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3703(8)) is amended by inserting ", as well as any agency of the legislative branch of the Federal Government" after "of such title".

SEC. 305. QUALITY IMPROVEMENT.

Section 17(f) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3711a(f)) is amended by adding at the end the following: "The Director is authorized to use appropriated funds to carry out responsibilities under this Act.".

SEC. 306. UNDER SECRETARY.

Section 5(c) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3704(c)) is amended—

(1) by redesignating paragraphs (13) and (14) as paragraphs (14) and (15), respectively; and

(2) by inserting after paragraph (12) the following new paragraph:

"(13) serve as a focal point for discussions among United States companies on topics of interest to industry and labor, including discussions regarding manufacturing and discussions regarding emerging technologies;".

TITLE IV—NATIONAL COMMISSION ON REDUCING CAPITAL COSTS FOR EMERGING TECHNOLOGY

SEC. 401. NATIONAL COMMISSION ON REDUCING CAPITAL COSTS FOR EMERGING TECHNOLOGY.

(a) ESTABLISHMENT AND PURPOSE.—There is established a National Commission on Reducing Capital Costs for Emerging Technology (hereafter in this section referred to as the "Commission"), for the purpose of developing recommendations to increase the competitiveness of United States industry by encouraging investments in research, the development of new process and product technologies, and the production of those technologies.

(b) ISSUES.—The function of the Commission shall be to address the following issues:

(1) How has the overall cost of capital paid by United States companies differed during the past decade from that paid by companies in other industrial economies such as Germany, Japan, and the United Kingdom?

(2) To what extent has the cost of capital faced by technology companies differed from the overall cost of capital in each of these nations during the same period?

(3) To what extent do high capital costs in general inhibit investment in projects with long-term payoffs, such as the development and commercialization of new technology?

(4) To what extent does the structure of the financial services industry in the United States affect the flow of capital to advanced technology investment, and to what extent do current practices in the equity markets raise the cost of capital and inhibit the availability of capital to fund research and development, purchase advanced manufacturing equipment, and fund other investments necessary to commercialize advanced technology?

(5) In what ways do Government regulations influence the cost of capital in the United States?

(6) To what extent have national differences in capital costs facilitated the foreign acquisition of technology-based United States companies?

(7) What macroeconomic and other policies would promote greater investment in advanced manufacturing techniques, in research and development, and in other activities necessary to commercialize and produce now technologies?

(8) What specific policies should the Federal Government follow in order to reduce the cost of capital for United States companies to levels that are near parity with those

faced by the Nation's principal trading partners?

(c) MEMBERSHIP.—(1) The Commission shall be composed of 9 members who are eminent in such fields as advanced technology, manufacturing, finance, and international economics and who are appointed as follows:

(A) 3 individuals appointed by the President, one of whom shall chair the Commission.

(B) 3 individuals appointed by the Speaker of the House of Representatives, 1 of whom shall be appointed upon the recommendation of the minority leader of the House of Representatives.

(C) 3 individuals appointed by the President pro tempore of the Senate, 2 of whom shall be appointed upon the recommendation of the majority leader of the Senate and 1 of whom shall be appointed upon the recommendation of the minority leader of the Senate.

(2) Each member shall be appointed for the life of the Commission. A vacancy in the Commission shall be filled in the manner in which the original appointment was made.

(d) PROCEDURES.—(1) The Chairman shall call the first meeting of the Commission within 90 days after the date of enactment of this Act.

(2) Recommendations of the Commissions shall require the approval of three-quarters of the members of the Commission.

(3) The Commission may use such personnel detailed from Federal agencies as may be necessary to enable it to carry out its duties.

(4) Members of the Commission, other than full-time employees of the Federal Government, while attending meetings of the Commission while away from their homes or regular places of business, shall be allowed travel expenses in accordance with subchapter I of chapter 57 of title 5, United States Code.

(e) REPORTS.—The Commission shall, within 1 year after the date of enactment of this Act, submit to the President and Congress a report containing legislative and other recommendations with respect to the issues addressed under subsection (b).

(f) CONSULTATION.—The Commission shall consult, as appropriate, with the Commission on Technology and Procurement established by section 505 of this Act.

(g) TERMINATION.—The Commission shall terminate 6 months after the submission of its report under subsection (e).

(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for the fiscal years 1992 and 1993.

TITLE V—STUDIES AND REPORTS

SEC. 501. HIGH-RESOLUTION INFORMATION SYSTEMS ADVISORY BOARD.

(a) ESTABLISHMENT AND PURPOSE.—The Directory of the Office of Science and Technology Policy shall establish within that office a High-Resolution Information Systems Advisory Board (hereafter in this section referred to the "Board") to monitor and, as appropriate, foster the development of United States-based high-resolution information systems industries.

(b) DEFINITION.—As used in this title, the term "high-resolution information systems" means the equipment and techniques required to create, store, recover, and play back high-resolution images and accompanying sound.

(c) FUNCTIONS.—The board shall—

(1) collect and analyze information on the range of factors which will determine whether United States-based high-resolution information systems industries will develop and become competitive, including such factors as technology policies, specialized financial problems, international standards and foreign trade practices, Federal regulations and procurement policies, and licensing practices;

(2) identify areas where appropriate cooperation between the Federal Government and the private sector, including Government support for industry-led joint research and development ventures, would enhance United States industrial competitiveness in this area, and provide advice and guidance for such cooperative efforts;

(3) provide guidance on what Federal policies and practices, particularly in such areas as procurement and the transfer of federally-funded research, are necessary to help establish United States-based high-resolution information systems industries;

(4) provide advice on the coordination of Federal defense and civilian activities to maximize and assist with the transfer of technologies in the field of high-resolution information systems into commercial products; and

(5) generally develop recommendations for guiding Federal agency activities related to the development of United States-based high-resolution information systems industries.

(d) MEMBERSHIP AND PROCEDURES.—(1)(A) The Board shall be composed of 13 members, 7 of whom shall constitute a quorum.

(B) The Director of the Office of Science and Technology Policy, the Secretary, the Directory of the Defense Advanced Research Projects Agency, and the Administrator of the National Aeronautics and Space Administration, or their designees, shall serve as members of the Board.

(C) The President, acting through the Director of the Office of Science and Technology Policy, within 90 days after the date of enactment of this Act, shall appoint as additional members of the Board—

(i) 5 members from the private electronics manufacturing sector, drawn from such sectors as semiconductors, display equipment, computers, consumer electronics, and telecommunications, with 1 member also representing labor;

(ii) 3 members from the private nonmanufacturing sector, including 1 representative from the transmission delivery the software industry, the entertainment industry, and the investment community; and

(iii) 1 member from academia.

At least 1 member appointed under this subparagraph shall be from small business.

(2) The Director of the Office of Science and Technology Policy or the Director's designee shall chair the Board.

(3) The chairman shall call the first meeting of the Board within 30 days after the appointment of members is completed.

(4) The Board may use such personnel detailed from Federal agencies as may be necessary to enable it to perform its functions.

(5) Members of the Board, other than full-time employees of the Federal Government, while attending meetings of the Board or otherwise performing duties of the Board while away from their homes or regular places of business, shall be allowed travel expenses in accordance with subchapter I of chapter 57 of title 5, United States Code.

(6) The Board shall submit a report of its activities once every year after its establishment to the President, the Committees on Science, Space, and Technology and on Energy and Commerce of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate.

(e) LIMITATION ON FUNCTIONS.—Nothing in this section or any other provision of this Act shall be construed—

(1) to authorize the Board to investigate or provide advice or guidance with respect to standards or other regulations or policies related to the transmission, delivery, or receipt of broadcast television or cable television signals subject to regulation by the Federal Communications Commission under the Communications Act of 1934 (47 U.S.C. 151 et seq.); or

(2) to limit, modify, or affect in any manner the authorities, functions, or responsibilities of the Federal Communications Commission or the National Telecommunications and Information Administration.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for the fiscal years 1992 and 1993.

SEC. 502. MAJOR SCIENCE AND TECHNOLOGY PROPOSALS.

The National Science and Technology Policy, Organization, and Priorities Act of 1976 is amended by adding at the end of title II the following new section:

"MAJOR SCIENCE AND TECHNOLOGY PROPOSALS

"SEC. 209. The Director shall identify and provide an annual report to Congress on each major multinational science and technology project, in which the United States is not a participant, which has a total estimated cost greater than $1,000,000,000.".

SEC. 503. BIENNIAL NATIONAL CRITICAL TECHNOLOGIES REPORT AMENDMENTS.

Section 603 of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6683) is amended—

(1) in subsection (a), by inserting ", but shall include the most economically important emerging civilian technologies during the 10-year period following such report, together with the estimated current and future size of domestic and international markets for products derived from these technologies" after "may not exceed 30";

(2) in subsection (b), by striking "national security and" and inserting in lieu thereof "national security or";

(3) by redesignating subsection (d) as subsection (e); and

(4) by inserting after subsection (c) the following new subsection:

"(d) Each such reaport shall include—

"(1) an identification of the types of research and development needed to close any significant gaps of deficiencies in the technology base of the United States, as compared with the technology bases of major trading partners; and

"(2) a list of the technologies and markets targeted by major trading partners for development or capture.".

SEC. 504. CRITICAL INDUSTRIES.

(a) IDENTIFICATION OF INDUSTRIES AND DEVELOPMENT OF PLAN.—The Secretary shall—

(1) identify those civilian industries in the United States that are necessary to support a robust manufacturing infrastructure and critical to the economic security of the United States; and

(2) list the major research and development initiatives being undertaken, and the substantial investments being made, by the Federal Government, including its research laboratories, in each of the critical industries identified under paragraph (1).

(b) INITIAL REPORT.—The Secretary shall submit a report to the Congress within 1 year after the date of enactment of this Act on the actions taken under subsection (a).

(c) ANNUAL UPDATES.—The Secretary shall annually submit to the Congress an update of the report submitted under subsection (b). Each such update shall—

(1) describe that status of each identified critical industry, including the advances and declines occurring since the most recent report; and

(2) identify any industries that should be added to the list of critical industries.

SEC. 505. RESEARCH, DEVELOPMENT, TECHNOLOGY UTILIZATION, AND GOVERNMENT PROCUREMENT POLICY.

(a) ESTABLISHMENT OF COMMISSION.—The Secretary, in consultation with the Administrator of the Office of Federal Procurement Policy, shall establish a Commission on Technology and Procurement (hereafter in this section referred to as the "Commission"), for the purposes of analyzing the effect of Federal Government procurement laws, procedures, and policies on the development of advanced technologies within the United States and making recommendations on how Federal policy could be changed to promote further the development of advanced technologies.

(b) ISSUES.—The Commission shall address the following issues:

(1) To what extent, if any, should Federal Government technology purchase strategies be used to give domestic suppliers a competitive advantage in new generations of existing technologies and initial market penetration for new technologies?

(2) Under what conditions can Federal Government purchases of advanced technology-based products be based on performance specifications rather than on product specifications? Should Federal government procurement first look to the commercial markets for products that will meet performance specifications before purchasing a unique product that has to be developed?

(3) How can the Federal Government procurement laws, practices, and procedures be used as a strategic tool to foster the use of emerging technologies?

(4) How can the Federal Government ensure that its supplies adopt the principles embodied in the Malcolm Baldrige National Quality Award?

(5) Should Federal Government procurement practices include cooperative efforts between the supplier and the Federal entity to develop products so as to be more easily marketed on a commerical basis? Should a program for the exchange of technical personnel to foster innovation in product development be part of such practices?

(6) To what extent, if any, should Federal Government documents specify standards that are beneficial to domestic suppliers, aid the compatibility of advanced technologies, and speed the commercial acceptance of those technologies, and what would be the role of the Institute in such an effort?

(7) Should Federal Government procurement be linked to the Advanced Technology Program and to technology transfer activities so that specification development can incorporate the latest technical advances available?

(8) To what extent should worldwide, state of the art technology be required in Federal Government procurement?

(c) MEMBERSHIP AND PROCEDURES.—(1) The Commission shall be composed of 15 members, 8 of whom shall constitute a quorum.

(2) The Secretary, the Administrator of the Office of Federal Procurement Policy, the Director of the Office of Science and Technology Policy, the Secretary of Defense, and the Administrator of General Services, or their designees who serve in executive level positions, shall serve as members of the Commission.

(3) The Secretary shall appoint as members of the Commission, from among individuals not employed by the Federal Government—

(A) 4 members who are eminent in advanced technology business representing manufacturing and services industries, including at least 1 member representing labor;

(B) 3 members who are eminent in the fields of technology and international economic development; and

(C) with the concurrence of the Administrator of the Office of Federal Procurement Policy, 3 members who are eminent in the field of Federal Government procurement.

(4) The Secretary shall appoint a Commission chairman from among the members of the Commission. The chairman shall call the first meeting of the Commission within 90 days after the date of enactment of this Act.

(5) The Secretary and the Administrator of the Office of Federal Procurement Policy shall provide such staff as may be required by the Commission to carry out its responsibilities.

(6) Members of the Commission, other than full-time employees of the Federal Government, while attending meetings of the Commission or otherwise performing duties of the Commission while away from their homes or regular places of business, shall be allowed travel expenses in accordance with subchapter I of chapter 57 of title 5, United States Code.

(d) REPORTS.—(1) The Commission shall, within 1 year after the date of enactment of this Act, submit to the Secretary, the Administrator of the Office of Federal Procurement Policy, the President, and Congress a report containing preliminary recommendations with respect to the issues addressed under subsection (b).

(2) The Commission shall, within 2 years after the date of enactment of this Act, submit to the Secretary and Congress a final report containing final recommendations with respect to the issues addressed under subsection (b).

(e) CONSULTATION.—The Commission shall consult, as appropriate, with the National Commission on Reducing Capital Costs for Emerging Technology.

(f) TERMINATION.—The Commission shall terminate 6 months after the submission of its final report under subsection (d)(2).

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for the fiscal years 1992, 1993, and 1994.

SEC. 506. REPORT ON INFORMATION COLLECTION AND DISSEMINATION.

(a) REPORT.—Within 270 days after the date of enactment of this Act, the Secretary shall report to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate on the feasibility of establishing and operating a Federal Online Information Product Catalog (FEDLINE) at the National Technical Information Service which would serve as a comprehensive inventory and authorizative register of information products and services disseminated by the Federal Government and assist agencies and the public in locating Federal Government information. Information protected from public disclosure shall not be included. In studying the concept, the Secretary, acting through the Under Secretary and the Director of the National Technical Information Service, shall consult with officials from appropriate Government agencies, including the Office of Management and Budget, the National Archives, the Government Printing Office, and the Institute, and with representatives of the public, for their views on the optimal composition and format of FEDLINE. Such report shall contain cost estimates and possible funding sources for establishing and operating FEDLINE and shall list any changes in law and regulation that would be required if FEDLINE were to be implemented.

(b) FUNDING.—The Director of the National Technical Information Service may retain and use all monies received, including receipts, revenues, and advanced payments and deposits, to fund obligations and expenses through the end of fiscal year 1993.

(c) ELECTRONIC FORMAT.—Section 212(e)(5) of the National Technical Information Act of 1988 (15 U.S.C. 3704b(e)(5)) is amended by inserting ", including producing and disseminating information products in electronic format" after "engineering information".

SEC. 507. NATIONAL QUALITY COUNCIL.

(a) ESTABLISHMENT AND FUNCTIONS.—There is established a National Quality Council (hereafter in this section referred to as the "Council"). The functions of the Council shall be—

(1) to establish national goals and priorities for Quality performance in business, education, government, and all other sectors of the nation;

(2) to encourage and support the voluntary adoption of these goals and priorities by companies, unions, professional and business associations, coalition groups, and units of government, as well as private and nonprofit organizations;

(3) to arouse and maintain the interest of the people of the United States in quality performance, and to encourage the adoption and institution of Quality performance methods by all corporation, government agencies, and other organizations; and

(4) to conduct a White House Conference on Quality Performance in the American Workplace that would bring together in a single forum national leaders in business, labor, education, professional societies, the media, government, and politics to address Quality performance as a means of improving United States competitiveness.

(b) MEMBERSHIP.—The Council shall consist of not less than 17 nor more than 20 members, appointed by the Secretary. Members shall include—

(1) at least 2 but not more than 3 representatives from manufacturing industry;

(2) at least 2 but not more than 3 representatives from service industry;

(3) at least 2 but not more than 3 representatives from national Quality not-for-profit organizations;

(4) two representatives from education, one with expertise in elementary and secondary education, and one with expertise in postsecondary education;

(5) one representative from labor;

(6) one representative from professional societies;

(7) one representative each from local and State government;

(8) one representative from the Federal Quality Institute;

(9) one representative from the National Institute of Standards and Technology;

(10) one representative from the Department of Defense;

(11) one representative from a civilian Federal agency not otherwise represented on the Council, to be rotated among such agencies every 2 years; and

(12) one representative from the Foundation for the Malcolm Baldrige National Quality Award.

(c) TERMS.—The term of office of each member of the Council appointed under paragraphs (1) through (7) of subsection (b) shall be 2 years, except that when making the initial appointments under such paragraphs; the Secretary shall appoint not more than 50 percent of the members to 1 year terms. No member appointed under such paragraphs shall serve on the Council for more than 2 consecutive terms.

(d) CHAIRMAN AND VICE CHAIRMAN.—The Secretary shall designate one of the members initially appointed to the Council as Chairman. Thereafter, the members of the Council shall annually elect one of their number as Chairman. The members of the Council shall also annually elect one of their members as Vice Chairman. No individual shall serve as Chairman or Vice Chairman for more than 2 consecutive years.

(e) EXECUTIVE DIRECTOR AND EMPLOYEES.—The Council shall appoint and fix the compensation of an Executive Director, who shall hire and fix the compensation of such additional employees as may be necessary to assist the Council in carrying out its functions. In hiring such additional employees, the Executive Director shall ensure that no individual hired has a conflict of interest with the responsibilities of the Council.

(f) FUNDING.—There is established in the Treasury of the United States a National Quality Performance Trust Fund, into which all funds received by the Council, through private donations or otherwise, shall be deposited. Amounts in such Trust Fund shall be available to the Council, to the extent provided in advance in appropriations Acts, for the purpose of carrying out the functions of the Council under this Act.

(g) CONTRIBUTIONS.—The Council may not accept private donations from a single source in excess of $25,000 per year. Private donations from a single source in excess of $10,000 per year may be accepted by the Council only on approval of two-thirds of the Council.

(h) ANNUAL REPORT.—The Council shall annually submit to the President and the Congress a comprehensive and detailed report on—

(1) the progress in meeting the goals and priorities established by the Council;

(2) the Council's operations, activities, and financial condition;

(3) contributions to the Council from non-Federal sources;

(4) plans for the Council's operations and activities for the future; and

(5) any other information or recommendations the Council considers appropriate.

SEC. 508. STUDY OF TESTING AND CERTIFICATION.

(a) CONTRACT WITH NATIONAL RESEARCH COUNCIL.—Within 90 days after the date of enactment of this Act and within available appropriations, the Secretary shall enter into a contract with the National Research Council for a thorough review of international product testing and certification issues. The National Research Council will be asked to address the following issues and make recommendations as appropriate:

(1) The impact on United States manufacturers, testing and certification laboratories, certification organizations, and other affected bodies of the European Community's plans for testing and certification of regulated and nonregulated products of non-European origin.

(2) Ways for United States manufacturers to gain acceptance of their products in the European Community and in other foreign countries and regions.

(3) The feasibility and consequences of having mutual recognition agreements between testing and certification organizations in the United States and those of major trading partners on the accreditation of testing and certification laboratories and on quality control requirements.

(4) Information coordination regarding product acceptance and conformity assessment mechanisms between the United States and foreign governments.

(5) The appropriate Federal, State, and private roles in coordination and oversight of testing, certification, accreditation, and quality control to support national and international trade.

(b) MEMBERSHIP.—In selecting the members of the review panel, the National Research Council shall consult with and draw from, among others, laboratory accreditation organizations, Federal and State government agencies involved in testing and certification, professional societies, trade associations, small business, and labor organizations.

(c) REPORT.—A report based on the findings and recommendations of the review panel shall be submitted to the Secretary, the President, and Congress within 18 months after the Secretary signs the contract with the National Research Council.

SEC. 509. REPORT ON A STRATEGY TO STIMULATE COMPETITIVE RESEARCH.

(a) IN GENERAL.—No later than 120 days after the date of enactment of this Act, the Director of the Office of Science and Technology Policy shall submit to Congress a report presenting a proposed strategy for improving the university research capabilities of those States which historically have received relatively little Federal research and development funding. The report shall particularly—

(1) analyze recent steps to use the National Science Foundation's Experimental Program to Stimulate Competitive Research as a model for similar programs in several other Federal departments and agencies which fund research and development; and

(2) examine the feasibility and advisability of using that program as a model for Federal research and development agencies which do not currently have similar programs.

(b) ANALYSIS AND DISCUSSION.—The report shall include an analysis and discussion of—

(1) the geographic distribution of Federal research and development grants and contracts;

(2) current Federal efforts to stimulate competitive research; and

(3) the feasibility and advisability of new Federal programs to stimulate competitive research.

SEC. 510. INTERAGENCY COORDINATION.

The Secretary shall, within 180 days after the date of enactment of this Act, submit to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, a plan for coordination of Commerce Department efforts with other Federal agencies for activities related to high-resolution information systems, including research and development activities.

TELEMARKETING AND CONSUMER FRAUD AND ABUSE PREVENTION ACT

BRYAN AMENDMENT NO. 1460

Mr. FORD (for Mr. BRYAN) proposed an amendment to the bill (S. 1392) to strengthen the authority of the Federal Trade Commission regarding fraud committed in connection with sales made with a telephone, and for other purposes, as follows:

On page 4, strike "or" on line 5, strike "(C)" on line 6 and insert in lieu thereof "(D)", and insert between lines 5 and 6 the following:

(C) the act or practice by a person (other than an act or practice permitted in a valid agreement with a member of a credit card system or the member's agent) of knowingly presenting to a member of a credit card system or the member's agent, for payment, one or more evidences or records received from another person of transactions involving goods or services offered by telemarketing and paid for by credit card; or

---

NEW YORK CITY ZEBRA MUSSEL MONITORING ACT OF 1991

GLENN (and others) Amendment No. 1461

Mr. FORD (for Mr. GLENN, for himself, Mr. KASTEN, Mr. KOHL, Mr. LEVIN, and Mr. DIXON) proposed an amendment to the bill (S. 36) entitled the "New York City Zebra Mussel Monitoring Act of 1991", as follows:

At the end of the bill, add the following section:

SEC. . EXOTIC AQUATIC ORGANISMS.

(a) IN GENERAL.—Section 1101(b) of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4711(b)) is amended by adding at the end thereof the following new paragraph:

"(3) The Secretary, in consultation with the Task Force—

"(A) shall provide that the regulations issued under this subsection shall apply to vessels that carry ballast water and that, after operating on the waters beyond the exclusive economic zone, enter a United States port on the Hudson River where water is characterized as having a salinity less than 18%, and

"(B) may provide that such regulations apply to vessels operating in other rivers, canals, lakes, and waterways where discharge of ballast water could result in the introduction and spread of aquatic nuisance species into the Great Lakes."

(b) SHIPPING STUDY.—Section 1102(a)(3) of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4712(a)(3)) is amended by striking "other than" and inserting "including".

NEZ PERCE NATIONAL HISTORICAL PARK

BUMPERS (AND CRAIG) AMENDMENT NO. 1462

Mr. FORD (for Mr. BUMPERS, for himself, and Mr. CRAIG) proposed an amendment to the bill (H.R. 2032) to amend the Act of May 15, 1965, authorizing the Secretary of the Interior to designate the Nez Perce National Historical Park in the State of Idaho, and for other purposes; as follows:

On page 2, line 26, strike "and".

On page 3, line 1, strike "Montana;" and insert in lieu thereof: "Montana; and

(13) Hasotino Village, Idaho;".

On page 3, lines 12 through 25, strike paragraph (3) in its entirety and insert in lieu thereof:

"(3) In section 3, strike the proviso in the first sentence and insert in lieu thereof, ": *Provided*, That lands or interests therein owned by a State or a political subdivision of a State may be acquired only by donation or exchange: *Provided further*, That with respect to sites designated as components of the Nez Perce National Historical Park after November 1, 1991, no lands or interests therein, or other property, may be acquired without the consent of the owner thereof.".

ADJOURNMENT TO A DATE CERTAIN

MITCHELL AMENDMENT NO. 1463

Mr. FORD (for Mr. MITCHELL) proposed an amendment to the concurrent resolution (H. Con. Res. 260) providing for an adjournment of the Congress to a date certain; as follows:

At the end of section 2, strike the "period" and insert in lieu thereof, the following: "; and that when the Congress convenes on January 3, 1992, for the second session of the 102d Congress, the Senate shall not conduct any organizational or legislative business and when it recesses or adjourns on that day, it stand in recess or adjournment until 11:30 a.m. on Tuesday, January 21, 1992, or until noon on the second day after Members are notified to reassemble pursuant to section 3 of this concurrent resolution, whichever occurs first.".

NOTICES OF HEARINGS

SUBCOMMITTEE ON MINERAL RESOURCES DEVELOPMENT AND PRODUCTION

Mr. BINGAMAN. Mr. President, I would like to announce for my colleagues and the public the following correction pertaining to upcoming field hearings before the Mineral Resources Development and Production Subcommittee of the Committee on Energy and Natural Resources.

The hearing scheduled in Bayard, NM, on December 19, 1991, has been canceled and will be rescheduled at a later date. The hearing previously announced for December 18, 1991, in Salt Lake City, UT, will proceed as scheduled. An exact time and location for the hearing will be announced.

The purpose of the hearing is to receive testimony on S. 433, the Mining Law Reform Act of 1991.

Testimony will be by invitation only. For further information, please contact Lisa Vehmas of the subcommittee staff at 202–224–7555.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ARMED SERVICES

Mr. FORD. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet in open session on Wednesday, November 27, 1991, at 9 a.m., to consider the nominations of Donald C. Fraser, to be Deputy Under Secretary of Defense for Acquisition; Victor H. Reis, to be Director of Defense Research and Engineering; and James R. Lilley, to be Assistant Secretary of Defense for International Security Affairs.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

ROCKO M. FASANELLA, M.D.

• Mr. LIEBERMAN. Mr President, it is my great pleasure to bring to the attention of the Senate, Rocko M. Fasanella, M.D., medical scholar, educator, administrator, and humanitarian.

Dr. Fasanella's hard work and dedication have advanced the field of ophthalmology and saved the eyesight of countless numbers of individuals. He gives more than research results however, he also gives of himself. He devotes much of his time to sharing his expertise and experience with the community. To a man of such great humanitarian character, the world is his community.

After receiving his medical degree from Yale, Dr. Fasanella served during and following World War II as a surgeon—both on the battlefield and in general hospitals—in France and Germany. In 1951, he returned to Yale and, at 35 years of age, was appointed chief of ophthalmology at Yale-New Haven Hospital, the youngest chief of staff in the hospital's history.

Dr. Fasanella's reputation as an eye surgeon quickly received international recognition. He was a founder of the Caribbean Ophthalmological Society and is also a member of professional bodies in France, Spain, and Peru. Four of his textbooks on eye surgery have been translated into several languages including Russian and Chinese.

Dr. Fasanella's most recent efforts have focused on a more lasting cure of blepharospasm—a debilitating disease of the eye—and a continuation of research that he conducted earlier in his career on the regeneration of the optic nerve.

On December 8, the Italian-American Historical Society of Greater New Haven will pay tribute to Dr. Fasanella at its Annual Distinguished Service Award Dinner. An honor he richly deserves.

Mr. President, I hope my distinguished colleagues will join me today in rising to add our own voices to those around the world who pay tribute to Dr. Fasanella. He has demonstrated his dedication to the highest ideals of the medical profession, and his commitment to these principles serves as an inspiration to us all.•

TRIBUTE TO HENRY CAMPBELL

• Mr. McCONNELL. Mr. President, I rise today to recognize an outstanding Kentucky educator who recently retired from his 27-year post as president of one of Kentucky's most successful community colleges. Prestonsburg Community College has prospered under the leadership of Henry Campbell, thanks to his dedication to the students and the people of the Big Sandy Valley.

A familiar face is absent at Prestonsburg Community College this semester. Henry Campbell, recently retired as PCC president because of failing health. However, Mr. Campbell has more than left his mark on Prestonsburg. Under his leadership, the 2-year college has grown from a single building facility to a campus of eight buildings. According to University of Kentucky President Charles Wethington, Prestonsburg Community College probably has the longest unbroken string of enrollment growth records in Kentucky's community college system. When Mr. Campbell was hired in the early sixties, the Prestonsburg school had 325 students; today, more than 2,600 are enrolled.

Mr. Campbell's greatest pride at Prestonsburg Community College is not in its admirable enrollment statistics. He would much rather brag about individual students who have passed through the college during the past 27 years. Mr. Campbell says the real indication of how successful PCC is can be measured by its graduates. The community college has provided the initial postsecondary classrooms for lawyers, judges, teachers, nurses, doctors, and people in just about any other career field. In a recent interview, Mr. Campbell said, "One of the greatest success stories is that if I go into any hospital in this area, I'd see some of our graduates, and I have utter confidence in them."

Mr. Campbell has been described as one of the Nation's most colorful college presidents. Wethington calls him "the last of the old guard * * * someone who never gets hung up on taking himself too seriously." Except in off-campus meetings where he represents the college, Mr. Campbell never worries about wearing formal three-piece suits and ties; rumor has it that he was even mistaken for a janitor on one occasion. However, his good spiritedness and dedication transcend his style of dress, which ranges from presidential to mountaineer.

Although Henry Campbell would never accept such praise, all of the successes of Prestonsburg Community College over the past 27 years can be attributed, at least in part, to his strong leadership. I ask that an article from the Ashland Daily Independent, be printed in the RECORD.

The article follows:

[From the Daily Independent, July 8, 1991]

RETIREE LEAVES RICH LEGACY AT 2-YEAR COLLEGE

(by Roger Alford)

PRESTONSBURG.—Henry Campbell, described as one of the nation's most colorful college presidents, has given up his 27-year reign at Prestonsburg Community College.

Campbell, a white-haired chain smoker, has reached the mandatory retirement age of 65. But he said he would have had to give up the presidency anyway because of failing health.

"In many respects, he's kind of the last of the old guard," said University of Kentucky President Charles Wethington.

"He certainly can be considered a colorful character, but he's also a president who has led that community college to probably the longest unbroken string of enrollment growth records in the system."

The two-year college has prospered under Campbell's leadership, growing from a single building to a campus of eight buildings on the northern boundary of Prestonsburg.

While many college presidents want to appear scholarly and distinguished, Campbell "never gets hung up on taking himself too seriously," Wethington said.

Except in off-campus meetings where he represents the college, Campbell never worries about wearing formal three-piece suits and ties. He has been mistaken for a janitor, said Robert Allen, academic dean at the college.

Former Gov. Bert T. Combs, said at a roast honoring the retiring president that—because of the way he dressed—he didn't expect Campbell to last three years when he was hired in 1964.

His dress varies from presidential to mountaineer.

At a recent interview, Campbell wore a blue-striped, button-up shirt, with the collar open, and suspenders to hold up his loose-fitting slacks.

Recently he attended a leadership conference wearing a Scottish kilt—and he enjoyed the notoriety of being the only man there in a knee-length pleated skirt.

The same good-spiritedness has shone through even during campus controversies—like one that arose during the Persian Gulf war.

It seemed that the American flag wasn't being flown during the first few days of Operation Desert Storm.

Students noticed, and called WSAZ-TV in Huntington, W.Va., to do a story about it. They told a television reporter that the college has taken Old Glory down because administrators feared it would offend two Iraqi instructors there.

What about this claim, the reporter asked Campbell.

"Bull," came his reply.

Campbell said the real reason the flag wasn't being flown was that a woman in the college's maintenance department who has raised the flag each day for years had undergone a hysterectomy and was unable to do it.

No one remembered to cover for her, so the flag wasn't raised.

Campbell smokes filterless Pall Malls constantly and keeps oxygen tanks in his office and home for those times when his emphysema is especially bothersome.

Besides the emphysema, an eye disease has stolen most of his vision. He doesn't see well enough to recognize friends more than 5 feet away, and he has given up driving.

The disease, hystoplasmosis, was diagnosed last fall when he was examined for new glasses and it has gotten progressively worse. By the time he received the glasses, he needed stronger lenses.

He is now legally blind and had to be chauffeured to and from work in his last months as president. A tough man, Campbell seems to take his failing health in stride.

He has suffered before, as a victim of trench foot in World War II. Both feet froze from standing in foxholes under the European command of Gen. George Patton in the 87th Infantry Division.

The routine treatment for trench foot was to amputate the feet. Campbell didn't lose his feet, but he still feels the effects of the ailment when he tries to carry heavy items.

Campbell was born in Washington state in 1925 but grew up in eastern Kentucky. His father, a coal miner, was from Pulaski County. His mother was from Pike County.

A graduate of Wheelwright High School and the University of Kentucky, Campbell earned his master's degree from New Mexico College of Agriculture and Mechanical Arts. He earned his doctorate from the University of Texas.

Debra Floyd, a college administrator from Texas, has been hired to succeed Campbell. She will be only the second president at Prestonsburg Community College when she takes over July 29.

Campbell taught high school math early in life, then moved directly into a college presidency. He has headed Crowder College in Nesho, Mo., Alamo Gordo College in Texas and helped to launch Hazard Community College.

Funding never has been adequate for Kentucky community colleges, he said. Growth has been so dramatic since the mid-1980s that the schools have been spending all available money on teachers' salaries.

When Campbell was hired to head the Prestonsburg college, it has 325 students. Now it has 2,674 students. That growth can be attributed to Campbell, Wethington said.

But the growth is not the real indication of how successful the college is. Campbell points to the more than 40 doctors who graduated there as the true measure of success.

"One of the greatest success stories is that if I go into any hospital in this area, I'd see some of our graduates," he said. "And I have utter confidence in them."

The community college has provided the initial postsecondary classrooms for lawyers, judges, teachers, nurses, people in just about any career field, Campbell said.

Allen said Campbell's primary concerns truly are for the students and the people of the Big Sandy Valley. And, he said, as a good natured leader, Campbell has won victory after victory for them in higher education.

And now Campbell boasts of having the most beautiful campus in Kentucky's community college system.

"It gives you a feeling that you've really played a part in the growth of the area," he said.●

THE SILVER MEDALLION

● Mr. BRYAN. Mr. President, I rise today in honor of our dedicated members of the U.S. Armed Forces who so courageously served in the Persian Gulf conflict. In recognition of our troops' valiant efforts and the sacrifices they endured, I have urged my colleagues to join me in supporting S. 1774 and H.R. 1107 authorizing the creation of a silver medallion to be given to U.S. military personnel who served in combat zones in the Persian Gulf conflict. Since its introduction, this silver medallion legislation has received strong support and has been incorporated with other worthy commemorative measures into H.R. 3337. I am certainly pleased by the favorable reception and strong support the silver medal for Persian Gulf veterans and H.R. 3337 have received.

I must commend my friend Congressman LAROCCO of Idaho for his tireless efforts in support of this measure commemorating our troops. His leadership on the Subcommittee of the House Banking, Finance and Urban Affairs Committee has been instrumental in paving the way for this worthy piece of legislation.

The Silver Congressional Medal for Persian Gulf veterans authorizes the Secretary of the Treasury to design and strike a silver medal for eligible members of the Armed Forces, and authorizes the striking of a bronze replica medallion for sale to the public. The striking of the silver medallions will be at no cost to the taxpayers, as proceeds from the sales of the publicly sold bronze replicas would fund the minting of the silver congressional medallions for our troops.

Mr. President, earlier this year Congress authorized gold medals for Generals Powell and Schwarzkopf. Having recognized these two great generals, it is only fitting that we pay similar respects to the troops who served under them in the Persian Gulf. This legislation will authorize a silver medallion for the military men and women without whom the efforts of our generals could not have succeeded.

Operations Desert Shield and Desert Storm confirmed the U.S. military to be the best trained, best equipped, most fully capable Armed Forces in the world. The American men and women who performed in the Persian Gulf served their country well and made us proud. However, the sacrifices they endured were many and must not be forgotten. Indeed Mr. President, 141 Americans were killed in the gulf conflict, paying the ultimate sacrifice to their country, and another 357 were wounded in action. The long, exhausting hours in unfamiliar desert battle conditions, the trying period away from family and loved ones, and the ultimate sacrifice paid by our fallen and casualties deserve our acknowledgment.

Mr. President, the men and women of our Armed Forces are deserving of recognition and honor for their gallant efforts in the Persian Gulf conflict. The offering of a commemorative silver medallion is one small way of demonstrating our national gratitude for their courageous service.●

TRIBUTE TO MARY HELEN BYCK

• Mr. McCONNELL. Mr. President, I rise today in memory of a remarkable woman whose energy and ideas enriched the cultural, educational, and civic life in Kentucky's largest city for 6 decades. Mary Helen Byck died after a lengthy illness in July. However, throughout most of her lifetime her name was synonymous with community giving in Louisville, and her contributions will be remembered for decades to come.

Mary Helen Byck was chairman of the board of Byck's department stores, a family-owned business that began as a shoe store in 1902. Although she'll be missed by the business community, Mrs. Byck was best known for her civic contributions which covered an extraordinary range of interests.

Mrs. Byck was extremely dedicated to improving health care in the Louisville area. She sponsored a pediatric residency program at the University of Louisville School of Medicine, was a board member of the Louisville Medical Research Foundation for Physicians and Researchers, and served as vice president of the Regional Cancer Center Corp. Mrs. Byck worked relentlessly to improve cancer treatment. She was a member of the board of governors of the Brown Cancer Center; officials at the center plan to dedicate a new patient-education area in her honor.

Mrs. Byck also took an active role in furthering the cultural offerings of the Louisville area. She helped found the Louisville Philharmonic Orchestra in 1987, and was a major force behind the Greater Louisville Fund for the Arts. She was instrumental in developing Actors Theatre, and was a leader in the effort to create the Kentucky Center for the Arts in 1983.

Mrs. Byck devoted much of her time to civil rights issues. She was an original member of the Kentucky Human Rights Commission, and served on the Louisville-Jefferson County Urban Renewal Commission. She was also a major force behind the 1966 passage of the Kentucky civil rights law.

For more than a quarter of a century, Mary Helen Byck was a driving force in business, the arts, humanitarian causes, and health care in Jefferson County. Those of us who knew her also know that she always attempted to downplay her accomplishments. In a 1982 interview, Mrs. Byck said, "I don't want to be glorified * * * I've been very blessed in life to be able to do what I've done." With her passing, the Louisville community has lost not only a leader, but a dear friend. I ask that an article from the Louisville Courier-Journal be printed in the RECORD.

The article follows.

MARY HELEN BYCK: 1907–1991—Retail Clothier Whose Work Enriched City Dies at Age 84

(By Holly Holland and Helm)

Mary Helen Byck, the retail clothier whose energies and ideas enriched Louisville's cultural, educational and civic life through six decades, died at her home yesterday after a lengthy illness. She was 84.

Byck, who was diagnosed with inoperable lung cancer a year ago, slipped into a coma two days ago and died quietly at 2:40 p.m., said her daughter, Betty Goodman.

Goodman said her mother had had radiation treatment last summer and seemed to rebound. But after returning from a trip to California in March, Byck contracted bronchitis and "couldn't throw it off," Goodman said. She said her mother had been bedridden for about two months.

Goodman said Byck's other daughter, Lucy Shapero, and a granddaughter, Cathy Dreszer, were with her when she died at her home at 332 Penruth Ave. in the Crescent Hill neighborhood.

Byck was chairman of the board of Byck's, a family enterprise that was founded as a shoe store in 1902 and later operated women's apparel stores in Louisville and Lexington. The last three stores, which were in Louisville, closed Tuesday.

Goodman said the timing of the company's closing and her mother's death were coincidental.

"It just happened that way," Goodman said. "This has been a pretty emotional week."

Friends and colleagues expressed sadness at the passing of a woman whose name had become nearly synonymous with community giving.

"You don't ever replace someone like this," said Wilson Wyatt Sr., who led the effort with Byck to start the J. Graham Brown Cancer Center. "She was never one to simply advise others what they should do. It was always what we should do. * * *"

Buddy Thompson, chairman of Glenmore Distilleries Co. and chairman of the Brown Cancer Center's board, said it was ironic that cancer killed a woman who had done so much to improve cancer treatment for the entire community. Thompson said he wrote Byck last month informing her that the cancer center planned to dedicate a new patient-education area in her honor.

Byck's contributions to the community covered an extraordinary range of interests.

During World War II, when it was rare for a woman to be an executive, she served as president of Byck's while her husband, Dann Byck Sr., served his country. She was described then as "one of the best merchant people in this city." She became president of Byck's again when her husband died in 1960.

Byck enjoyed hunting, fishing and golfing, and she wore a red jacket to University of Louisville basketball games until ill health kept her home.

Byck grew up in downtown Louisville, the only daughter of Mr. and Mrs. Cyrus Adler. She and Dann Byck were married June 27, 1931, the day before her 24th birthday.

Her public commitments were both exciting and exacting for her three children. Goodman said it was sometimes difficult to grow up in her mother's shadow.

"As little kids it was just fascinating, meeting interesting people," Goodman said. "As we got older it was an effort to establish our own identify because people assumed that you did and felt everything that both parents did and felt. It was difficult establishing our own place."

Byck was a member and chairman of the U of L Board of Overseers and for five years sponsored a pediatric residency program at the U of L School of Medicine. She was a board member of the Louisville Medical Research Foundation for physicians and researchers. She was vice president of the Regional Cancer Center Corp. and a member of the board of governors of the Brown Cancer Center.

Byck was longtime chairman of the Louisville Gardens board of directors, and the Garden's arena was named in her honor.

Byck helped found the Louisville Philharmonic Orchestra in 1937. And she was a major force behind the Greater Louisville Fund for the Arts, and having Actors Theatre included. She was a leader in the effort to create the Kentucky Center for the Arts in 1983.

Byck also was an original member of the Kentucky Human Rights Commission, and she served on the Louisville-Jefferson County Urban Renewal Commission. She helped establish the Park DuValle Community Health Center, financed the first Planned Parenthood Center for black Louisvillians and was one of the Southwick Youth Club's largest financial backers.

"The civil rights movement she supported, the feminist movement she supported, all of the things associated with liberal causes," said Woodford Porter Sr., past chairman of the U of L board of trustees.

Byck's ran a newspaper ad supporting open housing, and Byck was instrumental in the passage of the 1966 Kentucky Civil Rights Law, which had failed two years earlier.

"Anyone that needed any help, why they'd call (Byck), especially in the minority community," said Katherine Peden, an industrial consultant and former state commerce commissioner who had been friends with Byck for about 30 years.

"She was always speaking out for young people to become more vocal in the political process," Jefferson County Judge-Executive Dave Armstrong said.

Louisville Mayor Jerry Abramson said, "There are very few things in this community that are good that she has not played a role into bringing into existence."

A 1928 graduate of Vassar College, Byck took a job in 1930 with the national convention of the League of Women Voters, beginning a productive stint in politics. She was Democratic national committeewoman from Kentucky in 1964, served on the Democratic State Central Executive Committee and worked for the party on the local level for many years.

In 1982 she helped lead the county schools' unsuccessful drive for a tax increase and later said, "When you fail in something you've worked hard on, stop, get your breath, review what has happened and start all over again. Get your strength up if you believe it's right."

Asked about her accomplishments in a 1982 interview, Byck said: "I don't want to be glorified. * * * I've been very blessed in life to be able to do what I've done. I'll get it all back."

Survivors in addition to her daughters include a son, Dann C. Byck Jr. of Los Angeles; nine grandchildren; and five great-grandchildren.

MARY HELEN BYCK * * *

Mary Helen Byck was, quite simply, one of Louisville's great citizens. For more than a half century she was a key force in business, the arts, humanitarian causes and health care in a city that sorely needed the kind of enlightened leadership she provided.

Though she had been in declining health for some time, there was a Dickensian aura about the timing of her passing, one day after the Byck's stores in Louisville closed. (See editorial, below.)

Her association with that business, over which she presided during World War II and again after the death of her husband, Dann C. Byck Sr., in 1960, was only one facet of a life that a friend once compared to a fine diamond. She was keenly interested in public affairs, especially Democratic Party politics. An original member of the Kentucky Commission on Human Rights, she was a firm supporter of open housing and equal rights for all.

She was instrumental in the building of the J. Graham Brown Cancer Center at the University of Louisville and the Park-DuValle Health Center. She and her husband—who was president of the Board of Aldermen from 1947 to 1953—were founders of the Louisville Orchestra in 1937, and she was among the key figures in the endowment campaign that led to the construction of the Kentucky Center for the Arts.

That was the public side of this remarkable woman. But there was a private side, too, that was able to make anyone she met feel at ease, who delighted in her children and grandchildren and who was never one to flaunt her success or power. It was the side that offered encouragement to cancer patients after her store became one of the first to carry breast prosthesis products, in an era when many only whispered about cancer.

And it was the side that could confide how important friends were to her: She once told a young acquaintance how moved she was by a note of condolence written upon the death of an old friend. You see, Mrs. Byck explained, at such times the family gets all the attention, but they do not grieve alone.

With Mary Helen Byck's death, many of us share the sentiment she expressed that day, for the community has lost not only a leader, but a dear friend.

* * * AND HER STORE

Byck's: a name so long respected in this city that it's hard to imagine that the stores that bore its name have closed.

It was a name associated with quality—sleek leather, fragrant perfumes, chic dresses, stylish shoes and Easter bonnets. Generations of Louisville children waited countless hours while their mothers tried on dresses or hats or shoes at Byck's. Children also were fitted for shoes there with the kind of attention appropriate for a business that had started as a shoe store.

More than a few of us can remember the last-minute shopping dash to pick up a Christmas or birthday present—knowing that Byck's would have the perfect thing. And the pink boxes with silver ribbon were always a sign that a gift of quality was inside.

Like the people who owned the store, there was a progressive quality aout Byck's. Although the downtown branch was the anchor, suburban branches, beginning with the one in St. Matthews, symbolized the change in shopping patterns in Lousiville beginning in the 1950s.

Keeping a family-owned business alive isn't easy. And as Steve Goodman, Mrs. Byck's son-in-law and the current president of the company, noted, these are very difficult times for retail stores. The ghosts along Fourth Avenue are too plentiful, names—like Stewart's, Selman's, Kaufman's, Sutcliffe's and Levy Bros.—that we used to take for granted are gone. And now, sadly, Byck's joins the list.•

LETTER FROM THE MAYOR OF KRAKOW TO VICE PRESIDENT DAN QUAYLE

• Mr. COATS. Mr. President, I urge my colleagues to take the time to read a letter, which I am submitting for the RECORD, from Tadeusz Piekarz, the mayor of Krakow, Poland, to Vice President DAN QUAYLE. As the mayor explains, the Bush administration, Vice President QUAYLE, and the United States Congress can all take pride in assisting Poland to deal with its very substantial environmental problems. With a small investment of funds, the United States is helping the citizens of Krakow to assess and deal with the ecological mess left behind after four decades of Communist mismanagement and neglect.

Mr. President, I ask that the letter from the mayor of Krakow to Vice President DAN QUAYLE be printed in the RECORD.

The letter follows:

> DEAR MR. VICE PRESIDENT, I would like you to accept our deepest thanks to the Congress of United States for undertaking the decision allocating funds to Krakow for environmental protection. I am doing the above full of gratitude for the funds granted and emboldened by our meeting in Krakow during the CSCE Conference in June. Could you kindly pass these words of thanks to the American people.
>
> The assistance executed thanks to the decision of the Congress, functioning under your guidance, creates a significant contribution to the environment of Krakow where—among other things—in 1794 Tadeusz Kosciuszko took an oath to the Polish nation, fighting for independence and democracy. Later he continued to serve both our countries. It is symbolic that it is here, close to the place commemorating his oath, where we are opening today one of the automatic air-monitoring stations which would enable us to measure the exact level of air pollution in Krakow.
>
> I would like to express my sincere hope that the American assistance will develop into a partnership becoming an example for the other nations of the Eastern and Central Europe.
>
> I remain sincerely yours,
>
> TADEUSZ PIEKARZ.•

NATIONAL HISTORIC PRESERVATION

• Mr. ROBB. Mr. President, this year marks the 25th anniversary of the National Historic Preservation Act, the law that defined the national preservation program. Congress passed, and President Johnson signed, this law in large part because of a report of the U.S. Conference of Mayors, called "With Heritage So Rich." This report is probably best remembered for its visionary call to save the fabric of everyday life, not just the occasional mansion. It is also known for setting out what a national preservation program would look like. Congress took the advice of this report and today's preservation program is remarkably similar to that recommended in "With Heritage So Rich."

I know a little about this book because my mother-in-law Lady Bird Johnson wrote the foreword. She talked about how she had learned the truth that the buildings which express our national heritage are not simply interesting. They give a sense of continuity and of heightened reality to our thinking about the whole meaning of the American past. She also urged that:

> We must preserve and we must preserve wisely. As the report emphasizes, in its best sense preservation does not mean merely the setting aside of thousands of buildings as museum pieces. It means retaining the culturally valuable structures as useful objects: a home in which human beings live, a building in the service of some commercial or community purpose. Such preservation insures structural integrity, relates the preserved object to the life of the people around it, and, not least, it makes preservation a source of positive financial gain rather than another expense.

The Commonwealth of Virginia is, of course, one of the Nation's most historic States, with resources from the historic mansions of the Founding Fathers to the small towns settled along railroad routes, to old farmsteads, to historic urban commercial centers and neighborhoods.

Virginia has one of the Nation's finest historic preservation programs; Bryan Mitchell, Virginia's State historic preservation officer, is now the president of the National Conference of State Historic Preservation Officers. The office carries out some of the most important mandates of the National Historic Preservation Act, namely documenting the State's significant historic structures and districts, working with governmental agencies to see that federally assisted projects do not unnecessarily harm these historic places, and certifying the quality of historic rehabilitation projects which use the Federal historic rehabilitation tax credit.

This is precisely the work plan set out in "With Heritage So Rich." Continuing to do more and better to preserve historic places is the mandate for the next 25 years.•

CANYON PROTECTION—A NATIONAL DISGRACE

• Mr McCAIN. Mr. President, in just a few hours Congress will adjourn. With great disappointment and frustration I inform my colleagues that apparently we will do so without passing needed legislation to protect the greatest natural wonder in the world—the Grand Canyon.

The Grand Canyon Protection Act, which I introduced at the beginning of the 102d Congress, continues to languish in committee where it is held hostage to competing agendas and institutional roadblocks.

It strikes me as somewhat ironic that practically every day around here, Senators take the floor of the Senate to orate on the importance of the environment. Great speeches are delivered about our natural heritage. Heads nod in righteous agreement. But when it comes right down to it, we can't even pass a bill—one which has been agreed to by the affected parties—to take care of our most spectacular natural resource.

It's no wonder the American people are so skeptical of Congress, and the ability of this institution to conduct our national affairs.

I first introduced the Grand Canyon Protection Act in the 101st Congress. I did so in response to a Department of the Interior report that Grand Canyon resources have been harmed by operations at Glen Canyon Dam.

As you can imagine, the question of how the dam is operated affects a number of interests, including downstream resources, water management and power generation. Measures calling for change in the status quo can provoke serious controversy. However, the need to protect the Grand Canyon demanded action.

Accordingly, in August 1990, I convened a meeting of the affected constituencies with the challenge of producing a consensus bill—one that would provide full protection for our park resources. Those meetings were fruitful and produced a consensus which was embodied in the Grand Canyon Protection Act.

Last year, after hearings in both the House and the Senate, the Energy Committee approved the bill and inserted it into an omnibus reclamation package. The Senate approved the measure in the waning hours of the 101st Congress. However, because of controversy over titles which had nothing to do with the Grand Canyon, the legislation was killed, and Congress adjourned before the bill could be enacted.

Disappointed but determined, I reintroduced the bill as soon as the 102d Congress convened. I was confident that it would be acted upon expeditiously considering the importance of the issue and the fact that the Senate had approved the measure just a short time before.

I thought surely the Senate would not hold up protection for the Grand Canyon. Certainly, the bill could not be held hostage again by linking it with other more controversial legislation.

Those expections, however, were dashed when it was announced that, once again, Grand Canyon protection would be tied to a large reclamation projects bill. I argued that the Grand Canyon bill was a park protection measure, not a water project, and it should be allowed to pass on its merits. I was told my worries were misplaced and assured the bill would be acted upon by the end of spring. Well, spring came and went. No action was taken.

Concerned about the delay, I visited the chairman of the Water and Power Subcommittee. Once again, I was assured—this time that the bill would pass before the August recess or shortly thereafter. The summer turned to fall. Still, no action was taken on the bill.

Finally on September 13, seeing that an entire year was slipping away without action, I offered the Grand Canyon Protection Act as an amendment to the Interior appropriations bill. I did not relish asking the Senate to legislate on a spending bill, but protecting the Grand Canyon was more important than rigid adherence to instutional procedures.

A lengthy debate ensued. Senators came to the floor and spoke out on the importance of Grand Canyon National Park and our need to protect its invaluable resources.

But I was told that adding the bill as an amendment was not the right way to go. The distinguished chairman of the Water and Power Subcommittee, for whom I have great respect and admiration, argued against the amendment because, he assured the Senate, the committee was poised for action. He indicated that I was impatient, unable "to wait a few weeks," and trying to end run the committee. The amendment was defeated on procedural grounds.

Mr. President, I was skeptical about these new assurances. I had good reason to be. The year was littered by timelines come and gone, with assurances and reassurances. But I hoped fervently that the committee would fulfill its commitment.

Mr. President, with sadnesss and regret I inform the Senate that the commitment has not been kept.

I point no fingers and I cast no blame on any individual Senator. I can understand the complications and competing agendas of the committee process. They can frustrate the best of intentions. But, good intentions are not enough. The American people should be outraged that another session of Congress has slipped away without action. They would expect that the interests of the Grand Canyon—one of the seven wonders of the world—would motivate and move Congress to act with dispatch and resolve. But, no, it's business as usual.

Mr. President, let no one be mistaken. This legislation is critical. The scientific data is clear. The operation of Glen Canyon Dam has adversely impacted natural, cultural and recreational resources within the Grand Canyon. Over half of the Colorado River beaches which existed prior to construction of the dam have vanished. Archeological sites have been destroyed. Native fish species and recreation have been adversely impacted—all within our Nation's premiere natural treasure.

The good news is that changes in dam operations, and perhaps other reasonable measures, can be implemented to halt this damage.

The Grand Canyon Protection Act would statutorily require those changes to be made and establish a permanent standard of Canyon protection in law.

That's why I submit that this legislation is urgently needed. That's why practically every conservation organization in the Nation believes that it's urgent.

I would like to reiterate, the Grand Canyon Protection Act is not draconian legislation. Glen Canyon Dam will continue to supply abundant and economical electrical power. It will continue to provide water critical to the region.

The bill will merely ensure that our constructive use of one resource will not become an abuse of another—particularly the Grand Canyon. It's worth repeating that the affected parties agree this is the right thing to do, including the conservation community, the Colorado River Basin water authorities, and regional public power officials.

The essence of what this issue is all about was best described by former Secretary of the Interior Stewart Udall when he wrote the following:

> Because the hand of man now controls the flow of water through the . . . Grand Canyon, Congress, acting for the American people, has a responsibility to ensure that our hand is guided firmly by the ethics of stewardship . . . We must conserve and protect those resources and values that caused Congress to designate the Grand Canyon as a national park and to make its special qualities available to the American people for all time.

Profound and compelling words, indeed.

This year we celebrate the 75th anniversary of the National Park Service. It's a travesty that the Senate has chosen to leave the protection of our flagship national park for another day.

I'm sure we will hear that the committee intends to bring the measure up early next year. We are left to ponder past experience and wonder whether next year will slip away as well under cover of good intentions and placating assurances. I cannot and will not allow that to happen. I want my colleagues to know that I will be on the floor the day we reconvene and every day thereafter if necessary to see that we meet our responsibility to pass the Grand Canyon Protection Act and end this national disgrace.●

CONGRATULATION TO THE 2D BATTALION, 222D FIELD ARTILLERY

● Mr. GARN. Mr. President, I rise today to offer my congratulations to the 2d Battalion, 222d Field Artillery, located in Cedar City, UT, for receiving the Walter T. Kerwin Readiness Award.

I am very proud of this fine group of men and women. This trophy is awarded each year to the most "combat ready" unit of the National Guard for the entire Nation. Not only has the 2d Battalion demonstrated outstanding capabilities for combat readiness, but this is the second time they have won the prestigious Kerwin Award, the last time being in 1984. It is a distinct honor for them and for the State of Utah.

The 2d Battalion from Cedar City has had a long and distinguished career. It began as an outgrowth of the Nauvoo Legion, organized on February 3, 1844, by Mormon pioneers in the State of Illinois. It has seen service in the Mexican War, the Civil War, World Wars I and II, and the Korean war for which it received a Presidential Unit Citation. The battalion has been honored with numerous other awards including the Milton A. Reckord Trophy in 1984, 1986, and 1990 for outstanding battalion unit size in the 6th Army area; and the Eisenhower Trophy Award, 1989, for the best company size unit in the State of Utah.

Today, the battalion is commanded by Lt. Col. Mark Fuellenbach. He and the battalion are a shining example of the National Guard at its best. I am very proud to have such a distinguished, capable and well-trained unit in the State of Utah.

I am sure my colleagues will join me in commending Lieutenant Colonel Fuellenbach, each member of the 2d Battalion of the 222d Field Artillery, and the individual families who support them, for their noteworthy and dedicated service to the United States of America.●

SUSPENSION OF WITHDRAWAL OF UNITED STATES TROOPS FROM KOREA

● Mr. BUMPERS. Mr. President, I rise today to speak about the recent announcement by Defense Secretary Cheney that we are suspending phase 2 of our plans to reduce United States troop levels in South Korea because of the growing concern over the developing North Korean nuclear threat. As the Members of this body know, I have been very outspoken over the last few years in my belief that the United States should reduce its troop deployment level in Korea and allow South Korea to shoulder a greater share of the responsibility of defending itself. South Korea has twice the population of North Korea, and a GNP that is over 10 times larger. They are fully capable of defending themselves, and our presence could be safely reduced to a lower, though still significant, level.

Last August, the Senate agreed to my amendment calling on the Department of Defense to consider further reductions in United States force levels in South Korea. I ask that the text of this amendment, No. 1061, be inserted in the RECORD at the conclusion of my remarks.

Despite this background, I am supporting Secretary Cheney's decision to delay, at least for a while, because the North Koreans are capable of anything, and their nuclear development program is worrisome. But we should be clear in our own minds why we are delaying this troop reduction, and not hesitate to resume it, indeed to accelerate it, once the reason for the suspension has gone away. And we should press harder to get the South Koreans to pay a greater share of the $2.5 billion cost to maintain the United States troop presence.

The rationale for suspending the troop withdrawals is solely to put pressure on the North Koreans, to serve as both a carrot and a stick, to encourage them to comply fully with the Nuclear Nonproliferation Treaty and agree to full International Atomic Energy Agency [IAEA] inspections of their nuclear facilities. When this is achieved, there will no longer be any credible reason to delay major drawdowns of United States force levels on the Korean peninsula.

It has been widely reported in the press that the United States is now removing its nuclear weapons from South Korea. If these reports are correct, I believe we are doing the right thing. By this action, we are taking away the flimsy excuse that the North Koreans have used for years as an excuse not to open their nuclear facilities to international inspection. For many years, it was North Korea who called for the Korean peninsula to be a nuclear free zone, and who denounced the United States for thwarting this goal.

Now we have wisely turned the tables on North Korea. South Korea is nuclear free, and it is North Korea that is threatening to nuclearize the Korean peninsula. And fortunately the rest of the world sees this hypocrisy, especially the Japanese, who hardly relish the thought of a nuclear North Korea. As one Japanese diplomat explained: "Remember, you Americans have nuclear weapons. We don't."

I congratulate President Bush, Secretary Cheney, and Secretary Baker for turning up the diplomatic and military heat on the Kim-Il-Sung regime to come clean on its nuclear activities. At the same time, I encourage them to keep this effort up. I note that the United States has met quietly with North Korean diplomatic representatives 17 times since late 1988 to discuss issues of mutual interest and according to reports in the press this morning, it seems to be paying off. I encourage President Bush to use these meetings and other means to underscore to the North Koreans that they will not achieve the security they seek if they keep with their current policies.

We have too recently seen in Iraq that it is possible for a country to be further along the road to acquiring a nuclear weapons capability than external evidence would suggest, and that older, out-of-date technologies can still be utilized by technologically less sophisticated countries to provide the means for developing a nuclear weapon. After all, technology that today is over 45 years old permitted the United States to develop atomic weapons. And I hope the Bush administration is hard at work making sure that the European and other companies that were helping Iraq develop its nuclear weapons are not now working for the North Koreans.

In this light, I am disturbed by a report in Germany's Der Speigel magazine that German companies are involved in North Korea's nuclear weapons program. I ask that a copy of "German Help for Korea's Bomb" from the November 4, 1991, issue of Der Spiegel be placed in the RECORD immediately following my remarks.

And it is distressing to read that China has thrown a monkey wrench into Secretary Baker's diplomatic initiative to have Asia's leading powers join together to pressure North Korea to abandon their attempts to develop nuclear weapons. Once again, the diplomatic benefits that the Bush administration promised in return for our treating the hardliners in Beijing with kid gloves despite the Tiananmen Square massacre have eluded us. China must recognize that it is in their own best interest to join with others to halt the threat of North Korean nuclear wepons.

I urge President Bush to take appropriate and forceful steps to deal with these serious concerns.

I want to emphasize that I believe that relations between the United States and the Republic of Korea are very good, and I am pleased about that. Our two countries are allies. We are also friends. We share many common economic, political, and security concerns. However, our policy toward Korea seems mired in the mists of the world of four decades past.

We have had about 43,000 troops in South Korea for a number of years, a figure that has actually grown from the 33,000 level of 10 years ago. Under the plan announced in early 1990, U.S. troop levels were supposed to reach 36,000 by the end of 1992. There had been hints in the Korean press that the second phase of reductions would reduce a further 6,000 troops, to 30,000, by the end of 1995. It is this reduction that has been delayed. Of course, if the North Koreans revise their nuclear policy and allow inspections, there need not be any delay at all.

Despite my support for the temporary delay in reducing our troop levels, let us remind ourselves that the arguments in favor of such reductions remain valid. Our current troop levels are higher than they were a decade ago. We are acting as if South Korea is a very weak country needing a large United States military presence to protect them from a more powerful neighbor. And that was true in the fifties and probably the sixties. But it certainly is not true today.

South Korea has twice as large a population as the North. Its economy is 10 times as large, and it is growing 3 to 4 times as fast as the north. It has grown to such a point that the amount by which South Korea's economy grows each year is equal to the entire size of the North Korean economy. Last year, South Korea's economy grew by about 9 percent, while the Wall Street Journal reports that North Korea's economy shrank by 4 percent. On a per capita basis, the fall was more than 5 percent. In addition, North Korean grain production fell 12 percent last year, according to the Korea Times, and is now 25 percent below the level needed to feed themselves.

Economic prospects for North Korea are bleak—the Soviet Union has been their major trading partner, and the collapse of the Soviet economy means the North Korean economy will probably shrink more, while the South Korean economy remains an economic powerhouse. And I salute them for their success. Of course, they should open their markets to more imports—their current trade barriers are serious. But they have done well.

Sadly, South Korea seems not to fully realize its economic strength. Keeping trade barriers up is one aspect of this. But another is how they address their security situation. South Korea rightly warns of North Korea's strengths, but they seem unwilling to do more to defend themselves. They spend a smaller share of their GNP on defense than we do, 4.2 percent versus 4.9 percent for us. They could do more, but they don't. We shouldn't be a party to them having it both ways. They can't warn how terrible the North Korean threat is, and then turn around and devote less of their economy to defense than we.

A graphic example of this is South Korea's decision in September to stop conscripting short-term soldiers and to shorten the military service term of regular service people by 2 to 5 months beginning in early 1993. I ask that the article "Military Service Term to be Cut by 2 to 5 Months" from the September 14, 1991, Korea Newsreview be placed in the RECORD at the conclusion of my remarks. It is estimated that cost savings is one of the reasons for this cut, as well as the desire to increase the size of the labor pool to satisfy the labor requirements of South Korea's booming economy.

The United States should maintain a presence in South Korea as long as the South Koreans want us, but it doesn't need to be as large as it is. And it should end at some point. General Menetrey, former head of Allied forces in South Korea, said in 1989 that he thought the mid-1990's would be about right if current trends continued. With the exception of the nuclear threat, which justifies the temporary delay, these trends have continued, and become even stronger.

By deciding to reduce our troop levels to 36,000 in South Korea, we have made some progress, but not nearly enough. Once we have resolved the North Korean nuclear problem, we should at a minimum put the Phase II reductions down to 30,000 personnel back into effect. My preference would be to go further, and reduce troop levels down to closer to 10,000 to 15,000 troops.

Mr. President, there is one area that doesn't have to wait for the resolution of the North Korean nuclear problem for us to act. And that is in the area of the level of host nation support that South Korea provides us. South Korea doesn't come close to matching the level of host nation support provided by Japan. Even with the increase to $430 million, which is about $10,000 per troop, South Korea lags far behind Japan, which supports our forces at over $50,000 per troop. And the cost of our presence is about $2.5 billion per year, far more than we receive. At a minimum, South Korea can do much better with its level of host nation support. If South Korea paid for the same fraction of troop costs as Japan does, this would add about $750 million to their level of support and would cut our deficit by a like amount.

If we can take on the extra financial burden of delaying troop reductions for South Korea, the least the South Koreans can do after reducing their armed force levels to save money is kick in more to support our troops.

Let's look at the geopolitical situation on the Korean peninsula. Almost everyone agrees that North Korea would need major assistance to invade the South. That means the Soviet Union or China. But the Soviets have greatly improved relations with the South Koreans. For the first time in decades, they have diplomatic relations. They are angling for economic aid from South Korea, which as we all know, they sorely need. The Soviets have supported South Korea's entry into the United Nations. In addition, there are press reports that the Soviets have cut off the transfer of offensive weapons to North Korea, "causing confusion in Pyongyang's military planning," according to the International Herald Tribune. So the Soviet Union, or what is left of it, is hardly a candidate for backing North Korean aggression.

China's relations with South Korea are better than ever, for economic and political reasons. In fact, the Korean media reports that the South Koreans are discussing normalizing relations with China. Neither the Soviet Union nor China is going to help North Korea invade the South. The only reason for worry is the North Korean nuclear weapons program. When that problem is resolved, we can safely reduce our troops. In fact, it would be unsafe for us to keep such a high level of troops there.

We pay a political price for keeping our troops in South Korea. Our troop presence creates social problems in the communities in South Korea where they are located. A while back there were street fights that led to U.S. troops facing off-limits restrictions for several months. There are other tensions as well, as exemplified by an editorial in a Seoul paper, which claimed that the United States presence provides the "means of dominating South Korea's political, economic, military, and cultural fields." Of course this isn't true, but our excessive presence there feeds such mistaken beliefs.

A poll taken in August in Korea found that 32 percent of South Koreans believe the United States should withdraw its forces whether or not Korea is reunified, up from 20 percent in 1989. And 34 percent said United States forces should only remain as long as the Koreas are divided. The poll also showed that the younger people, the future of Korea, are less supportive of the United States presence than their elders.

In conclusion, I encourage President Bush to do all he can to resolve the North Korean nuclear problem, and to get South Korea to do more in their own defense. Let me repeat, South Korea and the United States are good friends, and I hope we will remain that way. But I believe that South Korea needs to more fully recognize its growing role in the community of free nations, and part of that includes shouldering a greater share of the burden of their own defense.

The material follows:

The amendment is as follows:

At the appropriate place in the bill, insert the following:

SEC. . U.S. TROOPS IN KOREA.

A. Congress finds that:

(1) The Department of Defense plans to reduce the United States troop presence in the Republic of Korea to 36,500 personnel by the end of 1992.

(2) The Department has announced no specific plans for further personnel reductions below that level.

(3) The National Unification Board of South Korea estimates the GNP of North Korea to have been $21 billion in 1989, while the Bank of Korea estimates the economy of the Republic of Korea's economy to have been $210 billion in 1989, a factor of ten larger. At its current growth rate, as estimated by its Economic Planning Board, just the annual expansion of the economy of the Republic of Korea is nearly equivalent in size to the entire North Korea economy.

(4) The Republic of Korea faces a substantial military threat from North Korea that requires a vigorous response on both military and diplomatic levels.

(5) The Republic of Korea has decided to increase its level of host nation support, although such support still falls short of the actual cost involved, and short of the relative level provided by the government of Japan.

(6) While recognizing that the Republic of Korea has consistently increased its defense budget in real terms by an average of about 6 percent annually for the past five years, at 4.2 percent of GNP, the Republic of Korea devotes a smaller share of its economy to defense than does the United States, at 4.9 percent.

B. It is the sense of the Senate that:

(1) The Republic of Korea remains an important ally of the United States, with the two countries sharing important political, economic, and security interests.

(2) Commensurate with the security situation on the Korean peninsula and the size and vitality of the economy of the Republic of Korea:

(a) the Department of Defense should seriously consider future reductions of United States military personnel from the Republic of Korea beyond those now planned to be completed by the end of 1992.

(b) the Republic of Korea should undertake greater efforts to meet its security requirements, particularly in the area of force modernization.

(3) The Government of the Republic of Korea should increase the level of host nation support it provides to United States forces in the area so that its relative level more closely approximates that of Japan.

C. The President shall report to Congress, either separately or as part of another relevant report, on or before June 30, 1992, in both classified and unclassified form, on the overall security situation on the Korean peninsula, the implications of relevant political and economic developments in the area for the security situation there, and United States policy for the area. Issues covered in the report should include, but not be limited to, a qualitative and quantitative assessment of the military balance on the Korean peninsula, the material requirements of the Republic of Korea, United States military personnel requirements, the state of United States-ROK, China-ROK, and Soviet-ROK relations, and prospects for change within North Korea.

HELP FOR IRAN'S, NORTH KOREA'S NUCLEAR PROGRAMS

[Unattributed report: "German Help for Korea's Bomb"]

[Text] According to information from the Federal Intelligence Service (BND), German enterprises also are involved in the construction of nuclear weapons in North Korea. In a report to the Chancellor's Office dated 23 October (file number: 30-31c-0326-91), BND President Konrad Porzner writes that relevant hints from the U.S. Secret Service are to be taken seriously. However, only one suspicious company is known to the intelligence service in Pullach: The Berlin firm Leis Engineering GmbH supplied silicium alloyed steel—a material that is excellently suited for the construction of containers for radioactive materials—to North Korea.

The Director of the company, Guenther Leis, confirmed the delivery of so-called Nicroter sheet metal to Pyongyang. Reportedly, the sheet produced by the Duisburg VDM Nickel Technology Company (order volume: 100,000 German marks) had been sent to North Korea as parts for the repair and expansion of a fertilizer factory at the end of last year and the beginning of this year. The sheet metal business passed a customs examination in the middle of this year, it is stated.

Together with enterprises of the ex-GDR, North Korean companies also tried to dodge the barriers of the Coordinating Committee for Multilateral Export Controls of the Western industrial countries against the export of High-technology goods, Porzner further reported. North Korea denies IAEA [International Atomic Energy Agency] inspectors access to its nuclear facilities, which allegedly serve peaceful purposes. According to the findings of "friendly secret services," North Korea will have enough material for the construction of two to three nuclear bombs as early as "in the middle of the nineties,"the BND report continues. A reactor "in the Yongbyon area" clearly serves noncivilian purposes—the production of plutonium for making weapons. An indication is the complete absence of cables or lines to carry off the electricity produced.

The BND also presents new findings on the stage of the Iranian efforts to produce the bomb—which are denied by Tehran. In contrast to the general assessment, Iran has advanced as far on the road toward producing the nuclear bomb as Iraq had before the beginning of the Gulf war, a secret service man reported to the Chancellor's Office the week before last. The fact that Tehran really wants to become a nuclear power also became evident during a talk by Alfred Dregger, chairman of the Christian Democratic Union/Christian Social Union Group, with Iranian Foreign Minister 'Ali Akbar Velayati. In response to Dregger's inquiries about the nuclear program, Velayati stated that Iran has one nuclear power in the West (Israel) and two nuclear powers in the East (India and Pakistan). Thus, "everything was clear to us," one of Dregger's advisers said.

[From Korea Newsreview, Sept. 14, 1991]

MILITARY SERVICE TERM TO BE CUT BY 2 TO 5 MONTHS

The Defense Ministry will stop conscription of short-term soldiers, or bangwi-byong, and shorten the military service term of regular servicemen by two to five months beginning early 1993.

Defense Minister Lee Jong-koo said last week that the compulsory service for the Army soldiers and Marines will be reduced to 26 months from the current 30 months, sailors to 30 months from 32 months, and airmen from 35 months to 30 months.

The Armed Forces now have some 174,000 short-term soldiers, or 27 percent of the combat forces of the nation's 830,000 standing forces, which will be reduced to 700,000 when conscription of the short-term soldiers, who serve six to 18 months, is stopped, Lee said.

Lee said improvement of the military manpower system is intended to actively cope with the changing international security environment and to contribute to inter-Korea dialogue and arms reduction.

Minister Lee said the ministry could consider further reducing the size of standing forces and the term of military service once the tension between the South and North is eased.

Lee made the announcement of the new military manpower system shortly after President Rob Tae-woo approved it.

The new system will enhance balance of military duty among servicemen and save a considerable sum in the defense budget.

Maintaining the 174,000 short-term soldiers costs about 65.1 billion won annually. With that money, the military can draft 50,000 more regular servicemen to improve defense capability, said Minister Lee.

The changes will not weaken the military's war capability, he said.

Soldiers in the North Korean forces are compelled to serve seven or eight years, and in the South, military service is also compulsory.

Lee said the ministry will reduce draft of short-term soldiers on a gradual basis beginning July next year finishing Jan. 1, 1993. Those conscripted on that day and after will be subject to the new reduced military service terms.

Lee said the new system is also intended to meet the growing popular demand for a lighter military service burden for youths and improve the Armed Forces' defense capability toward a quality-oriented system.

Lee said that the short-term soldiers, who usually reside at home and work at military bases or ward offices, caused 62.5 percent of the trouble between servicemen and civilians and noted that there is a serious imbalance between urban and rural areas in resources for short-term-term soldiers.

The Military Manpower Administration began to draft short-term soldiers in April 1964. Most of them were engaged in auxiliary work for defense of local areas.

Short-term conscripts include youths with physical problems and only sons.•

NO HOLD ON PUBLIC TELECOMMUNICATIONS ACT—S. 1504

• Mr. SIMPSON. Mr. President, there is a bill on the Senate Calendar, S. 1504, which would authorize appropriations for the Public Broadcasting System. Yesterday my office began receiving a number of calls to pursue the rumor that I had personally placed a hold on this legislation. Frankly, until yesterday, I was not aware that this bill, which had been placed on the Calendar on November 19, was working its way up the stack. I wish to fully dispel that rumor—which at this time of the year, in this line of work can rise to epidemic proportions, that somehow I had placed any impediment to the passage of this legislation.

In these latter days, I did have a most interesting interchange with one of the intrepid reporters of National Public Radio—and apparently that may be the reason for the calls. But this is not so. I do not do business in that fashion. I have not in the past, nor I do not currently have any hold on this bill, nor do I intend to place one on this legislation.•

PASSAGE OF H.R. 543, A BILL TO ESTABLISH THE MANZANAR NATIONAL HISTORIC SITE

• Mr. CRANSTON. Mr. President, I rise in support of H.R. 543, a bill to establish the Manzanar National Historic Site in the State of California. This measure is a companion to S. 621, which I introduced earlier this year.

Mr. President, Manzanar was one of the 10 permanent Japanese-American relocation camps used during World War II. By designating Manzanar as a National Historic Site, we honor the memory of the Japanese-Americans who were deprived of their basic constitutional rights and provide a reminder of the grave injustice done to them. We also help ensure that this unfortunate period in our history is not forgotten and that we learn from it.

Located at the foot of the eastern slope of the Sierra Nevada Mountain range approximately 175 miles north of Los Angeles, the Manzanar War Relocation Center was occupied from the spring of 1942 to the end of 1945. The entire Manzanar Reservation covered some 6,000 acres, with a 500-acre living area and adjacent agricultural land, a reservoir, airport, cemetery, and sewage treatment plant. Although only the camp auditorium and a few other structures remain. National Park Service believes that Manzanar offers the best opportunity among the camps for interpretation of the World War II relocation program.

H.R. 543 designates a 500-acre Manzanar National Historic Site, encompassing the entire living area of the camp, the camp auditorium, and the cemetery. The entire 500 acres is owned by the city of Los Angeles. The city has expressed concerns about the impact of the designation on its water rights and on the city's lands and activities outside the boundaries of the historic site. The city obtains a significant amount of its water from the Owens Valley watershed which includes the Manzanar area. Therefore the bill includes language to protect the city's water rights.

Additionally, the bill includes language to ensure that the designation of the Manzanar National Historic Site does not create, expand or diminish any authority of the Secretary of the Interior over lands or activities of the city of Los Angeles outside the boundaries of the site. In other words, the Secretary's authority over lands and activities outside the boundaries of the site is not altered as a result of enactment of this bill. The bill is entirely neutral in this regard.

Mr. President, I urge passage of this important legislation.●

EDWARD LEE HOWARD

● Mr. MCCONNELL. Mr. President, I would like to take a brief moment to comment on an article that appeared in yesterday's Washington Times. Entitled "CIA Defector Now Unguarded," it details the apparent diminishing KGB interest in Edward Lee Howard, a former CIA employee wanted by the FBI on charges of selling United States secrets to the Soviets.

I cannot image the future Howard envisioned for himself in the Soviet Union when he defected in 1986. He gave up everything he had—including his wife and son—to settle what appears to be a personal score with the CIA. Surely he didn't think the loving embrace he received by the KGB would last forever. If he did, his vision of a guarded life must certainly be changing with each day.

I can only imagine Howard is currently of limited use to Soviet authorities, having had several years to reveal his knowledge of United States intelligence operations and procedures. In short, Mr. President, Edward Lee Howard is no longer an asset to that intelligence organization. In the months to come, I anticipate that Howard will feel more than the Moscow winter—he will realize a definite chill in his relationship with his Soviet protectors.

Mr. President, in closing let me just add that I intend to continue to follow developments in this case. In the near future, Mr. Howard might very well find his welcome in the Soviet Union has worn thin.

In order that my colleagues become more familiar with this case, I ask that a New York Times Magazine article by David Wise and a copy of the Washington Times article appear in the RECORD following my remarks.

The material follows:

CIA DEFECTOR NOW UNGUARDED

REPORTER FINDS HIM IN MOSCOW APARTMENT

(By Bill Gertz)

CIA defector Edward Lee Howard has lost the round-the-clock protection provided by the KGB in Moscow and worries that he could be turned over to U.S. authorities for prosecution, according to Bush administration intelligence officials.

A Western reporter recently approached Howard at his Moscow apartment and the defector tried to have the reporter thrown out, said officials who spoke on condition of anonymity.

However, no security guards were present or came to Howard's aid in trying to oust the journalist from the apartment building, the officials said.

The officials said the incident was a clear sign the Soviets have abandoned the blanket protection once afforded their prize CIA defector.

FBI spokesman Bill Carter declined to comment on whether Howard has lost his security protection. But he said the former CIA operative still is wanted on espionage charges.

In Moscow, Alexi Zakharov, a spokesman for the Soviet security police, said of Howard: "I don't know the man, but in our country everything is possible."

Asked if someone like Howard might leave the country someday, the spokesman said of the spy business; "In these days, ours leave, and yours come, so in general everything is possible."

Howard, a CIA operative from 1981 to 1983, slipped away from FBI surveillance agents watching his New Mexico home in September 1985. Several months later he was granted political asylum in Moscow.

Trained as a Moscow case officer, he is the first CIA officer ever to defect to the KGB, and U.S. officials have said his disclosures caused the deaths of several agents working secretly in Moscow.

The KGB, a central pillar of Soviet power, was disbanded following disclosures that its chairman, Vladimir Kryuchkov, and several top aides helped engineer the abortive coup last August.

In its place, several new organizations were set up. The internal security and counterintelligence police is called the Inter-republican Security Service. A separate foreign espionage branch was renamed the Central Security Service.

Howard told The Washington Post last year that he lived in a country house outside Moscow with two KGB guards who provided 24-hour protection against possible kidnapping by Western spy services.

At the time the defector said he regularly played chess with his guards.

David Wise, author of the 1988 book on Howard, "The Spy Who Got Away," said the defector also lives in an apartment provided by the KGB near the Arbat, a shopping area of Moscow.

It was at this second-floor apartment where the recent confrontation between Howard and a Western correspondent took place, the officials said.

"He worries a lot about being abducted," Mr. Wise said in an interview.

According to Mr. Wise, Howard told him during a series of interviews in Hungary several years ago that he feared the CIA would abduct him or poison food sent to him from abroad.

"I have to worry that the agency might try to kidnap me," Howard was quoted as saying in the Wise book, "It wouldn't take much, a hypodermic needle, throw me in the trunk of the car, and it's only two hours to the [Austrian] border."

Thomas DuHadway, the late chief of the FBI's intelligence division, said in September that the United States should press the Soviets to extradite Howard in exchange for U.S. economic assistance.

THE SPY WHO GOT AWAY

(By David Wise)

(Edward Lee Howard was a C.I.A. recruit bound for Moscow. Dismissed, he eluded the F.B.I., defected and left U.S. intelligence efforts compromised. Now it has been learned that another ex-C.I.A. agent was aware of the betrayal.)

In the silence just before twilight in the desert near Santa Fe, the sky changes colors, shading to pinks and reds, and the sunset casts an orange glow on the golden snakeweed, the prickly pear cactuses and the juniper trees. The Sangre de Cristo mountains turn purple, then swiftly black. Suddenly, the first stars appear and the night belongs to the coyotes, the chirping toads and the owls.

On just such a night a little more than a year ago, with the clouds racing past a quarter-moon, Edward Lee Howard, a 33-year-old former officer of the Central Intelligence Agency, slipped away from agents of the Federal Bureau of Investigation and vanished.

On Aug. 7 of this year, he surfaced in Moscow, granted political asylum by the Russians. According to intelligence officials, Howard betrayed the methods used by the C.I.A. to contact its spies—"assets" in intelligence jargon—in the Soviet Union, leading directly to the arrest of one such C.I.A. asset, Soviet defense researcher Adolf G. Tolkachev, whose execution was announced a week and a half ago by Tass, the Soviet news agency. Howard's information also may have led to the expulsion from Moscow of several American intelligence agents and the detention of other Soviet citizens who were working for the C.I.A.

Howard is the first known C.I.A. man to have defected to the Soviet Union in the 39-year history of the agency. His defection was, perhaps, the greatest embarrassment ever suffered by the C.I.A. But a second former C.I.A. man, whose identity and role have been a tightly guarded secret, is also a key figure in the case. The second man is William G. Bosch.

F.B.I. agents tracked Bosch down on South Padre Island, at the southernmost tip of Texas, near the Mexican border. For four days, they interrogated him, even as other agents maintained a 24-hour surveillance on Howard in Santa Fe, N.M. According to intelligence sources, Bosch finally told the F.B.I. that on a visit to the island, Howard confided to him that he had sold secrets to the K.G.B. in Europe and sought to enlist him in further espionage plans. The officials said Bosch also told the F.B.I. that the two men discussed taking a trip to the Soviet Embassy in Mexico.

But in a day of high drama, at the very moment that F.B.I. agents were questioning Bosch, Howard was planning his successful escape from his home in the New Mexico desert.

Edward Lee Howard has been charged with conspiring to violate the espionage laws by his visit to South Padre Island. Bosch, who, like Howard, left the C.I.A. under a cloud, has not been charged. But his statements provided the key evidence that enabled the Department of Justice to file a criminal complaint against Howard. Bosch, who lives in the Los Angeles area, has declined to comment.

Former Director of Central Intelligence Stansfield Turner has said that United States intelligence was "very badly hurt" by Howard, who had "very critical information about operations inside the Soviet Union."

Another intelligence official put it more bluntly: "He wiped out Moscow station."

To understand the Howard case, one must step through the looking glass into the murky world of counterintelligence, where nothing is quite what it seems and not every question has an answer.

One thing is clear, however. The Howard case vastly embarrassed the C.I.A. and the F.B.I. Behind the scenes, there has been a good deal of finger-pointing between the two agencies—each blaming the other.

The existence of a second man in the case is only one of many startling aspects that surround the affair. While many facets of the case remain unclear, an in-depth investigation, including dozens of interviews with Howard's family, friends, associates, neighbors and Government officials, among them a number of persons in the intelligence agencies, has revealed other surprising information, much of which has not previously been disclosed.

Edward Howard and his wife, Mary, were both employed by the C.I.A.'s Directorate of Operations, the agency's clandestine arm. They were trained by the agency to operate in Moscow as a husband-and-wife spy team.

Only one F.B.I. agent was watching the Howards' house on Sept. 21, 1985, as Mary Howard helped her husband escape by driving home with a dummy in the front seat, a dummy made of clothes shaped in a human form and topped with a wig stand for its head. In the darkness, the agent apparently mistook the dummy for Howard—a ruse that gave the ex-spy a 24-hour head start.

Mary Howard further aided her husband's escape by playing a tape recording of his voice over their telephone that fooled F.B.I. agents, who were wire-tapping the phone, into believing he was still at home.

Mary Howard was with her husband at a Austrian ski resort near the Swiss border on Sept. 20, 1984, during a trip when the F.B.I. believes he met with K.G.B. agents. But she insists he was only gone from their hotel room for a short time and maintains she never had any knowledge of his alleged spying for the Russians. For a year after her husband vanished, Mary Howard declined to talk to the press. She broke her silence and agreed to be interviewed for the first time by this reporter.

Both the C.I.A. and the F.B.I. were sharply criticized by the President's Foreign Intelligence Advisory Board for their handling of the Howard case, and both agencies have officially reprimanded a number of employees involved.

The Howard case did more than compromise on-going clandestine operations. To the C.I.A., it remains a skein that, if unraveled, could expose flaws in both the conduct of the agency's secret operations and its bureaucratic procedures. Inevitably, the defection of Edward Howard has raised larger concerns about C.I.A. security, recruitment and personnel policies, and about the overall United States counterintelligence effort.

This case also brings up a number of intriguing and unanswered questions which, presumably, officials of the C.I.A. and F.B.I. are asking themselves. Why did Edward Howard feel secure in going to William Bosch to tell him he was betraying his country? Why didn't Bosch come forward and inform the authorities when he was first approached by Howard? And does this case indicate the existence of larger cracks in the armor of American intelligence?

On the morning of Aug. 1, 1985, Vitaly Yurchenko, deputy chief of the K.G.B.'s First Department, which is responsible for operations in the United States and Canada, told colleagues at the Soviet Embassy in Rome that he was going to take a walk and visit the Vatican Museum. Yurchenko, then 49, had arrived in Rome a week earlier.

When he did not return by dinner time, embassy officials were frantic. Not until the next day did they file a missing persons report with the Italian police. But the K.G.B. resident in Rome must already have suspected the worst: Vitaly Yurchenko, a trusted "general-designate" in the K.G.B. with 25 years of service in the Soviet intelligence agency, had defected.

Yurchenko, a big catch for the C.I.A., was whisked to a safe house near Fredericksburg, Va., for questioning. Before he escaped his C.I.A. handlers and redefected to Moscow three months later, leaving a trail of recrimination and confusion within the intelligence community, he provided vital information. The first order of business when a defector is interrogated is to learn whether he knows of any penetrations of United States intelligence. Yurchenko said he knew of two. He provided details that led the F.B.I. to Ronald W. Pelton, a former employee of the National Security Agency, who was convicted of espionage in June 1986.

Yurchenko said the other mole had worked for the C.I.A. and was known to him only by the code name "Robert." Yurchenko had never met Robert and could provide no physical description. But he had two crucial clues to his identity: Robert had met with senior K.G.B. agents in Austria in the fall of 1984 and sold them C.I.A. secrets. Moreover, Robert had been prepared for posting to Moscow and was familiar with the complex techniques used by the C.I.A. for contacting its agents there, perhaps even their code names or identities.

The news horrified Yurchenko's C.I.A. interrogators. If true, it meant there had been a mole in their inner sanctum, the most sensitive part of the agency, the Soviet European division. There had already been disturbing intimations that something was wrong in Moscow; at least one major operation had been blown, and the C.I.A.'s Soviet contact, Adolf Tolkachev, arrested. If Robert had talked to the K.G.B., the C.I.A.'s entire Soviet network might be in danger.

It did not take C.I.A. officials long to zero in on the man who fit Yurchenko's profile. In the spring of 1983, he had been getting ready for assignment to the C.I.A.'s Moscow station, his first overseas post, when at the last moment some troubling polygraph results and a security investigation disclosed drug use and petty theft, C.I.A. officials have said. Instead of sending the officer to Moscow, the agency took the unusual step of firing him.

His name was Edward Lee Howard.

He had applied to the C.I.A. in 1980. At the time, he was 28, married and working as manager of the Chicago regional office of a firm called Ecology and Environment Inc. It occurred to Ed Howard that there might be something more challenging in life than looking for toxic waste dumps. "He just mentioned one day that he had applied for a job in the agency," Mary Howard said. "I think that's what he wanted to do for a long time."

Mary Cedarleaf Howard, a quiet, intelligent woman of 36, with brown hair and blue eyes, now lives in seclusion with her young son and her parents near St. Paul, Minn. In a series of conversations, Mary Howard said nothing critical abut Edward Howard, except to confirm that he had a drinking problem that was the cause of arguments between them. At the same time, she appeared to be loyal to her former employer, the C.I.A. She said she was still fond of her husband, although she has refused his request that she and their son join him in Moscow.

To the C.I.A., Howard had apparently looked like an ideal recruit, He had a graduate degree, work experience, and both he and his wife were accustomed to living overseas. Howard was fluent in Spanish and German, a smooth, well-spoken man who collected guns and knew how to use them. Although born in New Mexico, he had grown up in Europe, his father, Kenneth Howard, had been an Air Force electronics specialist who worked on guided missiles and had been stationed at bases in Germany, Texas and England.

"He played Little League and everything," Kenneth Howard said of his son. "He was in the Boy Scouts, up to Explorer." Ed Howard graduated from high school in Branden, England, then enrolled at the University of Texas, where he belonged to the karate club and graduated cum laude in 1972, the same year his father retired from the Air Force.

Ed Howard and Mary Cedarleaf met in the Peace Corps in 1973, both in their early 20's and fresh out of college. Mary had grown up in St. Paul, the daughter of an insurance executive and a physician. In the Peace Corps, "we started out in the same town in Colombia, called Bucaramanga," she said. They were married three years later, at a Lutheran church in St. Paul.

That same year, Ed Howard earned a master's degree in business administration from the American University in Washington, and joined the Agency for International Development. In February 1977, the Howards left for two years in Lima, Peru, where he worked on loan projects for A.I.D. Although the C.I.A. sometimes uses A.I.D. as diplomatic cover, there is no evidence to suggest that Howard was anything but a loan officer. After Peru, the Howards returned to the United States, and he landed the environmental job in Chicago.

In January 1981, the C.I.A. hired Edward Howard as a career trainee in the Directorate of Operations, also known as the D.D.O. (in reference to the Deputy Director for Operations) and as the Clandestine Services. Mary stayed at their home in Barrington, a Chicago suburb, while Ed reported to C.I.A. headquarters at Langley, Va. He was sent for several months to the Farm, a secret C.I.A. installation at Camp Peary, Va., near Williamsburg. There, Howard learned the "tradecraft" of intelligence, practicing the recruitment of agents and the use of "dead drops" to pass messages. He was given five aliases. He also learned from F.B.I. agents at the Farm how to detect and evade surveillance.

In the spring, Mary came east to join him. They purchased a house on Scotch Haven Drive in Country Creek, a development of single-family town houses in suburban Vienna, Va.

When Robert Magee, the C.I.A.'s director of personnel, later reviewed the Howard case, he discovered that there had been one blip on the security screen even at the start. Every candidate for the C.I.A. who passes the two initial screenings is given a polygraph test—"fluttered" in C.I.A. jargon. Patti Volz, a C.I.A. spokesman, said Howard's initial polygraph indicated "some drug use." But C.I.A. applicants who admit to using drugs are not automatically disqualified, if they agree to end the practice when hired. Patti Volz said nothing about Howard's alcohol problem. The agency was apparently unaware of it.

In Country Creek, the young couple kept to themselves. Howard told the neighbors that he worked for the State Department. He jogged regularly on the path behind his house and was seen walking his dog, a German shepherd that he had bought as a pup in Lima. Howard named the dog Whisky.

In the fall of 1981, Mary joined the C.I.A. as a regular, full-time employee and, like her husband, was assigned to the agency's clandestine arm. "I wasn't a case officer like Ed," she said. "I was more a secretary. I worked for the D.D.O." The C.I.A. is a closed society, and it is not unusual to find married couples working for the agency.

The agency's covert operators also tend to choose their friends among colleagues in the D.D.O. It was there that Howard met William G. Bosch, a 6-foot, 3-inch, blond, balding C.I.A. veteran who had served in the agency's administrative side, then switched to the D.D.O. shortly before Howard joined the C.I.A. They shared a common background. Howard had worked in Lima; Bill Bosch, who was three years older, had served the agency in Bolivia, and, like Howard, spoke Spanish. The two became good friends.

Howard's career was progressing well. He was chosen for a singular honor, service in the Soviet European division (S.E.), which covers the Soviet Union and Eastern Europe. "S.E. is the holiest of holies," one veteran case officer explained. "They're a closed, cliquish, incestuous bunch of people. Nobody looks over their shoulder. S.E. screens their own and thumbs their nose at anybody else."

By late 1982, Howard had been selected for the most prestigious duty in the D.D.O., assignment to the Moscow station for a two-year term. His cover: diplomat in the American Embassy.

Why did the C.I.A. choose to send to its most sensitive post a newcomer with no previous experience working as an intelligence officer overseas? William J. Casey, Director of Central Intelligence, and other C.I.A. officials have declined, for the most part, to comment publicly on the Howard case. But Casey has defended privately the decision to send a rookie to Moscow as a common agency practice.

The chief of the S.E. division, in a rare appearance before a secret session of the Senate Select Committee on Intelligence, gave the agency's standard explanation of what has emerged as a major question in the Howard case. In order to make it more difficult for the K.G.B. to identify C.I.A. officers assigned to the Moscow station, the S.E. chief said, the agency chooses junior officers who are not known. Howard, he added, was the first one who had gone bad.

Howard was given special training for his Moscow assignment. He received careful instruction in the arcane techniques of maintaining the delicate and difficult contact with the C.I.A.'s assets.

Mary Howard, too, received training from the C.I.A. to work with her husband in Moscow as a spy. "They like to give some training to wives, short courses," she said. Asked whether it might have included counter-surveillance—such as sitting in a car and acting as a lookout while her husband met with an agent—she replied: "It could have been something like that."

Early in 1983, Ed Howard told neighbors he was studying Russian; the State Department was sending him to the Soviet Union. The Howards bought a new car and prepared to ship it to Moscow.

To build his cover, the C.I.A. gave Howard a certificate identifying him as a Foreign Service officer and appointing him "a Consular Officer and a Secretary" in the diplomatic service. It was dated March 11, 1983, and signed by Ronald Reagan and George P. Shultz.

Eight days later, the Howards' son, Lee, was born. Spring was on the way, and the future looked bright.

Then the bottom fell out of Ed Howard's life.

A second lie-detector test suggested that some of Howard's answers were deceptive. The second polygraph "picked up drugs and petty theft," the C.I.A.'s Patti Volz said. (Howard's family insists that, although he drank, he did not use drugs.) An investigation was launched.

Two years later, when Howard fell under suspicion of spying for the Soviets, the C.I.A. ordered an internal report by its then-Deputy Inspector General Carroll Hauver. Those who have read the secret report say that Howard, when confronted after the polygraph test, admitted using drugs, stealing from vending machines and taking money from a woman's purse aboard an airliner.

The C.I.A. decided it could not send Howard to Moscow. In fact, it decided it did not want him in the agency at all. Howard was fired. By June 1983, he was out of a job. He was now walking around with detailed knowledge of the agency's most sensitive operations in Moscow in his head. He was also furious at the C.I.A.

To Curtis R. Porter, staff director of the finance committee of the New Mexico state legislature, the young professional who showed up in his office unannounced to answer an advertisement in The Albuquerque Journal seemed an ideal prospect. The Legislative Finance Committee was looking for an economic analyst, and Edward Howard has the right credentials. Moreover, he was a native of New Mexico. On his résumé, he had put down "U.S. Department of State January 1981-June 1983." He was hired.

By August, the Howards had sold their house in Virginia and bought a home in El Dorado, a development 12 miles out in the desert southeast of Santa Fe. With their new baby, they settled down to life in the Sun Belt.

Howard's job was to estimate state revenues. Late in October, he flew to Washington for an economics conference. Apparently still seething at the agency, he spent several hours near the Soviet Embassy, trying to decide whether to go inside and reveal classified information.

Meanwhile, Howard's drinking was getting worse. On Feb. 26, 1984, a Sunday night, he was involved in a shooting incident with three young men. According to the police report, Howard said he had met the men "at a bar and had followed them home as they had promised him a girlfriend for the night and a good time."

But Peter Hughes, then 24, said that he, a friend and their two female companions were never inside the bar, but were in their Jeep, backing out of a motel parking lot, when Howard stared at one of the women, then followed in his own Jeep.

Hughes and his friend, joined by a third man, were waiting as Howard walked into the courtyard of Hughes's apartment building. "Suddenly from his back, he pulls out this cannon," Hughes said. "I mean a silver chrome .44 Magnum. An awesome gun. He says to me, 'Get back in the Jeep.'"

To Hughes, Howard seemed to have been drinking; his speech was slurred. "I'm inside the Jeep and he's pointing the gun at me. His eyes get this blazing look and he starts walking toward me with the gun, pointing it at my head. I think, *He's about to pull the trigger. He's going to shoot.* The barrel of the gun is coming in the window. So I duck. I grabbed for the gun and it fired, putting a hole in the roof."

With Howard disarmed, the youths beat him up; one threw a rock, hitting him on the head. They forced him back to his own Jeep, kicking the door several times for good measure. Then they called the police, who found Howard, bloodied, a block away. He was placed under arrest for aggravated assault with a deadly weapon.

For Santa Fe District Attorney Eloy F. Martinez, the case was a problem. On the one side was Peter Hughes, whose family was well known in the city—his father, who had been a prisoner of war in Vietnam, had run, albeit unsuccessfully, for the Republican nomination for Governor a decade earlier. On the other side was Howard, who produced letters of support from powerful state legislators and officials in Washington. Martinez said that he briefly considered prosecuting Howard for attempted murder. But Howard hired Santa Fe attorney Morton S. Simon who, by working out a plea bargain, managed to keep the case almost entirely out of the papers. On April 25 Howard pleaded guilty to charges of aggravated assault before Judge Bruce E. Kaufman, who sentenced him to five years probation and ordered that he pay $7,500 to Hughes. Both Martinez and Kaufman denied published reports that the C.I.A. contacted them or tried to influence the case on Howard's behalf.

Howard had voluntarily entered a counseling program for state employees, where Neil Berman, a clinical social worker, treated him for alcoholism for the next year and a half. Psychologist Elliot J. Rapoport conducted a court-ordered psychological evaluation; his report found that Howard had been through a period of unusual stress and "problem drinking," but was "not otherwise criminally oriented." He recommended that Howard remain in the state counseling program.

On Sept. 18, the Howards left for a one-week trip to Europe. According to Vitaly Yurchenko, it was in the fall of 1984 that "Robert" met the K.G.B. in Austria and sold C.I.A. secrets. The F.B.I. established that the Howards were in St. Anton, Austria, on Sept. 29, 1984, although the bureau has not said whether it believes that was the date Howard met with the K.G.B.

Mary Howard said they first visited friends in Switzerland. "We visited Zurich and Lucerne and then decided to go to Austria and then Milan." But she insisted that they chose St. Anton at random. "We were just driving around, and it was getting toward dusk and it looked like a pretty little town," she said. "I'm not aware of any goings-on in St. Anton."

"We had a disagreement," she said. "Our fights were usually over his drinking. He took off in the car. I could see him drive away from the window. He drove around in the car." Could Howard have met the Russians then? "He was only gone a short time," she replied, "perhaps 10 or 15 minutes." She added that they did not stay overnight anywhere else in Austria.

The Howards were back in the United States on Sept. 24, for on that date, Howard met with two current C.I.A. employees—perhaps at C.IA. headquarters—and told them how he had lingered outside the Soviet Embassy almost a year earlier, in October 1983, but did not enter.

Now Howard, a former C.I.A. officer with knowledge of top-secret data, had admitted that he had contemplated betraying his country. The C.I.A. insists that the two employees reported Howard's story to the proper agency officials. But for almost a year, those officials sat on that explosive information and failed to pass it on to the F.B.I. The C.I.A. will not say whether disciplinary action was taken against the officials.

Howard may have confessed the embassy incident as part of a plea to the C.I.A. to pay for psychiatric treatment. Howard did see a private psychiatrist in Santa Fe for a period of time and the C.I.A. paid for his visits.

Howard was still acting like a man under a great deal of stress. On a business trip to Boston the next month, Curtis Porter of the finance committee found Howard in his hotel room with a bandaged head; he claimed he had walked into a glass door and been given pain killers at the hospital. Later, Howard abruptly left a banquet and Porter found him packing and on the phone trying to make plane reservations to Austria. Recalled Porter: "He said, 'Sorry, I got crazy with the pain killers and booze. Don't worry, Mary knows every time I get drunk I try to go to Vienna.'" But Howard did not go; he realized he had no passport with him.

Kate and Bob Gallegos worked in Howard's office and lived in El Dorado; the two couples were friends. Bob Gallegos said that Howard once showed him a stack of Krugerrands worth perhaps $2,400. Gallegos also claimed that Howard "was having several affairs" with women in the office. Other friends say they were unaware of Howard's alleged womanizing, although one said he knew of a single "sporadic" affair.

In the spring of 1985, friends say, the Howards visited Europe again. Dennis Hazlett, a co-worker, said Howard came back with a Rolex watch and intimated he had been to Vienna.

On June 14, 1985, Tass, the Soviet news agency, announced that Paul M. Stombaugh, a "second secretary" at the United States Embassy in Moscow, was being expelled as a spy. Three months later the Russians disclosed that they had also arrested Tolkachev, the Soviet researcher, as he attempted to pass secret documents to Stombaugh.

American intelligence officials later confirmed that Tolkachev was an expert on "stealth" technology to conceal aircraft and missiles from radar, and had been one of the C.I.A.'s most valuable assets in Moscow. They also claimed that Tolkachev had been betrayed by Edward Lee Howard.

In July, Howard went to South Padre Island, to visit Bill Bosch. Bosch, too, had gotten into trouble with the C.I.A. after questions had been raised about alleged currency transactions in South America, according to intelligence officials. "He was dismissed by the C.I.A., or left before they could fire him," a senior intelligence source said.

It was on this visit, Bosch was later to tell the F.B.I., that Howard confessed his spying for the Russians and discussed plans for future contacts with Soviet officials. According to intelligence officials, the two ex-C.I.A. officers discussed taking a trip to the Soviet Embassy in Mexico City, a trip that Bosch said did not take place.

Bosch now lives in Laguna Beach, Calif., a resourt about one-and-a-half hours south of Los Angeles. Although an old and established town, Laguna Beach is also known as a home to young singles and transients—a place where people can come and go with relative ease and not attract attention.

Bosch rents a small, inexpensive room on the first floor of an old, two-story brown-shingle house that has been converted into apartments and is set back from the street, surrounded by trees, two blocks from the Pacific Ocean.

According to a neighbor, Bosch is "a nice guy, a quiet guy," who drives a Porsche and is "here at night sometimes, but not here often." Other neighbors in his building and adjacent houses said they did not know him. Attempts to contact Bosch in person proved unavailing; reached by telephone, he declined to be interviewed. "I have no comment," he said, "either on or off the record."

On July 27, 1985, the Gallegoses went to the Howards' home for dinner. Howard and his son Lee modeled two fur hats, Bob Gallegos said. "They were in a box with Russian writing. He said he had asked a friend in the State Department to send them to him." Gallegos said he has an indelible memory of Howard standing inside the house "wearing gym shorts and a fur hat, smoking a cigar and drinking a St. Pauli Girl."

Five days later, Vitaly Yurchenko vanished in Rome. The C.I.A. called in the F.B.I.

The case could not have come at a worse time for James H. Geer. On Aug. 5, 1985, his first day as assistant director of the F.B.I. in charge of the intelligence division, the Howard case landed on his desk at bureau headquarters in Washington. It was Geer's job to catch foreign agents. Geer, then 45 and a 21-year veteran of the F.B.I., was confronted with a major and potentially explosive counterintelligence case.

Geer called in Phillip A. Parker, the division's deputy director for operations. Parker, 49, had worked on foreign counterintelligence cases for most of his 20 years in the F.B.I., and he had been the No. 2 man in the division for three years.

Parker notified William D. Branon, who had just taken over the F.B.I.'s Albuquerque office. F.B.I. agents from several other cities were brought in to assist him. Within a few days, a small army of F.B.I. agents was deployed in Albuquerque and in Santa Fe, 60 miles to the north.

The F.B.I. began watching Howard, but there were problems. The Howards lived at 108 Verano Loop, a circular road of widely spaced, mock-adobe houses, where strangers are quickly spotted. Ironically, Thomas (Bill) Gillesple, one of the four resident F.B.I. agents in Santa Fe, lived two houses away from the Howards, at 112 Verano Loop. It was a perfect location for surveillance. But Gillespie had just sold his house, and the new owners had moved in on Aug. 4, the day before the F.B.I. got the case. So the house was not available. The F.B.I. did not, in fact, use any house as an observation post. Whether it employed "special coverage"—agents posing as a street repair crew, telephone linemen or the like—is not known. What is known is that the Howard residence was placed under surveillance.

The legal problem was even more formidable. "We had no probable cause to arrest Howard," Geer explained. Yurchenko's evidence was not enough. "Yurchenko never saw him," Geer said. "He didn't know him by name. It was a circumstantial case. You have to have much more than one man's word. Yurchenko did not even have a physical description." Parker, now retired, was equally emphatic that the F.B.I. had no immediate basis for arresting Howard.

The F.B.I. needed more evidence. The bureau applied for and got a wiretap warrant from a special seven-member court established in 1978 by the Foreign Intelligence Surveillance Act.

By the beginning of September, wiretaps were in place on the Howards' home telephone. The results were disappointing. Howard said nothing incriminating.

By Thursday, Sept. 19, the F.B.I. had made the decision to confront Howard directly. Still lacking probable cause to arrest the ex-C.I.A. man, the bureau hoped that Howard himself might provide the necessary evidence. The decision to approach Howard was made by Parker. There was a risk, he knew, that Howard might run, although it seemed minimal, given the round-the-clock surveillance then in place. The interview technique had worked in the past, and was used to convict Ronald Pelton, the other man named by Yurchenko.

That morning, an F.B.I. agent telephoned Howard at his office and asked to interview him. Within the hour, Howard met with the agent at the Hilton Inn, but he refused to say anything of substance.

The F.B.I. now switched to what it calls a "nondiscreet" surveillance. The agents following Howard no longer tried to blend in with the crowd. On Friday, Sept. 20, Howard walked up to one of the now-obvious agents on the street and asked to see the agent who had tried to interview him the day before. Another brief meeting took place, and Howard sounded more cooperative. He told the agent that he wanted time to get a lawyer and would meet with the F.B.I. the following week. Word was sent back to F.B.I. headquarters that Howard might be getting ready to talk.

That Friday morning, Phillip M. Baca was getting nervous. Baca, the new director of the Legislative Finance Committee, had been visited the day before by two F.B.I. agents, who asked for records on Howard. The 8:30 A.M. staff briefing of the committee, to prepare the lawmakers for a 9 A.M. public hearing, was about to begin and Ed Howard was uncharacteristically late. He finally arrived at the office at 8:25 A.M. "He did a beautiful briefing on the 18-month economic outlook," Baca said. "He had graphs. During the hearing, some questions came up on the price of oil. He answered them and was completely calm."

On the morning of Saturday, Sept. 21, Howard went into his office at the capitol. F.B.I. agents followed him. What they did not yet know was that he would write two letters in his office that day.

"We did a lot of talking that weekend," Mary Howard recalled. Howard had told her of the approach by the F.B.I. It was, she said, the first she knew he was in trouble. "It was like a nightmare," she said. "It's very traumatic still." But, she added, "I don't have any knowledge he spied."

At 3 P.M., Rosa Carlson got a telephone call from her neighbor, Mary Howard. As they had the same baby sitter that afternoon, would it be all right if the sitter walked over with Lee to the Carlsons and combined the job? Mrs. Carlson said that would be fine.

At 4 P.M., 16-year-old Gina Jackson arrived at the Howards'. Mary Howard did not stop to chat with her in her usual friendly manner. Instead, she led Gina and Lee directly out back to the patio.

"As I went through the house," Gina Jackson said, "I thought I heard two people talking. Out of the corner of my eye I saw a completely bald-headed person standing in the entranceway between the den and living room."

Later, Gina said, "the F.B.I. told me it wasn't two men talking, it was Ed Howard with a tape recorder and a dummy."

On the patio, Mary Howard seemed distracted. She did not provide the sitter with a phone number but told her the name of a Spanish restaurant in Santa Fe where they would be. In a few moments the sitter heard the car pull out of the garage.

What happened next is baffling, either a mix-up in communication, or human error. Only one F.B.I. surveillance agent was on duty, several hundred feet from the Howard house. Although it was about 4:30 P.M. and broad daylight, the Howards drove away in their dark red 1979 Oldsmobile undetected.

Ed and Mary Howard left El Dorado and swung onto Interstate Highway 25, heading northwest for Santa Fe. Other F.B.I. agents were spread out in cars a few miles away, awaiting word by radio to move out and follow the Howards. The signal never came.

Around 6 P.M. Gina Jackson walked a block to the Carlsons with Lee. She watched while Lee and the two young Carlson boys, Zac and Jonathan, played with water in the bathtub.

An hour later, around 7 P.M. the Howards drove from the restaurant where they had dined. In the darkness, somewhere in the downtown area, Ed Howard jumped from the slowly moving car into a "blind spot," as he had been trained to do at the Farm. It was the last time Mary saw him.

When Mary Howard arrived back home around 7:20 P.M. there was a dummy in the passenger seat in place of her husband. It was made of clothes shaped into a human form, topped with a faceless wig stand. Atop the wig stand was some sort of headgear. (Mary Howard said published reports that she had used an inflatable dummy were "not true.")

The surveillance agent on duty was surprised to see the Howards returning, since he had not seen them leave—surprised but relieved, since they were together. Ed Howard seemed to be wearing a hat, but in the dark, the F.B.I. man could not be sure.

The automatic garage door opened, and Mary Howard drove inside. She drove out a few minutes later, alone. She arrived at the Carlsons' house at 7:30 P.M. to pick up Lee, then drove back to their house and into the garage. The surveillance agent dutifully logged them in.

That night, Mary Howard carried out another ruse that her husband had planned with her. The ex-C.I.A. man had recorded his voice on the tape recorder. Following his instructions, Mary dialed a business office where the Howards knew she would reach an answering machine. At the beep, Mary held the tape recorder next to the telephone and pressed the "play" button. F.B.I. agents listening in "live" heard Howard confirm an upcoming appointment and were reassured; their target was still at home and staying in town.

Back in Washington that Saturday evening, F.B.I. agents in the intelligence division were excited; it appeared they might finally be getting the evidence they needed to seek a warrant for Howard's arrest.

The F.B.I. had tracked down William Bosch on South Padre Island. The bureau had discovered that Howard had been in touch with Bosch, located him with the help of long-distance toll-call records, and learned of his background from the C.I.A. F.B.I. agents had moved in and begun questioning him intensively in midweek. Gradually, Bosch's story was unfolding.

According to intelligence officials, Bosch said that Howard had made more than one trip to South Padre Island to see him; in July, Howard had come to the island and told Bosch he had sold C.I.A. data to the Russians, and the two men had had the discussion of Howard's plan to visit the Soviet Embassy in Mexico City.

There was no secure phone line on South Padre Island, so the electrifying reports of Bosch's interrogation had to be driven 300 miles to the F.B.I. office in San Antonio, then teletyped to the intelligence division on the fourth floor of F.B.I. headquarters.

James Geer said it was midnight in Washington, two hours later than in Santa Fe, before the F.B.I. decided it now had probable cause to seek a warrant for the arrest of Edward Howard. It could not be obtained at that hour, on a weekend, but there was no reason to worry. The lights had gone out at 108 Verano Loop. The surveillance was still in place in the desert, and the Howards were safely tucked away for the night.

Late on Sunday afternoon, Phil Baca went into the office unexpectedly. On his desk, he found an envelope, and, inside it, a letter of resignation from Ed Howard, along with the keys to the office and a smaller envelope addressed to Mary, which Baca did not open. He called the F.B.I. "I told them Ed Howard had resigned," Baca said. The F.B.I. was stunned.

Agents rang the doorbell at Howard's house and learned from Mary that Howard was gone. Mary Howard turned her husband's letter over to the F.B.I. One cryptic line in the letter, not previously known, said: "National security is like holding a royal flush in Santa Fe." The note also said, in part: "Well, I'm going and maybe I'll give them what they think I already gave them," and instructed Mary to "sell the house, Jeep, etc., and move with one of our parents and be happy." Howard also told Mary to tell Lee that "I think of him and you each day until I die."

By the time the F.B.I. realized that Howard had vanished, he had a 24-hour head start. Bureau officials believe he flew from Albuquerque, to New York, to Helsinki, and then crossed the border into the Soviet Union.

On Monday, Sept. 23, the F.B.I. finally got its arrest warrant from a United States magistrate in Albuquerque.

Howard called Mary once, the following month, but did not say where he was. In the spring, he sent her a letter, postmarked Vienna. On Aug. 7, 1986, Howard surfaced in Moscow.

Edward Howard has been charged with espionage. Intelligence officials say the damage he did to the C.I.A.'s Soviet operations was enormous. Some sources have suggested that the damage continued beyond Tolkachev, the C.I.A. agent executed by Moscow on March 14 of this year. Tass announced that Michael Sellers, Second Secretary of the United States Embassy in Moscow, was being expelled for espionage. On May 7, the Russians said, Erik Sites, listed as a civilian employee of the embassy's military attache office, strolled along Malaya Priogovskaya street to contact a Soviet C.I.A. asset when the K.G.B. closed in. Sites's wife, Ursula, was waiting nearby as a lookout, the Russians said. Sites, too, was expelled.

Certainly, the Howard case exposed major flaws inside the C.I.A. The agency hired a man who drank heavily and, according to the agency at least, used drugs. It ignored early warnings on his first polygraph test. It selected him for its most sensitive post, despite his lack of experience. Then, when it discovered he had serious character defects and problems, it fired him instead of easing him into another job where he might have posed less of a security risk. It paid for his psychiatric counseling after it was too late. Most astonishing of all, when Howard confessed to the agency that he had contemplated entering the Soviet Embassy in Washington to sell secrets, the C.I.A. sat on that information for almost a year before telling the F.B.I. Finally, after Howard was fired, the C.I.A. neglected to recover both his diplomatic passport and a false-name passport he had been issued by the Clandestine Services.

Within the intelligence community, some of the heat in the Howard case has been taken by Clair E. George, the C.I.A.'s Deputy Director for Operations, and certainly the affair suggests that the agency's clandestine arm performed sloppily. But the case also appears to illustrate loopholes in the agency's personnel and hiring policies and a lack of coordination between its medical and security offices. It suggests that, in order to avoid embarrassment, the agency attempted to suppress at any cost what eventually turned into a major spy scandal.

For its part, the F.B.I. was vastly embarrassed that Howard got away, a fact that F.B.I. director William H. Webster calls an "aberration." James Geer, the head of the F.B.I.'s intelligence division, while conceding a mistake "at our on-the-scene operations," sees "no institutional weakness," and cites the F.B.I.'s success in rounding up several other spies in the same year that Howard escaped.

Howard's motive remains unclear. He was angry at the C.I.A., but had no apparent ideological sympathy for the Soviet Union. Dennis Hazlett, his friend, said Howard seemed, if anything, conservative, patriotic," a little Reaganite in his views."

"I love my country," Howard said on Soviet television on Sept. 14 of this year. "I have never done anything that might harm my country."

If Howard was paid large amounts of money for his information, the F.B.I. has been unable to trace it. "We just don't know where the money is, if he got it," one senior F.B.I. man said. Mary Howard said: "I never saw unusual amounts of money," nor any Krugerrands. They lived on her husband's $33,012-a-year salary, she said.

"If he did anything," Kenneth Howard said, "it was through revenge or anger at what the agency did to him." Edward Howard's father has even wondered whether the C.I.A. "might be playing some strange games," whether perhaps his son was still working for the agency. Others have also wondered if Howard was allowed to escape and is a double agent. But F.B.I. officials scoff at that idea.

Edward Howard is a man caught between the superpowers. He faces a bleak future in an alien land, joining the dubious roll call of defectors who have refuge behind the Iron Curtain: Kim Philby, Guy Burgess, Donald Maclean, George Blake. None are ever fully trusted by the K.G.B. Or Howard can come home one day, if the Russians will let him, to face a possible sentence of life imprisonment.

The bottom line, however, is that he has escaped. The F.B.I. is bitter about that, although it takes a certain perverse pride in Howard's skill at countersurveillance, which he had learned at the Farm from the bureau's instructors. "After all," one F.B.I. agent said, "we trained him."●

MOST-FAVORED-NATION STATUS FOR ESTONIA, LATVIA, AND LITHUANIA

● Mr. BRADLEY. Mr. President, I rise today to mark the extension of most-favored-nation status to the Baltic States of Estonia, Latvia, and Lithuania. On July 31, 1991, I introduced legislation extending MFN status to Estonia, Latvia, and Lithuania. At the time, this was an important political demonstration of the independence of the Baltic States. Today, MFN is a tangible means for the three States to expand their economic ties to the United States and begin the process of restoring their economies to the status they enjoyed in the 1920's.

All three States are building institutions that will facilitate trade and economic activity, they are working with the international financial institutions to establish sound separate currencies, and are passing trade laws that establish the authority of the independent governments of Estonia, Latvia, and Lithuania over their customs territory. Most-favored-nation status is a necessary step in furthering the economic transformation that is underway.

The economic consequences of the Baltic MFN treaties stands in sharp contrast with the extension of most-favored-nation status to the Union of Soviet Socialist Republics. The most significant impact of that treaty, I pointed out last night, is to encourage the existence of a potemkin central government that exists only in the minds of a handful of economists and politicians in Moscow.

Let me also point out once again the irony of granting MFN to a Soviet Union that exists only as a legal construct. In July, the administration refused to assert the Baltic States' right to a separate MFN, even though there were existing, enforce MFN treaties between each of the Baltic States and the United States, and even though we never recognized the incorporation of the Baltic States into the Soviet Union. They said that the Baltic States could not have MFN because they did not control their borders and could not regulate trade within their customs territory. They were de jure states under American and international law, but not de facto ones, the administration told me, and we could not grant MFN to a de jure state. Now, only a few months later, we are being asked to approve a trade agreement with something called the Union of Soviet Socialist Republics. It seems to me that the argument the administration used to deny MFN to the Baltic States now applies to the Soviet Union. The U.S.S.R. is a de jure, not de facto, state. It cannot effectively determine its borders, or set trade and economic policy. It is not even clear what Soviet political institution will ratify the agreement.

It is clear, however, that for Estonia, Latvia, and Lithuania, most-favored-nation status is not only the definitive statement of the Baltic States' independence from the Soviet Union, but marks the return of the Baltic States to the community of free nations.●

TRIBUTE TO JAMES THOMAS RYAN

● Mr. LAUTENBERG. Mr. President, I rise today to recognize a distinguished individual from Maple Shade, NJ, James Thomas Ryan. On December 7, Chief Ryan will be honored by friends and family at the Knights of Columbus 11th Annual Humanitarian Award Banquet.

Mr. President, Chief Ryan was born and raised in Maple Shade, NJ. He graduated from Moorestown High School in 1951. As a high school student, he belonged to both the Civic and Monitor Clubs. He also excelled in athletics, and played varsity football and baseball. In his junior and senior year, he found time to manage the baseball team.

After graduating from high school, Chief Ryan trained to be a plumber while employed at E.C. Worrell Plumbing in Moorestown, NJ. During this time, he also played semipro baseball for the Mount Laurel team in the Rancocas Valley League. In 1952, he played semiprofessional football for the Mount Holly Moose in the Pop Warner League out of Philadelphia.

In 1953, Chief Ryan joined the Marine Corps. After attaining the rank of sergeant, he completed his military career when he was honorably discharged in 1956. He then returned home and worked in his father's heating and fuel oil business until 1962.

It was at this point of his life that Chief Ryan joined the Maple Shade Police Department, where he has served his community for 30 years. In 1970, he earned the rank of sergeant and 3 years later he was promoted to lieutenant. In 1975, he was made captain. On November 20, 1981, Jim Ryan was named chief of the Maple Shade Police Department.

While at the police department, Chief Ryan went on to pursue a higher education. He first attended Temple University from 1966 to 1967, then Trenton State College in 1970, and finally Camden County College from 1975 to 1976.

Mr. President, throughout his life, Chief Ryan has been committed to his community and country. Beyond his service with the Marine Corps and the Maple Shade Police Department, he has been active with the Maple Shade Jaycees, the South Jersey Police Chief's Association, the Rotary Club—he is a past president, the Maple Shade Advisory Board of Commerce, and the Salvation Army. Chief Ryan also is a member and a Sir Knight of the Maple Shade Knights of Columbus. In addition, he is dedicated to many youth organizations throughout Burlington County.

Mr. President, I am pleased to join Chief Jim Ryan's colleagues and friends as he is honored by the Burlington County Chapter of the Knights of Columbus for his humanitarian efforts. His many years of public service, and his lifelong commitment to his community, are an inspiration to all of us.

I extend my warmest regards to Chief Ryan and his family, and my best wishes for good health and happiness.●

SUPPORT OF FULL FUNDING FOR THE AMERICAN MEMORIAL PARK AND THE WAR IN THE PACIFIC PARK TO COMMEMORATE THE 50TH ANNIVERSARY OF THE MARIANAS CAMPAIGN

● Mr. AKAKA. Mr. President, December 7 marks the 50th anniversary of the Japanese attack on Pearl Harbor, an event which catapulted the United States onto the world stage and forever changed the shape of modern history. As is proper, numerous highly publicized events marking that date will take place throughout the Nation, most notably and appropriately in Hawaii. I am honored to be a member of the delegation, headed by my colleague from Hawaii, Senator INOUYE, which will represent the U.S. Senate at the Pearl Harbor ceremonies.

But in the publicity surrounding Pearl Harbor, we should not forget another important semicentenary that will occur less than 3 years hence, in the summer of 1994, when we mark the liberation of Guam and the capture of the Northern Marianas Islands, including Saipan and Tinian, from Japanese forces during the latter stages of World

War II. These dearly bought victories, in which thousands of soldiers and civilians on both sides gave their lives, are representative of the island-hopping campaign which characterized the unique, ferocious war in the Pacific theater, and which led to the eviction of enemy forces from strategic island groups in the Central and Southwest Pacific and, eventually, to the surrender of Japan.

With my colleagues' forbearance, I would ask consent that a precis of the Marianas operations written by Robert Goldich, of the Congressional Research Service, be inserted in the RECORD following my remarks.

Mr. President, as a reminder of the personal face of war, and in particular the courage and sacrifice exhibited by our forces who fought in the Marianas, it would be instructive to relate the heroic actions of Lt. Col. William J. O'Brien, of the 1st Battalion, 27th Infantry Division, one of two who were awarded the Congressional Medal of Honor for acts of gallantry above and beyond the call of duty in the taking of Saipan. The citation accompanying the award reads:

> When assault elements of his platoon were held up by intense enemy fire, Colonel O'Brien ordered three tanks to precede the assault companies in an attempt to knock out the strongpoint. Due to direct enemy fire the tanks turrets were closed, causing the tanks to lose direction and to fire into our own troops. Colonel O'Brien, with complete disregard for his own safety, dashed into full view of the enemy and ran to the leader's tank, and pounded on the tank with his pistol butt to attract two of the tank's crew and, mounting the tank fully exposed to enemy fire, Colonel O'Brien personally directed the assault until the enemy strongpoint had been liquidated. On June 28, 1944, while his platoon was attempting to take a bitterly defended high ridge in the vicinity of Donnay, Colonel O'Brien arranged to capture the ridge by the double envelopment movement of two large combat battalions. He personally took control of the maneuver. Colonel O'Brien crossed 1,200 yards of sniper-infested underbush alone to arrive at a point where one of his platoons was being held up by the enemy. Leaving some men to contain the enemy he personally led four men into a narrow ravine behind, and killed or drove off all the Japanese manning that strongpoint. In this action he captured five machine guns and one 77mm field piece. Colonel O'Brien then organized the two platoons for night defense and against repeated counterattacks directed them. Meanwhile he managed to hold ground. On 7 July 1944 his battalion and another battalion were attacked by an overwhelming enemy force estimated at between 3,000 and 5,000 Japanese. With bloody hand-to-hand fighting in progress everywhere, their forward positions were finally overrun by the sheer weight of the enemy numbers. With many casualties and ammunition running low, Colonel O'Brien refused to leave the front lines. Striding up and down the lines, he fired at the enemy with a pistol in each hand and his presence there bolstered the spirits of the men, encouraged them in their fight and sustained them in their heroic stand. Even after he was seriously wounded, Colonel O'Brien refused to be evacuated and after his pistol ammunition was exhausted, he manned a .50 caliber machine gun, mounted on a jeep, and continued firing. When last seen alive he was standing upright firing into the Japanese hordes that were then enveloping him. Some time later his body was found surrounded by enemy he had killed.

Mr. President, to commemorate the bravery exemplified in the highest degree by men such as Colonel O'Brien, Congress, in 1978, established the War in the Pacific Park, in Guam, and the American Memorial Park, in Saipan. Public Law 95-348 authorized a total of $19 million for park development; unfortunately, Mr. President, despite the significance of the Marianas campaign, and in spite of the rivers of blood spilled there by American servicemen, only $3 million has thus far been appropriated.

Mr. President, I have been informed of the state of these alleged national parks. Reports of rust corroding the tanks and cannon that are on public display; of weeds and grasses covering roads, walkways, and fences; of historic battlefields disappearing under dirt and vegetation; of graffiti scrawled on park signs and on the walls of the few existing park buildings. Mr. President, is this how we honor our war dead? Is this our tribute to those who fought for the freedom we now enjoy?

Mr. President, Guam's and Saipan's legitimate needs are often neglected by Washington because they lie thousands of miles from the west coast, in the middle of the Pacific Ocean, and because they either have limited representation in Congress, in the case of Guam, or no representation at all, in the case of the Northern Marianas Islands, a commonwealth under U.S. sovereignty. This is a natural, if unfair, state of affairs given the geographic and political realities under which these islands labor.

However, what is not natural, what is not to be excused, is that the parks to which I am referring are national parks, so designated by Congress, that ostensibly honor the memory of the approximately 5,700 U.S. troops killed or missing and the 21,900 wounded in the Marianas campaigns, men like Colonel O'Brien and our own distinguished colleague from Alabama, Senator HEFLIN, who participated in these operations. Their families and descendants, as well as the thousands of marines and soldiers who survived unscathed, for whom the words Saipan, Tinian, and Guam are synonymous with courage, duty, and sacrifice, live in every corner of our Nation. Each of us probably has many constituents whose lives were directly affected by the fight to free Guam and invade Saipan and Tinian. Thus, each of us has a duty to ensure that those who fought for freedom in our behalf are properly honored—albeit belatedly, but honored nonetheless.

Mr. President, from now through 1994, I intend to join several other colleagues in a concerted effort to secure such funding for the Guam and Saipan parks as is required to render them presentable for the 50th anniversary of the Marianas campaign. I urge all my colleagues who believe that what was worth fighting for in the Marianas in 1944 is now also worth honoring nearly 50 years later, who believe that the manner in which we treat those who fought and died in our behalf is a reflection of our own character, and who are convinced that the quality of our remembrance of things past, to paraphrase Proust, also determines our behavior as a nation in the future.

THE U.S. SEIZURE OF THE MARIANAS, JUNE–AUGUST 1944[1]

(By Robert L. Goldich, Specialist in National Defense, Foreign Affairs and National Defense Division, Congressional Research Service, the Library of Congress)

INTRODUCTION AND SUMMARY

Between June 15 and August 10, 1944, U.S. forces captured the Japanese islands of Saipan and Tinian, and liberated the U.S. territory of Guam—all together comprising some of the larger Mariana Islands—from the Japanese. U.S. casualties totalled approximately 5,700 killed and missing in action (KIA/MIA) and 21,900 wounded in action (WIA). The Japanese garrisons on all three islands were virtually annihilated, losing 54,000 dead and 2,900 prisoners. At the time of the ground operations, a major naval battle—the Battle of the Philippine Sea—was fought, which largely eliminated remaining Japanese naval airpower as well as sinking several major Japanese naval combatants.

The seizure of the Marianas severed Japanese lines of communication between Japan proper and those remaining Japanese bases and forces in the Central Pacific south of the Marianas and in the South Pacific as well. It provided, for the first time, island air bases from which U.S. land-based airpower could reach Japan itself. It provided large island areas on which advance bases could be constructed to support further operations against Japanese possessions and conquered territories such as Iwo Jima and Okinawa, the Philippines, Taiwan and the south China coast, and ultimately against Japanese home islands. Finally, the recapture of Guam liberated one of the few pieces of U.S. territory that was actually conquered by the enemy during World War II and restored U.S. government to over 20,000 native Guamanians.

BACKGROUND

The Marianas were Spanish possessions prior to the Spanish-American War of 1898. In the aftermath of that war, the victorious United States annexed Guam, and the other two islands were sold by Spain to Germany in 1899. Japan, which participated in World War I on the side of the Allies, captured Saipan and Tinian from Germany in 1914 and retained control of them after World War I ended.

Planning for the possibility of a U.S.-Japanese conflict became a major preoccupation of the U.S. Armed Forces as soon as the United States became a major territorial power in the Pacific in 1898, with the acquisition of the Philippines, Guam, American Samoa, and Hawaii. It had long been recognized that the Marianas occupied a critical strategic location in any contingent naval war between the United States and Japan, occupying as they do the center of a quadrilateral whose defining points are the Japanese home islands, the Philippines, Hawaii, and New Guinea.

---

[1] See Major Works Consulted, below, for basic sources used in preparing this report.

There was little doubt, therefore, after the swift Japanese advance into the South and Central Pacific in 1941–1942 that U.S. forces would have to seize the Marianas. The islands were a significant Japanese defensive bastion, and their central location, as well as their desirability as sites for U.S. bases, made it impossible to bypass them. The issue was when they could be attacked and taken. The Cairo-Teheran Conferences of late 1943, held between President Franklin D. Roosevelt, British Prime Minister Churchill, and Soviet leader Joseph Stalin, resulted in a planning schedule for invasion of the Marianas on October 1, 1944.

However, several U.S. Pacific victories enabled this schedule to be advanced by several months. Between November 1943 and February 1944 U.S. forces seized key Japanese bases in the Gilbert (Tarawa, Makin) and Marshall (Kwajalein, Roi-Namur, and Eniwetok) Islands, bringing U.S. bases to within slightly over 1,000 miles of the Marianas. It was also decided to bypass rather than attack major Japanese strongholds at Truk, in the Caroline Islands, south of the Marianas. Accordingly, in March 1944 the Joint Chiefs of Staff ordered that the Marianas attack begin on June 15, 1944. The invasion plans finalized in May 1944 called for Saipan to be assaulted on June 15; once Saipan was secure, Tinian, only three miles south of Saipan, would be seized. Tentatively, Guam would be invaded on June 18, 1944, only three days after the landings on Saipan.

SAIPAN

After the fall of the Marshall Islands in February 1944 the Japanese realized that the Marianas would almost certainly be the next American objective in the Central Pacific. Between February and May 1944 the weak Japanese garrisons on Saipan, Tinian, and Guam were heavily reinforced with combat troops. U.S. submarines prevented some, but not most, Japanese troops and equipment sent to the islands from reaching their destination.

To seize Saipan from an estimated 18,000 Japanese (31,000 were actually on the island), the U.S. had earmarked the 2nd and 4th Marine Divisions. The Army's 27th Infantry Division was in general reserve for all Marianas operations, but most planning assumed it would probably be employed on Saipan. The three divisions plus supporting units totalled 71,000 Marines and soldiers. The two Marine divisions would attack across beaches on the southwestern corner of the island. Once securely ashore, the 2nd Marine Division, on the left (north) would turn northwards and conquer northern Saipan, while the 4th Marine Division on the right (south) would seize the southern third of the island.

By June 15, 1944, 25,000 Japanese Army and 6,000 Navy troops were on Saipan. Those beaches deemed suitable by the Japanese for a U.S. amphibious landing were heavily fortified and mined, and guarded by powerful forces. At this stage of the war, Japanese defensive doctrine still stressed defeat of American landings on the beach, rather than fighting a costly delaying action against the Americans once they had landed (as would be the case later in the war in the Palau Islands, the Philippines, Iwo Jima, and Okinawa).

After two days of naval gunfire and aerial attacks on the Japanese fortifications and troop dispositions, the two Marine divisions made their amphibious landing on the Saipan beaches on the morning of June 15. Despite the preparatory bombardment, it soon became apparent that Japanese resistance was formidable. In fact, D-Day on Saipan involved some of the heaviest casualties sustained by any U.S. division, Army or Marine Corps, in a single day during the entire war. Japanese artillery, mortars, machine guns, and small arms, fired from well-fortified positions largely invisible to the Marines, took a heavy toll of the assault Marines. The 2nd Marine Division sustained about 1,600 casualties on June 15. This was almost as many as it lost on the first day at Tarawa, November 20, 1943, more than the 1st Marine Division lost on the first day at Peleliu on September 15, 1944, and comparable to the number of Marines killed or wounded in the 4th and 5th Marine Divisions on the first day at Iwo Jima, February 19, 1945. The 4th Marine Division lost "only" 900–1,000 men killed or wounded on the first day at Saipan. Nonetheless, the Marines were on the island to stay, and Japanese counterattacks the first night failed to dent their beachhead.

Between June 16 and June 21, the American forces seized the southern third of Saipan, except for a small pocket of Japanese resistance on the southeastern tip of the island at Nafutan Point. The two Marine divisions were then reoriented northwards, to attack and destroy the formidable Japanese positions in central Saipan. The Army's 27th Infantry Division was landed to reinforce the Marines, largely due to the heavy casualties suffered by the Marine divisions. In six days of battle, the 2nd Marine Division had sustained 2,500 casualties and the 4th Marine Division over 3,600.

Between June 22 and June 30, the three U.S. divisions slowly fought their way through heavily wooded, hilly areas which constituted the heart of Japanese resistance on Saipan. The 2nd Marine Division seized Mount Tapotchau, the commanding geographical feature on Saipan, in moving roughly 1½ miles in eight days; the 27th Division and the 4th Marine Division gained between two and five miles through terrain with accurate, unpleasant characterizations such as Death Valley and Purple Heart Ridge. In addition, on the night of 26–27 June, the Japanese pocketed at Nafutan Point broke out in a desperate *banzai* charge, attacking rear areas and artillery units and ultimately losing over 550 dead in a suicidal assault far behind the front lines of the main battle.

By June 30, the backbone of Japanese resistance in central Saipan had been broken. The Japanese withdrew to their final defensive lines in northern Saipan; patrols ranged several thousand yards to the front of the American lines but found only small groups of the enemy. However, the two Marine divisions had paid dearly for their successes. In two weeks of combat, the 2nd and 4th Marine Divisions had each sustained 4,500 casualties. Because 80–90% of all losses were incurred by the 6,400 Marines in each division's 27 rifle companies—the basic close-in infantry fighting units—these figures indicate that those rifle companies had lost almost two-thirds of their men since D-Day. Because no Marine infantry replacements had yet arrived, Marines from support units were channeled into the infantry to replace casualties. Although the Army's 27th Division had not participated in the costly D-Day landing, it had lost almost 1,900 men itself.

Between July 1 and July 7, the 2nd Marine Division was withdrawn from combat, because the U.S. command wanted it to begin preparing for the invasion of Tinian. The 4th Marine Division and the 27th Division continued attacking the Japanese, and pocketed those remaining in the northern tip of the island. The last days of the Saipan battle were marked by two horrific developments. First, early on the morning of July 7, thousands of Japanese launched a suicidal mass attack on two isolated battalions of the 27th Division. "The soldiers fought for their lives as tremendous masses of the enemy flooded into a 300-yard gap between the battalions, discovered by enemy patrols the night before."[2] Overrunning the two battalions, the Japanese charged south into American artillery positions; the Americans fired their guns pointblank into the Japanese until they ran out of ammunition and the numerical weight of the Japanese assault was too great. The artillerymen then disabled their guns and retreated south, where they reached blocking positions held by other Army troops and Marines. The *banzai* charge cost the two Army infantry battalions 400 dead and 500 wounded (probably well over 50% of their strength); over 4,300 Japanese corpses were counted.

Second, in the aftermath of the continuing advance of the Marines (the Army's 27th Division was withdrawn into reserve after the *banzai* charge), with virtually all of the island in American hands, the Japanese repeated their World War II propensity for suicide rather than surrender. Not only did the few remaining Japanese soldiers and sailors kill themselves with their weapons as often as they would fire on U.S. Marines, but the Marines witnessed terrible sights of suicidal Japanese civilians. At Marpi Point on the northwestern corner of the island, "Hundreds of Japanese civilians, fearful of the Americans, committed suicide by jumping from the seaside cliffs. Some took their children with them. Efforts to stop them fell upon ears deafened by Japanese propaganda. Fortunately, many civilians had previously surrendered amicably, entrusting their fate to Marine and Army civil affairs officers, and were grateful for the care and safety found in the internment camps."[3]

On July 9, after 25 days of battle, the U.S. command declared the island secured, although Japanese stragglers continued to be rounded up or killed until the end of the war—and for many years thereafter. U.S. casualties totaled 3,600 KIA and MIA and 13,100 WIA. About 2,000 Japanese prisoners were taken; the other 29,000 Japanese troops on the island were killed. Both U.S. and Japanese leaders tended to agree about the significance of the American victory. Marine Lt. Gen. Holland M. Smith, commander of the Saipan landing force, stated that the capture of Saipan was "the decisive battle of the Pacific offensive" and that its seizure "breached Japan's inner defense line, destroyed the main bastions, and opened the way to the home islands."[4] The verdict of Japanese Prime Minister Hideki Tojo, whose government was soon to fall—partly in response to the loss of the Marianas—was more succinct; "Hell is on us."

TINIAN

There was never any doubt that Tinian would have to be seized by U.S. forces. Only three miles south of Saipan, its continued possession by the Japanese would have left U.S. bases and facilities on the former island vulnerable to bombardment and raids. In addition, Tinian was relatively flat, and therefore the best suited of the Marianas for airfields from which U.S. long-range bombers could strike the Japanese home islands.

U.S. plans called for the 2nd and 4th Marine Divisions, after a two-week respite from the costly Saipan campaign, to launch an amphibious attack against Titian. In reserve, also similar to the Saipan order of battle, was the 27th Infantry Division.

The major problem confronting the U.S. command was where on Titian the assault Marines should land. The island has only three beaches "worthy of the name."[5] The largest and best-suited for amphibious operations is on the southwestern corner of the island, near Titian Town, the major "city" on the island. A much smaller beach lies directly across Tinian from the southwestern beaches, on the southeastern side of the island. On the far northwestern corner of Tinian are two small beaches, one 60 and the other 160 yards wide. After great deliberation and careful clandestine reconnaissance, the Marine and Navy amphibious planners decided to land on the northern beaches, on the assumption that the Japanese would not believe that U.S. forces could support a massive amphibious assault across such narrow beaches. In addition, the northern beaches were very close to southern Saipan, easing movements of supplies and troops between the two islands, and enabling Saipan-based U.S. artillery to support the initial U.S. assault. The decision to attack the northern beaches was a gamble, because determined Japanese opposition, combined with the narrowness of the beaches, could lead to disaster, with the Marines jammed into the beaches and unable to move beyond them under Japanese fire.

To maintain the element of tactical surprise, the Marines and other services were careful to do nothing which would lead the Japanese to believe that the attack would come across the northern beaches. Artillery and air support, air and ground reconnaissance, were directed at all areas of Tinian, not just the northern beaches. The U.S. decision was fully justified by events. The Japanese commander of the 8,900 Japanese troops on Tinian expected the Americans to come across the southwestern beaches, possibly the southeastern ones, and had constructed fortifications and disposed his troops accordingly.

U.S. artillery began firing on Tinian only five days after the initial landings on Saipan, on June 20. On July 12, it was agreed that D-Day for Tinian would be July 24. On July 23, heavy U.S. artillery bombardments and air strikes against targets all over the island began, and the assault components of the 4th Marine Division boarded landing craft for the short journey of a few miles from Saipan to Tinian.

D-Day at Tinian, July 24, was an immense contrast to the bloody D-Day on Saipan over five weeks earlier. Two regiments of the 4th Marine Division landed on the northern beaches and rapidly pushed inland against light resistance. Marine casualties totalled 15 dead and 225 wounded, less than a tenth of D-Day losses on Saipan. On the night of July 24–25, a hastily-mounted Japanese counterattack was utterly smashed; over 1,200 counted Japanese dead in front of the 4th Marine Division's positions constituting fully one-seventh of the entire Japanese force on the island. The American decision to land on the narrow northern beaches had been fully vindicated.

On July 25–26, the 2nd Marine Division was landed and joined the 4th Marine Division in a steady drive south. While Japanese resistance was fierce in some places and at some times, from the perspective of higher commanders the battle went much more smoothly than the conquest of Saipan. By July 31, remaining Japanese organized resistance had been compressed into a small, thin strip of land against the southeastern coast of Tinian. After two more days of combat, marked by occasional last-ditch *banzia* charges, but mercifully not be the mass suicide of Japanese civilians seen on Saipan, Tinian was declared secure on August 1, 1944.

"A statement like that, however, was a sort of partial truth on any Pacific territory captured from the Japanese. On Tinian, even more than elsewhere, the residue of the enemy force was troublesome. Some of the Japanese soldiers preferred self-destruction to surrender, but the proportion of soldiers and civilians that committed suicide was smaller than on Saipan. The Japanese soldier that chose to live was a die-hard type, able to hide out for months."[6] Thus, one regiment of the 2nd Marine Division that remained on the island to flush out Japanese stragglers lost about 40 killed and 125 wounded between August 1, 1944 and January 1, 1945, killing 500 Japanese after the official "securing" of the island.

Total U.S. casualties on Tinian totalled approximately 300 KIA and 1,600 WIA; although figures vary depending on the sources consulted, it appears that all of the 8,900 Japanese on the island were eventually killed except for slightly over 300 prisoners taken. The least costly of the three Marianas islands battles, Tinian arguably resulted in the greatest dividends for the further prosecution of the war, due to its suitability for airfield construction to support the strategic air offensive against Japan.

GUAM

It had originally been planned that U.S. forces would assault Guam on June 18, 1944, only three days after the initial landings on Saipan. However, several developments required the postponement of the Guam operation for over a month. First, by June 15 the prospects of an approaching naval battle with the Japanese—what became the American victory in the Battle of the Philippine Sea during June 19–20—forced U.S. naval commanders to redeploy their ships away from the Marianas to meet the approaching Japanese fleet. The Japanese naval threat had to be neutralized before the U.S. Navy could cover and support a major amphibious landing on Guam. Second, the ferocity of Japanese resistance on Saipan required the commitment of the entire 27th Infantry Division, in reserve for the entire Marianas operation. Another Army unit—the 77th Infantry Division, in Hawaii—would have to be committed to Guam. Finally, it was not clear until early July that the 77th Division, or parts of it, would not be needed on Saipan as well. All of these factors led to the postponement of the invasion of Guam until July 21, 1944.

In preparing for the liberation of Guam, American planners had to take several factors into account which did not apply to Saipan and Tinian. "Guam is the largest island north of the equator between Hawaii and the Philippines. With an area of 225 square miles, it is three times the size of Saipan and measures 30 miles long by 4 to 8½ miles wide."[7] Its size posed both problems and opportunities for maneuver, delay, and logistical support not found on the smaller islands.

As a U.S. possession, Guam was going to be liberated, not conquered by U.S. forces. There were about 24,000 native Guamanians on the island in 1944, and the U.S. command had to be prepared to provide for the restoration of services and adequate living standards to people who had remained almost uniformly loyal throughout almost three years of Japanese occupation:[8]

"Slightly over a hundred were of mixed American and Chamorro [native Guamanian] parentage and had been jailed as soon as the Japanese occupied the island. The rest of the population suffered some organized maltreatment and abuse in the early days of Japanese rule, but this appeared to have gradually tapered off. However, rigid food rationing, forced labor, confiscation of property without compensation, exclusion from business enterprises, and a score of lesser deprivations and humiliations kept the native population sullen and restive during the period of Japanese occupation. In June 1943 all able-bodied men between the ages of fourteen and sixty were forced to work for the occupation army, and women were ordered to replace the men in the fields. After the American air raid of 11 June [1944], large numbers of natives fled to the hills. Many were rounded up by Japanese military police and placed in camps. . . . The Guamanians were clearly poor raw material for collaborationism, and there is no evidence that the Japanese made any successful attempt to reconstruct them to that end."

As was the case with Saipan and Tinian, the Japanese did not begin preparing to defend Guam against American assault until February-March 1944, after the fall of the Marshall Islands. Japanese defensive preparations were not as extensive as those on Saipan—certainly not in proportion to the size of the island. By late July 1944, the Guam garrison totalled about 18,500 Japanese troops, compared to the 30,000 that had been on Saipan. Unfortunately for the Marines making the assault landings on Guam, however, the terrain of the island—the locations of suitable beaches, harbors, and airfields—limited American options. Furthermore, having invaded the island themselves in December 1941, the Japanese had studied Guam from the point of view of likely objectives for an amphibious assault. When the Marines came ashore, therefore, they would do so into the heart of Japanese defensive positions, fortifications, and troops on Guam.

All of the beaches to be attacked were on the western side of Guam. Those beaches north of the Orote Peninsula, which jutted out into the ocean in a western direction from the center of western Guam, would be the objectives of the 3rd Marine Division. The 1st Provisional Marine Brigade, composed of two Marine infantry regiments and supporting arms and services, and therefore consisting of the equivalent of ⅔ of a division (a Marine division having three infantry regiments at full strength), would attack the beaches south of the peninsula.

The D-Day air and naval bombardment of the Guam beaches was both heavier and more precise than that directed against the Saipan beaches, due to the disappointing results of the Saipan bombardment and the heavy losses the Marines sustained on Saipan D-Day. However, the Japanese on both the northern beaches (being attacked by the 3rd Marine Division) and the southern beaches (the 1st Marine Brigade) still had plenty of fight left in them when the first amphibious assault vehicles headed for the shore the morning of July 21, 1944.

[8] Philip A. Crowl. "Campaign in the Marianas. The War in the Pacific. United States Army in World War II." Washington, Office of the Chief of Military History, Department of the Army, 1960; 332.

Resistance was heaviest on the left flank and the center of the 3rd Marine Division's attack zone. Here the Marines had to attack up steep cliffs that rose just behind the beaches—cliffs that included many caves which proved impervious to the preassault air and naval bombardment. Nonetheless, by the end of D-Day the 3rd Marine Division was ashore all along the line at the cost of about 160 Marines KIA and MIA and 540 WIA. Supplies and supporting artillery were ashore, and the troops of the 3rd Marine Division began bracing themselves for the usual Japanese counterattack.

Resistance was less intense, but still substantiantial, on the southern beaches. Although the 1st marine Brigade was not facing the cliffs and caves of the 3rd Marine Division, numerous Japanese defenders made its task a difficult one. Japanese artillery and mortars inflict many casualties on the beaches, and the artillery fire continued as brigade troops moved inland. However, by early evening the two Marine regiments of the brigade were ashore at the cost of about 350 Marine casualties, and one of the three regiments of the Army's 77th Infantry Division, as well as both Marine and Army artillery, was ashore by the early morning of July 22.

Surprisingly, it was the southern beachhead that was hit by a full-scale Japanese counterattack on the night of July 21-22, not the more vulnerable positions of the 3rd Marine Division in the north. By dawn of July 22, the 1st Marine Brigade had killed over 600 Japanese at the cost of about 50 dead and 100 wounded of its own, and virtually annihilated an attacking Japanese regiment.

Between July 22 and July 24 the 1st Marine Brigade turned north, reinforced eventually by the entire 77th Infantry Division, and sealed off the Orote Peninsula, which separated the northern and southern beachheads. At the same time, the 3rd Marine Division gained very little ground due to extremely rough terrain and fierce Japanese resistance. By the close of July 24, the first four days of battle on Guam had cost the Marine brigade 220 KIA and MIA and 700 WIA. The 3rd Marine Division had lost over 400 KIA and MIA and almost 1,300 WIA.

By the evening of July 25, the 3rd Marine Division was in bad shape. It had sustained almost two thousand battle casualties since landing on Guam; "the division lines had been stretched more than 9,000 yards. The regiments and battalions had almost no reserves to call on, and even [the] division had only one depleted battalion in reserve. Should the enemy choose this time and place for an organized counterattack, the situation for the Marines could hardly have been worse. Unfortunately the Japanese did so choose."[9]

During the night of July 25-26, the equivalent of two-thirds of a Japanese division struck the lines of the 3rd Marine Division in a characteristic *banzai* charge. At the same time, a smaller Japanese counterattack was launched from the Orote Peninsula against the 1st Marine Brigade. Although the fighting was heavy, and seesawed back and forth in the 3rd Marine Division sector, by the morning of July 26 the Japanese attackers had been virtually annihilated. An estimated 3,500 Japanese were killed on Guam during the few hours of the counterattack. This Japanese failure "broke the back" of Japanese resistance on Guam, as the Japanese commander acknowledged in radio messages to Tokyo.

The rest of the battle for Guam consisted of two main actions. Between July 25 and July 30 the 1st Marine Brigade captured the Orote Peninsula from stubborn Japanese defenders who, cut off from their fellows on the rest of the island, nonetheless went down fighting, losing over 1,600 dead (compared to 150 Marine KIA and MIA and 720 WIA) in the process. Simultaneously, the 3rd Marine Division and the Army's 77th Infantry Division, committed as a full division for the first time, swung to their left and drove toward the northern end of Guam. Once 77th Division reconnaissance patrols had determined that there were no substantial Japanese forces in southern Guam, both American divisions attacked northwards. By August 10, 1944, the island had been secured, although stragglers continued to surrender—or be killed—until the end of the war, and some did not come out of the jungles until the 1960s and 1970s. U.S. casualties on Guam totalled 1,900 KIA/MIA and 7,100 wounded; although precise figures vary, it appears that with the exception of about 500 prisoners, the entire Japanese garrison of 18,500 was killed or died.

CONCLUDING OBSERVATIONS

The successful capture of Saipan and Tinian, and the liberation of Guam, represented the maturation of U.S. amphibious warfare doctrine and techniques. These operations marked the culmination of decades of careful thinking by U.S. Marine planners about how to wrest heavily-defended island targets from a determined Japanese foe. By the time Guam was secured, there was confidence that *any* Japanese-held island—including any of the Japanese home islands—could be attacked and taken by American forces, albeit frequently at very high cost in American casualties.

The seizure of the Marianas, therefore, did more than (1) breaching another set of Japanese defenses that stood between U.S. forces and the Japanese home islands and (2) providing air bases from which U.S. land-based bombers could strike at Japan proper. The Marianas operations ended with the U.S. Armed Forces confident about ultimate victory—confidence they would need for the even more costly, and more ferocious Central Pacific island battles yet to come—Peleliu in September-December 1944, Iwo Jima in February-March 1945, and Okinawa in April-June 1945. That confidence would have been put to the greatest test of all had the United States been required to invade and capture the southern Japanese home island of Kyushu on November 1, 1945, as planned in the summer of 1945, or even occupy the central island of Honshu, with an invasion tentatively planned for March 1, 1946.

Most believe that what made the invasion of Japan proper unnecessary was, in large part, the strategic air offensive against Japan staged from the Marianas. Massive airfield development on all the islands, but especially Tinian, provided the bases from which U.S. Army Air Forces B-29 bombers mounted huge air raids against Japanese cities and economic infrastructure, beginning in late 1944 but accelerating in February-March 1945. The catastrophic effects of this conventional bombing campaign, combined with the atomic bombings of Hiroshima and Nagasaki in August 1945 (also staged from Tinian), ultimately tipped the scales within the Japanese government in favor of surrender in mid-August.

NOTICE OF DETERMINATION BY THE SELECT COMMITTEE ON ETHICS UNDER RULE 35, PARAGRAPH 4, PERMITTING ACCEPTANCE OF A GIFT OF EDUCATIONAL TRAVEL FROM A FOREIGN ORGANIZATION

● Mr. SANFORD. Mr. President, it is required by paragraph 4 of rule 35 that I place in the CONGRESSIONAL RECORD notices of Senate employees who participate in programs, the principal objective of which is educational, sponsored by a foreign government or a foreign educational or charitable organization involving travel to a foreign country paid for by that foreign government or organization.

The select committee has received a request for a determination under rule 35 for Richard D. Finn, Jr., a member of the staff of Senator NUNN, to participate in a program in China sponsored by the Chinese People's Institute of Foreign Affairs in conjunction with the United States-Asia Institute on November 30 to December 15, 1991.

The committee has determined that participation by Mr. Finn in this program, at the expense of the Chinese People's Institute of Foreign Affairs in conjunction with the United States-Asia Institute, is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Laurie Schultz Heim, a member of the staff of Senator JEFFORDS, to participate in a program in China sponsored by the Chinese Cultural University on December 9-16, 1991.

The committee has determined that participation by Ms. Heim in this program, at the expense of the Chinese Cultural University, is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule

35 for Robert Tyrer, a member of the staff of Sentor COHEN, to participate in a program in Taiwan sponsored by the Soochow University on December 4–10, 1991.

The committee has determined that participation by Mr. Tyrer in this program, at the expense of the Soochow University, is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Wayne Abernathy, a member of the staff of Senator RIEGLE, to participate in a program in Austria sponsored by the Austrian Federal Economic Chamber on December 7–14, 1991.

The committee has determined that participation by Mr. Abernathy in this program, at the expense of the Austrian Federal Economic Chamber, is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Richard Kessler, a member of the staff of Senator PELL, to participate in a program in Korea sponsored by the Korean Ministry of Foreign Affairs on December 7–14, 1991.

The committee has determined that participation by Mr. Kessler in this program, at the expense of the Korean Ministry of Foreign Affairs, is in the interest of the Senate and the United States.•

ALBERT EINSTEIN CONGRESSIONAL FELLOWSHIP PROGRAM

Mr. CHAFEE. Mr. President, I send a resolution to the desk on behalf of Senator HATFIELD and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A resolution (S. Res. 239) reauthorizing the Albert Einstein Congressional Fellowship Program.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the resolution?

There being no objection, the Senate proceeded to consider the resolution.

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the resolution.

The resolution (S. 239) was agreed to as follows:

S. RES. 239

SECTION 1. SHORT TITLE.

This resolution may be referred to as the "Albert Einstein Senate Fellowship Program Resolution".

SECTION 2. REAUTHORIZATION.

The authority provided in Senate Resolution 173 of the One Hundred-second Congress (agreed to on August 2, 1991), as amended by Senate Resolution 208 of the One Hundred-second Congress (agreed to on October 25, 1991), and further amended by Senate Resolution 228 of the One Hundred-second Congress (agreed to on November 21, 1991), is hereby reauthorized in accord with the provisions of this resolution.

SECTION 3. FELLOWSHIP PROGRAM.

(a) IN GENERAL.—The President pro tempore of the Senate is authorized to enter into an agreement with the Triangle Coalition for Science and Technology Education (hereafter in this resolution referred to as "Coalition") to establish an Albert Einstein Senate Fellowship Program (hereafter in this resolution referred to as the "fellowship program"), which, beginning with the fiscal year 1991, provides for two fellowships in the Senate for each fiscal year.

(b) RESPONSIBILITIES.—The President pro tempore of the Senate may enter into the agreement described in subsection (a), and authorize the expenditure of funds pursuant to section 4(e), only if the Coalition—

(1) undertakes the application responsibilities referred to in section 4(a);

(2) participates in the evaluation referred to in section 5; and

(3) provides the funding for administration and evaluation costs referred to in section 6(b), and partial compensation referred to in section 4(e)(1)(A).

SECTION 4. SELECTION PROCESS.

(a) Application Responsibilities.—The Coalition shall—

(1) develop and administer an application process in accord with subsection (d);

(2) publicize the fellowship program; and

(3) conduct an initial screening of applicants for the fellowship program.

(b) SELECTION.—Each fiscal year the President pro tempore of the Senate, upon the recommendation of the Majority Leader, in consultation with the Minority Leader, shall select the two recipients of the Senate fellowships from among the applicants processed under subsection (a).

(c) PLACEMENT OF FELLOWSHIPS.—

(1) The president pro tempore of the Senate, upon the recommendation of the Majority Leader, in consultation with the Minority Leader, and the chairmen and ranking minority party members of the Committee on Labor and Human Resources and the Committee on Commerce, Science, and Transportation of the Senate, may place one fellowship recipient on the staff of the Committee on Labor and Human Resources, and may place one fellowship recipient on the staff of the Committee on Commerce, Science, and Transportation.

(2) Not withstanding paragraph (1), either or both fellowship recipients may instead be placed on the personal staff of a member of the Senate.

(d) ELIGIBLE RECIPIENTS.—Applicants screened under subsection (a) shall be from among a pool of nationally recognized outstanding secondary school science and mathematics teachers. The pool shall include teachers who have received Presidential Awards for Excellence in Science and Mathematics Teaching, as established by section 117(a) of the National Science Foundation Authorization Act of 1988 (42 U.S.C. 1881b), or other similar recognition of skills, experience, and ability as science or mathematics teachers.

(e) COMPENSATION.—

(1) Each recipient of a Senate fellowship shall be compensated—

(A) in party by the Coalition;

(B) in part from funds made available under section 6(a).

(2) The President pro tempore of the Senate shall fix the compensation of each recipient authorized in paragraph (1)(B) at not to exceed one-half of the funds authorized to be available for each respective fiscal year under section 6(a).

(f) LENGTH OF TERM.—Each fellowship recipient shall serve for a period of ten months.

SECTION 5. EVALUATION.

The Chairman of each committee or the member of the Senate in whose office a fellowship recipient is placed, and the Executive Director of the Coalition shall submit to the President pro tempore of the Senate an annual report evaluating the fellowship program, and shall make recommendations concerning the continuation of the program.

SECTION 6. FUNDING.

(a) FELLOWSHIPS—For fiscal years 1991, 1992, and 1993, the funds authorized to compensate Senate fellowship recipients under section 4(e) shall be paid from the contingent fund of the Senate, but not to exceed a total of $40,000 in fiscal year 1991 with such funds to remain available through September 30, 1992, $42,500 in fiscal year 1992, and $45,000 in fiscal year 1993 for the Senate fellowships.

(b) ADMINISTRATION AND EVALUATION.—The Coalition shall provide the funds necessary for the administration of the fellowship program, and for evaluations conducted pursuant to section 5.

SECTION 7. SUPERSEDING PREVIOUS AUTHORITY.

This resolution supersedes the resolutions referred to in Section 2.

SECTION 8. TERMINATION DATE.

The provisions of this resolution shall terminate September 30, 1993.

Mr. CHAFEE. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. FORD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDING THE PUBLIC HEALTH SERVICE ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 3635, a bill to amend the Public Health Service Act to revise and extend the program of block grants for preventive health and health services, received from the House.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 3635) to amend the Public Health Service Act to revise and extend the program of block grants for preventive health and health services, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 1456

(Purpose: To provide for a substitute amendment)

Mr. FORD. Mr. President, I send on behalf of Senator KENNEDY a substitute amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. KENNEDY, proposes an amendment numbered 1456.

Mr. FORD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment is printed in today's Record under "Amendments Submitted.")

• Mr. HARKIN. Mr. President, I rise in strong support of the Health Promotion and Disease Prevention Amendments of 1991. I want to commend the distinguished chairman of the Labor and Human Resources Committee for his continuing leadership in efforts to improve the health care available to Americans. I also want to thank him for his willingness to work with me to bring this major package of health promotion and disease prevention initiatives before the Senate. S. 1944 is among the most important pieces of health legislation the Senate will consider this session.

Mr. President, I believe that the most fundamental flaw in our health care system today is its preoccupation with patching and mending and its virtual neglect of prevention and health promotion. What we really have is not a health care system but a sick care system. Over half of the $700 billion we will spend this year on health care will go to treat conditions that are preventable. Yet, only a tiny fraction, estimated by some to be less than 1 percent, of our health care budget is spent on keeping people healthy and preventing the need for this expensive treatment. As a result of this flaw, the quality and length of the lives of many Americans are needlessly reduced and billions of dollars are needlessly wasted. We need to overhaul our sick care system into an American health care system of which we can all be proud. This takes us a step further toward completing that weighty task.

I am very pleased that a number of my ideas and components of my "Prevention First" initiative are contained in this bill. A major element is its reauthorization of the Preventive Health and Health Services block grant. This important program is the backbone of State and local public health efforts. It funds a full range of key disease prevention and health promotion services provided to Americans in every State and locality—from hypertension screening, to health education, to breast cancer screening to smoking cessation programs. S. 1944 would expand and strengthen this program, building upon my legislation of last year, the Health Objectives 2000 Act. This legislation, signed into law by the President, paved the way for implementation of the National Health Promotion and Disease Prevention Objectives.

This part of S. 1944 first provides increased capacity and resources to States and localities to assist them in achieving the Year 2000 National Health Objectives, addressing improvements in health status, risk reduction, public and professional awareness, health services and protective measures, and surveillance and evaluations. Second, it creates and develops and effective partnership of Federal, State, and local health agencies, voluntary health organizations, and other health groups, including minority community-based organizations, to develop initiatives for preventing disease and disability. Third, it enables States and localities to address national health policy issues. All of these provisions will greatly improve our public health system and the health of Americans. They are long overdue.

S. 1944 also incorporates S. 507, the Lead Poisoning Prevention Act, legislation I introduced on behalf of myself and a number of our colleagues. Inclusion of S. 507 attacks the No. 1 preventable disease among children—lead poisoning. Conservative estimates indicate that more than 3.5 million American children from all walks of life have dangerous levels of lead in their blood. And we know the devastating impact lead poisoning can have on our children. We know that even healthy appearing children with modest lead elevations often display poor academic performance, low IQ scores, impaired hearing, unsatisfactory speech and language development, and disruptive classroom behavior. A recent study found that lead poisoned children are seven times more likely to drop out of school before graduating from high school.

The costs of lead poisoning are staggering and the cost effectiveness of screening for it is clear. The annual cost of remedial education and health care needed as a result of childhood lead poisoning alone totals over $1 billion. Screening and early detection for lead poisoning saves by more that 50-fold the immediate cost of treatment. Yet, there is a sorrowful lack of awareness regarding the perils of lead poisoning, the benefits of screening and the resulting preventive and treatment measures that can be taken to combat this problem.

S. 507 attacks this problem by expanding support to States and localities to screen children, establishing a national education program to increase awareness among children, parents, teachers, and health professionals about lead poisoning, developing a more cost effective accurate test to screen for lead poisoning, and finally to make certain that the actions of different Federal agencies responding to the problem of lead poisoning are properly coordinated. These steps will save lives and money.

Mr. President, S. 1944 also incorporates the provisions of S. 505, another component of my "Prevention First" legislative package. This bill would change the name of our Nation's flagship Federal agency on prevention, the Centers for Disease Control [CDC], to the Centers for Disease Prevention and Control [CDC]. This change appropriately recognizes CDC's central role in our national efforts to prevent disease and disability and will give greater national visibility to these efforts. This simple change will also demonstrate our commitment to increasing the focus of our efforts in health care on prevention and elevate prevention to its appropriate high level within the structure of government health care programs. I want to commend CDC for their strong work and commitment to improving the public health. I want to especially commend Dr. Bill Roper who I think is doing a fine job heading up CDC. I am very pleased to have his support for making this change.

I have been placing top priority in my capacity as chairman of the Senate subcommittee that funds health, education, and social services programs on programs that prevent disease and disability. In the fiscal year 1992 funding bill which is now in the President's hands, we have provided significant increases in funding for prenatal care, chronic and environmental disease prevention, disability prevention, childhood immunizations, and many other critical preventive programs. At my urging, and particularly relevant to the bill before us today, the fiscal year 1992 funding bill contains a more than tripling of funds aimed at lead poisoning prevention and a 40-percent increase in the prevention block grant program.

So through these appropriations and through adoption of this authorizing legislation, we are making a downpayment on what needs to be done to turn our "sick" care system into an American "health" care system of which we can be proud.

Mr. President, I again commend you for bringing this legislation before us. I hope that we can move without hesitation to send it to the President for final approval.•

The PRESIDING OFFICER. If there be no further amendment to be proposed, the question is on agreeing to the amendment in the nature of a substitute.

The amendment (No. 1456) was agreed to.

The PRESIDING OFFICER. The question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed, and the bill to be read a third time.

The bill was read a third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

So the bill (H.R. 3635), as amended, was passed.

Mr. FORD. Mr. President, I ask unanimous consent that the Senate insist on its amendment, request a conference with the House on the disagreeing votes of the two Houses, and that the Chair be authorized to appoint conferees on the part of the Senate.

The PRESIDING OFFICER. Without objection, it is so ordered.

There being no objection, the Presiding Officer (Mr. CONRAD) appointed Mr. METZENBAUM, Mr. HARKIN, Mr. HATCH, and Mrs. KASSEBAUM to be conferees on the part of the Senate.

FLOWER GARDEN BANKS NATIONAL MARINE SANCTUARY

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 3866, a bill to provide for the designation of the Flower Garden Banks National Marine Sanctuary just received from the House.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 3866) to provide for the designation of the Flower Garden Banks National Marine Sanctuary.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. INOUYE. Mr. President, this measure would make fundamental changes in a longstanding law which deals with a very serious subject—gambling aboard U.S. passenger cruise vessels. Because it does, I would have preferred that the Senate Merchant Marine Subcommittee give H.R. 3282 the same extensive study and analysis which the House committee gave it.

Nevertheless, in a spirit of cooperation in the closing days of this session I will put aside my misgivings based on my understanding that the text of H.R. 3282 as included in the amendment to H.R. 3866 prohibits gambling aboard U.S.-flag and foreign-flag passenger cruise vessels during segments of their voyages among the Hawaiian Islands, even when those segments are on the high seas; and that gambling aboard vessels on voyages among the islands of Hawaii, such as currently undertaken by the SS *Independence* and the SS *Constitution*, continue to be prohibited.

Specifically, it is my understanding based on the House report to accompany H.R. 3282, that gambling on voyages between two points in a State would be prohibited if the State in which they are operating has a law prohibiting gambling activities on these voyages.

For example, the State of Hawaii has enacted a law—chapter 72 of the Hawaii Revised Statutes—prohibiting gambling activities on a vessel that embarks from any point within the State, and disembarks at the same or another point within the State, except on travel from the continental United States or a foreign country. Therefore, under H.R. 3282 gambling would be prohibited on any U.S.- or foreign-flag vessel that is on a voyage, or a segment of a voyage, that sails from a place in Hawaii to another place in Hawaii.

The types of segments of a voyage covered under these restrictions are those legs of a larger voyage during which the vessel leaves one point in a State and arrives either at the same point or another point in the same State, without an intervening stop in another State or a foreign country. This segment may include periods of time during which the vessel is operating in international waters.

Therefore, a vessel leaving either California or Mexico, for example, could have gambling activities on board until the vessel reaches Hawaiian waters. Then, the gambling facilities must be closed. The vessel would not be allowed to have gambling operations during the segments of the voyage during which it is sailing to other islands in Hawaii, even though segments of the interisland voyage are on the high seas.

May I ask the junior Senator from Louisiana if my understanding is correct?

Mr. BREAUX. The Senator from Hawaii is absolutely correct.

Mr. INOUYE. I thank the Senator from Louisiana, and with that understanding I shall not object to consideration of the provisions of H.R. 3282.

AMENDMENT NO. 1457

(Purpose: To make an amendment in the nature of a substitute)

Mr. FORD. Mr. President, I send a substitute amendment to the desk on behalf of Senator BREAUX.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. BREAUX, proposes an amendment numbered 1457.

Mr. FORD. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Strike all after the enacting clause and insert in lieu thereof the following:

TITLE I—NATIONAL MARINE SANCTUARY

FLOWER GARDEN BANKS NATIONAL MARINE SANCTUARY

SEC. 101. Notwithstanding section 304(b) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1434(b))—

(1) the Secretary of Commerce shall, on January 17, 1992 (or as soon thereafter as is practicable), publish under that Act in the Federal Register a notice of designation of the Flower Garden Banks National Marine Sanctuary, as described in the notice of designation submitted to the Congress on November 20, 1991: and

(2) that designation shall take effect on January 17, 1992.

TITLE II—MERCHANT MARINE PROVISIONS

NON-VESSEL-OPERATING COMMON CARRIERS

SEC. 201.(a) SHORT TITLE.—This section may be cited as the "Non-Vessel-Operating Common Carrier Act of 1991".

(b) PROHIBITED ACTS.—Section 10(b) of the Shipping Act of 1984 (46 U.S.C. App. 1709(b)) is amended—

(1) in paragraph (14), by inserting ", insurance, or other surety" after "bond"; and

(2) in paragraph (15), by inserting ", insurance, or other surety" after "bond".

(c) SURETY FOR NVOCC'S.—Section 23 of the Shipping Act of 1984 (46 U.S.C. App. 1721), is amended—

(1) in the section heading by striking "BONDING OF" and inserting in lieu thereof "SURETY FOR";

(2) by amending subsection (a) to read as follows:

"(a) SURETY.—Each non-vessel-operating common carrier shall furnish to the Commission a bond, proof of insurance, or such other surety, as the Commission may require, in a form and an amount determined by the Commission to be satisfactory to insure the financial responsibility of that carrier. Any bond submitted pursuant to this section shall be issued by a surety company found acceptable by the Secretary of the Treasury.";

(3) by striking subsection (b) and redesignating subsections (c) through (e) as subsections (b) through (d), respectively;

(4) in subsection (b), as so redesignated—

(A) by striking "BOND" in the subsection heading and inserting in lieu thereof "SURETY";

(B) by inserting ", insurance, or other surety" after "bond"; and

(C) by inserting "under this Act" after "transportation-related activities"; and

(5) in subsection (d), as so redesignated—

(A) by inserting ", insurance, or other surety" after "bond"; and

(B) by striking "subsection (d)" and inserting in lieu thereof "subsection (c)".

(d) INTERIM RULES AND REGULATIONS.—The Federal Maritime Commission may prescribe interim rules and regulations necessary to carry out the amendments made by this section.

(e) CONFORMING AMENDMENT.—The item relating to section 23 in the table of contents in the first section of the Shipping Act of 1984 is amended by striking "Bonding of" and inserting in lieu thereof "Surety for".

(f) EFFECTIVE DATE.—This section shall become effective 90 days after the date of its enactment.

CLARIFICATIONS OF, AND LIMITATIONS ON, GAMBLING DEVICES PROHIBITIONS

SEC. 202. (a) TRANSPORT TO A PLACE IN A STATE, ETC.—Section 2 of the Act of January 2, 1951 (15 U.S.C. 1172; commonly referred to as the "Johnson Act"), is amended—

(1) by inserting before the first paragraph the following: "(a) GENERAL RULE.—";

(2) in subsection (a) (as so designated) by striking ", District of Columbia,";

(3) by inserting before the second paragraph the following: "(b) AUTHORITY OF FEDERAL TRADE COMMISSION.—"; and

(4) by adding at the end the following:

"(c) EXCEPTION.—This section does not prohibit the transport of a gambling device to a place in a State or a possession of the United States on a vessel on a voyage, if—

"(1) use of the gambling device on a portion of that voyage is, by reason of subsection (b) of section 5, not a violation of that section; and

"(2) the gambling device remains on board that vessel while in that State.".

(b) REPAIR, OTHER TRANSPORT, ETC.—Section 5 of that Act (15 U.S.C. 1175) is amended—

(1) by inserting before "It shall be unlawful" the following: "(a) GENERAL RULE.—";

(2) by inserting before the period at the end the following: ", including on a vessel documented under chapter 121 of title 46, United States Code, or documented under the laws of a foreign country"' and

(3) by adding at the end the following:

"(b) EXCEPTION.—

"(1) IN GENERAL.—Except as provided in paragraph (2), this section does not prohibit—

"(A) the repair, transport, possession, or use of a gambling device on a vessel that is not within the boundaries of any State or possession of the United States; or

"(B) the transport or possession, on a voyage, of a gambling device on a vessel that is within the boundaries of any State or possession of the United States, if—

"(i) use of the gambling device on a portion of that voyage is, by reason of subparagraph (A), not a violation of this section; and

"(ii) the gambling device remains on board that vessel while the vessel is within the boundaries of the State possession.

"(2) APPLICATION TO CERTAIN VOYAGES.—

"(A) GENERAL RULE.—Paragraph (1)(A) does not apply to the repair or use of a gambling device on a vessel that is on a voyage or segment of a voyage described in subparagraph (B) of this paragraph if the State or possession of the United States in which the voyage or segment begins and ends has enacted a statute the terms of which prohibit that repair on use on that voyage or segment.

"(B) VOYAGE AND SEGMENT DESCRIBED.—A voyage or segment of a voyage referred to in subparagraph (A) is a voyage or segment, respectively—

"(i) that begins and ends in the same State or possession of the United States, and

"(ii) during which the vessel does not make an intervening stop within the boundaries of another State or possession of the United States or a foreign country.".

(c) BOUNDARIES DEFINED.—The first section of that Act (15 U.S.C. 1171) is amended by adding at the end the following:

"(f) The term 'boundaries' has the same meaning given that term in section 2 of the Submerged Lands Act.".

The PRESIDING OFFICER. Are there amendments to the substitute?

AMENDMENT NO. 1458

Mr. CHAFEE. Mr. President, I send to the desk an amendment to the substitute on behalf of Senator STEVENS.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Rhode Island [Mr. CHAFEE], for Mr. STEVENS, for himself and Mr. MURKOWSKI, proposes an amendment numbered 1458:

At the appropriate place, insert the following new title:

TITLE —IMPLEMENTATION OF MARITIME BOUNDARY AGREEMENT

AMENDMENTS TO MAGNUSON FISHERY CONSERVATION AND MANAGEMENT ACT

SEC. 1. (a) PURPOSES.—Section 2(b)(1) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801(b)(1)) is amended by inserting ", and fishery resources in the special areas" immediately before the semicolon at the end.

(b) DEFINITIONS.—Section 3 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1802) is amended—

(1) by redesignating paragraphs (24) through (32) as paragraphs (25) through (33), respectively; and

(2) by inserting immediately after paragraph (23) the following new paragraph:

"(24) The term 'special areas' means the areas referred to as eastern special areas in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, the term refers to those areas east of the United States-Soviet maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of the Soviet Union is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured.".

(c) UNITED STATES MANAGEMENT AUTHORITY.—(1) Section 101(a) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1811(a)) is amended by inserting "and special areas" immediately before the period at the end.

(2) Section 101(b) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1811(b)) is amended by inserting immediately after paragraph (2) the following new paragraph:

"(3) All fishery resources in the special areas.".

(d) FOREIGN FISHING.—Section 201 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1821) is amended—

(1) in subsection (a)—

(A) by inserting "within the special areas," immediately before "or for anadromous species"; and

(B) by striking "beyond the exclusive economic zone" and inserting in lieu thereof "beyond such zone or areas";

(2) in subsection (e)(1)(E)(IV), by inserting "or special areas" immediately after "exclusive economic zone";

(3) in subsection (i)—

(A) by inserting "or special areas" immediately before the period at the end of paragraph (1)(A);

(B) by inserting "or special areas" immediately after "exclusive economic zone" in paragraph (2)(A); and

(C) by inserting "or special areas" immediately after "exclusive economic zone" in paragraph (2)(B); and

(4) in subsection (j)—

(A) by inserting ", special areas," immediately after "exclusive economic zone"; and

(B) by inserting ", areas," immediately after "such zone".

(e) INTERNATIONAL FISHERY AGREEMENTS.—Section 202 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1822) is amended—

(1) in subsection (b)—

(A) by inserting "or special areas" immediately after "February 28, 1977)"; and

(B) by striking "such zone or area" and inserting in lieu thereof "such zone or areas";

(2) in subsection (c)—

(A) by inserting "or special areas" immediately after "February 28, 1977)"; and

(B) by striking "such zone or area" and inserting in lieu thereof "such zone or areas"; and

(3) by adding at the end the following new subsection:

"(g) FISHERY AGREEMENT WITH UNION OF SOVIET SOCIALIST REPUBLICS.—(1) The Secretary of State, in consultation with the Secretary, is authorized to negotiate and conclude a fishery agreement with the Union of Soviet Socialist Republics of a duration of no more than 3 years, pursuant to which—

"(A) the Union of Soviet Socialist Republics will give United States fishing vessels the opportunity to conduct traditional fisheries within waters claimed by the United States prior to the conclusion of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990, west of the maritime boundary, including the western special area described in Article 3(2) of the Agreement;

"(B) the United States will give fishing vessels of the Union of Soviet Socialist Republics the opportunity to conduct traditional fisheries within waters claimed by the Union of Soviet Socialist Republics prior to the conclusion of the Agreement referred to in subparagraph (A), east of the maritime boundary, including the eastern special areas described in Article 3(1) of the Agreement;

"(C) catch data shall be made available to the government of the country exercising fisheries jurisdiction over the waters in which the catch occurred; and

"(D) each country shall have the right to place observers on board vessels of the other country and to board and inspect such vessels.

"(2) Vessels operating under a fishery agreement negotiated and concluded pursuant to paragraph (1) shall be subject to regulations and permit requirements of the country in whose waters the fisheries are conducted only to the extent such regulations and permit requirements are specified in that agreement.

"(3) The Secretary of Commerce may promulgate such regulations, in accordance with section 553 of title 5, United States Code, as may be necessary to carry out the provisions of any fishery agreement negotiated and concluded pursuant to paragraph (1).".

(f) PERMITS FOR FOREIGN FISHING.—Section 204(a) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1824(a)) is amended—

(1) by inserting "within the special areas," immediately before "or for anadromous species"; and

(2) by inserting "or areas" immediately after "such zone".

(g) CONTENTS OF FISHERY MANAGEMENT PLANS.—Section 303(b)(1)(A) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1853(b)(1)(A)) is amended—

(1) by inserting "or special areas," immediately after "exclusive economic zone"; and

(2) by inserting "or areas" immediately after "such zone".

(h) PROHIBITED ACTS.—Section 307 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1857) is amended—

(1) in paragraph (1)(K), by inserting "or special areas" immediately after "exclusive economic zone";

(2) in paragraph (2)(B)—

(A) by inserting "within the special areas," immediately after "exclusive economic zone";

(B) by inserting "or areas" immediately after "such zone";

(3) in paragraph (3), by inserting "or special areas" immediately after "exclusive economic zone"; and

(4) in paragraph (4), by inserting "or special areas" immediately after "exclusive economic zone".

(i) ENFORCEMENT.—Section 311(b)(2) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1861(b)(2)) is amended by inserting "and special areas" immediately after "exclusive economic zone".

AMENDMENTS TO NORTHERN PACIFIC HALIBUT ACT OF 1982

SEC. 2. (a) DEFINITIONS.—(1) Section 2(c) of the Northern Pacific Halibut Act of 1982 (16 U.S.C. 773(c)) is amended to read as follows:

"(c) 'Exclusive economic zone' means the zone established by Proclamation Numbered 5030, dated March 10, 1983. For purposes of applying this Act, the inner boundary of that zone is a line coterminous with the seaward boundary of each of the coastal States.".

(2) Section 2 of the Northern Pacific Halibut Act of 1982 (16 U.S.C. 773) is amended by adding at the end the following new subsection:

"(h) 'Special areas' means the areas referred to as eastern special areas in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, the term refers to those areas east of the United States-Soviet maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of the Soviet Union is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured.".

(b) UNLAWFUL ACTS.—Section 7(b) of the Northern Pacific Halibut Act of 1982 (16 U.S.C. 773e(b)) is amended by striking "fishery conservation zone" and inserting in lieu thereof "exclusive economic zone and special areas".

AMENDMENTS TO FUR SEAL ACT OF 1966

SEC. 3. Section 101 of the Fur Seal Act of 1966 (16 U.S.C. 1151) is amended—

(1) by redesignating subsections (f) through (m) as subsections (g) through (n), respectively; and

(2) by inserting immediately after subsection (e) the following new subsection:

"(f) 'Jurisdiction of the United States' includes jurisdiction over the special areas defined in section 3(24) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1802(24).".

AMENDMENTS TO MARINE MAMMAL PROTECTION ACT OF 1972

SEC. 4. Section 3(14) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1362(14)) is amended to read as follows:

"(14) The term 'waters under the jurisdiction of the United States' means—

"(A) the territorial sea of the United States;

"(B) the waters included within a zone, contiguous to the territorial sea of the United States, of which the inner boundary is a line coterminous with the seaward boundary of each coastal State, and the outer boundary is a line drawn in such a manner that each point on it is 200 nautical miles from the baseline from which the territorial sea is measured; and

"(C) the areas referred to as eastern special areas in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, those areas east of the United States-Soviet Maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of the Soviet Union is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured.".

RELATIONSHIP TO ENDANGERED SPECIES ACT OF 1973

SEC. 5. The special areas defined in section 3(24) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1802(24)) shall be considered places that are subject to the jurisdiction of the United States for the purposes of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

AMENDMENTS TO PACIFIC SALMON TREATY ACT OF 1985

SEC. 6. (a) DEFINITIONS.—Section 2 of the Pacific Salmon Treaty Act of 1985 (16 U.S.C. 3631) is amended—

(1) by redesignating subsections (h) through (j) as subsections (i) through (k), respectively; and

(2) by inserting immediately after subsection (g) the following new subsection:

"(h) 'Special areas' means the areas referred to as eastern special areas in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, the term refers to those areas east of the United States-Soviet maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of the Soviet Union is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured.".

(b) RULEMAKING.—Section 7(a) of the Pacific Salmon Treaty Act of 1985 (16 U.S.C. 3636(a)) is amended by inserting "and special areas" immediately after "Exclusive Economic Zone".

NATIONAL SEA GRANT COLLEGE PROGRAM

SEC. 7. (a) DEFINITIONS.—Section 203(6) of the National Sea Grant College Program Act (33 U.S.C. 1122(6)) is amended—

(1) by striking "and" at the end of subparagraph (E);

(2) by redesignating subparagraph (F) as subparagraph (G); and

(3) by inserting immediately after subparagraph (E) the following new subparagraph:

"(F) the special areas defined in section 3(24) of the Magnuson Fishery Conservation and Management Act (18 U.S.C. 1802(24)); and".

(b) INTERNATIONAL PROGRAM.—Section 3(a)(6) of the Sea Grant Program Improvement Act of 1976 (33 U.S.C. 1124a(a)(6)) is amended by inserting "and special areas" immediately after "exclusive economic zone".

EFFECTIVE DATES

SEC. 8. (a) IN GENERAL.—The amendment made by section 1(e)(3) takes effect on the date of enactment of this Act, and the amendments made by the other provisions of this title, except as provided in subsection (b), shall be effective on the date on which the Agreement between the United States and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990, enters into force for the United States.

(b) AUTHORITY TO PRESCRIBE REGULATIONS.—The authority to prescribe regulations to implement the amendments made by this title shall be effective on the date of enactment of this Act, but no such regulation may be effective until the date on which the Agreement described in subsection (a) enters into force for the United States.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 1458) was ageed to.

The PRESIDING OFFICER. Are there further amendments to the substitute? If not, the question is on agreeing to the amendment.

The amendment (No. 1457), as amended, was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. GRAMM. Mr. President, I rise in support of the provisions in H.R. 3866 which seek to expedite approval of the National Oceanic and Atmospheric Aministration's recommendation that the Flower Garden Banks Coral Reef, located off the Texas and Louisiana coasts, be designated as a National Marine Sanctuary. This will be the first national marine sanctuary in the Gulf of Mexico, and the designation will help protect and manage the ecological, recreational, research, and esthetic resources of this area.

The Flower Garden Banks consists of two separate areas of submerged land totaling 41.7 square nautical miles. This land includes the reefs in the northwest corner of the Gulf of Mexico. They comprise the northermost living coral reefs on the U.S. continental shelf. Isolated from other reef systems by over 300 nautical miles, the Flower Garden Banks offer a combination of aesthetic appeal, recreational uses, and research opportunities matched in few other ocean areas.

The plan for managing the proposed sanctuary contains guidelines to ensure that all management actions undertaken in the first 5 years are coordinated to meet sanctuary objectives. Heavy anchoring by large vessels has damaged the banks. The new sanctuary status will prohibit heavy anchoring of most vessels in the designated area and is supported by the environmental community, the regional governments, and coastal business interests.

This sanctuary designation of the Flower Garden Banks has been made within the agency's National Marine Sanctuary Program, created in 1972. Currently, there are eight other designated areas located off the coasts of Florida, Georgia, North Carolina, California, and American Samoa.

I encourage my colleagues to approve this designation and further ensure the environmental health and safety of this precious natural resource.

The PRESIDING OFFICER. The question is on the engrossment of the amendments and third reading of the bill.

The amendments were ordered to be engrossed and the bill to be read a third time.

The bill was read a third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

So the bill (H. R. 3866), as amended, was passed.

Mr. FORD. I move to reconsider the vote.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMERICAN TECHNOLOGY PREEMINENCE ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 232, S. 1034, a bill to enhance the position of U.S. industry.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 1034) to enhance the position of U.S. industry through the application of the results of Federal research and development, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Commerce, Science, and Transportation, with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "American Technology Preeminence Act of 1991".

SEC. 2. DEFINITIONS.

As used in this Act—

(1) the term "advanced manufacturing technology" means numerically-controlled machine tools, robots, automated process control equipment, computerized flexible manufacturing systems, associated computer software, concurrent engineering processes, and other technology for improving manufacturing and industrial processes;

(2) the term "advanced materials" means a field of research including the study of composites, ceramics, metals, polymers, superconducting materials, and materials production technologies, including coated systems, that provide the potential for significant advantages over existing materials;

(3) the term "high-resolution information systems" means equipment and techniques required to create, transmit, receive, display, process, record, store, recover, and play back high resolution images and accompanying sound;

(4) the term "Institute" means the National Institute of Standards and Technology;

(5) the term "Secretary" means the Secretary of Commerce; and

(6) the term "Under Secretary" means the Under Secretary of Commerce for Technology.

TITLE I—DEPARTMENT OF COMMERCE RESEARCH AND TECHNOLOGY

SEC. 101. SHORT TITLE.

This title may be cited as the "Technology Administration Authorization Act of 1991".

SEC. 102. STATEMENT OF POLICY.

Congress finds that in order to help United States industries to speed the development of new products and processes so as to maintain the economic competitiveness of the Nation, it is necessary to strengthen the programs and activities of the Department of Commerce's Technology Administration and National Institute of Standards and Technology.

SEC. 103. TECHNOLOGY ADMINISTRATION.

(a) FISCAL YEAR 1992.—(1) There are authorized to be appropriated to the Secretary, to carry out the activities of the Under Secretary and the Assistant Secretary for Technology Policy, $9,700,000 for fiscal year 1992, which shall be available for the following line items:

(A) Office of the Under Secretary, $2,000,000.

(B) Technology Policy, $3,700,000.

(C) Japanese Technical Literature, $1,500,000.

(D) Clearinghouse for State and Local Initiatives on Productivity, Technology, and Innovation, $1,000,000.

(E) National Technical Information Service, $1,500,000 to carry out the modernization plan described in section 212(f)(3)(D) of the National Technical Information Act of 1988 (15 U.S.C. 3704b(f)(3)(D)).

(2) Funds may not be transferred among the line items listed in paragraph (1) (C) and (D) and may not be used except for the purpose stated in each such line item.

(b) FISCAL YEAR 1993.—(1) There are authorized to be appropriated to the Secretary, to carry out the activities of the Under Secretary and the Assistant Secretary for Technology Policy, $10,000,000 for fiscal year 1993, which shall be available for the following line items:

(A) Office of the Under Secretary, $2,000,000.

(B) Technology Policy, $4,000,000.

(C) Japanese Technical Literature, $1,500,000.

(D) Clearinghouse for State and Local Initiatives on Productivity, Technology, and Innovation, $1,000,000.

(E) National Technical Information Service, $1,500,000 to carry out the modernization plan described in section 212(f)(3)(D) of the National Technical Information Act of 1988 (15 U.S.C. 3704b(f)(3)(D)).

(2) Funds may not be transferred among the line items listed in paragraph (1) (C) and (D) and may not be used except for the purpose stated in each such line item.

(c) OPERATING COSTS.—Operating costs for the National Technical Information Service associated with the acquisition, processing, storage, bibliographic control, and archiving of information and documents shall be recovered primarily through the collection of fees.

(d) REPORT AND CERTIFICATION TO CONGRESS.—By September 30, 1992, the Secretary shall submit to Congress a report which—

(1) describes the Department of Commerce's response to the Inspector General's Report No. ATD-024-0-001;

(2) includes a revised detailed modernization plan for the National Technical Information Service;

(3) contains a business plan which includes detailed profit and loss analysis for groups of products and services and for major market segments; and

(4) certifies that the National Technical Information Service has—

(A) employed a chief financial officer who is a certified public accountant or equivalent; and

(B) begun taking reasonable steps toward strengthening its accounting system in response to the Inspector General's report described in paragraph (1).

SEC. 104. THE INSTITUTE.

(a) FISCAL YEAR 1992.—(1) There are authorized to be appropriated to the Secretary, to carry out the intramural scientific and technical research and services activities of the Institute, $211,000,000 for fiscal year 1992, which shall be available for the following line items:

(A) Electronics and Electrical Engineering, $34,000,000.

(B) Manufacturing Engineering, $13,000,000.

(C) Chemical Science and Technology, $21,000,000.

(D) Physics, $27,000,000.

(E) Materials Science and Engineering, $29,000,000.

(F) Building and Fire Research, $11,000,000.

(G) Computer Systems, $15,500,000.

(H) Applied Mathematics and Scientific Computing, $6,500,000.

(I) Technology Assistance, $16,000,000.

(J) Research Support Activities, $38,000,000.

(2)(A) Of the total of the amounts authorized under paragraph (1), $2,000,000 are authorized only for steel technology.

(B) Of the amount authorized under paragraph (1)(I)—

(i) $500,000 are authorized only for the evaluation of nonenergy-related inventions and related technology extension activities;

(ii) $250,000 are authorized only for Institute participation in the pilot program established under subsection (d); and

(iii) $6,200,000 are authorized for the Institute's management of the extramural funding programs authorized under section 105.

(C) Of the amount authorized under paragraph (1)(J) of this subsection, $7,223,000 are authorized only for the technical competence fund.

(b) FISCAL YEAR 1993.—(1) There are authorized to be appropriated to the Secretary, to carry out the intramural scientific and technical research and services activities of the Institute, $241,495,000 for fiscal year 1993, which shall be available for the following line items:

(A) Electronics and Electrical Engineering, $36,647,000.

(B) Manufacturing Engineering, $18,064,000.

(C) Chemical Science and Technology, $21,585,000.

(D) Physics, $27,302,000.

(E) Materials Science and Engineering, $32,978,000.

(F) Building and Fire Research, $10,972,000.

(G) Computer Systems, $15,991,000.

(H) Applied Mathematics and Scientific Computing, $6,284,000.

(I) Technology Assistance, $20,413,000.

(J) Research Support Activities, $33,532,000.

(K) Additional Initiatives, $17,727,000.

(2)(A) Of the total of the amounts authorized under paragraph (1), $2,000,000 are authorized only for steel technology.

(B) Of the amount authorized under paragraph (1)(I)—

(i) $500,000 are authorized only for the evaluation of nonenergy-related inventions and related technology extension activities;

(ii) $250,000 are authorized only for Institute participation in the pilot program established under subsection (e); and

(iii) $10,000,000 are authorized for the Institute's management of the extramural funding programs authorized under section 105.

(C) Of the amount authorized under paragraph (1)(J) of this subsection, $7,223,000 are authorized only for the technical competence fund.

(3) In addition to the amounts authorized under paragraph (1), there are authorized to be appropriated to the Secretary for fiscal year 1993 such sums as may be necessary for the renovation and upgrading of the Institute's facilities.

(c) TRANSFERS.—(1) Funds may be transferred among the line items listed in subsections (a)(1) and (b)(1), so long as the net funds transferred to or from any line item do not exceed 10 percent of the amount authorized for that line item in such subsection and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives are notified in advance of any such transfer.

(2) The Secretary may propose transfers to or from any line item listed in subsections (a)(1) and (b)(1) exceeding 10 percent of the amount authorized for such line item, but such proposed transfer may not be made unless—

(A) a full and complete explanation of any such proposed transfer and the reason therefor are transmitted in writing to the Speaker of the House of Representatives, the President of the Senate, and the appropriate authorizing Committees of the House of Representatives and the Senate, and

(B) 30 calendar days have passed following the transmission of such written explanation.

(d) RELATION TO OTHER AUTHORIZATIONS.—Except for authorizations provided in the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100–418; 102 Stat. 1448), the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.), and the Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988 (15 U.S.C. 5101 et seq.), this Act contains the complete authorizations of appropriations for the Institute for fiscal years 1992 and 1993.

(e) PILOT PROGRAM.—Pursuant to the authorizations contained in subsections (a)(1)(I) and (b)(1)(I), the Secretary is authorized to pay the Federal share of the cost of establishing and carrying out a standards assistance pilot program under section 112 of the National Institute of Standards and Technology Authorization Act for Fiscal Year 1989 (15 U.S.C. 272 note) for the purpose of aiding nations that have requested assistance from the United States in developing their standards. As part of that program, the Secretary is authorized to work with appropriate United States and foreign private and public organizations. The Secretary is authorized to expend resources which match the private sector contribution to the program.

(f) CONSTRUCTION OF FACILITIES.—Section 14 of the Act of March 3, 1901 (15 U.S.C. 278d), is amended by striking "herein:" and all that follows, and inserting in lieu thereof "herein.".

(g) FIRE AND BUILDING PROGRAMS.—The fire research and building technology programs of the Institute may be combined for administrative purposes only, and separate budget accounts for fire research and building technology shall be maintained. No later than December 31, 1991, the Secretary, acting through the Director of the Institute, shall report to Congress on the results of the combination, on efforts to preserve the integrity of the fire research and building technology programs, on the long-range basic and applied research plans of the two programs, on procedures for receiving advice on fire and earthquake research priorities from constituencies concerned with public safety, and on the relation between the combined program at the Institute and the United States Fire Administration.

(h) PERSONNEL.—Notwithstanding any other provision of law, the personnel management system for the Institute, established as a demonstration project under section 10 of the National Bureau of Standards Authorization Act for Fiscal Year 1987 (15 U.S.C. 275 note), shall become the permanent personnel management system for the Institute. The Director of the Institute shall carry out all responsibilities to execute and manage the personnel management system.

(i) EDUCATIONAL PROGRAMS.—(1) Section 18 of the Act of March 3, 1901 (15 U.S.C. 278g–1), is amended by striking the period at the end of the first sentence and inserting in lieu thereof ", and to United States citizens for research and technical activities on Institute programs.".

(2) Section 17 of the Act of March 3, 1901 (15 U.S.C. 278g), is amended by adding at the end the following new subsection:

"(d) For any scientific and engineering disciplines for which there is a shortage of suitably qualified and available United States citizens and nationals, the Secretary is authorized to recruit and employ in scientific and engineering fields at the Institute foreign nationals who have been lawfully admitted to the United States for permanent residence under the Immigration and Nationality Act and who intend to become United States citizens. Employment of a person under this subsection shall not be subject to the provisions of title 5, United States Code, governing employment in the competitive service, or to any prohibition in any other Act against the employment of aliens, or against the payment of compensation to them.".

SEC. 105. EXTRAMURAL PROGRAMS OF THE INSTITUTE.

(a) FISCAL YEAR 1992.—In addition to any sums otherwise authorized under this Act, there are authorized to be appropriated to the Secretary, to carry out the extramural industrial technology services programs of the Institute created under sections 25, 26, and 28 of the Act of March 3, 1901 (15 U.S.C. 278k, 278l, and 278n), $137,500,000 for fiscal year 1992, which shall be available for the following line items:

(1) Regional Centers for the Transfer of Manufacturing Technology, $25,000,000.

(2) State Technology Extension Program, $2,500,000.

(3) Advanced Technology Program, $110,000,000.

(b) FISCAL YEAR 1993.—In addition to any sums otherwise authorized under this Act, there are authorized to be appropriated to the Secretary, to carry out the extramural industrial technology services programs of the Institute created under sections 25, 26, and 28 of the Act of March 3, 1901 (15 U.S.C. 278k, 278l, and 278n), $185,000,000 for fiscal year 1993, which shall be available for the following line item:

(1) Regional Centers for the Transfer of Manufacturing Technology and Satellite Manufacturing Centers, $35,000,000.

(2) State Technology Extension Program, $10,000,000.

(3) Advanced Technology Program, $140,000,000.

(c) LIMITATION.—No funds are authorized under this section for any project under the extramural programs of the Institute which have not been competitively reviewed through merit review processes.

(d) AMENDMENTS TO EXTENSION ACTIVITIES.—(1) Section 25(c)(5) of the Act of March 3, 1901 (15 U.S.C. 278k(c)(5)), is amended by inserting immediately before the period at the end the following: ", except for contracts for such specific technology extension or transfer services as may be specified by statute or by the Director".

(2) Section 25(d) of the Act of March 3, 1901 (15 U.S.C. 278k(d)), is amended to read as follows:

"(d) In addition to such sums as may be authorized and appropriated to the Secretary and Director to operate the Centers program, the Secretary and Director also may accept funds from other Federal departments and agencies for the purpose of providing Federal funds to support Centers. Any Center which is supported with funds which originally came from other Federal departments and agencies shall be selected and operated according to the provisions of this section.".

(3) Section 5121(b) of the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 278l note) is amended by striking paragraph (5).

(e) ADVISORY COMMITTEE.—Section 5142(f) of the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 4632(f)) is amended by striking "and 1990" and inserting in lieu thereof "1990, 1991, 1992, and 1993".

SEC. 106. SALARY ADJUSTMENTS.

In addition to any sums otherwise authorized by this Act, there are authorized to be appropriated to the Secretary for fiscal years 1992 and 1993 such additional sums as may be necessary to make any adjustments in salary, pay, retirement, and other employee benefits which may be provided for by law.

SEC. 107. AVAILABILITY OF APPROPRIATIONS.

Appropriations made under the authority provided in this Act shall remain available for obligation, for expenditure, or for obligation and expenditure for periods specified in the Acts making such appropriations.

SEC. 108. REPORT ON FACILITIES NEEDS.

By March 1, 1992, the Director of the Institute shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on what renovations and upgrades of Institute facilities are necessary over the next decade. The report shall include a ranking of facilities needs in order of priority, an estimate of costs, and the Director's plan for meeting these needs.

SEC. 109. BUY-AMERICAN PROVISIONS.

(a) RESTRICTIONS ON CONTRACT AWARDS.—No contract or subcontract made with funds authorized under this Act may be awarded for the procurement of an article, material, or supply produced or manufactured in a foreign country whose government unfairly maintains in government procurement a significant and persistent pattern or practice of discrimination against United States products or services which results in identifiable harms to United States businesses, as identified by the President pursuant to subsection (g)(1)(A) of section 305 of the Trade Agreements Act of 1979 (19 U.S.C. 2515(g)(1)(A)). Any such determination shall be made in accordance with such section 305.

(b) PROHIBITION AGAINST FRAUDULENT USE OF "MADE IN AMERICA" LABELS.—If it has been finally determined by a court or a Federal agency that any person intentionally affixed a label bearing a "Made in America" inscription, or an inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, that person shall be ineligible to receive any contract or subcontract from the Department of Commerce, pursuant to the debarment, suspension, and ineligibility procedures in subpart 9.4 of chapter 1 of title 48, Code of Federal Regulations.

(c) BUY-AMERICAN REQUIREMENT.—(1) The Secretary is authorized to award to a domestic firm a contract for the purchase of goods that, under the use of competitive procedures, would be awarded to a foreign firm, if—

(A) the final product of the domestic firm will be completely assembled in the United States;

(B) when completely assembled, more than 50 percent of the final product of the domestic firm will be domestically produced; and

(C) the difference between the bids submitted by the foreign and domestic firms is not more than 6 percent.

(2) This subsection shall not apply to the extent that—

(A) in the opinion of the Secretary, after taking into consideration international obligations and trade relations, such applicability would not be in the public interest;

(B) in the opinion of the Secretary, after consultation with the Secretary of Defense, compelling national security considerations require otherwise; or

(C) the President determines that such an award would be in violation of the General Agreement on Tariffs and Trade or an international agreement to which the United States is a party.

(3) This action shall apply only to contracts made for which—

(A) amounts are authorized by this Act to be made available; and

(B) solicitations for bids are issued after the date of enactment of this Act.

(4) The Secretary, before January 1, 1993, shall report to the Congress on contracts covered under this subsection—

(A) entered into with foreign firms pursuant to a determination made under paragraph (2); and

(B) awarded to domestic firms pursuant to paragraph (1), in fiscal years 1991 and 1992.

(5) For purposes of this subsection—

(A) the term "domestic firm" means a business entity that is incorporated in the United States and that conducts business operations in the United States; and

(B) the term "foreign firm" means a business entity not described in subparagraph (A).

TITLE II—ADVANCED TECHNOLOGY PROGRAM AMENDMENTS

SEC. 201. EMERGING TECHNOLOGIES RESEARCH AND DEVELOPMENT.

(a) SHORT TITLE.—This title may be cited as the "Emerging Technologies and Advanced Technology Program Amendments Act of 1991".

(b) FINDINGS AND PURPOSES.—(1) The Congress finds that—

(A) technological innovation and its profitable inclusion in commercial products are critical components of the ability of the United States to raise the living standards of Americans and to compete in world markets;

(B) maintaining viable United States-based high technology industries is vital to both the national security and the economic well-being of the United States;

(C) the Department of Commerce has reported that the United States is losing or losing badly, relatively to Japan and Europe, in many important emerging technologies and risks losing much of the $350 billion United States market and $1 billion world market expected to develop by the year 2000 for products based on emerging technologies;

(D) it is in the national interest for the Federal Government to encourage and, in selected cases, provide limited financial assistance to industry-led private sector efforts to increase research and development in economically critical areas of technology;

(E) joint ventures are a particularly effective and appropriate way to pool resources to conduct research that no one company is likely to undertake but which will create new generic technologies that will benefit an entire industry and the welfare of the Nation;

(F) it is vital that industry within the United States attains a leadership role and capability in development, design, and manufacturing in fields such as high-resolution information systems, advanced manufacturing, and advanced materials; and

(G) the Advanced Technology Program, established under section 28 of the Act of March 3, 1901 (15 U.S.C. 278n), is the appropriate vehicle for the United States Government to provide limited assistance to joint development within the United States of new high technology capabilities in fields such as high-resolution information systems, advanced manufacturing technology, and advanced materials, and can help encourage United States industry to work together on problems of mutual concern.

(2) The purposes of this section are—

(A) to strengthen the Advanced Technology Program created under section 28 of the Act of March 3, 1901 (15 U.S.C. 278n), and to provide improved guidelines for the allocation of Advanced Technology Program funds appropriated under the authorizations contained in section 105 of this Act;

(B) to promote and assist in the development of advanced technologies and the generic application of such technologies to civilian products, processes, and services;

(C) to improve the competitive position of United States industry by supporting industry-led research and development projects in areas of emerging technology which have substantial potential to advance the economic well-being and national security of the United States, such as high-resolution information systems, advanced manufacturing technology, and advanced materials; and

(D) to support projects that range from idea exploration to prototype development and address long-term, high-risk areas of technological research, development, and application that are not otherwise being adequately developed by the private sector, but are likely to yield important benefits to the Nation.

(c) ADVANCED TECHNOLOGY PROGRAM.—(1) Section 28(a) of the Act of March 3, 1901 (15 U.S.C. 278n(a)), is amended by adding at the end the following new sentence: "In operating the Program, the Secretary and Director shall, as appropriate, be guided by the findings and recommendations of the Biennial National Critical Technology Reports prepared pursuant to section 603 of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6683).".

(2) Section 28(b)(1) of the Act of March 3, 1901 (15 U.S.C. 278n(b)(1)), is amended by inserting "industry-led" immediately after "aid".

(3) Section 28(b)(1)(B) of the Act of March 3, 1901 (15 U.S.C. 278n(b)(1)(B)), is amended by inserting "by means of grants, cooperative agreements, or contracts" immediately after "such joint ventures".

(4) Section 28(b)(2) of the Act of March 3, 1901 (15 U.S.C. 278n(b)(2)), is amended to read as follows:

"(2) provide grants to and enter into contracts and cooperative agreements with United States businesses (especially small businesses), provided that emphasis is placed on applying the Institute's research, research techniques, and expertise to those organizations' research programs;".

(5) Section 28(d)(2) of the Act of March 3, 1901 (15 U.S.C. 278n(d)(2)), is amended to read as follows:

"(2) In the case of joint ventures, the Program shall not make an award unless the award will facilitate the formation of a joint venture or the initiation of a new research and development project by an existing joint venture.".

(6) Section 28(d) of the Act of March 3, 1901 (15 U.S.C. 278n(d)(7)), is amended—

(A) by striking paragraph (7);

(B) by redesignating paragraphs (8) and (9) as paragraphs (7) and (8), respectively; and

(C) by adding at the end the following new paragraphs:

"(9) A company shall be eligible to receive financial assistance under this section only if—

"(A) the Secretary finds that the company's participation in the Program would be in the economic interest of the United States, as evidenced by investments in the United States in research, development, and manufacturing (including, for example, the manufacture of major components or subassemblies in the United States); significant contributions to employment in the United States; and agreement with respect to any technology arising from assistance provided under this section to promote the manufacture within the United States of products resulting from that technology (taking into account the goals of promoting the competitiveness of United States industry), and to procure parts and materials from competitive suppliers; and

"(B) either—

"(i) the company is a United States-owned company; or

"(ii) the Secretary finds that the company is incorporated in the United States and has a parent company which is incorporated in a country which affords to United States-owned companies opportunities, comparable to those afforded to any other company, to participate in any joint venture similar to those authorized under this Act; affords to United States-owned companies local investment opportunities comparable to those afforded to any other company; and affords adequate and effective protection for the intellectual property rights of United States-owned companies.

"(10) Grants, contracts, and cooperative assignments under this section shall be designed to support projects which are high risk and which have the potential for eventual substantial widespread commercial application. In order to receive a grant, contract, or cooperative agreement under this section, a research and development entity shall demonstrate to the Secretary the requisite ability in research and technology development and management in the project area in which the grant, contract, or cooperative agreement is being sought.

"(11)(A) Title to any intellectual property arising from assistance provided under this section shall vest in a company or companies incorporated in the United States. The United States may reserve a nonexclusive, nontransferable, irrevocable paid-up license, to have practiced for or on behalf of the United States, in connection with any such intellectual property, but shall not, in the exercise of such license, publicly disclose proprietary information related to the license. Title to any such intellectual property shall not be transferred or passed, except to a company incorporated in the United States, until the expiration of the first patent obtained in connection with such intellectual property.

"(B) For purposes of this paragraph, the term 'intellectual property' means an invention patentable under title 35, United States Code, or any patent on such an invention.

"(C) Nothing in this paragraph shall be construed to prohibit the licensing to any company of intellectual property rights arising from assistance provided under this section.".

(7) Section 28(e) of the Act of March 3, 1901 (15 U.S.C. 278n(e)), is amended to read as follows:

"(e) The Secretary may, within 30 days after notice to Congress, suspend a company or joint venture from continued assistance under this section if the Secretary determines that the company, the country of incorporation of the company or a parent company, or the joint venture has failed to satisfy any of the criteria set forth in subsection (d)(9), and that it is in the national interest of the United States to do so.".

(8) Section 28 of the Act of March 3, 1901 (15 U.S.C. 278n), is amended by adding at the end the following new subsections:

"(f) When reviewing private sector requests for awards under the Program, and when monitoring the progress of assisted research projects, the Secretary and the Director shall, as appropriate, coordinate with the Secretary of Defense and other senior Federal officials to ensure cooperation and coordination in Federal technology programs and to avoid unnecessary duplication of effort. The Secretary and the Director are authorized to work with the Director of the Office of Science and Technology Policy, the Secretary of Defense, and other appropriate Federal officials to form interagency working groups or special project offices to coordinate Federal technology activities.

"(g) In order to analyze the need for the value of joint ventures and other research projects in specific technical fields, to evaluate any proposal made by a joint venture or company requesting the Secretary's assistance, or to monitor the progress of any joint venture or any company research project which receives Federal funds under the Program, the Secretary, the Under Secretary of Commerce for Technology, and the Director may, notwithstanding any other provision of law, meet with such industry sources as they consider useful and appropriate.

"(h) Up to 10 percent of the funds appropriated for carrying out this section may be used for standards development and technical activities by the Institute in support of the purposes of this section.

"(i) In addition to such sums as may be authorized and appropriated to the Secretary and

Director to operate the Program, the Secretary and Director also may accept funds from other Federal departments and agencies for the purpose of providing Federal funds to support awards under the Program. Any Program award which is supported with funds which originally came from other Federal departments and agencies shall be selected and carried out according to the provisions of this section.

"(j) As used in this section—

"(1) the term 'joint venture' means any group of activities, including attempting to make, making, or performing a contract, by two or more persons for the purpose of—

"(A) theoretical analysis, experimentation, or systematic study of phenomena or observable facts;

"(B) the development or testing of basic engineering techniques;

"(C) the extension of investigative finding or theory of a scientific or technical nature into practical application for experimental and demonstration purposes, including the experimental production and testing of models, prototypes, equipment, materials, and processes;

"(D) the collection, exchange, and analysis of research information;

"(E) the production of any product, process, or service; or

"(F) any combination of the purposes specified in subparagraphs (A), (B), (C), (D), and (E),

and may include the establishment and operation of facilities for the conducting of research, the conducting of such venture on a protected and proprietary basis, and the prosecuting of applications for patents and the granting of licenses for the results of such venture;

"(2) the term 'United States-owned company' means a company that has majority ownership or control by individuals who are citizens of the United States; and

"(3) the term 'foreign-owned company' means a company other than a United States-owned company.".

(d) EFFECTIVE DATE.—The amendments in subsection (c) of this section shall take effect immediately upon enactment; however, those amendments shall not apply to applications submitted in response to any Federal Register Invitation for Proposals dated prior to the date of enactment of this Act, or awards or other assistance granted pursuant to that notice.

(e) MANAGEMENT COSTS.—Section 2 of the Act of March 3, 1901 (15 U.S.C. 272), is amended by adding at the end the following new subsection:

"(d) In carrying out the extramural funding programs of the Institute, including the programs established under sections 25, 26, and 28 of this Act, the Secretary may retain reasonable amounts of any funds appropriated pursuant to authorizations for these programs in order to pay for the Institute's management of these programs.".

(f) COMPREHENSIVE REPORT.—The Secretary shall, not later than 4 years after the date of enactment of this Act, submit to each House of Congress and the President a comprehensive report on the results of the Advanced Technology Program established under section 28 of the Act of March 3, 1901 (15 U.S.C. 278n), including activities in the areas of high-resolution information systems, advanced manufacturing technology, and advanced materials.

(g) COMMERCE DEPARTMENT REPORTS ON SEMATECH.—Section 273(c)(4) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (15 U.S.C. 4603(c)(4)) and section 5422(a) of the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 4603(a)) are each amended by striking "Economic Affairs" and inserting in lieu thereof "Technology".

TITLE III—AMENDMENTS TO THE STEVENSON-WYDLER TECHNOLOGY INNOVATION ACT OF 1980

SEC. 301. FEDERAL LABORATORY CONSORTIUM.

Section 11(e)(7)(B)(ii) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(e)(7)(B)(ii)) is amended by striking "1987, 1988, 1989, 1990, or 1991" and inserting in lieu thereof "1991, 1992, 1993, 1994, 1995, or 1996".

SEC. 302. COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENTS.

(a) PROVISION OF INTELLECTUAL PROPERTY.—Section 12(d)(1) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a(d)(1)) is amended by inserting "intellectual property," immediately after "equipment," both places it appears.

(b) REPORT.—Within 6 months after the date of enactment of this Act, the Secretary shall report to Congress on the advisability of authorizing a new form of cooperative research and development agreement which would permit Federal contributions of funds.

SEC. 303. DEFINITION OF FEDERAL AGENCY.

Section 4(8) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3703(8)) is amended by inserting ", as well as any agency of the legislative branch of the Federal Government" immediately after "of such title".

SEC. 304. QUALITY IMPROVEMENT.

Section 17(f) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3711a(f)) is amended by adding at the end the following: "The Director is authorized to use appropriated funds to carry out responsibilities under this Act.".

SEC. 305. UNDER SECRETARY.

Section 5(c) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3704(c)) is amended—

(1) by redesignating paragraphs (13) and (14) as paragraphs (14) and (15), respectively; and

(2) by inserting immediately after paragraph (12) the following new paragraph:

"(13) serve as a focal point for discussions among United States companies, trade associations, and labor unions on topics of interest to industry and labor, including discussions regarding issues of manufacturing and emerging technologies;".

TITLE IV—STUDIES AND REPORTS

SEC. 401. HIGH-RESOLUTION INFORMATION SYSTEMS ADVISORY BOARD.

(a) ESTABLISHMENT AND PURPOSE.—The Director of the Office of Science and Technology Policy shall establish within that office a High-Resolution Information Systems Advisory Board (hereafter in this section referred to as the "Board") to monitor and, as appropriate, foster the development of United States-based high-resolution information system industries.

(b) FUNCTIONS.—The Board shall—

(1) collect and analyze information on the range of factors which will determine whether United States-based high-resolution information systems industries will develop and become competitive, including such factors as technology policies, specialized financial problems, international standards and foreign trade practices, Federal regulations and procurement policies, and licensing practices;

(2) identify areas where appropriate cooperation between the Federal Government and the private sector, including Government support for industry-led joint research and development ventures, would enhance United States industrial competitiveness in this area, and provide advice and guidance for such cooperative efforts;

(3) provide guidance on what Federal policies and practices, particularly in such areas as procurement and the transfer of federally-funded research, are necessary to help establish United States-based high-resolution information systems industries;

(4) provide advice on the coordination of Federal defense and civilian activities to maximize and assist with the transfer of technologies in the field of high-resolution information systems into commercial products; and

(5) generally develop recommendations for guiding Federal agency activities related to the development of United States-based high-resolution information systems industries.

(c) MEMBERSHIP AND PROCEDURES.—(1)(A) The Board shall be composed of 13 members, seven of whom shall constitute a quorum.

(B) The Director of the Office of Science and Technology Policy, the Secretary of Commerce, the Director of the Defense Advanced Research Projects Agency, and the Administrator of the National Aeronautics and Space Administration, or their designees, shall serve as members of the Board.

(C) The President, acting through the Director of the Office of Science and Technology Policy, within 90 days after the date of enactment of this Act, shall appoint as additional members of the Board—

(i) five members from the private electronics manufacturing sector, drawn from such sectors as semiconductors, display equipment, computers, consumer electronics, and telecommunications, with one member also representing labor;

(ii) three members from the private nonmanufacturing sector, including one representative from the transmission delivery systems sector and two representatives drawn from such areas as the software industry, the entertainment industry, and the investment community; and

(iii) one member from academia.

At least one member appointed under this paragraph shall be from small business.

(2) The Director of the Office of Science and Technology Policy or the Director's designee shall chair the Board.

(3) The chairman shall call the first meeting of the Board within 30 days after the appointment of members is completed.

(4) The Board may use such personnel detailed from Federal agencies as may be necessary to enable it to perform its functions.

(5) Members of the Board, other than full-time employees of the Federal Government, while attending meetings of the Board or otherwise performing duties of the Board while away from their homes or regular places of business, shall be allowed travel expenses in accordance with subchapter I of chapter 57 of title 5, United States Code.

(6) The Board shall submit to the President and Congress a report of its activities once every year after its establishment.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for the fiscal years 1992 and 1993.

SEC. 402. MAJOR SCIENCE AND TECHNOLOGY PROPOSALS.

The National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6601 et seq.) is amended by adding at the end of title II the following new section:

"MAJOR SCIENCE AND TECHNOLOGY PROPOSALS

"SEC. 209. The Director shall identify and provide an annual report to Congress on each major multinational science and technology project, in which the United States is not a participant, which has a total estimated cost greater than $1,000,000,000.".

SEC. 403. BIENNIAL NATIONAL CRITICAL TECHNOLOGIES REPORT AMENDMENTS.

(a) EMERGING CIVILIAN TECHNOLOGIES.—Section 603(a) of the National Science and Technology Policy, Organization, and Priorities Act *of 1976 (42 U.S.C. 6683(a)) is amended by inserting ", but shall include the most economically important emerging civilian technologies during the 10-year period following such report, together with the estimated current and future size of domestic and international markets for products derived from those emerging civilian technologies" immediately after "may not exceed 30".*

(b) PANEL DETERMINATION.—Section 603(b) of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6883(b)) is amended by striking "national security and" inserting in lieu thereof "national security or".

(c) COMPARISON OF TECHNOLOGY BASES.—Section 603 of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6683) is amended by redesignating subsection (d) as subsection (e) and by inserting immediately after subsection (c) the following new subsection:

"(d) Each such report shall include—

"(1) an identification of the types of research and development needed to close any significant gaps or deficiencies in the technology base of the United States, as compared with the technology bases of major trading partners; and

"(2) a list of the technologies and markets targeted by major trading partners for development or capture.".

SEC. 404. RESEARCH, DEVELOPMENT, TECHNOLOGY UTILIZATION, AND GOVERNMENT PROCUREMENT POLICY.

(a) ESTABLISHMENT OF COMMISSION.—The Secretary, in consultation with the Administrator of the Office of Federal Procurement Policy, shall establish a Commission on Technology and Procurement (hereafter in this section referred to as the "Commission"), for the purposes of analyzing the effect of Federal Government procurement laws, procedures, and policies on the development of advanced technologies within the United States and making recommendations on how Federal policy could be changed to promote further the development of advanced technologies.

(b) ISSUES.—The Commission shall address the following issues:

(1) To what extent, if any, should Federal Government technology purchase strategies be used to give domestic suppliers a competitive advantage in new generations of existing technologies and in initial market penetration for new technologies?

(2) How can the Federal Government procurement laws, practices, and procedures be used as a strategic tool to foster the use of emerging technologies?

(3) Under what conditions can Federal Government purchases of advanced technology-based products be based on performance specifications rather than on product specifications? Should Federal Government procurement first look to the commercial markets for products that will meet performance specifications before purchasing a unique product that has to be developed?

(4) How can the Federal Government ensure that its suppliers adopt the principles embodied in the Malcolm Baldrige National Quality Award?

(5) Should Federal Government procurement practices include cooperative efforts between the supplier and the Federal entity to develop products so as to be more easily marketed on a commercial basis? Should a program for the exchange of technical personnel to foster innovation in product development be part of such practices?

(6) To what extent, if any, should Federal Government documents specify standards that are beneficial to domestic suppliers, aid the compatibility of advanced technologies, and speed the commercial acceptance of those technologies, and what would be the role of the Institute in such an effort?

(7) Should Federal Government procurement be linked to the Advanced Technology Program and to technology transfer activities so that specification development can incorporate the latest technical advances available?

(8) To what extent should worldwide, state of the art technology be required in Federal Government procurement?

(c) MEMBERSHIP AND PROCEDURES.—(1) The Commission shall be composed of 15 members, eight of whom shall constitute a quorum.

(2) The Secretary, the Administrator of the Office of Federal Procurement Policy, the Director of the Office of Science and Technology Policy, the Secretary of Defense, and the Administrator of General Services, or their designees who serve in executive level positions, shall serve as members of the Commission.

(3) The Secretary, with the concurrence of the Administrator of the Office of Federal Procurement Policy, shall appoint as members of the Commission, from among individuals not employed by the Federal Government—

(A) four members who are eminent in advanced technology businesses representing manufacturing and services industries, including at least one member representing labor;

(B) three members who are eminent in the fields of technology and international economic development; and

(C) three members who are eminent in the fields of Federal Government procurement.

(4) The Secretary shall appoint a Commission chairman from among the members of the Commission. The chairman shall call the first meeting of the Commission within 90 days after the date of enactment of this Act.

(5) The Secretary and the Administrator of the Office of Federal Procurement Policy shall provide such staff as may be required by the Commission to carry out its responsibilities.

(6) Members of the Commission, other than full-time employees of the Federal Government, while attending meetings of the Commission or otherwise performing duties of the Commission while away from their homes or regular places of business, shall be allowed travel expenses in accordance with subchapter I of chapter 57 of title 5, United States Code.

(d) REPORTS.—(1) The Commission shall, within 1 year after the date of enactment of this Act, submit to the Secretary, the Administrator of the Office of Federal Procurement Policy, the President, and Congress a report containing preliminary recommendations with respect to the issues addressed under subsection (b).

(2) The Commission shall, within 2 years after the date of enactment of this Act, submit to the Secretary and Congress a final report containing final recommendations with respect to the issues addressed under subsection (b).

(e) CONSULTATION.—The Commission shall consult, as appropriate, with the National Commission on Reducing Capital Costs for Emerging Technology.

(f) TERMINATION.—The Commission shall terminate 6 months after the submission of its final report under subsection (d)(2).

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for the fiscal years 1992, 1993, and 1994.

SEC. 405. REPORT ON INFORMATION COLLECTION AND DISSEMINATION.

(a) REPORT.—Within 270 days after the date of enactment of this Act, the Secretary shall report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives on the feasibility of establishing and operating a Federal Online Information Product Catalog (FEDLINE) at the National Technical Information Service which would serve as a comprehensive inventory and authoritative register of information products and services disseminated by the Federal Government and assist agencies and the public in locating Federal Government information. Information protected from public disclosure shall not be included. In studying the concept, the Secretary, acting through the Under Secretary and the Director of the National Technical Information Service, shall consult with officials from appropriate Government agencies, including the Office of Management and Budget, the National Archives, the Government Printing Office, and the Institute, and with representatives of the public, for their views on the optimal composition and format of FEDLINE. Such report shall contain cost estimates and possible funding sources for establishing and operating FEDLINE and shall list any changes in law and regulation that would be required if FEDLINE were to be implemented.

(b) FUNDING.—The Director of the National Technical Information Service may retain and use all monies received, including receipts, revenues, and advanced payments and deposits, to fund obligations and expenses, including capital equipment and inventory, through the end of fiscal year 1993.

(c) ELECTRONIC FORMAT.—Section 212(e)(5) of the National Technical Information Act of 1988 (15 U.S.C. 3704b(e)(5)) is amended by inserting ", including the production and dissemination of information products in electronic format" immediately after "engineering information".

SEC. 406. STUDY OF TESTING AND CERTIFICATION.

(a) CONTRACT WITH NATIONAL RESEARCH COUNCIL.—Within 90 days after the date of enactment of this Act and within available appropriations, the Secretary shall enter into a contract with the National Research Council for a thorough review of international product testing and certification issues. The National Research Council will be asked to address the following issues and make recommendations as appropriate:

(1) the impact on United States manufacturers, testing and certification laboratories, certification organizations, and other affected bodies of the European Community's plans for testing and certification of regulated and non-regulated products of non-European origin;

(2) ways for United States manufacturers to gain acceptance of their products in the European Community and in other foreign countries and regions;

(3) the feasibility and consequences of having mutual recognition agreements between testing and certification organizations in the United States and those of major trading partners on the accreditation of testing and certification laboratories and on quality control requirements;

(4) information coordination regarding product acceptance and conformity assessment mechanisms between the United States and foreign governments; and

(5) the appropriate Federal, State, and private roles in coordination and oversight of testing, certification, accreditation, and quality control to support national and international trade.

(b) MEMBERSHIP.—In selecting the members of the review panel, the National Research Council shall consult with and draw from, among others, laboratory accreditation laboratories and organizations, Federal and State government agencies involved in testing and certification, professional societies, trade associations, small business, and labor organizations.

(c) REPORT.—A report based on the findings and recommendations of the review panel shall be submitted to the Secretary, the President,

and Congress within 18 months after the Secretary signs the contract with the National Research Council.

SEC. 407. REPORT ON A STRATEGY TO STIMULATE COMPETITIVE RESEARCH.

(a) IN GENERAL.—No later than 120 days after the date of enactment of this Act, the Director of the Office of Science and Technology Policy shall submit to Congress a report presenting a proposed strategy for improving the university research capabilities of those States which historically have received relatively little Federal research and development funding. The report shall particularly—

(1) analyze recent steps to use the National Science Foundation's Experimental Program to Stimulate Competitive Research as a model for similar programs in several other Federal departments and agencies which fund research and development; and

(2) examine the feasibility and advisability of using that Program as a model for Federal research and development agencies which do not currently have similar programs.

(b) ANALYSIS AND DISCUSSION.—The report shall include an analysis and discussion of—

(1) the geographic distribution of Federal research and development grants and contracts;

(2) current Federal efforts to stimulate competitive research; and

(3) the feasibility and advisability of new Federal programs to stimulate competitive research.

SEC. 408. INTERAGENCY COORDINATION.

The Secretary shall, within 180 days after the date of enactment of this Act, submit to the Committee on Commerce, Science, and Transportation of the Senate, and to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives, a plan for coordination of Commerce Department efforts with other Federal agencies for activities related to high-resolution information systems, including research and development activities.

AMENDMENT NO. 1459

(Purpose: To make an amendment in the nature of a substitute)

Mr. FORD. Mr. President, on behalf of Senator HOLLINGS, I send an amendment to the desk, and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. HOLLINGS, proposes an amendment numbered 1459:

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Strike all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE

This Act may be cited as the "American Technology Preeminence Act of 1991".

SEC. 2. DEFINITIONS.

As used in the Act—

(1) the term "high-resolution information systems" means equipment and techniques required to create, store, recover, and play back high-resolution images and accompanying sound;

(2) the term "advanced manufacturing technology" means numerically-controlled machine tools, robots, automated process control equipment, computerized flexible manufacturing systems, associated computer software, and othe technology for improving manufacturing and industrial processes;

(3) the term "advanced materials" means a field of research including the study of composites, ceramics, metals, polymers, superconducting materials, materials produced through biotechnology, and materials production technologies, including coated systems, that provide the potential for significant advantages over existing materials;

(4) the term "Institute" means the National Institute of Standards and Technology'

(5) the term "Secretary" means the Secretary of Commerce; and

(6) the term "Under Secretary" means the Under Secretary of Commerce for Technology.

TITLE I—DEPARTMENT OF COMMERCE RESEARCH AND TECHNOLOGY

SEC. 101. SHORT TITLE.

This title may be cited as the "Technology Administration Authorization Act of 1991".

SEC. 102. STATEMENT OF POLICY.

Congress finds that in order to help United States industries to speed the development of new products and processes so as to maintain the economic competitiveness of the Nation, it is necessary to strengthen the programs and activities of the Department of Commerce's Technology Administration and National Institute of Standards and Technology.

SEC. 103. TECHNOLOGY ADMINISTRATION.

(a) FISCAL YEAR 1992—(1) There are authorized to be appropriated to the Secretary, to carry out the activities of the Under Secretary and the Assistant Secretary for Technology Policy, $10,000,000 for fiscal year 1992, which shall be available for the following line items:

(A) Office of the Under Secretary, $2,000,000.

(B) Technology Policy, $4,000.000.

(C) Japanese Technical Literature, $1,500,000.

(D) Clearinghouse on State and Local Initiatives on Productivity, Technology, and Innovation, $1,000,000.

(E) National Technical Information Service, $1,500,000 to carry out the modernization plan described in section 212(f)(3)(D) of the National Technical Information Act of 1988 (15 U.S.C. 3704b(f)(3)(D)).

(2) Funds may be transferred among the line items listed in paragraoh (1), so long as the net funds transferred to or from any line item do not exceed 10 percent of the amount authorized for that line item in such paragraph and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives are notified in advance of any such transfer.

(b) FISCAL YEAR 1993.—(1) There are authorized to be appropriated to the Secretary, to carry out the activities of the Under Secretary and the Assistant Secretary for Technology Policy, $10,000,000 for fiscal year 1993, which shall be available for the following line items:

(A) Office of the Under Secretary, $2,000,000.

(B) Technology Policy, $4,000,000.

(C) Japanese Technical Literature, $1,500,000.

(D) Clearinghouse on State and Local Initiatives on Productivity, Technology, and Innovation, $1,000,000.

(E) National Technical Information Service, $1,500,000 to carry out the modernization plan described in section 212(f)(3)(D) of the National Technical Informtion Act of 1988 (15 U.S.C. 3704b(f)(3)(D)).

(2) Funds may be transferred among the line items listed in paragraph (1), so long as the net funds transferred to or from any line item to not exceed 10 percent of the amount authorized for that line item in such paragraph and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives are notified in advance of any such transfer.

(c) OPERATING COSTS.—Operating costs for the National Technical Information Service associated with the acquisition, processing, storage, bibliographic control, and archiving of information and documents shall be recovered primarily through the collection of fees.

(d) REPORT AND CERTIFICATION TO CONGRESS.—Within 90 days after the date of enactment of this Act, the Secretary shall submit to Congress a report which—

(1) describes the Department of Commerce's response to the Inspector General's Report No. ATD-024-0-001;

(2) includes a revised detailed modernization plan for the National Technical Information Service;

(3) contains a business plan for the National Technical Information Service which includes detailed profit and loss analysis for groups of products and services and for major market segments; and

(4) certifies that the National Technical Information Service has—

(A) employed a chief financial officer who is a certified public accountant or equivalently experienced accountant with experience in the dissemination of scientific and technical information; and

(B) begun taking reasonable steps toward strengthening its accounting system in response to the Inspector General's report described in paragraph (1).

(e) TECHNICAL AMENDMENT.—Section 5422(a) of the Omnibus Trade and competitiveness Act of 1988 (15 U.S.C. 4603a(a)) and section 273(c)(4) of the National Defense Authorization Act for Fiscal years 1988 and 1989 (15 U.S.C. 4603(c)(4)) are each amended by striking "Economic Affairs" and inserting in lieu thereof "Technology".

SEC. 104. NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY.

(a) FISCAL YEAR 1992.—(1) There are authorized to be appropriated to the Secretary, to carry out the intramural scientific and technical research and services activities of the Institute, $210,000,000 for fiscal year 1992, which shall be available for the following line items:

(A) Electronics and Electrical Measurements, $33,700,000.

(B) Manufacturing Engineering, $13,500,000.

(C) Chemical Science and Technology, $22,000,000.

(D) Physics, $27,000,000.

(E) Materials Science and Engineering, $30,000,000.

(F) Building and Fire Research, $12,300,000.

(G) Computer Systems, $16,000,000.

(H) Applied Mathematics and Scientific Computing, $6,500,000.

(I) Technology Assistance, $11,000,000.

(J) Research Support Activities, $38,000,000.

(2)(A) Of the total of the amounts authorized under paragraph (1), $2,000,000 are authorized only for steel technology.

(B) Of the amount authorized under paragraph (1)(I)—

(i) $500,000 are authorized only for the evaluation of nonenergy-related inventions and related technology extension activities;

(ii) $250,000 are authorized only for Institute participation in the pilot program established under subsection (e); and

(iii) $2,700,000 are authorized only for the Institute's management of the extramural funding programs authorized under section 105.

(C) Of the total amount authorized under paragraph (1)(J), $7,565,000 are authorized only for the technical competence fund.

(b) FISCAL YEAR 1993.—(1) There are authorized to be appropriated to the Secretary, to carry out the intramural scientific and technical research and services activities of the Institute, $221,200,000 for fiscal year 1993, which shall be available for the following line items:

(A) Electronics and Electrical Measurements, $36,000,000.

(B) Manufacturing Engineering, $16,000,000.

(C) Chemical Science and Technology, $22,500,000.

(D) Physics, $28,700,000.

(E) Materials Science and Engineering, $39,400,000.

(F) Building and Fire Research, $12,000,000.

(G) Computer Systems $20,600,000.

(H) Applied Mathematics and Scientific Computing, $6,300,000.

(I) Technology Assistance, $10,800,000.

(J) Research Support Activities, $25,000,000.

(K) Pay Raise, $3,900,000.

(2)(A) Of the total of the amounts authorized under paragraph (1), $2,000,000 are authorized only for steel technology.

(B) Of the amount authorized under paragraph (1)(I)—

(i) $500,000 are authorized only for the evaluation of nonenergy-related inventions and related technology extension activities;

(ii) $250,000 are authorized only for Institute participation in the pilot program established under subsection (e); and

(iii) $5,000,000 are authorized only for the Institute's management of the extramural funding programs authorized under section 105.

(C) Of the total amount authorized under paragraph (1)(J), $7,223,000 are authorized only for the technical competence fund.

(3) In addition to the amounts authorized under paragraph (1), there are authorized to be appropriated to the Secretary for fiscal year 1993 $34,800,000 for the renovation and upgrading of the Institute's facilities.

(c) TRANSFERS.—(1) Funds may be transferred among the line items listed in subsection (a)(1) and among the line items listed in subsection (b)(1), so long as the net funds transferred to or from any line item do not exceed 10 percent of the amount authorized for that line item in such subsection and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives are notified in advance of any such transfer.

(2) The Secretary may propose transfers to or from any line item listed in subsection (a)(1) or subsection (b)(1) exceeding 10 percent of the amount authorized for such line item, but such proposed transfer may not be made unless—

(A) a full and complete explanation of any such proposed transfer and the reason therefor are transmitted in writing to the Speaker of the House of Representatives, the President of the Senate, and the appropriate authorizing Committees of the House of Representatives and the Senate, and

(B) 30 calendar days have passed following the transmission of such written explanation.

(d) RELATION TO OTHER AUTHORIZATIONS.—Except for authorizations provided in the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100-418; 102 Stat. 1448), the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.), and the Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988 (15 U.S.C. 5101 et seq.), this Act contains the complete authorizations of appropriations for the Institute for fiscal years 1992 and 1993. This subsection shall not limit the authority of the Institute to accept funds appropriated to any other Federal agency or to perform work for others.

(e) PILOT PROGRAM.—Pursuant to the authorizations contained in subsections (a)(1)(I) and (b)(1)(I), the Secretary is authorized to pay the Federal share of the cost of establishing and carrying out a standards assistance pilot program under section 112 of the National Institute of Standards and Technology Authorization Act for Fiscal Year 1989 (15 U.S.C. 272 note). The purpose of the pilot program is to assist a country or countries that have requested assistance from the United States in the development of comprehensive industrial standards by providing the continuous presence of United States personnel on-site for a period of 2 or more years to provide such assistance and by providing, as necessary, additional technical support from within the Institue. Such funds shall be made available for such purpose only to the extent that matching funds are received by the National Institute of Standards and Technology from sources outside the Federal Government.

(f) CONSTRUCTION OF FACILITIES.—Section 14 of the National Institute of Standards and Technology Act (15 U.S.C. 278d) is amended by striking "herein" and all that follows, and inserting in lieu thereof "herein.".

(g) FIRE AND BUILDING PROGRAMS.—The fire research and building technology programs of the Institute may be combined for administrative purposes only, and separate budget accounts for fire research and building technology shall be maintained. No later than December 31, 1992, the Secretary, acting through the Director of the Institute, shall report to Congress on the results of the combination, on efforts to preserve the integrity of the fire research and building technology programs, on the long-range basic and applied research plans of the two programs, on procedures for receiving advice on fire and earthquake research priorities from constituencies concerned with public safety, and on the relation between the combined program at the Institute and the United States Fire Administration.

(h) EDUCATIONAL PROGRAMS.—(1) Section 18 of the National Institute of Standards and Technology Act (15 U.S.C. 278g-1)) is amended by striking the period at the end of the first sentence and inserting in lieu thereof ", and to United States citizens for research and technical activities on Institute programs.".

(2) Section 17 of the National Institute of Standards and Technology Act (15 U.S.C. 278g) is amended by adding at the end the following new subsection:

"(d) For any scientific and engineering disciplines for which there is a shortage of suitably qualified and available United States citizens and nationals, the Secretary is authorized to recruit and employ in scientific and engineering fields at the Institute foreign nationals who have been lawfully admitted to the United States for permanent residence under the Immigration and Nationality Act and who intend to become United States citizens. Employment of a person under this pragraph shall not be subject to the provisions of title 5, United States Code, governing employment in the competitive service, or to any prohibition in any other Act against the employment of aliens, or against the payment of compensation to them.".

(i) CORE PROGRAM FUNDING.—It is the sense of the Congress that the intramural scientific and technical research and services activities of the National Institute of Standards and Technology should share fully in any funding increases provided to the Institute.

SEC. 105. EXTRAMURAL PROGRAMS OF THE INSTITUTE.

(a) FISCAL YEAR 1992.—In addition to any sums otherwise authorized under this Act, there are authorized to be appropriated to the Secretary, to carry out the extramural industrial technology services programs of the Institute created under sections 25, 26, and 28 of the National Institute of Standards and Technology Act (15 U.S.C. 278k, 2781, and 278n), $217,500,000 for fiscal year 1992, which shall be available for the following line items:

(1) Regional Centers for the Transfer of Manufacturing Technology, $25,000,000.

(2) State Technology Extension Program, $2,500,000.

(3) Advanced Technology Program, $100,000,000.

(b) FISCAL YEAR 1993.—In addition to any sums otherwise authorized under this Act, there are authorized to be appropriated to the Secretary, to carry out the extramural industrial technology services programs of the Institute created under sections 25, 26, and 28 of the National Institute of Standards and Technology Act (15 U.S.C. 278k, 2781, and 278n), $127,500,000 for fiscal year 1993, which shall be available for the following line items:

(1) Regional Centers for the Transfer of Manufacturing Technology and Satellite Manufacturing Centers, $25,000,000.

(2) State Technology Extension Program, $2,500,000.

(3) Advanced Technology Program, $100,000,000.

(c) LIMITATION.—No funds are authorized under this section for any project under the extramural programs of the Institute which have not been competitively reviewed through the merit review processes required by the National Institute of Standards and Technology Act (15 U.S.C. 271 et seq.).

(d) AMENDMENTS TO EXTENSION PROGRAM.—Section 5121(b) of the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 2781 note) is amended by striking paragraph (5).

(e) AMENDMENTS TO EXTENSION ACTIVITIES.—(1) Section 25(c)(6) of the National Institute of Standards and Technology Act (15 U.S.C. 278k(c)(6)) is amended by inserting before the period at the end the following: "except for contracts for such specific technology extension or transfer services as may be specified by statute or by the Director".

(2) Section 25(d) of the National Institute of Standards and Technology Act (15 U.S.C. 278k(d)) is amended to read as follows:

"(d) In addition to such sums as may be authorized and appropriated to the Secretary and Director to operate the Centers program, the Secretary and Director also may accept funds from other Federal departments and agencies for the purpose of providing Federal funds to support Centers. Any Center which is supported with funds which originally came from other Federal departments and agencies shall be selected and operated according to the provisions of this section.".

(f) ADVISORY COMMITTEE.—Section 5142(f) of the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 4632(f)) is amended by striking "and 1990" and inserting in lieu thereof "1990, 1991, 1992, and 1993".

SEC. 106. SALARY ADJUSTMENTS.

In addition to any sums otherwise authorized by this Act, there are authorized to be appropriated to the Secretary for fiscal years 1992 and 1993 such additional sums as may be necessary to make any adjustments in salary, pay, retirement, and other employee benefits which may be provided for by law.

SEC. 107. METRIC AMENDMENT.

(a) The Fair Packaging and Labeling Act (15 U.S.C. 1451 et seq.) is amended—

(1) in sections 4(a)(2), (4), and (5), 4(b), and 5(c)(1), by striking "weight" and inserting in lieu thereof "weight or mass";

(2) in sections 4(a)(5) and 5(d), by striking "weights" and inserting in lieu thereof "weights or masses";

(3) in section 4(a)(2), by inserting ", using the most appropriate units of the SI metric system as the primary system for measuring quantity" after "panel of that label"; and

(4) in section 4(a)(3)(A)—

(A) by striking "containing" and inserting in lieu thereof "that also displays the avoirdupois system of measure, and that contains" in clause (i);

(B) by striking "that also displays the avoirdupois system of measure" after "random package" in clause (ii);

(C) by inserting "that also displays the avoirdupois system of measure" after "linear measure" in clause (iii); and

(D) by inserting "that also displays the avoirdupois system of measure" after "measure of area" in clause (iv).

(b) This section shall take effect 2 years after the date of enactment of this Act.

SEC. 108. TRANSFER OF FEDERAL SCIENTIFIC AND TECHNICAL INFORMATION.

(a) TRANSFER.—The head of each Federal executive department or agency shall transfer in a timely manner to the National Technical Information Service unclassified scientific, technical, and engineering information which results from federally funded research and development activities for dissemination to the private sector, academia, State and local governments, and Federal agencies. Only information which would otherwise be available for public dissemination shall be transferred under this subsection. Such information shall include technical reports and information, computer software, application assessments generated pursuant to section 11(c) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(c)), and information regarding training technology and other federally owned or originated technologies. The Secretary shall issue regulations within one year after the date of enactment of this Act outlining procedures for the ongoing transfer of such information to the National Technical Information Service.

(b) ANNUAL REPORT TO CONGRESS.—As part of the annual report required under section 212(f)(3) of the National Technical Information Act of 1988, the Secretary shall report to Congress on the status of efforts under this section to ensure access to Federal scientific and technical information by the public. Such report shall include—

(1) an evaluation of the comprehensiveness of transfers of information by each Federal executive department or agency under subsection (a);

(2) a description of the use of Federal scientific and technical information;

(3) plans for improving public access to Federal scientific and technical information; and

(4) recommendations for legislation necessary to improve public access to Federal scientific and technical information.

SEC. 109. AVAILABILITY OF APPROPRIATIONS.

Appropriations made under the authority provided in this Act shall remain available for obligation, for expenditure, or for obligation and expenditure for periods specified in the Acts making such appropriations.

SEC. 110. REPORT ON FACILITIES NEEDS.

By March 1, 1992, the Director of the Institute shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on what renovations and upgrades of Institute facilities are necessary over the next decade. The report shall include a ranking of facilities needs in order of priority, an estimate of costs, and the Director's plan for meeting these needs.

SEC. 111. BUY-AMERICAN PROVISIONS.

(a) RESTRICTIONS ON CONTRACT AWARDS.—No contract or subcontract made with funds authorized under this title may be awarded for the procurement of an article, material, or supply produced or manufactured in a foreign country whose government unfairly maintains in government procurement a significant and persistent pattern or practice of discrimination against United States products or services which results in identifiable harms to United States businesses, and identified by the President pursuant to subsection (g)(1)(A) of section 305 of the Trade Agreements Act of 1979 (19 U.S.C. 2515(g)(1)(A)). Any such determination shall be made in accordance with such section 305.

(b) PROHIBITION AGAINST FRAUDULENT USE OF "MADE IN AMERICA" LABELS.—If it has been finally determined by a court or a Federal agency that any person intentionally affixed a label bearing a "Made in America" inscription, or an inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, that person shall be ineligible to receive any contract or subcontract from the Department of Commerce, pursuant to the debarment, suspension, and ineligibility procedures in subpart 9.4 of chapter 1 of title 48, Code of Federal Regulations.

(c) BUY-AMERICAN REQUIREMENT.—(1) The Secretary is authorized to award to a domestic firm a contract for the purchase of goods that, under the use of competitive procedures, would be awarded to a foreign firm, if—

(A) the final product of the domestic firm will be completely assembled in the United States;

(B) when completely assembled, more than 50 percent of the final product of the domestic firm will be domestically produced; and

(C) the difference between the bids submitted by the foreign and domestic firms is not more than 6 percent.

(2) This subsection shall not apply to the extent to which—

(A) in the opinion of the Secretary, after taking into consideration international obligations and trade relations, such applicability would not be in the public interest;

(B) in the opinion of the Secretary, after consultation with the Secretary of Defense, compelling national security considerations require otherwise; or

(C) the President determines that such an award would be in violation of the General Agreement on Tariffs and Trade or an international agreement to which the United States is a party.

(3) This subsection shall apply only to contracts made for which—

(A) amounts are authorized by this title to be made available; and

(B) solicitations for bids are issued after the date of enactment of this Act.

(4) The Secretary, before January 1, 1993, shall report to the Congress on contracts covered under this subsection—

(A) entered into with foreign firms pursuant to a determination made under paragraph (2) of this subsection; and

(B) awarded to domestic firms pursuant to paragraph (1) of this subsection, in fiscal years 1991 and 1992.

(5) For purposes of this subsection—

(A) the term "domestic firm" means a business entity that is incorporated in the United States and that conducts business operations in the United States; and

(B) the term "foreign firm" means a business entity not described in subparagraph (A).

TITLE II—ADVANCED TECHNOLOGY PROGRAM AMENDMENTS

SEC. 201. EMERGING TECHNOLOGIES RESEARCH AND DEVELOPMENT.

(a) SHORT TITLE.—This title may be cited as the "Emerging Technologies and Advanced Technology Program Amendments Act of 1991".

(b) FINDINGS AND PURPOSES.—(1) The Congress finds that—

(A) technological innovation and its profitable inclusion in commercial products are critical components of the ability of the United States to raise the living standards of Americans and to compete in world markets;

(B) maintaining viable United States-based high technology industries is vital to both the national security and the economic well-being of the United States;

(C) the Department of Commerce has reported that the United States is losing or losing badly, relative to Japan and Europe, in many important emerging technologies and risks losing much of the $350 billion United States market and $1 trillion world market expected to develop by the year 2000 for products based on emerging technologies;

(D) it is in the national interest for the Federal Government to encourage and, in selected cases, provide limited financial assistance to industry-led private sector efforts to increase research and development in economically critical areas of technology;

(E) joint ventures are a particularly effective and appropriate way to pool resources to conduct research that no single company is likely to undertake but which will create new generic technologies that will benefit an entire industry and the welfare of the Nation;

(F) it is vital that industry within the United States attains a leadership role and capability in development, design, and manufacturing in fields such as high-resolution information systems, advanced manufacturing, and advanced materials; and

(G) the Advanced Technology Program, established under section 28 of the National Institute of Standards and Technology Act (15 U.S.C. 278n), is the appropriate vehicle for the United States Government to provide limited assistance to joint development within the United States of new high technology capabilities in fields such as high-resolution information systems, advanced manufacturing technology, and advanced materials, and can help encourage United States industry to work together on problems of mutual concern.

(2) The purposes of this section are—

(A) to strengthen the Advanced Technology Program created under section 28 of the National Institute of Standards and Technology Act (15 U.S.C. 278n), and to provide improved guidelines for the allocation of Advanced Technology Program funds appropriated under the authorizations contained in section 105 of this Act;

(B) to promote and assist in the development of advanced technologies and the generic application of such technologies to civilian products, processes, and services;

(C) to improve the competitive position of United States industry by supporting industry-led research and development projects in areas of emerging technology which have substantial potential to advance the economic well-being and national security of the United States, such as high-resolution information systems, advanced manufacturing technology, and advanced materials; and

(D) to support projects that range from idea exploration to prototype development and address long-term, high-risk areas of technological research, development, and application that are not otherwise being adequately developed by the private sector, but are likely to yield important benefits to the Nation.

(c) ADVANCED TECHNOLOGY PROGRAM.—(1) Section 28(a) of the National Institute of Standards and Technology Act (15 U.S.C. 278n(a)), is amended by adding at the end the following new sentence: "In operating the Program, the Secretary and Director shall, as appropriate, be guided by the findings and recommendations of the Biennial National Critical Technology Reports prepared pursuant to section 603 of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6683)."

(2) Section 28(b)(1) of the National Institute of Standards and Technology Act (15 U.S.C. 278n(b)(1)), is amended by inserting "industry-led" immediately after "aid".

(3) Section 28(b)(1)(B) of the Act of March 3, 1901 (15 U.S.C. 278n(b)(1)(B)), is amended by inserting "by means of grants, cooperative agreements, or contracts" immediately after "such joint ventures".

(4) Section 28(b)(2) of the National Institute of Standards and Technology Act (15 U.S.C. 278n(b)(2)), is amended to read as follows:

"(2) provide grants to and enter into contracts and cooperative agreements with United States businesses (especially small businesses), provided that emphasis is placed on applying the Institute's research, research techniques, and expertise to those organizations' research programs;".

(5) Section 28(d)(2) of the National Institute of Standards and Technology Act (15 U.S.C. 278n(d)(2)), is amended to read as follows:

"(2) In the case of joint ventures, the Program shall not make an award unless the award will facilitate the formation of a joint venture or the initiation of a new research and development project by an existing joint venture.".

(6) Section 28(d) of the Act of National Institute of Standards and Technology Act (15 U.S.C. 278n(d)(7)), is amended—

(A) by striking paragraph (7);

(B) by redesignating paragraphs (8) and (9) as paragraphs (7) and (8), respectively; and

(C) by adding at the end the following new paragraphs:

"(9) A company shall be eligible to receive financial assistance under this section only if—

"(A) the Secretary finds that the company's participation in the Program would be in the economic interest of the United States as evidenced by investments in the United States in research, development, and manufacturing (including, for example, the manufacture of major components or subassemblies in the United States); significant contributions to employment in the United States; and agreement with respect to any technology arising from assistance provided under this section to promote the manufacture within the United States of products resulting from that technology (taking into account the goals of promoting the competitiveness of United States industry), and to procure parts and materials from competitive suppliers; and

"(B) either—

"(i) the company is a United States-owned company; or

"(ii) the Secretary finds that the company is incorporated in the United States and has a parent company which is incorporated in a country which affords to United States-owned companies opportunities, comparable to those afforded by any other company, to participate in any joint venture similar to those authorized under this Act; affords to United States-owned companies local investment opportunities comparable to those afforded to any other company; and affords adequate and effective protection for the intellectual property rights of United States-owned companies.

"(10) Grants, contracts, and cooperative assignments under this section shall be designed to support projects which are high risk and which have the potential for eventual substantial widespread commercial application. In order to receive a grant, contract, or cooperative agreement under this section, a research and development entity shall demonstrate to the Secretary the requisite ability in research and technology development and management in the project area in which the grant, contract, or cooperative agreement is being sought.

"(11)(A) Title to any intellectual property arising from assistance provided under this section shall vest in a company or companies incorporated in the United States. The United States may reserve a nonexclusive, nontransferable, irrevocable paid-up license, to have practiced for or on behalf of the United States, in connection with any such intellectual property, but shall not, in the exercise of such license, publicly disclose proprietary information related to the license. Title to any such intellectual property shall not be transferred or passed, except to a company incorporated in the United States, until the expiration of the first patent obtained in connection with such intellectual property.

"(B) For purposes of this paragraph, the term 'intellectual property' means an invention patentable under title 35, United States Code, or any patent on such an invention.

"(C) Nothing in this paragraph shall be construed to prohibit the licensing to any company of intellectual property rights arising from assistance provided under this section.".

(7) Section 28(e) of the National Institute of Standards and Technology Act (15 U.S.C. 278n(e)), is amended to read as follows:

"(e) The Secretary may, within 30 days after notice to Congress, suspend a company or joint venture from continued assistance under this section if the Secretary determines that the company, the country of incorporation of the company or a parent company, or the joint venture has failed to satisfy any of the criteria set forth in subsection (d)(9), and that it is in the national interest of the United States to do so.".

(8) Section 28 of the National Institute of Standards and Technology Act (15 U.S.C. 278n), is amended by adding at the end the following new subsections:

"(f) When reviewing private sector requests for awards under the Program, and when monitoring the progress of assisted research projects, the Secretary and the Director shall, as appropriate, coordinate with the Secretary of Defense and other senior Federal officials to ensure cooperation and coordination in Federal technology programs and to avoid unnecessary duplication of effort. The Secretary and the Director are authorized to work with the Director of the Office of Science and Technology Policy, the Secretary of Defense, and other appropriate Federal officials to form interagency working groups or special project offices to coordinate Federal technology activities.

"(g) In order to analyze the need for the value of joint ventures and other research projects in specific technical fields, to evaluate any proposal made by a joint venture or company requesting the Secretary's assistance, or to monitor the progress of any joint venture or any company research project which receives Federal funds under the Program, the Secretary, the Under Secretary of Commerce for Technology, and the Director may, notwithstanding any other provision of law, meet with such industry sources as they consider useful and appropriate.

"(h) Up to 10 percent of the funds appropriated for carrying out this section may be used for standards development and technical activities by the Institute in support of the purposes of this section.

"(i) In addition to such sums as may be authorized and appropriated to the Secretary and Director to operate the Program, the Secretary and Director also may accept funds from other Federal departments and agencies for the purpose of providing Federal funds to support awards under the Program. Any Program award which is supported with funds which originally came from other Federal departments and agencies shall be selected and carried out according to the provisions of this section.

"(j) As used in this section—

"(1) the term 'joint venture' means any group of activities, including attempting to make, making, or performing a contract, by two or more persons for the purpose of—

"(A) theoretical analysis, experimentation, or systematic study of phenomena or observable facts;

"(B) the development or testing of basic engineering techniques;

"(C) the extension of investigative finding or theory of a scientific or technical nature into practical application for experimental and demonstration purposes, including the experimental production and testing of models, prototypes, equipment, materials, and processes;

"(D) the collection, exchange, and analysis of research information;

"(E) the production of any product, process, or service; or

"(F) any combination of the purposes specified in subparagraphs (A), (B), (C), (D), and (E),

and may include the establishment and operation of facilities for the conducting of research, the conducting of such venture on a protected and proprietary basis, and the prosecuting of applications for patents and the granting of licenses for the results of such venture; and

"(2) the term 'United States-owned company' means a company that has majority ownership or control by individuals who are citizens of the United States."

(d) EFFECTIVE DATE.—The amendments in subsection (c) shall take effect immediately upon enactment; however, the amendments shall not apply to applications submitted before the date of enactment of this Act.

(e) MANAGEMENT COSTS.—Section 2 of the National Institute of standards and Technology Act (15 U.S.C. 272) is amended by adding at the end thereof the following new subsection:

"(d) In carrying out the extramural funding programs of the Institute, including the programs established under section 25, 26, and 28 of this Act, the Secretary may retain reasonable amounts of any funds appropriated pursuant to authorizations for these programs in order to pay for the Institute's management of these programs.".

(f) COMPREHENSIVE REPORT.The Secretary shall, not later than 4 years after the date of enactment of this Act, submit to each House of the Congress and the President a comprehensive report on the results of the Advanced Technology Program established under section 28 of the National Institute of Standards and Technology act (15 U.S.C. 278n), including any activities in the areas of high-resolution information systems, advanced manufacturing technology, and advanced materials.

TITLE III—AMENDMENTS TO THE STEVENSON-WYDLER TECHNOLOGY INNOVATION ACT OF 1980

SEC. 301. FEDERAL LABORATORY CONSORTIUM.

(a) Section 11(e)(2) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(e)(2)) is amended by inserting "senior" after "Consortium and a".

(b) Section 11 (e)(6) of the Stevenson—Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(e)(6)) is amended by adding at the end the following: "Such report shall include an annual independent audit of the financial statements of the Consortium, conducted in accordance with generally accepted accounting principles.".

(c) Section 11(e)(7)(B)(ii) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(e)(7)(B)(ii)) is amended by striking "or 1991" and inserting in lieu thereof "1991, 1992, 1993, 1994, 1995, or 1996".

(d) Section 11(e)(8) of the Stevenson—Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710(e)(8)) is repealed.

SEC. 302. COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENTS.

(a) Section 12(d)(1) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a(d)(1)) is amended by inserting "intellectual property," after "equipment," both places it appears.

(b) Within 6 months after the date of enactment of this Act, the Secretary shall report to the Congress on the advisability of authorizing a new form of cooperative research and development agreement which would permit Federal contributions of fund.

SEC. 303. RESEARCH EQUIPMENT.

Section 11 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710) is amended by adding at the end the following new subsection:

"(i) RESEARCH EQUIPMENT.—The Director of a laboratory, or the head of any Federal agency or department, may give research equipment that is excess to the needs of the laboratory, agency, or department to an educational institution or nonprofit organization for the conduct of technical and scientific education and research activities. Title of ownership shall transfer with a gift under the section.".

SEC. 304. DEFINITION OF FEDERAL AGENCY.

Section 4(8) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3703(8)) is amended by inserting ", as well as any agency of the legislative branch of the Federal Government" after "of such title".

SEC. 305. QUALITY IMPROVEMENT.

Section 17(f) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3711a(f)) is amended by adding at the end the following: "The Director is authorized to use appropriated funds to carry out responsibilities under this Act.".

SEC. 306. UNDER SECRETARY.

Section 5(c) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3704(c)) is amended—

(1) by redesignating paragraphs (13) and (14) as paragraphs (14) and (15), respectively; and

(2) by inserting after paragraph (12) the following new paragraph:

"(13) serve as a focal point for discussions among United States companies on topics of interest to industry and labor, including discussions regarding manufacturing and discussions regarding emerging technologies;".

TITLE IV—NATIONAL COMMISSION ON REDUCING CAPITAL COSTS FOR EMERGING TECHNOLOGY

SEC. 401. NATIONAL COMMISSION ON REDUCING CAPITAL COSTS FOR EMERGING TECHNOLOGY.

(a) ESTABLISHMENT AND PURPOSE.—There is established a National Commission on Reducing Capital Costs for Emerging Technology (hereafter in this section referred to as the "Commission"), for the purpose of developing recommendations to increase the competitiveness of United States industry by encouraging investments in research, the development of new process and product technologies, and the production of those technologies.

(b) ISSUES.—The function of the Commission shall be to address the following issues:

(1) How has the overall cost of capital paid by United States companies differed during the past decade from that paid by companies in other industrial economies such as Germany, Japan, and the United Kingdom?

(2) To what extent has the cost of capital faced by technology companies differed from the overall cost of capital in each of these nations during the same period?

(3) To what extent do high capital costs in general inhibit investment in projects with long-term payoffs, such as the development and commercialization of new technology?

(4) To what extent does the structure of the financial services industry in the United States affect the flow of capital to advanced technology investment, and to what extent do current practices in the equity markets raise the cost of capital and inhibit the availability of capital to fund research and development, purchase advanced manufacturing equipment, and fund other investments necessary to commercialize advanced technology?

(5) In what ways do Government regulations influence the cost of capital in the United States?

(6) To what extent have national differences in capital costs facilitated the foreign acquisition of technology-based United States companies?

(7) What macroeconomic and other policies would promote greater investment in advanced manufacturing techniques, in research and development, and in other activities necessary to commercialize and produce now technologies?

(8) What specific policies should the Federal Government follow in order to reduce the cost of capital for United States companies to levels that are near parity with those faced by the Nation's principal trading partners?

(c) MEMBERSHIP.—(1) The Commission shall be composed of 9 members who are eminent in such fields as advanced technology, manufacturing, finance, and international economics and who are appointed as follows:

(A) 3 individuals appointed by the President, one of whom shall chair the Commission.

(B) 3 individuals appointed by the Speaker of the House of Representatives, 1 of whom shall be appointed upon the recommendation of the minority leader of the House of Representatives.

(C) 3 individuals appointed by the President pro tempore of the Senate, 2 of whom shall be appointed upon the recommendation of the majority leader of the Senate and 1 of whom shall be appointed upon the recommendation of the minority leader of the Senate.

(2) Each member shall be appointed for the life of the Commission. A vacancy in the Commission shall be filled in the manner in which the original appointment was made.

(d) PROCEDURES.—(1) The Chairman shall call the first meeting of the Commission within 90 days after the date of enactment of this Act.

(2) Recommendations of the Commissions shall require the approval of three-quarters of the members of the Commission.

(3) The Commission may use such personnel detailed from Federal agencies as may be necessary to enable it to carry out its duties.

(4) Members of the Commission, other than full-time employees of the Federal Government, while attending meetings of the Commission while away from their homes or regular places of business, shall be allowed travel expenses in accordance with subchapter I of chapter 57 of title 5, United States Code.

(e) REPORTS.—The Commission shall, within 1 year after the date of enactment of this Act, submit to the President and Congress a report containing legislative and other recommendations with respect to the issues addressed under subsection (b).

(f) CONSULTATION.—The Commission shall consult, as appropriate, with the Commission on Technology and Procurement established by section 505 of this Act.

(g) TERMINATION.—The Commission shall terminate 6 months after the submission of its report under subsection (e).

(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for the fiscal years 1992 and 1993.

TITLE V—STUDIES AND REPORTS

SEC. 501. HIGH-RESOLUTION INFORMATION SYSTEMS ADVISORY BOARD.

(a) ESTABLISHMENT AND PURPOSE.—The Directory of the Office of Science and Technology Policy shall establish within that office a High-Resolution Information Systems Advisory Board (hereafter in this section referred to the "Board") to monitor and, as appropriate, foster the development of United States-based high-resolution information systems industries.

(b) DEFINITION.—As used in this title, the term "high-resolution information systems" means the equipment and techniques required to create, store, recover, and play back high-resolution images and accompanying sound.

(c) FUNCTIONS.—The board shall—

(1) collect and analyze information on the range of factors which will determine whether United States-based high-resolution information systems industries will develop and become competitive, including such factors as technology policies, specialized financial problems, international standards and foreign trade practices, Federal regulations and procurement policies, and licensing practices;

(2) identify areas where appropriate cooperation between the Federal Government

and the private sector, including Government support for industry-led joint research and development ventures, would enhance United States industrial competitiveness in this area, and provide advice and guidance for such cooperative efforts;

(3) provide guidance on what Federal policies and practices, particularly in such areas as procurement and the transfer of federally-funded research, are necessary to help establish United States-based high-resolution information systems industries;

(4) provide advice on the coordination of Federal defense and civilian activities to maximize and assist with the transfer of technologies in the field of high-resolution information systems into commercial products; and

(5) generally develop recommendations for guiding Federal agency activities related to the development of United States-based high-resolution information systems industries.

(d) MEMBERSHIP AND PROCEDURES.—(1)(A) The Board shall be composed of 13 members, 7 of whom shall constitute a quorum.

(B) The Director of the Office of Science and Technology Policy, the Secretary, the Directory of the Defense Advanced Research Projects Agency, and the Administrator of the National Aeronautics and Space Administration, or their designees, shall serve as members of the Board.

(C) The President, acting through the Director of the Office of Science and Technology Policy, within 90 days after the date of enactment of this Act, shall appoint as additional members of the Board—

(i) 5 members from the private electronics manufacturing sector, drawn from such sectors as semiconductors, display equipment, computers, consumer electronics, and telecommunications, with 1 member also representing labor;

(ii) 3 members from the private nonmanufacturing sector, including 1 representative from the transmission delivery the software industry, the entertainment industry, and the investment community; and

(iii) 1 member from academia.

At least 1 member appointed under this subparagraph shall be from small business.

(2) The Director of the Office of Science and Technology Policy or the Director's designee shall chair the Board.

(3) The chairman shall call the first meeting of the Board within 30 days after the appointment of members is completed.

(4) The Board may use such personnel detailed from Federal agencies as may be necessary to enable it to perform its functions.

(5) Members of the Board, other than full-time employees of the Federal Government, while attending meetings of the Board or otherwise performing duties of the Board while away from their homes or regular places of business, shall be allowed travel expenses in accordance with subchapter I of chapter 57 of title 5, United States Code.

(6) The Board shall submit a report of its activities once every year after its establishment to the President, the Committees on Science, Space, and Technology and on Energy and Commerce of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate.

(e) LIMITATION ON FUNCTIONS.—Nothing in this section or any other provision of this Act shall be construed—

(1) to authorize the Board to investigate or provide advice or guidance with respect to standards or other regulations or policies related to the transmission, delivery, or receipt of broadcast television or cable television signals subject to regulation by the Federal Communications Commission under the Communications Act of 1934 (47 U.S.C. 151 et seq.); or

(2) to limit, modify, or affect in any manner the authorities, functions, or responsibilities of the Federal Communications Commission or the National Telecommunications and Information Administration.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for the fiscal years 1992 and 1993.

SEC. 502. MAJOR SCIENCE AND TECHNOLOGY PROPOSALS.

The National Science and Technology Policy, Organization, and Priorities Act of 1976 is amended by adding at the end of title II the following new section:

"MAJOR SCIENCE AND TECHNOLOGY PROPOSALS

"SEC. 209. The Director shall identify and provide an annual report to Congress on each major multinational science and technology project, in which the United States is not a participant, which has a total estimated cost greater than $1,000,000,000.".

SEC. 503. BIENNIAL NATIONAL CRITICAL TECHNOLOGIES REPORT AMENDMENTS.

Section 603 of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6683) is amended—

(1) in subsection (a), by inserting ", but shall include the most economically important emerging civilian technologies during the 10-year period following such report, together with the estimated current and future size of domestic and international markets for products derived from these technologies" after "may not exceed 30";

(2) in subsection (b), by striking "national security and" and inserting in lieu thereof "national security or";

(3) by redesignating subsection (d) as subsection (e); and

(4) by inserting after subsection (c) the following new subsection:

"(d) Each such report shall include—

"(1) an identification of the types of research and development needed to close any significant gaps of deficiencies in the technology base of the United States, as compared with the technology bases of major trading partners; and

"(2) a list of the technologies and markets targeted by major trading partners for development or capture.".

SEC. 504. CRITICAL INDUSTRIES.

(a) IDENTIFICATION OF INDUSTRIES AND DEVELOPMENT OF PLAN.—The Secretary shall—

(1) identify those civilian industries in the United States that are necessary to support a robust manufacturing infrastructure and critical to the economic security of the United States; and

(2) list the major research and development initiatives being undertaken, and the substantial investments being made, by the Federal Government, including its research laboratories, in each of the critical industriews indentified under paragraph (1).

(b) INITIAL REPORT.—The Secretary shall submit a report to the Congress within 1 year after the date of enactment of this Act on the actions taken under subsection (a).

(c) ANNUAL UPDATES.—The Secretary shall annually submit to the Congress an update of the report submitted under subsection (b). Each such update shall—

(1) describe that status of each identified critical industry, including the advances and declines occurring since the most recent report; and

(2) identify any industries that should be added to the list of critical industries.

SEC. 505. RESEARCH, DEVELOPMENT, TECHNOLOGY UTILIZATION, AND GOVERNMENT PROCUREMENT POLICY.

(a) ESTABLISHMENT OF COMMISSION.—The Secretary, in consultation with the Administrator of the Office of Federal Procurement Policy, shall establish a Commission on Technology and Procurement (hereafter in this section referred to as the "Commission"), for the purposes of analyzing the effect of Federal Government procurement laws, procedures, and policies on the development of advanced technologies within the United States and making recommendations on how Federal policy could be changed to promote further the development of advanced technologies.

(b) ISSUES.—The Commission shall address the following issues:

(1) To what extent, if any, should Federal Government technology purchase strategies be used to give domestic suppliers a competitive advantage in new generations of existing technologies and initial market penetration for new technologies?

(2) Under what conditions can Federal Government purchases of advanced technology-based products be based on performance specifications rather than on product specifications? Should Federal Government procurement first look to the commercial markets for products that will meet performance specifications before purchasing a unique product that has to be developed?

(3) How can the Federal Government procurement laws, practices, and procedures be used as a strategic tool to foster the use of emerging technologies?

(4) How can the Federal Government ensure that its supplies adopt the principles embodied in the Malcolm Baldrige National Quality Award?

(5) Should Federal Government procurement practices include cooperative efforts between the supplier and the Federal entity to develop products so as to be more easily marketed on a commerical basis? Should a program for the exchange of technical personnel to foster innovation in product development be part of such practices?

(6) To what extent, if any, should Federal Government documents specify standards that are beneficial to domestic suppliers, aid the compatibility of advanced technologies, and speed the commercial acceptance of those technologies, and what would be the role of the Institute in such an effort?

(7) Should Federal Government procurement be linked to the Advanced Technology Program and to technology transfer activities so that specification development can incorporate the latest technical advances available?

(8) To what extent should worldwide, state of the art technology be required in Federal Government procurement?

(c) MEMBERSHIP AND PROCEDURES.—(1) The Commission shall be composed of 15 members, 8 of whom shall constitute a quorum.

(2) The Secretary, the Administrator of the Office of Federal Procurement Policy, the Director of the Office of Science and Technology Policy, the Secretary of Defense, and the Administrator of General Services, or their designees who serve in executive level positions, shall serve as members of the Commission.

(3) The Secretary shall appoint as members of the Commission, from among individuals not employed by the Federal Government—

(A) 4 members who are eminent in advanced technology business representing manufacturing and services industries, including at least 1 member representing labor;

(B) 3 members who are eminent in the fields of technology and international economic development; and

(C) with the concurrence of the Administrator of the Office of Federal Procurement Policy, 3 members who are eminent in the field of Federal Government procurement.

(4) The Secretary shall appoint a Commission chairman from among the members of the Commission. The chairman shall call the first meeting of the Commission within 90 days after the date of enactment of this Act.

(5) The Secretary and the Administrator of the Office of Federal Procurement Policy shall provide such staff as may be required by the Commission to carry out its responsibilities.

(6) Members of the Commission, other than full-time employees of the Federal Government, while attending meetings of the Commission or otherwise performing duties of the Commission while away from their homes or regular places of business, shall be allowed travel expenses in accordance with subchapter I of chapter 57 of title 5, United States Code.

(d) Reports.—(1) The Commission shall, within 1 year after the date of enactment of this Act, submit to the Secretary, the Administrator of the Office of Federal Procurement Policy, the President, and Congress a report containing preliminary recommendations with respect to the issues addressed under subsection (b).

(2) The Commission shall, within 2 years after the date of enactment of this Act, submit to the Secretary and Congress a final report containing final recommendations with respect to the issues addressed under subsection (b).

(e) Consultation.—The Commission shall consult, as appropriate, with the National Commission on Reducing Capital Costs for Emerging Technology.

(f) Termination.—The Commission shall terminate 6 months after the submission of its final report under subsection (d)(2).

(g) Authorization of Appropriations.—There are authorized to be appropriated to carry out this section such sums as may be necessary for the fiscal years 1992, 1993, and 1994.

SEC. 506. REPORT ON INFORMATION COLLECTION AND DISSEMINATION.

(a) Report.—Within 270 days after the date of enactment of this Act, the Secretary shall report to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate on the feasibility of establishing and operating a Federal Online Information Product Catalog (FEDLINE) at the National Technical Information Service which would serve as a comprehensive inventory and authorizative register of information products and services disseminated by the Federal Government and assist agencies and the public in locating Federal Government information. Information protected from public disclosure shall not be included. In studying the concept, the Secretary, acting through the Under Secretary and the Director of the National Technical Information Service, shall consult with officials from appropriate Government agencies, including the Office of Management and Budget, the National Archives, the Government Printing Office, and the Institute, and with representatives of the public, for their views on the optimal composition and format of FEDLINE. Such report shall contain cost estimates and possible funding sources for establishing and operating FEDLINE and shall list any changes in law and regulation that would be required if FEDLINE were to be implemented.

(b) Funding.—The Director of the National Technical Information Service may retain and use all monies received, including receipts, revenues, and advanced payments and deposits, to fund obligations and expenses through the end of fiscal year 1993.

(c) Electronic Format.—Section 212(e)(5) of the National Technical Information Act of 1988 (15 U.S.C. 3704b(e)(5)) is amended by inserting ", including producing and disseminating information products in electronic format" after "engineering information".

SEC. 507. NATIONAL QUALITY COUNCIL.

(a) Establishment and Functions.—There is established a National Quality Council (hereafter in this section referred to as the "Council"). The functions of the Council shall be—

(1) to establish national goals and priorities for Quality performance in business, education, government, and all other sectors of the nation;

(2) to encourage and support the voluntary adoption of these goals and priorities by companies, unions, professional and business associations, coalition groups, and units of government, as well as private and nonprofit organizations;

(3) to arouse and maintain the interest of the people of the United States in quality performance, and to encourage the adoption and institution of Quality performance methods by all corporation, government agencies, and other organizations; and

(4) to conduct a White House Conference on Quality Performance in the American Workplace that would bring together in a single forum national leaders in business, labor, education, professional societies, the media, government, and politics to address Quality performance as a means of improving United States competitiveness.

(b) Membership.—The Council shall consist of not less than 17 nor more than 20 members, appointed by the Secretary. Members shall include—

(1) at least 2 but not more than 3 representatives from manufacturing industry;

(2) at least 2 but not more than 3 representatives from service industry;

(3) at least 2 but not more than 3 representatives from national Quality not-for-profit organizations;

(4) two representatives from education, one with expertise in elementary and secondary education, and one with expertise in postsecondary education;

(5) one representative from labor;

(6) one representative from professional societies;

(7) one representative each from local and State government;

(8) one representative from the Federal Quality Institute;

(9) one representative from the National Institute of Standards and Technology;

(10) one representative from the Department of Defense;

(11) one representative from a civilian Federal agency not otherwise represented on the Council, to be rotated among such agencies every 2 years; and

(12) one representative from the Foundation for the Malcolm Baldrige National Quality Award.

(c) Terms.—The term of office of each member of the Council appointed under paragraphs (1) through (7) of subsection (b) shall be 2 years, except that when making the initial appointments under such paragraphs; the Secretary shall appoint not more than 50 percent of the members to 1 year terms. No member appointed under such paragraphs shall serve on the Council for more than 2 consecutive terms.

(d) Chairman and Vice Chairman.—The Secretary shall designate one of the members initially appointed to the Council as Chairman. Thereafter, the members of the Council shall annually elect one of their number as Chairman. The members of the Council shall also annually elect one of their members as Vice Chairman. No individual shall serve as Chairman or Vice Chairman for more than 2 consecutive years.

(e) Executive Director and Employees.—The Council shall appoint and fix the compensation of an Executive Director, who shall hire and fix the compensation of such additional employees as may be necessary to assist the Council in carrying out its functions. In hiring such additional employees, the Executive Director shall ensure that no individual hired has a conflict of interest with the responsibilities of the Council.

(f) Funding.—There is established in the Treasury of the United States a National Quality Performance Trust Fund, into which all funds received by the Council, through private donations or otherwise, shall be deposited. Amounts in such Trust Fund shall be available to the Council, to the extent provided in advance in appropriations Acts, for the purpose of carrying out the functions of the Council under this Act.

(g) Contributions.—The Council may not accept private donations from a single source in excess of $25,000 per year. Private donations from a single source in excess of $10,000 per year may be accepted by the Council only on approval of two-thirds of the Council.

(h) Annual Report.—The Council shall annually submit to the President and the Congress a comprehensive and detailed report on—

(1) the progress in meeting the goals and priorities established by the Council;

(2) the Council's operations, activities, and financial condition;

(3) contributions to the Council from non-Federal sources;

(4) plans for the Council's operations and activities for the future; and

(5) any other information or recommendations the Council considers appropriate.

SEC. 508. STUDY OF TESTING AND CERTIFICATION.

(a) Contract With National Research Council.—Within 90 days after the date of enactment of this Act and within available appropriations, the Secretary shall enter into a contract with the National Research Council for a thorough review of international product testing and certification issues. The National Research Council will be asked to address the following issues and make recommendations as appropriate:

(1) The impact on United States manufacturers, testing and certification laboratories, certification organizations, and other affected bodies of the European Community's plans for testing and certification of regulated and nonregulated products of non-European origin.

(2) Ways for United States manufacturers to gain acceptance of their products in the European Community and in other foreign countries and regions.

(3) The feasibility and consequences of having mutual recognition agreements between testing and certification organizations in the United States and those of major trading

partners on the accreditation of testing and certification laboratories and on quality control requirements.

(4) Information coordination regarding product acceptance and conformity assessment mechanisms between the United States and foreign governments.

(5) The appropriate Federal, State, and private roles in coordination and oversight of testing, certification, accreditation, and quality control to support national and international trade.

(b) MEMBERSHIP.—In selecting the members of the review panel, the National Research Council shall consult with and draw from, among others, laboratory accreditation organizations, Federal and State government agencies involved in testing and certification, professional societies, trade associations, small business, and labor organizations.

(c) REPORT.—A report based on the findings and recommendations of the review panel shall be submitted to the Secretary, the President, and Congress within 18 months after the Secretary signs the contract with the National Research Council.

SEC. 509. REPORT ON A STRATEGY TO STIMULATE COMPETITIVE RESEARCH.

(a) IN GENERAL.—No later than 120 days after the date of enactment of this Act, the Director of the Office of Science and Technology Policy shall submit to Congress a report presenting a proposed strategy for improving the university research capabilities of those States which historically have received relatively little Federal research and development funding. The report shall particularly—

(1) analyze recent steps to use the National Science Foundation's Experimental Program to Stimulate Competitive Research as a model for similar programs in several other Federal departments and agencies which fund research and development; and

(2) examine the feasibility and advisability of using that program as a model for Federal research and development agencies which do not currently have similar programs.

(b) ANALYSIS AND DISCUSSION.—The report shall include an analysis and discussion of—

(1) the geographic distribution of Federal research and development grants and contracts;

(2) current Federal efforts to stimulate competitive research; and

(3) the feasibility and advisability of new Federal programs to stimulate competitive research.

SEC. 510. INTERAGENCY COORDINATION.

The Secretary shall, within 180 days after the date of enactment of this Act, submit to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, a plan for coordination of Commerce Department efforts with other Federal agencies for activities related to high-resolution information systems, including research and development activities.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 1459) was agreed to.

Mr. FORD. I move to reconsider the vote.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HOLLINGS. Mr. President, I am pleased that the Senate is considering S. 1034, the American Technology Preeminence Act of 1991, which I introduced earlier this session. This important legislation will reauthorize the programs of the Department of Commerce's [DOC] Technology Administration, including its National Institute of Standards and Technology [NIST], and will ensure that DOC's important new initiatives to help strengthen U.S. industrial competitiveness are continued and expanded. The substitute version now before the Senate incorporates the provisions of the bill reported in September by the Commerce Committee and provisions in H.R. 1989, a similar bill passed earlier this year by the House.

THE NEED FOR INDUSTRY-GOVERNMENT PARTNERSHIP ON TECHNOLOGY ISSUES

The need for Government and business to work together to strengthen America's position in industrial technology has never been greater. The United States may have won the cold war, but it is losing the economic war. American companies are losing market share in many sectors, and some industries such as consumer electronics almost have been lost entirely. Equally disturbing, our position in the new technologies that will underpin the industries and markets of the future is much weaker than most Americans realize. A spring 1990 DOC report concluded that the United States is either losing or losing badly relative to Japan in 10 of 12 key emerging technologies. These 10 include such technologies as advanced semiconductor devices, superconducting materials, and high-performance computing. By the year 2000, according to DOC's estimate, the annual world market for products based on the 12 technologies will reach $1 trillion, with the U.S. market alone reaching $350 billion per year. Clearly, the economic stakes here are great. The companies and countries which dominate these new markets will reap great wealth; the countries which lag will see their standards of living stagnate.

Other countries are not sitting on the sidelines. There is a new world economic order, and one key feature is that other governments actively work with their companies to develop these new basic technologies. By sharing costs and risks, Germany, Japan, and now smaller countries such as South Korea have helped to create major economic strength. Yet in the United States, Government support for new technologies relevant to industry has long been a low priority. The Federal Government spends some $70 billion a year to support research and development [R&D]. But according to official Government statistics, the U.S. Government spends only 0.2 percent of that total for the purpose of assisting industrial development. The comparable 1988 figure for the German Government was 14.5 percent. Our U.S. priorities are from a different era, heavy on defense and big science projects.

At a Commerce Committee hearing last March, a leading private group, the Council on Competitiveness, released a report on why the United States no longer can afford to neglect new technologies.

> The United States is already losing badly in many critical technologies. Unless the nation acts today to promote the development of generic industrial technology, its technological position will erode further, with disastrous consequences for American jobs, economic growth and national security. The federal government should view support of generic industrial technologies as a priority mission. ("Gaining New Ground," pp. 3–4).

Clearly, we must act to promote new technologies before it is too late.

THE BILL

Mr. President, since the early 1980's Congress has tried to respond to this serious and growing problem. In 1980, and again in 1986 and 1989, we passed legislation to make exising Federal research in universities and Government laboratories more accessible to private companies. We have increased the National Science Foundation's support for engineering and boosted Defense Department funding for so-called dual-use technologies which are important to both the military and the commercial sector. And in 1988, in adopting provisions which I authored, Congress created a true civilian technology agency, DOC's Technology Administration.

Under the supervision of an Under Secretary for Technology, the Technology Administration includes both a policy office and NIST, the one Federal laboratory whose primary mission is to assist U.S. industry. The 1988 legislation not only strengthened NIST's long-respected internal research and technical services programs but also created new technology extension activities to help small manufacturers modernize a new Advanced Technology Program [ATP] to provide seed money for industry-led efforts to develop the key new technologies of the future.

The substitute bill now before the Senate would continue these important efforts by reauthorizing these Technology Administration programs for fiscal years 1992 and 1993. It also would amend some provisions regarding the ATP, make a change in metric policy, make five small amendments in the Stevenson-Wydler Technology Innovation Act, and require several studies.

In my view, NIST remains an underfunded and undersupported agency. This bill represents a strong congressional endorsement of the Technology Administration and NIST and its programs. However, we cannot stop here. While I applaud the administration's proposal to double the budget of NIST's internal laboratory program over the next 5 years, I hope that the administration also will work with us to expand further the external programs created in the 1988 law.

RELATED ISSUES

Several important issues have arisen in the review of this bill. First, this bill, like an earlier version reported during the last Congress, requires companies to meet certain basic criteria before becoming eligible to apply for funding under NIST's ATP. All companies, whether domestically owned or foreign owned, must have investments in the United States and must employ Americans. In addition, a foreign-owned company must demonstrate that its government offers comparable access and intellectual property protection to American firms. I feel strongly that in exchange for being eligible to receive taxpayer funds, any company, whether domestic or foreign, must meet these basic conditions.

Second, the bill raises the important issue of manufacturing and manufacturing technology. Having the finest new inventions in the world is not enough unless American companies can use such inventions to successfully manufacture products—and manufacture them with quality, speed, and at competitive prices. The United States remains an accomplished manufacturing country, but we are not doing as well as we should. We seriously lag the Japanese, for example, in adopting new manufacturing technologies. NIST already does much to help industry develop and deploy new manufacturing technologies and techniques, but more needs to be done. For that reason, on June 19 of this year I, along with Senator Gore and several of our colleagues, introduced S. 1330, a bill to expand DOC's programs to assist U.S. manufacturing. The Commerce Committee approved this new bill on October 3. S. 1330 complements S. 1034, and I intend to seek full Senate consideration of that bill soon.

Third, the substitute deletes a provision in the reported bill concerning NIST's personnel system. The personnel provision is no longer needed. It had been included in the bill in order to extend a personnel demonstration project at NIST, an experiment which has given the agency great flexibility in hiring new scientists and engineers and which is providing valuable information to the Office of Personnel Management [OPM]. OPM, however, has been conducting its own review of the NIST program and has now decided to grant an administrative extension of the project through September 30, 1995. Thus, no legislative extension is necessary.

The OPM decision comes with the encouragement and approval of the chairman and ranking Member of the Committee on Governmental Affairs, Mr. Glenn and Mr. Roth, and the chairman and ranking member of the Subcommittee on Federal Services, Post Office, and Civil Service, Mr. Pryor and Mr. Stevens. I am grateful to them for their assistance in this matter. I will ask unanimous consent that the extension letter from OPM be printed at the conclusion of my remarks.

Lastly, the proposed substitute drops all ATP loan and recoupment proposals. Congressman Mineta, Senator Rockefeller, and I all support creating a $10 million pilot loan program, in affiliation with the ATP, to help companies refine and demonstrate the feasibility of new products and processes. This work would still be pre-competitive; we are not talking about subsidizing the manufacture of products. Nonetheless, the White House strongly opposes the provision. In the interest of passing the bill, we will drop the provision for now. The proposed substitute now before the Senate also drops a loan provision in the House-passed bill. This recoupment provision would require all organizations which make money from ATP-assisted inventions to reimburse the Government. There is concern that turning the entire ATP effort into a loan program would place a great regulatory burden on ATP winners and deter applications. In addition, the administration opposes the recoupment provision. For these reasons, we have not included this provision in the proposed substitute before the Senate.

CONCLUSION

In closing, Mr. President, I thank my colleagues who have worked with me on this legislation, including both the members of the Commerce Committee and the distinguished chairman and members of the House Committee on Science, Space, and Technology. I also want to thank the growing number of associations and companies which have provided suggestions and support. I especially want to express my appreciation to the new Advanced Technology Coalition, which includes groups such as the American Electronics Association, manufacturing organizations, and the Industrial Union Department of the AFL–CIO. I commend these organizations for their vision of a country that does not have to settle for second-best technology and stagnating wages, a country where government, industry, and labor can work together to promote economic growth.

This bill should have the support of everyone—we can never do too much to promote U.S. economic competitiveness. When I served as South Carolina's Governor, economic development was my highest priority, and this legislation represents my continued commitment to this issue. I look forward to working with my colleagues and administration officials as we proceed with this and other important technology legislation.

Mr. President, this is a sound and important bill, and I urge our colleagues to support it.

I ask unanimous consent that the letter from OPM that I referred to earlier be printed in the Record.

There being no objection, the letter was ordered to be printed in the Record, as follows:

U.S. Office of
Personnel Management,
Washington, DC, October 7, 1991.

Mr. John W. Lyons,
Director, National Institute of Standards and Technology, Gaithersburg, MD.

Dear Mr. Lyons: This is in response to your letter of August 23, 1991, regarding the National Institute of Standards and Technology (NIST) personnel management demonstration project. Your letter requests an extension of the project, which is scheduled to end on December 30, 1992.

OPM's statutory authority to continue a demonstration project beyond 5 years is limited. Title 5 of the United States Code, which sets the 5-year time limit on all demonstration projects, grants OPM the authority to extend a project "to the extent necessary to validate the results of the project" [5 U.S.C. 4703(d)(1)(B)].

Significant changes to the NIST performance management system have been implemented this year, and we agree that they cannot be fully evaluated within the original 5-year timeframe. Therefore, we are extending the NIST demonstration project until September 30, 1995.

Because, in our opinion, the Total Compensation Comparability (TCC) component of the demonstration project does not warrant further evaluation, the TCC report as described in Section 10(c) of Public Law 99-574 need not be included in the extension.

One effect of this extension will be increased evaluation costs for OPM. We anticipate at least two additional reports and additional expenses of approximately $700,000. In light of the fact that we would not extend the costly TCC report requirement, we would appreciate NIST making a contribution to the cost of the extended evaluation. We commend you on your commitment to innovation and hope that the NIST project will continue to make positive contributions to our efforts to improve Federal human resources management.

My staff will contact your staff regarding the appropriate public notification requirements for the extension.

Sincerely,

Constance Berry Newman,
Director.

Mr. GORE. Mr. President, as chairman of the Subcommittee on Science, Technology, and Space I want to express my strong support for the bill now before the Senate, S. 1034, the American Technology Preeminence Act of 1991. This bill provides needed reauthorizations and a strong congressional endorsement for the technology programs of the Department of Commerce [DOC].

All of us in the Senate know that the American economy is lagging, that American companies are losing market share in many sectors, and that American wages are stagnating even in manufacturing and high technology. Americans now face the most intense world economic contest in our history, and every middle-class American family is now feeling the chill from our Nation's lagging economic performance. As a country, all of us—business leaders, workers, academia, and government—must work together to restore American economic competitiveness and long-term national growth.

S. 1034 is a modest but badly needed step in the right direction. At a time when the U.S. Government spends only 0.2 percent of its $70 billion annual research and development budget to promote industrial development, this bill expands DOC's support for industry-led efforts to develop and deploy important commercial technologies. The bill will help industry develop new basic technologies in such critical areas as intelligent manufacturing, superconductivity, semiconductors, fiber optics, high-resolution systems, and biotechnology. According to DOC's own estimate, products based on these and other key emerging technologies will, by the year 2000, generate $1 trillion in worldwide annual sales. These technologies will shape the future, and the United States cannot afford to be the loser.

Mr. President, I am pleased to join Chairman HOLLINGS in proposing this bill to the full Senate. It deserves speedy passage.

Mr. ROCKEFELLER. Mr. President, I really regret that the minority, on behalf of the President, has objected to even considering the amendment I had intended to offer to this bill. It would have been an important step toward restoring America's competitiveness. It would have presented us with a choice. Do we want to continue to focus the Government's efforts on behalf of critical technologies exclusively on R&D, or do we want to help turn our R&D support into an engine that leads to manufacturing and jobs our economy desperately needs? Federal research support is critical to innovation. We all support that. But competitiveness means being able to move those innovations from the showcase to the market place by translating them into products, into efficient production, and into jobs.

The amendment is simple. It would authorize the Commerce Department's Technology Administration to provide long-term, relatively low-cost loans to U.S. companies to develop and commercialize critical technologies. The program is intended for small and medium sized companies and would focus in such areas as electronics, biotechnology, and advanced materials.

Since the amendment would simply redirect a small portion of the money authorized for the National Institute of Standards and Technology's (NIST) Advanced Technology Program, which is a research program, it would not provide for new budget authority or additional outlays. I estimate that, under credit reform, this $10 million allocation would support a loan program of $50–100 million.

The reasoning behind this amendment is equally straightforward. It is designed to refocus Federal efforts on what we don't do well, and there is no shortage of experts who have come to the conclusion that that is precisely what we need. Even the administration's technology experts make the same point, acknowledging the problem at the same time he opposed doing anything about it:

> The U.S. is a leader in research on advanced manufacturing technology, but slower with respect to its development, deployment and use.

Thus, Mr. President, for many of us the debate on these issues is over and the solution clear. The President, apparently, still does not get it. I had hoped to use the opportunity of this amendment to try to persuade him that the Government needs to show some leadership on technology commercialization, but the minority has prevented that debate from taking place.

In the interest of getting the NIST authorization enacted—because it is an important bill—I am not going to press the amendment at this point. But I want to say very clearly that I will be back early next year. I hope the chairman of the committee will join me in requesting a study of this problem by the General Accounting Office so that we can make even more clear to those who apparently have not gotten the message why commercialization assistance is so important.

I also want Senators to know early that this will be an issue early next year on an appropriate vehicle. We have wasted 10 years on the foolish assumption that the private sector can solve this problem on its own. By the time the President learns the futility of that strategy, there will be no one left to save.

It is ironic that the administration's blindness extends only to industry. Just last year Congress passed and the President signed a farm bill containing an agricIture commercialization loan program very similar to what I intended to propose today. The administration did not seem to have any problem with that—indeed its author, then-Representative Madigan has moved onto bigger and better things in the administration.

Mr. President, we should rise to the challenge again. The erosion of our manufacturing and critical technology base is accelerating. It directly jeopardizes our national security and our ability to retain the world's economic leadership, which is increasingly the key element of national security. If we cannot compete globally in economic terms then we will not be able to sustain our foreign policy objectives either. We will simply have no credibility. That is why I will return with this issue in 1992. And that is why ultimately those of us who care about competitiveness will win.

The PRESIDING OFFICER. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute, as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The PRESIDING OFFICER. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, and was read the third time.

Mr. FORD. Mr. President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of the House companion, H.R. 1989; that the Senate proceed to its immediate consideration; all after the enacting clause be stricken, the text of S. 1034, as amended, be substituted in lieu thereof; that the bill be read a third time and passed, the motion to reconsider be laid upon the table, and that S. 1034 be returned to the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

So the bill (H.R. 1989), as amended was deemed read a third time, and passed.

PATENT AND TRADEMARK OFFICE

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 3531, the Patent and Trademark Office Authorization Act of 1991 just received from the House, that the bill be deemed read three times, passed and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3531) was deemed read three times and passed.

Mr. BIDEN. Included in the Patent and Trademark Office authorization bill is a provision modifying the authority of the Commissioner of the Office. I authored this provision and believe it represents a needed change in the operations of the Office.

The provision I authored will allow the Commissioner greater authority to establish programs to help inventors demonstrate the characteristics of their patented products. The authority is rather broad, and the Commissioner is expected to assure that any new programs operate within the broader mission of the PTO. However, within that mission, there is a great deal that could be done, in a cost effective method, to help inventors.

This new authority reflects technological changes that have taken place over the years and the type of products that are of increasing importance to our economic strength. For example, under existing authority the Commissioner is limited to creating libraries to disseminate patent information. But there are limits to what can be shown on paper, or more recently computer, files on patents. The information is detailed to be sure, but the Patent and Trademark Office can help create more practical demonstrations of new products without treading upon its neutral role in patent proceedings. That is the opportunity this new authority presents.

To illustrate, PTO will now have the authority to create laboratories with equipment appropriate to demonstrating the characteristics of a particular technology, advanced ceramics or composite materials for example. The laboratories would not advocate any particular product and would be available to all who could make use of the equipment. A laboratory of this type would be of tremendous assistance to smaller companies, allowing them access to machinery and customers that they might not otherwise have. This would be a step beyond the library system that exists now, but is far short of an advocacy role that PTO must avoid.

The market for most companies is not just starting to become international, it is well into that transition. It is an intensely competitive market, in which American companies need all the information they can get to remain in the forefront of developments in their industry. The new authority of the Commissioner will increase the dissemination of patent information, but in a way that is of much greater utility to inventors and customers.

I would like to thank the chairman of the Patents, Copyrights and Trademarks Subcommittee, Mr. DECONCINI, for his assistance and cooperation in seeing this provision included in the authorization bill. I also look forward to working with the Commissioner of the Patents and Trademark Office in putting this new authority to the fullest use possible.

CORRECTION OF H.R. 3531

Mr. FORD. Mr. President, I now send to the desk on behalf of Senator DECONCINI a correcting resolution and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 85) to correct a technical error in the enrollment of the bill H.R. 3531, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the concurrent resolution?

There being no objection, the Senate proceeded to consider the concurrent resolution.

The PRESIDING OFFICER. Is there further discussion? If not, the question is on agreeing to the concurrent resolution.

The concurrent resolution (S. Con. Res. 85) was agreed to.

(The text of Senate Concurrent Resolution, 85 as agreed to, will be printed in a future edition of the RECORD.)

Mr. FORD. I move to reconsider the vote.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

TELEMARKETING AND CONSUMER FRAUD AND ABUSE PREVENTION ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of S. 1392 regarding telemarketing fraud; that the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 1392) to strengthen the authority of the Federal Trade Commission regarding fraud committed in connection with sales made with the telephone, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 1460

Mr. FORD. Mr. President, I send an amendment by Senator BRYAN to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. BRYAN, proposes an amendment numbered 1460.

On page 4, strike "or" on line 5, strike "(C)" on line 6 and insert in lieu thereof "(D)", and insert between lines 5 and 6 the following:

(C) the act or practice by a person (other than an act or practice permitted in a valid agreement with a member of a credit card system or the member's agent) of knowingly presenting to a member of a credit card system or the member's agent, for payment, one or more evidences or records received from another person of transactions involving goods or services offered by telemarketing and paid for by credit card; or

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 1460) was agreed to.

Mr. FORD. I move to reconsider the vote.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BRYAN. Mr. President, I am pleased that the Senate is considering S. 1392, the Telemarketing Consumer Fraud and Abuse Prevention Act. I also ask that a technical amendment correcting an inadvertent omission in one of the definitions in the bill as introduced be included in the Senate's consideration of this bill.

I believe telemarketing fraud is a serious problem that deserves immediate attention. This legislation, with one clarifying addition, already passed the Senate in June of this year as an amendment to the crime bill. Unfortunately, the crime bill conferees were not able to reach agreement on the measure given the short time constraints of the crime bill conference. I believe we need to move as expeditiously as possible to complete work on this legislation in this Congress, and am pleased that the Senate is considering the bill as a freestanding measure.

Telephone sales have become an important part of American business and, when properly carried out, are a convenience to consumers, allowing them to shop at home. However, telemarketing fraud is the deceptive peddling of goods and services over the telephone. Typically, a consumer is contacted and offered goods and services at discount prices or of a nature "too good to be true." Payment is generally required in advance, often by credit card. When the goods or services arrive, the consumer finds that the bargain doesn't exist, or is not of the promised value. A related problem is the abuse of the telemarketing process by telephone calls that are made at unreasonable hours, by machines that cannot be disconnected by the person called, or utilizing other techniques of harassment.

As telephone sales have become an increasingly popular and convenient way for consumers to purchase goods and services, it is, perhaps, inevitable that unscrupulous individuals will utilize the system to defraud consumers. Testimony before the Consumer Subcommittee, which I chair, has indicated that telemarketing fraud is costing American consumers at least $1 billion per year. On a more personal scale, the subcommittee has received testimony from citizens of my own State of Nevada describing fraudulent practices that threatened to deprive unsuspecting citizens of their life savings.

Telemarketing fraud is indeed a national problem, although some States, including my State of Nevada, often become havens for such activity. I am pleased that the State government in Nevada has taken what appear to be very successful steps to address this problem at the State level. However, because the fraudulent activity often is conducted across State lines, the States and the Federal Government must work together on this issue to develop an effective solution. I know that the Federal Trade Commission and the State attorneys general have begun this process by instituting a joint databank to share information about telemarketing fraud trends. The bill we are considering today is an effort to further that cooperation and to maximize consumer protection.

The bill would require the Federal Trade Commission to promulgate specific rules governing telemarketing activity, including a definition of telemarketing fraud, which would be prohibited by the act. The bill also contains a definition of "credit card laundering" which would be included in the telemarketing fraud prevented by the bill. Credit card laundering is the practice of submitting credit card charges through legitimate merchants in order to hide the identity of the fraudulent telemarketer. In addition to the losses suffered by consumers due to fraud, both the legitimate merchants and the credit card companies may end up taking significant losses as a result of this practice.

Other areas in which the FTC would be required to consider rulemaking include a cooling off period in which consumers could rescind telephone purchases; a requirement that delivery of goods ordered be made within a specified time period; restrictions on the hours and types of machines that can be used to made telemarketing calls, and recordkeeping requirements.

Additionally, the bill would permit the States and the FTC to work together to enforce the Federal law, by permitting the State attorneys general to bring suit under the Federal law. The States would have to notify the FTC of such actions, and the FTC would have the absolute right to intervene in such actions. Because some States, like Nevada, have enacted State laws to address this problem, my bill would provide for the continued applicability of that State law upon application to the FTC.

The bill would also permit actions by private parties to enforce the Federal law, but only when the amount in controversy exceeds $50,000. This provision is intended to provide for maximum enforcement of the law, but to prevent frivolous and unnecessarily burdensome lawsuits.

Finally, the bill would provide for expanded venue and service of process for those enforcing the law. This will address the problem that currently exists when fraudulent telemarketers move their operations rapidly across State lines to avoid enforcement.

Mr. President, telemarketing fraud is a difficult problem, and finding a legislative solution is challenging. I believe that this bill strikes the proper balance between Federal and State enforcement, and between the needs of legitimate telemarketers and the fullest protection of consumers. I urge my colleagues to support me and the bill's cosponsor, my Commerce Committee colleague Senator McCAIN, in enacting this legislation.

Mr. President, I ask unanimous consent that the text of the bill and technical amendment be printed in the RECORD.

Mr. McCAIN. Mr. President, telemarketing is one of the fastest growing industries in the United States. This industry has provided American consumers greater options for obtaining information, entertainment, and home shopping opportunities. A great many of these telemarketing companies are legitimate, and operated by honest businessmen and women. Unfortunately, the expansion of the industry has also led to the emergence of telemarketing and consumer fraud.

Consumer fraud has been the focus of my attention for some time, particularly the issues of health and consumer fraud targeted at the elderly. On March 16, 1988, I testified before the Federal Trade Commission [FTC] on the issue of fraud and the elderly. On that occasion, I spoke of my concerns about the increase in cases of health care and consumer fraud by scam operators who prey on the vulnerability of senior citizens, leaving behind unsatisfied, and in some cases, physically harmed seniors who relied on fraudulent products and health care schemes. Later that year, I introduced S. 2326, the Consumer Fraud Prevention Act. The following year, in 1989, I introduced S. 1441, which incorporated S. 2326. Sharing the same concerns as I have about consumer abuse, my colleague from Nevada, Senator BRYAN, introduced S. 2494, the Telemarketing Fraud and Abuse Prevention Act, in the last session of Congress. I was very pleased to have worked with him on a compromise which consolidates both of our bills, and our efforts were embodied in S. 2494, the Telemarketing and Consumer Fraud and Abuse Protection Act, which was passed in the Senate by unanimous consent in the fall of 1991.

I am pleased to be working with Senator BRYAN again this Congress in sponsoring S. 1392. This legislation is identical to S. 2494 with one exception. S. 1392 prohibits credit card laundering, a technique frequently used by those peddling worthless goods to increase sales.

Telemarketing and consumer fraud cost American taxpayers tens of billions of dollars per year, and, in the case of health fraud, can cost lives as well. Such fraud is often committed by individuals who escape legal action by dismantling their operation and relocating to begin the operation again. In the cases of these boilerroom scams, both the victims and the perpetrators are difficult to locate since the operations often consist of nothing more than phone banks which do not readily provide detailed evidence of illegal activity.

There are several areas of fraud to which the elderly are particularly susceptible.

One area, health fraud, is one of our Nation's leading consumer fraud and health care problems. Older Americans as a group experience deteriorating health and a greater number of terminal illnesses than the rest of the population. In searching for a way to prolong life and combat illness, the elderly are prone to believe the claims of scam operators.

Health care fraud can be life-threatening. In some cases, the so-called cure may be deadly as well. In other cases, the product may be harmless, but a victim may be led to choose the product for treatment of an illness instead of a physician-recommended course of treatment. Again, the result could be quite serious.

Not only is such fraud dangerous to the consumer's health, it is also costly. Current projections by the National Council Against Health Fraud indicate that this activity is costing Americans close to $25 billion per year.

A few examples from my own State of Arizona illustrate the magnitude of the problem.

An advertisement was placed in the Arizona Republic and Phoenix Gazette newspapers that read: "Alzheimers' disease—symptoms of senility. At last—now there is hope! Call [this number] for help. Free—no charges—no fees."

Another case involved a phony cancer cure called Tumorex. The ad read:

> Cancer patients undergo a six-day therapy of daily tumorex injections administered by a licensed M.D. or R.N. This is augmented by amino acid capsules taken ½ hour before each meal. Treatment is given Monday through Saturday. Any enzyme program must be discontinued 24 hours before the first day of treatment. In most cases, six days of treatment are sufficient; however, 12 days or more are required for some severe cases. Colon cleansing is important before treatment and imperative after treatment. $2,500 includes the 6- or 12-day treatment, and transportation (meals and lodging not included). We suggest cashier's or traveler's checks, however, MasterCard and Visa are acceptable.

Mr. President, Tumorex is really the amino acid L-Arginine, which can be purchased at local health food stores at a cost of $5.50 for 100 tablets.

A second issue of particular concern to older Americans is consumer fraud via the television or telephone. Consumer items for purchase, and medical and health services are commonly marketed in this manner. These sellers, and their merchandise, appear legitimate on the surface. The consumer often loses, however, by not receiving the ordered item, receiving a copy rather than an authentic item, or by suffering some financial or health loss.

One example of this type of telemarketing scam in Arizona involved a nationwide, shop-at-home program. This program, which was aired over nationwide television, involved a listing of various items for sale. The money for these items was sent to the company which, in turn, cashed the checks and never delivered the merchandise. The operation generated over 1,300 complaints.

A third area of great concern is that of life care communities, some of which cause the elderly to suffer financial loss as a result of fraud or mismanagement. While life care communities can be a practical solution to the problem of assuring constant care for the elderly, there have been several occasions where senior citizens have lost their investments due to fraud or mismanagement. This has occurred in the misrepresentation of financial risks, mortgage-lender's interests in the life care community, and the misuse of the entrance fee financing.

The structure of the life care industry facilitates such abuses, and it is time that we take a close look at the industry's practices and ensure that life care communities remain safe alternatives for senior citizens.

Another area of fraud that is emerging as a great threat to both consumers and the banking community is that of credit card laundering in telemarketing. This is exemplified by the situation where a fraudulent telemarketer uses the credit card privileges of a merchant to obtain legitimate credit card drafts as records of transactions to receive payment from the unsuspecting customer's bank.

Consumers fall prey to the attractive descriptions of an item by a telemarketer, and provide their credit card members to the so-called seller. The telemarketer then submits that number to a willing merchant with legitimate credit card privileges, who submits the credit card drafts to the corresponding bank. This activity often results in a customer not receiving the item or receiving any item which is different from the promised item. An additional effect on the banking institutions is that, upon receiving the complaint from the consumer, or upon acquiring the accounts of telemarketing merchants who went out of business, the institutions must settle the chargebacks against their own accounts when the merchants are unable to pay them.

This exact scenario played out in my State of Arizona. On February 15, 1990, Gateway National Bank in Phoenix was declared insolvent by the Office of the Comptroller of the Currency. Just 1 year prior to insolvency Gateway, claimed assets of $11 million. One of the main reasons attributed to its demise was the overwhelming number of chargebacks the bank had to absorb because of merchants' failure to pay. These chargebacks ate away at the bank's equity capital, depleting it so as to render the bank insolvent.

The message here is clear: With credit card fraud, the consumer and the banking community are the big losers.

In addressing these many issues, this legislation would combat telemarketing, consumer and credit card fraud in the following ways:

It offers a solution to the problems facing law enforcement officers working toward bringing scam operators to justice, by expanding the venue and service of process provisions in the Federal Trade Commission Act. Thus, authorities will be permitted to summon and serve process upon any party, regardless of where they live or conduct business. This way, law enforcement officials will be able to bring scam operators to justice even if they have packed up their operation.

Next, it enhances the enforcement authority of the Federal Trade Commission [FTC] by amending the Right to Financial Privacy Act of 1978 to permit access to financial records of consumer fraud suspects, without providing advance notice to the suspects, with court approval, if the FTC can show that the funds are likely to disappear during an investigation.

Further, it identifies credit card laundering as a fraudulent telemarketing act or practice.

This legislation offers protection to consumers against telemarketing fraud and abuse by requiring the FTC to develop telemarketing rules protecting consumers. The rules would include: First, refunds for untimely delivery of goods or services; second, order cancellations; third, time restrictions on unsolicited sales calls; fourth, a prohibition on the use of equipment that does not allow the person called to hang up and disconnect the call immediately; and fifth, requirements for proper recordkeeping for the purposes of establishing evidence of proper business practices. The bill also directs the FTC to promulgate a rule to combat fraudulent telemarketing acts and practices. This rule is intended to be flexible in order to reflect on the changing nature of these illegal practices. These provisions would protect unsuspecting consumers from both unwelcome, and unsolicited goods or services, and, more importantly, fraud.

Further, it will allow enforcement assistance by the States by permitting State attorney's general to enforce the proposed FTC telemarketing rules after first notifying the Commission. After receiving a copy of the State's complaint, the Commission may intervene as a matter of right in the proceeding. This provision assures joint enforcement efforts by both State and Federal authorities without precluding one or the other.

Next, it permits private individuals to sue for violation of the FTC telemarketing rules when the amount in controversy exceeds $50,000. As in the case of the State attorney's general, a plaintiff would be required to notify the FTC prior to bringing suit.

These last three provisions are subject to sue for violation of the FTC telemarketing rules when the amount in controversy exceeds $50,000. As in the case of the State attorney's general, a plaintiff would be required to notify the FTC prior to bringing suit.

These last three provisions are subject to a 5-year sunset clause, at which time they will cease to be effective. This will allow Congress the opportunity to evaluate the reasonableness and effectiveness of the telemarking fraud and enforcement rules before continuing them indefinitely.

Another important provision amends the Federal Trade Commission Act to clearly set forth that it is unlawful to disseminate any false advertisement for the purpose of inducing the purchase of services, such as health care or home repair services. This provision addresses the problems and dangers of health care fraud by further amending the Federal Trade Commission Act to expand the definition of "physical evidence" for the purposes of bringing these cases to court. The definition of "physical evidence" should be expanded to include services, as well as medical devices, food products, nutritional or cosmetic products, or audio or video recordings, all things which are often pivotal evidence in consumer fraud cases generally, and health care fraud in particular.

It also permits the FTC to bring an action for criminal contempt for violation of an FTC order, it is presently authorized to institute a proceeding for civil contempt.

In addition, the legislation further requires the FTC to establish a clearinghouse for telemarketing inquiries to be made available to the public.

Finally, it requires the FTC to conduct a study of unfair or deceptive acts or practices in the life care home industry and report to Congress on the results of that study. This would be a starting point toward ensuring that the elderly are not misled when choosing a life care community, and can feel confident when making this very important decision.

Mr. President, this legislation is an important step toward minimizing the practice of telemarketing, consumer, and credit card fraud, and helps protect senior citizens in particular, who are all too often targeted as victims of fraud, and I ask for the support of my colleagues on this important legislation.

The PRESIDING OFFICER. The quesion is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed.

S. 1392

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the "Telemarketing and Consumer Fraud and Abuse Prevention Act".

DEFINITIONS

SEC. 2. As used in this Act, the term—

(1) "attorney general" means the chief legal officer of a State;

(2) "Commission" means the Federal Trade Commission;

(3) "State" means any State of the United States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, and any territory or possession of the United States;

(4) "telemarketing" means a plan, program, or campaign which is conducted to induce purchases of goods or services by significant use of one or more telephones and which has involved interstate telephone calls; the term does not include other use of a telephone in connection with business or personal transactions, nor does the term include the solicitation of sales through the mailing of a catalog which—

(A) contains a written description or illustration of the goods or services offered for sale;

(B) includes the business address of the seller;

(C) includes multiple pages of written material or illustrations;

(D) is issued not less frequently than once a year; and

(E) is at least the third catalog satisfying the requirements of subparagraphs (A) through (D) that has been issued by the seller within the last five years,

where the seller does not place calls to customers but only receives calls initiated by customers in response to the catalog and during those calls takes orders only without further solicitation; and

(5) "credit card laundering" means—

(A) the act or practice by a person engaged in telemarketing (other than an act or practice permitted in a valid agreement with a member of a credit card system or the member's agent) of transferring to another person to be presented to a member of a credit card system or the member's agent, for payment, one or more evidences or records of transactions involving goods or services offered by telemarketing and paid for by credit card;

(B) the act or practice by a person acting on behalf of a person engaged in telemarketing (other than an act or practice permitted in a valid agreement with a member of a credit card system or the member's agent) of causing or arranging for a third person to present to a member of a credit card system or the member's agent, for payment, one or more evidences or records of transactions involving goods or services offered by telemarketing and paid for by credit card;

(C) the act or practice by a person (other than an act or practice permitted in a valid agreement with a member of a credit card system or the member's agent) of knowingly presenting to a member of a credit card system or the member's agent, for payment, one or more evidences or records received from another person of transactions involving goods or services offered by telemarketing and paid for by credit card; or

(D) such other acts or practices defined in the rules of the Commission as credit card laundering.

TELEMARKETING RULES

SEC. 3. (a) Rules on Telemarketing Activities.—The Commission shall prescribe rules regarding telemarketing activities. In prescribing such rules, the Commission shall consider the inclusion of—

(1) a requirement that goods or services offered by telemarketing be shipped or provided within a specified period and that if the goods or services are not shipped or provided within such period a refund be required;

(2) authority for a person who orders a good or service through telemarketing to cancel the order within a specified period;

(3) restrictions on the hours of the day when unsolicited telephone calls can be made to consumers;

(4) a prohibition of telemarketing generated by computers on equipment that does not permit the individual called to terminate the telephone call; and

(5) recordkeeping requirements.

(b) Prohibition of Fraudulent Telemarketing Acts or Practices.—The Commission also shall prescribe rules prohibiting fraudulent telemarketing acts or practices and shall include in such rules a definition of the term "fraudulent telemarketing acts or practices". Credit card laundering shall be a fraudulent telemarketing act or practice.

(c) Deadline; Administrative Procedure.—The Commission shall prescribe the rules under subsections (a) and (b) of this section within 180 days after the date of enactment of this Act. Such rules shall be prescribed in accordance with section 553 of title 5, United States Code.

(d) Treatment of Rule Violations.—Any violation of any rule prescribed under subsection (a) or (b) of this section shall be treated as a violation of a rule under section 5 of the Federal Trade Commission Act (15 U.S.C. 45) regarding unfair or deceptive acts or practices (subject to any remedy or penalty applicable to any violation thereof).

(e) Effect on State Law.—The rules promulgated under this section shall not be construed as preempting State law.

ACTIONS BY STATE ATTORNEYS GENERAL

SEC. 4. (a) Authority of States.—Whenever the attorney general of any State has reason to believe that the interests of the residents of that State have been or are being threatened or adversely affected because any person has engaged or is engaging in a pattern or practice of telemarketing which violates any rule, regulation, or order of the Commission under this Act, the State may bring a civil action on behalf of its residents to enjoin such telemarketing, to enforce compliance with any rule, regulation, or order of the Commission under this Act, to obtain damages on behalf of their residents, or to obtain such further and other relief as the court may deem appropriate.

(b) Court Jurisdiction.—The district courts of the United States, the United States courts of any territory, and the District Court of the United States for the District of Columbia shall have exclusive jurisdiction over all civil actions brought under this section to enforce any liability or duty created by any rule, regulation, or order of the Commission under this Act, or to obtain damages or other relief with respect thereto. Upon proper application, such courts shall also have jurisdiction to issue writs of mandamus, or orders affording like relief, commanding the defendant to comply with the provisions of any rule, regulation, or order of the Commission under this Act, including the requirement that the defendant take such action as is necessary to remove the danger of violation of any such rule, regulation, or order. Upon a proper showing, a permanent or temporary injunction or restraining order shall be granted without bond.

(c) Rights of Commission.—The State shall serve prior written notice of any such civil action upon the Commission and provide the Commission with a copy of its complaint, except in any case where such prior notice is not feasible, in which case the State shall serve such notice immediately upon instituting such action. The Commission shall have the right (1) to intervene in the action, (2) upon so intervening, to be heard on all matters arising therein, and (3) to file petitions for appeal.

(d) Venue; Service of Process.—Any civil action brought under this section in a district court of the United States may be brought in the district wherein the defendant is found or is an inhabitant or transacts business or wherein the telemarketing occurred or is occurring, and process in such cases may be served in any district in which the defendant is an inhabitant or wherever the defendant may be found.

(e) Effect on State Powers of Attorneys General.—For purposes of bringing any civil action under this section, nothing in this Act shall prevent the attorney general from exercising the powers conferred on the attorney general by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel the attendance of witnesses or the production of documentary and other evidence.

(f) Effect on Actions Under State Statute.—Nothing contained in this section shall prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal statute of such State.

(g) Civil Action by Commission.—Whenever the Commission has instituted a civil action for violation of any rule prescribed under this Act, no State may, during the pendency of such action instituted by the Commission, subsequently institute a civil action against any defendant named in the Commission's complaint for violation of any rule as alleged in the Commission's complaint.

ACTIONS BROUGHT BY PRIVATE PERSONS

SEC. 5. (a) Definition.—As used in this section, the term "person adversely affected by telemarketing" means—

(1) any person who has incurred loss or damage in connection with telemarketing and who actually purchased goods or services through telemarketing, or paid or is obligated to pay for goods or services purchased through telemarketing;

(2) any financial institution that has incurred loss or damage in connection with telemarketing; or

(3) any member organization comprised of financial institution members, or any parent organization of such member organization, if one or more of the financial institution members is eligible to bring a civil action under this subsection.

Such term does not include a governmental entity.

(b) Private Right of Action.—(1) Any person adversely affected by any pattern or practice of telemarketing which violates any rule, regulation, or order of the Commission under this Act may, within 3 years after discovery of the violation, bring a civil action against a person who has engaged or is engaging in such pattern or practice of telemarketing if the amount in controversy exceeds the sum or value of $50,000 in actual damages for each person adversely affected by such telemarketing. Such an action may be brought to enjoin such telemarketing, to enforce compliance with any rule, regulation, or order of the Commission under this Act, to obtain damages, or to obtain such further and other relief as the court may deem appropriate.

(2) The district courts of the United States, the United States courts of any territory, and the District Court of the United States for the District of Columbia shall have ex-

clusive jurisdiction over all civil actions brought under this section to enforce any liability or duty created by any rule, regulation, or order of the Commission under this Act, or to obtain damages or other relief with respect thereto. Upon proper application, such courts shall also have jurisdiction to issue writs of mandamus, or orders affording like relief, commanding the defendant to comply with the provisions of any rule, regulation, or order of the Commission under this Act, including the requirement that the defendant take such action as is necessary to remove the danger of violation or of any such rule, regulation, or order. Upon a proper showing, a permanent or temporary injunction or restraining order shall be granted without bond.

(3) The plaintiff shall serve prior written notice of the action upon the Commission and provide the Commission with a copy of its complaint, except in any case where such prior notice is not feasible, in which case the person shall serve such notice immediately upon instituting such action. The Commission shall have the right (A) to intervene in the action, (B) upon so intervening, to be heard on all matters arising therein, and (C) to file petitions for appeal.

(4) Whenever the Commission has instituted a civil action for violation of any rule prescribed under this Act, no person may, during the pendency of such action instituted by the Commission, subsequently institute a civil action against any defendant named in the Commission's complaint for violation of any rule as alleged in the Commission's complaint.

(5) Any civil action brought under this section in a district court of the United States may be brought in the district wherein the defendant is found or is an inhabitant or transacts business or wherein the telemarketing occurred or is occurring and process in such case may be served in any district in which the defendant is an inhabitant or wherever the defendant may be found.

(c) AWARD OF COSTS AND FEES.—The court, in issuing any final order in any action brought under subsection (b), may award costs of suit and reasonable fees for attorneys and expert witnesses to the prevailing party.

(d) RIGHTS UNDER STATUTE OR COMMON LAW.—Nothing in this section shall restrict any right which any person may have under any statute or common law.

VENUE

SEC. 6. Subsections (a) and (b) of section 13 of the Federal Trade Commission Act (15 U.S.C. 53) are each amended by adding at the end thereof the following: "Whenever it appears to the court that the interests of justice require that any other person, partnership, or corporation should be a party in such suit, the court may cause such person, partnership, or corporation to be summoned without regard to whether they reside or transact business in the district in which the suit is brought, and to that end process may be served wherever the person, partnership, or corporation may be found.".

SUBPOENA

SEC. 7. (a) PHYSICAL EVIDENCE DEFINED.—Section 20(a) of the Federal Trade Commission Act (15 U.S.C. 57b–1(a)) is amended—

(1) by redesignating paragraph (7) as paragraph (8); and

(2) by inserting immediately after paragraph (6) the following new paragraph:

"(7) The term 'physical evidence' means any object or device, including any medical device, food product, drug, nutritional product, cosmetic product, or audio or video recording.".

(b) ISSUANCE OF DEMAND.—Section 20(c)(1) of the Federal Trade Commission Act (15 U.S.C. 57b–1(c)(1)) is amended—

(1) by inserting "physical evidence or" immediately after "any" the second time it appears;

(2) by inserting "to produce such physical evidence for inspection," immediately before "to produce";

(3) by inserting "physical evidence," immediately after "concerning"; and

(4) by inserting "evidence," immediately before "material, answers,".

(c) CONTENTS OF DEMAND.—Section 20(c)(3) of the Federal Trade Commission Act (15 U.S.C. 57b–1(c)(3)) is amended—

(1) by inserting "physical evidence or" immediately before "documentary material";

(2) in subparagraph (A)—

(A) by inserting "physical evidence or" immediately before "documentary"; and

(B) by inserting "evidence or" immediately after "permit such";

(3) in subparagraph (B), by inserting "evidence or" immediately before "material"; and

(4) in subparagraph (C), by inserting "evidence or" immediately before "material".

(d) PRODUCTION OF EVIDENCE IN RESPONSE TO DEMAND.—Section 20(c)(10) of the Federal Trade Commission Act (15 U.S.C. 57b–1(c)(10)) is amended by inserting "physical evidence or" immediately before "documentary material" each place it appears.

FALSE ADVERTISEMENTS CONCERNING SERVICES

SEC. 8. Section 12(a) of the Federal Trade Commission Act (15 U.S.C. 52(a)) is amended by inserting "services," immediately after "devices," each place it appears.

CLEARINGHOUSE

SEC. 9. The Commission shall establish a clearinghouse for inquiries made to Federal agencies concerning telemarketing. The clearinghouse will provide information (other than information which may not be disclosed under section 552(b) of title 5, United States Code, or under regulations prescribed by the Commission to implement sections 552(b) of title 5, United States Code) to anyone making inquiries respecting persons engaged in telemarketing or direct such inquiries to the appropriate Federal or State agency.

FINANCIAL DATA

SEC. 10. Section 1109(a)(3) of the Right to Financial Privacy Act of 1978 (12 U.S.C. 3409(a)(3)) is amended—

(1) by redesignating subparagraph (E) as subparagraph (F);

(2) by striking "or" at the end of subparagraph (D); and

(3) by inserting immediately after subparagraph (D) the following new subparagraph:

"(E) dissipation, removal, or destruction of assets that are subject to forfeiture, seizure, redress, or restitution under any law of the United States by reason of having been obtained in violation of law; or".

CRIMINAL CONTEMPT AUTHORITY

SEC. 11. Section 16(a)(1) of the Federal Trade Commission Act (15 U.S.C. 56(a)(1)) is amended—

(1) in subparagraph (A) by striking "civil" the first place it appears and inserting in lieu thereof "Federal court"; and

(2) by adding at the end the following: "The Commission may bring a criminal contempt action for violations of orders obtained in cases brought under section 13(b) of this Act in the same manner as civil penalty and other Federal court actions to which this subsection applies. Such cases may be initiated by the Commission on its own complaint, or pursuant to its acceptance of an appointment by a court to assist it in enforcing such orders pursuant to Rule 42(b) of the Federal Rules of Criminal Procedure.".

ADMINISTRATION AND APPLICABILITY OF ACT

SEC. 12. (a) ENFORCEMENT.—Except as otherwise provided in sections 4 and 5 of this Act, this Act shall be enforced by the Commission under the Federal Trade Commission Act (15 U.S.C. 41 et seq.).

(b) APPLICABILITY OF FTCA.—The Commission shall prevent any person from violating a rule, regulation, or order of the Commission under this Act in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this Act. Any person who violates such a rule, regulation, or order shall be subject to the penalties and entitled to the privileges and immunities provided in the Federal Trade Commission Act in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Federal Trade Commission Act were incorporated into and made a part of this Act.

(c) EXEMPTION.—(1) No provision of this Act shall apply to any person exempt from the jurisdiction of the Commission under section 5(a)(2) of the Federal Trade Commission Act (15 U.S.C. 45(a)(2)), and nothing in this Act shall be construed to vest the Commission, or the attorney general of any State or any person, with jurisdiction or authority over any person not otherwise subject to the jurisdiction or authority of the Commission.

(2)(A) No provision of this Act shall apply—

(i) to a broker, dealer, municipal securities dealer, government securities broker, government securities dealer, or investment company in connection with the offer, sale, or purchase of any security, or to an issuer in connection with the offer, sale, or purchase of any security which that issuer has issued, or to any investment adviser providing investment advice relating to any security; or

(ii) to the solicitation, acceptance, confirmation, or execution of orders for the entry into, purchase of, or sale of any contract, account, agreement, or transaction subject to the exclusive jurisdiction of the Commodity Futures Trading Commission under the Commodity Exchange Act (7 U.S.C. 1 et seq.) by a person registered under the Commodity Exchange Act in order to engage in such activity, including as a futures commission merchant, introducing broker, commodity trading advisor, commodity pool operator, leverage transaction merchant, floor broker, or floor trader, or as a person associated with any such person.

(B) For purposes of subparagraph (A)(i)—

(1) the terms "broker", "dealer", "municipal securities dealer", "government securities broker", and "government securities dealer" have the meanings given them in section 3(a) (4), (5), (30), (43), and (44), respectively, of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a) (4), (5), (30), (43), and (44));

(2) the term "investment adviser" has the meaning given it in section 202(a)(11) of the Investment Advisers Act of 1940 (15 U.S.C. 80b–2(a)(11));

(3) the term "investment company" has the meaning given it in section 3(a) of the In-

vestment Company Act of 1940 (15 U.S.C. 80a-3(a));

(4) the term "issuer" has the meaning given it in section 2(4) of the Securities Act of 1933 (15 U.S.C. 77b(4)); and

(5) the term "security" has the meaning given to it in section 2(1) of the Securities Act of 1933 (15 U.S.C. 77b(1)), section 3(a)(10) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(10)), and section 2(a)(36) of the Investment Company Act of 1940 (15 U.S.C. 80a-2(a)(36)).

LIFE CARE HOME STUDY

SEC. 13. (a) STUDY.—The Federal Trade Commission shall conduct a study of unfair or deceptive acts or practices in the life care home industry, including acts or practices engaged in by life care homes. Within 24 months after the date of enactment of this Act, the Commission shall report the findings and conclusions of the study to Congress. The Commission shall indicate in its report whether it intends to initiate a trade regulation rulemaking under section 18 of the Federal Trade Commission Act (15 U.S.C. 57a) respecting unfair or deceptive acts or practices in the life care home industry and the reasons for such determination.

(b) DEFINITIONS.—For purposes of subsection (a), the term—

(1) "life care home" includes the facility or facilities occupied, or planned to be occupied, by residents or prospective residents where a provider undertakes to provide living accommodations and services pursuant to a life care contract, regardless of whether such facilities are operated on a profit or nonprofit basis; and

(2) "life care contract" includes a contract between a resident and a provider to provide the resident, for the duration of such resident's life, living accommodations and related services in a life care home, including nursing care services, medical services, and other health-related services, which is conditioned upon the transfer of an entrance fee to the provider and which may be further conditioned upon the payment of periodic service fees.

SUNSET

SEC. 14. The provisions of sections 3, 4, and 5 shall cease to have force and effect on and after the date that is five years following the date of enactment of this Act.

Mr. FORD. I move to reconsider the vote.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

NEW YORK CITY ZEBRA MUSSEL MONITORING ACT OF 1991

Mr. FORD. Mr. President, I ask unanimous consent the Senate proceed to the immediate consideration of Calendar No. 274, S. 36, relating to zebra mussel monitoring.

The PRESIDING OFFICER. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (S. 36) entitled "New York City Zebra Mussel Monitoring Act of 1991."

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Environment and Public Works, with amendments; as follows:

(The parts of the bill intended to be stricken are printed in boldface brackets and the parts of the bill intended to be inserted are shown in italics.)

S. 36

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 101. SHORT TITLE.

This title may be cited as the "New York City Zebra Mussel Monitoring Act".

SEC. 102. DEFINITIONS.

For the purposes of this Act:

(a) The term "Secretary" means the Assistant Secretary of the Army for Civil Works.

(b) The term "Administrator" means the Administrator of the Environmental Protection Agency.

(c) The term "Zebra Mussel" means the species Dreissena polymorpha.

SEC. 103. FINDINGS.

The Congress finds that—

(1) New York City has operated a public water supply system since the late 1700's:

(2) the current water supply system supplies over 95 per centum of all water used in New York City, providing service to millions of residents;

(3) the water supply system obtains its water from three upstate reservoir systems: the Croton, Catskill, and Delaware systems, which include eighteen reservoirs and three controlled lakes;

(4) it is likely that within the coming two decades, the zebra mussel will have infested the entire surface water system of the United States and Canada and that this migration is irreversible and cannot be quarantined; and

(5) introduction of the zebra mussel into the New York City water supply system posses a unique public health threat to millions of citizens.

SEC. 104. PURPOSE.

The purpose of this Act is to establish a program of monitoring and technological development to prevent the introduction and subsequent infestation of Zebra Mussels into the New York City water supply system.

SEC. 105. MONITORING AND PREVENTION.

(a) The Secretary, in consultation with the Administrator of the Environmental Protection Agency, the United States Fish and Wildlife Service, the Governor of the State of New York, and the Mayor of the City of New York, shall—

(1) develop a prevention monitoring program for zebra mussels throughout the New York City water supply system.

(2) develop appropriate zebra mussel prevention and removal technologies for the New York City water supply system; and

(3) provide technical assistance to the State of New York and the City of New York on alternative design and maintenance practices for the New York City water supply system in the event of zebra mussel infestation.

SEC. 106. COST SHARING.

The Secretary shall not initiate any monitoring, prevention, and or technical assistance project or program under section 105 until appropriate non-Federal interests agree, by contract, to contribute 25 per centum of the cost for such projects during the period of such projects.

SEC. [106] *107.* **AUTHORIZATION OF APPROPRIATIONS.**

(a) For the purposes of carrying out section 105 of this Act, there is authorized to be appropriated to the Secretary of the Army $2,000,000 for each fiscal years 1991, 1992, 1993, 1994, and 1995. Such sums shall remain available until expended.

AMENDMENT NO. 1461

(Purpose: To control certain exotic aquatic organisms)

Mr. FORD. Mr. President, on behalf of Senator GLENN, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. GLENN, for himself, Mr. KASTEN, Mr. KOHL, Mr. LEVIN, and Mr. DIXON, proposes an amendment numbered 1461.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill, add the following section:

SEC. . EXOTIC AQUATIC ORGANISMS.

(a) IN GENERAL.—Section 1101(b) of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4711(b)) is amended by adding at the end thereof the following new paragraph:

"(3) The Secretary, in consultation with the Task Force—

"(A) shall provide that the regulations issued under this subsection shall apply to vessels that carry ballast water and that, after operating on the waters beyond the exclusive economic zone, enter a United States port on the Hudson River where water is characterized as having a salinity less than 18 o/oo, and

"(B) may provide that such regulations apply to vessels operating in other rivers, canals, lakes, and waterways where discharge of ballast water could result in the introduction and spread of aquatic nuisance species into the Great Lakes."

"(b) SHIPPING STUDY.—Section 1102(a)(3) of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4712(a)(3)) is amended by striking "other than" and inserting "including".

Mr. GLENN. Mr. President, I rise today to offer an amendment to S. 36, the New York City Zebra Mussel Monitoring Act. I am joined in offering this amendment by Senator KASTEN, and several others from the Senate Great Lakes Task Force, including Senators DIXON, KOHL, and LEVIN. This important amendment expands the geographic scope of the Nonindigenous Aquatic Nuisance Prevention Program contained in Public Law 101-646, the Non-Indigenous Aquatic Nuisance Prevention and Control Act of 1990, to include additional freshwater conduits of exotic species into the Great Lakes.

Title I of the Public Law 101-646, signed into law last year, is a program to prevent exotic species from entering the Great Lakes. As you know, the zebra mussel provides an example of how devastating and destructive nonindigenous species can be. Since it initially established itself in the basin—probably around 5 years ago—the zebra mussel has spread to all five

Great Lakes. It has already wreaked havoc on the ecology and economy of certain portions of the region, including the Ohio shore of Lake Erie. This mollusk from Eastern Europe is crowding out native species of freshwater clams, and has changed the complexion of Great Lakes beaches. In addition, it is costing raw water users in the basin millions of dollars in removal and cleaning costs. Moreover, the zebra mussel is not going to stop with the Great Lakes. It threatens to spread to two-thirds of the Nation's fresh water.

While we manage the problem that is already here, let's prevent the next one from arising. The next nonindigenous invader could be even more destructive than the zebra mussel. Fortunately, prevention is possible. All that is needed to substantially reduce the probability of another infestation by a nonindigenous species is a minimal amount of ballast management by incoming ships, the leading vector of nonindigenous aquatic species.

The prevention program in Public Law 101-646 currently requires that any ship en route to a Great Lakes port from a point of origin outside the U.S. exclusive economic zone must exchange its ballast water in the high seas—with due regard for safety. At the time the bill was passed, it was believed that ships passing through the St. Lawrence Seaway to Great Lakes ports were the sole avenues of entry for nonindigenous hitch-hikers. However, current research shows that nine nonindigenous species have entered the Great Lakes from the Hudson River—via the Erie Canal. These species include such noxious pests as the sea lamprey, the white perch, and the alewife. As a result, ballast dumping at Hudson River ports such as Albany, as well as ports within other connecting freshwater systems, may also threaten the Great Lakes.

The Great Lakes Fishery Commission has recommended that the prevention program established in Public Law 101-646 to protect the Great Lakes be extended to include ships destined for ports on the Hudson River and other freshwater systems connected to the Great Lakes, as needed. The Coast Guard, which is the lead agency responsible for implementing the program, stated that it would need additional statutory authority to expand the geographic scope of its program.

My amendment requires that the Coast Guard extend its ballast management regulations to include ships destined for ports on the Hudson River, and provides statutory authority to the Coast Guard to further increase the geographic scope of the program as needed to protect the Great Lakes from nonindigenous invaders. It also requires that the shipping study required by Public Law 101-646 include an assessment of the need for ballast controls on vessels entering ports other than Great Lakes ports as a measure to protect the Great Lakes from unintentional introductions of these species.

I wish to thank my colleagues on the Senate Great Lakes Task Force, especially Senator MOYNIHAN and Senator KASTEN, for their support and involvement in this effort. Senator MOYNIHAN's continuing interest in aggressively managing the zebra mussel problem will greatly reduce the cost that infestations by nonindigenous species invariably impose. Senator KASTEN, a member of the Commerce Committee of the Senate, has been a key supporter of forward-thinking prevention efforts. I urge adoption of this amendment.

Mr. HOLLINGS. Mr. President, I rise today to discuss an amendment that is being offered to S. 36, the New York City Zebra Mussel Monitoring Act of 1991. I am speaking of the amendment sponsored by Senators GLENN, KASTEN, DIXON, KOHL, and LEVIN. As such, I would appreciate it if my good friend and chairman of the Committee on Environment and Public Works, Mr. BURDICK, would be willing to discuss the provision.

Mr. BURDICK. Mr. President, it would be a pleasure to discuss this matter with the Senator from South Carolina, the distinguished chairman of the Committee on Commerce, Science, and Transportation.

Mr. HOLLINGS. I have carefully reviewed S. 36, the New York City Zebra Mussel Monitoring Act of 1991. The legislation directs the Army Corps of Engineers, in consultation with the Environmental Protection Agency and the city of New York, to develop zebra mussel monitoring and removal programs for the New York City water supply system. I congratulate the chairman for the committee's fine work on this important legislation.

Further, let me state that in reviewing the reported bill, I believe it is entirely within the jurisdiction of the Committee on Environment and Public Works. However, the amendment that Senator GLENN and others are offering addresses Coast Guard regulation of marine and ocean navigation and safety. As such, the amendment falls within the jurisdiction of the Committee on Commerce, Science, and Transportation. Nonetheless, I strongly support the provision and urge the chairman to accept it. It will strengthen the Nonindigenous Aquatic Nuisance Prevention and Control Act on which our committees worked last year.

Mr. BURDICK. I agree with the chairman of the Commerce, Science, and Transportation Committee regarding the jurisdictional matters and welcome his support of the legislation. I also support Senator GLENN's amendment and believe it should be adopted.

Mr. HOLLINGS. I thank the Senator.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 1461) was agreed to.

The PRESIDING OFFICER. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed.

S. 36

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 101. SHORT TITLE.

This title may be cited as the "New York City Zebra Mussel Monitoring Act".

SEC. 102. DEFINITIONS.

For the purposes of this Act:

(a) The term "Secretary" means the Assistant Secretary of the Army for Civil Works.

(b) The term "Administrator" means the Administrator of the Environmental Protection Agency.

(c) The term "Zebra Mussel" means the species Dreissena polymorpha.

SEC. 103. FINDINGS.

The Congress finds that—

(1) New York City has operated a public water supply system since the late 1700's;

(2) the current water supply system supplies over 95 per centum of all water used in New York City, providing service to millions of residents;

(3) the water supply system obtains its water from three upstate reservoir systems: the Croton, Catskill, and Delaware systems, which include eighteen reservoirs and three controlled lakes;

(4) it is likely that within the coming two decades, the zebra mussel will have infested the entire surface water system of the United States and Canada and that this migration is irreversible and cannot be quarantined; and

(5) introduction of the zebra mussel into the New York City water supply system poses a unique public health threat to millions of citizens.

SEC. 104. PURPOSE.

The purpose of this Act is to establish a program of monitoring and technological development to prevent the introduction and subsequent infestation of Zebra Mussels into the New York City water supply system.

SEC. 105. MONITORING AND PREVENTION.

(a) The Secretary, in consultation with the Administrator of the Environmental Protection Agency, the United States Fish and Wildlife Service, the Governor of the State of New York, and the Mayor of the City of New York, shall—

(1) develop a prevention monitoring program for zebra mussels throughout the New York City water supply system.

(2) develop appropriate zebra mussel prevention and removal technologies for the New York City water supply system; and

(3) provide technical assistance to the State of New York and the City of New York on alternative design and maintenance practices for the New York City water supply system in the event of zebra mussel infestation.

SEC. 106. COST SHARING.

The Secretary shall not initiate any monitoring, prevention, and or technical assistance project or program under section 105 until . appropriate non-Federal interests agree, by contract, to contribute 25 per centum of the cost for such projects during the period of such projects.

SEC. 107. AUTHORIZATION OF APPROPRIATIONS.

(a) For the purposes of carrying out section 105 of this Act, there is authorized to be appropriated to the Secretary of the Army $2,000,000 for each fiscal years 1991, 1992, 1993, 1994, and 1995. Such sums shall remain available until expended.

SEC. 108. EXOTIC AQUATIC ORGANISMS.

(a) IN GENERAL.—Section 1101(b) of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4711(b)) is amended by adding at the end thereof the following new paragraph:

"(3) The Secretary, in consultation with the Task Force—

"(A) shall provide that the regulations issued under this subsection shall apply to vessels that carry ballast water and that, after operating on the waters beyond the exclusive economic zone, enter a United States port on the Hudson River where water is characterized as having a salinity less than 18 o/oo, and

"(B) may provide that such regulations apply to vessels operating in other rivers, canals, lakes, and waterways where discharge of ballast water could result in the introduction and spread of aquatic nuisance species into the Great Lakes."

(b) SHIPPING STUDY.—Section 1102(a)(3) of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4712(a)(3)) is amended by striking "other than" and inserting "including."

Mr. FORD. I move to reconsider the vote by which the bill was passed.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

NEZ PERCE HISTORICAL PARK

Mr. FORD. Mr. President, I ask unanimous consent that the Energy Committee be discharged from further consideration of H.R. 2032 regarding the Nez Perce Historical Park and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2032) to amend the act of 1965 authorizing historic park in the State of Idaho, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 1462

Mr. FORD. Mr. President on behalf of Senators BUMPERS and CRAIG, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. BUMPERS, for himself and Mr. CRAIG, proposes an amendment numbered 1462.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 2, line 26, strike "and".

On page 3, line 1, strike "Montana;" and insert in lieu thereof: "Montana; and (13) Hasotino Village, Idaho;".

On page 3, lines 12 through 25, strike paragraph (3) in its entirety and insert in lieu thereof:

"(3) In section 3, strike the proviso in the first sentence and insert in lieu thereof, ": Provided, That lands or interests therein owned by a State or a political subdivision of a State may be acquired only by donation or exchange: Provided further, That with respect to sites designated as components of the Nez Perce National Historical Park after November 1, 1991, no lands or interests therein, or other property, may be acquired without the consent of the owner thereof."

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 1462) was agreed to.

The PRESIDING OFFICER. The question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read a third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, shall the bill pass?

So the bill (H.R. 2032), as amended, was passed.

Mr. FORD. I move to reconsider the vote by which the bill as amended, was passed.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

TELEPHONE CONSUMER PROTECTION ACT

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1462.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1462) entitled "An Act to amend the Communications Act of 1934 to prohibit certain practices involving the use of telephone equipment", do pass with the following amendment: Strike out all after the enacting clause, and insert:

S. 1462

SECTION 1. SHORT TITLE.

This Act may be cited as the "Telephone Consumer Protection Act of 1991".

SEC. 2. FINDINGS.

The Congress finds that:

(1) The use of the telephone to market goods and services to the home and other businesses is now pervasive due to the increased use of cost-effective telemarketing techniques.

(2) Over 30,000 businesses actively telemarket goods and services to business and residential customers.

(3) More than 300,000 solicitors call more than 18,000,000 Americans every day.

(4) Total United States sales generated through telemarketing amounted to $435,000,000,000 in 1990, a more than four-fold increase since 1984.

(5) Unrestricted telemarketing, however, can be an intrusive invasion of privacy and, when an emergency or medical assistance telephone line is seized, a risk to public safety.

(6) Many consumers are outraged over the proliferation of intrusive, nuisance calls to their homes from telemarketers.

(7) Over half the States now have statutes restricting various uses of the telephone for marketing, but telemarketers can evade their prohibitions through interstate operations; therefore, Federal law is needed to control residential telemarketing practices.

(8) The Constitution does not prohibit restrictions on commercial telemarketing solicitations.

(9) Individuals' privacy rights, public safety interests, and commercial freedoms of speech and trade must be balanced in a way that protects the privacy of individuals and permits legitimate telemarketing practices.

(10) Evidence compiled by the Congress indicates that residential telephone subscribers consider automated or prerecorded telephone calls, regardless of the content or the initiator of the message, to be a nuisance and an invasion of privacy.

(11) Technologies that might allow consumers to avoid receiving such calls are not universally available, are costly, are unlikely to be enforced, or place an inordinate burden on the consumer.

(12) Banning such automated or prerecorded telephone calls to the home, except when the receiving party consents to receiving the call or when such calls are necessary in an emergency situation affecting the health and safety of the consumer, is the only effective means of protecting telephone consumers from this nuisance and privacy invasion.

(13) While the evidence presented to the Congress indicates that automated or prerecorded calls are a nuisance and an invasion of privacy, regardless of the type of call, the Federal Communications Commission should have the flexibility to design different rules for those types of automated or prerecorded calls that it finds are not considered a nuisance or invasion of privacy, or for noncommercial calls, consistent with the free speech protections embodied in the First Amendment of the Constitution.

(14) Businesses also have complained to the Congress and the Federal Communications Commission that automated or prerecorded telephone calls are a nuisance, are an invasion of privacy, and interfere with interstate commerce.

(15) The Federal Communications Commission should consider adopting reasonable restrictions on automated or prerecorded calls to businesses as well as to the home, consistent with the constitutional protections of free speech.

SEC. 3. RESTRICTIONS ON THE USE OF TELEPHONE EQUIPMENT.

(a) AMENDMENT.—Title II of the Communications Act of 1934 (47 U.S.C. 201 et seq.) is amended by adding at the end the following new section:

"SEC. 227. RESTRICTIONS ON THE USE OF TELEPHONE EQUIPMENT.

"(a) DEFINITIONS.—As used in this section—

"(1) The term 'automatic telephone dialing system' means equipment which has the capacity—

"(A) to store or produce telephone numbers to be called, using a random or sequential number generator; and

"(B) to dial such numbers.

"(2) The term 'telephone facsimile machine' means equipment which has the capacity (A) to transcribe text or images, or both, from paper into an electronic signal and to transmit that signal over a regular telephone line, or (B) to transcribe text or images (or both) from an electronic signal received over a regular telephone line onto paper.

"(3) The term 'telephone solicitation' means the initiation of a telephone call or message for the purpose of encouraging the purchase or rental of, or investment in, property, goods, or services, which is transmitted to any person, but such term does not include a call or message (A) to any person with that person's prior express invitation or permission, (B) to any person with whom the caller has an established business relationship, or (C) by a tax exempt nonprofit organization.

"(4) The term 'unsolicited advertisement' means any material advertising the commercial availability or quality of any property, goods, or services which is transmitted to any person without that person's prior express invitation or permission.

"(b) RESTRICTIONS ON THE USE OF AUTOMATED TELEPHONE EQUIPMENT.—

"(1) PROHIBITIONS.—It shall be unlawful for any person within the United States—

"(A) to make any call (other than a call made for emergency purposes or made with the prior express consent of the called party) using any automatic telephone dialing system or an artificial or prerecorded voice—

"(i) to any emergency telephone line (including any '911' line and any emergency line of a hospital, medical physician or service office, health care facility, poison control center, or fire protection or law enforcement agency);

"(ii) to the telephone line of any guest room or patient room of a hospital, health care facility, elderly home, or similar establishment; or

"(iii) to any telephone number assigned to a paging service, cellular telephone service, specialized mobile radio service, or other radio common carrier service, or any service for which the called party is charged for the call;

"(B) to initiate any telephone call to any residential telephone line using an artificial or prerecorded voice to deliver a message without the prior express consent of the called party, unless the call is initiated for emergency purposes or is exempted by rule or order by the Commission under paragraph (2)(B);

"(C) to use any telephone facsimile machine, computer, or other device to send an unsolicited advertisement to a telephone facsimile machine; or

"(D) to use an automatic telephone dialing system in such a way that two or more telephone lines of a multi-line business are engaged simultaneously.

"(2) REGULATIONS; EXEMPTIONS AND OTHER PROVISIONS.—The Commission shall prescribe regulations to implement the requirements of this subsection. In implementing the requirements of this subsection, the Commission—

"(A) shall consider prescribing regulations to allow businesses to avoid receiving calls made using an artificial or prerecorded voice to which they have not given their prior express consent; and

"(B) may, by rule or order, exempt from the requirements of paragraph (1)(B) of this subsection, subject to such conditions as the Commission may prescribe—

"(i) calls that are not made for a commercial purpose; and

"(ii) such classes or categories of calls made for commercial purposes as the Commission determines—

"(I) will not adversely affect the privacy rights that this section is intended to protect; and

"(II) do not include the transmission of any unsolicited advertisement.

"(3) PRIVATE RIGHT OF ACTION.—A person or entity may, if otherwise permitted by the laws or rules of court of a State, bring in an appropriate court of that State—

"(A) an action based on a violation of this subsection or the regulations prescribed under this subsection to enjoin such violation,

"(B) an action to recover for actual monetary loss from such a violation, or to receive $500 in damages for each such violation, whichever is greater, or

"(C) both such actions.

If the court finds that the defendant willfully or knowingly violated this subsection or the regulations prescribed under this subsection, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B) of this paragraph.

"(c) PROTECTION OF SUBSCRIBER PRIVACY RIGHTS.—

"(1) RULEMAKING PROCEEDING REQUIRED.—Within 120 days after the date of enactment of this section, the Commission shall initiate a rulemaking proceeding concerning the need to protect residential telephone subscribers' privacy rights to avoid receiving telephone solicitations to which they object. The proceeding shall—

"(A) compare and evaluate alternative methods and procedures (including the use of electronic databases, telephone network technologies, special directory markings, industry-based or company-specific 'do not call' systems, and any other alternatives, individually or in combination) for their effectiveness in protecting such privacy rights, and in terms of their cost and other advantages and disadvantages;

"(B) evaluate the categories of public and private entities that would have the capacity to establish and administer such methods and procedures;

"(C) consider whether different methods and procedures may apply for local telephone solicitations, such as local telephone solicitations of small businesses or holders of second class mail permits;

"(D) consider whether there is a need for additional Commission authority to further restrict telephone solicitations, including those calls exempted under subsection (a)(3) of this section, and, if such a finding is made and supported by the record, propose specific restrictions to the Congress; and

"(E) develop proposed regulations to implement the methods and procedures that the Commission determines are most effective and efficient to accomplish the purposes of this section.

"(2) REGULATIONS.—Not later than 9 months after the date of enactment of this section, the Commission shall conclude the rulemaking proceeding initiated under paragraph (1) and shall prescribe regulations to implement methods and procedures for protecting the privacy rights described in such paragraph in an efficient, effective, and economic manner and without the imposition of any additional charge to telephone subscribers.

"(3) USE OF DATABASE PERMITTED.—The regulations required by paragraph (2) may require the establishment and operation of a single national database to compile a list of telephone numbers of residential subscribers who object to receiving telephone solicitations, and to make that compiled list and parts thereof available for purchase. If the Commission determines to require such a database, such regulations shall—

"(A) specify a method by which the Commission will select an entity to administer such database;

"(B) require each common carrier providing telephone exchange service, in accordance with regulations prescribed by the Commission, to inform subscribers for telephone exchange service of the opportunity to provide notification, in accordance with regulations established under this paragraph, that such subscriber objects to receiving telephone solicitations;

"(C) specify the methods by which each telephone subscriber shall be informed, by the common carrier that provides local exchange service to that subscriber, of (i) the subscriber's right to give or revoke a notification of an objection under subparagraph (A), and (ii) the methods by which such right may be exercised by the subscriber;

"(D) specify the methods by which such objections shall be collected and added to the database;

"(E) prohibit any residential subscriber from being charged for giving or revoking such notification or for being included in a database compiled under this section;

"(F) prohibit any person from making or transmitting a telephone solicitation to the telephone number of any subscriber included in such database;

"(G) specify (i) the methods by which any person desiring to make or transmit telephone solicitations will obtain access to the database, by area code or local exchange prefix, as required to avoid calling the telephone numbers of subscribers included in such database; and (ii) the costs to be recovered from such persons;

"(H) specify the methods for recovering, from persons accessing such database, the costs involved in identifying, collecting, updating, disseminating, and selling, and other activities relating to, the operations of the database that are incurred by the entities carrying out those activities;

"(I) specify the frequency with which such database will be updated and specify the method by which such updating will take effect for purposes of compliance with the regulations prescribed under this subsection;

"(J) be designed to enable States to use the database mechanism selected by the Commission for purposes of administering or enforcing State law;

"(K) prohibit the use of such database for any purpose other than compliance with the requirements of this section and any such State law and specify methods for protection of the privacy rights of persons whose numbers are included in such database; and

"(L) require each common carrier providing services to any person for the purpose of making telephone solicitations to notify such person of the requirements of this section and the regulations thereunder.

"(4) CONSIDERATIONS REQUIRED FOR USE OF DATABASE METHOD.—If the Commission determines to require the database mechanism described in paragraph (3), the Commission shall—

"(A) in developing procedures for gaining access to the database, consider the different needs of telemarketers conducting business on a national, regional, State, or local level;

"(B) develop a fee schedule or price structure for recouping the cost of such database that recognizes such differences and—

"(i) reflect the relative costs of providing a national, regional, State, or local list of phone numbers of subscribers who object to receiving telephone solicitations;

"(ii) reflect the relative costs of providing such lists on paper or electronic media; and

"(iii) not place an unreasonable financial burden on small businesses; and

"(C) consider (i) whether the needs of telemarketers operating on a local basis could be met through special markings of area white pages directories, and (ii) if such directories are needed as an adjunct to database lists prepared by area code and local exchange prefix.

"(5) PRIVATE RIGHT OF ACTION.—A person who has received more than one telephone call within any 12-month period by or on behalf of the same entity in violation of the regulations prescribed under this subsection may, if otherwise permitted by the laws or rules of court of a State bring in an appropriate court of that State—

"(A) an action based on a violation of the regulations prescribed under this subsection to enjoin such violation,

"(B) an action to recover for actual monetary loss from such a violation, or to receive up to $500 in damages for each such violation, whichever is greater, or

"(C) both such actions.

It shall be an affirmative defense in any action brought under this paragraph that the defendant has established and implemented, with due care, reasonable practices and procedures to effectively prevent telephone solicitations in violation of the regulations prescribed under this subsection. If the court finds that the defendant willfully or knowingly violated the regulations prescribed under this subsection, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B) of this paragraph.

"(6) RELATION TO SUBSECTION (B).—The provisions of this subsection shall not be construed to permit a communication prohibited by subsection (b).

"(d) TECHNICAL AND PROCEDURAL STANDARDS.—

"(1) PROHIBITION.—It shall be unlawful for any person within the United States—

"(A) to initiate any communication using a telephone facsimile machine, or to make any telephone call using any automatic telephone dialing system, that does not comply with the technical and procedural standards prescribed under this subsection, or to use any telephone facsimile machine or automatic telephone dialing system in a manner that does not comply with such standards; or

"(B) to use a computer or other electronic device to send any message via a telephone facsimile machine unless such person clearly marks, in a margin at the top or bottom of each transmitted page of the message or on the first page of the transmission, the date and time it is sent and an identification of the business, other entity, or individual sending the message and the telephone number of the sending machine or of such business, other entity, or individual.

"(2) TELEPHONE FACSIMILE MACHINES.—The Commission shall revise the regulations setting technical and procedural standards for telephone facsimile machines to require that any such machine which is manufactured after one year after the date of enactment of this section clearly marks, in a margin at the top or bottom of each transmitted page or on the first page of each transmission, the date and time sent, an identification of the business, other entity, or individual sending the message, and the telephone number of the sending machine or of such business, other entity, or individual.

"(3) ARTIFICIAL OR PRERECORDED VOICE SYSTEMS.—The Commission shall prescribe technical and procedural standards for systems that are used to transmit any artificial or prerecorded voice message via telephone. Such standards shall require that—

"(A) all artificial or prerecorded telephone messages (i) shall, at the beginning of the message, state clearly the identity of the business, individual, or other entity initiating the call, and (ii) shall, during or after the message, state clearly the telephone number or address of such business, other entity, or individual; and

"(B) any such system will automatically release the called party's line within 5 seconds of the time notification is transmitted to the system that the called party has hung up, to allow the called party's line to be used to make or receive other calls.

"(e) EFFECT ON STATE LAW.—

"(1) STATE LAW NOT PREEMPTED.—Except for the standards prescribed under subsection (d) and subject to paragraph (2) of this subsection, nothing in this section or in the regulations prescribed under this section shall preempt any State law that imposes more restrictive intrastate requirements or regulations on, or which prohibits—

"(A) the use of telephone facsimile machines or other electronic devices to send unsolicited advertisements;

"(B) the use of automatic telephone dialing systems;

"(C) the use of artificial or prerecorded voice messages; or

"(D) the making of telephone solicitations.

"(2) STATE USE OF DATABASES.—If, pursuant to subsection (c)(3), the Commission requires the establishment of a single national database of telephone numbers of subscribers who object to receiving telephone solicitations, a State or local authority may not, in its regulation of telephone solicitations, require the use of any database, list, or listing system that does not include the part of such single national datebase that relates to such State.

"(f) ACTIONS BY STATES.—

"(1) AUTHORITY OF STATES.—Whenever the attorney general of a State, or an official or agency designated by a State, has reason to believe that any person has engaged or is engaging in a pattern or practice of telephone calls or other transmissions to residents of that State in violation of this section or the regulations prescribed under this section, the State may bring a civil action on behalf of its residents to enjoin such calls, an action to recover for actual monetary loss or receive $500 in damages for each violation, or both such actions. If the court finds the defendant willfully or knowingly violated such regulations, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under the preceding sentence.

"(2) EXCLUSIVE JURISDICTION OF FEDERAL COURTS.—The district courts of the United States, the United States courts of any territory, and the District Court of the United States for the District of Columbia shall have exclusive jurisdiction over all civil actions brought under this subsection. Upon proper application, such courts shall also have jurisdiction to issue writs of mandamus, or orders affording like relief, commanding the defendant to comply with the provisions of this section or regulations prescribed under this section, including the requirement that the defendant take such action as is necessary to remove the danger of such violation. Upon a proper showing, a permanent or temporary injunction or restraining order shall be granted without bond.

"(3) RIGHTS OF COMMISSION.—The State shall serve prior written notice of any such civil action upon the Commission and provide the Commission with a copy of its complaint, except in any case where such prior notice is not feasible, in which case the State shall serve such notice immediately upon instituting such action. The Commission shall have the right (A) to intervene in the action, (B) upon so intervening, to be heard on all matters arising therein, and (C) to file petitions for appeal.

"(4) VENUE; SERVICE OF PROCESS.—Any civil action brought under this subsection in a district court of the United States may be brought in the district wherein the defendant is found or is an inhabitant or transacts business or wherein the violation occurred or is occurring, and process in such cases may be served in any district in which the defendant is an inhabitant or where the defendant may be found.

"(5) INVESTIGATORY POWERS.—For purposes of bringing any civil action under this subsection, nothing in this section shall prevent the attorney general of a State, or an official or agency designated by a State, from exercising the powers conferred on the attorney general or such official by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel the attendance of witnesses or the production of documentary and other evidence.

"(6) EFFECT ON STATE COURT PROCEEDINGS.—Nothing contained in this subsection shall be construed to prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal statute of such State.

"(7) LIMITATION.—Whenever the Commission has instituted a civil action for violation of regulations prescribed under this section, no State may, during the pendency of such action instituted by the Commission, subsequently institute a civil action against any defendant named in the Commission's complaint for any violation as alleged in the Commission's complaint.

"(8) DEFINITION.—As used in this subsection, the term 'attorney general' means the chief legal officer of a State.".

(b) CONFORMING AMENDMENT.—Section 2(b) of the Communications Act of 1934 (47 U.S.C. 152(b)) is amended by striking "Except as provided" and all that follows through "and subject to the provisions" and inserting "Except as provided in sections 223 through 227, inclusive, and subject to the provisions".

(c) DEADLINE FOR REGULATIONS; EFFECTIVE DATE.—

(1) REGULATIONS.—The Federal Communications Commission shall prescribe regulations to implement the amendments made by this section not later than 9 months after the date of enactment of this Act.

(2) EFFECTIVE DATE.—The requirements of section 228 of the Communications Act of 1934 (as added by this section), other than the authority to prescribe regulations, shall take effect one year after the date of enactment of this Act.

SEC. 4. AM RADIO SERVICE.

Section 331 of the Communications Act of 1934 is amended—

(1) in the heading of such section, by inserting "AND AM RADIO STATIONS" after "TELEVISION STATIONS";

(2) by inserting "(a) VERY HIGH FREQUENCY STATIONS.—" after "SEC. 331."; and

(3) by adding at the end the following new subsection:

"(b) AM RADIO STATIONS.—It shall be the policy of the Commission, in any case in which the licensee of an existing AM daytime-only station located in a community with a population of more than 100,000 persons that lacks a local full time aural station licensed to that community and that is located within a Class I station primary service area notifies the Commission that such licensee seeks to provide full-time service, to ensure that such a licensee is able to place a principal community contour signal over its entire community of license 24 hours a day, if technically feasible. The Commission shall report to the appropriate committees of Congress within 30 days after the date of enactment of this Act on how it intends to meet this policy goal.".

Mr. FORD. Mr. President, I move that the Senate concur in the House amendment.

The PRESIDING OFFICER. The question is on agreeing to the motion.

The motion was agreed to.

Mr. HOLLINGS. Mr. President, I am pleased to report that we have come to an agreement with the House on a bill to restrict invasive uses of telephone equipment. The amendment version before the Senate today of S. 1462, which I introduced earlier this year, is the result of negotiations with the industry and Members on both sides of the aisle in the House and the Senate. This amendment incorporates the principal provisions of S. 1462 and S. 1410, which passed the Senate on November 7, and H.R. 1304, which passed the House on November 18. I believe that this revised bill responds to all the major concerns of the parties involved, and I urge my colleagues to support it.

The bill includes provisions to restrict telephone calls that use an automated or computerized voice. These calls are a nuisance and an invasion of our privacy. The complaints received by the Federal Communications Commission [FCC] and my office indicate that people find these calls to be objectionable regardless of the content of the message or the initiator of the call. Restricting such calls is constitutionally acceptable as a reasonable place and manner restriction.

At the same time, there may be certain types of automated or prerecorded calls that are not as invasive of privacy rights as others. I use the term privacy rights to include the concepts of privacy invasion and nuisance. Therefore, this bill includes a provision that allows those who use automated or prerecorded voice systems to apply to the FCC for an exemption from this prohibition. The bill gives the FCC the authority to exempt from these restrictions calls that are not made for a commercial purpose and categories of calls that the FCC finds do not invade privacy rights. If the FCC determines that such an exemption is warranted based on the record it develops, the FCC may grant such an exemption, subject to whatever conditions it determines to be appropriate.

The phrase "calls that are not made for a commercial purpose" is intended in the constitutional sense and is intended to be consistent with the court decisions which recognize that noncommercial speech can receive less protection than commercial speech. This phrase is intended to allow the FCC to design rules to implement this bill that are consistent with the free speech guarantees of the Constitution if it finds that a distinction between commercial and noncommercial calls is justified and can be supported by the record.

The FCC is given the authority to exempt certain types of calls, and the FCC is not limited to considering existing technologies. The FCC is given the flexibilty to consider what rules should apply to future technologies as well as existing technologies.

Some telephone companies are beginning to offer a voice messaging service which delivers personal messages to one or more persons. A person calling from a pay telephone at an airport, for instance, may call and leave a recorded message to be delivered later if the called line is busy or no one answers the call. Some debt collection agencies also use automated or prerecorded messages to notify consumers of outstanding bills. The FCC should consider whether these types of prerecorded calls should be exempted and under what conditions such an exemption should be granted either as a noncommercial call or as a category of calls that does not invade the privacy rights of consumers.

In considering whether to exempt certain calls, however, the bill states that the FCC may not exempt telephone solicitations. These calls are certainly commercial calls and the evidence before the Congress leaves no doubt that these types of calls are an invasion of privacy and a nuisance.

As stated earlier, this bill prohibits automated or prerecorded telephone calls to the home, unless the called party consents to receiving such a call, or unless the call is initiated for emergency purposes. The FCC must determine what constitutes an emergency purpose. In defining this term the FCC could find that "emergency purpose" includes any automated telephone call that notifies consumers of impending or current power outages, whether these outages are for scheduled maintenance, unscheduled outages caused by storms or similar circumstances, cut off of power due to late payment of bills, power interruptions for load management programs, or other reasons. Power interruptions can be detrimental to the public health and safety. Therefore, the FCC should consider whether all or certain types of outages should be considered an emergency.

Section 227(e)(1) clarifies that the bill is not intended to preempt State authority regarding intrastate communications except with respect to the technical standards under section 227(d) and subject to section 227(e)(2). Pursuant to the general preemptive effect of the Communications Act of 1934, State regulation of interstate communications, including interstate communications initiated for telemarketing purposes, is preempted.

I want to clarify a couple of other changes to the bill that we have made in response to some concerns of the telemarketing industry. We have included a private right of action for consumers harmed by authomated or prerecorded calls and a different private right of action for consumers who receive telemarketing solicitations. We have amended this provision in order to give telemarketers an affirmative defense in court so that this provision does not impose strict liability on any telemarketer that might violate the provisions of the bill.

Finally, I want to clarify how this bill applies to carriers who might unknowingly transmit calls made in violation of this bill. It is not our intention that a carrier should be held liable for transmitting over the carrier's network any call or message in violation of this legislation made by an entity other than the carrier. This intention is consistent with our policy that carriers should not be responsible for the content of messages delivered over their networks. If carriers were held responsible for such transmissions, they might be forced to monitor telephone conversations, which would not be in the public interest. To the extent carriers are responsible for initiating or placing telephone calls or messages, however, they must comply with the terms of this bill.

I thank my counterparts on the House side, Chairman DINGELL of the House Energy and Commerce Committee, Chairman MARKEY of the House Telecommunications and Finance Subcommittee, and the ranking minority member of the Telecommunications and Finance Subcommittee, Mr. RINALDO. I also recognize the efforts of Senator DANFORTH, the ranking member on the Senate Commerce Committee, Senator INOUYE, chairman of the Senate Communications Committee, and Senator PRESSLER, the author of S. 1410, in assisting in the development of this compromise. I am pleased that we were able to accommodate the interests of all Members in a bipartisan way.

TELEMARKETING

Mr. PRESSLER. Mr. President, I support Senate passage of S. 1462. This legislation is the result of a House and

Senate conference on comprehensive telemarketing legislation. It incorporates legislation Congressman MARKEY introduced in the House of Representatives and I introduced earlier this year in the Senate, and legislation introduced by Senator HOLLINGS. S. 1462 contains the provisions I first suggested in S. 1410, which passed the Senate earlier this year. I introduced this legislation in response to the national outcry over the explosion of unsolicited telephone advertising. I want to thank Chairman HOLLINGS and Chairman MARKEY for their efforts both to forge an agreement on our three bills.

Mr. President, consumers in my home State of South Dakota are fed up with the annoyance of unwanted telephone solicitations. Unlike other communications media, the telephone commands our instant attention. Junk mail can be thrown away. Television commercials can be turned off. The telephone demands to be answered.

People are increasingly upset over this invasion of their privacy by unrestricted telemarketing. In fact, the consumer backlash that has arisen from the cost and the interference of unsolicited telemarketing calls has sparked the introduction of over 1,000 bills in State legislatures around the country seeking to limit this abuse. The complaints of consumers have been heard.

This past June, we held hearings in the Commerce, Science, and Transportation Committee on S. 1410. During these hearings, we received testimony from consumer advocates, private citizens, and representatives of the telemarketing industry. The testimony we received was clear. The Federal Government needs to act now on uniform legislation to protect consumers.

The primary purpose of this legislation is to develop the necessary ground rules for cost-effective protection of consumers from unwanted telephone solicitations. These rules should allow responsible telemarketers to reach consumers who are most responsive to this form of solicitation, while eliminating the cost and time of contacting those individuals who would be least responsive.

To accomplish this balanced approach, the substitute we have before us today directs the FCC to prescribe regulations to protect the privacy rights of consumers from the intrusion of unsolicited telephone marketing calls. One such proposal the FCC would consider is the use of a telephone electronic database that would allow consumers to have their phone numbers protected from unsolicited advertising. This type of consumer protection has already been used with great success in the State of Florida. Another proposal the FCC would examine is the placement of all telemarketers on a single exchange, thus allowing consumers to block calls from that exchange.

Some objected to the original legislation because of the extent to which it outlined the safeguards necessary for the creation of a national database. While I personally believe that an electronic database will give the most promising protection for consumers, we recognize that newer technologies could be used more effectively in the future. It is important to note that certain anticompetitive questions may arise as a result of the form of protection the FCC chooses. For this reason, it is important for the FCC to keep a close watch on the impact of its rulemaking on businesses that compete with larger monopolies.

We included in this substitute a provision that directs the FCC to examine whether local telephone solicitations by small businesses and second-class mail permit holders should be subject to the same FCC regulations that would apply to all other telemarketers. Many small businesses conduct responsible telemarketing in the local areas they serve. Since their business depends upon their good standing in the community, they conduct their own telemarketing in a very respectable way.

We include in this bill an exemption for businesses that have an established business relationship with their customers. For example, if Citibank's credit card operation needed to inform customers about new services it intended to provide to their credit card customer, clearly this contact would be allowed.

The effect of this legislation will be to prohibit cold calls by any telemarketer to the telephone of a consumer who has no connection or affiliation with that business and who affirmatively has taken action to prevent such calls. Many responsible telemarketers have told me that this will save them both time and money by reaching only those people who are most likely to respond positively to their solicitations.

S. 1462 also addresses problems arising from computerized calls. Due to advances in auto-dialer technology, machines can be programmed to deliver a prerecorded message to thousands of sequential phone numbers.

This results in calls to hospitals, emergency care providers, unlisted numbers, and paging and cellular equipment. There have been many instances of auto-dial machines hitting hospital switchboards and sequentially delivering a recorded message to all telephone lines. In some cases, the calling machine does not release the called party's line until the recorded message has ended. This renders the called party's phones inoperable. In an emergency situation, this can create a real hazard.

To remedy this situation, the substitute requires auto-dialer machines to release the phone line automatically after the called party hangs up. In addition, it requires all prerecorded messages to clearly identify the name, phone number or address of the person or business initiating the call.

This bill also allows hospitals, police stations, fire stations, and owners of paging and cellular equipment to eliminate all unsolicited calls.

The growth of facsimile machines in the workplace has brought another form of unsolicited advertising—the junk fax. Unsolicited facsimile advertising ties up fax machines and uses the called party's fax paper. This costs the recipient both time and money. The substitute bill requires that autodial fax machines clearly mark on all transmissions the date and time of transmission, the identity of the sender, and the telephone number of the sending machine.

While our substitute will not end all unsolicited calls, it will give back to consumers the freedom to choose how their telephones are used. The balanced approach we take in the Pressler-Markey-Hollings legislation, will finally give consumers relief from modern door-to-door salesmen who now have the unrestricted ability to invade the privacy of our homes at any time.

Mr. President, I ask unanimous consent that several articles in support of this legislation be placed in the RECORD immediately following my remarks.

There being no objection, the articles were ordered to be printed in the RECORD, as follows:

[From the Chicago Tribune, Nov. 22, 1991]

PUTTING LIMITS ON AUTODIALERS

Ever had a pleasant diner interrupted by a telephone call, only to hear a tape-recorded voice greet you with an offer of something to buy? Then you may think there is nothing but good in congressional efforts to put a stop to such annoyances.

That reaction is perfectly understandable but but not entirely wise. Autodialers may not be to everyone's liking, but they have value to some buyers and sellers—otherwise, they would vanish on their own. Fortunately, there are ways to deal with the aggravations and abuses without barring the machines altogether.

Autodialers have grown in use because, as a New York Times story put it, "they don't eat, they don't sleep and their feelings never get hurt when people curse them or hang up on them. They just call and call and call—each one up to 1,500 times a day."

By one estimate, these gadgets make 20 million calls a day in the United States, flogging a wide variety of goods and services. Most consumers, no doubt, hang up within seconds, if not milliseconds, but enough stay on the line to listen—and buy—that many companies wouldn't think of doing business without them.

They create problems beyond the interrupted meal. They can tie up phone lines, even after victims hang up, overwhelm electronic paging services and inflict unwanted expenses on cellular phone owners, who pay for incoming as well as outgoing calls.

The Senate recently passed two measures dealing with autodialers—one good and one bad. The good one, sponsored by Larry Pressler (R-S.D), directs the Federal Communications Commission to either let consumers shield themselves by registering their numbers or to put the autodialers all on one exchange, enabling consumers to block their calls. The bad one, offered by Ernest Hollings (D.-D.C.) bans autodialers from calling either fax machines or homes.

Hollings' blunderbuss approach would not only penalize businesses and consumers that benefit from autodialers, but probably run afoul of the Constitution as well. The 1st Amendment protects the freedom to speak—even by phone and even by recording. If Congress can't outlaw indecent messages provided by "phone sex" services—as the supreme Court has ruled—it presumably has to be careful with broad prohibitions on the delivery of messages by autodialer.

A better approach is to zero in on clear abuses. A House bill wouuld ban calls to emergency lines of health care facilities, police and fire departments. It would put pagers and cellular phones off limits. And autodialers would be required to disconnect after the person called hangs up—someting not all do now.

Lawmakers should keep in mind that while recorded solicitations may be annoying to most consumers, they perform a valued function for some. It isn't too much to ask that Congress, in trying to protect the former, should also accommodate the interest of the latter.

[From the Washington Post, Nov. 19, 1991]

HOUSE VOTES TO RESTRICT CALLS BY TELEMARKETERS

(By Cindy Skrzycki)

The House of Representatives yesterday passed legislation to restrict telemarketers who dial some 38 million Americans every day with unsolicited commercial telephone calls, selling credit cards, aluminum siding, children's photographs and uncounted other products.

The bill, which passed by a voice vote, has to be reconciled with two initiatives approved by the Senate that also take aim primarily at auto-dialers, which are computers that spew prerecorded messages. Differences in the bills should be ironed out by the end of the week, said a staff member on the House telecommunications and finance subcommittee.

Once a compromise reaches the White House, however, its fate is less certain. The Bush administration has raised objections to taking away or regulating one of business's most potent and economical marketing tools.

Nevertheless, the issue of blocking unsolicited sales calls generated by humans, computerized machines or facsimile machines isn't likely to go away as millions of Americans find their dinner hours interrupted by telephone sales calls, sometimes from machines that refuse to free the line.

"When people get home from work, they deserve some peace and quiet," said Rep. Edward J. Markey (D-Mass.), sponsor of the House bill and chairman of the subcommittee on telecommunications and finance.

The House bill attempts to balance the privacy rights of individuals against the rights of businesses that may using telemarketing not to solicit but to reach customers to warn of an electrical power test or a delinquent loan.

The Senate bill, sponsored by Sen. Ernest Hollings (D-S.C.), proposes to ban all computerized calls to the home unless the party consents to receiving them. In contrast, Markey's bill would charge the Federal Communications Commission with coming up with a way to protect consumers from commercial solicitations.

The House bill does allow businesses with established relationships to call even if a name shows up on an industry "do-not-call list." Contact would stop if the consumer objected again to being called.

The House bill prescribes additional restrictions for auto-dialers: The machines would have to identify themselves and hang up as soon as possible. They would not be allowed to call emergency phone lines, or mobile or cellular phones.

Also, the House bill requires faxes used for advertising to include the identity and telephone number of the faxer. It also asks the FCC to include the identity and telephone number of the faxer. It also asks the FCC to consider banning "junk faxes."

The Hollings bill places an outright ban on unsolicited faxes unless there has been some prior consent from the consumer.

Under the Markey bill, the FCC would have about a year to explore the best way to protect the privacy of residential telephone subscribers, an approach that is also suggested by Sen. Larry Pressler (R-S.D.) in a bill that passed the Senate earlier this month.

Some of the alternatives the FCC might consider include a national electronic database of people who do not want to be called, the use of new telephone technology to block such calls, or special markings such as an asterisk in the telephone book.

Studies done by telephone companies and other organizations show that automated telemarketing, which has grown into an industry that generates $435 billion in sales, is a growing irritant to Americans who feel the telephone is invading their privacy.

[From the New York Times, Nov. 8, 1991]

SENATE VOTES DIALER BAN

WASHINGTON, NOV. 7.—The Senate unanimously approved bills today that would virtually ban the use of automated dialing machines in telephone marketing and would make it easier to block unwanted calls by live sales representatives.

The first measure, sponsored by Senator Ernest F. Hollings, Democrat of South Carolina, would make it illegal to use machines that automatically call homes and play recorded sales pitches, unless a person has given specific written or spoken permission.

A second measure, sponsored by Senator Larry Pressler, Republican of South Dakota, would instruct the Federal Communications Commission to adopt rules to help people block both live and computer-delivered sales calls.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

CENTENNIAL OF BASKETBALL

BICENTENNIAL OF DC

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to, en bloc, the immediate consideration of House Joint Resolution 372, House Joint Resolution 356, just received from the House; that the joint resolutions be deemed read three times; passed en bloc; that the motion to reconsider be laid upon the table; that the consideration of these items appear individually in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The joint resolutions were deemed read three times and passed as follows:

A joint resolution (H.J. Res. 372) designating December 21, 1991, as "Basketball Centennial Day".

A joint resolution (H.J. Res. 356) designating December 1991 as "Bicentennial of the District of Columbia Month".

CAPITOL PRESERVATION COMMISSION

Mr. FORD. Mr. President, on behalf of Senator BYRD, I send to the desk a resolution, and ask for its immediate consideration, that the resolution be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 240) is as follows:

Resolved, That paragraph 1 of Rule IV of the Rules for the Regulation of the Senate Wing of the United States Capitol be temporarily suspended for the sole and specific purpose of permitting the United States Capitol Preservation Commission and its designated agents to conduct activities in accordance with the purposes of the Commission on such dates and times, and in such manner as determined by the Senate Cochair of the Commission or his designee.

SEC. 2. The Sergeant at Arms of the Senate is authorized and directed to make the necessary arrangements to facilitate activities authorized by this resolution.

STAR PRINT OF REPORT NO. 102-213

Mr. FORD. Mr. President, I ask unanimous consent for a star print of the report of No. 102-213, the Select Committee on Indian Affairs on S. 1595.

The PRESIDING OFFICER. Without objection, it is so ordered.

STAR PRINT OF ETHICS REPORT

Mr. FORD. Mr. President, I ask unanimous consent that there be a star print of the Ethics Committee report regarding Senator CRANSTON to reflect the changes I now send to the desk, and ask that a letter accompanying this by Annette M. Gillis be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
SELECT COMMITTEE ON ETHICS,
Washington, DC, November 26, 1991.

MS. KATHLEEN ALVAREZ,
Bill Clerk, Office of the Secretary.
U.S. Senate, Washington, DC.

DEAR KATHIE: As a follow up to our telephone conversation of yesterday regarding

Senate Report 102-223 (Investigation of Senator Alan Cranston), the Committee, respectfully, request that the publication be reprinted and include the listed modifications.

1. Volumes I and II of the Committee Report should be combined and printed as one Senate report. Please do not repaginate the old Volume 2.

2. The cover contain the Together With Additional Views language as stated on the cover of the Committee's submission.

3. The Committee would like to add its Members names to the bottom of page 36 as follows.

Howell Heflin, Chairman, Warren B. Rudman, Vice Chairman, David Pryor, Member, Trent Lott, Member, Terry Sanford, Member.

4. Remove the third and fourth heading (the whole heading should be removed) lines from Volume 2. (This is Senator Helms' report which was credited to Senator Heflin when it was printed.)

5. Insert the attached cover page ahead of page one of Volume 2.

Thank you for your attention regarding this matter.

Sincerely,

ANNETTE M. GILLIS,
Chief Clerk.

COAST GUARD AUTHORIZATION ACT OF 1991

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on H.R. 1776.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the House agree to the amendment of the Senate to the bill (H.R. 1776) entitled "An Act to authorize for fiscal year 1992 the United States Coast Guard Budget" with the following amendment:

In lieu of the matter proposed to be inserted by said amendment, insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Coast Guard Authorization Act of 1991".

SEC. 2. AUTHORIZATION OF APPROPRIATIONS.

Funds are authorized to be appropriated for necessary expenses of the Coast Guard for Fiscal Year 1992, as follows:

(a) For the operation and maintenance of the Coast Guard, $2,570,000,000, of which $500,000 shall be used to implement the Nonindigeous Aquatic Nuisance Prevention and Control Act of 1990, (P.L. 101-646), and $35,000,000 shall be expended from the Boat Safety Account.

(b)(1) For the acquisition, construction, rebuilding and improvement of aids to navigation, shore and offshore facilities, vessels, sonar simulators, and aircraft, including equipment related thereto, $466,000,000, of which $29,000,000 shall be used to acquire a command and control aircraft, to remain available until expended.

(2) Funds authorized to be appropriated for the construction of a new seagoing buoy tender (WLB) may not be expended for the acquisition of oil recovery systems unless those systems are manufactured in the United States and only pursuant to competitive bidding based on performance specification and cost.

(3)(A) Notwithstanding another provision of law, the Secretary of the Department in which the Coast Guard is operating may submit a request for reprogramming of funds to purchase, lease, or lease with option to purchase a replacement command and control aircraft for the Coast Guard during fiscal year 1992. The request shall be in accordance with the existing procedures for Congressional review of appropriations reprogramming requests. Subject to those reprogramming procedures—

(i) the Coast Guard may enter into a multiyear lease agreement for a replacement aircraft and may utilize operating expenses for a multiyear lease but not for the purchase of aircraft; and

(ii) funds may be reprogrammed, pursuant to the request, from any subaccount of the acquisition, construction, and improvements appropriation.

(B) The Coast Guard may transfer the current command and control aircraft to the vendor of a replacement aircraft in exchange for an equitable reduction in the cash price of an aircraft to be acquired, or in lieu of exchange, the current aircraft may be sold and the proceeds applied toward a purchase, lease, or lease with option to purchase.

(4) Before October 1, 1992, the Secretary of Transportation shall use funds as may be necessary, not more than $14,000,000, to begin and actively pursue the renovation project to extend the useful life of the Coast Guard Cutter MACKINAW at least an additional 15 years.

(c) For research, development, test, and evaluation, $29,150,000, to remain available until expended.

(d) For retired pay (including the payment of obligations otherwise chargeable to lapsed appropriations for this purpose), payments under the Retired Serviceman's Family Protection and Survivor Benefit Plans, and payments for medical care of retired personnel and their dependents under chapter 55 of title 10, United States Code, $487,700,000, to remain available until expended.

(e) For alteration or removal of bridges over navigable waters of the United States constituting obstructions to navigation, and for personnel and administrative costs associated with the Bridge Alteration Program, $11,100,000, to remain available until expended.

(e) For alteration or removal of bridges over navigable waters of the United States constituting obstructions to navigation, and for personnel and administrative costs associated with the Bridge Alteration Program, $11,100,000, to remain available until expended.

(f) For environmental compliance and restoration at Coast Guard facilities, $25,100,000, to remain available until expended.

(g) Of the amounts authorized for Coast Guard operations and maintenance and acquisition construction and improvement, the following amounts shall be derived from transfer from the Oil Spill Liability Fund for implementation of the Oil Pollution Act of 1990 (P.L. 101-380; 104 Stat. 484):

(1) $25,000,000 for operating expenses; and

(2) $30,000,000 to establish the National Response System under section 311(j) of the Federal Water Pollution Control Act (33 U.S.C. 1321(j)), including the purchase and prepositioning of oil spill removal equipment.

(h) Of the amounts authorized for Coast Guard operations and maintenance, not more than $1,900,000 shall be used for annual obligations of membership in the International Maritime Organization for calendar year 1992, notwithstanding section 2 of the Act of September 21, 1950 (22 U.S.C 262a).

SEC. 3. AUTHORIZED LEVELS OF MILITARY STRENGTH AND MILITARY TRAINING FOR FISCAL YEAR 1992.

(a) As of September 30, 1992, the Coast Guard is authorized an end-of-year strength for active duty personnel of 39,559. The authorized strength does not include members of the Ready Reserve called to active duty under section 712 of title 14, United States Code.

(b) For Fiscal Year 1992, the Coast Guard is authorized average military training student loads as follows:

(1) For recruit and special training, 2,653 student years.

(2) For flight training, 110 student years.

(3) For professional training in military and civilian institutions, 362 student years.

(4) For officer acquisition, 878 student years.

SEC. 4. TRANSFER OF AUTHORITY FROM THE SECRETARY OF TRANSPORTATION TO THE SECRETARY OF THE NAVY UPON THE TRANSFER OF THE COAST GUARD TO THE NAVY.

Not later than 90 days after enactment of this Act, the Secretary of Transportation shall submit to Congress a report on the functions, powers, and duties vested in the Secretary of Transportation and exercised through delegation to the Commandant of the Coast Guard that would be transferred to the Secretary of the Navy when the Coast Guard operates as a service in the Navy under section 3 of title 14, United States Code.

SEC. 5. RETIREMENT OF REAR ADMIRALS.

(a) Section 290 of title 14, United States Code, is amended—

(1) in subsection (e) by striking "June 30 of" and substituting "July 1 of the promotion year immediately following"; and

(2) by striking subsections (f) and (g) and substituting the following new subsections:

"(f)(1) Unless retired under another provision of law, each officer who is continued on active duty under this section shall, execpt as provided in paragraph (2), be retire on July 1 of the promotion year immediately following the promotion year in which that officer completes seven years of combined service in the grades or rear admiral (lower half) and rear admiral, unless that officer is selected for or serving in the grade of admiral or vice admiral or the position of Chief of Staff or Superintendent of the Coast Guard Academy.

"(2) The Commandant, with the approval of the Secretary, may by annual action retain on active duty from promotion year to promotion year any officer who would otherwise be retired under paragraph (1). Unless selected for or serving in the grade of admiral or vice admiral or the position of Chief of Staff or Superintendent of the Coast Guard Academy, or retired under another provision of law, an officer so retained shall be retired on July 1 of the promotion year immediately following the promotion year in which no action is taken to further retain that officer under this paragraph.

"(g)(1) Unless retired under another provision of law, an officer subject to this section shall, except as provided in paragraph (2), be retired on July 1 of the promotion year immediately following the promotion year in which that officer completes a total of thirty-six years of active commissioned service unless selected for or serving in the grade of admiral.

"(2) The Commandant, with the approval of the Secretary, may by annual action retain on active duty from promotion year to promotion year any officer who would otherwise be retired under paragraph (1). Unless selected for or serving in the grade of admiral or retired under another provision of law, an officer so retained shall be retired on July 1 of the promotion year immediately following the promotion year in which no action is taken to further retain that officer under this paragraph.".

(b)(1) Section 290(a) of title 14, United States Code, is amended by striking "he" and substituting "that officer".

(2) Section 290(d) of title 14, United States Code, is amended by striking "his" each place it appears.

SEC. 6. ENLISTED PERSONNEL BOARDS.

(a) Section 357 of title 14, United States Code, is amended to read as follows:

"(a) Enlisted Personnel Boards shall be convened as the Commandant may prescribe to review the records of enlisted members who have twenty or more years of active military service.

"(b) Enlisted members who have twenty or more years of active military service may be considered by the Commandant for involuntary retirement and may be retired on recommendtion of a Board—

"(1) because the member's performance is below the standards the Commandant prescribes; or

"(2) because of professional dereliction.

"(c) An enlisted member under review by the Board shall be—

"(1) notified in writing of the reasons the member is being considered for involuntary retirement;

"(2) allowed sixty days from the date on which counsel is provided under paragraph (3) to submit any matters in rebuttal;

"(3) provided counsel, certified under section 827(b) of title 10, to help prepare the rebuttal submitted under paragraph (2) and to represent the member before the Board under paragraph (5);

"(4) allowed full access to and be furnished with copies of records relevant to the consideration for involuntary retirement prior to submission of the rebuttal submitted under paragraph (2); and

"(5) allowed to appear before the Board and present witnesses or other documentation related to the review.

"(d) A Board convened under this section shall consist of at least three commissioned officers, at least one of whom shall be of the grade of commander or above.

"(e) A Board convened under this section shall recommend to the Commandant enlisted members who—

"(1) have twenty or more years of active service;

"(2) have been considered for involuntary retirement; and

"(3) it determines should be involuntarily retired.

"(f) After the Board makes its determination, each enlisted member the Commandant considers for involuntary retirement shall be—

"(1) notified by certified mail of the reasons the member is being considered for involuntary retirement;

"(2) allowed sixty from the date counsel is provided under paragraph (3) to submit any matters in rebuttal;

"(3) provided counsel, certified under section 827(b) of title 10, to help prepare the rebuttal submitted under paragraph (2); and

"(4) allowed full access to and be furnished with copies of records relevant to the consideration for involuntary retirement prior to submission of the rebuttal submitted under paragraph (2).

"(g) If the Commandant approves the Board's recommendation, the enlisted member shall be notified of the Commandant's decision and shall be retired from the service within 90 days of the notification.

"(h) An enlisted member, who has completed twenty years' service and who the Commandant has involuntarily retired under this section, shall receive retired pay.

"(i) An enlisted member voluntarily or involuntarily retired after twenty years' service who was cited for extraordinary heroism in the line of duty shall be entitled to an increase in retired pay. The retired pay shall be increased by 10 percent of—

"(1) the active-duty pay and permanent additions thereto of the grade or rating with which retired when the member's retired pay is computed under section 423(a) of this title; or

"(2) the member's retired pay base under section 1407 of title 10, when a member's retired pay is computed under section 423(b) of this title.

"(j) When the Secretary orders a reduction in force, enlisted personnel may be involuntarily separated from the service without the Board's action.".

(b) The catchline to section 357 of title 14, United States Code, is amended to read "357. Involuntary retirement of enlisted members.", and item 357 in the analysis to chapter 11 of title 14, United States Code, is amended to read "357. Involuntary retirement of enlisted members.".

SEC. 7. AUTHORITY TO ACCEPT COURT-ORDERED COMMUNITY SERVICE.

Section 93 of title 14, United States Code, is amended by—

(1) striking the word "and" at the end of subsection (q);

(2) striking the period at the end of subsection (r) and inserting "; and"; and

(3) adding the following new subsection:

"(s) accept, under terms and conditions the Commandant establishes, the service of an individual ordered to perform community service under the order of a Federal, State, or municipal court.".

SEC. 8. HOUSING UNIT LEASE AUTHORITY.

(a)(1) The Coast Guard may enter into a lease, for a term in excess of one fiscal year, to acquire a site at the Massachusetts Military Reservation on Cape Cod, Massachusetts, for construction or renovation of housing units, or both.

(2) Any lease authorized under paragraph (1) is effective only to the extent that amounts are provided for in advance in appropriations Acts.

(b) Beginning in fiscal year 1991, the Coast Guard may spend appropriated amounts for the construction or renovation (or both) of housing units at the site of the Massachusetts Military Reservation.

SEC. 9. AIR FACILITIES LEASE AUTHORITY.

(a)(1) The Coast Guard may enter into a lease, for a term in excess of one fiscal year, to acquire a site at Charleston, South Carolina, for construction of a permanent air facility.

(2) Any lease authorized under paragraph (1) is effective only to the extent that amounts are provided for in advance in appropriations Acts.

(b) Beginning in fiscal year 1991, the Coast Guard may spend appropriated amounts for the construction of a permanent air facility on the site at Charleston, South Carolina.

SEC. 10. COAST GUARD HOUSING STUDY.

Not later than six months after the date of enactment of this Act, the Secretary of Transportation shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives a report on Coast Guard housing. The report shall examine the current housing problems of the Coast Guard, the long term housing needs of the Coast Guard, and estimates of projected housing costs needed to relieve the current problems.

SEC. 11. TWO-YEAR BUDGET CYCLE FOR THE COAST GUARD.

Notwithstanding another law, the President is not required to submit a two-year budget request for the Coast Guard until the President is required to submit a two-year budget request for the Department of Transportation.

SEC. 12. TRANSPORTATION OF HOUSEHOLD EFFECTS OF COAST GUARD CADETS.

Section 406(b)(2)(E) of title 17, United States Code, is amended to read as follows:

"(E) Under regulations prescribed by the Secretary of Defense, or the Secretary of Transportation for the Coast Guard when it is not operating as a service in the Navy, cadets at the United States Military Academy, the United States Air Force Academy, and the United States Coast Guard Academy, and midshipmen at the United States Naval Academy shall be entitled, in connection with temporary or permanent station change, to transportation of baggage and household effects as provided in subparagraph (A) of this paragraph. The weight allowance for cadets and midshipmen is 350 pounds.".

SEC. 13. EMERGENCY RECALL OF RESERVISTS.

Section 712(a) of title 14, United States Code, is amended to read as follows:

"(a) Notwithstanding another law, and for the emergency augmentation of the Regular Coast Guard forces during a serious natural or manmade disaster, accident, or catastrophe, the Secretary may, without the consent of the member affected, order to active duty of not more than thirty days in any four-month period and not more than sixty days in any two-year period an organized training unit of the Coast Guard Ready Reserve, a member thereof, or a member not assigned to a unit organized to serve as a unit.".

SEC. 14. RECALL OF RETIRED OFFICERS.

(a) Section 332(b) of title 14, United States Code, is amended by striking "1" and substituting "2".

(b) Section 332(a) of title 14, United States Code, is amended by striking "his" and substituting "that officer's" and by striking "he" and substituting "that officer".

SEC. 15. COAST GUARD ACADEMY ADVISORY COMMITTEE TERMINATION DATE.

Section 193 of title 14, United States Code, is amended by striking at the end "September 30, 1992", and inserting "September 30, 1994".

SEC. 16. AMENDMENT TO THE VESSEL BRIDGE-TO-BRIDGE RADIOTELEPHONE ACT OF 1971.

Section 4(a)(1) of the Vessel Bridge-to-Bridge Radiotelephone Act of 1971 (33 U.S.C. 1203(a)(1)) is amended to read as follows:

"(1) every power-driven vessel of twenty meters or over in length while navigating;".

SEC. 17. NORTH CAROLINA MARITIME MUSEUM.

Notwithstanding section 3301(8) of title 46, United States Code, the GENERAL GREENE, (vessel identification number USG NP5000025661), may transport not more than 16 passengers when the North Carolina Maritime Museum operates the vessel for educational purposes.

SEC. 18. HOUSTON-GALVESTON NAVIGATION SAFETY ADVISORY COMMITTEE.

(a)(1) There is established a Houston-Galveston Navigation Safety Advisory Committee (hereinafter referred to as the "Committee"). The Committee shall advice, consult with, and make recommendations to the Secretary of the department in which the Coast Guard is operating (hereinafter in this part referred to as the "Secretary") on matters relating to the transit of vessels and products to and from the Ports of Galveston, Houston, Texas City, and Galveston Bay. The Secretary shall, whenever practicable, consult with the Committee before taking any significant action related to navigation safety at these port facilities. Any advice or recommendation made by the Committee to the Secretary shall reflect the independent judgment of the Committee on the matter concerned.

(2) The Committee is authorized to make available to Congress any information, advice, and recommendations that the Committee is authorized to give to the Secretary. The Committee shall meet at the call of the Secretary, but in any event not less than once during each calendar year. All matters relating to or proceedings of the Committee shall comply with the Federal Advisory Committee Act (5 App. U.S.C.).

(B) The Committee shall consist of 18 members, who have particular expertise, knowledge, and experience regarding the transportation, equipment, and techniques that are used to ship cargo and to navigate vessels in the inshore and the offshore waters of the Gulf of Mexico:

(1) Two members who are employed by the Port of Houston Authority or have been selected by the entity to represent them.

(2) Two members who are employed by the Port of Galveston or the Texas City Port Complex or have been selected by those entities to represent them.

(3) Two members from organizations that represent shipowners, stevedores, shipyards, or shipping organizations domiciled in the State of Texas.

(4) Two members representing originations that operate tugs or barges that utilize the port facilities at Galveston, Houston, and Texas City Port Complex.

(5) Two members representing shipping companies that transport cargo from the Ports of Galveston and Houston on liners, break bulk, or tramp steamer vessels.

(6) Two members representing those who pilot or command vessels that utilize the Ports of Galveston and Houston

(7) Two at large members who may represent a particular interest group but who utilize the post facilities at Galveston, Houston, and Texas City.

(8) One member representing labor organizations which load and unload cargo at the Ports of Galveston and Houston.

(9) One member representing licensed merchant mariners, other than pilots, who perform shipboard duties on vessels which utilize the port facilities of Galveston and Houston.

(10) One member representing environmental interests.

(11) One member representing the general public.

(c) The Secretary shall appoint the members of the Committee after first soliciting nominations by notice published in the Federal Register. The Secretary may request the head of any other Federal agency or department to designate a representative to advise, the Committee on matters with the jurisdiction of that agency or department.

(d) The Committee shall elect, by majority vote at its first meeting, one of the members of the Committee as the chairman and one of the members as the vice chairman. The vice chairman shall act as chairman in the absence or incapacity of, or in the event of a vacancy in the Office of the Chairman.

(e) Terms of members appointed to the Committee shall be for two years. The Secretary shall, not less often than once a year, publish notice in the Federal Register for solicitation of nominations for membership on the Committee.

(f) Members of the Committee who are not officers or employees of the United States shall serve without pay and members of the Committee who are officers or employees of the United States shall receive no additional pay on account of their service on the Committee. While away from their homes or regular places of business, members of the Committee may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code.

(g) The term of members of the Committee shall begin on October 1, 1992.

SEC. 19. LOWER MISSISSIPPI RIVER WATERWAY ADVISORY COMMITTEE.

(a)(1) There is established a Lower Mississippi River Waterway Advisory Committee (hereinafter referred to as the "Committee"). The Committee shall advise, consult with, and make recommendations to the Secretary of the department in which the Coast Guard is operating (hereinafter in this part referred to as the "Secretary") on a wide range of matters regarding all facets of navigational safety related to the Lower Mississippi River. The Secretary shall, whenever practicable, consult with the Committee before taking any significant action related to navigation safety in the Lower Mississippi River. Any advice or recommendation made by the Committee to the Secretary shall reflect the independent judgment of the Committee on the matter concerned.

(2) The Committee is authorized to make available to Congress any information, advice, and recommendations which the Committee is authorized to give the Secretary. The Committee shall meet at the call of the Chairman, or upon request of the majority of Committee members, but in any event not less than once during each calendar year. All matters relating to or proceedings of the Committee shall comply with the Federal Advisory Committee Act (5 App. U.S.C.).

(b) The Committee shall consist of twenty-four members who have expertise, knowledge, and experience regarding the transportation, equipment, and techniques that are used to ship cargo and to navigate vessels on the Lower Mississippi River and its connecting navigable waterways including the Gulf of Mexico.

(1) Five members representing River Port Authorities between Baton Rouge, Louisiana, and the head of passes of the Lower Mississippi River, of which one member shall be from the Port of St. Bernard and one member from the Port of Plaquemines.

(2) Two members representing vessels owners or ship owners domiciled in the State of Louisiana.

(3) Two members representing organizations which operate harbor tugs or barge fleets in the geographical area covered by the Committee.

(4) Two members representing companies which transport cargo or passengers on the navigable waterways in the geographical area covered by the Committee.

(5) Three members representing State Commissioned Pilot organizations, with one member each representing the New Orleans/Baton Rouge Steamship Pilots Association, the Crescent River Port Pilots Association, and the Associated Branch Pilots Association.

(6) Two at-large members who utilize water transportation facilities located in the geographical area covered by the Committee.

(7) Three members representing consumers, shippers, or importers/exporters that utilize vessels which utilize the navigable waterways covered by the Committee.

(8) Two members representing those licensed merchant mariners, other than pilots, who perform shipboard duties on those vessels which utilize navigable waterways covered by the Committee.

(9) One member representing an organization that serves in a consulting or advisory capacity to the maritime industry.

(10) One member representing an environmental organization.

(11) One member representing the general public.

(c) The Secretary shall appoint the members of the Committee upon recommendation after first soliciting nominations by notice in the Federal Register. The Secretary may request the head of any other Federal agency or department to designate a representative to advise the Committee on matters within the jurisdiction of that agency or department, who shall not be a voting member of the Committee.

(2) The Committee shall annually elect, by majority vote at its first meeting, a chairman and vice chairman from its membership. The vice chairman shall act as chairman in the absence or incapacity of, or in the event of a vacancy in, the Office of the Chairman.

(e) Terms of members appointed to the Committee shall be two years. The Secretary shall, not less than once a year, publish notice in the Federal Register for solicitation of nominations for membership on the Committee.

(f) Members of the Committee who are not officers or employees of the United States shall serve without pay and members of the Committee who are officers or employees of the United States shall receive no additional pay on account of their service on the Committee. While away from their homes or regular place of business, members of the Committee may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code.

SEC. 20. VESSEL REQUIREMENTS.

Section 3503 of title 46, United States Code, is amended as follows:

(1) in subsection (a), by striking "November 1, 1993" and substituting "November 1, 1998"; and

(2) in section (b)(1):

(A) by striking "and" at the end of subparagraph (B);

(B) by striking the period at the end of subparagraph (C) and substituting "; and"; and

(C) by adding the following new subparagraph:

"(D) the owner or managing operator of the vessel shall notify the Coast Guard of structural alterations to the vessel, and with regard to those alterations comply with any non-combustile material requirements that the Coast Guard prescribes for non-public spaces. Coast Guard requirements shall be consistent with preservation of the historic integrity of the vessel in areas carrying or accessible to passengers or generally visible to the public.".

SEC. 21. AMENDMENT OF INLAND NAVIGATIONAL RULES.

Section 2 of the Inland Navigational Rules Act of 1980 (33 U.S.C. 2001 et seq.) is amended—

(1) in rule 1(e) (33 U.S.C. 2001(e)), by striking "without interfering with the special function of the vessel,"; and

(2) in Rule 8 (33 U.S.C. 2008), by inserting immediately after paragraph (e) the following new paragraph:

"(f)(i) A vessel which, by any of these Rules, is required not to impede the passage or safe passage of another vessel shall, when required by the circumstances of the case, take early action to allow sufficient sea room for the safe passage of the other vessel.

"(ii) A vessel required not to impede the passage or safe passage of another vessel is not relieved of this obligation if approaching the other vessel so as to involve risk of collision and shall, when taking action, have full regard to the action which may be required by the Rules of this part.

"(iii) A vessel the passage of which is not to be impeded remains fully obliged to comply with the Rules of this part when the two vessels are approaching one another so as to involve risk of collision.".

SEC. 22. DESIGNATION OF THE BORDEAUX RAILROAD BRIDGE AS AN OBSTRUCTION TO NAVIGATION.

Notwithstanding another law, the Bordeaux Railroad Bridge at mile 185.2 of the Cumberland River is deemed an unreasonable obstruction to navigation.

SEC. 23. NEW CONSTRUCTION DECLARATION.

The vessel, SEA FALCON, United States official number 606930, is deemed to have been built in the year 1990 for all purposes of subtitle II of title 46, United States Code.

SEC. 24. NATIONAL BOATING SAFETY ADVISORY COUNCIL.

Section 13110(e) of title 46, United States Code, is amended by striking "September 30, 1991" and substituting "September 30, 1996".

SEC. 25 COMMERCIAL FISHING INDUSTRY VESSEL ADVISORY COMMITTEE.

Section 4508(e)(1) of title 46, United States Code, is amended by striking "1992" and substituting "1994".

SEC. 26. CONVEYANCE OF CAPE MAY POINT LIGHTHOUSE.

(a)(1) The Secretary may convey to the State of New Jersey, by any appropriate means of conveyance, all right, title, and interest of the United States in and to property comprising the Cape May Point Lighthouse.

(2) The Secretary may identify, describe, and determine the property to be conveyed pursuant to this section.

(b)(1) A conveyance of property pursuant to this section be made—

(A) without the payment of consideration; and

(B) subject to such terms and conditions as the Secretary may consider appropriate.

(2) In addition to any term or condition established pursuant to paragraph (1), any conveyance of property pursuant to this section shall be subject to the condition that all right, title, and interest in and to all such property so conveyed shall immediately revert to the United States if the property, or any part thereof, ceases to be used as a nonprofit center for public benefit for the interpretation and preservation of the material culture of the United States Coast Guard and the maritime history of Cape May, New Jersey.

(3) Any conveyance of property pursuant to this section shall be subject to such conditions as the Secretary considers to be necessary to assure that—

(A) the light, antennas, sound signal, and associated equipment located on the property conveyed, which are active aids to navigation, shall continue to be operated and maintained by the United States:

(B) the State of New Jersey may not interfere or allow interference in any manner with such aids to navigation without express written permission from the United States;

(C) there is reserved to the United States the right to relocate, replace, or add any aids to navigation or make any changes on any portion of such property as may be necessary for navigation purposes;

(D) the United States shall have the right, at any time, to enter such property without notice for the purpose of maintaining navigation aids; and

(E) the United States shall have an easement of access of such property for the purpose of maintaining the navigational aids in use on the property.

(4) The State of New Jersey shall not have any obligation to maintain any active aid to navigation equipment on property conveyed pursuant to this section.

(d) For purposes of this section—

(1) "Cape May Point Lighthouse" means the Coast Guard lighthouse located at Cape May, New Jersey, including the attached keeper's dwelling, several ancillary buildings, the associated fog signal, and such land as may be necessary to enable the State of New Jersey to operate at that lighthouse a nonprofit center for public benefit for the interpretation and preservation of the material culture of the United States Coast Guard and the maritime history of Cape May, New Jersey; and

(2) "Secretary" means the Secretary of the department in which the Coast Guard is operating.

SEC. 27. SHIP SHOAL LIGHTHOUSE TRANSFER.

Notwithstanding another law, the Secretary of Transportation shall transfer without consideration to the City of Berwick, Louisiana all rights, title, and interest of the United States in the aid to navigation structure known as the Ship Shoal Lighthouse, Louisiana.

SEC. 28. CAPE COD LIGHTHOUSE AND SANKATY HEAD LIGHT STATION.

(a)(1) Not later than six months after the date of the enactment of this Act, the Secretary of Transportation, in consultation with the Secretary of the Army, the Secretary of the Interior, appropriate State, local, and other governmental entities, and private preservation groups, shall develop a strategy regarding the relocation, ownership, maintenance, operation, and use of Cape Cod Lighthouse (otherwise known as "Highland Light") in North Truro, Massachusetts, and Sankaty Head Light Station in Nantucket, Massachusetts.

(2) In developing the strategy, the Secretary shall determine whether and under what conditions it would be appropriate to convey the rights, title, and interest of the United States in Cape Code Lighthouse and Sankaty Head Light Station to other Federal, State, or local government agencies or private preservation groups.

(3) In preparing the strategy with respect to Cape Code Lighthouse, the Secretary shall consult with the Director of the National Park Service to determine whether the lighthouse should become part of the National Park at Cape Cod National Seashore.

(4) Any strategy developed under this section shall be consistent with—

(A) the provisions of the National Historic Preservation Act (16 U.S.C. 470 et seq.) and other applicable laws; and

(B) the goal of interpreting and preserving material culture of the United States Coast Guard.

(b) After completion of the strategy under subsection (a), the Secretary of Transportation may convey, by any appropriate means, all right, title, and interest of the United States in either or both of Cape Code Lighthouse and Sankaty Head Light Station to one or more Federal, State, or local government agencies or appropriate nonprofit private preservation groups. Any conveyance under this subsection shall be made—

(1) without payment of consideration;

(2) subject to appropriate terms and conditions as the Secretary of Transportation considers necessary; and

(3) subject to the condition that if the terms and conditions established by the Secretary are not met, the property conveyed shall revert to the United States.

SEC. 29. TRANSFER OF HECETA HEAD AND CAPE BLANCO LIGHTHOUSES.

(a)(1) the Secretary may convey by any appropriate means to the State of Oregon all right, title, and interest of the United States in and to property comprising one or both of the Heceta Head Lighthouse and the Cape Blanco Lighthouse.

(2) The Secretary may identify, describe, and determine property conveyed pursuant to this section.

(b)(1) The conveyance of property pursuant to subsection (a) shall be made—

(A) without the payment of consideration; and

(B) subject to such terms and conditions as the Secretary may consider appropriate.

(2) In addition to any term or condition established pursuant to paragraph (1), any conveyance of property comprising Heceta Head Lighthouse or Cape Blanco Lighthouse pursuant to this section shall be subject to the condition that all right, title, and interest in and to the property so conveyed shall immediately revert to the United States if the property, or any part thereof, ceases to be used as a nonprofit center for public benefit for the interpretation and preservation of the maritime history of Heceta Head or Cape Blanco, as applicable.

(3) Any conveyance of property pursuant to this section shall be made subject to such conditions as the Secretary considered to be necessary to assure that—

(A) the light, antennas, and associated equipment located on the property conveyed, which are active aids to navigation, shall continue to be operated and maintained by the United States;

(B) the State of Oregon may not interfere or allow interference in any manner with such aids to navigation without express written permission from the United States;

(C) there is reserved to the United States the right to relocate, replace, or add any aids to navigation or make any changes on any portion of such property as my be necessary for navigation purposes;

(D) the United States shall have the right, at any time, to enter such property without notice for the purpose of maintaining aids to navigation; and

(E) the United States shall have an easement of access to such property for the purpose of maintaining the aids to navigation in use on the property.

(4) The State of Oregon shall not have any obligation to maintain any active aid to navigation equipment on property conveyed pursuant to this section.

(C) For purposes of this section the term—

(1) "Heceta Head Lighthouse" means the Coast Guard lighthouse located at Heceta Head, Oregon, including—

(A) the classical fresnel lens;

(B) the keeper's dwelling;

(C) several ancillary buildings; and

(D) such land as may be necessary to enable the State or Oregon to operate at that lighthouse a nonprofit center for public benefit for the interpretation and preservation of the maritime history of Heceta Head, Oregon;

(2) "Cape Blanco Lighthouse" means the Coast Guard lighthouse located at Cape Blanco, Oregon, including—

(A) the classical fresnel lens;

(B) several ancillary buildings; and

(C) such land as may be necessary to enable the State of Oregon to operate at that lighthouse a nonprofit center for public benefit for the interpretation center for public benefit for the interpretation and preservation of the maritime history of Cape Blanco, Oregon; and

(3) the term "Secretary" means the Secretary of the department in which the Coast Guard is operating.

SEC. 30. CONVEYANCE OF WHITE ISLAND LIGHTHOUSE.

(a) The Secretary shall convey to the State of New Hampshire, by any appropriate means of conveyance, all rights, title, and interest of the United States in and to property comprising the White Island Lighthouse.

(2) The Secretary may identify, describe, and determine the property to be conveyed pursuant to this section.

(b)(1) A conveyance of property pursuant to this section shall be made—

(A) without the payment of consideration; and

(B) subject to such terms and conditions as the Secretary may consider appropriate.

(2) In addition to any term or condition established pursuant to paragraph (1), any conveyance of property pursuant to this section shall be subject to the condition that all rights, title, and interest in and to all such property so conveyed shall immediately revert to the United States if the property so conveyed ceases to be used as a nonprofit center for public benefit. In connection therewith, the property may be used for educational, historic, recreational, and cultural programs open to and for the benefit of the general public. Theme displays, museum, gift shop, open exhibits meeting rooms, and an office and quarters for personnel in connection with security and administration of the property are expressly authorized. Other uses not inconsistent with the foregoing uses are permitted unless the Secretary shall reasonably determine that such uses are incompatible with the historic nature of the property or with other provisions of this section.

(3) Any conveyance of property pursuant to this section shall be subject to such conditions as the Secretary considers to be necessary to assure that—

(A) any light, antennas, sound signal, and associated equipment located on the property conveyed, which are active aids to navigation, shall continue to be operated and maintained by the United States;

(B) the State of New Hampshire may not interfere or allow interference in any manner with such aids to navigation without express written permission from the United States;

(C) there is reserved to the United States the right to relocate, replace, or add any aids to navigation or make any changes on any portion of such property as may be necessary for navigation purposes;

(D) the United States shall have the right, at any time, to enter such property with notice for the purpose of maintaining navigational aids; and

(E) the United States shall have an easement of access to such property for the purpose of maintaining the navigational aids in use on the property.

(4) The State of New Hampshire shall not have any obligation to maintain any active aid-to-navigation equipment on property conveyed pursuant to this section.

(c) For purposes of this section, the term "White Island Lighthouse" means the Coast Guard lighthouse located at White Island, Isles of Shoals, New Hampshire including the attached keeper's dwelling, several ancillary buildings, the associated fog signal, and such lands as may be necessary to enable the State of New Hampshire to operate at that lighthouse a nonprofit center for public benefit.

SEC. 31. CONVEYANCE OF PORTLAND HEAD LIGHTHOUSE.

(a)(1) The Secretary shall convey to the Town of Cape Elizabeth, Maine, by any appropriate means of conveyance, all right, title, and interest of the United States in and to property comprising the Portland Head Lighthouse.

(2) The Secretary may identify, describe, and determine the property to be conveyed pursuant to this section.

(b)(1) A conveyance of property pursuant to this section shall be made—

(A) without the payment of consideration; and

(B) subject to such terms and conditions as the Secretary may consider appropriate.

(2) In addition to any term or condition established pursuant to paragraph (1), any conveyance of property pursuant to this section shall be subject to the condition that all right, title, and interest in and to all such property so conveyed shall immediately revert to the United States if the property so conveyed ceases to be used as a nonprofit center for public benefit. In connection therewith, the property may be used for educational, historic, recreational, and cultural programs open to and for the benefit of the general public. Theme displays, museum, gift shop, open exhibits, meeting rooms, and an office and quarters for personnel in connection with security and administration of the property and the adjacent Fort Williams Park, owned and operated by the Town of Cape Elizabeth, are expressly authorized. Other uses not inconsistent with the foregoing uses are permitted unless the Secretary shall reasonably determine that such uses are incompatible with the historic nature of the property or with other provisions of this section.

(3) Any conveyance of property pursuant to this section shall be subject to such conditions as the Secretary considers to be necessary to assure that—

(A) any light, antennas, sound signal, and associated equipment located on the property conveyed, which are active aids to navigation, shall continue to be operated and maintained by the United States;

(B) the Town of Cape Elizabeth may not interfere or allow interference in any manner with such aids to navigation without express written permission from the United States;

(C) there is reserved to the United States the right to relocate, replace, or add any aids to navigation or make any changes on any portion of such property as may be necessary for navigation purposes;

(D) the United States shall have the right, at any time, to enter such property with notice for the purpose of maintaining navigational aids; and

(E) the United States shall have an easement of access to such property for the purpose of maintaining the navigational aids in use on the property.

(4) The Town of Cape Elizabeth shall not have any obligation to maintain any active aid-to-navigation equipment on property conveyed pursuant to this section.

(c) For purposes of this section, the term—

(1) "Portland Head Lighthouse" means the Coast Guard lighthouse located at Cape Elizabeth, Maine, including the attached keeper's dwelling, several ancillary buildings, the associated fog signal, and such lands as may be necessary to enable the Town of Cape Elizabeth to operate at that lighthouse a nonprofit center for public benefit; and

(2) "Secretary" means the Secretary of the department in which the Coast Guard is operating.

SEC. 32. OIL POLLUTION REPORT.

Not later than one year after the date of enactment of this Act, the Secretary of Transportation shall report to Congress on the effect of section 1018 of the Oil Pollution Act of 1990 (P.L. 101–380; 104 Stat. 484) on the safety of vessels being used to transport oil and the capability of owners and operators to meet their legal obligations in the event of an oil spill.

SEC. 33. PASSENGER VESSEL INVESTIGATIONS.

Section 6101 of title 46, United States Code, is amended by adding at the end the following:

"(e)(1) This chapter applies to a marine casualty involving a United States citizen on a foreign passenger vessel operating south of 75 degrees north latitude, west of 35 degrees west longitude, and east of the International Date Line; or operating in the area south of 60 degrees south latitude that—

"(A) embarks or disembarks passengers in the United States; or

"(B) transports passengers traveling under any form of air and sea ticket package marketed in the United States.

"(2) When there is a marine casualty described in paragraph (1) of this subsection and an investigation is conducted, the Secretary shall ensure that the investigation—

"(A) is thorough and timely; and

"(B) produces findings and recommendations to improve safety on passenger vessels.

"(3) When there is a marine casualty described in paragraph (1) of this subsection, the Secretary may—

"(A) seek a multinational investigation of the casualty under auspices of the International Maritime Organization; or

"(B) conduct an investigation of the casualty under chapter 63 of this title.".

SEC. 34. PORTION OF SACRAMENTO RIVER BARGE CANAL DECLARED TO NOT BE NAVIGABLE WATERS OF UNITED STATES.

For purposes of bridge administration, the Sacramento River Barge Canal, which connects the Sacramento Deep Water Ship Channel with the Sacramento River in West Sacramento, Yolo County, California, is declared to not be navigable waters of the United States for purposes of the General Bridge Act of 1946 (33 U.S.C. 525 et seq.) from the eastern boundary of the Port of Sacramento to a point 1,200 feet east of the William G. Stone Lock.

SEC. 35 SENSE OF THE CONGRESS RELATING TO THE ROLE OF THE COAST GUARD IN THE PERSIAN GULF CONFLICT.

(1) members of the Coast Guard played an important role in the Persian Gulf Conflict;

(2) 950 members of the Coast Guard Reserve were called to active duty during the Persian Gulf Conflict and participated in various activities, including vessel inspection, port safety and security, and supervision of loading and unloading hazardous military cargo;

(3) members of Coast Guard Law Enforcement Detachments led or directly participated in approximately 60 percent of the 600

vessel boardings in support of maritime interception operations in the Middle East;

(4) 10 Coast Guard Law Enforcement Teams were deployed for enforcement of United Nations sanctions during the Persian Gulf Conflict;

(5) over 300 men and women in the Coast Guard Vessel Inspection Program participated in the inspection of military sealift vessels and facilitated the efficient transportation of hazardous materials; munitions, and other supplies to the combat zone;

(6) members of the Coast Guard served in the Joint Information Bureau Combat Camera and Public Affairs staffs;

(7) approximately 550 members of the Coast Guard served in port security units in the Persian Gulf area, providing port security and waterside protection for ships unloading essential military cargo;

(8) the Coast Guard Environmental Response Program headed the international Interagency Oil Pollution Response Advisory Team for cleanup efforts relating to the massive oil spill off the coasts of Kuwait and Saudi Arabia;

(9) the Coast Guard Research and Development Center developed a deployable positioning system for the Explosive Ordnance Disposal Area Search Detachment, saving the detachment time and thousands of dollars, while also increasing the effectiveness and efficiency of the minesweeping and ordnance disposal operations in the Persian Gulf area; and

(10) Coast Guard units remain in the Persian Gulf area and continue to provide essential support including both port security and law enforcement.

(b) The Congress commends the Coast Guard for the important role it played in the Persian Gulf Conflict and urges the people of the United States to recognize that role.

SEC. 36. BRIDGE ACROSS WAPPINGER CREEK, NEW YORK.

Notwithstanding any other provision of law, the railroad bridge across Wappinger Creek, mile 0.0. at New Hamburg, New York, is hereby determined to provide for the reasonable needs of navigation under the Act of March 3, 1899 (33 U.S.C. 401), section 1 of the Act of March 23, 1906 (33 U.S.C. 491), and section 502(b) of the General Bridge Act of 1946 (33 U.S.C. 525(b)), at the closed position and need not be maintained as a movable structure.

SEC. 37. VESSEL SAFETY NEAR STRAIT OF JUAN DE FUCA.

The Secretary of Transportation, through the Secretary of State, is directed to enter into discussions with their appropriate Canadian counterparts to examine alternatives to improve commercial vessel traffic safety off the entrance to the Strait of Juan de Fuca.

SEC. 38. TRANSFER OF CERTAIN PROPERTY AT FOLLY BEACH, SOUTH CAROLINA.

(A) Notwithstanding another law, the Secretary of Transportation shall transfer without consideration to the Charleston County Park and Recreation Commission all rights, title, and interest of the United States in Coast Guard property located at Folly Island, Charleston County, South Carolina, described in subsection (b) subject to existing easement and restrictions of record. The transferee shall pay for all conveyance costs.

(b) The property to be transferred under subsection (a) is described as commencing at a point in the center of United States Army Observation Steel Tower (32 degrees 41 minutes 13.590 seconds north latitude, 79 degrees 53 minutes 16.783 seconds west longitude), and running from there due south 261.75 feet to a point at 32 degrees 41 minutes 11 seconds north latitude, 79 degrees 53 minutes 16.783 seconds west longitude, for a point of beginning; running from there, due east along north latitude 32 degrees 41 minutes 11 seconds 854 feet, more or less, to a point in the low water line; from there, running southerly and southwesterly along the meanderings of such low water line 4650 feet, more or less, to the intersection of such low water line with west longitude 79 degrees 53 minutes 30 seconds; from there, running due north along such longitude 3380 feet, more or less, to the intersection of such longitude with north latitude 32 degrees 41 minutes 11 seconds; from there, running due east along such latitude 1129.64 feet to the point of beginning, containing 143 acres, more or less (part high and part submerged lands); together with the 2300 volt power line, and all power line rights of way connected therewith, extending from the Government's property at the east end of Foley Island to such power lines connection with the South Carolina Power Company's power line at Folly Beach.

SEC. 39. REQUIREMENT TO REPORT ON CERTAIN POLLUTION INCIDENTS.

Section 7 of the Act to Prevent Pollution from Ships (33 U.S.C. 1906) is amended to read as follows:

"SEC. 7. (a) The master, person in charge, owner, charterer, manager, or operator of a ship involved in an incident shall report the incident in the manner prescribed by Article 8 of the Convention in accordance with regulations promulgated by the Secretary for that purpose.

"(b) The master or person in charge of—

"(1) a ship of United States registry or nationality, or operated under the authority of the United States, wherever located;

"(2) another ship while in the navigable waters of the United States, or;

"(3) a sea port or oil handling facility subject to the jurisdiction of the United States, shall report a discharge, probable discharge, or presence of oil in the manner prescribed by Article 4 of the International Convention on Oil Pollution Preparedness, Response and Cooperation, 1990 (adopted at London, November 30, 1990), in accordance with regulations promulgated by the Secretary for that purposes.".

SEC. 40. AMENDMENTS TO IMPLEMENT INTERNATIONAL SALVAGE CONVENTION, 1989.

(a) Section 3 of the Act of August 1, 1912 (46 App. U.S.C. 729), is amended by striking all after "fair share of the" substituting "payment awarded to the salvor for salving the vessel or other property or preventing or minimizing damage to the environment.".

(b) Section 5 of the Act of August 1, 1912 (46 App. U.S.C. 731), is amended by striking "Nothing in this Act" and substituting "Nothing in sections 1, 3, and 4 of this Act and section 2304 of title 46, United States Code,".

SEC. 41. CERTIFICATE OF DOCUMENTATION FOR MAYFLOWER II.

(a) Notwithstanding section 12106 of title 46, United States Code, and section 27 of the Merchant Marine Act, 1920 (46 App. U.S.C. 883), as applicable on the date of enactment of this Act, the Secretary of Transportation may issue a certificate of documentation with appropriate endorsement for employment in the coastwise trade of the United States for the vessel MAYFLOWER II, owned by Plimoth Plantation, Inc., a corporation under the laws of Massachusetts.

(b)(1) The Secretary may exempt the vessel MAYFLOWER II from compliance with—

(A) any requirement relating to inspection or safety under title 46, United States Code; and

(B) any requirement relating to navigation under title 33, United States Code.

(2) If the Secretary exempts the vessel from any requirement under paragraph (1), the Secretary may establish an alternative requirement designed to provide for the safety of the passengers and crew of the vessel.

SEC. 42. JOHN F. LIMEHOUSE MEMORIAL BRIDGE.

Notwithstanding another law, the John F. Limehouse Memorial Bridge across the Atlantic Intracoastal Waterway in Charleston County, South Carolina, is deemed an unreasonable obstruction to navigation.

SEC. 43. OREGON OIL SPILL RESPONSE STUDY.

Not later than one year after the date of enactment of this Act, the Secretary of Transportation shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives a report examining the adequacy of pre-positioned oil spill response equipment to respond to potential damage caused by spills upriver on the Columbia River where commercial and government marine vessel activity take place.

SEC. 44. TRANSPORTATION SUBSIDY.

The Department of Transportation may include military personnel of the Coast Guard in any program in which the Department participates under section 629 of the Treasury, Postal Service and General Government Appropriations Act, 1991, Public Law 101–509, notwithstanding section 629(c)(2) of that Act.

SEC. 45. CHATHAM HARBOR, MASSACHUSETTS.

Not later than 30 days after the date of enactment of this Act, the Commandant of the Coast Guard shall provide to the U.S. Army Corps of Engineers New England Division for incorporation into their Feasibility Study on Improvement Dredging in Chatham Harbor, the following information:

(1) a description of the current and projected future navigational hazards in Chatham Harbor caused by shoaling in and around Aunt Lydia's Cove;

(2) the current and projected impacts, of these navigational hazards on the Coast Guard's missions, including:

(A) impacts on search and rescue responses;

(B) impacts on the area of response;

(C) types and costs of any special equipment needed to navigate the channel; and

(D) potential impacts on boater safety; and

(3) the benefits to local boaters and the Coast Guard that would result from improved navigation.

SEC. 46. JONES ACT WAIVERS FOR CERTAIN VESSELS.

Notwithstanding sections 12106, 12107, and 12108 of title 46, United States Code, and section 27 of the Merchant Marine Act, 1920 (46 App. U.S.C. 883), as applicable on the date of enactment of this Act, the Secretary of Transportation may issue a certificate of documentation for the following vessels:

(1) MISS LELIA, United States official number 577213.

(2) BILLFISH, United States official number 920896.

(3) MARSH GRASS III, United States official number 963616.

SEC. 47. NATIONAL MARITIME ENHANCEMENT INSTITUTES.

Section 8(e) of the Act entitled "An Act to authorize appropriations for fiscal year 1990 for the Maritime Administration, and for other purposes", approved October 13, 1989 (46 App. U.S.C. 1121–2(e)), is amended by striking "shall not exceed $100,000" and substituting "by the Secretary shall not exceed $500,000".

SEC. 48. ACQUISITION OF SPACE IN VIRGINIA.

The Secretary of Commerce shall acquire space from the Administrator of General

Services in the area of Newport News-Norfolk, Virginia, for use for consolidating and meeting the long-term space needs of the National Oceanic and Atmospheric Administration in a cost effective manner. In order to acquire this space, the Administrator of General Services may, with the consent of the Secretary of Commerce, exchange real property owned by the Department of Commerce for other real property, including improvements to that property, in that area.

SEC. 49. ACQUISITION OF SPACE IN ALASKA.

The Secretary of Commerce shall acquire space from the Administrator of General Services on Near Island in Kodiak, Alaska, that meets the long-term space needs of the National Oceanic and Atmospheric Administration, if the maximum annual cost of leasing the building in which the space is located is not more than $1,000,000.

SEC. 50. TRANSFER AT JUNEAU, ALASKA.

(A) Notwithstanding another provision of law, the Secretary of Transportation shall transfer without consideration to the Secretary of Commerce all rights, title, and interest of the United States in Coast Guard property and improvements at Auke Cape, Alaska (Lot 2 on United States Survey Number 3811 comprising 28.16 acres), located approximately 11 miles northwest of Juneau, Alaska.

(b) The Secretary of Commerce shall make the property transferred under this section available to the National Oceanic and Atmospheric Administration.

SEC. 51. STUDY OF JOINT ENFORCEMENT OF MARINE SANCTUARY REGULATIONS.

Not later than one year after the date of enactment of this Act, the Secretary of Transportation and the Secretary of Commerce shall submit to the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science, and Transportation of a joint report describing methods by which Coast Guard enforcement efforts under the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431 et seq.) may be enhanced and coordinated with those of the National Oceanic and Atmospheric Administration. the report shall—

(1) evaluate the ability of the Coast Guard to address key enforcement problems, which the Secretary of Commerce shall identify, for each national marine sanctuary;

(2) propose procedures by which the Coast Guard and the National Oceanic and Atmospheric Administration may coordinate their efforts in order to improve and maximize effective enforcement of marine sanctuary regulations; and

(3) recommend appropriate levels of Coast Guard participation in the efforts.

SEC. 52. DECLARATION OF NONNAVIGABILITY FOR PORTIONS OF PELICAN ISLAND, TEXAS.

(a) Subject to the provisions of subsections (b), (c), and (d) of this section, those portions of Pelican Island, Texas, which are not submerged and which are within the following property descriptions, are declared to be nonnavigable waters of the United States.

(1) A 1,903.6655 acre tract of land situated in Galveston County, Texas, within the Galveston City Limits and on Pelican Island and being more particularly described by metes and bounds as follows, with all control referred to the Texas State Plane Coordinate System, Lambert Projection, South Central Zone:

Beginning at a United States Corps of Engineers concrete monument with a brass cap, being Corps of Engineers station 40+00 and being located on the southwesterly line of a United States Government Reservation and having Texas State Plane Coordinate Value of X=3,340,636.67, --,568,271.91;

thence south 57 degrees 00 minutes 04 seconds east, 501.68 feet to a point for corner;

thence north 37 degrees 18 minutes 11 seconds east, 2,802.65 feet to a point for corner;

thence north 79 degrees 03 minutes 47 seconds east, 798.87 feet to a point for corner;

thence north 15 degrees 34 minutes 53 seconds east, 2,200.00 feet to a point for corner located on the north harbor line of Pelican Island;

thence along said north harbor line south 63 degrees 00 minutes 45 seconds east 306.04 feet to a point for corner;

thence leaving said harbor line south 15 degrees 34 minutes 53 seconds west, at 1,946.05 feet pass the northwesterly corner of Seawolf Park, in all a total distance of 2,285.87 feet to the southwesterly corner of Seawolf Park;

thence along the southeasterly line of said Seawolf Park, south 74 degrees 25 minutes 07 seconds east, 421.01 feet to a point for corner;

thence continuing along said line south 65 degrees 12 minutes 37 seconds east, 93.74 feet to a point for corner;

thence south 63 degrees 00 minutes 45 seconds east, 800.02 feet to a point for corner on Galveston Channel Harbor Line;

thence along said Galveston Channel Harbor Line as follows:

south 15 degrees 14 minutes 01 seconds west, 965.95 feet to a point,

south 74 degrees 26 minutes 20 seconds east, 37.64 feet to a point,

south 15 degrees 33 minutes 40 seconds west, 2,779.13 feet to a point,

south 36 degrees 18 minutes 31 seconds west, 1,809.93 feet to a point,

south 36 degrees 24 minutes 57 seconds west, 190.98 feet to a point,

south 40 degrees 37 minutes 46 seconds west, 558.04 feet to a point,

south 49 degrees 02 minutes 41 seconds west, 558.16 feet to a point,

south 53 degrees 15 minutes 03 seconds west, 1,557.49 feet to a point,

south 55 degrees 34 minutes 51 seconds west, 455.45 feet to a point,

south 60 degrees 14 minutes 23 seconds west, 455.37 feet to a point,

south 62 degrees 34 minutes 14 seconds west, 426.02 feet to a point,

south 68 degrees 11 minutes 32 seconds west, 784.25 feet to a point,

south 79 degrees 26 minutes 20 seconds west, 784.21 feet to a point,

south 85 degrees 03 minutes 42 seconds west, 761.77 feet to a point,

south 86 degrees 42 minutes 35 seconds west, 1,092.97 feet to a point,

north 89 degrees 59 minutes 40 seconds west, 827.53 feet to a point,

north 88 degrees 20 minutes 24 seconds west, 1,853.01 feet to a point,

south 62 degrees 11 minutes 55 seconds west, 45.94 feet to a point,

north 88 degrees 04 minutes 15 seconds west, 653.80 feet to a point, and

north 78 degrees 19 minutes 36 seconds west, 1,871.96 feet to a point for corner located on the Mean High Water Line (0.88 foot contour line, above sea level datum);

thence leaving said Harbor Line and following the meanders of said Mean High Water Line along Galveston Bay as follows;

north 26 degrees 26 minutes 35 seconds west, 1,044.28 feet to a point,

north 25 degrees 25 minutes 56 seconds east, 242.71 feet to a point,

north 16 degrees 42 minutes 01 seconds west, 270.77 feet to a point,

north 10 degrees 04 minutes 05 seconds west, 508.36 feet to a point,

north 11 degrees 21 minutes 01 seconds west, 732.39 feet to a point,

north 03 degrees 45 minutes 31 seconds west, 446.34 feet to a point,

north 03 degrees 08 minutes 15 seconds west, 566.01 feet to a point,

north 02 degrees 48 minutes 50 seconds west, 288.02 feet to a point,

north 06 degrees 53 minutes 40 seconds west, 301.48 feet to a point,

north 19 degrees 04 minutes 56 seconds east, 407.38 feet to a point,

north 12 degrees 28 minutes 05 seconds east, 346.79 feet to a point,

north 01 degree 30 minutes 23 seconds east, 222.91 feet to a point and

north 08 degrees 08 minutes 07 seconds east, 289.74 feet to a point for corner,

thence leaving said Mean High Water Line north 84 degrees 43 minutes 15 seconds east 10,099.75 feet to the point of beginning and containing 1,903,6655 acres of land.

(2) All of that certain tract of 206.6116 acres of land, being part of and out of Pelican Island, in the city of Galveston, Galveston County, Texas, and being more particularly described by metes and bounds as follows:

Beginning at the most northwesterly corner of the Pelican Spit Military Reservation, as described in the Deed from the City of Galveston unto the United States of America, dated April 29, 1907, and recorded in Book 221, at Page 416 of the County Clerk of Galveston County, Texas, said point being Pelican Island Coordinates N=15, 171.20 and E=11,533.92;

thence north 29 degrees 11 minutes 52 seconds east, a distance of 100.00 feet to a 2-inch iron pipe for corner, said corner being the most southerly corner of the herein described tract, and place of beginning:

thence north 60 degrees 48 minutes 08 seconds west, a distance of 3,000.00 feet to a 2-inch iron pipe for corner;

thence north 29 degrees 11 minutes 52 seconds east, a distance of 3,000.00 feet to a point for corner;

thence south 60 degrees 48 minutes 08 seconds east, a distance of 3,000.00 feet to a point for corner;

thence south 29 degrees 11 minutes 52 seconds west a distance of 3,000.00 feet to the place of beginning, containing 206.6116 acres.

(3) Beginning at point "H" (point "H" is also known as point "3" on Pelican Island Harbor Line), the coordinates of which are South 8,827.773 meters and East 11,483.592 meters, on Pelican Island proposed harbor line;

thence with harbor line north 61 degrees west 800 feet;

thence south 17 degrees 35 minutes 38 seconds west 2,200 feet;

thence south 61 degrees east 800 feet to proposed harbor line;

thence with proposed harbor line north 17 degrees 35 minutes 38 seconds east to the place of beginning and containing 39.88 acres, more or less, together with all buildings, utilities and improvements thereon.

(4) Beginning at a point in the westerly property line of the tract described in paragraph (3), said point being 285.00 feet bearing north 17 degrees 35 minutes 38 seconds east from the southwest corner of said tract;

thence north 72 degrees 24 minutes 22 seconds west, a distance of 346.00 feet;

thence north 14 degrees 58 minutes 09 seconds east, a distance of 610.00 feet;

thence south 72 degrees 24 minutes 22 seconds east, a distance of 374.00 feet;

thence south 17 degrees 35 minutes 38 seconds west, a distance of 609.36 feet to the point of beginning and containing 5.036 acres of land, more or less.

(5) Beginning at the southwest corner of the tract described in paragraph (3);

thence north 63 degrees 11 minutes 52 seconds west, a distance of 93.74 feet to a point for corner;

thence north 72 degrees 24 minutes 22 seconds west, a distance of 421.01 feet to a point for corner;

thence north 17 degrees 35 minutes 38 seconds east, a distance of 339.82 feet to a point for corner;

thence south 82 degrees 24 minutes 22 seconds east, a distance of 86.03 feet to a point for corner;

thence north 77 degrees 11 minutes 26 seconds east, a distance of 89.12 feet to a point for corner in the westerly line of the tract described in paragraph (4);

thence south 14 degrees 58 minutes 09 seconds west, with said westerly line, a distance of 130.00 feet to a point for corner, the southwest corner of the tract described in paragraph (4);

thence south 72 degrees 24 minutes 22 seconds east with the southerly line of the tract described in paragraph (4), a distance of 346.00 feet to a point for corner, the southeast corner of the tract described in paragraph (4);

thence south 17 degrees 35 minutes 38 seconds west with the westerly line of the tract described in paragraph (3), a distance of 285.00 feet to the point of beginning, containing 3.548 acres of land, more or less.

(b) Notwithstanding the declaration under subsection (a), the following portions of Pelican Island, Texas, within those lands described in subsection (a) shall remain navigable waters of the United States:

(1) Out of the Eneas Smith Survey, A–190, on Pelican Island, the 2.7392 acre tract, the 3.2779 acre tract, and the 2.8557 acre tract described in the Perpetual Easements dated May 9, 1975, from Mitchell Development Corporation of the Southwest to the United States, recorded on pages 111 through 122 of Book 2571 of the Real Property Records in the Office of the County Clerk of Galveston County, Texas.

(2) Out of the Eneas Smith Survey, A–190, on Pelican Island, the 1.8361 acre tract of land described in Exhibit 'B' of the Specific Location of Pipeline Easement dated July 30, 1975, by and between the Mitchell Development Corporation of the Southwest, the United States of America, and Chase Manhattan Bank (National Association), recorded on pages 9 through 14 of Book 2605 of the Real Property Records in the Office of the County Clerk of Galveston County, Texas.

(3) For each of the four tracts of land described in paragraphs (1) and (2) of this subsection, a 40-foot wide strip of land along, adjacent and parallel to, and extending the full length of, the easterly boundary line of the tract and a 40-foot wide strip of land along, adjacent and parallel to, and extending the full length of, the westerly boundary line of the tract.

(c) The declaration under subsection (a) shall apply only to those parts of the areas described in subsection (a) of this section and not described in subsection (b) of this section which are or will be bulkheaded and filled or otherwise occupied by permanent structures or other permanent physical improvements, including marina facilities. All such work is subject to applicable Federal statutes and regulations, including sections 9 and 10 of the Act of March 3, 1899 (commonly referred to as the "Rivers and Harbors Appropriation Act of 1899" (33 U.S.C. 401 and 403), section 404 of the Federal Water Pollution Control Act and the National Environmental Policy Act of 1969.

(d) If, 20 years from the date of the enactment of this Act, any area or part thereof described in subsection (a) of this section and not described in subsection (b) of this section is not bulkheaded or filled or occupied by permanent structures or other permanent physical improvements, including marina facilities, in accordance with the requirements set out in subsection (c) of this section, or if work is not commenced within 5 years after issuance of any permits required to be obtained under subsection (c), then the declaration of nonnavigability for such area or part thereof shall expire.

SEC. 53. DISCLOSURE REGARDING RECREATIONAL VESSEL FEE.

Section 2110(b) of title 46, United States Code, is amended by adding at the end the following new paragraph:

"(5) The Secretary shall provide to each person who pays a fee or charge under this subsection a separate document on which appears, in readily discernible print, only the following statement: 'The fees for which this document was provided was established under the Omnibus Budget Reconciliation Act of 1990. Persons paying this fee can expect no increase in the quantity, quality, or variety of services the person receives from the Coast Guard as a result of that payment.'."

SEC. 54. SENSE OF THE CONGRESS ON COAST GUARD RESCUE EFFORTS.

(a) The Congress finds that—

(1) during the month of October, Air Station Cape Cod experienced one of the most intense periods of search and rescue activities, including 51 search and rescue cases of which 27 were in the last 10 days of the month;

(2) immediately prior to the Winter storm that ravaged Cape Cod from October 28 to November 1, with average seas of 35–40 feet and winds exceeding 80 knots, coastal small boat station personnel on Cape Cod and the Islands of Nantucket and Martha's Vineyard successfully worked with the local communities and the fishing industry to secure the small coastal ports to minimize damage to vessels and property;

(3) Group Portland, Group Boston, and Group Woods Hole units suffered significant damage to coastal small boat stations, lighthouses, and other aids to navigation but this damage did not affect operational readiness and Coast Guard boats and aircraft were prepared to respond to emergencies;

(4) during the five-day period from October 28 to November 1, the Coast Guard Cutter GENETIN, Coast Guard cutter BEAR and Coast Guard helicopters stationed at Elizabeth City, North Carolina participated in five offshore rescue operations that saved 21 lives;

(5) Coast Guard flight crews operating from Elizabeth City logged 56 hours of flight time during the 72-hour-period when Hurricane Grace buffeted the North Carolina Coast;

(6) the Coast Guard performed these search and rescue operations while fulfilling other important missions including the monitoring of a sulfuric acid spill and a sensitive law enforcement operation.

(b) The Congress commends the Coast Guard units involved for their remarkable skill, performance and dedication in protecting life and property and urges the people of the United States to recognize this job well done.

SEC. 55. SENSE OF THE CONGRESS ON RECREATIONAL BOAT FEES.

(a) The Congress finds that—

(1) under section 9701 of title 31, United States Code, and section 664 of title 14, United States Code, Coast Guard user fees must be fair, based on the cost to the Coast Guard of providing services or things of value, based on the value of services or things of value provided by the Coast Guard, and based on a valid public policy or interest;

(2) the Coast Guard fee imposed upon recreational boaters under section 2110(b) of title 46, United States Code, was established under the Omnibus Budget Reconciliation Act of 1990 (Public Law 101–508; 104 Stat. 1388–1397);

(3) recreational boaters who are required to pay this fee cannot expect to receive any additional service in return for payment of the fee;

(4) recreational boaters already pay a motorboat fuel tax that contributes to the Coast Guard budget; and

(5) the fee imposed upon recreational boaters will not be directly available to the Coast Guard to increase services that would benefit recreational boaters.

(b) It is the sense of Congress that the requirement that the Coast Guard collect a fee from recreational boaters under section 2110(b) of title 46, United States Code, should be repealed immediately upon enactment of an offsetting receipts provision to comply with the requirements of the Omnibus Budget Reconciliation Act of 1990.

SEC. 56. COOPERATIVE INSTITUTE OF FISHERIES OCEANOGRAPHY.

(a) In recognition of the memorandum of understanding of March 2, 1989, regarding the Cooperative Institute of Fisheries Oceanography (hereinafter in this section referred to as the "Institute"), the Institute is established within the National Oceanic and Atmospheric Administration, in partnership with Duke University and the Consolidated University of North Carolina.

(b) Amounts appropriated pursuant to subsection (b) may be used for—

(1) administration of the Institute;

(2) research conducted by the Institute; and

(3) preparation of a five-year plan for research and for development of the Institute.

(d) Within one year of the date of the enactment of this section, the Institute shall submit to the Congress and the Under Secretary of Commerce for Oceans and Atmosphere the plan developed pursuant to subsection (c)(3).

SEC. 57. NATIONAL DEFENSE RESERVE FLEET.

Section 11 of the Merchant Ship Sales Act of 1946 (50 App. U.S.C. 1744) is amended by adding at the end the following new subsection:

"(d) READY RESERVE FORCE MANAGEMENT.—

"(1) MINIMUM REQUIREMENTS.—To ensure the readiness of vessels in the Ready Reserve Force component of the National Defense Reserve Fleet, the Secretary of Transportation shall, at a minimum—

"(A) maintain all of the vessels in a manner that will enable each vessel to be activated within a period specified in plans for mobilization of the vessels;

"(B) activate and conduct sea trials on each vessel at least once every 24 months;

"(C) maintain in an enhanced activation status those vessels that are scheduled to be activated within 5 days;

"(D) locate those vessels that are scheduled to be activated within 5 days near embarkation ports specified for those vessels; and

"(E) notwithstanding section 2109 of title 46, United States Code, have each vessel inspected by the Secretary of the department in which the Coast Guard is operating to determine if the vessel meets the safety standards that would apply under part B of subtitle II of that title if the vessel were not a public vessel.

"(2) VESSEL MANAGERS.—

"(A) ELIGIBILITY FOR CONTRACT.—A person, including a shipyard, is eligible for a contract for the management of a vessel in the Ready Reserve Force if the Secretary determines, at a minimum, that the person has—

"(i) experience in the operation of commercial-type vessels or public vessels owned by the United States Government; and

"(ii) the management capability necessary to operate, maintain, and activate the vessel at a reasonable price.

"(B) CONTRACT REQUIREMENT.—The Secretary of Transportation shall include in each contact for the management of a vessel in the Ready Reserve Force a requirement that each seaman who performs services on any vessel covered by the contract hold the license or merchant mariner's document that would be required under chapter 71 or chapter 73 of title 46, United States Code, for a seaman performing that service while operating the vessel were not a public vessel.".

Mr. FORD. I move the Senate concur in the amendment of the House.

The PRESIDING OFFICER. Without objection, the motion is agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

SIX-MONTH EXTENSION OF THE DEFENSE PRODUCTION ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 3919, providing for a 6-month extension of the Defense Production Act just received from the House, that the bill be deemed read three times, passed, and the motion to reconsider laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

RELIEF OF ABBEY COOKE

Mr. FORD. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of H.R. 635, a bill for the relief of Abbey Cooke, and the Senate proceed to its immediate consideration; that the bill be deemed read for the third time, passed, and the motion to reconsider be laid on the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

RELIEF OF MARIA ERICA BARTSKI

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 159.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 159) entitled "An Act for the relief of Maria Erica Bartski", do pass with the following amendment:

Page 2, line 15, after "U.S.C. 1152(e)),", add the following new sentence: "No natural parent, brother, or sister, if any, of Maria Erica Bartski shall, by virtue of such relationship, be accorded any right, privilege, or status under the Immigration and Nationality Act.".

Mr. FORD. I move that the Senate concur in the amendment of the House.

The PRESIDING OFFICER. Without objection, the motion is agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

CONDEMNING SADDAM HUSSEIN

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of House Concurrent Resolution 168, condemning Saddam Hussein for refusing to comply with U.N. Security Council Resolutions 706 and 712, just received from the House, that the concurrent resolution be agreed to, the motion to reconsider laid upon the table, and the preamble agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

DEPARTMENT OF VETERANS AFFAIRS CHIEF MINORITY AFFAIRS OFFICER

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 3327, providing for the designation of the chief minority affairs officer in the Department of Veterans Affairs, just received from the House, that the bill be deemed read three times, passed, and that the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CRANSTON. Mr. President, as chairman of the Veterans' Affairs Committee, I rise in support of the pending measure, H.R. 3327, a bill that would require the Secretary of Veterans Affairs to designate an Assistant Secretary as the Department of Veterans Affairs' Chief Minority Officer [CMAO]. The CMAO would have responsibility for assessing the effects of VA policies and activities on minority veterans, including women veterans, and the needs of minority veterans for VA benefits and services and advising the Secretary on matters relating to minority veterans. This legislation was passed by the House yesterday afternoon, November 25.

Mr. President, I applaud my esteemed colleague and committee member, Senator DANNY AKAKA, for his excellent work in ensuring that important legislation in this vein is enacted. First, he worked to have such legislation included in section 601 of S. 2100 as reported by our committee on July 19, 1990 (S. Rept. No. 101–379). Next, he ensured that it was included in section 301 of S. 869 both as reported by our committee on July 24, 1991 (S. Rept. No. 102–118), and then as passed the Senate on November 20, as a substitute for the text of H.R. 2280. Today, in light of the fact that H.R. 2280 is not being acted upon, he is assisting in obtaining Senate passage of H.R. 3327 in a most timely manner.

I also note that a similar provision has been considered by the Senate since 1989 and was originally authored by Senator AKAKA's predecessor, our beloved late colleague, Spark Matsunaga, who introduced S. 564 on March 9, 1989.

Mr. President, I believe that this measure will help to effect significant improvements in service and benefits for minority veterans and the education of VA employees about the special concerns of minority veterans. I have long been concerned about VA's efforts to reach out to minority veterans and, although outreach efforts have been made, I believe they have often been too narrowly focused and that VA at times has failed, though unintentionally, to address the many unique needs and problems of minority veterans and an integrated, systematic manner. I belive that institutionalizing concern for minority veterans at the Assistant Secretary level is a necessary step to ensuring that minority veterans have access to the full range of benefits to which they are entitled by law.

Mr. President, for a further discussion and explanation of this provision, I refer my colleagues to pages 81–85 of the committee's report accompanying S. 869.

Mr. President, in closing, I reiterate my thanks to Senator AKAKA for his role in keeping this critical matter before the Congress and VA and for gaining passage of this measure. I believe that enactment of this legislation will ensure that the issues affecting minority veterans will be addressed at levels within VA that are commensurate with their importance.

Mr. AKAKA. Mr. President, I rise to support passage of H.R. 3327, a bill that would designate an Assistant Secretary of the Department of Veterans Affairs as the Chief Minority Affairs Officer of the Department.

This measure is the culmination of several years of effort on the part of the late Senator Spark Matsunaga, Representative CHARLES RANGEL, and myself to ensure that the special, often unique, needs of minority veterans—including blacks, Asians, Hispanics, Native Americana—including American Indians, and Alaskan Natives, and native Hawaiians, Pacific-Islanders, and women veterans—are considered in a systematic manner at the highest policymaking levels of VA.

My colleagues may ask how enactment of this legislation will specifically benefit minorities. Well, it means that VA may at last examine why a native American veteran who lives on a reservation has virtually no opportunity of using his home loan entitlement. It may force VA to look at why Asian American veterans may suffer from post-traumatic stress disorder [PTSD] in greater degree than other veterans and why current VA mental health services are not organized either to recognize or treat effectively PTSD in this population. It may impel the Department to hire Spanish-speaking counselors to improve outreach to alienated Hispanic veterans. Or it may cause VA to provide health care services, such as obstetrics and gynecology, in VA medical centers that directly address the needs of female veterans.

There is, of course, no guarantee that VA will change its policies and practices with respect to minorities as a result of this legislation. At the very least, though, it will institutionalize concern for these veterans at the highest levels of the Department.

When Senator Matsunaga introduced his legislation first proposing the additional minority affairs function in 1989—similar legislation was simultaneously introduced in the House by Representative RANGEL, he was concerned by growing evidence that VA had closed its eyes to the fact that minorities typically underutilize services and benefits to which they are entitled. Spark believed that the problem of underutilization could be traced directly to two facts: First, that VA services and benefits—which are programmed with the needs of white, male veterans in mind—are often unsuited to the circumstances of minorities; and, second, that VA has failed to make a special effort to inform veterans of the availability of VA services and benefits.

Senator Matsunaga managed to include his minority affairs initiative in omnibus veterans legislation that the Senate approved overwhelmingly in 1989. Unfortunately, the House, which had not acted on Representative RANGEL'S bill, would not agree to the minority affairs provision and the initiative languished. In 1990, after the death of the Hawaii legislator, when I assumed both the Senator's veterans agenda and his place on the Senate Veterans' Affairs Committee, I continued to push for enactment of the minority affairs legislation. With the assistance of the chairman of the committee, Senator ALAN CRANSTON, I managed to include the provision in omnibus veterans health care legislation that the committee eventually reported; unfortunately, the provision ultimately died when the omnibus bill failed to be considered on the Senate floor.

This year, once again, I requested the assistance of Senator CRANSTON in including the minority affairs provision in the committee's major health care bill. This legislation, S. 869, was adopted by the Senate only a few days ago. Happily, this time, after having been twice approved by the Senate, the minority affairs provision was found acceptable by the House, which offered in its stead similar, companion legislation that had been promulgated for nearly 3 years by my friend and former House colleague, Representative RANGEL.

Mr. President, I am glad the long wait for this initiative to be passed is over. I cite this legislative history to point out the long, tortuous road that minorities must tread in their search for equality. One of the great unlearned lessons of racism in this country is that minorities are individuals, too, with specific problems that require specific answers. It is not enough to recognize their legal equality. We need to understand that the needs of blacks may differ from the needs of whites, that the problems of Asians may differ from those of American Indians, that the requirements of Native Alaskans may differ significantly from those of Hispanics. We need to educate the people of this Nation that we are not all cut from the same cookie cutter, that equal treatment does not necessarily mean identical treatment.

Mr. President, I believe that, if the spirit and purpose informing this legislation are properly interpreted, the Department of Veterans Affairs has before it an historic opportunity to establish the standards by which all Federal agencies address the programmatic needs of minorities. I urge VA to take full advantage of this important opportunity.

CONDEMNING THE MASSACRE OF EAST TIMORESE CIVILIANS

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on Senate Concurrent Resolution 77.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the resolution from the Senate (S. Con. Res. 77) entitled "Concurrent resolution condemning the massacre of East Timorese civilians by the Indonesia military," do pass with the following amendments:

Strike out all after the resolving clause, and insert:

That (a) the Congress—

(1) condemns the recent, indiscriminate killing of civilians by Indonesian military forces on East Timor; and

(2) urges the Government of Indonesia to bring to justice those members of the Indonesian military responsible for the killings.

(b) It is the sense of the Congress that—

(1) the provision of assistance for Indonesia under chapter 5 of part II of the Foreign Assistance Act of 1961 (relating to international military education and training) should be contingent on the Government of Indonesia conducting a thorough and impartial investigation of these killings and prosecuting those responsible for them;

(2) the President should seek the immediate introduction of a resolution in the United Nations General Assembly instructing the United Nations Commission on Human Rights to appoint a Human Rights Rapporteur on East Timor;

(3) the President should encourage the Government of Indonesia to facilitate the work of international human rights and humanitarian organizations seeking to monitor conditions in East Timor; and

(4) the United States should work with the United Nations and the Government of Indonesia, the Government of Portugal, and other involved parties, to develop policies to address the underlying causes of the conflict in East Timor.

Amend the preamble so as to read:

Whereas on November 12, 1991, Indonesian military forces in Dili, East Timor, opened fire on a funeral procession for a youth who had been killed by Indonesian troops on October 28, 1991, killing an estimated 75 to 100 civilians and injuring many more;

Whereas up to 300 members of the funeral procession were detained immediately after the incident and several dozen remain in detention;

Whereas Indonesian soldiers killed a New Zealand national and beat several foreign journalists who were observing the procession, including two Americans (one from the New Yorker and one from Pacific Radio;

Whereas the commander of the Indonesian Armed Forces has expressed regret about the killings, and the Government of Indonesia has established a national commission of inquiry to conduct a thorough investigation of the killings;

Whereas since the Government of Indonesia invaded East Timor in 1975 tens of thousands of East Timorese have perished as a direct results of war-related killings, famine, and disease;

Whereas international human rights organizations and the Department of State's Country Reports on Human Rights Practices for 1990 report evidence of human rights violations in East Timor by Indonesian officials, including arbitrary arrests, torture and mistreatment under detention, extrajudicial killings, and denial of the fundamental right of expression; and

Whereas the United States and Indonesia have a close bilateral relationship, and United States economic and military assistance for Indonesia exceeded $50,000,000 for fiscal year 1991: Now, therefore, be it

Mr. FORD. Mr. President, I ask unanimous consent that the Senate disagree to the amendment of the House to Senate Concurrent Resolution 77.

The PRESIDING OFFICER. Without objection, it is so ordered.

AUTHORIZING REPRESENTATION OF FORMER EMPLOYEE OF THE SENATE

Mr. FORD. Mr. President, on behalf of the majority leader and the distinguished Republican leader, Mr. DOLE, I send to the desk a resolution on representation by the Senate legal counsel and authorization for testimony by a former employee, and ask for its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The assistant legislative clerk read as follows:

A resolution (S. Res. 241) To authorize testimony by and representation of former employee of the Senate in United States versus Peter MacDonald, Jr., et al.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the resolution?

There being no objection, the Senate proceeded to consider the resolution.

Mr. MITCHELL. Mr. President, in April the Senate agreed to Senate Resolution 111, 102d Congress, authorizing a former employee, Kenneth Ballen, to testify at criminal proceedings brought by the U.S. Attorney for the District of Arizona relating to alleged corruption in connection with the sale of land to the Navajo Nation. This matter was a subject of investigation by the Special Committee on Investigations of the Senate Select Committee on Indian Affairs, which Mr. Ballen served as chief counsel, during the 100th and 101st Congresses.

Testimony from Mr. Ballen is now sought in connection with another criminal proceeding brought by the U.S. attorney in Arizona. This case concerns allegations of corruption involving Peter MacDonald, Jr., the son of the former chairman of the Navajo Tribal Council. Mr. MacDonald, was a witness before the special committee and testified under a grant of use immunity.

Counsel for the defendant in this case has requested the Senate to authorize Mr. Ballen, who is now an employee of the House of Representatives, to testify at a pretrial hearing about his communications, while chief counsel to the Senate committee, with the U.S. attorney's office concerning the receipt of immunized testimony of Mr. MacDonald.

It is appropriate, in the circumstances of this case, for the Senate to authorize testimony concerning communications between Senate staff and prosecutors about information received under a grant of use immunity. Accordingly, this resolution would authorize the former chief counsel to testify in this case. The resolution would also authorize other Senate employees from whom testimony may be necessary to testify in this case, and would provide for representation by the Senate Legal Counsel in connection with the authorized testimony in order to protect the privileges of the Senate.

The PRESIDING OFFICER. Without objection, the resolution and the preamble are agreed to.

The resolution (S. Res. 241), with its preamble, is as follows:

S. RES. 241

Whereas, in the case of United States versus Peter MacDonald, Jr., et al., No. CR-91-087-PCT-EHC, pending in the United States District Court for the District of Arizona, counsel for defendant Peter MacDonald, Jr., has requested the testimony of Kenneth M. Ballen, a former employee of the Senate on the staff of the Special Committee on Investigations of the Select Committee on Indian Affairs;

Whereas, pursuant to sections 703(a) and 704(a)(2) of the Ethics in Government Act of 1978, 2 U.S.C. §§288b(a) and 288c(a)(2), the Senate may direct its counsel to represent employees of the Senate with respect to any subpoena, order, or request for testimony relating to their official responsibilities;

Whereas, by the privileges of the Senate of the United States and Rule XI of the Standing Rules of the Senate, no evidence under the control or in the possession of the Senate can, by administrative or judicial process, be taken from such control or possession but by permission of the Senate;

Whereas, when it appears that evidence under the control or in the possession of the Senate is needed for the promotion of justice, the Senate will take such action as will promote the ends of justice consistent with the privileges of the Senate: Now, therefore, be it

Resolved, That Kenneth M. Ballen, and any other employee or former employee of the Senate from whom testimony may be necessary, are authorized to testify in United States versus Peter MacDonald, Jr., et al., except concerning matters for which a privilege should be asserted.

SEC. 2. That the Senate Legal Counsel is authorized to represent Kenneth M. Ballen, and any other employee or former employee of the Senate from whom testimony may be necessary, in connection with their testimony in United States versus Peter MacDonald, Jr., et al.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

THE ROBERT KASTENMEIER COURTHOUSE, MADISON, WI

Mr. FORD. Mr. President, I ask unanimous consent the Committee on Environment and Public Works be discharged from further consideration of H.R. 948, the bill to name the courthouse in Madison, WI, after former Congressman Robert Kastenmeier; that the Senate proceed to its immediate consideration; that the bill be deemed read for the third time; passed; and that the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

ROBERT W. KASTENMEIER COURTHOUSE

Mr. KOHL. Mr. President, during his 32 years as a Member of the House of Representatives, Robert W. Kastenmeier ably represented his constituents in the Second District of Wisconsin, demonstrated a deep commitment to protecting the public interest, and made unprecedented contributions to our Federal judicial system. I rise today in support of legislation that pays appropriate tribute to Bob Kastenmeier. It is a bill, which was introduced on behalf of the entire Wisconsin delegation, naming the federal courthouse in Madison the "Robert W. Kastenmeier United States Courthouse."

Throughout his career in Congress, which began in 1959, Bob Kastenmeier was a champion of civil rights and civil liberties. He was a principal architect of the Civil Rights Act of 1964 and the Voting Rights Act of 1968. In the late 1970's, he spearheaded the passage of the Civil Rights of Institutionalized Persons Act. And in the 1980's, he stood firm against former President Reagan's efforts to dismantle the Legal Services Corporation—instead pushing the Federal Government to provide legal aid to the poor. A former "Wisconsin Civil Libertarian of the Year," Bob fought for prison reform, privacy protection, and an enlightened criminal justice system.

Bob was responsible for a number of critically important measures, particularly in the intellectual property area, but he focused on judicial improvement throughout his entire career. Beginning in 1969, Bob chaired the House Judiciary Committee's subcommittee with jurisdiction over the Federal court system, where he rightfully earned his reputation as the "architect of modern court reform." Indeed, Bob led the way on virtually every major court reform measure, from streamlining the existing method of judicial discipline to revamping the bankruptcy and magistrate systems.

Most recently, Bob played a key role in developing and perfecting the Judicial Improvements Act of 1990. This measure created additional judgeships, implemented various recommendations of the Federal Courts Study Committee, established a Federal Commission to review the impeachment process and helped enhance efficiency in civil cases. Bob was also a longtime advocate of openness in the courts and he fought tirelessly to allow broadcast media to cover Federal court proceedings. Last year, his work in this area came to fruition, when the judiciary agreed to an experiment that will permit cameras and microphones into the Federal courts for the first time.

Judges from both sides of the ideological spectrum have recognized the contributions that Bob Kastenmeier has made to our system of justice. Former Chief Justice Warren Burger referred to Bob as "an outstanding supporter of the needs of the Judicial Branch." Chief Justice William Rehnquist characterized Bob as "a good friend of the judicial system." And Judge Abner Mikva accurately summed up Bob's legacy, calling him "probably the best friend the Federal judges have ever had on the Hill. Nobody up there has his knowledge, understanding, sensitivity about the Judiciary."

Bob received the American Judicature Society's 1988 Justice Award for improving the adminstration of justice. The State Bar of Wisconsin gave Bob the 1989 Public Understanding About the Law Award. Earlier this year, he received an award from the Conference of Chief Justices for his many contributions to improving State courts. Doubtlessly, he will receive many more awards—for his work on behalf of both the Judiciary and the people of Wisconisn.

Bob Kastenmeier leaves behind an extraordinary record of public service and achievement. Dedicating this Federal courthouse to Bob will, in a small way, honor a man who was a consummate lawmaker in the finest sense of the word.

TO CORRECT THE ENROLLMENT OF H.R. 2950

Mr. CHAFEE. Mr. President, I send to the desk a concurrent resolution, and I ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 86) to correct the enrollment of H.R. 2950.

The PRESIDING OFFICER. Is there objection to the immmediate consideration of the concurrent resolution?

There being no objection, the Senate proceeded to consider the concurrent resolution.

The PRESIDING OFFICER. The question is on agreeing to the concurrent resolution.

The concurrent resolution (S. Con. Res. 86) was agreed to.

The concurrent resolution is as follows:

S. CON. RES. 86

Resolved by the Senate (the House of Representatives concurring), That the Clerk of the House is directed to make the following changes in the enrollment of H.R. 2950, section 1014(e)(2)—

At page 73, line 2, strike "91" and insert "81";

At page 73, line 4, strike "91" and insert "81";

Mr. CHAFEE. Mr. President, I move to reconsider the vote.

Mr. FORD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

STAR PRINT—SENATE RESOLUTION 216

Mr. FORD. Mr. President, I ask unanimous consent for a star print of Senate Resolution 216 which I send to the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXTENSION OF EXPIRATION OF LEGISLATIVE AUTHORITY RELATING TO CONSTRUCTION OF COMMEMORATIVE WORKS ON FEDERAL LANDS IN THE DISTRICT OF COLUMBIA OR ITS ENVIRONS

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar 317, H.R. 3169, regarding D.C. commemorative, that the bill be read a third time, and passed, that the motion to reconsider be laid upon the table; that any statements appear at the appropriate place in the record.

The PRESIDING OFFICER. Without objection, it is so ordered.

SOVIET NUCLEAR THREAT REDUCTION ACT

Mr. FORD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on H.R. 3807.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the House agree to the amendments of the Senate to the bill (H.R. 3807) entitled "An Act to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty Organization in conjunction with implementation of the Treaty on Conventional Armed Forces in Europe", with the following amendments:

(1) In lieu of the matter proposed to be inserted by the amendment of the Senate numbered 1, insert:

TITLE II—SOVIET WEAPONS DESTRUCTION

PART A—SHORT TITLE

SEC. 201. SHORT TITLE.

This title may be cited as the "Soviet Nuclear Threat Reduction Act of 1991".

PART B—FINDINGS AND PROGRAM AUTHORITY

SEC. 211. NATIONAL DEFENSE AND SOVIET WEAPONS DESTRUCTION.

(a) Findings.—The Congress finds—

(1) that Soviet President Gorbachev has requested Western help in dismantling nuclear weapons, and President Bush has proposed United States cooperation on the storage, transportation, dismantling, and destruction of Soviet nuclear weapons;

(2) that the profound changes underway in the Soviet Union pose three types of danger to nuclear safety and stability, as follows: (A) ultimate disposition of nuclear weapons among the Soviet Union, its republics, and any successor entities that is not conducive to weapons safety or to international stability; (B) seizure, theft, sale, or use of nuclear weapons or components; and (C) transfers of weapons, weapons components, or weapons know-how outside of the territory of the Soviet Union, its republics, and any successor entities, that contribute to worldwide proliferation; and

(3) that it is in the national security interests of the United States (A) to facilitate on a priority basis the transportation, storage, safeguarding, and destruction of nuclear and other weapons in the Soviet Union, its republics, and any successor entities, and (B) to assist in the prevention of weapons proliferation.

(b) EXCLUSIONS.—United States assistance in destroying nuclear and other weapons under this title may not be provided to the Soviet Union, any of its republics, or any successor entity unless the President certifies to the Congress that the proposed recipient is committed to—

(1) making a substantial investment of its resources for dismantling or destroying such weapons;

(2) forgoing any military modernization program that exceeds legitimate defense requirements and forgoing the replacement of destroyed weapons of mass destruction;

(3) forgoing any use of fissionable and other components of destroyed nuclear weapons in new nuclear weapons;

(4) facilitating United States verification of weapons destruction carried out under section 212;

(5) complying with all relevant arms control agreements; and

(6) observing internationally recognized human rights, including the protection of minorities.

SEC. 212. AUTHORITY FOR PROGRAM TO FACILITATE SOVIET WEAPONS DESTRUCTION.

(a) IN GENERAL.—Notwithstanding any other provision of law, the President, consistent with the findings stated in section 211, may establish a program as authorized in subsection (b) to assist Soviet weapons destruction. Funds for carrying out this program shall be provided as specified in part C.

(b) TYPE OF PROGRAM.—The program under this section shall be limited to cooperation among the United States, the Soviet Union, its republics, and any successor entities to (1) destroy nuclear weapons, chemical weapons, and other weapons, (2) transport, store, disable, and safeguard weapons in connection with their destruction, and (3) establish verifiable safeguards against the proliferation of such weapons. Such cooperation may involve assistance in planning and in resolving technical problems associated with weapons destruction and proliferation. Such cooperation may also involve the funding of critical short-term requirements related to weapons destruction and should, to the extent feasible, draw upon United States technology and United States technicians.

PART C—ADMINISTRATIVE AND FUNDING AUTHORITIES

SEC. 221. ADMINISTRATION OF NUCLEAR THREAT REDUCTION PROGRAMS.

(a) FUNDING.—

(1) TRANSFER AUTHORITY.—The President may, to the extent provided in an appropriations Act or joint resolution, transfer to the appropriate defense accounts from amounts appropriated to the Department of Defense for fiscal year 1992 for operation and maintenance or from balances in working capital accounts established under section 2208 of title 10, United States Code, not to exceed $400,000,000 for use in reducing the Soviet military threat under part B.

(2) LIMITATION.—Amounts for transfers under paragraph (1) may not be derived from amounts appropriated for any acitivity of the Department of Defense that the Secretary of Defense determines essential for the readiness of the Armed Forces, including amounts for—

(A) training activities; and

(B) depot maintenance activities.

(b) DEPARTMENT OF DEFENSE.—The Department of Defense shall serve as the executive agent for any program established under part B.

(c) REIMBURSEMENT OF OTHER AGENCIES.—The Secretary of Defense may reimburse other United States Government departments and agencies under this section for costs of participation, as directed by the President, only in a program established under part B.

(d) CHARGES AGAINST FUNDS.—The value of any material from existing stocks and inventories of the Department of Defense, or any other United States Government department or agency, that is used in providing assistance under part B to reduce the Soviet military threat may not be charged against funds available pursuant to subsection (a) to the extend that the material contributed is directed by the President to be contributed without subsequent replacement.

(e) DETERMINATION BY DIRECTOR OF OMB.—No amount may be obligated for the program under part B unless expenditures for that program have been determined by the Director of the Office of Management and Budget to be counted against the defense category of the discretionary spending limits for fiscal year 1992 (as defined in section 601(a)(2) of the Congressional Budget Act of 1974) for purposes of part C of the Balanced Budget and Emergency Deficit Control Act of 1985.

SEC. 222. REPAYMENT ARRANGEMENTS.

(a) REIMBURSEMENT ARRANGEMENTS.—Assistance provided under part B to the Soviet Union, any of its republics, or any successor entity shall be conditioned, to the extent that the President determines to be appropriate after consultation with the recipient government, upon the agreement of the recipient government to reimburse the United States Government for the cost of such assistance from natural resources or other materials available to the recipient government.

(b) NATURAL RESOURCES, ETC.—The President shall encourage the satisfaction of such reimbursement arrangements through the provision of natural resources, such as oil and petroleum products and critical and strategic materials, and industrial goods. Materials received by the United States Government pursuant to this section that are suitable for inclusion in the Strategic Petroleum Reserve or the National Defense Stockpile may be deposited in the reserve or stockpile without reimbursement. Other material and services received may be sold or traded on the domestic or international market with the proceeds to be deposited in the General Fund of the Treasury.

SEC. 223. DIRE EMERGENCY SUPPLEMENTAL APPROPRIATIONS.

It is the sense of the Senate that the committee of conference on House Joint Resolution 157 should consider providing the necessary authority in the conference agreement for the President to transfer funds pursuant to this title.

PART D—REPORTING REQUIREMENTS

SEC. 231. PRIOR NOTICE OF OBLIGATIONS TO CONGRESS.

Not less than 15 days before obligating any funds for a program under part B, the President shall transmit to the Congress a report on the proposed obligation. Each such report shall specify—

(1) the account, budget activity, and particular program or programs from which the funds proposed to be obligated are to be derived and the amount of the proposed obligation; and

(2) the activities and forms of assistance under part B for which the President plans to obligate such funds.

SEC. 232. QUARTERLY REPORTS ON PROGRAM.

Not later than 30 days after the end of each quarter of fiscal years 1992 and 1993, the President shall transmit to the Congress a report on the activities to reduce the Soviet military threat carried out under part B. Each such report shall set forth, for the preceding quarter and cumulatively, the following:

(1) Amounts spent for such activities and the purposes for which they were spent.

(2) The source of the funds obligated for such activities, stated specifically by program.

(3) A description of the participation of the Department of Defense, and the participation of any other United States Government department or agency, in such activities.

(4) A description of the activities carried out under part B and the forms of assistance provided under part B.

(5) Such other information as the President considers appropriate to fully inform the Congress concerning the operation of the program under part B.

(2) In lieu of the matter proposed to be inserted by the amendment of the Senate numbered 2, insert:

TITLE III—EMERGENCY AIRLIFT AND OTHER SUPPORT

SEC. 301. AUTHORITY TO TRANSFER CERTAIN FUNDS TO PROVIDE EMERGENCY AIRLIFT AND OTHER SUPPORT.

(a) FINDINGS.—The Congress finds—

(1) that political and economic conditions within the Soviet Union and its republics are unstable and are likely to remain so for the foreseeable future;

(2) that these conditions could lead to the return of antidemocratic forces in the Soviet Union;

(3) that one of the most effective means of preventing such a situation is likely to be the immediate provision of humanitarian assistance; and

(4) that should this need arise, the United States should have funds readily available to provide for the transport of such assistance to the Soviet Union, its republics, and any successor entities.

(b) AUTHORITY TO TRANSFER CERTAIN FUNDS.—

(1) IN GENERAL.—Notwithstanding any other provision of law, the Secretary of Defense, at the direction of the President, may during fiscal year 1992, to the extent provided in an appropriations Act or joint resolution, transfer to the appropriate defense accounts sufficient funds, not to exceed $100,000,000, from funds described in paragraph (3) in order to transport, by military or commercial means, food, medical supplies, and other types of humanitarian assistance to the Soviet Union, its republics, or any successor entities—with the consent of the relevant republic government or independent successor entity—in order to address emergency conditions which may arise in such republic or successor entity, as determined by the President. As used in this subsection, the term "humanitarian assistance" does not include construction equipment, including tractors, scrapers, loaders, graders, bulldozers, dumptrucks, generators and compressors.

(2) REPORTS BY THE SECRETARY OF STATE.—The Secretary of State shall promptly report to the President regarding any emergency conditions which may require such humanitarian assistance. The Secretary's report shall include an estimate of the extent of need for such assistance, discuss whether the consent of the relevant republic government or independent successor entity has been given for the delivery of such assistance, describe steps other nations and organizations are prepared to take in response to an emergency, and discuss the foreign policy implications, if any, of providing such assistance.

(3) SOURCE OF FUNDS.—Any funds which are transferred pursuant to this subsection shall be drawn from amounts appropriated to the Department of Defense for fiscal year 1992 or from balances in working capital accounts established under section 2208 of title 10, United States Code.

(4) EMERGENCY REQUIREMENTS.—The Congress designates all funds transferred pursuant to this section as "emergency requirements" for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985. Notwithstanding any other provision of law, funds shall be available for transfer pursuant to this section only if, not later than the date of enactment of the appropriations Act of joint resolution that make funds available for transfer pursuant to this section, the President, in a single designation, designates the entire amount of funds made available for such transfer by that appropriations Act of joint resolution to be "emergency requirements" for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

(c) REPAYMENT ARRANGEMENTS.—

(1) REIMBURSEMENT ARRANGEMENTS.—Assistance provided under subsection (b) to the Soviet Union, any of its republics, or any successor entity shall be conditioned, to the extent that the President determines to be appropriate after consultation with the recipient government, upon the agreement of the recipient government to reimburse the United States Government for the cost of such assistance from natural resources or other materials available to the recipient government.

(2) NATURAL RESOURCES, ETC.—The President shall encourage the satisfaction of such reimbursement arrangements through the provision of natural resources, such as oil and petroleum products and critical and strategic materials, and industrial goods. materials received by the United States Government pursuant to this subsection that are suitable for inclusion in the Strategic Petroleum Reserve of the National Defense Stockpile may be deposited in the reserve or stockpile without reimbursement. Other material and services received may be sold or traded on the domestic or international market with the proceeds to be deposited in the General Fund of the Treasury.

(d) DIRE EMERGENCY SUPPLEMENTAL APPROPRIATIONS.—It is the sense of the Senate that the committee of conference on House Joint Resolution 157 should consider providing the necessary authority in the conference agreement for the Secretary of Defense to transfer funds pursuant to this title.

SEC. 302. REPORTING REQUIREMENTS.

(a) PRIOR NOTICE.—Before any funds are transferred for the purposes authorized in section 301(b), the President shall notify the Committees on Armed Services and the Committees on Appropriations of the Senate and the House of Representatives of the account, budget activity, and particular program or programs from which the transfer is planned to be made and the amount of the transfer.

(b) REPORTS TO THE CONGRESS.—Within ten days after directing the Secretary of Defense to transfer funds pursuant to section 301(b), the President shall provide a report to the Committees on Armed Services of the Senate and House of Representatives, the Committees on Appropriations of the Senate and House of Representatives, and the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives. This report shall at a minimum, set forth—

(1) the amount of funds transferred under this title, including the source of such funds;

(2) the conditions which prompted the use of this authority;

(3) the form and number of life assets planned to be used to deliver assistance pursuant to this title;

(4) the types and purpose of the cargo planned to be delivered pursuant to this title; and

(5) the locations, organizations, and political institutions to which assistance is planned to be delivered pursuant to this title.

(3) In lieu of the matter proposed to be inserted by the amendment of the Senate numbered 3, insert:

TITLE IV—ARMS CONTROL AND DISARMAMENT ACT

SEC. 401. ARMS CONTROL AND DISARMAMENT AGENCY.

(a) AUTHORIZATION OF APPROPRIATIONS.—Section 49(a) of the Arms Control and Disarmament Act (22 U.S.C. 2589(a)) is amended—

(1) by redesignating subparagraphs (A) and (B) as paragraphs (1) and (2), respectively;

(2) in paragraph (1) as so redesignated, by striking out "$36,000,000 for the fiscal year 1990 and $37,316,000 for the fiscal year 1991" and inserting in lieu thereof "$44,527,000 for fiscal year 1992 and $45,862,810 for fiscal year 1993"; and

(3) in paragraph (2) as so redesignated, by striking out "fiscal years 1990 and 1991" and inserting in lieu thereof "each fiscal year for which an authorization of appropriations is provided in paragraph (1)".

(b) ADMINISTRATIVE AUTHORITIES REGARDING INVESTIGATIONS.—Section 41 of that Act (22 U.S.C. 2581) is amended—

(1) by redesignating paragraphs (h) and (i) as paragraphs (i) and (j), respectively; and

(2) by inserting after paragraph (g) the following new paragraph (h):

"(h) administer oaths and take sworn statements in the course of an investigation made pursuant to the Director's responsibilities under this Act;".

(c) ACDA REVITALIZATION.—Not later than December 15, 1992, the Inspector General of the Arms Control and Disarmament Agency (who serves also as the Inspector General of the Department of State) shall submit to the President, the Speaker of the House of Representatives, and the chairman of the Committee on Foreign Relations of the Senate a report with regard to the Agency's fulfillment of the primary functions described in section 2 of the Arms Control and Disarmament Act (22 U.S.C. 2551). Such report shall address the current ability and performance of the Agency in carrying out these functions and shall provide detailed recommendations for any changes in executive branch organization and direction needed to fulfill these primary functions. Within 60 days after submission of this report, the President shall submit the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate comments on any recommendations contained in the report dealing with executive branch organization and direction.

SEC. 402. ON-SITE INSPECTION AGENCY.

(a) RESPONSIBILITIES OF THE ON-SITE INSPECTION AGENCY.—

(1) ADDITIONAL RESPONSIBILITIES.—Section 61 of the Arms Control and Disarmament Act (22 U.S.C. 2595) is amended—

(A) by redesignationg paragraphs (5) and (6) as paragraphs (6) and (7), respectively; and

(B) by inserting after paragraph (4) the following new paragraph:

"(5) the On-Site Inspection Agency has additional responsibilities to those specified in paragraph (4), including the monitoring of nuclear tests pursuant to the Threshold Test Ban Treaty and the Peaceful Nuclear Explosions Treaty and the monitoring of the inspection provisions of such additional arms control agreements as the President may direct;".

(2) CONFORMING AMENDMENTS TO DEFINITIONS.—Section 64 of that Act (22 U.S.C. 2595c) is amended—

(A) by striking out "and" at the end of pargraph (1);

(B) by striking out the period at the end of paragraph (2) and inserting in lieu thereof a semicolon; and

(C) by adding after pargraph (2) the following:

"(3) the term 'Peaceful Nuclear Explosions Treaty' means the Treaty Between the United States of America and the Union of Soviet Socialist Republics on Underground Nuclear Explosions for Peaceful Purposes (signed at Washington and Moscow, May 28, 1976); and

"(4) the term 'Threshold Test Ban Treaty' means the Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Underground Nuclear Weapons Tests (signed at Moscow, July 3, 1974).".

(b) IMPROVING CONGRESSIONAL OVERSIGHT OF ON-SITE INSPECTION ACTIVITIES.—Title V of that Act is amended–

(1) by redesignating section 64 as section 65; and

(2) by inserting after section 63 the following:

"SEC. 64. IMPROVING CONGRESSIONAL OVERSIGHT OF ON-SITE INSPECTION ACTIVITIES.

"(a) REPORT FROM THE PRESIDENT.—Concurrent with the submission to the Congress of the request for authorization of appropriations for OSIA for fiscal year 1993, the President shall submit a report on OSIA to the Committee on Foreign Affairs of the House of Representatives, the Committee on Foreign Relations of the Senate, and the Committees on Armed Services of the House of Representatives and Senate. The report shall include a review of—

"(1) the history of OSIA, including how, when, and under what auspices it was established, including the applicable texts of the relevant executive orders;

"(2) the missions and tasks assigned to OSIA to date;

"(3) any additional missions and tasks likely to be assigned to OSIA during fiscal year 1993;

"(4) the budgetary history of OSIA; and

"(5) the extent to which OSIA plays a role in arms control policy formulation and operational implementation.

"(b) REVIEW OF CERTAIN REPROGRAMMING NOTIFICATIONS.—Any notification submitted to the Congress with respect to a proposed transfer, reprogramming, or reallocation of funds from or within the budget of OSIA shall also be submitted to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, and shall be subject to review by those committees.".

Mr. WARNER. Mr. President, I must lodge my strongest objections to the inclusion in the final version of H.R. 3807, the CFE implementing legislation of language attempting to confuse and complicate congressional oversight of the On-Site Inspection Agency [OSIA].

Unfortunately, the House amendment to the Senate amendment to the bill now contains a provision designed to be first step in taking congressional oversight jurisdiction over the On-Site Inspection Agency from the Committees on Armed Services and transferring that jurisdiction to the Foreign Affairs and Foreign Relations Committees. I find it most disappointing that this bill, being considered at this very late hour in this session, includes this provision without any opportunity for consideration by the Senate Armed Services Committee.

Those of us who have been interested and involved in the work of the On-Site Inspection Agency [OSIA] believed that we had reached an understanding with the House Foreign Affairs Committee that this provision would not be included in the bill. Yet the House, acting in the middle of last night, has nonetheless added this provision to this important bill.

Mr. President, this is not a new issue. Ever since the President appointed the Department of Defense as the Cabinet-level Department having responsibility for OSIA, the House Foreign Affairs Committee has been tempting to obtain jurisdiction over the agency. There have been a number of such attempts by that House Committee since 1988, all of which have been defeated.

However, the Senate is now confronted with holding up implemention of the CFE Treaty or with having to accept this House provision.

Mr. President, the On-Site Inspection Agency is a Department of Defense Agency. A large component of its activity can properly be characterized as defense logistics: marshaling personnel, aircraft, and equipment for short-notice operations at home and overseas.

OSIA uses aircraft and crews from the Military Airlift Command. Roughly three-quarters of OSIA's personnel are military officers, and the military forms the largest pool of personnel with the linguistic skills and technical background needed for this work.

Many of OSIA's permanent or seconded personnel are specailists in such fields as security, counterintelligence, or technical aspects of data collection—especially with regard to nuclear tests, for threshold Test Ban Treaty verification, and high-energy electronic systems, for portal monitoring under the INF Treaty. Specialized personnel come from the military services, national laboratories, and other agencies.

The need to obtain and coordinate the use of such specialized personnel is one reason for the current funding and oversight arrangements. Another reason is the need to ensure that OSIA inspectors report the facts without worrying about whether policymakers will like what they hear. In short, OSIA performs an execution function—not a policy function—that requires much manpower, expertise, infrastructure and support of the type that the Department of Defense is best suited to provide. the integration of OSIA in DOD makes perfect sense.

Many Government programs, particularly defense and intelligence programs, are authorized by other committees but are of interest to the Foreign Relations and Foreign Affairs Committees. Although the Armed Services Committee is the primary committee of jurisdiction, OSIA cooperates well with all interested committees. Thus, when the CFE Treaty came before the Senate Foreign Relations Committee, Maj. Gen. Robert W. Parker, the Director of OSIA, testified on the agency's preparedness to implement the treaty.

Both the On-Site Inspection Agency and the mechanisms for congressional oversight of OSIA are working excellently. There is no need to change either the organization or its congressional oversight procedures.

Yet, today, we are about to enact a provision designed to begin those changes.

Mr. President, the House amendment now being considered by the Senate will unnecessarily involve the Foreign Affairs and Foreign Relations Committees in the budget review and oversight process of OSIA. It will not contribute to the highly effective and highly successful operations of OSIA. It could contribute to confusion and inefficiency in this important agency.

Mr. President, in light of the other valuable and important features of the pending bill, I am not going to block the Senate's passage of this legislation today. However, let me make it clear that I will subsequently seek to repeal this unnecessary and counterproductive legislation.

Furthermore, let me make it clear that I am not blocking this legislation today because the proper committees of jurisdiction, namely, the Armed Services Committees will continue to exercise exclusive jurisdiction over the operation, policy, and budget authorization approval over the OSIA.

Mr. FORD. Mr. President, I move that the Senate concur in the House amendments.

The PRESIDING OFFICER. The question is on agreeing to the motion.

The motion was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. CHAFEE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. FORD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. FORD). Without objection, it is so ordered.

Mr. DOLE. Mr. President, I ask unanimous consent that I may proceed as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

SALUTE TO LLOYD "BUDDY" FLETCHER

Mr. DOLE. Mr. President, I want to take a minute before Thanksgiving to join with many others in this town in being thankful for the privilege of knowing Lloyd "Buddy" Fletcher.

Buddy passed away last month at the age of 57. He left behind a loving family, a legion of friends, admirers, and a record of service to America.

After 8 years in the U.S. Marine Corps, Buddy joined the Department of Transportation in 1968, where he soon became the driver to the Secretary of Transportation. Over the years, Buddy would serve eight Transportation Secretaries with class and professionalism that were second to none.

I crossed paths with "Buddy" when my wife Elizabeth, became Secretary of Transportation. It soon became clear to Elizabeth and myself that "Buddy" was more than a driver—he was a caring friend, and someone who was the unofficial historian of the Transportation Department.

I attended Buddy's funeral last month, and was struck by the number of men and women from all walks of life who attended. There were drivers from other Government departments who looked to "Buddy" as a mentor and role model. There were DOT employees ranging from entry-level to Transportation Secretaries. It seemed that everyone had a special memory of "Buddy"—of his love of the Redskins, his pride in his reputation as the best-dressed person at the Department, and his warm and winning personality.

Mr. President, "Buddy" Fletcher will be greatly missed by many people, including Elizabeth and myself. Our condolences go out to his wife, Carolyn, his daughters Brenda Fletcher and Katrina Newlin, and his two grandchildren.

I EXTEND MY THANKS

Mr. DOLE. Mr. President, as we close the first session of this Congress, I extend my thanks to the majority leader and the members of his staff for all of their courtesies over the past several months. I also thank the majority whip, the distinguished Senator from Kentucky, Senator FORD, and all of my colleagues on the other side for the cooperation we have had on this side during this first session of Congress.

We have not always agreed, but I think for the most part we have been agreeable, sometimes doubtful not generally agreeable.

I also thank all the members of the Senate staff, all those who work day in and day out, sometimes with very little if any recognition, doing their job whether it be inside the Chamber, or doorkeepers outside the Chamber, or someone in the gallery working for the U.S. Senate, working for the institution, and working so that we may be more productive and more effective in our work in the U.S. Senate. So to all those faithful, loyal employees of the U.S. Senate, I certainly extend my thanks, my best wishes for a happy thanksgiving and a merry Christmas to all, every one and their families.

I would also be remiss in not thanking my right hand, right arm, the distinguished Senator from Wyoming, Senator ALAN SIMPSON; members of our Republican leadership, Senator THURMOND, as I said, Senator SIMPSON, Senator COCHRAN, Senator NICKLES, Senator KASTEN, and Senator GRAMM for their help in working on many, many programs this year.

I believe overall Congress has made a good record. I think we can look at some major accomplishments, and I think we closed out with a major accomplishment in passing the transportation bill, which was a bipartisan measure and which did have the leadership of the President of the United States. That should give, I hope, many people across America confidence that there are going to be jobs, lots of jobs, all across America, in the foreseeable future.

That in itself, in my view, is a good way to cap any session of any legislature, to pass a bill that you know is going to mean a great deal not only in transportation and safety, but as far as jobs for the future of American men and women, many of whom are out of work, many are skilled, many partially skilled, many looking for work, and this will provide that opportunity.

I also thank all of my colleagues on this side of the aisle for the many courtesies extended to me over the past several months in this session and to the President of the United States. I have just talked with the President of the United States. He thanked me for my efforts and the efforts of others in the Congress. I thanked him for his leadership. I think President Bush has done an outstanding job.

Sometimes we may have differences with people who work in the White House, but I think very honestly I think I know John Sununu, based on our association a few years ago in New Hampshire, and I could be very sensitive about it. But my view is the Chief of Staff John Sununu is doing and has done an outstanding job for President Bush. There have been some minor lapses, but we all make mistakes. When you are in a position that he is in he gets more attention, I guess, than some of the rest of us. And certainly to Mr. Darman, the OMB Director, and Nick Brady, a former colleague of ours and now Secretary of the Treasury, particularly working closely with those three members of the President's official staff or official family. We have had a lot of work and a lot of issues. Certainly I have worked with other members of the President's Cabinet, but I think particularly those three have been almost weekly, sometimes daily contact, sometimes several times a day, and I certainly extend my thanks to them and to Roger Porter and to the President's chief economic adviser, Mr. Boskin, and all the others who have been working together.

I will just say as I close, I hope in December there will be efforts by both parties to find the right package, the right economic growth package that we can be certain will have some positive impact on the economy. Keep in mind it is a $5.6 trillion economy. We all have ideas on how to make it move. We want to make as certain as we can that what we do in the Congress will make a difference in the lives of the American people all across America, will pick up the economy, will create some job opportunities, will create opportunities to buy cars and homes and all the consumer goods that the American people would like to have and will lead people out of poverty and will give them a better chance in life.

So it is my hope and it is going to have to have to be a consensus, going to have to be bipartisan. The leadership is going to have to come from President Bush. We will have some time now to focus on not the political rhetoric but what can we do, what can the Democrats do, what can the Republicans do, what can we do together, what can we do working with President Bush, working with leadership across America, in the private sector, in the public sector, in organized labor, in agriculture, all across America, to get this economy moving in the right direction and moving more rapidly toward a full recovery.

So it seems to me that we have, let us see, about 8 weeks in which do do that, and I know that the adjournment resolution provides that in certain cases the majority leader and the Speaker of the House, after consultation with the minority leader of the Senate, the minority leader of the House, can call us back after 48 hours' notice, and that may happen. I am not certain of that, but in any event we have this opportunity now, in my view, to take a look, go back home, visit the people, find out how they view the various problems, whether it is health care, whether it is the economy, whether it is agriculture, whether it is unemployment, whether it is crime, whatever the problem may be.

So I conclude by wishing all of my colleagues a happy holiday season and saying that I think we have had a pretty good year. There are a lot of major pieces of legislation that we passed in this Congress, this session, first session of this Congress by a bipartisan majority. We have had our differences. We have had our differences in the gulf. We have had our differences on unemployment. We have had our differences, to some extent, on civil rights. We have had our differences on the crime bill. We have had a lot of differences. But we have had a lot of areas where there were no differences at all, and I can list a dozen or more areas where we worked together in total bipartisanship. And I think the American people appreciate that.

Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. CONRAD). The Senator from Kentucky.

Mr. FORD. Mr. President, first, let me say to the distinguished Republican leader I appreciate his kind words, not only for his colleagues but on this side. It has been an experience for me my first year as whip. I have survived the fire fairly well, not having been enlisted too many times. I have enjoyed working with the Republican whip. We have been straightforward with each other. We do not play games. And I have always liked it that way.

There is one thing the Republican leader said that I think is important. We have a few weeks now to look at some packages, some help to get the economy going, and I hope that when he says that the President of the United States is going to give us some leadership, he will be at the table also. We cannot do it with Representatives and Senators alone; the Executive has to be a part of that, in my opinion. If we come together as Americans, I think we can get this country going.

I look forward to that and hope that the Senator's expression of cooperation follows through as the holiday season comes. It seems a little easier to agree during holiday seasons than any other time, and I look forward to that.

HOUSE CURRENT RESOLUTION 260—PROVIDING FOR ADJOURNMENT OF THE TWO HOUSES OF CONGRESS

Mr. FORD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H. Con. Res. 260, providing for adjournment of the two Houses of Congress just received from the House.

The PRESIDING OFFICER. The clerk will report the concurrent resolution.

The legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 260) providing for adjournment of the Congress to a date certain.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the concurrent resolution?

There being no objection, the Senate proceeded to consider the concurrent resolution.

AMENDMENT NO. 1463

Mr. FORD. Mr. President, I send an amendment to the desk.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. MITCHELL, proposes an amendment numbered 1463.

Mr. FORD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of section 2, Strike the "period" and insert in lieu thereof, the following: "; and that when the Congress convenes on January 3, 1992, for the second session of the 102d Congress, the Senate shall not conduct any organizational or legislative business and when it recesses or adjourns on that day, it stand in recess or adjournment until 11:30 a.m. on Tueday, January 21, 1992, or until noon on the second day after Members are notified to reassemble pursuant to section 3 of this concurrent resolution, whichever occurs first.".

The PRESIDING OFFICER. Without objection, the amendment is agreed to.

So, the amendment (No. 1463) was agreed to.

The PRESIDING OFFICER. Without objection, the concurrent resolution, as amended, is agreed to.

So, the concurrent resolution (H. Con. Res. 260), as amended, was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. FORD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. FORD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

NATIONAL ACADEMIC REPORT CARD ACT

Mr. FORD. Mr. President, I ask unanimous consent that the Senate now proceed to the immediate consideration of calendar No. 69, S. 2, a bill to promote achievement of national education goals and for other purposes.

The PRESIDING OFFICER. Is there objection?

Mr. FORD. Mr. President, I object.

The PRESIDING OFFICER. Objection is heard.

CLOTURE MOTION

Mr. FORD. Mr. President, I move that the Senate proceed to calendar No. 69, S. 2, and I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the motion to proceed to S. 2, a bill to strengthen education for American families.

George Mitchell, Daniel K. Akaka, Paul Simon, Christopher Dodd, Pat Leahy, Jeff Bingaman, Carl Levin, Dennis DeConcini, Claiborne Pell, Paul Wellstone, Albert Gore, Jr., John Glenn, Kent Conrad, David Pryor, Harris Wofford, Wyche Fowler, Jr.

Mr. FORD. Mr. President, I withdraw the motion to proceed.

The PRESIDING OFFICER. Without objection, the motion is withdrawn.

Mr. FORD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CONRAD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The PRESIDING OFFICER. The Senator from North Dakota is recognized.

Mr. CONRAD. I thank the Chair.

(The remarks of Mr. CONRAD pertaining to the introduction of S. 2136 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

Mr. CONRAD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MESSAGES FROM THE HOUSE RECEIVED DURING THE ADJOURNMENT

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

Under the authority of the order of the Senate of January 3, 1991, the Secretary of the Senate, on a date subsequent to the adjournment of the Senate, received a message from the House of Representatives announcing that the Speaker has signed the following enrolled bills and joint resolutions:

S. 159. An act for the relief of Maria Erica Bartski;

S. 367. An act to amend the Job Training Partnership Act to encourage a broader range of training and job placement for women, and for other purposes;

S. 1532. An act to revise and extend the programs under the Abandoned Infants Assistance Act of 1988;

S. 2050. An act to ensure that the ceiling established with respect to health education assistance loans does not prohibit the provision of Federal loan insurance to new and previous borrowers under such loan program, and for other purposes;

S. 2098. An act to authorize the President to appoint Major General Jerry Ralph Curry to the Office of Administrator of the Federal Aviation Administration;

H.R. 525. An act to amend the Federal charter for the Boys' Clubs of America to reflect the change of the name of the organization to the Boys and Girls Clubs of America;

H.R. 635. An act for the relief of Abby Cooke;

H.R. 690. An act to authorize the National Park Service to acquire and manage the Mary McLeod Bethune Council House National Historic Site, and for other purposes;

H.R. 829. An act to amend title 28, United States Code, to make changes in the composition of the Eastern and Western Districts of Virginia;

H.R. 948. An act to designate the U.S. Courthouse located at North Henry Street in Madison, WI, as the "Robert W. Kastenmeier United States Courthouse";

H.R. 990. An act to authorize additional appropriations for land acquisition at Monocacy National Battlefield, MD;

H.R. 1009. An act to amend the Wild and Scenic Rivers Act by designating segments of the Lamprey River in the State of New Hampshire for study for potential addition to the National Wild and Scenic Rivers System, and for other purposes;

H.R. 1476. An act to provide for the divestiture of certain properties of the San Carlos Indian Irrigation Project in the State of Arizona, and for other purposes;

H.R. 1724. An act to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary;

H.R. 2105. An act to designate an area as the Myrtle Foester Whitmire Division of the Aransas National Wildlife Refuge;

H.R. 3012. An act to amend the Wild and Scenic Rivers Act to designating the White Clay Creek in Delaware and Pennsylvania for study and potential addition to the National Wild and Scenic Rivers System, and for other purposes;

H.R. 3029. An act to make technical corrections to agricultural laws;

H.R. 3049. An act to amend the Immigration and Nationality Act to restore certain exclusive authority in courts to administer oaths of allegiance for naturalization, to revise provisions relating to O and P nonimmigrants, and to make certain technical corrections relating to the immigration laws;

H.R. 3169. An act to lengthen from 5 to 7 years the expiration period applicable to legislative authority relating to construction of commemorative works on Federal land in the District of Columbia and its environs;

H.R. 3245. An act to designate National Forest System lands in the State of Georgia as wilderness, and for other purposes;

H.R. 3322. An act to designate the building in St. Louis, MO, which is currently known as the Wellston Station, as the "Gwen B. Giles Post Office Building";

H.R. 3327. An act to amend title 38, United States Code, to provide for the designation of an Assistant Secretary of the Department of Veterans Affairs as the Chief Minority Affairs Officer of the Department;

H.R. 3387. An act to amend the Pennsylvania Avenue Development Corporation Act of 1972 to authorize appropriations for implementation of the development plans for Pennsylvania Avenue between the Capitol and the White House, and for other purposes;

H.R. 3435. An act to provide funding for the resolution of failed savings associations and working capital for the Resolution Trust Corporation, to restructure the Oversight Board and the Resolution Trust Corporation, and for other purposes;

H.R. 3531. An act to authorize appropriations for the Patent and Trademark Office in the Department of Commerce for fiscal year 1992, and for other purposes;

H.R. 3576. An act to amend the Cranston-Gonzalez National Affordable Housing Act to reserve assistance under the HOME Investment Partnerships Act for certain insular areas;

H.R. 3595. An act to delay until September 30, 1992, the issuance of any regulations by the Secretary of Health and Human Services changing the treatment of voluntary contributions and provider-specific taxes by States as a source of a State's expenditures for which Federal financial participation is available under the medicaid program and to maintain the treatment of intergovernmental transfers as such a source;

H.R. 3604. An act to direct acquisitions within the Eleven Point Wild and Scenic River, to establish the Greer Spring Special Management Area in Missouri, and for other purposes;

H.R. 3709. An act to waive the period of Congressional review for certain District of Columbia acts;

H.R. 3807. An act to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty Organization in conjunction with the implementation of the Treaty on Conventional Armed Forces in Europe;

H.R. 3881. An act to expand the boundaries of Stones River National Battlefield, Tennessee, and for other purposes;

H.R. 3909. An act to amend the Internal Revenue Code of 1986 to extend certain expiring provisions, and for other purposes;

H.R. 3919. An act to temporarily extend the Defense Production Act of 1950;

H.R. 3932. An act to improve the operational efficiency of the James Madison Memorial Fellowship Foundation, and for other purposes;

S.J. Res. 198. Joint resolution to recognize contributions Federal civilian employees provided during the attack on Pearl Harbor and during World War II;

H.J. Res. 157. Joint resolution making dire emergency supplemental appropriations and transfers for relief of the effects of natural disasters, and for other urgent needs, and for incremental costs of "Operation Desert Shield/Desert Storm" for the fiscal year ending September 30, 1992, and for other purposes;

H.J. Res. 191. Joint resolution designating January 5, 1992 through January 11, 1992, as "National Law Enforcement Training Week";

H.J. Res. 212. Joint resolution to designate the week beginning February 16, 1992, as "National Visiting Nurse Associations Week";

H.J. Res. 356. Joint resolution designating December 1991 as "Bicentennial of the District of Columbia Month"; and

H.J. Res. 372. Joint resolution designating December 21, 1991, as "Basketball Centennial Day."

Under the authority of the order of the Senate of January 3, 1991, the enrolled bills and joint resolutions were signed on December 3, 1991, during the adjournment of the Senate, by the President pro tempore [Mr. BYRD].

ENROLLED BILLS SIGNED

Under the authority of the order of the Senate of January 3, 1991, the Secretary of the Senate, on December 6, 1991, during the adjournment of the Senate, received a message from the House of Representatives announcing that the Speaker has signed the following enrolled bills:

S. 543. An act to require the least-cost resolution of insured depository institutions, to improve supervision and examinations, to provide additional resources to the Bank Insurance Fund, and for other purposes;

S. 1176. An act to establish the Morris K. Udall Scholarship and Excellence in National Environmental Policy Foundation, and for other purposes;

S. 1193. An act to make technical amendments to various Indian laws;

S. 1462. An act to amend the Communications Act of 1934 to prohibit certain practices involving the use of telephone equipment;

S. 1891. An act to permit the Secretary of Health and Human Services to waive certain recovery requirements with respect to the construction or remodeling of facilities, and for other purposes;

H.R. 1776. An act to authorize for fiscal year 1992 the U.S. Coast Guard budget.

Under the authority of the order of the Senate of January 3, 1991, the enrolled bills were signed on December 6, 1991, during the adjournment of the Senate, by the President pro tempore [Mr. BYRD].

ENROLLED BILL SIGNED

Under the authority of the order of the Senate of January 3, 1991, the Secretary of the Senate, on December 10, 1991, during the adjournment of the Senate, received a message from the House of Representatives announcing that the Speaker pro tempore [Mr. HOYER] has signed the following enrolled bill:

H.R. 2950. An act to develop a national intermodal surface transportation system, to authorize funds for construction of highways, for highway safety programs, and for mass transit programs, and for other purposes.

Under the authority of the order of the Senate of January 3, 1991, the enrolled bill was signed on December 10, 1991, during the adjournment of the Senate, by the Vice President.

ENROLLED BILLS AND JOINT RESOLUTION PRESENTED

The Secretary of the Senate reported that he had presented to the President of the United States the following enrolled bills and joint resolution:

On December 4, 1991:

S. 159. An act for the relief of Maria Erica Bartski;

S. 367. An act to amend the Job Training Partnership Act to encourage a broader range of training and job placement for women, and for other purposes;

S. 1532. An act to revise and extend the program under the Abandoned Infants Assistant Act of 1988;

S. 2050. An act to ensure that the ceiling established with respect to health education assistance loans does not prohibit the provision of Federal loan insurance to new and previous borrowers under such loan program, and for other purposes;

S. 2098. An act to authorize the President to appoint Major General Jerry Ralph Curry to the Office of Administrator of the Federal Aviation Administration; and

S.J. Res. 198. Joint resolution to recognize contributions Federal civilian employees provided during the attack on Pearl Harbor and during World War II.

On December 9, 1991:

S. 543. An act to require the least-cost resolution of insured depository institutions, to improve supervision and examinations, to provide additional resources to the Bank Insurance Fund, and for other purposes;

S. 1176. An act to establish the Morris K. Udall Scholarship and Excellence in National Environmental Policy Foundation, and for other purposes;

S. 1193. An act to make technical amendments to various Indian laws;

S. 1462. An act to amend the Communications Act of 1934 to prohibit certain practices involving the use of telephone equipment; and

S. 1891. An act to permit the Secretary of Health and Human Services to waive certain recovery requirements with respect to the construction or remodeling of facilities, and for other purposes.

MEASURES PLACED ON THE CALENDAR

On December 11, 1991, pursuant to the order of September 10, 1991, the Committee on Commerce, Science, and Transportation was discharged from the further consideration of the following bill; which was placed on the calendar:

S. 1088. A bill to amend the Public Health Service Act to establish a center for tobacco products, to inform the public concerning the hazards of tobacco use, to provide for the disclosure of additives to such products, and to require that information be provided concerning such products to the public, and for other purposes.

REPEAL OF SECTION 618 OF THE RESOLUTION TRUST CORPORATION, REFINANCING, RESTRUCTURING AND IMPROVEMENT ACT

The text of the bill (S. 2131) to repeal section 618 of the Resolution Trust Corporation, Refinancing, Restructuring and Improvement Act of 1991, as passed by the Senate on November 27, 1991, is as follows:

S. 2131

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. Section 618 of the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act of 1991 is repealed.

SEC. 2. Subsection 12(b)(7) of Public Law 94–204, as amended, and subsection 9102(e) of Public Law 101–165, as amended, are each further amended by deleting in the appropriate place the phrase "real, personal," and substituting in lieu thereof the phrase "real, personal (including, but not limited to intangible assets sold or offered by the Federal Deposit Insurance Corporation or the Resolution Trust Corporation such as financial instruments, notes, loans and bonds),".

BRONZE STAR

The text of the bill (S. 2015) to urge and request the award of the bronze star to Navy and Marine Corps personnel who served in the defense of Corregidor Island, the Philippines, under General Wainwright, as passed by the Senate on November 27, 1991, is as follows:

S. 2015

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AWARD OF THE BRONZE STAR TO NAVY AND MARINE CORPS PERSONNEL WHO SERVE ON CORREGIDOR, THE PHILIPPINES, UNDER GENERAL WAINWRIGHT

(a) FINDINGS.—Congress finds:

(1) United States Army personnel under the command of General Jonathan Wainwright who fought in and were captured during the defense of Corregidor Island, the Philippines, at the outbreak of World War II were awarded the bronze star.

(2) Approximately 3,000 United States Navy and Marine Corps personnel, serving in various units under the overall command of General Wainwright, fought in the defense of Corregidor Island.

(3) These Navy and Marine Corps personnel were not awarded the bronze star pursuant to Navy policy not to award medals for gallantry to all personnel in a unit.

(4) The Navy and Marine Corps personnel demonstrated courage, endurance, and intrepidity in battle and in suffering the privations of battle, capture and internment after capture that was every bit exemplary as their Army counterparts.

(5) An award of the bronze star medal to Navy and Marine Corps personnel who served under General Wainwright in the defense of Corregidor Island provides appropriates recognition of and honor for the courage, endurance, and intrepidity of such personnel.

(b) AWARD OF BRONZE STAR MEDAL.—The President is urged and requested to require that the Secretary of an appropriate military department award the bronze star medal to each member of the United States Navy or Marine Corps who served under General Jonathan Wainwright during the defense of Corregidor Island, the Philippines, during World War II.

PHOENIX INDIAN SCHOOL

The text of the bill (S. 2034) to establish certain requirements for the Secretary of the Interior to undertake environmental cleanup at the Phoenix Indian School property, as passed by the Senate on November 27, 1991, as follows:

S. 2034

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. The Secretary of the Interior shall remove, at the earliest possible date, all asbestos within building and related infrastructure, including underground pipes, located on the 110 acre parcel of Federal property known as the Phoenix Indian School. The obligation of the Secretary to carry out these activities shall continue beyond the date of transfer of the Phoenix Indian School property from Federal ownership.

CORRECTING THE ENROLLMENT OF S. 543

The text of the concurrent resolution (S. Con. Res. 83) to authorize a correction in the enrollment of S. 543, as agreed to by the Senate on November 27, 1991, is as follows:

S. CON. RES. 83

Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the bill, S. 543 the Secretary of the Senate shall make the following correction:

At the appropriate place, insert:

SEC. . SPECIAL INSURED DEPOSITS.

For purposes of the Federal Deposit Insurance Act (12 U.S.C. 1811 et seq.), the deposits of the Freedom National Bank of New York and the deposits of Community National Bank and Trust Company of New York that—

(1) were deposited by a charitable organization as such term is defined by New York State law, or by a religious organization; and

(2) were deposits of such bank on the date of its closure by the Office of the Comptroller of the currency,

shall be fully insured notwithstanding any other provisions of the Federal Deposit Insurance Act.

CORRECTING THE ENROLLMENT OF H.R. 3435

The text of the concurrent resolution (S. Con. Res. 84) to correct the enrollment of H.R. 3435, the RTC funding bill, as agreed to by the Senate on November 27, 1991, is as follows:

S. CON. RES. 84

Resolved by the Senate (the House of Representatives concurring), That the Clerk of the House of Representatives is directed to make the following changes in the enrollment of H.R. 3435:

(a) Strike section 618.

(b) At the end of the Act add the following:

"Sec. . Subsection 12(b)(7)(vii) of Public Law 94-204, as amended, and subsection 9102(e) of Public Law 101-165, as amended, are each amended further by deleting in the appropriate place the phrase 'real, personal,' and substituting in lieu thereof the phrase 'real, personal (including, but not limited to intangible assets such as financial instruments, notes, loans, bonds, and licenses),'.".

CORRECTING THE ENROLLMENT OF H.R. 3531

The text of the concurrent resolution (S. Con. Res. 85) to correct a technical error in the enrollment of the bill (H.R. 3531), and for other purposes, as agreed to by the Senate on November 27, 1991, is as follows:

S. CON. RES. 85

Resolved by the Senate (the House of Representatives concurring), That in the enrollment of the bill (H.R. 3531), an Act to authorize appropriations for the Patent and Trademark Office in the Department of Commerce for fiscal year 1992, and for other purposes, the Clerk of the House of Representatives shall make the following corrections:

(1) In section 8 of the bill insert a semicolon immediately after the first quotation marks.

(2) In section 5(d)(2)(C) insert quotation marks immediately before "CHAPTER 4—PATENT FEES:".

CORRECTING THE ENROLLMENT OF H.R. 2950

The text of the concurrent resolution (S. Con. Res. 86) to correct the enrollment of H.R. 2950, as agreed to by the Senate on November 27, 1991, is as follows:

S. CON. RES. 86

Resolved by the Senate (the House of Representatives concurring), That the Clerk of the House is directed to make the following changes in the enrollment of H.R. 2950, section 1014(c)(2)—strike out "91" and insert "81" both places it appears.

ADDITIONAL STATEMENTS

RETAIL DEPOSIT TAKING BY FOREIGN BANKS

• Mr. GARN. Mr. President, a number of issues have already arisen in connection with the deposit insurance legislation adopted by the Congress in the closing hours of the last session. While I have separately made a statement on many of these issues, a subject of particular concern, from both a policy and technical standpoint, is the requirement that foreign banks wishing to take retail deposits may only do so through a subsidiary rather than through insured branches.

Because of unclear legal construction, the regulators who must implement this provision and the banks who will be subject to its requirements have had considerable difficulty discerning its exact intent. In the interest of assisting their deliberations, I would like to provide a history of my involvement with this provision. My opposition to it and my intentions in achieving certain modifications to limit its impact are instructive in understanding the intent of the provision.

As a starting point, I would note that there is no obvious justification for this provision at all. The Treasury study, "Modernizing the Financial System," raised no concerns with foreign bank retail activities in the United States and made no recommendations to restrict or restructure these activities. The Federal Reserve bill, drafted as a response to the BCCI and Banco Lavoro scandals, made no recommendations in this area. Likewise, the deposit insurance reform bills introduced by the committee chairmen in the two Houses of Congress which served as bases for eventual legislation did not address this issue.

The basis reason that retail deposit taking was not an issue in the legislation was that insured deposit taking by foreign banks had never cost the taxpayers a dime. It is true that during debate on the International Banking Act in 1977, the FDIC had argued that subsidiaries rather than direct branches were administratively simpler to deal with for the Corporation. However, it is also true that the subsidiary subsidiary structure reduces depositor protection in that it tends to limit access by the FDIC to the parent bank's resources. Furthermore, it raises national treatment concerns. In the International Banking Act, it was decided to permit establishment by foreign banks either through branches or subsidiaries.

What has occurred in the meantime to alter these judgments. Clearly the foreign bank presence in the United States has grown. However, no history of losses or administrative problems arising from the operation of foreign bank branches has intervened to alter the original judgment. Furthermore, as a result of the regulatory changes in the Fed bill, foreign banks will now be subject to extensive Federal oversight including the right to terminate, expanded civil penalties, and new criminal penalties.

With this history, one might wonder how the subsidiary issue was introduced into the debate. In fact, it was Treasury that argued, in the specific circumstance of a foreign bank wishing to engage in nontraditional activities such as securities and insurance, that such a foreign bank should be required to form a U.S. holding company and a well-capitalized banking subsidiary. It was argued that since access to these new powers was going to require higher capital and closer regulation for U.S. banks, the only way to ensure similar compliance by foreign banks was to impose structural requirements. At the same time, the Administration opposed any change in structure or regulation of banks wishing only to engage in traditional banking activities.

While there was never opposition from any quarter to tougher enforcement authority for the Fed, I opposed the Treasury roll up proposal as unnecessary to achieve the objective of higher capital and closer regulation and as inconsistent with the longstanding U.S. policy of 'national treatment.' Under this standard, foreign banks had long been permitted to establish in the form of direct branches, including insured branches. In foreign markets, Treasury has long argued that foreign requirements for U.S. banks to operate through subsidiaries denied equality of competitive opportunity.

The draft committee print originally circulated to Banking Committee members adopted the Treasury roll up proposal for new powers but it went considerably farther. The print would have required foreign banks to create a U.S. subsidiary in order to engage in interstate branching. And since interstate branching might lead to greatly expanded interstate retail operations, expanded deposit insurance requirements for foreign banks were added to the interstate section of the bill.

I was successful in making the case that the proposed structural requirements were unnecessary and counterproductive to our overall banking policy. Consequently, the holding company and subsidiary requirements for expanded powers and interstate branching were dropped in favor of the approach to national treatment embodied in the International Banking Act: direct branches permitted, with the foreign bank treated as a holding company for purposes of evaluating capital and management. However, to respond to the concerns Treasury had raised with capital and regulation, I supported committee amendments requiring careful analysis and enforcement of equivalent capital for foreign banks wishing to engage in expanded activities and a study of a subsidiary requirement as the future rule for foreign bank operations.

In order to achieve agreement on my proposed modifications at markup, I agree to maintain expanded deposit insurance requirements in the committee bill as part of the interstate branching provisions for foreign banks. This included an amendment requiring any foreign bank that wished to take retail deposits below $100,000 to do so only through subsidiaries. While my agreement on this point constituted acquiescence in a mini-roll-up of existing insured branches, my agreement on this point was clearly provisional.

The proviso attached to the amendment was that, since there no compelling argument for a change in policy and the committee had not considered this proposal or its implications, the committee should develop a record on the proposal by seeking the views of the agencies involved and the affected parties so that we could make an informed judgment. Senator RIEGLE and I therefore sent identical letters to the Chairmen of the Federal Reserve Board and the FDIC, the Treasury Secretary, and various banking interest groups seeking their views on the subsidiary roll up and two other options for expanded deposit insurance requirements.

The understanding that this provision was subject to further review was reflected in the committee report on S. 543. The body of the report states that the committee's concerns with respect to deposit insurance arose to the context of "removing current Federal and State barriers to interstate banking and branching by foreign banks [that] might lead to a substantial expansion of insured deposit taking by foreign banks." The report also noted that the issue was "subject to further review" reflecting an agreement to gather further evidence. In my additional views on the international banking provisions, I noted that while the committee had rejected the Treasury roll up proposal, it was retained in the case of retail deposit taking involving a handful of banks, mostly from smaller countries, which have caused no losses to the insurance fund. I also noted that this "is an issue on which additional evidence is being gathered and which will require further consideration."

The further consideration was to be based on the recommendations of the parties to whom the committee had written. I ask that the letter sent to Alan Greenspan and responses received from the various groups and agencies be printed at the end of my statement. I will summarize them briefly. Treasury opposed the subsidiary requirement. Federal Reserve Chairman Greenspan favored "maintaining deposit insurance on foreign bank deposits on the current basis." FDIC Chairman Seidman provided a staff analysis which made a series of arguments on both sides of the issue but took no position. The Bankers' Association for Foreign Trade argued that the proposal was "unnecessary and, perhaps, unwise, and could adversely impact U.S. bank operations outside the United States." The Institute of International Bankers called the proposal "unnecessary" and noted that "the global capital of the international bank would no longer stand behind these deposits, and such a requirement would be inconsistent with the practice of U.S. banks to maintain branches in other countries." The Independent Bankers Association of America supported the proposal in the interest of protecting small depositors.

I would also note that one letter was received unsolicited from a group that was obviously paying careful attention to the legislation, the European Community. Sir Leon Brittan, vice president of the Commission of the European Communities, wrote noting that EC member states impose no structural requirements on foreign bank branches that are subject to deposit insurance plans and no such requirements are planned or necessary. He urged that we dispense with this requirement. I ask that his letter also be printed in the RECORD following my statement.

The final opinion that was sought to complete the record on this matter was that of the new FDIC Chairman William Taylor. During his confirmation hearing in the Senate Banking Committee, Senator RIEGLE asked whether the best way to ensure protection of retail depositors was the subsidiary requirement in the Senate bill. Mr. Taylor responded: "I think it helps. I think it's not an absolute assurance but it helps." In the interest of providing him an opportunity to make a more thoughtful response to this question, I wrote to Mr. Taylor after the hearing asking for his specific views on the subsidiary issue. His response, which I ask be printed after the other letters, was as follows:

> With respect to the question of whether foreign banks should be required to conduct their retail deposit activities in a subsidiary bank or be permitted to continue to conduct those activities in branches, I have no preference because substantial arguments can be made in favor of either approach.

Based on this loss history and body of opinion, it seems clear to me as the bill was taken to the Senate floor that any change in this area should be studied further and the provision should be dropped from the bill. The argument for deletion became even stronger when the possibility of foreign bank expansion through interstate branching, on which the deposit insurance proposal had been premised, was eliminated from the bill by the Ford amendment. However, because it was unclear how the interstate issue would finally be resolved in conference, the deposit insurance requirement, equivalent capital and subsidiary study provisions which had all been premised on interestate branching and broader powers were retained in the bill to ensure that the Senate was in a strong negotiating position in conference.

While the provision was maintained, the one change upon which I did insist was to limit the impact of the foreign bank retail deposit provision so that current activities were held harmless. This Senator, of course, opposed the entire notion of the subsidiary requirement as unnecessary and a denial of national treatment. But, even in the event that such a requirement were to apply in the future, I was adament that it not require any restriction or roll up of current activities. I was particularly concerned that a relative handful of banks operating insured branches, employing American citizens, and causing no loss to depositors not be put out of business without a hearing. Therefore, the final managers' amendment adopted on the floor limited the subidiary requirement of future retail deposit taking and all existing insured branches were grandfathered.

In conference, with adjournment looming, the House made clear that its parliamentary position made it impossible even to consider interstate branching or matters involving multiple committee jurisdictions like my lender liability provision or fair trade in financial services. Interstate branching was therefore dropped in conference. In my view, this eliminated even the weak justification that brought the foreign bank deposit insurance provision into the bill in the first place. I therefore argued for deletion of this vestige of the broader Senate bill from any Senate offer to the House.

That advice was not heeded and the Senate proposed adoption of the subsidiary requirement. This proposal was challenged in the closing minutes of the conference by Congressman WYLIE who cited the body of opinion against the provision. He asked his House colleagues to insist on the House position, that is, no subsidiary requirement. Unfortunately, the issue had not been carefully reviewed by those who would be directly affected by the provision, the administration had not alerted us to the trade policy implications of the provision, and many Members on the House side were apparently under the impression that the provision was not significant or that it was supported by the regulatory agencies.

A vote was taken by the House and in the fatigue of an around-the-clock session, the House receded to the Senate. I believed this was very unfortunate from an overall policy perspective but the full implications of this minor provision only became clear when it was carefully reviewed after the fact by agencies and interest groups that should have been more alert to it.

My greatest fear was never the provision's impact on foreign bank operations, of which retail deposits represent less than 1 percent, but on U.S. trade policy and efforts I have been pursuing with Chairman RIEGLE to open foreign markets such as the fair trade in financial services bill. Once the provision was carefully considered after the fact, these fears were realized.

As a result of its enactment, the United States will have too take a reservation from the obligations of the OECD Code on financial services and will have to take similar steps by amending its position on any financial services text that is part of a North American Free-Trade Agreement and Uruguay round. It may also create a violation of United States obligations under the United States-Canada Free-Trade Agreement. It may endanger future international liberalization in a sector that is critical to the future of U.S. competitiveness. Even worse, U.S. movement away from free right of establishment through branches may well trigger a rollback of market access for U.S. banks abroad.

The other problem that has become clear after a careful reading is that the provision is drafted in such a way as to threaten currently permissible activities for wholesale and limited branches of foreign banks. Unless the Fed and FDIC adopt a liberal interpretation of the language, any foreign bank branch with foreign currency deposits, clearing accounts, loan accounts, demand accounts for large corporate customers or accounts for foreign employees that are below, or fall below, $100,000 could be forced to set up a subsidiary or drop those accounts on the date of enactment.

This clearly makes no sense nor was it, I believe, the intent of the conferees. For my part, I obtained adoption of a grandfather clause specifically to limit the impact of the provision on existing activities. I protected existing insured branches which this provision was clearly intended to eliminate. I certainly did not do so with the intent that current wholesale branch activities, not even addressed by this provision, would be rolled back.

The problem with the provision are now being realized by others. I ask that a letter from the British Embassy to Chairman RIEGLE, which was forwarded to me by the Embassy, be included in the RECORD following my statement.

To address these problems, I entend to reassure the regulators that it was not our intention to restrict or roll up current lines of nonretail business. I understand that a number of House Banking conferees are doing likewise. It is my hope that the regulators will act accordingly in implementing the provision.

Looking to the future, I will support a technical correction in the next session to ensure that the provision causes no roll back or roll up of current foreign banks activities. In my view, if we are to continue efforts to liberalize trade in financial services and pursue the fair trade in financial services bill, it should be repealed.

The material follows:

COMMITTEE ON BANKING, HOUSING,
AND URBAN AFFAIRS,
Washington, DC, July 17, 1991.

Hon. ALAN GREENSPAN,
Chairman, Board of Governors of the Federal Reserve System, Washington, DC.

DEAR CHAIRMAN GREENSPAN: The Senate Banking Committee soon will be considering comprehensive legislation to reform our deposit insurance system and modernize our banking system. As part of that legislation, the Committee will consider whether the deposit insurance system as it applies to foreign banks requires reform. We are writing to obtain your views on a number of policy issues being discussed in the Committee.

We understand that under current law, foreign banks are required to participate in the deposit insurance system only for branches that take retail deposits and these are the only deposits in foreign banks covered by the system. Thus while domestic banks pay premiums on their whole domestic deposit base, foreign banks operating in this country are required to pay assessments only on deposits at a branch that takes retail deposits. At any location in this country where deposits only in excess of $100,000 are taken, a foreign bank does not pay any premiums while a U.S. bank does.

The legislative history of this provision indicates that the decision to require insurance at locations that take retail deposits was premised on concern "for the protection of the individual retail, not commercial, depositors." The insurance requirement provides a second layer of protection for retail deposits in insured branches, the primary security of which is the full resources of the foreign bank itself.

Legislation proposed by the Administration would, if enacted, give foreign banks the right to engage in banking through branches throughout the United States. This raises questions about whether we need to modify the rules on assessing premiums and extending deposit insurance coverage for deposit taking by foreign banks in order to ensure that U.S. depositors are adequately protected and U.S. banks are not disadvantaged compared to foreign competitors but foreign banks still receive national treatment.

Three possible modifications are under consideration by the Committee. One proposal being examined would charge deposit insurance assessments for all the domestic deposits taken by a foreign bank operating through branches that engages in retail deposit taking in any location in the United States. This appears to be a modest extension of current policy that would ensure identical treatment of U.S. and foreign banks as foreign banks expand through interstate branching. A second proposal is that deposit insurance coverage be extended and insurance premiums charged on all U.S. deposits taken by foreign banks even if they are solely wholesale. From the point of view of competitiveness, this would increase the cost of doing business for foreign banks and eliminate a competitive advantage they now enjoy over U.S. banks engaged in wholesale deposit taking. From the point of view of the insurance system, this would expand the liabilities of the system but also provide a new source of premiums to the Bank Insurance Fund.

A third proposal, aimed at ensuring that foreign banks taking retail deposits are effectively regulated to protect depositors, the communities from which deposits are taken and the insurance fund, would require that interstate retail deposit taking through branch networks across the United States be done only from a U.S.-chartered subsidiary. This proposal would ensure FDIC access to U.S.-based resources in the event of a foreign bank failure but could make it more difficult to rely on the resources of the foreign parent or the foreign government as lender of last resort.

These three proposals raise significant policy issues, and we would very much appreciate having your views on them. In your response, please address the impact the above suggested changes would have on the risks facing the deposit insurance system, competitive equity between foreign and domestic banks operating in the U.S. market, and how each proposal compares to the treatment accorded U.S. banks operating in other countries that sponsor deposit insurance funds.

Since we will be moving forward with legislation in the near future, we ask for your views on the above issues at your very earliest convenience.

Sincerely,

JAKE GARN,
Ranking Republican.
DONALD W. RIEGLE, Jr.,
Chairman.

DEPARTMENT OF THE TREASURY,
Washington, August 1, 1991.

Hon. JAKE GARN,
Ranking Republican, Committee on Banking, Housing and Urban Affairs, U.S. Senate, Washington, DC.

DEAR SENATOR GARN: The Treasury Department has carefully considered the proposals regarding foreign banks outlined in the letter of July 17 signed by you and Senator Riegle.

The first proposal, which is included in the proposed Comprehensive Deposit Insurance Reform and Taxpayer Protection Act of 1991, would charge deposit insurance assessments for all the domestic deposits taken by a foreign bank through branches if it engages in retail deposit taking in any of its branches in the United States.

The Administration's bill did not propose changing the present deposit insurance scheme for foreign bank branches under which foreign bank branches taking only wholesale deposits could continue to benefit from an exemption from deposit insurance assessments. While your proposal would not be inconsistent with national treatment, it would increase the claims on the deposit insurance system; accordingly, the Administration prefers the existing approach, which is designed to protect retail depositors in those few foreign bank branches that accept retail deposits.

The second proposal would extend deposit insurance coverage and charge premiums on all U.S. deposits taken by foreign banks even if they take only wholesale deposits in their U.S. branches. We agree that assessing deposit insurance premiums on foreign bank branches would increase the cost of conducting wholesale banking business for foreign banks and eliminate a competitive advantage they now enjoy over U.S. banks engaged in wholesale deposit taking. However, the vast majority of foreign banks operating through branches take no retail deposits and would face increased costs with only limited benefits.

As you noted in your letter, such a policy would expand the liabilities of the deposit insurance system—considerably more than your first proposal. The Treasury Department is opposed to such an expansion of the deposit insurance system's liabilities at a time when exposure should clearly be reduced, therefore, we are opposed to this provision.

Your third proposal would require that interstate retail deposit taking through branch networks across the United States be done only from a U.S.-chartered subsidiary. The Treasury Department is opposed to requiring a subsidiary for foreign banks that only engage in commercial banking activity. The Administration proposed a subsidiary/holding company requirement for foreign banks seeking to engage in expanded activities.

This proposal could have the effect of discouraging foreign banks from engaging in retail deposit taking in more than one state. The result would be that foreign banks would concentrate their activity in a very few large states that allow multiple branches, such as New York or California. Small states could lose potential foreign bank retail lending activity.

In response to your final question, U.S. bank branches and subsidiaries participate in deposit insurance systems in Canada, France, Germany, and the United Kingdom. Participation is not mandatory in some of these systems and is generally less costly than in the United States. In Germany, where foreign banks' participation is optional, assessments are related to a bank's retail deposit base, which is very small for most U.S. banks. In France and the U.K., where foreign banks' participation is compulsory, assessments are charged following large pay-outs, although the U.K. also assesses an initial contribution to its fund upon authorization of the foreign bank's office. Japan does not currently assess deposits of foreign banks for its insurance system.

Thank you for seeking the Treasury Department's views on these important issues.

Sincerely,

MARY C. SOPHOS,
Assistant Secretary, Legislative Affairs.

FEDERAL RESERVE SYSTEM,
Washington, DC, July 29, 1991.

Hon. JAKE GARN,
Ranking Republican, Committee on Banking, Housing, and Urban Affairs, U.S. Senate, Washington, DC.

DEAR SENATOR GARN: I am responding to your letter of July 17, 1991, requesting the views of the Federal Reserve on whether the deposit insurance system as it applies to foreign banks requires reform.

As you know, foreign banks currently pay assessments for deposit insurance on the deposits of individual U.S. branches that accept more than a de minimis level of deposits of less than $100,000 in size, known as retail deposits. The assessment is charged on all of the deposits of that branch, including wholesale deposits. Few foreign banks accept retail deposits and therefore few are insured by the Federal Deposit Insurance Corporation. Of 226 foreign banks with 374 branches in the United States, 29 foreign banks operate 58 insured branches. Those 29 foreign banks operate 22 additional uninsured branches in the United States that accept wholesale deposits. No assessment is generally charged, and no deposit insurance coverage is provided, on U.S. branches of foreign banks that accept only wholesale deposits.

In your letter you outline three possible modifications to the current approach to deposit insurance for foreign banks that are under consideration by the Senate Banking Committee. You ask that we address the impact of those possible changes on the risks facing the deposit insurance system, competitive equity between foreign and domestic banks operating in the U.S. market, and the treatment accorded U.S. banks operating in other countries that sponsor deposit insurance funds.

In general, the Federal Reserve favors maintaining deposit insurance on foreign bank deposits on the current basis. The current system, which requires deposit insurance only on branches engaging in a retail deposit business, was designed to protect individual depositors with smaller balances who presumably would not be able to assess adequately the risks of dealing with a foreign bank. It was not designed to bring the risks of all foreign bank operations in the United States, a large part of which are oriented toward international business, within the U.S. safety net.

While it is important that U.S. authorities supervise the operations of foreign banks in the United States, it should be clear to large depositors that ultimate responsibility for the safety and soundness of foreign banks rests with the home country authorities. In particular, the Federal Reserve has stressed the need to assess the financial condition of the foreign bank as a whole and the comprehensiveness of home country supervision. Imposing deposit insurance on all foreign branch business risks implicitly transferring overall responsibility for foreign branch from the home country to the United States, a burden that we believe should not be assumed.

With respect to competitive equity between foreign and domestic banks operating in the U.S. market, we are aware of no convincing evidence that the branches of foreign banks have been able to price products in the U.S. market below prices offered by domestic institutions because foreign banks do not have to pay insurance assessments. Moreover, U.S. banks may in some circumstances have lower funding costs overall because of their greater access to the large U.S. retail deposit base.

Finally, the structure of insurance coverage for deposits in branches of U.S. banks abroad varies substantially from country to country in the Group of 10 countries. In general, the systems were designed to emphasize the protection of small deposits.

I hope this response will be helpful in your deliberations.

Sincerely,

ALAN GREENSPAN.

FEDERAL DEPOSIT INSURANCE CORPORATION,
Washington, DC, July 29, 1991.

Hon. JAKE GARN,
Ranking Member, Committee on Banking, Housing, and Urban Affairs, U.S. Senate, Washington, DC.

DEAR SENATOR GARN: Thank you for your joint letter with Chairman Riegle requesting the views of the Federal Deposit Insurance Corporation on modifications of federal deposit insurance applicable to United States branches of foreign banks.

Your letter indicates that three possible modifications of the deposit insurance system as it relates to foreign banks are being considered in conjunction with proposed legislation that would enable such banks to establish branches throughout this country. We are pleased to enclose our analysis of the policy implications of the possible modifications to which you refer.

We hope that this information is helpful. If you have any further questions, please let us know.

With best wishes.

Sincerely,

L. WILLIAM SEIDMAN,
Chairman.

RESPONSE TO REQUEST BY CHAIRMAN RIEGLE AND SENATOR GARN FOR COMMENTS ON POSSIBLE MODIFICATIONS TO DEPOSIT INSURANCE APPLICABLE TO U.S. BRANCHES OF FOREIGN BANKS

Branches and agencies of foreign banks now account for about 18 percent of the total banking assets in this country, reflecting a rapid expansion in operations and growth in market share since passage of the International Banking Act of 1978. The majority of foreign banks with United States branches do not engage in domestic retail business. Most foreign banks that operate a retail deposit business in the United States do so through subsidiary banks that are chartered here. The current attractiveness of the United States market for foreign banks appears to lie in the wholesale sector.

One proposal would require that insurance coverage be extended to, and that assessments be paid on, all of the domestic deposits, both wholesale and retail, held by United States branches of foreign banks. At present, insurance extends to, and assessments are paid on, only the deposits held by those branches of a foreign bank that take domestic retail deposits. A second proposal is that deposit insurance coverage be extended to, and assessments be collected on, all domestic deposits of United States branches of a foreign bank even if none of the branches takes any domestic retail deposits.

Either of these two proposals would put foreign banks operating in the United States on a more equal footing with domestic banks—which are required to pay assessments on all of their domestic deposits, both wholesale and retail. The first proposal might not significantly increase assessment income, since foreign banks with United States branches that take domestic retail deposits could choose to cease doing so in order to avoid the cost increase.

It is difficult to predict the effect that charging assessments on the wholesale deposits of American branches of foreign banks would have on the wholesale market or to estimate the increased assessment income that could be expected. It appears that, in many cases, assessing premiums on wholesale deposits would be contrary to the treatment accorded United States banks' wholesale deposits abroad.

The first two proposals, but especially the second, could be expected to result in a significant increase in insurance coverage of foreign bank offices in the United States. In the event that either proposal is enacted, it is absolutely vital that the FDIC be provided ultimate authority to approve or deny deposit insurance.

Both proposals would expand deposit insurance protection and thus would increase potential claims on the Bank Insurance Fund, which is extremely vulnerable and is, of course, our primary concern. Supervision and regulation of branches of an entity headquartered abroad gives rise to unique problems. For example, communicating with, and achieving corrective action of problems through, a principal office located overseas would be difficult at best. There are additional risks such as potential problems in claiming assets funded by insured liabilities, since collateral assets may be located abroad.

The third proposal would require that interstate retail deposit taking by a foreign bank be done only through the offices of a subsidiary bank chartered in the United States. This requirement probably would not have a significant impact since, as indicated earlier, most foreign banks that operate a retail deposit business here do so through such a subsidiary, which is preferable both from the standpoint of supervision and in terms of managing the risk to the Bank Insurance Fund. However, such a requirement would be contrary to the treatment accorded United States banks in many countries where they are permitted to operate at retail through branch offices.

Lastly, we have been asked to comment on the payment by United States banks of deposits in foreign branches when the assets of those branches have been frozen or expropriated by a foreign government. Section 3(l) of the Federal Deposit Insurance Act, 12 U.S.C. §1813(l), defines the term "deposit" for purposes of the Act to exclude any obligation of a bank or savings association which is payable only at an office located outside the United States, Puerto Rico, Guam, American Samoa, the Trust Territory of the Pacific Islands, the Virgin Islands and the Northern Mariana Islands. Deposits which are booked and payable only at an overseas branch of an insured financial institution are not reported as deposits for assessment purposes and are not considered to be insured.

Several recent cases have held that the home office of a bank is liable for payment of overseas deposits if they could not be repaid at the foreign branch where they were made. Typical cases include Chase Manhattan Bank v. Vishipco Lines, 660 F.2d 854 (2d Cir. 1981), in which Chase was required to pay a deposit made in its Saigon branch after the branch was closed because of approaching Vietcong, and Wells Fargo Asia Ltd. v. Citibank, N.A., 110 S. Ct. 2034 (1990), in which Citibank was required to pay a deposit made in the Philippines after a Philippine government decree prevented payment from the Bank's Philippine assets.

This line of cases casts doubt on the proposition that any deposit truly may be payable only outside the United States, its territories and possessions. Because such deposits are not subject to assessments and, in all likelihood, are not regarded by either the bank or its foreign depositors as being insured, the Federal Deposit Insurance Act should make clear that such deposits are not insured. We therefore suggest enactment of the attached amendment.

FEDERAL DEPOSIT INSURANCE ACT

Subparagraph (A) of Section 3(*l*)(5) of the Federal Deposit Insurance Act (12 U.S.C. 1813(*l*)(5) is amended to read:

(A) any obligation of a bank or savings association which is carried on the books and records of an office of such bank or savings association located outside of the States of the United States, the District of Columbia, Puerto Rico, Guam, American Samoa, the Trust Territory of the Pacific Islands, the Virgin Islands, or the Commonwealth of the Northern Mariana Islands unless (i) such obligation would be a deposit if it were carried on the books and records of the bank or savings association, and payable at, an office located within the States of the United States, the District of Columbia, Puerto Rico, Guam, American Samoa, the Trust Territory of the Pacific Islands, the Virgin Islands, or the Commonwealth of the Northern Mariana Islands, and (ii) the contract evidencing the obligation provides by express terms, and not by implication, for payment at an office of such bank or savings association located within the States of the United States, the District of Columbia, Puerto Rico, Guam, American Samoa, the Trust Territory of the Pacific Islands, the Virgin Islands, or the Commonwealth of the Northern Mariana Islands.

BANKERS' ASSOCIATION
FOR FOREIGN TRADE,
Washington, DC, July 26, 1991.

Re foreign banks and deposit insurance.

Hon. DONALD W. RIEGLE, Jr., *Chairman*
Hon. JAKE GARN,
Ranking Republican, Committee on Banking, Housing and Urban Affairs, U.S. Senate, Washington, DC.

DEAR CHAIRMAN RIEGLE AND SENATOR GARN: On behalf of the Bankers' Association for Foreign Trade ("BAFT"), I would like to respond to your joint letter of July 17, 1991, requesting BAFT's views on three proposals to modify the application of federal deposit insurance to the operations of foreign banks in the United States.

As you know, BAFT's voting membership includes virtually all U.S. banks with significant international and trade banking operations. BAFT's U.S. members thus comprise those U.S. banks that are most active overseas and are the principal competitors of foreign banks both in the United States and abroad.

In evaluating the three proposals you presented, we have been principally guided in our analysis by the principle of national treatment toward foreign banks, a principle embodied in the International Banking Act of 1978 ("IBA"), because it promotes competitive equality in the United States and protects U.S. banks from possible retaliatory actions outside the United States.

BAFT agrees with your basic premise that legislation giving foreign banks the right to establish branches throughout the United States raises important questions about the deposit insurance coverage and assessment of such operations. There is, of course, a competitive issue, as U.S. banks will be paying deposit insurance premiums on deposits at their multistate branches, premiums that impose very substantial competitive costs. There is also the question of risks to the deposit insurance fund of insuring deposits at U.S. operations of banks based outside the United States. Finally, there is the issue of maintaining important operational or competitive options for U.S. banks outside the U.S. In this regard, any actions taken by the United States Government on the treatment of foreign banks in this market may provoke similar responses by foreign governments vis-a-vis the operations of U.S. banks outside the United States.

Evaluating your three proposals in terms of the above issues and overall consistency with national treatment, BAFT supports your first proposal, but has serious concerns with your second and third proposals.

Under your first proposal, if a foreign bank decided to take advantage of new interstate banking powers and to establish branches in more than one state, all of its branches would have to be FDIC-insured and assessed if any of such branches accepted retail deposits. We believe this position is consistent with national treatment, because even if U.S. banks accept only a small amount of retail deposits, they must pay assessments on all of their domestic deposits. If a foreign bank chooses to engage in interstate retail deposit-taking through its branches, it should be subject to the same assessment structure as U.S. banks. This proposal also guards against any confusion as to deposit insurance coverage by retail depositors, which could occur if some branches were insured and some branches were not insured. In this regard, FDIC regulations already address this issue in the intrastate context by requiring a foreign bank to insure all its branches in the same state, if any of such branches accepts retail deposits. The first proposal should also not present undue risks to the FDIC, since its current rules for insuring retail branches of foreign banks appear to have worked well. Finally, by acknowledging that foreign bank branches may engage in retail operations in the United States, this proposal allows foreign branches of U.S. banks to maintain or seek similar retail opportunities in markets abroad.

The second proposal—insuring and assessing deposits at all branches of foreign banks even if none of such offices engage in retail activity—was previously rejected by Congress in the IBA as being inconsistent with national treatment, since deposit insurance is intended to protect retail, not wholesale, customers. The FDIC also had substantial objections in 1978 to insuring strictly wholesale operations due to the risks that might be involved for the FDIC fund. We believe both of these reasons remain compelling today. Also, we are concerned that such proposal could provoke retaliation against U.S. bank wholesale operations outside the United States.

Concerning your third proposal, which would require foreign banks to conduct all retail operations through U.S. subsidiary banks, we believe such an approach is unnecessary and, perhaps, unwise, and could adversely impact U.S. bank operations outside the United States. Taking our last point first, U.S. banks would like to maintain the option, which they have or would like to have in many markets abroad, of conducting retail activities through branches or subsidiaries. A subsidiary "rule" in the United States could cause foreign governments to impose a retail subsidiary rule on U.S. bank branches outside the United States, which could deny them important competitive opportunities in existing or new foreign markets. Mandatory use of a subsidiary also appears unnecessary, since your first proposal ensures national treatment without generating such competitive risks outside the United States. In addition, to the extent U.S. rules require foreign bank activities to be conducted in subsidiary banks, the overall risk to the FDIC fund from such operations increases, since the U.S. Government ends up being responsible for the solvency regulation of such separate subsidiary. To the extent foreign banks conduct U.S. activities through branches, the ultimate solvency of such offices is the responsibility of the home country supervisor/central bank. In the current environment, it would not seem advisable to shift more solvency regulation *and* responsibility from foreign supervisors to U.S. government agencies.

We greatly appreciate this opportunity to comment and hope these views have proved useful to your legislative efforts.

Sincerely,

M. CONDEELIS,
Executive Director.

INSTITUTE OF INTERNATIONAL BANKERS,
New York, NY, July 29, 1991.

Hon. DONALD W. RIEGLE, Jr.,
Hon. JAKE GARN,
Senate Committee on Banking, Housing, and Urban Affairs, Washington, DC.

DEAR CHAIRMAN RIEGLE, AND SENATOR GARN: I am writing in reply to your letter, dated July 17, 1991, in which you requested the Institute's views on three proposals to modify the deposit insurance system as it applies to international banks.

The International Banking Act of 1978 ("IBA") required federal deposit insurance for international bank branches that take retail deposits but did not mandate deposit insurance for international bank branches that take only wholesale deposits. This approach takes into account the fundamental difference between wholesale depositors and individual, retail depositors for whom federally insured deposit protection was originally designed. We believe this system for deposit insurance for international banks has worked well as it applies to the limited number of international banks that have retail branches.

Your first proposal would expand deposit insurance coverage to all U.S. deposits of an international bank with retail deposit taking branches. We acknowledge that when an international bank seeks to expand interstate through insured retail branches it should be required to insure all its branches. Imposing this requirement on those institutions which have retail branch activities, however, could disrupt ongoing operations and possibly decrease banking services to the customers they serve. We suggest that these banks be allowed to continue operating as currently permitted unless they decide to expand interstate by establishing one or more retail branches under the new authority of S. 543.

Your third proposal would require an international bank to conduct interstate retail deposit taking through a U.S. subsidiary bank. We believe such a requirement is unnecessary. Although the Federal Deposit Insurance Corporation ("FDIC") expressed a preference for an incorporated bank at the time of enactment of the IBA, we believe the FDIC has successfully supervised the insured retail branches of international banks without significant problems or losses to the system. A disadvantage of incorporation is that the global capital of the international bank would no longer stand behind these deposits, and such a requirement would be inconsistent with the practice of U.S. banks to maintain branches in other countries.

The remaining proposal, number two in your letter, would expand deposit insurance coverage to all U.S. deposits of international banks even if the bank is engaged solely in wholesale deposit taking. This approach would be a major departure from the IBA and would bring within the safety net the vast majority of international banks currently operating in the United States. Such a change in the deposit insurance system for international banks could fundamentally alter the role of the United States as a center for international banking activities. A substantial portion of wholesale banking business would likely shift to various markets outside the United States, which could have a significant adverse impact on Atlanta, Chicago, Houston, Los Angeles, Miami, New York and other major cities.

Perhaps more importantly, the expansion of the liabilities covered by FDIC should be carefully examined before extending the U.S. government guarantee to the operations in the United States of international banks from over 60 countries. As Federal Reserve Chairman Greenspan observed in a related context in testimony before your Committee, by compelling deposit insurance wholesale branch depositors would increasingly look to the U.S. safety net rather than the international bank itself in the event of problems.

We appreciate the opportunity to comment on the proposals outlined in your letter.

Very truly yours,

LAWRENCE R. UHLICK,
Executive Director and General Counsel.

INDEPENDENT BANKERS ASSOCIATION OF AMERICA,
Washington, DC, July 25, 1991.

Hon. DONALD W. RIEGLE, Jr., *Chairman,*
Hon. JAKE GARN, *Ranking Republican,*
Committee on Banking, Housing, and Urban Affairs, U.S. Senate, Washington, DC.

DEAR CHAIRMAN RIEGLE AND SENATOR GARN: The Independent Bankers Association of America (IBAA) appreciates the opportunity to comment on the relationship of the deposit insurance system as it applies to foreign banks. The IBAA is the only national trade association which exclusively represents the interests of the nation's community banks.

It is the position of the IBAA that foreign banks that take deposits, wholesale *and* retail, in the United States should be required to abide by the same rules as domestic banks. It is critical that foreign banks are regulated effectively to ensure that depositors are accorded the same protection that they would receive from a domestic bank. Interstate deposit-taking should be done only through a U.S.-chartered subsidiary that is subject to the same rules and regulations as domestic banks.

With consumer confidence in the banking system at an all time low, permitting foreign banks to gather deposits from the U.S. without providing our citizens the protections that they are afforded by our banking system would only create more uncertainty. Without subjecting foreign banks doing business in this country to the same rules as domestic banks, we are concerned that the average consumer may not know that they are dealing with a foreign bank. This could place the consumer in the position of having to make an uneducated decision about their deposits.

The recent worldwide depositor crisis caused by the closure of BCCI has shown that deposit insurance is important. The *Washington Post* noted that the U.S. deposit insurance system "is part of the reason that U.S. banking regulators have been able to close about 200 banks in each of the past several years without an outcry from bank customers, while the Bank of England's action against BCCI has provoked protests from London to Hong Kong."

Assessing premiums for both wholesale and retail deposits is an important aspect of depositor protection. The wholesale deposit is considered in excess of $100,000. We believe that this figure is far too low. Retirees with, for example, $110,000 might be tempted to put their life savings or lump-sum pension payouts into the wholesale bank without understanding they are not insured. This is not acceptable.

Protection of the U.S. depositor must be the focus of this debate. Premium income generated from assessing the deposits of foreign banks may possibly be significant, but it should be considered the price a foreign bank pays to collect deposits in the United States.

We would be pleased to answer any further questions you may have. Thank you for this opportunity to share our views.

Sincerely,

DAVID BALLWEG,
President.

VICE-PRESIDENT OF THE COMMISSION,
OF THE EUROPEAN COMMUNITIES,
Brussels, September 17, 1991.

Hon. DONALD W. RIEGLE, Jr.,
Chairman, Committee on Banking, Housing and Urban Affairs, U.S. Senate, Washington, DC.

DEAR SENATOR RIEGLE: I would like to offer my congratulations on the successful markup of the US banking reform legislation by your Committee, which obviously brings reform a step nearer to the statute book. The European Community has also noted with satisfaction that the Committee took the view that an automatic roll-up requirement of branches of foreign banks was not necessary.

There is, however, widespread concern in Europe that roll-up seems to be reintroduced by the language requiring any foreign bank with one or more insured branches to establish a subsidiary (or subsidiaries) to conduct its insured deposit taking activities. For a significant number of European banks this would amount to a requirement to convert existing branches to subsidiaries, thereby undermining the Committee's position against such a roll-up.

You may find it useful to have an overview of the position as regards deposit insurance in the European Community. I have therefore attached to this letter a summary table setting out the situation in each of the Member States.

As you will see from this table, foreign bank branches operating in the European Community are covered by existing schemes in nearly all Member States—there is no requirement in any Member State that those branches should be established as subsidiaries. The obligation to pay insurance assessments is not affected by the different types of organizational structure used by banks; and there is no reason why it should be.

We in the European Commission will shortly be putting forward proposals for a harmonized system of deposit insurance throughout the Community. There is no intention that any such scheme should require branches of foreign banks to be converted into subsidiaries. I would therefore ask you to reconsider whether such a requirement could not be dispensed with in the United States' own bank reform legislation.

As you know, the European Commission strongly supports the general open-market direction of the banking reform legislation now being shaped by Congress. I am confident that our concerns can be met without adversely affecting the positive, liberalizing features of the reform process. I shall be in Washington from 22–24 September and if there is an opportunity to discuss matters of common interest arising out of the bank reform legislation I would naturally welcome an opportunity to meet you.

I am sending a copy of this letter to Senator Garn.

LEON BRITTAN.

FEDERAL DEPOSIT INSURANCE CORPORATION,
Washington, DC, November 13, 1991.

Hon. JAKE GARN,
Ranking Minority Member, Committee on Banking, Housing, and Urban Affairs, United States Senate, Washington, DC.

DEAR SENATOR GARN: Thank you for your letter of November 5, 1991 requesting the views of the Federal Deposit Insurance Corporation concerning your proposed amendment to section 305(c) of S. 543.

I support your proposed amendment. The original language of section 305(c) appears to make automatic deposit insurance coverage for retail deposits of domestic branches of foreign banks. Your proposed amendment would make clear that foreign banks must apply to the FDIC for deposit insurance covering those deposits. Your amendment therefore would require foreign banks to be subject to the same standards that apply to domestic banks and would provide the FDIC with leverage to assure that foreign bank branches are being operated in a safe and sound manner.

With respect to the question of whether foreign banks should be required to conduct their retail deposit activities in a subsidiary bank or be permitted to continue to conduct those activities in branches, I have no preference because substantial arguments can be made in favor of either approach.

I appreciate the opportunity to comment on your proposed amendment. If you have any further questions, please let me know.

Sincerely,

WILLIAM TAYLOR,
Chairman.

BRITISH EMBASSY,
Washington, DC, Dec. 12, 1991.

Hon. DONALD W. RIEGLE,
Senate Dirksen Office Bldg., Washington, DC.

DEAR SENATOR RIEGLE: We understand that the Federal Deposit Insurance Corporation Improvement Act of 1991, approved just before Congress adjourned in late November, added a new and potentially very damaging provision affecting foreign bank branches in the United States. The British Government hopes that you may be able to confirm that the new Section 214(a) will be interpreted in the way in which Congress no doubt intended so that the current arrangements for foreign bank branching in the U.S. are not disrupted.

The new Section 214(a) appears to prohibit international banks from accepting or maintaining accounts having balances of less than $100,000 except through a U.S. subsidiary. The Section has caused great concern to the foreign banking community who had understood that the change was meant only to affect the taking of insured retail deposits. Indeed, it appears that a careful reading of the new section taken in conjunction with the International Banking Act supports that interpretation. Nevertheless, it seems that on some interpretations the new section could be taken to prohibit the acceptance by wholesale branches of any deposits of less than $100,000 made by any customers of foreign banks. This would clearly be disruptive of the normal business arrangements of foreign bank branches and we are sure that it is unintended. Indeed, a reading of the House-Senate conference discussions suggests that wholesale bank branches should not be affected at all.

The British Government is concerned that the enactment of the legislation will lead to immediate, costly and unintended difficulties for the business of the foreign banking community in the United States and to normal commercial payment flows both within the U.S. and internationally. I understand that you appreciate these concerns. We should be very grateful, therefore, if steps could be taken to clarify that Section 214(a) is not intended to apply to the non-retail deposit activities of foreign bank branches.

If necessary, we hope that you will consider early legislation to put right the unintended effect of Section 214(a). In the meantime, I hope that you will join with us in urging the regulatory authorities to delay implementing changes to the existing regulatory structure.

Yours sincerely,

ROBIN RENWICK.•

INTRODUCTION OF S. 2112—LIMITING DIVERSITY OF INFORMATION SERVICES

• Mr. LOTT. Mr. President, S. 2112 is special-interest legislation of the first order, a nice little carve-out for newspaper publishers. Sponsors of S. 2112 and the newspaper publishers they seek to protect are saying that the bill is necessary to promote diversity in the information services market but their message has a hollow ring, that is, promote diversity by limiting it.

The bill would essentially reimpose the information services restriction on the Bell companies, and reverse the 5-year court process culminating in the decision to free the Bells, a process driven in large part by the compelling and persuasive public interest arguments in support of Bell Co. entry into information services.

The local Bell telephone companies serve 75 percent of the Nation's telecommunications users. During the nearly 10 years the information services restriction had been in effect there was little development of an information services market beyond large business users. In my home State of Mississippi and in many other rural areas of the country there has been little or no attempt to market these services. The implication is fairly simple and straightforward; the local telephone companies are well positioned to develop a mass market for information services and unless the Bell companies are in the information services game in a meaningful way more people than not will go without the benefit of these services. What we have in effect today, because of the irrational effects of the MFJ restrictions, is a case of the haves versus the have-nots in terms of access to information services. S. 2112 throws a smokescreen up in an attempt to blur our perception of these events and where we are in this debate.

Since the Bells were freed to enter information services they have responded energetically. Their involvement includes information product and service applications in areas of health care, small business, and education. Many of their efforts have involved cooperation or partnerships with other companies including the newspapers. The market is ripe for the next generation of information services. The American people are waiting. Rather than stand in the way, the newspaper industry should look for opportunities to capitalize on the information services revolution RCH participation will stimulate.•

COLLOQUY ON MASSACHUSETTS INTERSTATE HIGHWAY CONSTRUCTION FUNDING

• Mr. KENNEDY. Mr. President, my colleague from Massachusetts, Senator KERRY, and I engage the chairman of the Transportation Subcommittee, Senator MOYNIHAN, and the subcommittee's ranking Republican member, Senator SYMMS, in a colloquy concerning the Intermodal Surface Transportation Efficiency Act of 1991.

First, I would like to commend Senators MOYNIHAN and SYMMS for their leadership and extraordinary efforts in securing the passage of this critical transportation initiative. This act is clearly one of the most significant public works and infrastructure measures ever enacted by any Congress. It sets the course for a cleaner, more efficient, and safer transportation system as we move into the 21st century, and it will provide an enormous boost to the economy in Massachusetts and the Nation, at a time when this is so urgently needed.

Due, however, to the enormous complexities involved in writing legislation of this magnitude and the necessity for bringing this measure to the Senate floor before Congress adjourned for the year, it has come to our attention that a matter of vital importance to Massachusetts was inadvertently left out of the conference report. This matter concerns section 1020 of title I of the act concerning the period of availability for funds apportioned for Massachusetts for interstate construction.

As the distinguished chairman and ranking minority member are aware, the $2.55 billion in interstate construction funds apportioned under this bill for Massachusetts is vital for completing one of the last remaining segments of this country's Interstate Highway System, the Central Artery-Third Harbor Tunnel, located in downtown Boston. By including these funds, the conferees have recognized the importance of upgrading and improving what is now the single most dangerous and congested stretch of the entire Interstate Highway System. My understanding is that these funds were intended to be made available until expended, even though the conference agreement is not as clear as it could be on this point.

Would the chairman and ranking Republican member agree that it was the intent of the conferees to include language in section 1020 of the conference report to ensure the interstate construction funds apportioned for Massachusetts between October 1, 1991, and October 1, 1995, remain available until expended?

Mr. MOYNIHAN. Yes, it was the intent of the conferees to permit Massachusetts to retain, until expended, the interstate construction funds apportioned to it between October 1, 1991, and October 1, 1995, and I thank the Senator from Massachusetts for bringing this oversight to my attention.

Mr. SYMMS. I concur in the statement of the Senator from New York.

Mr. KERRY. Would the distinguished chairman and the ranking Republican member further agree and give assurances that the conferees will act quickly to include the requested language in a package of technical corrections?

Mr. MOYNIHAN. Yes, I can assure the Senators that we will move as expeditiously as possible to adhere to the original intent of the conferees and correct this oversight, thereby permitting Massachusetts to retain, until expended, all sums apportioned to it for interstate construction under the Intermodal Surface Transportation Efficiency Act of 1991.

Mr. SYMMS. The Senator from New York has accurately stated our intention.

Mr. KENNEDY. I thank the Senators for their remarks, and for their support on this important issue, and I again congratulate them for their achievement getting this far-reaching transportation measure enacted.

Mr. KERRY. I also would like to thank the distinguished chairman and ranking Republican member of the subcommittee for their great assistance and their leadership.•

ORLANDO, FL, MAGLEV PROJECT AND ITS INCLUSION IN THE INTERMODAL SURFACE TRANSPORTATION EFFICIENCY ACT OF 1991

• Mr. GRAHAM. The Intermodal Surface Transportation Efficiency Act of 1991 includes a $97.5 million authorization for land and right-of-way acquisition and guideway construction in Orlando, FL. This authorization is in section 1107 of the bill. In light of the interest I have expressed to the Senate Committee on Environment and Public Works, I assume that this authorization is for the magnetic levitation project connecting the Orlando International Airport with the Central Florida Tourist Center at International Drive. Is that the Chairman's understanding?

Mr. BURDICK. Yes; it was the intent of the conferees that the $97.5 million authorization for Orlando, FL, be for land and right-of-way acquisition, and guideway construction for the maglev project.•

JOINT STATEMENT ON SYSTEMIC RISK EXCEPTION TO LEAST-COST RESOLUTION FDICIA

• Mr. RIEGLE. Mr. President, I introduce, for the RECORD, the following statement which has been prepared by House Banking Committee Chairman HENRY GONZALEZ, Congressman BRUCE VENTO, and myself, on the systemic risk provisions of section 141 of S. 543, the Federal Deposit Insurance Corporation Improvements Act of 1991.

THE FEDERAL DEPOSIT INSURANCE CORPORATION IMPROVEMENT ACT OF 1991

On November 27, 1991, the House and Senate adopted the conference report on S. 543, the Federal Deposit Insurance Corporation Improvement Act of 1991. Time did not permit filing a detailed explanation of the bill with the conference report. Accordingly, we wish to clarify the systemic risk exception in section 141.

Section 141 requires the FDIC to resolve depository institutions at the least possible long-term cost to the deposit insurance fund. Section 141 also prohibits the FDIC, after December 31, 1994, from protecting uninsured depositors or nondepositor creditors at the expense of any deposit insurance fund.

Section 141 gives the Secretary of the Treasury limited authority to make exceptions to those rules if compliance "would have serious adverse effects on economic conditions or financial stability" and assistance or other action by the FDIC would avoid or mitigate those effects. The Secretary can make exceptions only in consultation with the President, on the written recommendation of at least two-thirds of the members of the FDIC Board and two-thirds of the members of the Federal Reserve Board.

The systemic risk exception now in section 141 originated in section 220 of the Senate bill. The Senate Banking Committee's report on S. 543 described the predecessor provision as "a narrow systemic risk exception for those rare instances in which the failure of an institution could threaten the entire financial system." S. Rep. No. 167, 102d Cong., 1st Sess. 45 (1991). In the House Banking Committee's bill, section 141, relating to least-cost resolution, did not contain a systemic risk exception, but section 142, restricting advances by the Federal Reserve banks, did contain such an exemption. H. Rep. No. 157, pt. 1, 102d Cong., 1st Sess. 22–27 (1991). The conferees included the systemic risk exception in section 141, but tightened it by making a written recommendation by the FDIC Board a precondition for any systemic risk exception. The exception in section 142 of the House bill was dropped.

The systemic risk exception is not intended to perpetuate the practices commonly known as "too big to fail"; the legislation responds to and largely ends those practices. Section 141 adopts a stringent least-cost test, requiring the FDIC to evaluate alternative resolution approaches rigorously and pursue the approach with the least possible long-term cost. The FDIC is no longer free to pursue a more costly approach simply because it is less costly than liquidation, nor can the FDIC use hazy, informal cost comparisons. Section 141 also repeals the "essentiality" exception, which made even the less-than-liquidation test inapplicable to an institution that the FDIC determined to be essential to its community. Section 143 contains safeguards designed to keep discount-window lending by the Federal Reserve banks from being used not simply to cover temporary liquidity needs but as a substitute for FDIC action. Other provisions of the legislation reinforce these reforms. Section 308 and subtitle IV–A are intended to reduce systemic risk. Prompt regulatory action under section 131 applies to large and small institutions alike.

The systemic risk exception itself is narrowly drawn, with several layers of safeguards against misuse. It is intended only for those rare instances in which the failure of an institution could threaten the entire national financial system. The two Banking Committees must be notified promptly of any systemic risk determination.

Section 141—including the least-cost resolution requirement and the post-1994 prohibition against protecting uninsured depositors or nondepositor creditors—fully applies to open-bank assistance. Moreover, such assistance is permissible under the systemic risk exception only if it meets the stringent standards for that exception.•

S. 543, THE FEDERAL DEPOSIT INSURANCE CORPORATION IMPROVEMENT ACT

• Mr. GARN. Mr. President, as you know, the Federal Deposit Insurance Corporation Improvement Act is presently awaiting signature of the President. This act requires and encourages the banking agencies to pursue a variety of goals in resolving troubled institutions, and gives the Federal Deposit Insurance Corporation special responsibilities in implementing its objectives.

In specific situations, some of the goals found in the act may conflict. I want to make it clear that Congress relies on the banking agencies to exercise their best judgment in balancing those objectives.

No bank resolution strategy will please everyone; many will please no one. The President appointed, and this body confirmed, the heads and members of the boards of the bank regulatory agencies. By so doing, we expressed our confidence in their ability to make the best choices. This act should not be interpreted as preventing them from creatively and constructively fulfilling their assigned responsibilities. I believe that this is worth emphasizing in light of the difficulties the banking industry and the general economy currently face.

Mr. President, I would also like to make some comments about some of the specific provisions in the act.

Section 105 of the act permits the FDIC to borrow from certain members of the bank insurance fund. This new source of borrowing for the FDIC pertains to the FDIC's general borrowing on behalf of the bank insurance fund. It does not pertain to the FDIC's authority to enter into bank assistance transactions to resolve bank failures. This new authority is intended to be in addition to and not a limitation on the FDIC's authority under sections 11 and 13 of the Federal Deposit Insurance Act.

Section 123 of the act sets forth standards for the FDIC to follow in disposing of assets of failed institutions, including the requirement that the FDIC promote competitive bidding. This provision is intended to apply to the FDIC's liquidation operations. The FDIC's resolution transactions, in contrast, are governed by the least-cost provisions, and the FDIC's mandate is to use whatever competitive bidding and negotiation process best effectuates those provisions.

In section 131, the term "capital distribution" should be broadly construed. For example, a capital distribution should include any transaction that the appropriate Federal banking agency or the FDIC determines to be a distribution of capital.

Section 131 also requires the establishment of benchmark levels of risk-based capital and leverage limits at which depository institutions will be considered to be well capitalized, adequately capitalized, undercapitalized, and significantly undercapitalized. Each banking agency, in consultation with the FDIC, must also establish one or more benchmark levels at which institutions are critically undercapitalized. In particular, each agency must establish a ratio of tangible equity to total assets at which an institution is critically undercapitalized.

These benchmark capital levels, which are to be established for the purpose of prompt corrective action, are not intended to supersede the capital standards specifically imposed on savings associations by FIRREA. Thus, the regulators of savings associations—the OTS and the FDIC as backup regulator and insurer—are expected to implement all of the prompt corrective action requirements of section 131 in a way that is consistent with FIRREA, which remains in force except to the extent explicitly amended by the Federal Deposit Insurance Corporation Improvement Act of 1991.

Section 131 also provides the primary Federal regulator with discretion to take other more appropriate action in lieu of appointing a receiver for an institution that is failing to meet its critical capital level, provided that the institution meets certain criteria designed to ensure its continued viability and the FDIC concurs in such decision.

In this area, it is critical that the regulator be given sufficient flexibility to consider all available alternatives that could save taxpayer money without increasing risk to the insurance fund. This measure provides significant regulatory discretion in cases where an institution is in compliance with an approved capital plan, has a sustainable upward trend in earnings, and is reducing its nonperforming assets. These criteria ensure that if a decision is made to forgo appointing a receiver for an institution that may have a realistic opportunity for recovery, the institution will not incur additional losses that would be borne by the taxpayer. Of course, it is not intended that this provision affect other provisions of this act that would provide the banking agencies additional flexibility to deal with weak institutions before they reach the critical capital level if other grounds for appointment of a conservator of receiver exist.

Section 131 also provides that a "less than satisfactory" rating with respect to assets, management, earnings, or liquidity, in the most report of examination, provides a basis for the appropriate banking agency to deem the institution to be engaging in an unsafe or unsound practice. This provision gives the regulators additional authority and does not limit the existing bases upon which the regulator can make a finding that an institution is engaging in an unsafe or unsound practice. Further, the phrase "most recent report of examination" should not be interpreted as requiring the termination of an enforcement action based solely upon the insurance of a subsequent report of examination.

Finally, section 131 includes corrective actions that the appropriate Federal banking agency must or may take, depending on the level at which the entity it regulates is capitalized. Where the board of directors and management of a depository institution or its holding company act to implement an agency directive under this section, those actions are fully consistent with and in furtherance of those persons' fiduciary duties.

Section 141 states that the FDIC, in determining the least costly resolution approach, is to use a cost evaluation based on its expected overall expenditures and payments on obligations. The FDIC must also factor in its expected return on or redemption of capital instruments that it purchases, pursuant to the sense-of-the-Congress resolution on early resolution of cases. In all instances, the requirement is that the FDIC develop the fairest and most accurate overall cost of each transaction in order best to compare alternative resolutions.

Section 141 of the act also requires the FDIC, when it provides assistance to an open institution, to make a determination with the institution's primary Federal regulator whether the institution's management has been competent and has not engaged in violations of law. That determination must be made as to former management who are retained by the assisted institution, if any. As the sense-of-the-Congress resolution on early intervention provides, members of former management as to whom the necessary determination cannot be made should ordinarily not be retained by the assisted entity.

Section 475 of the act authorizes each appropriate Federal banking agency to determine the amount of readily marketable purchased mortgage servicing rights that may be included in the capital required of the institutions it regulates, subject to certain discounting and valuation requirements. Each appropriate Federal banking agency's authority to make this determination includes the authority to define the terms contained in section 475.

Finally, Mr. President, I would like to take this opportunity to repeat comments that I made in the conference committee that reported out the Federal Deposit Insurance Corporation Improvement Act of 1991, comments that I believe will be useful in making clear the intended effect of this important provision of this legislation.

In the Senate Banking Committee, I was the sponsor of the provision that was ultimately adapted as section 471 of the act. The purpose of section 471 is to address a serious problem that has emerged since we enacted FIRREA in 1989. In FIRREA, we created the Resolution Trust Corporation and mandated it to maximize the return from the sale of the assets of failed thrift institutions. To ensure that the Resolution Trust Corporation [RTC] was able to carry out this mandate, we gave the RTC broad-ranging powers, including the power to transfer any asset of a failed institution "without any approval * * * or consent with respect to such transfer."

In order to be able to sell such assets at the best possible price, the RTC must not only be able to transfer them without obtaining any third-party consents, as FIRREA already provides, but it must also be able to provide assurance that the asset will have value in the purchasers' hands. If the asset is a contract for services, it will obviously have little or no value if the service provider is free to arbitrarily terminate the contract following its transfer. It is this issue that section 471 resolves. It establishes the right of anyone to whom the RTC sells such an asset which, as the Senate Banking

Committee report noted, may take the form of rights under contracts and membership rights in associations, service corporations, and the like to bring suit to enforce the rights that it has purchased. The provision includes one exception: When the purchaser itself has failed to comply with a material term or condition that applied to the thrift institution that originally owned the servicing rights.

I was fully cognizant, as were the conferees, of the applicability of this provision to a dispute that currently exists between Sears, Roebuck and the Visa credit card organization, which has until now refused to allow Sears to exercise Visa membership rights that it purchased from the RTC. Under this provision, Sears is entitled to enforce those rights, unless the exception that I mentioned earlier applies.

I understand that there are antitrust claims that have been asserted by Visa in pending litigation between Sears and Visa arising from this dispute. As I stated in a written colloquy with Senator METZENBAUM, which I submitted for inclusion in the CONGRESSIONAL RECORD on November 27, this provision does not prejudice any such claims, because this provision is not about antitrust claims. If Visa, or anyone in a similar position in the future, believes that it has grounds under the antitrust laws to challenge someone's acquisition of servicing rights from the Resolution Trust Corporation, that service provider continues to have whatever right it has before the enactment of this legislation to file its own lawsuit and to attempt to persuade a court of law that the acquisition of those rights was illegal. But until an appropriate court determines that the service provider's claim is valid, the purchaser is entitled to enjoy fully its rights under the service contract to enforce them. This provision makes it illegal for the service provider to simply unilaterally refuse to provide services for any reason, except in the one limited circumstance that I referred to earlier.

I hope that this makes clear the intended effect of this important provision.•

FEDERAL DEPOSIT INSURANCE CORPORATION IMPROVEMENT ACT OF 1991

• Mr. SANFORD. Mr. President, I have a few comments about an aspect of the recently passed banking bill, S. 543, the Federal Deposit Insurance Corporation Improvement Act of 1991. I was very pleased that the conference report on this bill included language that the Senate Banking Committee included at the behest of myself and the Senator from Connecticut [Mr. DODD], relating to the early resolution of troubled financial institutions. The provisions strongly encourage the regulators to make use of the authority that they have to make equity investments in, or take other steps to assist, troubled institutions so that they do not ultimately have to be closed. The provisions set forth general criteria that should be used in examining those transactions that might benefit from such action. I believe this language of encouragement to our regulators is a critical part of a new approach to bank and thrift failures.

I would like to comment on one small aspect relating to these provisions. I think some details regarding the applicability of section 11(c)(12) concerning directors liability when such early resolutions occur is warranted.

Section 11(c)(12) of the Federal Deposit Insurance Act [FDIA], as added by section 133 of this act, protects directors of depository institutions from liability to shareholders and creditors when the directors acquiesce or consent in good faith to the appointment of the FDIC or the RTC as a conservator or receiver or acquiesce to an acquisition or combination under section 38(f)(2)(A)(iii) of the FDIA. Section 38(f)(2)(A)(iii) provides that significantly undercapitalized institutions and undercapitalized institutions that have failed to submit or implement acceptable capital plans may be required to enter into supervisory acquisitions or mergers, if one or more grounds for appointment a conservator or receiver exist.

The institutions subject to sections 11(c)(12) and 38(f)(2)(A)(iii) of the FDIA are substantially similar to those eligible for early assistance under new section 13(c)(8) of the FDIA as added by section 141(e) of the act. As such, the immunity provisions of section 11(c)(12) should apply in such transactions. Indeed, the immunity provisions of section 11(c)(12) should apply to all supervisory mergers and acquisitions that include early assistance and that involve significantly undercapitalized—as well as critically undercapitalized—institutions and undercapitalized institutions that have failed to submit or implement an acceptable capital plan.

The protections afforded under this section should also apply to actions brought by indirect shareholders and creditors, such as shareholders and creditors of a holding company that controls the institution.

The immunity provisions of section 11(c)(12) also effectively protect the directors of a holding company that controls a depository institution where the directors of the institution consent or acquiesce to an action under this section. Of course, this protection would only extend to a holding company's directors with respect to any action required as a result of the consent or acquiescence under this section by the directors of its subsidiary institution. However, to the extent the directors of a holding company take action to implement an action consented or acquiesced to by the institution's directors, the actions of the holding company's directors would be fully consistent with, and in furtherance of, their fiduciary duties.

The act provides that these provisions become effective 1 year after enactment of this conference report. At that time, the provisions would provide the immunity specified in section 11(c)(12) to any actions pending on the effective date if the action was initiated on or after the date of enactment of the conference report.

Again, I am very pleased that the conference report retains the language encouraging the use of early resolution transactions and I hope that the regulators will take every advantage of these provisions to assist, where appropriate, those banks or thrifts that could be aided by equity infusions or other actions to prevent their ultimate failure.•

ANTI-SEMITISM IN UZBEKISTAN AND TADZHIKISTAN

• Mr. D'AMATO. Mr. President, the complete overhaul of the former Soviet Union, while bringing tremendous hope for the future, offers an array of potential problems. Chief amongst these problems is a rise in anti-Semitism. This is an important issue for the Senate to consider. As a result, I feel a report by the New York-based Caucasus Network would offer some insight.

The report follows:

THE REBIRTH OF ISLAM IN UZBEKISTAN AND TADZHIKISTAN: ITS IMPACT ON LOCAL JEWISH COMMUNITIES

(An On-Site Report By the Caucasus Network)

CONCLUSIONS

1. Signs of a vigorous renewal of Moslem culture and religion in Uzbekistan and Tadzhikistan are everywhere. There is increasing pressure on local officials from Islamic political and religious forces to do whatever is necessary to ensure that the republics become independent Islamic nations.

2. For reasons based in both Moslem theology and the historic relations between Moslems and Jews, the growing power of Islam is a terrifying threat to Jews in Central Asia. Jewish leaders have been ordered to support local political movements backed by the Islamic religious establishment. An alarming number of Jews have been attacked under circumstances related to anti-Semitism.

3. The general feeling, even in Uzbekistan, is that Tadzhiks are more of a threat to the Jews than are Uzbeks. However, it also is true that the Jews in the outlying towns of both republics are the most pressured, isolated, and vulnerable. They told terrible stories about actual physical violence against members of their communities and were visibly quite frightened. Some reported having been warned that if they do not convert to Islam, they will be killed.

4. Given what most people regard as the inevitable establishment of independent Moslem nations in Central Asia, ways to protect local Jews and to expedite their emigration must be considered.

REPORT

From October 2nd through October 17th, 1991, Goldie Ellman (a member of the Board of Directors of The Caucasus Network) and I went to Central Asia. We had two objectives. First, we wished to make our own on-site assessment of the growth of Islam and its impact on Jewish communities in the area. Second, we hoped to provide solutions to some of the problems people were having in emigrating to Israel and the United States, thereby hastening and facilitating their exodus from this troubled area.

We went to Tashkent, Bukhara, Samarkand (Uzbekistan) and Dushanbe (Tadzhikistan). We had arranged our schedule prior to our departure and in each city, it essentially was the same.

(a) We were met at each airport by a delegation consisting of from ten to thirty members of the local Jewish community.

(b) We addressed community meetings that were attended by hundreds of people in each city. At each meeting, a presentation on general problems relating to emigration was followed by a long and lively question-and-answer period.

(c) We held conferences attended by the leaders of each Jewish community, at which we discussed anti-Semitism and the impact of the growth of Islam on the Jews in each city. We also trained the leaders in US refugee immigration procedures and we asked questions about the functioning of the local OVIR offices.

(d) We held clinics at which we met with individuals to discuss their emigration problems and personal experiences with anti-Semitism. Both in group seminars and individually, we prepared people for their American embassy interviews and we answered questions relating to the interview packets.

In each city, we literally were mobbed by clamoring crowds of people who were desperate to emigrate (and we have the bruises to prove it). In Samarkand, the crowds were so large that the local militia, replete with floodlights and bullhorns, came to see what was happening. We addressed hundreds of people in groups and met with representatives of some two-hundred-and-fifty families to discuss their individual problems.

This report will discuss what we learned about the growth of Islam and anti-Semitism. It will neither consider procedural emigration problems nor offer suggestions as to how the Jews in Moslem republics might be protected from further anti-Semitic attacks, assisted to emigrate or, if required, rescued and evacuated to other areas. Nor will it weigh the impact of the growth of Islamic power in Central Asia on events in the Middle East or the fact that much of the Soviet nuclear arsenal is in the Central Asian republic of Kazakhstan, possibly vulnerable to take-over by Moslem forces. These crucial questions, constantly on our minds, must be considered in other forums.

TASHKENT

Islam Reborn: Of the cities we visited, Tashkent is the most European in ambience. Even so, there was substantial evidence of renewed pride in local culture. For example, the facade of the Hotel Uzbekistan sported an enormous painting of the Uzbek poet Alisher Navoi, whose anniversary was being celebrated. There were signs in Arabic script, which the vast majority of the Uzbeks cannot read because its use was banned after the revolution (in part to discourage people from reading the Koran and to divorce them from their own cultural heritage).

Because Tashkent is modern in flavor, it is not surprising that we saw fewer people there wearing traditional Moslem dress than in the other three cities. However, people told us that there recently had been an announcement that President Karimov "had ordered 400,000 pieces of Moslem clothing for Uzbeks." This was said to be part of this commitment "to further Islamic culture in Uzbekistan." We were unable to determine exactly what was meant by "Moslem clothing" in this context.

In other cities, we saw women wearing skirts over pants in bright prints and silky materials, but this was just as likely to be traditional Uzbek clothing as Moslem. We also saw men wearing baggy trousers. [It is said that Mohammed will be re-born of a man, which is why many men throughout the Moslem world wear pants with long crotches in order to "catch the baby."]

On one occasion, we saw two Uzbek men dressed entirely in white and wearing turbans and sandals. They were accompanied by a woman in a head-to-toe black veil. These men were wearing the required garb of pilgrims going to Mecca and, with the aid of a man who spoke some Uzbek, we were able to confirm that the three were on their way to Saudi Arabia.

An Independent Uzbek Nation: Many people told us about meeting of Imams of the Kokand directorate, which recently had taken place in Andizhan. At this meeting, the Imams had threatened to over-throw Karimov. In order to remain in power, Karimov was said to have been forced to swear on the Koran that Uzbekistan would become an independent Moslem nation and that he would do everything he could to ensure the resurgence of Islam. When asked, everyone confirmed that the oath Karimov been forced to take was that Uzbekistan would become an independent nation, not merely an independent republic.

One man in Dushanbe said the Imams had pressured Karimov to take this oath on the Koran, but that he had declined to do so. Everyone else said he had taken the oath. We were unable to get any newspaper articles about the meeting in Andizhan, which had taken place prior to our journey. While it is important to verify whether Karimov actually took this oath, it also is fascinating that, with the exception of the one man in Dushanbe, the universal perception among Jews living in Uzbekistan and Tadzhikistan is that he did. We repeatedly were told of this event in every city we visited.

All of the people to whom we spoke agreed that it was only a matter of time before Uzbekistan and Tadzhikistan became wholly independent Moslem nations. The only question still at issue is whether they will become democratic countries like Turkey or fundamentalist Moslem dictatorships like Iran. While they feared much more the latter possibility, no one was comfortable with the idea of living in a Moslem nation. Several people mentioned the "hostage communities" of Jews in Syria, Iran, or Iraq, as though they understood that these might mirror their own futures.

Faced with what they regarded as the likelihood that they might find themselves denizens of a Moslem nation, most of the Jews whom we met wanted to emigrate as quickly as possible. Most of those not actively preparing to leave had no first-degree relatives in America, had been precluded from emigrating to the United States under the procedures effective in October, 1989, and did not want to go to Israel. It was clear that many among them would emigrate if they could come to America.

In assessing this information, it should be remembered that the people whom we met had been "self-selected," because they knew we had come to Central Asia to discuss emigration problems. Even so, those who were refusing to emigrate, either because they perceived no danger or because they declined to go to Israel, appeared blind to events around them.

While in Central Asia, I was reminded of the day in 1965 when my parents had begged me to return home from Athens because they had heard reports of "violent political demonstrations in Constitution Square." I had looked from my hotel window down upon Constitution Square and had told my parents that I didn't see anyone demonstrating. Similarly, it occurred to us that some Jews in Central Asia are too close to what is happening there to appreciate that they are in jeopardy.

Anti-Semitic Violence: There are at least fifty thousand Jews in Tashkent, but all agree that the actual number may be far higher. The majority of Tashkent's Jews are Ashkenazim (of European origin, Russian-speaking) whose families emigrated to the area within the last fifty years. The majority of Jews in the other cities are Bukharans (of Persian origin; home tongue, Judeo-Tadzhik), descendants of Jews who have lived in Central Asia for generations.

Although CN has records of numerous incidents of anti-Semitic violence in Tashkent, the total is relatively small considering the size of the city's Jewish population. People said that in the past there had been little trouble between Uzbeks and Jews and that it had only been in recent years that tension between them and physical violence motivated by anti-Semitism had increased. This development appeared to astonish local Jews and was a source of dismay to them. Some took pains to tell us that the Tadzhiks, whom they characterized as "bad" and "mean," were much worse than the Uzbeks.

We did receive new reports of attacks upon Jews in Tashkent that obviously had been motivated by anti-Semitism. Typical was one that took place in December, 1989, during which members of a Jewish family had been brutalized in their own home by Uzbeks. The husband was beaten with a rifle butt and the attackers tried to rape the wife. Both were tied up and blankets were put over their heads. The husband suffered a fractured nose, concussion, dislocated shoulder, and cracked rib. He lost several teeth and was severely beaten about the face and body. To cover the scars on his face, he now wears a beard.

The Uzbek attackers said that their Jewish victims should "be silent, because we were not in Israel but Uzbekistan;" that "we will kill you all." It is known that this Jewish family was attacked because their neighbors were aware that they "had plans to emigrate from the U.S.S.R." Both at the trial and subsequently, the perpetrators, their friends and relatives harassed the Jewish family, said that they were sorry that they hadn't killed them, and demanded that they emigrate from Uzbekistan. The family has continued to receive threats to this day.

The trial and investigation took place in 1990 and there are indications that they were not conducted impartially because the accused were Uzbeks and the victims were Jewish. Important evidence (the original forensic report) "disappeared," as a result of which the nature of the victims' injuries were claimed to be far less serious than they actually were. Despite eyewitness identifications, two of the criminals were found to be innocent. Serious charges were dropped and shorter sentences were given. Although the three (of the original five) attackers convicted received three-year sentences, less than a year later they were freed and they have continued to torment their victims.

We saw how the attack upon this family frightened other Jews in Tashkent when we were leaving the home of people who knew the family. Our hosts were so terrified by this anti-Semitic violence that we were asked not to speak English in the hallway. The wife said that her neighbors knew that she was Jewish and that Jews could emigrate, but they "don't know we are planning to emigrate and we don't want to be attacked like [name deleted.]"

BUKHARA

Signs of the Moslem Revival: At six o'clock every morning, the amplified voice of a muezzin atop a minaret called to prayer the sleeping residents of a city still blanketed in darkness. Two years ago, this would not have been possible in Bukhara. Now people are streaming into the mosques being built throughout the city. A madrasa [Islamic college] has opened and is being attended by some 400 students. Signs written in Arabic script are everywhere. Job applications must be filled out in Uzbek. University lectures and announcements must be made in Uzbek. Countless people who do not speak Uzbek are being fired from their jobs. This is an effective form of economic discrimination against Jews and other non-Uzbek speakers, which is becoming increasingly common and about which we heard in every city.

After the revolution, the city's beautiful Moslem buildings were allowed to decay. Now, the order of the day is that Moslem heritage must be preserved. All of the old mosques and historic monuments are being restored. A new medical school named after the great Moslem scholar Avicenna has opened and his portrait adorns its facade. None of this would have been possible before.

Two or three years ago, even in the old part of Bukhara, most women of local nationality wore European clothing. Today, large numbers are wearing traditional costumes. It is to be expected that the older generation would wear such clothing. What is surprising is the number of young women, among them teenagers, who have adopted the traditional garb.

Prior to the August coup, Bukhara's residents could choose among six television stations: two from Moscow, two from Tashkent, and one each from Tadzhikistan and Turkmenistan. Now they get only three stations: one from Moscow and two from Tashkent. All of the programming on the Tashkent stations is in Uzbek, which means that Bukhara's Russian-speaking population can listen only to the one broadcast from Moscow. This was done by order of President Karimov, who said that the republic needed "Uzbek history, Uzbek language, and Uzbek culture." According to one disgruntled Bukharan Jew, Karimov also said that anyone who did not want to speak Uzbek should leave the republic.

The Jewish Community: Of the 200,000 people in Bukhara, 30% are Tadhik, 40% are Uzbek, and the rest are a mixture of nationalities, including Russian, Armenian, Tatar, and Jewish. At one time, there were about 12,000 Jews in Bukhara, some 4,000 of whom have emigrated. Several times we were told, "This used to be a Jewish street, but Tadhiks live here now"; or "This was a Jewish quarter. Now it is Uzbek."

A respectable number among Bukhara's 8,000 Jews have no current intention of emigrating. Is Bukhara's Jewish community safe? Although there have been many incidents of anti-Semitic violence, apparently some think that the answer is yes. One reason we heard often as to why Jews and Moslems get along in Bukhara is that there is food available. In other cities, the possibility of winter famines led to voiced fears among Jews that they would be blamed and that there might be pogroms.

Obviously, the people who want to emigrate do not agree that Bukhara is a safe place for Jews to live. They no longer can abide the repeated incidents of anti-Semitic violence. In Bukhara, people have been attacked on the way to and from synagogue and told, "The time will come when we will spit your blood out" and "We know that you are Jews. Get out of the Soviet Union!" Guests attending a Jewish wedding have had rocks thrown at them with notes attaching saying, "Death to the Jewish people." Dead cats have been thrown into Jewish apartments with notes saying, "The same thing will happen to you!" Jewish children have been beaten at school. Jewish women have been assaulted and told, "Zhid-Jew, go to Israel. This is not your republic." Jews have been attacked by Moslems who say that if they don't emigrate, their homes will be set afire.

One prominent member of the community said that the Uzbeks in Tashkent, Fergana, and Andizhan were "bad men," but insisted that the Uzbeks in Bukhara were different. Yet even though the city is quiet now, he and his family are emigrating because they are sure that "there will be trouble in five or ten years."

How Bukhara is Different: Why do some of Bukhara's Jews feel less threatened by the resurgence of Islam? A visit to the city provides a possible answer. The entire time that we were in Bukhara, we had the feeling that we were in the Middle East. It was not simply the signs with their Arabic lettering, the traditional costumes, the dead dogs and cats lying unattended in the street, the exotic flavor of the city. Rather, it was the behavior of the Jews of Bukhara that made us think that we no longer were in the Soviet Union.

Bukhara's Jews are isolated from the other major population centers in Uzbekistan. They are by far the most traditional and devotedly Jewish among the communities we visited. It is quite usual to find three generations living the same house, and for some twenty or thirty people to be sharing the cooking facilities in the courtyard and the one, sometimes primitive, bathroom. In their homes we found kosher food, Jewish ceremonial objects, Hebrew writing on the walls, people who ritually washed their hands and made a blessing before they ate their bread.

We noticed that many of the people spoke in soft voices and that some lowered their eyes when addressing each other. Whereas we had been mobbed in other cities, in Bukhara even large crowds of people parted quietly and respectfully to let us both walk into the synagogue. Bukhara's Jews were extremely polite. Their silence when we addressed the community was profound.

We considered whether their underplayed ways might not have been developed over generations, part of an instinctive community reaction to living amidst a Moslem majority. An example: We are in the car with a Jewish man whom we know to be of strong character. We are driving through the winding streets of the old city where the roads are wide enough for only one car to pass at a time. We turn into a narrow street and have driven about one-quarter of the way down it when another car turns into our street, coming from the opposite direction. Although we are much further into the street than the second car, our driver puts his car into reverse and backs out the way he came.

"Is there a protocol about who backs up?" I asked him.

"Uzbek," is his laconic response.

In his mind, the reasoning is obvious. The driver of the other car is Uzbek, so the Jew gives way. This was why when we were in Bukhara, we repeatedly were reminded of Yemen. The Jews of Yemen were not allowed to look Moslems in the face when talking to them. [Bukhara's Jews speak softly and sometimes with downcast eyes.] In Yemen, Jews had to step off the sidewalk into the street if a Moslem approached in the opposite direction. [Uzbeks have the unwritten right of way in Bukhara.] To call it subservience is an insult to the Jews of Bukhara. Instead, view it as a centuries-old communal response to generations of life as a detested (or at best tolerated) minority among hostile Moslems.

In his book The Jews of Islam, the respected scholar Bernard Lewis recounts occasions upon which Moslems attacked the non-believers living among them and notes that "the commonest reason by far for such outbreaks in premodern times was that the [non-believers] were not keeping their place, that they were acting arrogantly, that they were getting above themselves." This is a lesson that Bukhara's Jews appear to have learned from history.

They have developed a modus-vivendi with their Moslem neighbors that has served them in the past and, some of them apparently hope, will protect them in the perhaps precarious future. We pray that they are right. If they are wrong, then we must be prepared to rescue them as quickly as is possible.

SAMARKAND

The Jewish Community: Samarkand, a city of some five to six-hundred thousand people, owes its Moslem flavor in no small part to the architecture of the Registan, the tomb of Tamurlaine's dynasty, and other such glorious monuments. At one time, there were about fifteen thousand Jews in Samarkand. Near to half of the Jewish population already has emigrated. Of the eight to nine thousand Jews still in the city, most wish to emigrate. Unfortunately, no matter how dangerous they think their future in Smarkand may be, many refuse to consider going to Israel. They have been influenced unduly by several families that emigrated to Israel, only to return to Samarkand to live and to spread tales of their disillusionment with conditions in the Jewish homeland.

[The issue of the returning families have been raised in the context of a request that we give them financial aid. When we noted that some people are discontent no matter where they live; the people who had broached the subject of these families nodded knowingly, indicating that this might well be the case with these several families. Nevertheless, the negative impact upon aliyah of such reverse emigration must be addressed.]

People again recounted television reports that President Karimov had been forced to swear "to do all he can to make Uzbekistan a Moslem state." No one doubted that it would happen eventually and most believed it would happen soon. One woman succinctly stated the general consensus when she said: "The only question discussed on the streets here is whether the republic will go the way of Iran or Turkey. It is impossible to guess the outcome, but neither way will be good for the Jews."

Anti-Semitism: As in each of the cities we visited, we heard about newly-built mosques and growing attendance at prayer services. Again, Jews were being fired from their jobs because they did not speak Uzbek and "there is no opportunity for non-Uzbek-speaking adults to learn the language." Local schools no longer accept Jewish students "because they say that we are going to emigrate. This is a new problem for us." We also received documentation of more incidents of anti-Semitic violence in Samarkand and we learned that five of the city's Jews had been wounded fatally during anti-Semitic attacks in as many years.

"When Jews are murdered, the militia does nothing," one man said bitterly. "Even Jewish lawyers are afraid to investigate these cases."

In Samarkand was most vividly expressed another recurrent problem facing Central Asia's Jews: their growing inability to get health care. The majority of Jewish doctors have emigrated and physicians of local nationality often refuse to treat Jews or will do so only if they are paid extortionate fees ranging in the thousands of rubles.

We met the wife of a young Jew hospitalized with a fatal disease. Rather than treating him, the Uzbek staff physicians have been subjecting him to a litany of anti-Semitic slurs. Were it not for medication that his family purchases on the black market, he might already be dead. This young man and others like him are being murdered on a daily basis because they are Jewish.

What the Jewish Cemetery Revealed: On the morning that we left Samarkand, we accepted the invitation of community leaders to visit the Jewish cemetery. We went first to Ifraim's grave, his mother marching stalwartly ahead of us. He had been murdered by Uzbeks six years ago, but she still howls forlornly behind his stone. Perhaps she remembers that a witness had heard him crying "Momma" while he was tied up like an animal and stowed in the trunk of his killers' car, or that his murderers had burned his body and danced around the fire singing, "We killed a Jew!"

We paid our respects to Ifraim's memory, comforted by the knowledge that his wife and child were safe in Israel and that we were helping the rest of his family to emigrate. I didn't have anything with me from Israel, so I gave Ifraim's mother a penny to place in the ground near his grave, a little part of America so that he too might be free.

Then we were taken on a tour of Samarkand's Jewish cemetery. Bukharan Jews put portraits of the deceased on the stones erected to memorialize them. We saw faces too young to be buried and, as we passed them, we were told:

"He was murdered during his service in the Russian army."

"This is David's brother. He was sitting in front of his house when they came up to him, called him a zhid [kike], then stabbed him to death."

"This boy died because they don't like Jews in the army."

"This is the Jewish artist we told you about, who was killed by anti-Semites. His wife and children want to emigrate, but they were too frightened to come to see you."

"These boys were killed by anti-Semites in the army. So was he. And this one too."

"This is the son of the old man you didn't have time to see yesterday. He also was murdered by anti-Semites."

Goldie murmured the rhetorical question that was passing through both of our minds, "Didn't anyone in this cemetery die a natural death?"

Our hosts had been quietly insistent that we visit their city's Jewish cemetery and now we knew why. Nothing attested more eloquently to the pervasiveness of anti-Semitism than the faces of the young victims staring at us from their gravestones, reminding us that they had been murdered only because they were Jewish, daring us to forget them.

Upon reaching the six-foot tall fence that separated the Jewish cemetery from the adjacent Moslem cemetery, I muttered, "It isn't high enough."

When he heard the translation of my remark, the activist walking next to me laughed, then hugged me. He knew that I understood at last what it is like to be Jewish in Central Asia.

DUSHANBE

A History of Violence: Dushanbe's reputation had preceded it. During and since the February, 1990 demonstrations by local Moslems, Jews had been the particular targets for violent attacks motivated by anti-Semitism. CN's files contained more documented cases of anti-Semitic violence from Dushanbe than from any other city in the Caucasus or Central Asia.

Countless Jews in Dushanbe had been the victims of physical attacks by Moslems who demanded that they leave Tadzhikistan. Typical epithets included: "Go to Israel; you damned Jewish dog." "Get out or we'll burn down your house and kill your entire family." "Jews go back to Israel!" "We'll clean all Jews out of the city." "Sooner or later we will kill all Jews."

Jewish stores were burned and looted. Jews were forced out of business or were required to pay extortionate sums to Tadzhiks in order to remain open. "Evrei von" [Jews get out] was scrawled on the outer walls of Jewish homes.

Islam Militant: "There is no future for Jews here," a Jewish leader told us in Dushanbe. After seeing the physical evidence of the re-birth of Islam and hearing testimony of its impact on the Jewish community, we could not but agree.

The spiritual and temporal power of Islam in Dushanbe is growing rapidly. Mosques abound, the muezzin's call to prayer is answered by spiralling thousands. Men press their heads against the ground in the city's central square and pray during political demonstrations. Young women wear traditional clothing formerly seen only on their elders.

While some may applaud this growth of religious sensitivity in a previously atheistic republic, most would agree that this should not occur at the expense of other religions and their adherents. Unfortunately, that is what is happening in Dushanbe. A minor but practical example is that all of the few building materials to be found in the city are being funneled to the construction of a madrasa, with the result that construction of the community's new Jewish school is at a halt.

We were taken to Dushanbe's madrasa ("It is larger than Samarkand's Registan") because there were things there that the Jewish leaders wanted us to see. They pointed to the cupola atop the main building in the complex. Had tradition been followed, it would have been painted blue. But this cupola deliberately had been painted in the brilliant green hue of militant Islam. Its purpose, Jewish leaders said, "is to signify followers of the green banner of Islam; that is, to affirm Islam's might and irrepressible offensive."

The role of the Islamic clergy during the recent political unrest was recognized throughout Dushanbe. Large numbers of the men who had been encamped in the main square were believers from the countryside who had been offered by their mullahs to come to Dushanbe in order to participate in the demonstrations.

The urban Moslem religious leaders also had played their part. While at the madrasa, we were shown the hundreds of tents in the courtyard of the main building of the complex. These were the very tents that had been used by the demonstrators who had lived in the town square weeks before, proof that whatever their public political leadership, the real force behind the city-wide demonstrations had been the Islamic religious establishment.

Coercion on the Jewish Community: As Islam's power increases, the situation of the Jewish community is becoming progresssively more precarious. During the recent demonstrations, Moslem leaders called the president of the Jewish congregation to demand that the Jews come to the town square to participate in the demonstrations and publicly to pronounce their support of the Moslem cause. This they declined to do, preferring instead to walk a dangerous path of neutrality which, ultimately, is a no-win situation for them.

Before we left Dushanbe, two community leaders gave us an unsigned letter written on behalf of the city's Jews. Moments before we boarded the plane to Moscow, one turned to the other and asked, "What more have we got to lose?" With a combination of defiance and resignation, both men signed the letter.

In their appeal, these Jewish leaders discussed the impact of the rebirth of Islam on their community: "Amidst the background of Islam, anti-Semitism has quickly and easily gained force. One need only explain the overt threat and coercion on the part of the clergy toward the Rabbi, demanding active participation on the part of the Jews in a meeting in Dushanbe in October, 1991, which was convened by the Islamic clergy in support of the democrats in the coup. One of the meeting's participants, a represenative of the clergy, even openly announced a struggle with the Communists and the Jews, having been convinced that Communism is a Jewish doctrine and that all Jews are as guilty as the Communists."

"There is no active defense against the offensive of the Islamic fundamentalists, who are active opponents of the Jewish religion," the two leaders wrote. This, and their subsequent characterization of Islam as "hostile to Judaism," is accurate. According to the Koran, Jews have been "consigned to humiliation and wretchedness; they brought the wrath of God upon themselves, and this because they used to deny God's signs and kill His prophets unjustly and because they disobeyed and were transgressors." [Sura II, verse 61] Indeed, the Moslem scholar al-Jahiz has noted that although Christianity, with its Trinity, was theologically more offensive to Moslems than Judaism, Moslems still despised Jews far more than they did Christians. [see S. D. Gotein, Jews and Arabs]

To Dushanbe's Jewish leaders, "all the indicated arguments of the hostility on the part of Islam and its representatives toward Jews have convinced [us] of the danger to peaceful coexistence with Jews under an Islamic regime." For these reasons, their greatest fear is the very real possibility of "the creation of an Islamic republic with threatening consequences in general and particularly for Jews."

The leaders of this bealeaguered Jewish community described themselves and their people as "anxious Jews emerging from the circumstances motivated by fear of the fate of the establishment of Islam in Tadzhikistan that lies before us" and begged for help in emigrating as quickly as possible.

JEWISH LIFE IN OUTLYING TOWNS

The special danger posed to Jews who live outside of Central Asia's major cities is based upon several factors. The Islamic clergy has a strong hold upon Moslems in the countryside. This, plus inherent rural fundamentalism, exacerbates the traditional Moslem theologic and historic hostility to Jews. Additionally, Jews who live in outlying towns, especially those in which most members of the community already have emigrated, are far more vulnerable to anti-Semitic attacks because they are so isolated.

People from outlying towns had been notified that we would be in Central Asia and came to see us in the cities that we visited. Living in remote areas, among some of Central Asia's most vicious anti-Semites, these Jews did not have the luxury of worrying about the possibility of future anti-Semitic violence in their towns. Too many already had experienced it first-hand. Andizhan's Jews, for example, needed only to remember the events of May, 1990, during which dozens of Jewish homes had been set afire and numerous people had been injured by rioting Uzbeks. Their night of horror had been publicized in the West. What was happening to Jews in other outlying towns was less well-known.

Jews from these towns said that they were afraid to attend synagogue because so many congregants had been attacked on their way to or from services. Some reported that Moslems already were demanding that they "either convert to Islam or get out of our land." Others said that Jewish women had been told that unless they wore Moslem clothing and veils, they would be disfigured.

"I am very afraid of the increasing power of the Moslem fundamentalists in our area," said one small-town Jew. "If they come to power, not one Jew will remain alive here."

A delegation from one outlying town recounted the details of four recent murders of Jews, all under circumstances that clearly were anti-Semitic. A young man who had been threatened and insulted many times because he was Jewish was stabbed to death by local nationals, who threw his body near his home. A Jewish boy died from injuries inflicted by Moslems who purposely ran him down with their car. Two elderly Jewish sisters were tortured and murdered in their home by Moslems who have continued to threaten the Jewish community. "We will kill all Jews," they are saying. "If you want to live, you should leave, the sooner the better. If you don't, we will set fire to your houses." They have followed through on these threats by throwing Molotov cocktails through the windows of Jewish homes.

Only three months before, a member of this community had taken his life because he no longer could bear being persecuted because he was Jewish. A relative told us that he had left a note in which he had written, "I am committing suicide because I cannot stand living among people who will not let me live." Was he not yet another victim?

Many Jews who lived outside of the major cities already have fled to Israel. We were told of others who wanted to emigrate, but were too terrified even to come to see us. In some towns, only a few Jews remained. Shakhrisabz (Uzbekistan), for example, reportedly has twelve Jewish families.

Among those who were left behind in outlying towns were many who have relatives in the United States and who are waiting to be invited for interviews at the US embassy. We begged those whom we met to give us something in writing describing what their lives were like, hoping we might use their letters to convince American officials to expedite their emigration. The people from one outlying town categorically refused.

"They would kill us if they found out," a man said.

I pressed the members of this delegation to write a letter, but they were too afraid. I promised not to publish it, but only to show it to American officials. I said that they did not have to sign their names, but still they declined to write anything. When I repeated that they did not have to sign their names, then swore on the Torah that I never would reveal to anyone who they were, they finally agreed to give me a letter.

Their letter related a piteous tale of "a carefully hidden oppression of Jews, both morally and physically." They write of a demonstration that had taken place on September 27th, at which some 20,000 Moslems heard their religious leaders call for "Uzbekistan for Uzbeks * * * Jews to Jerusalem." They told of Jewish lives filled with demands from increasingly fundamentalist Moslem neighbors that they "vacate Uzbek territory" or face "pogroms and physical destruction."

In their world, Jewish businessmen are at the mercy of Uzbeks, backed by hooligans, thugs, and blackmailers who make exorbitant demands and who "threatened and even physically pressured (there were beatings and exterminations of a few people, six boot shops were burned and two watch shops were robbed) and forced all the Jewish artisans to leave their work." High level Jewish administrators have been pushed by "physical and moral pressure" out of their jobs, "so that those places may be occupied by Uzbek nationalists and Islamic believers." Prayer services are conducted in a private home because Uzbek officials will not return the synagogue (now used as a radio station) to the Jewish community, though four mosques have been returned to Moslems and many new ones are being built.

"In recent times," they wrote, "daily occurrences of insults and humiliation of Jews by Uzbek nationalists have become more common. In the streets of the town, on public transport, in the stores, markets, and so forth, as a result of all this, Jews live in fear and are forced more and more often to stay at home. Therefore, they are afraid for their lives and the lives of their friends, relatives, and children."

Theirs were the faces of men who dwelt among people who hate them. Never before had we seen grown men so frightened.

The secular leaders in Uzbekistan and Tadzhikistan, be they nominally Communist or not, are engaged in a battle for supremacy with the Islamic political/religious establishment. Everyone agrees that eventually, these republics will become independent Moslem nations. Whether they will be moderate or fundamentalist matters little to the indigenous Jewish population. An Islamic victory means almost certain disaster for the Jews.

In each city we visited, the leaders and teachers of the Jewish communities were preparing to emigrate and were urging their constituents to do the same. People repeatedly said to us, "With God's help and yours, we will get out of here." In no more poignant way could they have expressed their bleak assessment of the future of Jews in the Central Asian republics.•

APPOINTMENT OF SPECIAL COUNSEL BY THE PRESIDENT PRO TEMPORE

• Mr. BYRD. Mr. President, pursuant to the authority granted to me by Senate Resolution 202, agreed to on October 24, 1991, upon the joint recommendation of the majority and minority leaders, I appoint, effective January 2, 1992, Mr. Peter E. Fleming, Jr., a partner in the law firm of Curtis, Mallet-Prevost, Colt & Mosle with offices in New York and Washington, DC, as the Special Independent Counsel.

Mr. Fleming will conduct an investigation of any unauthorized disclosures of nonpublic confidential information from Senate documents in connection with the consideration by the Committee on the Judiciary of the nomination of Clarence Thomas to be an Associate Justice of the Supreme Court, and by the Select Committee on Ethics of matters related to Charles Keating.•

OUTSTANDING EDUCATOR

• Mr. D'AMATO. Mr. President, I pay tribute to Harriet Zimmerman who has made outstanding contributions to the lives of the Elmont Public School System in Elmont, NY.

Ms. Harriet Zimmerman has been a handicapped teacher for 23 years. She is a role model for handicapped children and a leader whose guidance has played a significant role in the enlightenment of her students.

She has devoted her life to cultivating the creativity and curiosity of children, and has held firmly to her conviction that school and world events are, of necessity, intertwined. In this regard, Ms. Zimmerman was instrumental in the exchange of massive amounts of correspondence between her third graders and American servicemen in the Persian Gulf during Operation Desert Storm. They wrote to the sailors of the U.S.S. *Midway*, the only carrier not to lose a single man or plane.

Ms. Zimmerman has received a citation from the town of Hempstead and has been on the television program "Good Morning America." It is time for us to pay tribute to a woman whose contributions and selfless giving have made a difference to her community and her country. Ms. Zimmerman, I salute you.•

RULES OF PROCEDURE FOR OFFICE OF TEMPORARY SPECIAL INDEPENDENT COUNSEL

• Mr. FORD. Mr. President, pursuant to section 6(c) of Senate Resolution 202, 102d Congress I submit for the RECORD the rules of procedure for the Office of Temporary Special Independent Counsel, which have been adopted, in accordance with the resolution, by me and by the Senator from Alaska [Mr.

STEVENS], acting jointly, in our capacities as chairman and ranking minority member of the Committee on Rules and Administration.

The rules follow:

RULES OF PROCEDURE OF THE U.S. SENATE OFFICE OF TEMPORARY SPECIAL INDEPENDENT COUNSEL (ESTABLISHED PURSUANT TO SENATE RESOLUTION 202, 102D CONGRESS)

RULE 1. SUBPOENAS

1.1 Request. The special independent counsel shall submit to the President pro tempore written requests for the authorization of subpoenas for the attendance at deposition of any witness, or for the production of any correspondence, books, papers, documents, or other records, that may be relevant to the investigation authorized by Senate Resolution 202, 102d Congress.

1.2 Authorization. The President pro tempore shall have the power to authorize, in writing or by telephone, the issuance of subpoenas upon the written request of the special independent counsel. Whenever the President pro tempore exercises the power to authorize subpoenas by telephone, the authorization shall be contemporaneously memorialized in writing.

1.3 Issuance. Upon receipt of the written authorization, or written memorialization of the telephone authorization, for the issuance of a subpoena by the President pro tempore, the Secretary of the Senate shall issue the subpoena that is the subject of the authorization. The Secretary shall keep a log, and a file, of all subpoenas that have been issued.

1.4 Service. Subpoenas may be served by any person designated by the Secretary of the Senate. All subpoenas shall be accompanied by a copy of Senate Resolution 202, 102d Congress, and these rules. Criminal or civil enforcement proceedings for a witness's failure to appear at a deposition, to testify, or to produce records shall not be initiated unless a duly authorized subpoena was served upon the witness.

RULE 2. DEPOSITIONS

2.1 Designation. The special independent counsel shall designate in writing the counsel, whether one or more in number, who will examine witnesses at each deposition. For purposes of Rule 2.3, the term "special independent counsel" includes the special independent counsel and any counsel designated by the special independent counsel to examine witnesses pursuant to this rule.

2.2 Attendance.

(a) General Rule. Unless otherwise specified, the deposition shall be in private.

(b) Counsel.

(1) Presence. Subject to the provisions of Rule 2.2(b)(2)-(4), a witness's counsel shall be permitted to be present during the witness's testimony at any deposition to advise the witness of his or her rights.

(2) Conflicts. The chairman and ranking minority member of the Committee on Rules and Administration, acting jointly, or the full Committee if the chairman and ranking minority member refer the matter to it, may rule that representation of a witness who is an officer or employee of the government by counsel from the government, or of a witness who is an officer or employee of a corporation or association by counsel from the corporation or association, or of a witness by counsel representing other witnesses, creates a conflict of interest, and that the witness shall be represented by counsel not from the government, corporation, or association or not representing other witnesses.

(3) Inability to Obtain Counsel. A witness who is unable for indigence or other reason to obtain counsel may inform the Committee on Rules and Administration at least 48 hours prior to the scheduled return on the subpoena, and the Committee will endeavor to obtain volunteer counsel for the witness. Failure to obtain counsel will not excuse the witness from complying with the subpoena.

(4) Conduct. Counsel shall behave in an ethical and professional manner. Failure to do so shall, upon a finding to that effect by the chairman and ranking minority member of the Committee on Rules and Administration, acting jointly, or the full Committee if the chairman and ranking minority member refer the matter to it, subject counsel to disciplinary action, which may include warning, censure, or removal.

2.3 Procedures.

(a) Examination. Witnesses at depositions shall be examined upon oath administered by an individual authorized by federal or local law to administer oaths. Questions shall be propounded orally by special independent counsel.

(b) Objections. Objections by a witness as to the form of questions shall be noted for the record. If a witness objects to a question and refuses to testify, or objects to the production of records, on the basis of privilege or other ground, special independent counsel may proceed with the deposition, or may, at that time or at a subsequent time, seek a ruling by telephone or otherwise on the objection. The ruling may be sought from the chairman and ranking minority member of the Committee on Rules and Administration. The chairman and ranking minority member, acting jointly, may rule on the objection, and order the witness to answer the question, or to produce the records, if the objection is overruled, or may refer the matter to the full Committee for a ruling. Procedures leading to civil or criminal enforcement shall not be initiated unless the witness has refused to testify, or to produce records, after having been ordered to comply.

2.4 Transcripts.

An accurate electronic or stenographic record shall be kept of all testimony at depositions. If a transcript is prepared, the witness shall be furnished with a copy, or access to a copy, of the transcript for review. Upon inspecting the transcript, a witness may submit, in writing within five days, corrections to the transcript, with a statement of the reasons for the corrections, to correct errors of transcription, grammatical errors, or errors of fact. Within the same time limit, the witness shall, if a copy was provided, return the transcript, and the witness shall sign the transcript, including any changes submitted. Any corrections submitted by the witness shall be appended to the transcript. If the witness fails to sign a transcript, or to return a signed copy, the date that access to a copy, or a copy, was provided, and the failure to sign or to return it, shall be noted on the transcript. The individual who made the electronic or stenographic record shall certify on the transcript that the witness was duly sworn in his or her presence, the transcriber shall certify that the transcript is a true record of the testimony, and the transcript shall then be filed with the office of special independent counsel. The special independent counsel may stipulate with the witness to changes in this procedure. Objections to errors in this procedure that might be cured if promptly presented are waived unless timely objection is made.

RULE 3. RETURN OF DOCUMENTARY SUBPOENAS

Return on subpoenas for the production of correspondence, books, papers, documents, or other records, without testimony, may be required, at other than a deposition, at the special independent counsel's offices or other place specified in the subpoena. Rulings on objections to the production of records shall be obtained in accordance with Rule 2.3(b).

RULE 4. CONFIDENTIALITY

4.1 Security. The office of special independent counsel shall operate under strict security precautions in order to maintain the secrecy of all office records.

4.2 Nondisclosure. Except as necessary for the performance of his or her duties in connection withthe investigation authorized by Senate Resolution 202, 102d Congress, and as authorized by that resolution and these rules, no personnel of the office of special independent counsel, as defined in Rule 4.5, shall disclose, in whole or in part or by way of summary, to any person, for any purpose or, unless authorized by the Senate, in connection with any proceeding, judicial or otherwise, any records or other confidential information of the office. As used in this rule, the term "records or other confidential information of the office" includes, but is not limited to, all testimony taken, including the names of witnesses testifying, and all exhibits or other materials presented or received, in depositions or otherwise, and also includes any proposed or otherwise nonpublic conclusions, views, memoranda, or report of the office of special independent counsel.

4.3 Nondisclosure Agreement. All personnel of the office of special independent counsel, as defined in Rule 4.5, shall agree in writing, as a condition of employment or agreement for the provision of services, to abide by Rule 4.2.

4.4 Violations. Any of the personnel of the office, as defined by Rule 4.5, who fails to conform to the provisions of Rule 4.2 shall be subject to disciplinary sanction, including termination of employment or agreement for the provision of services.

4.5 Definition of Office Personnel. For purposes of Rule 4, the term "personnel of the office of special independent counsel" includes the special independent counsel, any persons engaged to perform, or who perform, services on behalf of the office, the employees of the office, any detailees and consultants to the office, and any employees of the Senate who assist the office or are given access to any records of the office for reasons related to their official duties.

RULE 5. EFFECTIVENESS, PUBLICATION, AND AMENDMENT OF RULES

These rules shall be effective immediately upon adoption and shall be published in the Congressional Record. These rules may be modified, amended, or repealed by the chairman and ranking minority member of the Committee on Rules and Administration, acting jointly. Any changes in these rules shall be effective immediately upon adoption and shall be published in the Congressional Record.•

THE REPORT OF THE SELECT COMMITTEE ON ETHICS ON THE INVESTIGATION OF SENATOR ALAN CRANSTON

• Mr. RUDMAN. Mr. President, on November 20, 1991, the Senate Select Committee on Ethics presented its report on the investigation of Senator ALAN CRANSTON to the Senate. Following the committee's report, Senator CRANSTON responded to the committee's reprimand of his actions and office practices. The defenses in that response, as well as in the documents he inserted into the CONGRESSIONAL RECORD, are convoluted and misleading.

A basic review of the evidence in the committee's report and hearing record demonstrates that Senator CRANSTON was most deserving of at least a committee reprimand. The resolution adopted by the committee states that Senator CRANSTON's conduct was "improper and repugnant" and cites, as grounds for not recommending a more severe sanction, extenuating circumstances unrelated to the conduct in question.

It should be noted that the committee not only reprimanded Senator CRANSTON for his actions on behalf of Mr. Charles Keating and Lincoln Savings and Loan Association, but also for "office practices [that] further evidenced an impermissible pattern of conduct in which fundraising and official activities were substantially linked." However, I will confine these remarks to the Lincoln matter because Senator CRANSTON's defense on this is especially disturbing. He not only denies much of the conduct for which he was charged, but inaccurately portrays the nature of the charge.

Before reviewing the major defenses raised by Senator CRANSTON, I want to emphasize that the committee took every opportunity to ensure that Senator CRANSTON's due process rights were observed and his arguments given a full hearing during the various stages of the proceedings. Senator CRANSTON had a full opportunity to present his position personally in a deposition prior to the hearings, an appearance before the committee in closed session, an opening statement at the hearing, an affidavit at the close of the hearings, and several prehearing and posthearing written submissions. While he waived his right to appear for questioning at the hearings, he was represented throughout those hearings by counsel who exercised Senator CRANSTON's right to cross-examine and confront witnesses and documentary evidence.

The committee took its duties and obligation seriously and strived mightily to issue a fair decision. Senator CRANSTON's defenses were considered and given appropriate weight. His insinuation before the Senate that public pressure on committee members affected the result is ludicrous.

Turning to Senator CRANSTON's defenses, Senator CRANSTON asserts that the committee's finding of improper conduct was based on nothing more than a finding of proximity in time between legitimate contributions accepted and legitimate action taken. This assertion is a serious, and I believe deliberate, misstatement of the committee's charge and conclusions.

The committee, in its report, found that "Based on the totality of the circumstances, Senator CRANSTON engaged in an impermissible pattern of conduct in which fundraising and official actions were substantially linked." The key concept in this statement is the finding of a pattern of linkage that was in fact more than the simple concidental timing between Senator CRANSTON's actions and the contributions. The nature of these dealings was more disturbing than the timing of the events.

In my floor statement, I outlined the facts of the four major series of events that formed the basis for the committee's finding of improper linkage. I will not repeat the chronology here since they are set forth in great detail in the report, as well as my statement of November 20. I will, however, make some further comments on the committee's evaluation of the four incidents and demonstrate that Senator CRANSTON impermissibly linked contributions and official action.

With respect to each of those four series of events, there is at least one meeting or telephone call with Mr. Keating in which Senator CRANSTON both discussed Lincoln's problems with the Federal Home Loan Bank Board and solicited funds for the voter registration groups. The two separate subjects were discussed at the same time in a meeting between Senator CRANSTON and Mr. Keating on September 24, 1987, in a telephone call on November 6, 1987, and at a dinner on January 8, 1988. They were both discussed in a letter written by Senator CRANSTON to Mr. Keating on October 6, 1987, and linked by inference by Senator CRANSTON at a dinner on December 14, 1988, when the Senator greeted Mr. Keating with the comment, "ah, the mutual aid society."

The evidence also indicates that the two subjects were discussed within the confines of one meeting, or at least within the space of hours or a couple of days, when Senator CRANSTON visited the headquarters of American Continental Corp., Lincoln's parent company, on February 9 and 10, 1988, during the spring of 1989 when the bank board was proceeding to the final resolution of the Lincoln case, and during January or February of 1987 when Lincoln first sought assistance from Senator CRANSTON with respect to its dealings with the bank board. In addition, Senator CRANSTON's chief fundraiser, Ms. Joy Jacobson, linked Lincoln's problems and solicitation in two separate memos to Senator CRANSTON, one written on January 2, 1987, and one on September 6, 1987. Finally, Mr. Grogan, Lincoln's chief lobbyist, linked the subjects around March 1, 1989, when he informed Ms. Jacobson that Mr. Keating was willing to make another donation of $100,000, but could not do so while the sale of Lincoln was pending. Although there is no evidence that Senator CRANSTON was informed of this remark, he was aware that Lincoln had been solicited for an additional contribution at that time.

The Senator from California would have the Senate believe that his official actions and solicitation were only linked in time. As all my colleagues know, if the same two unrelated subjects repeatedly arise every time two individuals interact, somebody is trying to send a message that the two matters are linked. Whether Senator CRANSTON was sending the message himself, however inadvertently, or accepting a message Mr. Keating was sending and then talking official action, the result is improper conduct.

Moreover, in evaluating the totality of circumstances facing the committee, it is worth looking at both the nature of the official actions and the fundraising. First, let us look at what Senator CRANSTON did on behalf of Lincoln. The record shows that, in a span of 2 years and 2 months, Senator CRANSTON personally took action on behalf of Lincoln at least 13 times, not including the April 1987 meetings. On February 16, 1988, he discussed with bank board Chairman Wall the details of a proposed agreement between Lincoln and the agency. In the spring of 1989, he called every bank board member about the proposed sale of Lincoln, some more than once, calling one at his unlisted home number in the evening. He discussed details of the proposed sale, and told at least one bank board member that Lincoln was not being dealt with fairly by the board's Office of Regulatory Affairs. He also spoke with a bank board staff member about the sale and a regulator at another Federal agency. These contacts cannot be fairly characterized as routine status calls.

In early May 1988, in response to a call from Mr. Grogan, Senator CRANSTON's aide, Ms. Carolyn Jordan, told two high-ranking board officials that Senator CRANSTON was concerned about the board's decision to take supervisory approach and may have threatened to hold hearings. Whatever the precise wording of her message, it was sufficiently strong that the bank board officials suggested to her that Senator CRANSTON should wait until after they held discussions with Lincoln before taking any action. Ms. Jordan wrote a detailed memo to Senator CRANSTON on May 6 describing the call. Senator CRANSTON met with Chairman Wall on May 16, at which time he raised the status of the Lincoln matter. On may 20, the bank board entered into an agreement with Lincoln that most people believe favored Lincoln. The message was apparently delivered.

The committee concluded that Senator CRANSTON's contracts with the bank board on behalf of Lincoln were not, in and of themselves, improper. Nonetheless, the degree of intervention was extraordinary and far surpassed what any other Member of Congress did for Lincoln.

Senator CRANSTON states in his defense that there was sufficient basis for an inquiry into the Lincoln matter. The committee concluded that he had a reasonable basis to be concerned about the regulation of Lincoln in April 1987, based on the Atchison letter and Greenspan report. However, Senator CRANSTON had no similar justification for his intervention in 1988 and 1989 and, in fact, had evidence that should have raised doubts about Mr. Keating and Lincoln. He relies only on the outdated 1987 justification and the fact that Lincoln employed a number of Californians.

Finally, let us look at the contributions. As with the intervention on behalf of Lincoln, the committee concluded that the contributions were not, in and of themselves, improper. I will not, today, go into the $49,000 contributed to the Senator's reelection and Presidential campaigns, the $85,000 contributed to the California Democratic Party—all of which was given before 1987—or the $10,000 to Senator CRANSTON'S political action committee. I will focus only on the $100,000 solicited in February 1987 and contributed on March 3, the $250,000 solicited on September 24, 1987 and contributed on November 6, the $500,000 contributed on February 9 or 10, 1988, and the $100,000 offered but never contributed in March 1989.

These contributions were each solicited and contributed at a time when Mr. Keating was seeking assistance from Senator CRANSTON. During the entire 2-year-and-2-month period, Mr. Keating never sought action from Mr. CRANSTON when contributions were not solicited, promised, or contributed. Conversely, contributions were never sought by Senator CRANSTON except at times when Mr. Keating was seeking assistance.

While the issue before the committee was the linkage between contributions and actions, and not the nature of the contributions, the purpose and source of the contribution merit examinaiton. Mr. Keating was a conservative Republican with a history of supporting both conservative and philanthropic causes. The donations in this case did not fit in either of those categories. These contributions were solicited for and made to voter registration groups closely affiliated with Senator CRANSTON. The clearly intended use of these contributions, as well as the $85,000 contributed in 1986 to the California Democratic Party, was to increase the voter turnout among individuals likely to vote for the Democratic candidates. To what did Senator CRANSTON attribute his successful solicitation of these out-of-character donations, especially given that the solicitations were occurring precisely when Mr. Keating was requesting assistance with the Federal Home Loan Bank Board?

When one examines the totality of the circumstances—the repeated instances where contributions and official actions came up in the same conversation, the two times they were linked in memoranda, the nature of the intervention sought and secured, the absence of inquiry into the merits of the intervention, the amount and nature of the contributions, and the fact contributions and actions are always linked in time—the only reasonable conclusion is that there was a pattern of conduct in which contributions and official actions were substantially linked in time and other circumstance.

Senator CRANSTON'S characterization of the committee conclusion as just a finding of linkage in time is an effort to create the proverbial strawman, which he then tries to knock down. Unfortunately, he missed the target. His statement before the Senate that there has been "no charge that there was any other connection between the donations and actions" is inaccurate.

The Ethics Committee does not consider it improper to make inquires of agencies on behalf of individuals and to intervene on behalf of individuals when the facts merit it. Nor is the solicitation of contributions wrong under current law and practice. It is when a Senator links official actions with contributions that the committee will find improper conduct.

In this case, the fact that Senator CRANSTON'S actions were often close in proximal time to the request for or receipt of large contributions was disturbing, not solely controlling. The larger, more encompassing concern was that Senator CRANSTON, time and again, often in the same meeting, intermingled constituent matters and fundraising issues in his dealings with a constituent, and that this pattern of activity continued for a significant period of time.

Senator CRANSTON, in arguing that he was only guilty of the appearance of improper conduct and not any actual improper conduct, points to the committee's conclusion that he did not violate any law and that there was no quid pro quo; that he did not act in exchange for contributions.

Senator CRANSTON further defended himself by claiming that the committee created a new principle of improper conduct based on linkage of action and contribution, and then applied this principle ex post facto to his case. I totally reject this defense.

The committee's finding that Senator CRANSTON violated no law does not equate to a finding that he was not motivated by or did not link contributions, nor does it preclude the possibility of improper conduct. Illegality is not the same as impropriety.

There are two criminal statutes that are relevant to this matter: The bribery statute and the illegal gratuity statute. If Senator CRANSTON had acted in exchange for the contributions, that would constitute a bribe and would merit expulsion. Proving bribery requires evidence of corrupt intent, and the committee does not have evidence proving Senator CRANSTON had such.

The illegal gratuity statute, by contrast, requires proof that a Senator acted because of a personal benefit. While it is not necessary to establish corrupt intent, it is a necessary element of the crime that there has been a personal benefit. In this case, there was no personal benefit.

However, there are standards governing this institution which are not limited to the letter of the law or Senate rule. While unwritten, these are sufficiency well established in resolutions, relevant statutes, Senate disciplinary cases, and norms of the Senate, including actual conduct of individual Senators, to provide notice to Senators of their ethical obligations in conducting their activities. As Senator Stennis noted on the floor of the Senate in 1968, the Senate has recognized that the existence of rules by this body did not "replace that great body of unwritten but generally accepted standards that will, of course, continue in effect."

The Senate has repeatedly disciplined its Members for conduct that was improper, regardless of whether it violated any specific law or Senate rule or regulation. In this case, the committee spelled out the relevant standards of conduct at some length in its report on the investigation of Senator CRANSTON. To hold that standards governing improper conduct must be in writing with all the "t's" crossed and the "i's" dotted ignores the practice of the past and the necessity to continue that practice in the future to protect the integrity of the Senate.

Senator CRANSTON also asserts that the committee's action sanctions him for constituent services and fundraising practices that are the same as many other Senators. This is an especially troubling defense because, by citing the unspecified conduct of unnamed Senators, it smears every Member of this body and the institution as a whole.

Ironically, while pernicious, this defense is also difficult to take seriously inasmuch as the Senator misstated the standard of conduct against which he was judged by the committee and ignores the relevant facts. In essence, Senator CRANSTON concludes that the committee only found coincidental linkage in time between his fundraising from and official actions on behalf of Lincoln, and concedes only that he created an appearance of impropriety. It follows, therefore, that the similar practices he asserts that the other anonymous Senators engaged in also involve only linkage in time. The reality is that the committee's findings and conclusions are not limited to coincidental linkage in time, but reach to a pattern of conduct over an extended period of time which included actual linkage by the Senator himself.

Neither the Committee on Ethics, nor I personally, are aware of any situation where another Senator has engaged in the pattern of fundraising and official action that the committee found in this case. If the Senator has such evidence, he should bring it to the attention of the committee.

Senator CRANSTON's unique actions merited the committee reprimand. I recognize the Senator's fine service to this country and that he has expressed remorse for his conduct. But after listening to his presentation on November 20, I regretfully must say that the only remorse I discern in Senator CRANSTON is remorse that he has been held publicly accountable for his actions.•

CRANSTON RESPONSE TO RUDMAN STATEMENT

• Mr. CRANSTON. Mr. President, I ask that a statement released by Prof. Alan M. Dershowitz regarding Senator RUDMAN's additional statement be printed in the RECORD, along with the text of the materials I submitted to the Senate on November 20, which includes my written submission in response to the committee's February 27, 1991 resolution, dated April 22, 1991, and my written response to the Ethics Committee's November 20, 1991, resolution for committee action, dated November 20, 1991.

The material follows:

RESPONSE TO SENATOR RUDMAN

Professor Alan M. Dershowitz of Harvard University issued the following statement in response to an "additional statement" by Senator Warren Rudman:

"Senator Alan Cranston has responded fully and with documentary support to all the allegations made previously by the Senate Select Committee on Ethics and repeated personally by Senator Rudman. Senator Cranston's responses and his supporting documents appear in the Congressional Record of Nov. 20.

"I wish to add only the following brief response. It is important to reiterate that the entire Committee explicitly found that all the contributions at issue were, in and of themselves, legal and proper. The Committee also explicitly found that the constituent services performed by Senator Cranston were legal and proper, and violated no law or Senate rule in and of themselves. Even more significantly the entire Committee found that Senator Cranston received no personal benefit, and found no evidence that his actions were caused by any contributions. In other words, there was no quid pro quo.

"I hope that these findings will now put this matter to rest and that Senator Cranston can now get back to completing his distinguished 24 years of service in the U.S. Senate."

[U.S. Senate Select Committee on Ethics]

WRITTEN SUBMISSION IN RESPONSE TO THE COMMITTEE'S FEBRUARY 27, 1991, RESOLUTION

(Senator Alan Cranston, U.S. Senate,
Washington, DC, April 22, 1991)

I—INTRODUCTION AND SUMMARY OF MY WRITTEN SUBMISSION

This submission constitutes my response to the Statement and Resolution issued by the Select Committee on Ethics on February 27, 1991.

I have prepared this submission personally because, as you know, I cannot afford to continue to employ legal counsel.[1] Treatment of my prostate cancer made it impossible for me to defend myself during the public sessions of the Committee last November, December and January, and to communicate with my attorney in the way that the other four Senators who were under investigation could. I am pleased to have this opportunity to clear up certain false impressions that the hearings created and to point out inaccuracies, omissions and inappropriate inferences in the February 27, 1991 Committee documents.[2]

It is my understanding that the substantive issue is whether there is "clear and convincing evidence" of a causal connection between my official actions and donations—most of them charitable—that I collected for others.

I will show that there is *no direct evidence* of any such casual link. I will cite clear and convincing evidence that there were other causes—very legitimate causes—for my official actions.

The Resolution *infers* a casual connection from the proximity in time between the charitable donations and the official actions. Proximity in time is *not* clear and convincing evidence that the charitable donations caused my official actions. The Resolution's *inference* of a casual connection cannot survive dispassionate, reasoned analysis. It cannot be a substitute for clear and convincing evidence. The inference is particularly inappropriate and unfair given that my conduct was *not different in kind*, as I will show, from that of other Senators who have been under inquiry. The Resolution did not draw such adverse inferences against them.

In retrospect, I can see that the proximity in time between the charitable donations and the official actions could lead to an appearance of impropriety where no impropriety existed. I wish I had foreseen this development—I have always endeavored to avoid appearances or actions that could reflect adversely upon the Senate or myself.[3]

I acknowledge and I accept the consequences of an appearance of impropriety due to proximity of time.

However, since timing and appearances did not warrant institutional action in the cases of the other Senators, it should not in my case.

The Senate has never set standards *of any kind* governing the timing of contributions of any kind in relationship to legitimate constituent services. I fully recognize that if a Senator engages in conduct that is inimical to generally accepted and understood standards and values, the Senate has an obligation to find that Senator guilty of improper behavior, although his conduct does not violate a specific law or Senate Rule. There is no evidence that I engaged in any improper conduct.

Without clear and convincing evidence of actual impropriety, there is no justification for subjecting me to disciplinary action. There is *no precedent* for the Senate disciplining a Senator for actions such as mine. The Senate has *never* determined that it is an ethics violation for a Senator to engage in legitimate constituent service on behalf of a contributor because it was—or might appear to be—close in time to a lawful donation to the Senator's campaign or to a charity the Senator supports. To do so now would be contrary to the principles of the Senate and a violation of traditional concepts of fair play by proceeding in an *ex post facto* fashion.

In every case of financial impropriety considered by the Senate through its history, the alleged misconduct was the use of public office for a Senator's *private* profit. Neither any member of my family nor I received any compensation or personally benefited in any way from these charitable contributions. I had no financial interest in Lincoln Savings, its parent, or affiliates. I received no income from it.

I will discuss the Special Counsel's proposal to extend to Senators the appearance standard in the Code of Ethics for Government Service that applies to federal judges and civil servants. The Senate has never adopted that code as an ethical standard applicable to Senators. There is no reference to it in any of the over 400 published Interpretative Rulings issued by the Senate Committee on Ethics. The Special Counsel overlooks fundamental differences between federal judges and civil servants. Federal judges and civil servants do not have to raise funds to stay in office. A judge is not expected to serve the interest of the parties before him. A Senator is expected to *represent* this constituents, and to be—and to appear to be—responsive to their legitimate needs. Senators should not be a risk of discipline for violation of an appearance standard that would prevent us from intervening on behalf of constituents, contributors and non-contributors alike, when intervention is appropriate.

I want to clarify a crucial point that apparently was not made sufficiently clear during the hearings. I refer to my charitable fund-raising activities intended to increase voter participation. More than 10 years ago, the facts about the deplorable decline in voter participation in the United States came to my attention. I was appalled. It struck me that the very essence of our democracy was at risk as fewer and fewer Americans—particularly our youth—participated in the democratic process.

I discovered that one of the reasons for the voter fall-off was our antiquated and frequently onerous registration laws, which tend to discourage voting—especially among some of our minority populations. I was determined to do something about it.

I wrote articles. I gave speeches. I introduced legislation calling for reform But until reform could take place, the only effective action I could take was to support non-partisan voter registration efforts across the country. The I.R.S. granted tax exempt status to donations for this cause. The I.R.S. regulates the donations to charitable organizations. To qualify for tax exemption, organizations must meet and continue to satisfy established criteria.

Enhancing voter participation became my personal crusade. In 1986, I directed much of my time and energy to it in addition to my Senatorial duties and my Senate reelection campaign. I increased my efforts in the 1987–1988 campaign cycle because in the 1986 election, turnout dropped so low that over 62% of the national electorate failed to vote. Both parties "lost" the election—Democrats received only 18.9% and Republicans only 17% of the eligible votes.

Volunteering my time and effort, I raised $7,610,000 for voter participation programs in 1987–88. $6,415,230—84.3% of the total—was in the form of I.R.S. approved tax-deductible charitable donations for non-partisan voter participation 501(c)(3) organizations throughout the country. Although I accepted the checks on behalf of these organizations, I

Footnotes at end of article.

had no control over how the money was to be spent. The remainder of the donations went to support efforts to raise charitable donations for I.R.S. approved nonpartisan voter participation groups.

This project required an annual operating budget of $250,000 and necessitated the establishment of America Votes (later known as USAVotes), an organization with a staff of three to five people. Two hundred sixty-four individuals, foundations, unions, associations and corporations donated to this cause. Mr. Keating was not the largest donor, nor the only donor with a pattern of multiple giving.[4]

I strongly urge the Committee to take the time to understand the differences between the charitable donations I raised from Mr. Keating to increase voter participation and the political contributions raised from Mr. Keating by the other four Senators. These charitable donations—unlike political contributions—were of no direct benefit for me. They were made after my 1986 reelection. Senate Rule 37 expressly permits Senators to engage in fund-raising for charities, and many members quite properly do so. The Committee acknowledged in its Statement that my solicitation and acceptance of charitable donations by Mr. Keating was legal and did not constitute a personal gift.

The Committee also acknowledges that political contributions are "a fact of life". Large campaign war chests are often the largest factor in winning—and keeping—a Senate seat. Mr. Keating raised and contributed more political contributions to the campaigns and P.A.C.'s of each of the other four Senators, who had direct control over these contributions, than he did to mine.

Mr. Keating was an acknowledged big giver: a big contributor in the political arena and a big donor in the charitable arena. He gave and loaned more than $44 million to Mother Teresa, Covenant house, the St. Vincent de Paul Society and anti-pornography drives. He gave and raised huge sums for political campaigns and candidates such as the $200,000 he gave to Senator Glenn's P.A.C. and $100,000 he contributed to George Bush's Team 100.

The Committee Resolution pertaining to me is in two parts: first, four "occasions" and questions related thereto about my official actions and fund-raising on behalf of charitable and related organizations; and, second, three questions concerning certain actions of Ms. Joy Jacobson, who through most of the time in question, was employed part-time by USAVotes to assist in raising charitable donations. I will examine each of these questions in detail. I will show that the Resolution is inaccurate, unfair and misleading in many of its statements with respect to these questions.

I respectfully, but urgently, request all members of the Committee to review the Resolution carefully and thoroughly in light of this submission.

When viewed fairly and impartially, the evidence regarding these charitable and related donations shows that at most there may have been some proximity of timing to official actions, and consequently perhaps bad judgment and an appearance of impropriety—but nothing more.

I will cite the evidence in the record that shows similar instances of proximity of timing between official actions and the receipt of political contributions—not charitable donations—by Senators DeConcini, Glenn and Riegle. In their cases, the Committee drew no inferences about and made no findings of any causal connections.

The Committee found that the conduct of Senators DeConcini and Riegle gave the appearance of being improper and was "attended with insensitivity and poor judgement"—but nothing more. The Committee voiced no criticism of Senator Glenn for his conduct in this respect.

There simply is no evidence establishing a difference in kind between my actions and the actions of Senators DeConcini, Glenn and Riegle—except that the money they raised was for their own political use, while the money I raised was charitable and for the use of others. It was not for my use.

Since there is no differences in kind between my actions and the actions of the others Senators, treatment of my actions should not differ in kind from treatment of their actions.

I will show that all five Senators have varying degrees of involvement concerning Lincoln Savings. In some respects, some Senators were more involved that I.

Regarding the activities of the USAVotes employee cited in the Resolution, I will show that she was not under my direct supervision. I also will show that, contrary to assertions in the Resolution, her activities were separate and distinct from my Senate office; that in at least one instance her solicitation of funds from Keating was made without my prior knowledge; that the Special Counsel drew unfair and inaccurate inferences from memoranda she wrote; that she did not repeatedly schedule and attend meetings between contributors and myself in which legislative or regulatory issues were discussed; that she did not engage in substantive discussions and never influenced, or attempted to influence, any official decision or action of my staff's or of mine; and that she did not serve as an intermediary for Messrs. Keating or Grogan but simply passed messages along occasionally when they were unable to reach me or members of my Senate staff.

I grant that some of Ms. Jacobson's activities were susceptible to creating an appearance of impropriety. Some of her memos were written carelessly, without thought to appearances. I should have realized that when I read them. But, in the press of my heavy and hectic Senate workload, I failed to do so. Some of her actions likewise could lead to false impressions. I failed to realize that at the time. I will show, however, that her testimony demonstrates that she understood very well that there must be no connection between official actions and donations, no quid pro quo. Like my own activities, her activities do not provide any evidence of a causal connection between my official actions and solicitation of donations. Certainly none of her activities can warrant that the Committee recommend institutional action against me.

I deeply regret that I failed to foresee that soliciting charitable donations close in time to official action could lead to an appearance of impropriety.

I regret that I did not constrain more closely the actions of the part-time employee of USAVotes.

I concede these errors, but these were errors in judgment, not in intent.

II—MY ANSWERS TO THE COMMITTEE'S FOUR QUESTIONS RE: POSSIBLE CAUSAL CONNECTIONS BETWEEN CHARITABLE DONATIONS AND OFFICIAL ACTIONS

Section (a)(1) of the Resolution cites four occasions when fund-raising and official actions were allegedly in "close connection". There may have been some proximity in time upon these occasions. There is no evidence of a causal connection. There is evidence to the contrary.

The following examines each occasion, quoting the question in the Resolution and then analyzing what the record shows about: first, the evidence regarding charitable and related donations; second, evidence regarding any official actions my staff or I took; and, third, evidence showing that there were indeed no cause and effect relationships between Mr. Keating's donations and my actions.

A. Paragraph (a)(1)(i)

Paragraph (a)(1)(i) states: As a result of a solicitation from Senator Cranston in early 1987, Mr. Keating, on March 3, 1987, contributed $100,000 to America Votes, a voter registration organization. This contribution was made during the period leading to Senator Cranston's participation in the April 2 and April 9 meetings with Federal Home Loan Bank Board Chairman Edwin J. Gray and the San Francisco regulators.

(i)1. *Donation:* The Resolution accurately notes that a donation was made on March 3, 1987, to America Votes. (Sp. Coun. Ex. 159). America Votes (later known as USAVotes) raised tax-deductible charitable donations for I.R.S. approved 501(c)(3) independent, non-partisan, grass roots, voter registration organizations in approximately 20 states during 1987 and 1988.

2. *Official Action:* The Resolution is inaccurate and very misleading in stating that this donation was made during the period leading to my participation in the April 2 and April 9 meetings.

The evidence is undisputed that the donation was discussed, solicited and committed on or before February 24, 1987. (Stein Affidavit, Sp. Coun. Ex., 458, para. 14); (AC, 4/30/90, p. 119). The donation check was dated March 3, 1987. (Sp. Coun. Ex. 159). The evidence shows that I knew nothing about the proposed meetings before the second half of March, and perhaps not until the last week in March. (JG, 12/15/90, p. 88); (AC, 4/30/90, p. 119). Furthermore, the preponderance of evidence shows that the meetings first were conceived after the donation was solicited and received. (Gray, 2/23/90, p. 15; 11/29/90, p. 64); (Grogan, 12/12/90, pp. 56–58, 208); (Riegle, 1/7/91, pp. 29–32, 46–9. 51–55, 101–2, 163); (DeConcini, 1/9/91, pp. 45–6, 49, 51–2, 60–63, 199–200, 203, 209); (McCain, 1/4/91, pp. 27–21, 26, 111, 163–4); (Glenn, 1/4/91, pp. 240–47, 193).

The evidence shows that the April 2 meeting date was not set until a few days prior to the event. (Gray, 2/23/90, p. 15). The evidence shows that the second meeting on April 9 grew out of the April 2 meeting. The evidence shows that I played a very minor but proper role in the April 2 meeting. I asked why the audit was taking so long and agreed with Senator Glenn that if Mr. Keating had broken any law he should be prosecuted, but if he hadn't the regulators should get off his back. (AC, 4/30/90, pp. 131, 133); (Gray, 11/27/90, p. 51). The evidence shows that my participation in the April 9 meeting was essentially limited to sticking my head in the door for a minute. (AC, 4/30/90, p. 150); (Sp. Coun. Ex. 193).

3. *No Causal Connection:* The Committee's findings conclude that each of the five Senators had information that reasonably caused concern about the fairness of the Bank Board's examination of Lincoln and that was sufficient to justify contacting Bank Board personnel. (Committee Statement, 2/27/91, p. 1, para. 4). The Committee found that, without regard to donations or other benefits, no Senator violated any law or Senate rule by attending the April 2 and

9 meetings. (Committee Statement, 2/27/91, p. 1, para. 1).

The evidence shows that in that point in time all five of us had good reason:

To view Mr. Keating as a highly successful and respected businessman.

All five of us also knew that:

Alan Greenspan, who is now the Chairman of the Federal Reserve, had stated in his opinion that Lincoln was solvent for the foreseeable future. (Sp. Coun. Ex. 159); (AC, 4/30/90, p. 101).

Arthur Young, one of the "Big Eight" accounting firms, had found Lincoln to be in good shape and was very critical of the regulations.[5] (Sp. Coun. Ex. 161); (AC, 4/30/90, pp. 99–100).

I had several additional reasons to be concerned about the fairness of the Bank Board's examination of Lincoln:

Lincoln was a California-chartered Savings and Loan. Many thousands of its employees and depositors were my constituents. Their jobs and financial security were at risk.

I was aware—as perhaps the other Senators were not—that the Arthur Anderson firm, another of the "Big Eight" accountants, had found Lincoln to be in good shape and had grave questions about the performance of the regulators. (AC, 4/30/90, p. 102).

I previously had engaged in a confrontation with Mr. Gray, the Chairman of the Bank Board, and had the clear impression that he was incompetent. (AC, 4/30/90, pp. 106–9).

Mr. Gray had worked in public relations for a savings and loan institution in San Diego, California, before he was appointed to chair the Bank Board. I knew he had a poor reputation in the San Diego business community. (AC, 4/30/90, p. 107).

I knew that a principal newspaper in California, the Los Angeles Times, had called for Mr. Gray's resignation from the Bank Board after the General Accounting Office found he had misused $27,000 of public funds. (*Id.*; Cranston Ex. 57); (AC, 4/30/90, p. 92).

Thus the *evidence is overwhelming* that (a) I had many sound and official reasons to participate in the April meetings, where I played a very minor and proper role, and (b) the donation was solicited and received weeks before I knew of the April meetings. The preponderance of the evidence shows that the donation was solicited and received before *anyone* even conceived of the meetings.

There is no evidence—nor could there be—that I attended the April meetings because of the donation.

B. Paragraph (a)(1)(ii)

Paragraph (a)(1)(ii) states: In the fall of 1987, Senator Cranston solicited from Mr. Keating a $250,000 contribution, which was delivered to the Senator personally by Mr. Keating's employee James Grogan on November 6, 1987. When the contribution was delivered, Mr. Grogan and Senator Cranston called Mr. Keating, who asked if the Senator would contact new Federal Home Loan Bank Board Chairman M. Danny Wall about Lincoln. Senator Cranston agreed to do so, and made the call six days later.

(ii) 1. *Donation:* There was not one but two donations that were delivered on November 6, 1987. The Resolution omits any description of them, and fails to make clear that these were *not* political contributions to any campaign of mine or to my P.A.C. I received no direct political benefits from the donations.

$225,000 was in the form of a charitable donation to Forum Institute, an I.R.S. approved 501(c)(3) tax-deductible organization. Forum distributed funds to non-partisan, 501(c)(3), grass roots organizations that registered voters in approximately 20 states. (Sp. Coun. Ex. 145). I accepted the check on behalf of Forum and turned it over to Forum. I had no control over Forum or how the money was used. The independent officers and directors of Forum had that control. (Harmon Affidavit, Sp. Coun. Ex. 501, para. 13).

$25,000 was in the form of a contribution to USAVotes (formerly America Votes) to support its efforts to raise charitable donations for I.R.S. approved 501(c)(3) non-partisan registration groups. (Sp. Coun. Ex. 146).

The Resolution also fails to mention that the donations were agreed to before October 6, 1987 (Sp. Coun. Ex. 182), more than a month prior to my status inquiry call to Mr. Wall.

2. *Official Action:* My notes about the call to Mr. Wall establish that it was a status inquiry.[6] I asked if the end of the audit of Lincoln was in sight. Mr. Wall and I also discussed the personality problems between Lincoln and the San Francisco regulators. (Sp. Coun. Ex. 147). Mr. Wall's testimony confirmed this. (Wall Affidavit, Sp. Coun. Ex. 428, p. 12, para. 10 h.). Mr. Wall also testified that I did not urge him to take any particular course of action. (Wall Affidavit, Sp. Coun. Ex. 428, p. 12, para. 10 h.).

Furthermore, there is *no* evidence that I attempted to influence the regulatory actions of Mr. Wall *or any other* regulator at any time. Every regulator who was called as a witness or in an affidavit testified that none of his or her sections were influenced by any contact from my office or from me. (Wall Affidavit, Sp. Coun. Ex. 428, p. 6, para. 9); (Rosemary Stewart, 1/2/91, pp. 10–11, 196); (Wall, 12/4/90, pp. 104, 116, 181–2, 184, 191); (Martin, 12/3/90, p. 58; Martin Affidavit, Sp. Coun. Ex. 17, para. 11); (Gray, 11/27/90, p. 97); (Patriarca, 11/27/90, p. 147); (Black, 12/6/90, pp. 29–30); (Cranston Ex. 78, Dochow Aff. Attachments A–1 at 19–20 & A2 at 41).

3. *No Causal Connection:* It flies in the face of logic and my personal history to suggest that a reasonable person would deem it necessary for anyone to donate or contribute *anything* to me in order to get me to do *anything*.[7]

The routine status call that I made to Mr. Wall on November 12 was not motivated by the personal concerns of Mr. Keating. The jobs and financial security of thousands of my California constituents were at stake. I made the call for the same reason that I attended the April 2, 1987 meeting—because I believed it was necessary and proper that I do so on behalf of my many constituents who had stakes in Lincoln.

The Resolution is incorrect in concluding that Mr. Keating asked me to contact Mr. Wall when I was on the phone with him in Mr. Grogan's presence. At best, there is conflicting testimony on this point. (AC, 4/30/90, pp. 188 & 190); (JG, 12/14/90, p. 162). I do not recall a request from Mr. Keating on November 6 that I call Mr. Wall. *Nor* do I recall that my November 12 call to Mr. Wall was the result of a request from Messrs. Keating or Grogan.

The Resolution implies that there was a causal connection between the receipt of the donations and my decision to call Mr. Wall on November 12. There is *no* evidence to support such a conclusion.

Furthermore, Mr. Grogan testified that there was never "any suggestion, either by word or by body language, or by a raised eyebrow" that my interest in Lincoln's problems was tied to Mr. Keating's support of non-profit voter registration efforts. (JG, 12/15/90, p. 132). Mr. Grogan also testified, "There was never an occasion where Mr. Keating asked Senator Cranston to do something and Senator Cranston said, 'only if you raise funds for me.' There was never an occasion where Mr. Keating said, 'If you do this for me, I will raise X amount of dollars for you.'" He testified that there was never "even the suggestion" that fund-raising and official actions were connected in any way. (JG, 12/12/90, pp. 185–8). I repeatedly have testified that there was no connection between Mr. Keating's donations and my decisions to contact the regulators regarding Lincoln. (AC, 4/30/90, p. 95).

C. Paragraph (a)(1)(iii)

Paragraph (a)(1)(iii) states: In January 1988, Mr. Keating offered to make an additional contribution and also asked Senator Cranston to set up a meeting for him with Chairman Wall. Senator Cranston did so on January 20, 1988 and Chairman Wall and Mr. Keating met eight days later. On February 10, 1988 Senator Cranston personally collected checks totaling $500,000 for voter registration groups.

(iii) 1. *Donation:* The Resolution incorrectly insinuates that (a) in January, 1988, Mr. Keating offered to make an additional charitable donation in connection with his asking me to set up a meeting for him to meet with Mr. Wall; and (b) based on my setting up the meeting, Mr. Keating made charitable donations in February. The Resolution's insinuation is unfair and inaccurate and cannot be substantiated in any way.

There is *no* clear and convincing evidence that Mr. Keating offered to make an additional donation in January, 1988.

Mr. Keating did make two charitable donations to voter registration groups on February 10, 1988 in Phoenix. The Resolution omits the fact that these were two I.R.S. approved charitable, tax-deductible donations to 501(c)(3) organizations for non-partisan, voter participation efforts. One was to Forum Institute, an organization I've already described. The other was to The Center for Participation in Democracy, that engaged in and supported non-partisan registration drives in several states. *Neither* of these two organizations, nor the use of the money, was under my control.

Regarding this period, there is considerable testimony about a dinner I attended in January with Messrs. Keating, Grogan, and others. Mr. Grogan testified that he recalls no discussion of fund-raising at the dinner. (JG, 12/14/90, p. 166; 12/13/90, p. 24 & p. 265). My son, Kim Cranston, who was present, testified that he recalls no specific offer of support by Mr. Keating. (KC, 6/28/90, p. 15). I testified similarly that (a) I did not solicit any funds at the dinner, (b) that I did not recall the discussion of any specific funds, and (c) that Mr. Keating may have indicated in a *vague* way that he would continue to support registration efforts. (AC, 4/30/90, p. 191; 10/16/90, p. 87).

Mr. Grogan testified that he was not aware of any solicitation that preceded my February 10 visit to Phoenix. (JG, 12/13/90, pp. 261–2).

My visit to Phoenix had been in the works since at least September of the previous year. (JJ, 12/3/90, pp. 164–6). Messrs. Keating and Grogan had a long standing policy of inviting members of Congress, their staffs, and others to visit Phoenix to see the Lincoln/American Continental Corporation operation first hand. Many Congressmen and staff members have visited his company in Phoenix. Mr. Grogan testified that he had invited me to visit Phoenix several times. (JG, 12/14/90, pp. 169–70; 12/15/90, pp. 119–20). I had wanted to visit to see for myself the type of operation Mr. Keating was running. (AC, 4/30/90, p. 184). This was the first time that my schedule permitted this trip. (JJ, 7/19/90, p. 167); (JG, 12/13/90, p. 17). Ergo, this trip *was totally coincidental* to the Wall/Keating meeting. It *had no connection* with the Wall/Keating meeting.

It is also equally coincidental that this trip finally occurred at the beginning of a new year, and thus coincided with the timing implicit to Ms. Jacobson's practice of seeking contributions from individuals twice in a given year—early and late. (JJ, 12/2/90, p. 161). Ms. Jacobson, in her capacity as a part-time USAVotes employee, had written me a memo dated February 4, 1988, stating that the main goal concerning Mr. Keating was to receive a charitable donation as soon as possible so that he could be asked for an additional donation in the fall. (Sp. Coun. Ex. 269). She testified that the timing of solicitations of donations was largely driven by her own timetable and that charitable giving is based on an annual cycle. (JJ, 12/3/90, pp. 176, 219).

By happenstance, this trip to Phoenix was also consistent with my practice of going to visit potential donors—rather than inviting them to visit me—to get help for the registration efforts. (AC, 10/16/90, p. 87); (JJ, 12/3/90, p. 143).

2. *Official Action:* There is no evidence that Mr. Keating committed to make a specific donation in connection with asking me to set up an appointment with Chairman Wall to see him.

The evidence shows only that Ms. Jacobson sent me a memo dated January 18, 1988 relaying a request to her from Mr. Grogan that I help schedule a meeting between Messrs. Keating and Wall. (Sp. Coun. Ex. 172).

I have testified that I called Mr. Wall on January 20, 1988 and asked him if he would be willing to see Mr. Keating. Mr. Wall responded to me that he was willing to meet with Mr. Keating but it might not be necessary because he thought the problem between Mr. Keating and the Bank Board was being worked out. During my conversation with Mr. Wall, no commitment was made to meet, nor was a firm meeting date arranged. (AC, 4/30/90, p. 249). Mr. Wall testified that he was not sure if I had asked him to meet with Mr. Keating. (Wall Test., 12/4/90, pp. 33 & 131). There is *no evidence that I even knew about the meeting* that did occur on January 28, 1988. I did not set it up. The arrangements must have been made by Messrs. Keating and Wall or their assistants.

3. No Causal Effect: Once again, it flies in the face of logic and my personal history to suggest that a reasonable person would deem it necessary for *anyone* to make *any* donation in order to induce me to do *anything* or to *reward* me for doing it. I made the call to Mr. Wall regarding a major California business in view of apparent regulatory excesses that were amounting to harassment. The Committee has stated: (a) Senators should and do provide such constituent services; and (b) that there were sufficient reasons to contact the Bank Board regarding Lincoln. (Senate Ethics Committee Statement, 2/27/91, p. 1, para. 4).[8]

There is no evidence of a causal connection between my January 20, 1988 telephone call and the charitable donations. There is no specific evidence that there was even a solicitation of Mr. Keating or a discussion of any donation prior to the February 10, 1988 trip.[9] In fact, for six months there had been efforts to schedule a trip to Phoenix that finally occurred in February, 1988 and resulted in the receipt of charitable donations. *It is pure coincidence* that the trip finally was scheduled and the donations were received three weeks after my telephone call to Mr. Wall.

Coincidence in time and unsubstantiated inferences about proper inquiries such as my telephone call and receipt of charitable donations on a trip that had been in the making for many months cannot properly substitute for the lack of clear and convincing evidence of improper linkage, particularly where there is factual and convincing evidence that Mr. Keating did not ask me to set up a meeting in connection with a solicitation of a donation of any type.

D. Paragraph (a)(1)(iv)

Paragraph (a)(1)(iv) states: In early 1989, at the time that Senator Cranston was contacting Bank Board officials about the sale of Lincoln, he, personally or through Joy Jacobson, his chief fund-raiser, solicited another contribution. (This contribution was never made. American Continental Corporation declared bankruptcy on April 13, 1989.)

(iv) 1. *Donation:* The Resolution fails once again to point out that this was a solicitation of an I.R.S. approved 501(c)(3) charitable tax-deductible donation, the use of which I did not control. It was *not* a solicitation of political contributions for my benefit. The Resolution accurately states that this donation was never made.

The Resolution's description of Ms. Jacobson is misleading. In early 1987, she directed the fund-raising staff of the Democratic Senatorial Campaign Committee. At the time in question, early 1989 (and for more than a year before that) she was spending 50% of her time as a consultant to the Democratic Senatorial Campaign Committee; 25% as a consultant to a P.A.C. I founded (Committee for a Democratic Consensus); and 25% as a consultant under contract to USAVotes to raise charitable donations for registration efforts.

Mr. Rob Stein, the Executive Director of USAVotes, was in charge of its over-all operations. I was one of three cochairmen of USAVotes. I was not the direct supervisor of Ms. Jacobson in her capacity as a part-time employee of USAVotes, nor was I the direct supervisor of any other USAVotes employees.

There is conflicting testimony concerning who solicited Lincoln at this time. I have testified that I do not recall discussing a donation with Messrs. Keating, Grogan or anybody during this period. (AC, 10/16/90, p. 68; 5/17/90, p. 299). I do not believe such a discussion ever took place. Mr. Grogan, when asked whether anybody on my staff or I solicited a donation from him or Mr. Keating during this period, testified that Ms. Jacobson, not I discussed a donation with him. (JG, 12/14/90, pp. 179–80). Ms. Jacobson's recollection was that I solicited Mr. Keating during the period. (JJ, 12/3/90, pp. 167–8).

I believe the following shows that Ms. Jacobson initiated the solicitation and that she did so without my knowledge.

A memorandum from Joy Jacobson to me and to Rob Stein, the Executive Director of USAVotes, dated March 1, 1989, written on her home computer, shows that I did not make the solicitation and illustrates the mechanics of how the staff of USAVotes and I worked to solicit charitable donations. (Sp. Coun. Ex. 171). It was Ms. Jacobson's job to come up with the names of people, foundations and organizations which she thought would be potential donors. She would write a memorandum with the potential donors' names, suggestions as to who should contact them, and the amounts to be requested. When I reviewed it, I would look down the list for the names suggested for me. I would systematically try to call most, but not necessarily all, of the names suggested to me. When my part of the list was complete, I would hand it back with my notes about the calls to my secretary. She would report these results back to Ms. Jacobson.

There are 18 names of potential donors on the March 1, 1989 memo. My handwritten notes or my secretary's notes appear under 12 of those names—only those that were proposed as my assignments.

It is clear that Ms. Jacobson assigned herself three names on the first page: AFSCME, Dick Darling, and Charlie Keating. After Mr. Keating's name these words are typed in the memo: "Joy is talking with Jim Grogan. 100,000 wherever it's needed."

This evidence corroborates Mr. Grogan's testimony that Mr. Jacobson, not I, made this solicitation. It indicates that her memory was incorrect when she testified that I solicited Mr. Keating. It shows that on the date of the memo, March 1, 1989, she had already discussed a $100,000 donation with Mr. Grogan.

Ms. Jacobson's solicitation of Mr. Grogan is consistent with her explanation in her testimony "that the first group you go back to [at the beginning of each year is] your past donors and try to renew them." (JJ, 12/3/90, p. 161). Her solicitation of Mr. Grogan on her own is further evidenced by Ms. Jacobson's statement that "the timing of the fundraising was something that was driven by my finance plan. If anyone was controlling the timing, I would say I was." (JJ, 12/3/90, p. 176). She also stated that I never suggested to her to time any request for a donation to coincide with anything before the Bank Board or with any other event or events. (JJ, 12/3/90, pp. 175–6).

2. *Official Action:* The record shows that, working on an entirely different track from Ms. Jacobson, I called Chairman Wall and Bank Board Members Roger Martin and Larry White between February and April 1989 for the sole and limited purpose of urging that careful consideration be given to three different proposed sales of Lincoln.

Both Mr. Wall and Mr. Martin testified that in none of my calls did I urge final approval of any sale, and that there was nothing improper about the nature of my calls. (Sp. Coun. Ex. 428, Wall Affidavit, para. 10h, 12); (Sp. Coun. Ex. 17, Martin Affidavit, para. 11). The Resolution fails to describe the very limited and non-advocacy nature of my calls. It also fails to note that when Messrs. Keating or Grogan asked me to push hard for the approval of a specific sale of Lincoln, I refused to do so. (AC, 5/7/90, pp. 327–8); (Wall, 12/4/90, p. 91).

3. *No Causal Connection:* It is again absurd to suggest that a donation of *any* sort would be necessary to motivate me to help my California constituents. There is no evidence that I contacted the Bank Board regarding the potential sale of Lincoln because of any donation. I made the calls because a proper sale would resolve a situation that otherwise could have led to a financial catastrophe in my state, California, that would have financially injured countless constituents of mine.

For whatever reason, none of the sales materialized. However, the concerns that motivated my calls did occur. The consequences have been catastrophic: a cost to taxpayers presently estimated by the Resolution Trust Corporation to be $2.6 billion; tragic losses of the life savings of 23,000 Californians, mostly elderly and infirm, who bought approximately $200 million in now worthless debentures at Lincoln; and the loss of many jobs in California. The Committee correctly found that my contacts with regulators and those of the other four Senators were not the cause of the eventual failure of Lincoln or the thrift industry in general. (Committee Statement, 2/27/91, p. 1, para. 5).

The Resolution ignores my true motivation for making the telephone calls between February and April, 1989, instead favoring the *inference* that the calls were motivated by a possible charitable donation that was never made. This inference ignores my legitimate motivation: to prevent financial damage to many of my constituents.

In response to the inference I point to the clear and convincing evidence that (a) I did not solicit a charitable donation, and that (b) I did not know that Ms. Jacobson had made a solicitation until I read her memo of *March 1, 1989*. Once I knew, the knowledge had no effect on my conduct.

Ms. Jacobson testified that she was not aware that Messrs. Keating or Grogan was talking to me about the sale, nor that I was being asked to do anything about it. (JJ, 7/19/90, p. 179).

There is absolutely no evidence of any causal connection between (a) Ms. Jacobson's solicitation, and (b) my telephone calls in 1989 to regulators regarding possible sales of Lincoln. Here, again, unsubstantiated inferences based solely on mere coincidence of time *cannot be a substitute* for evidence of a causal connection between a solicitation and an official action.

The *fair inference* from the record is that Ms. Jacobson was on one track following up according to her standard practice with one of the few established contributors whom she solicited personally and regularly at the beginning of each year. Meanwhile, I was on another track taking very limited official actions contacting regulators regarding the possible sale of Lincoln—actions for which there was clear and independent constituent related justification. Senator DeConcini made the same type of inquiries for similar reasons.

The foregoing analysis of each of the four "occasions" cited in the Resolution demonstrates that there is absolutely no evidence of a causal relationship between any of Mr. Keating's donations and any of my actions, and that there is overwhelming evidence to the contrary.

I remind the Committee again of Mr. Grogan's response when my attorney asked him the following question: "Was there any suggestion, either by word or by body language, or by raised eyebrow, that Senator Cranston's interest in Lincoln Savings' problems was tied to Mr. Keating's support of the non-profit voter registration efforts?" Mr. Grogan replied, "Never." (JG, 12/15/90, p. 132).

The Special Counsel has cited no evidence that Mr. Keating authorized donations only on condition that I would help him, or because I had helped him. He cited no evidence that I agreed to help only if Mr. Keating contributed.[10]

III—MY ANSWERS TO THE COMMITTEE'S THREE QUESTIONS RE: A PART-TIME EMPLOYEE OF AN ORGANIZATION THAT RAISED I.R.S APPROVED 501(C)(3) CHARITABLE DONATIONS

The Resolution raises questions in Section (a)(2) about my Senate office practices, citing three examples of activities engaged in by Ms. Jacobson, a part-time employee of USAVotes, over whom I had no real supervisory role. I have already indicated that she was *not* a member of my Senate staff. She had no substantive expertise in Banking Committee issues and did not substantively involve herself in my official Senate activities.

The words "Senate office practices" is inaccurate and misleading. Ms. Jacobson came to my office occasionally, but by no means frequently or regularly. She worked out of her home in Virginia. Unlike the practice in some Senate offices, I have never assigned major political fund-raising responsibilities to anyone serving part time or full time on my Senate staff. I have designated two Senate staff members under Rule 41, but they have done comparatively little political fund-raising. All fund-raising efforts with which I have been involved, whether political or charitable, have been the responsibility of individuals employed elsewhere—*not* in my Senate office.

Although some of Ms. Jacobson's activities are susceptible to an interpretation that they rise an *appearance* of impropriety, they do not constitute clear and convincing evidence of a causal connection between (a) my personal official actions and (b) solicitations of donations I made or of which I was aware.

A. Paragraph (a)(2)(i)

Paragraph (a)(2)(i) states: Senator Cranston's fund-raiser repeatedly scheduled and attended meetings between Senator Cranston and contributors in which legislative or regulatory issues were discussed.

The Resolution unfairly uses the word "repeatedly". Mr. Grogan met Ms. Jacobson in 1984. (JG, 12/12/90, pp. 71–73); (JJ, 12/3/90, p. 91, 7/19/90, p. 37). He testified that he would call her to schedule appointments until he became acquainted with members of my Senate staff and began to turn to them to arrange appointments. (JG, 12/12/90, p. 93).

Ms. Jacobson testified that after March, 1987, the only meetings which she was involved in arranging were for fund-raising or social purposes, not substantive purposes. (JJ, 12/3/90, p. 96). She testified that she didn't know about the April 2 and April 9 meetings until long after they occurred. (JJ, 12/3/90, p. 130). She testified that she arranged no substantive meetings during the entire two year period from April, 1987, to April, 1989, during which the other three "occasions" occurred that raise questions of causal connections. [Referred to in Paragraph (a)1 of the Resolution].

The Resolution inaccurately states that Ms. Jacobson scheduled meetings for me. The evidence shows that she had to go through my Secretary or my Administrative Assistant to place appointments on my schedule.[11] (JJ, 7/17/90, p. 76).

Ms. Jacobson's testimony differs from mine about why she attended such meetings. I have testified that Ms. Jacobson suggested to me that it would be helpful for her to be present so she would know what was going on. (AC, 4/30/90, p. 24). She testified that she was there to make sure that the charitable donor felt at home in my hectic and crowded office before I arrived or if I were called away on Senate business. (JJ, 12/3/90, pp. 86–90).

Ms. Jacobson has testified, and I confirm, that she never participated in substantive discussions in any meetings. (JJ, 12/3/90, p. 86). Moreover, Ms. Jacobson testified that she often paid no attention to the subsection discussions: "While a substantive discussion was going on, I often would get up and go make phone calls outside of the office. There's a round table that I often worked at in Senator Cranston's Whip office. While a substantive meeting was going on in another section of the same room, I would be off doing something else." (JJ, 12/3/90, p. 90).

To the best of my knowledge, Ms. Jacobson never attempted to influence an official action in any way. Neither anyone on my staff nor I made a decision of substance based on any actions by Ms. Jacobson.

B. Paragraph (a)(2)(ii)

Paragraph (a)(2)(ii) states: Senator Cranston's fund-raiser often served as the intermediary for Mr. Keating or Mr. Grogan when they could not reach the Senator or Carolyn Jordan, the Senator's banking aide.

The Resolution's use of the word "intermediary" is misleading and unfair. The record shows, as I have just indicated, that Ms. Jacobson did not engage in any substantive negotiations or take any substantive actions. She testified that she simply passed messages along occasionally when Mr. Grogan was unable to reach me or members of my Senate staff. (JJ, 12/3/90, p. 156). Ms. Jacobson testified, "It was Jim Grogan's nature to just keep dialing until he got somebody. Again, it usually had to do with something that was going to happen and he needed to get hold of somebody, whether it was Roy [Greenaway] or Alan [Cranston] or Carolyn [Jordan], and I would say, I'll pass it along." (JJ, 7/19/90, p. 168).[12] Ms. Jacobson also testified, ". . . At the beginning they always did call me. My understanding is that later on they often didn't call me, that they called Roy Greenaway [my Administrative Assistant] or they called Mary Lou [McNeely, my Secretary] directly or they just showed up at the office." (JJ, 7/19/90, p. 164).

C. Paragraph (a)(2)(iii)

Paragraph (a)(2)(iii) states: Senator Cranston received several memoranda from Ms. Jacobson which evidenced her understanding that contributors were entitled to special attention and special access to official services. Senator Cranston never told her that her understanding was incorrect, nor did he inform her that such a connection between contributions and official actions was improper.

The Special Counsel focused on one memo dated January 7, 1987. (Sp. Coun. Ex. 154.) It was written prior to *all* the specific donations referred to in the Committee's Resolution.

Ms. Jacobson did *not* state—as the Resolution indicates—that the individuals she mentioned in her January 7 memo were "entitled to special attention and special access to official services." She said the individuals expected "some kind of resolution" of pending matters. That is exactly what every constituent, whether a contributor or not, rightfully expects from their Senator. That is exactly what every constituent of mine gets, whether he is a contributor or not, to the best of my ability and my staff's ability. Note that Ms. Jacobson did not state that these individuals could rightfully expect a *favorable* resolution. She said they would expect "*some kind*" of resolution.

She explained the meaning and intent of this memo in her testimony. She testified that the individuals she mentioned, like all constituents, were entitled to a response from me as to what, if anything, I was going to do about their problems—not necessarily a positive response or resolution—but *some* response or resolution. (JJ, 7/19/90, p. 99–101; 12/3/90, pp. 204–5). They may not like the response, but they like all constituents are at least entitled to be heard and to be given a decision. That is all Ms. Jacobson advocated and that is all I ever tried to provide.

Furthermore, Ms. Jacobson testified that several individuals mentioned in her January 7 memo, including Mr. Keating, did not get the results they wanted. (JJ, 12/3/90, pp. 205–6). I understand how someone with 20/20 hindsight might question the implication of Ms. Jacobson's words, but my deeds followed the *words*, not the *implications*.

Improper inferences drawn from a memo written by someone else, not by me, *must not be accepted as a substitute* for clear and convincing evidence of causal connections between my official actions and donations.

The only other memos I am aware of from Ms. Jacobson simply passed on information or contained updates on charitable donations.

Moreover, and in fundamental fairness to Ms. Jacobson, I believe that the Resolution *unfairly implies* that she lacked understanding of proper policy regarding donations and official actions. Ms. Jacobson testified that she knew there could not and must not be a quid pro quo between official actions and donations, and that my absolute firm office practice was to have nothing to do with any potential donor who sought to link a donation to official action. (JJ, 12/3/90, pp. 223–4, 239–40).

Specifically, in relation to Lincoln, Ms. Jacobson testified that neither Messrs. Keating, Grogan nor I ever indicated that any donations were made with any understanding that I would do anything in return (JJ, 12/3/90, pp. 175–6):

Q. Did Mr. Grogan ever tell you that the contributions were made with the understanding that Senator Cranston would do anything in return?

A. Absolutely not.

Q. Did anyone whom you knew to be associated with Lincoln Savings or American Continental ever tell you that any of the contributions were made with the understanding that Senator Cranston would do something in return?

A. No.

Q. Did Senator Cranston ever say to you that he thought that the contributions which you have discussed were made with an expectation that he would act in any way on behalf of Mr. Keating, of Lincoln or American Continental?

A. No.

Q. To your knowledge, did Senator Cranston do anything for or on behalf of Lincoln Savings because Mr. Keating assisted his reelection campaign?

A. No.

Q. Did he to your knowledge do anything for or on behalf of Lincoln Savings because Mr. Keating contributed money to USA Votes, Forum Institute or the Center For Participation in Democracy?

A. No.

Q. Did Mr. Keating or anyone associated with him ever tell you that a contribution would be made after Senator Cranston made an inquiry on his behalf?

A. No.

Q. Did Senator Cranston ever tell you or suggest to you that you should time any request for contributions to coincide with anything occurring before the Bank Board?

A. No. In fact, the timing of the fund-raising was something that was driven by my finance plan. If anyone was controlling the timing, I would say I was.

Q. Did Senator Cranston ever tell you to time a solicitation to Mr. Keating to coincide with any other event or events to your recollection?

A. No.[13]

The Resolution inappropriately states that Ms. Jacobson understand that donors were entitled to special access. Mr. Grogan testified that he was able to obtain my attention—in other words get access to me—before any of the charitable donations for voter registration were made by Mr. Keating. (CG, 12/15/90, p. 132)

IV—THERE ARE NO DIFFERENCES IN KIND BETWEEN MY ACTIONS AND THE ACTIONS OF SENATOR DECONCINI, SENATOR GLENN, SENATOR MCCAIN AND SENATOR RIEGLE

There are no differences of kind between my actions and the actions of the other four Senators with respect to Lincoln.

Therefore there is no justification for singling me out for disciplinary action.

The Committee Statement of February 27, 1991 contains many important findings that show both similarities and differences in the actions of the five Senators. The findings include:

1. That, when considered without regard to any donation or other benefit, actions of the other four Senators and my actions did not violate any law or Senate rule.

2. That no solicitation or acceptance of any donation by the other four Senators or myself constituted a personal gift to any one of us.

3. That the other four Senators and I had a reasonable basis for contacting FHLBB personnel.

4. That the attendance of the other four Senators and my attendance at the April 2 and April 9 meetings, when considered without regard to donations, was not improper.

5. That my post-April 9, 1987 conduct and that of Senators DeConcini and Glenn when considered without regard to donations, was not improper; and in and of itself it is not improper to contact regulators after learning of a criminal referral. (DeConcini & Glenn).[14]

6. The Committee found that it may appear improper but actually it is not improper for a Senator to engage in aggressive conduct with regulators especially after learning of a criminal referral. (DeConcini).

7. The Committee found, however, that it was poor judgment but it did not find it unethical for a Senator to arrange a lunch between Keating and Speaker Wright eight months after the Senator knew of the criminal referral. (Glenn).

8. That the solicitation and acceptance by the other four Senators and me of all donations, including those to charitable voter registration organizations, were not illegal or improper.

9. That there are no specific written standards regarding contact with federal regulators in general or on behalf of contributors in particular.

10. That it may appear improper, but the Committee did not find it improper, for a Senator to assist a constituent with regulatory problems at a time very close to when that constituent is raising funds for the Senator. (Glenn and Riegle).

11. By implication, that conduct that is not improper but gives rise to an appearance of impropriety does not warrant further Senate action. (Riegle and DeConcini).

12. That contacts of the other four Senators and my contacts with regulators regarding Lincoln did not cause the eventual failure of Lincoln or the thrift industry in general.

Clearly all five Senators had varying degrees of involvement in respect to Lincoln. Mr. Keating and his friends and associates contributed more political contributions to the campaigns and P.A.C.s of each of the other four Senators, who had direct control over these funds, than to mine. That totals:

Glenn	$252,200
McCain	110,000
DeConcini	85,000
Riegle	78,250
Cranston	59,000

Although I received less in political contributions than any of the other Senators, it appears that I received more because of the charitable donations I raised. This is misleading and can warp an objective observor's perspective. I did not receive the charitable donations. I collected them on behalf of and passed them on to 501(c)(3) charitable organizations.

The fact that when charitable donations are counted I raised more funds from Mr. Keating than any of the other Senators should be considered in several contexts:

The total amount of charitable contributions I raised from Mr. Keating is not unusual in view of his general record of giving and loaning many more than $44 million to various causes including Mother Teresa, Covenant House, the Vincent de Paul Society and anti-pornography drives.

The Special Counsel asked why Mr. Keating, whom he characterized as extremely conservative, would donate to a Democrat such as I and to causes I espoused. F.E.C. records show that Mr. Keating has contributed very large sums to both the Democratic and Republican parties and to many candidates of both parties. Mr. Grogan testified about Mr. Keating's philosophy, "I would not characterize him as a conservative Republican and he doesn't characterize himself that way. He is much more liberal on a variety of issues." (JG, 12/12/90, p. 88).[15]

Regarding charitable contributions, I also want to note that information obtained from Senate financial disclosure forms shows that many Senators are associated in some way—surely including fund-raising in some instances—with I.R.S. approved 501(c)(3) organizations. Among them are the former Majority Leader Robert C. Byrd, now President Pro Tem of the Senate (Robert C. Byrd Scholastic Recognition Fund) and Minority Leader Robert Dole (Dole Foundation for the Employment of People with Disabilities). (AC Exhibit 80).

Coincidences in time between political contributions and official actions were found in respect to three of the other Senators:

The Committee found that Senator Riegle was helping Lincoln with its regulatory problems at the same time that Mr. Keating was raising substantial political funds for him—i.e., $78,250 raised for Senator Riegle's 1988 campaign on March 24, 1987, nine days before the April 2 meeting and after Senator Riegle's apparent involvement in discussions leading to the April 2 meeting. The Committee stated that it did not condone Senator Riegle's conduct and criticized him for "insensitivity and poor judgment"—*but* the Committee did *not* conclude that this coincidence in time between Senator Riegle's fund-raising and official actions required institutional action by the full Senate. (Senate Ethics Committee Statement, 2/27/90, Riegle).

The Committee found that Mr. Keating raised $54,000 for Senator DeConcini's November, 1988, reelection, shortly before the Senator made efforts similar to mine although perhaps more "aggressive" than mine (to use the Committee's word)—to make sure the Bank Board gave appropriate consideration to the efforts to sell Lincoln.

The Committee learned that in late 1984 and early 1985 Mr. Keating and his associates made significant political contributions and raised funds for Senator's Glenn's presidential campaign debt and for his Senatorial campaign. This coincided in time with actions Senator Glenn took at the suggestion of Mr. Keating regarding the direct investment rule in December, 1984, and January, 1985. Senator Glenn testified he did not know about the contributions until the summer of 1985. (Glenn, 1/4/91, pp. 187-8, 226, 255).

The Committee did not conclude that there was any causal connection between these three coincidences of receipt by Senators Riegle, DeConcini and Glenn of these political contributions in proximity of time to their official actions. How, then, could the Committee without *any* substantiating evidence conclude that there was any causal connection between my receipt—on behalf of others—of charitable and related donations and my official actions? My case, like the cases of Senators Riegle, DeConcini and Glenn, *can only involve* questions of judgment and appearances.

I believe, too, that our actions did not differ in kind from legitimate actions of our 95 colleagues. Virtually every Senator raises funds for his campaigns and renders legitimate services to his constituents, including contributors, when they need it. I have noted previously that many Senators are active in one way or another with charitable organizations and some Senators raise very substantial money for them.

V—THERE ARE NO U.S. SENATE RULES, PRECEDENTS, OR CASES IN WHICH A SENATOR HAS BEEN DISCIPLINED FOR ASSISTANCE TO A CONSTITUENT WHEN THE SENATOR RECEIVED NO PERSONAL FINANCIAL PROFIT

If the Committee believes there should be limits on a Senator's ability to perform his official duties for a contributor based upon the timing or proximity of a donation to an official act, it may recommend that change to the full Senate and allow 100 members of this body to debate such a proposed rule.

It would be contrary to the principles of the Senate and a violation of traditional concepts to fair play to apply such a rule to me now *in what would clearly be an ex post facto fashion*.

There is *no precedent* for the Senate disciplining a Senator for actions such as mine. The Senate *never* has determined that it is an ethics violation for a Senator to engage in legitimate constituent service on behalf of a contributor because it was—or might appear to be—close in time to a lawful contribution to the Senator's campaign or to a lawful donation to a charity that the Senator supports.

The Senate has to date rejected attempts to create Ethics Rules that would restrict the ability of its members to give their supporters the impression that they will be responsive to their needs. There is a *fundamental difference* between a Senator acting on behalf of a constituent and a Senator acting for his personal gain. It is one thing to say that a Senator should not do anything in his official capacity that appears to bring him personal gain. It is quite another to say he should not do anything in his official capacity that appears to benefit supporters or contributors. The former is a conflict of interest and a violation of public trust. The latter is not only *not* a violation of trust, but a fulfillment of it. Its appearance can seem improper only to those who distrust the system itself.

In *every* case of financial impropriety considered by the Senate throughout its history, the alleged misconduct was the use of public office for a Senator's *private* profit. The last four Senators who were disciplined by the Senate were involved in actions that resulted in *personal* gain. There has *never* been a case that has led to the disciplining of a Senator for assisting, or appearing to assist, a constituent-contributor when the Senator received no personal profit.[16]

The history of conflict of interest rules for the Senate and the House demonstrates that the evil at which all those efforts have been directed is the use of elective office for personal gain.

Senate Rule 37, the conflict of interest rule, distinguishes between personal and political benefit. It prohibits Senators and staffers from intervening with federal agencies for the purpose of furthering their financial interest or receiving compensation from a constituent. Its application is limited to agency intervention "resulting in measurable *personal* financial gain."

The Senate in 1977 rejected a proposed rule suggesting that the motive of a contributor could make a contribution improper. Senator Nelson, Chairman of a Special Committee, had proposed that Rule 35, pertaining to gifts, also should ban acceptance of anything "intended to affect the present or future performance of official duties." Senator Stevens attacked the proposal as "something no one can live up to if he is honest with himself and the American people . . . It is a standard of conduct with which one cannot comply in good faith and good conscience as a member of the U.S. Senate." Senator Nelson finally agreed, saying, "I do not think it makes sense at all, and someone who was working overtime and got tired must have written it." (pp. 144-5, Davidson Legal Counsel Report, March 1991).

The Committee acknowledges in its Statement of February 27, 1991 that the Senate presently has no specific written standards embodied in Senate rules respecting contact with Federal or independent regulatory agency officials. The Committee suggests a process for establishing such standards and states that until that is accomplished "All Senators are encouraged to use House Advisory Opinion No. 1 as a source of guidance for their actions."

House Advisory Opinion No. 1 indicates that it is proper for a member to communicate with an executive or independent agency on any matter to request information or status reports; to urge prompt consideration; arrange for interviews or appointments; express judgments; call for reconsideration of an administrative response that the member believes is not supported by established law, Federal regulation or legislative intent; or perform any other service of a similar nature in this area that is compatible with the criteria expressed in the Advisory Opinion.

The Advisory Opinion makes *absolutely no reference* to campaign contributions or charitable donations, or to the timing of campaign contributions or charitable donations solicited or received by a member who performs any of these approved and specified actions. It notes that it is a felony to seek or receive "compensation for any services rendered."

All my actions with respect to Lincoln were well within the guidelines of House Advisory Opinion No. 1.

VI—THE QUESTION OF APPEARANCES AND A SENATOR'S CONSTITUTIONAL OBLIGATION TO REPRESENT THE PUBLIC INTEREST OR THE CAUSE OF JUSTICE OR EQUITY OF HIS CONSTITUENT

Senator Sanford was quoted in the Washington Post on January 11, 1991, wondering how Members of Congress can "overcome the impression" that it *appears* improper if Members accept donations from constituents for whom they intercede.

This is a perplexing problem, since our basic obligation is to the people we represent, many of whom have supported us financially or in other ways. We must do what we think is right, not just what may appear to be right.

Senators should not be at risk of discipline for violation of an appearance standard that would prevent us from intervening on behalf of constituents when intervention is appropriate. If we act only when no one will criticize us, we will not serve the people who elected us.

The fact that a constituent is a contributor, even a recent contributor, does not make it unethical—and should not make it appear unethical—for a Senator to undertake to render him legitimate help when he needs it. The fact that a constituent is a contributor does not change his need for, nor his right to, a Senator's proper and timely help.

The Special Counsel proposes extending to Senators the appearance standard in the Code of Ethics for Government Service ("CEGS") that applies to federal judges and civil servants. The Senate *never* has adopted "CEGS" as an ethical standard applicable to Senators. CEGS never has been interpreted or applied by the Senate as a standard applicable to Senators. These is *no reference to it* in any of the over 400 published Interpretative Rulings issued by the Committee. The House has referred to it, but only in cases involving personal benefit. To apply CEGS to campaign contributions or charitable donations would be inconsistent with Senate Rules 35 and 37. The definition of a "gift" in Rule 35 specifically excludes campaign contributions. The term "compensation" under Rule 37 strictly has been limited to personal benefits.

The Special Counsel overlooks fundamental differences between federal judges and civil servants and Senators. Federal judges and civil servants do not have to raise funds to stay in office. For them, an appearance of a conflict of interest cannot relate to a campaign contribution. Presumably it will relate to personal financial gain. A judge is not expected to serve the interests of the parties before him, but to judge between them in a neutral and detached manner. He should be, and should appear to be impartial.

A Senator, on the other hand, is a servant of the constituents of his state. The Constitution requires us to *represent* our constituents. A Senator is expected to be and to appear to be responsive to the legitimate needs of his constituents, including his supporters and non-supporters alike. A Senator who attempted to function as a judge would soon be voted out of office. We also differ from federal judges and civil servants because *we are elected by the people*. We do not have life tenure. Senators *must* serve—and *must appear* to serve—the proper interests of the people who support them. If they don't their constituents won't get the help they need and deserve, and the Senators won't be reelected.

Indeed, in 1977 the Senate Ethics Committee warned that financial disclosure was preferable to specific restrictions on conduct because "it is one thing to describe cases that could pose a disturbing conflict of interest, but quite another to formulate a rule that meets the worst cases without becoming unreasonable. A rule designed to prevent a potential conflict of interest may result instead in depriving a Senator's constituents of full representation."

In 1977, the Committee stated that an excessively restrictive rule could "do harm to the legislative process" and "cut to the heart" of a Senator's function. (Davidson, 137). I submit that the adoption by the Senate of a similarly excessive standard of appearances could deprive constituents of full representation, could harm the legislative process, and could cut to the heart of a Senator's function.

VII—CONCLUSION TO MY WRITTEN SUBMISSION

The Resolution easily could give the erroneous impression to anyone not familiar with the facts that the donations referred to were all of a political nature to some campaign or P.A.C. of mine. It omits any reference to the established and undisputed fact that 85.3% of the money—totaling $725,000—that Mr. Keating donated from early 1987 through April, 1989 was in the form of I.R.S. approved 501(c)(3) tax-deductible charitable donations to organizations that were not under my control and whose use of the money was not under my control.

In addition, Mr. Keating donated $125,000 to America Votes, an organization that raised tax-deductible charitable donations for I.R.S. approved 501(c)(3) independent, non-partisan, grass roots, voter registration in approximately 20 states during 1987 and 1988.

The Resolution fails to point out that *none* of Mr. Keating's donations which are being questioned during this period was in the form of a political contribution to any campaign of mine. Only $10,000 was to a federal P.A.C. that I organized.

The Resolution ignores the important fact that *all* these donations were made *after* my 1986 reelection. An expert on voting, Curtis B. Gans, who is Director of the non-partisan, non-profit, Committee for the Study of the American Electorate, testified that registration efforts in California in 1987 and 1988 that were supported by some of the funds I raised would have had "negligible impact" on my reelection campaign four years later (had I chosen to run in 1992). "I could think of no less cost-effective way of advancing one's own interest," he testified. (Affidavit of Curtis B. Gans, Cranston Exhibit 77).

Section (a)(1) of the Resolution fails to make clear that *all* the contacts I had with regulators during this time—and at all other times—were, standing alone, not only proper, as the Committee's Statement of February 27, 1991 acknowledges, but were also de minimis. The established fact is that they were all routine status inquiries, or requests that somebody see somebody, or requests that various proposed sales of Lincoln be carefully considered. The Committee fails to make clear that in *none* of the contacts I made did I ever advocate any particular action. It fails to make clear that I *never* urged the regulators to take or refrain from any particular action.

Thus the alleged improprieties that the Resolution suggests occurred arise solely because of routine, non-substantive inquiries I made on behalf of constituents that may have been in some way proximate in time to the solicitation or receipt of charitable or related donations.

I previously have noted in statements to the Committee that my actions in respect to Mr. Keating *should not be viewed as if they occurred in a vacuum.* I pointed out that my days and my nights are characterized by constant, passionate work on the great issues of our time, like war and peace, the environment and the economy, justice, and equal rights. I cited my many responsibilities during the time these events occurred, including my leadership role in the Senate as Majority Whip: my Chairmanship of the Veterans' Affairs Committee; my membership on several other committees and the Chairmanship of busy and important subcommittees; my very active role in fund-raising for other Senators and causes as well as for my campaigns; and the fact that—along with my Senate colleague from California—I represent many more constituents (30 million) than do any other Senators. Indeed, California's Senators *repressent more constituents* than any other legislator *has ever represented* in any country in the *entire history of legislative bodies.*

Constantly, I am called upon for help by my constituents. Unlike a corporation, I do not have the funds and the capacity to verify the financial status or the moral stature of each constituent who presents a problem to me. I cannot ask Dun and Bradstreet or the FBI to provide me with this information. More than 300,000 constituent requests have been handled by my staff and me in the 22 years I have been in the Senate. I deeply regret that one involving Lincoln savings has created the problem that is before us.

A casual observer of the hearings might well have obtained the false impression that I did little else over several years except deal with regulators regarding Lincoln. This is not the case. *In the almost two year period* between the April 1987 meetings and February 8, 1989, *I had only five contacts* with Federal regulators regarding Lincoln. I had no contacts at all between May 16, 1988, when Mr. Wall requested an appointment with me to discuss legislation, and February, 1989, when the sale of Lincoln came up.

In the period from February 8 through April 14, 1989, I had only five contacts with FHLBB members Wall, Martin and White regarding *three different proposals* to sell Lincoln. All contacts that I initiated were proper status inquiries. I had a legitimate basis for making them. All these contacts related to the interests of many thousands of my constituents whose jobs and financial well-being depended upon the fate of Lincoln.

I by no means responded favorably to every request by Messrs. Keating or Grogan for me to take some official action. I already have cited my refusal to push hard for the approval of a specific sale of Lincoln. Mr. Grogan in his testimony cited several examples of requests for actions that I declined to take. (JG, 12/12/90, p. 113; 12/13/90, pp. 130, 206–7, 215, 306; 12/15/90, pp. 90, 93–4, 96–8).

Besides citing many facts that contradict the causal connection theory concerning charitable donations and my official actions, I have presented a list of inaccuracies and important facts that were omitted in the Committee documents of February 27. In all fairness, these matters should be corrected in the final documents that are issued by the Committee.

A fair question to ask is: To what extent was the Committee influenced by these omissions of important facts, inaccuracies, and unwarranted implications in material put before it while reaching its conclusions announced on February 27, 1991?

I protest allegations of linkage, explicit or implicit, based merely on unsubstantiated and prejudicial inferences instead of demonstrable evidence.

I am convinced that a full and further review of the record, in light of my Submission, can only led to three conclusions:

First, there is no evidence of a causal connection between any solicitation of donation and any official action on my part.

Second, that my conduct was not materially different from that of the other four Senators involved.

Third, that whatever differences there were between that actions of the four Senators and mine they were not differences of *kind.* A fair and impartial consideration of this matter can only lead one to the conclusion that the Committee's treatment of my actions *should not differ in kind* from the treatment it accorded Senators DeConcini, Glenn, McCain and Riegle. I concede that I should have recognized that fund-raising—even for charitable donations—close in time to official actions could lead to an appearance of impropriety. It was a mistake not to have given more thought to appearances.

I concede that I should have constrained more closely the individual who was working for an organization that raised charitable contributions.

I readily concede these errors, but these were errors in judgment, not in intent.

I deeply regret them.

Without any clear and convincing evidence that any official action of mine was causally linked to any donation, however, there is no reason for the Committee to recommend institutional action in my case.

Institutional action would be a tragic event in my 22 year career in the Senate. Such action is not warranted by the events that have clouded the recent past.

I love this body and I have cherished each day I have spent in it serving the people of California.

APPENDIX I—CHARLES KEATING: HIS POLITICAL PHILOSOPHY AND HIS RECORD OF PHILANTHROPIC DONATIONS

The amounts in charitable donations I raised from Mr. Keating should not seem unusual when the Committee considers his general record of giving to and supporting philanthropic causes.

He gave between $1 million and $5 million to Mother Teresa. He donated $2 million and loaned $40 million to Covenant House in New York. He gave $1 million to the Vincent de Paul Society in Arizona. He gave untold millions to anti-pornography campaigns and other causes.

The amounts the other four Senators and I raised from Mr. Keating in political contributions also are not unusual when the Committee takes into account his general pattern of participation in the political process.

He regularly gave and raised thousands of dollars to political campaigns and candidates including $100,000 to George Bush's "Team 100" in 1988.

The Special Counsel asked several times why Mr. Keating, whom he has characterized as an extremely conservative Republican, would contribute to a Democrat such as I and to causes in which I believed.

The Special Counsel cited an invitation to a Democratic fund-raising dinner that I enclosed in a letter to Mr. Keating. (Sp. Coun. Ex. 29). The Special Counsel said he was bewildered at the notion that Mr. Keating would want to pay to go to a dinner sponsored by Pamela Harriman, the well known Democratic fund-raiser, and Governor Dukakis. The fact is that when my invitation arrived, Mr. Keating already had purchased a ticket to the event on his own. (JJ, 7/19/90, pp. 173–4).

Mr. Grogan testified as follows about Mr. Keating's philosophy: "Mr. Keating has a reputation that's not accurate of being a very conservative Republican. While he holds certain conservative Republican views, I would not characterize him as a conservative Republican and he doesn't characterize himself that way. He is much more liberal on a variety of domestic issues." (JG, 12/12/90, p. 88).

It is a matter of record that Mr. Keating has contributed to many Democrats and to many Republicans including Walter Mon-dale's Presidential campaign, the Reagan-Bush campaigns, the Democratic Senatorial Campaign Committee, the Republican National Committee, the Democratic Party of California and the Republican Party of California. F.E.C. reports covering the elections of 1984, 1986, and 1988 show that he contributed to many Democratic and Republican candidates for the Senate and the House.

APPENDIX II—MY SUGGESTED CORRECTIONS TO SEVERAL ADDITIONAL FACTUAL ERRORS IN THE COMMITTEE'S FEBRUARY 27, 1991 STATEMENT AND RESOLUTION

The Committee Statement in the section headed "Recommendation for Bi-Partisan Campaign Reform" declares that over 80% of the funds raised by the five Senators "were not disclosed funds raised . . . under the Federal Election Campaign Act. Rather, such funds were undisclosed, unregulated funds raised for independent expenditures, political party 'soft money,' and a non-federal political action committee." That statement contains two factual assertions that I believe are in error and should be corrected in the Committee's final Report.

First, no funds were raised for "independent expenditures"—funds raised independently of a campaign to help a candidate without the candidate's consent. I did not raise any. I do not believe there is any evidence that any of the other Senators raised any.

Second, I presume the reference to "political party 'soft money'" refers to the donation to the California Democratic Party. That contribution was not "undisclosed" and "unregulated". It was both disclosed and regulated in full accordance with California law.

This section of the Statement also fails to mention the category of funds that comprised most of the funds I raised: charitable donations certified as tax-deductible by the I.R.S. because they were to 501(c)(3) non-partisan organizations. This omission also should be corrected.

I did not raise any funds for a non-federal political action committee. Thus, nothing in this section as written describes my solicitations of charitable donations and related charitable donations from Mr. Keating.

FOOTNOTES

[1] Legal fees I feel obliged to cope with total more than $878,000—over $628,000 for me, and over $250,000 for others involved because of my involvement. This total amount exceeds the aggregate sum of my Senate salary for the past 10 years.

[2] I regret that I have been unable to doublecheck to insure that detail in every citation and footnote contains no error. I am confident, however, that the substance of every reference to which I have referred is accurate.

[3] That is why I have voluntarily made my tax returns public for many years. That is why I established a blind trust during my first term in the Senate. That is why I stopped accepting honoraria.

[4] (AC Exhibit 51E).

[5] William Seidman subsequently said, referring to the Arthur Young and Alan Greenspan letters, "Those two documents, I think, were pretty extraordinary for Senators to receive in terms of convincing them of the possibility that the bureaucracy was out of control. The Senators had a couple pieces of paper that could have raised questions in their minds. You have to say this on behalf of the Senators: they got a letter from a Big 8 accounting firm, the likes of which I think had never been done before in history in which the firm on the stationery said the regulators are harassing the company, treating them unfairly, et cetera." (AC, 4/30/90, p. 105).

[6] Such status inquiry calls are certainly routine for most if not all Senators. (Senate Ethics Committee, 2/27/91, p. 3, para. 1).

[7] Back in the 70's, another large corporation, Lockheed, was facing bankruptcy. Lockheed had invested millions of dollars in my state. The livelihoods of many thousands of my constituents and their families were at risk—as was the case with Lincoln Savings. I devoted far more time and effort and made many more phone calls about Lockheed's plight than I ever did about Lincoln's as I successfully endeavored to obtain a government guaranteed loan for Lockheed.

Lockheed was not a contributor to my campaigns or causes. In fact, Lockheed had contributed to my opponent in the previous election.

[8] Again, such phone calls are certainly routine for all or most Senators. The Supreme Court has noted, "The making of appointments with government agencies is a 'legitimate errand' performed by Members of Congress for constituents." (*Brewster* 408 U.S. at 512). The Supreme Court has also judicially observed that Senators may be more aggressive than any of the five of us were in dealing with the Bank Board: "Senators are constantly in touch with the Executive Branch of the Government and with administrative agencies—they may *cajole* and *exhort* with respect to the administration of a statute." (Gravel v. U.S., 408 U.S. 606, 626, 1972)

[9] It would not have been unusual for Mr. Keating to make an unsolicited donation. The record shows that in 1985, he made an unsolicited $200,000 political contribution to Senator Glenn's Political Action Committee.

[10] In December, 1990, the San Francisco Chronicle falsely accused me of trading favors for cash. When I threatened to sue the Chronicle for libel, the Chronicle published a complete Page One retraction.

[11] Ms. Jacobson's activities should be considered in the context of Senate Rule 41 that permits Senators to appoint up to three members of their staffs who may solicit and receive campaign and political contributions. Ninety-nine Senators had done so as of November, 1990. All 99 Senators appointed key staffers, including 90 Administrative Assistants, who could raise and receive contributions while simultaneously possessing the enormous power to schedule appointments; to draft, amend, advance or delay legislation; and to deal with the Executive Branch and regulatory agencies.

Thus, the Senate has ruled that there is no impropriety and no appearance of impropriety if a Senate staffer who raises funds also schedules and attends meetings where substantive matters are discussed with a constituent-contributor. It seems to me that if there is a question of appearances if a fund-raiser who is not on the Senate staff attends such meetings, there is at least an equal possibility of an appearance question when the roles are commingled.

[12] I must note a separate but relevant matter that was established during the hearings involving Bill White, who had formerly been Senator Glenn's Administrative Assistant. Mr. White subsequently left Senator Glenn's staff and proceeded to serve as Chairman and Treasurer of the John Glenn Committee, Inc. Mr. White received a letter dated June 6, 1984 from Mr. Grogan. The letter began as follows: "Dear Bill: Many thanks for arranging to meet with Bob Kielty regarding the JHG fundraiser in Phoenix. Also many thanks for coordinating with Dan Dougherty, etcetera, regarding the proposed FHLB regulation limiting direct investments by insured institutions." (Sp. Coun. Ex. 33); (Glenn, 1/4/91, pp. 225–6).

In this instance the Committee did not feel it necessary to be critical of Senator Glenn for the fact that his fund-raiser, who was not on his Senate staff, was coordinating in substantive areas.

[13] The testimony of my Banking Committee aide, Ms. Jordan, substantiates Ms. Jacobson's. The Special Counsel asked her if it was the general philosophy of my office that donors could rightfully expect some kind of resolution of the issues that they brought to her. She replied that it was the policy of our office to respond to all inquiries. There was no mechanism for keeping staffers informed of who were contributors, nor any effort to do so in any way. Ms. Jordan certainly made no inquiries about whether somebody was a contributor before she decided how to act on a particular request. Ms. Jordan testified, "It was basically our posture that we resolved everything as far as one way or another, either for or against."

The Special Counsel asked Ms. Jordan how she set priorities, how she decided which complaints got handled first and the depth. She responded, "I've never had that problem. I can't remember having a problem like that where I had to stop doing something for one person to do something for another." (CJ, 6/27/90, pp. 57–8).

[14] I have testified twice as to why I did not walk away from Lincoln's problems—and away from the problems of thousands of my California constituents—when I heard that the regulators attending the April 9 meeting had revealed that earlier on that very same day they had decided to make a criminal referral re Lincoln (without indicating that it was aimed personally at Mr. Keating). (AC, 4/30/90, pp. 180–2; 10/16/90, pp. 26–7). See also testimony of Ms. Rosemary Stewart indicating that there was no evidence of misconduct by high level management of Lincoln. (Rosemary Stewart, 1/2/91, pp. 43–7).

[15] See Appendix III for details on these points.

[16] In one case in 1873 when the Senate investigated whether Senators Harlan and Patterson had been bribed by an offer of Credit Mobilier stock at preferential rates, the Senate also considered whether Senator Harlan's conduct violated ethical standards because of a related campaign contribution. A special Senate committee apparently found that the contribution was made to influence Senator Harlan, but the Committee recommended no disciplinary action because the contribution did "not appear to have influenced his action as a Senator." (pp. 59–60, Senate Legal Counsel Memorandum to Select Committee on Ethics, March 1991).

[U.S. Senate Select Committee on Ethics]

MY WRITTEN RESPONSE TO THE ETHICS COMMITTEE'S NOVEMBER 20, 1991, RESOLUTION FOR COMMITTEE ACTION

(By Senator Alan Cranston, U.S. Senate, Washington, DC, November 20, 1991)

INTRODUCTION TO MY WRITTEN RESPONSE TO THE ETHICS COMMITTEE'S NOVEMBER 20, 1991 RESOLUTION FOR COMMITTEE ACTION (ECR)

The following constitutes my response to the details of the Resolution for Committee Action issued by the Select Committee on Ethics on November 20, 1991. There are several inaccuracies and inconsistencies that occur in this *Resolution (ECR)* that the Ethics Committee has issued.[1]

In my Written Submission of April 22, 1991, (ACS), I already had pointed out most of these inaccuracies and inconsistencies and had supplied the Ethics Committee with the relevant documented facts. Many of these facts are ignored in the Resolution. The following primarily draws upon my Written Submission (ASC) to critique the erroneous material which appears in the Resolution.

ECR 1) a) (ii)

ECR 1) *Contacts with Federal Officials Regarding Lincoln S & L*

a) That the Committee finds that Senator Alan Cranston, personally or through Senate staff, made the following contacts with federal officials regarding Lincoln Savings and Loan (Lincoln), a subsidiary of American Continental Corporation (ACC), a company associated with Mr. Charles H. Keating, Jr.:

(ii) On March 27, 1987, following a discussion with a Lincoln lobbyist, Senator Cranston's banking aide inserted material into the *Congressional Record* relating to "direct investments" by Savings and Loans, an issue of importance to Lincoln and many other Savings and Loan institutions;

This statement is a distortion of the fact regarding a *Congressional Record* statement about an amendment to the Competitive Banking Equality Act of 1987 proposed by Senator Proxmire in the manager's amendments at the last minute which would overrule all state laws on the subject of direct investment. Senator Cranston's banking aide, Carolyn Jordan testified that she discussed the matter with Senator Proxmire's staff person who said the amendment was redundant and that they were going to remove it from the bill. Jordan went to the Senate "record" room after the Senate recessed that night and saw Senator Proxmire's statement regarding the amendment, but was unsure whether the amendment had actually been

---

Footnotes at end of article.

removed. Jordan testified that, "we looked at this as a State's rights issue as opposed to a direct investment issue." Jordan testified she was concerned and brought this to the attention of Senator Cranston's A.A., Roy Greenaway. Jordan testified "I did not insert [the statement myself], but I wrote the statement. . . . I gave it to our A.A. [Roy Greenaway] and he had a special assistant to sign it, and they took it to the *Congressional Record* room and that is how it was inserted." (Jordan, 12/11/90, pp. 143–4). She further testified, "It [the statement's insertion] was not done by me personally. The A.A. [Roy Greenaway] and his special assistant signed off on it, because it had to have Alan Cranston's signature on it." (Jordan, 12/11/90, p. 146).

Roy Greenaway, Senator Cranston's A.A., stated that "I am authorized to approve for inclusion in the *Congressional Record* statements which have not been personally reviewed by Senator Cranston. . . . Although I have no specific recollection . . . of approving this particular statement, I have no reason that I did not. Ms. Jordan's description of my actions with respect to this particular *Congressional Record* statement is consistent with my practice and with the office policy described in paragraph 4. . . . I am confident that I would have approved the statement for inclusion in the *Congressional Record*. . . ." (Roy Greenaway Aff., 1/14/91).

There is conflicting testimony concerning the reason for the statement's inclusion. Jordan repeatedly referred to the amendment as overturning the authority of the State of California and stated she did not talk to Grogan or anybody else at Lincoln at that time although she testified that she was aware of Lincoln's position on the issue. (Jordan 12/11/90, pp. 145, 136).

Grogan, however, testified that one of his lobbyists discovered the amendment had been slipped into the bill at the last minute and talked to Jordan about getting that removed and putting in legislative history to neutralize Senator Proxmire's statements. (Grogan, 12/14/90, pp. 146–47). Grogan, however, when confronted with Jordan's testimony stating she had acted on her own said, "I have no information that in any way makes me think that that is not absolutely the truth." (Grogan, 12/14/90, p. 149). When closely questioned, Grogan testified that whatever happened between [the Lincoln lobbyist] and Carolyn Jordan, Grogan [he was not present] and that the lobbyist had simply told him that the mission was accomplished; that they were going to get language to neutralize the Proxmire language. (Grogan, 12/13/90, p. 241).

ECR 1) a) (iii)

(iii) On April 2, 1987, Senator Cranston attended a meeting with FHLBB Chairman Edwin J. Gray and Senators Dennis DeConcini, John Glenn, and John McCain to discuss the ongoing examination of Lincoln.

ECR 1) a) (iii) omits a description of my participation in the April 2, 1987 meeting with FHLBB Chairman Edwin J. Gray and Senators DeConcini, Glenn and McCain to discuss the ongoing examination of Lincoln. *Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 12–15* states:

"The evidence shows that I played a very minor but proper role in the April 2 meeting. I asked why the audit was taking so long and agreed with Senator Glenn that if Mr. Keating had broken any law he should be prosecuted, but if he hadn't the regulators should get off his back. (AC, 4/30/90, pp. 131, 133); (Gray, 11/27/90, p. 51). The evidence shows that my participation in the April 9 meeting was essentially limited to sticking my head in the door for a minute. (AC, 4/30/90, p. 150); (Sp. Coun. Ex. 193).

"3. *No Causal Connection:* The Committee's findings conclude that each of the five Senators had information that reasonably caused concern about the fairness of the Bank Board's examination of Lincoln and that was sufficient to justify contacting Bank Board personnel. (Committee Statement, 2/27/91, p. 1, para. 4). The Committee found that, without regard to donations or other benefits, no Senator violated any law or Senate rule by attending the April 2 and 9 meetings. (Committee Statement, 2/27/91, p. 1, para. 1).

"The evidence shows that in that point in time all five of us had good reason:

To view Mr. Keating as a highly successful and respected businessman. "All five of us also knew that:

Alan Greenspan, who is now the Chairman of the Federal Reserve, had stated in his opinion that Lincoln was solvent for the foreseeable future. (Sp. Coun. Ex. 159); (AC, 4/30/90, p. 101).

Arthur Young, one of the "Big Eight" accounting firms, had found Lincoln to be in good shape and was very critical of the regulators.[2] (Sp. Coun. Ex. 161); (AC, 4/30/90, pp. 99–100).

"I had several additional reasons to be concerned about the fairness of the Bank Board's examination of Lincoln:

Lincoln was a California-chartered Savings and Loan. Many thousands of its employees and depositors were my constituents. Their jobs and financial security were at risk.

I was aware—as perhaps the other Senators were not—that the Arthur Anderson firm, another of the "Big Eight" accountants, had found Lincoln to be in good shape and had grave questions about the performance of the regulators. (AC, 4/30/90, p. 102).

I previously had engaged in a confrontation with Mr. Gray, the Chairman of the Bank Board, and had the clear impression that he was incompetent. (AC, 4/30/90, pp. 106–9).

Mr. Gray had worked in public relations for a savings and loan institution in San Diego, California, before he was appointed to chair the Bank Board. I knew he had a poor reputation in the San Diego business community. (AC, 4/30/90, p. 107).

I knew that a principal newspaper in California, the Los Angeles Times, had called for Mr. Gray's resignation from the Bank Board after the General Accounting Office found he had misused $27,000 of public funds. (*Id.*; Cranston Ex. 57); (AC, 4/30/90, p. 92).

"Thus the *evidence is overwhelming* that (a) I had many sound and official reasons to participate in the April meetings, where I played a very minor and proper role, and (b) the donation was solicited and received weeks before I knew of the April meetings. The preponderance of the evidence shows that the donation was solicited and received before *anyone* even conceived of the meetings.

"There is no evidence—nor could there be—that I attended the April meetings because of the donation."

ECR 1) a) (v)

(v) In July or August of 1987, Senator Cranston called M. Danny Wall, then Chairman of the FHLBB, concerning Lincoln.

Clarification of this point is necessary. Wall did testify that I called him in July or August of 1987 regarding Lincoln. Wall testified, *however*, that I simply made "the observation that he understood that there was an examination that had been underway for in excess of a year, he understood that to be unusual—which it was; and that he urged the Board to make a decision, not in any way indicating what the Board's decision should be, but that we ought to make a decision and get on with it." (Wall, 12/4/90, 19–20). I do not have any independent recollection of this contact (Taylor Submission, 1/30/91, p. 15).

ECR 1) a) (vi)

(vi) On Nov. 12, 1987, Senator Cranston called Chairman Wall and discussed Lincolns' dispute with the San Francisco FHLB regulators.

The word, "discussed", is a distortion of the facts. *Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 16–17*, states:

"2. *Official Action:* My notes about the call to Mr. Wall establish that it was a status inquiry.[3] I asked if the end of the audit of Lincoln was in sight. Mr. Wall and I also discussed the personality problems between Lincoln and the San Francisco regulators. (Sp. Coun. Ex. 147). Mr. Wall's testimony confirmed this. (Wall Affidavit, Sp. Coun. Ex. 428, p. 12, para. 10 h.). Mr. Wall also testified that I did not urge him to take any particular course of action. (Wall Affidavit, Sp. Coun. Ex. 428, p. 12, para. 10 h.).

"Furthermore, there is *no* evidence that I attempted to influence the regulatory actions of Mr. Wall *or any other* regulator at any time. Every regulator who was called as a witness or in an affidavit testified that none of his or her actions were influenced by any action from office or from me. (Wall Affidavit, Sp. Coun. Ex. 428, p. 6, para. 9); (Rosemary Stewart, 1/2/91, pp. 10–11, 196); (Wall, 12/4/90, pp. 104, 116, 181–2, 184, 191); (Martin, 12/3/90, p. 58; Martin Affidavit, Sp. Coun. Ex. 17, para. 11); (Gray, 11/27/90, p. 97); (Patriarca, 11/27/90, p. 147); (Black, 12/6/90, pp. 29–30); (Cranston Ex. 78, Dochow Aff. Attachments A–1 at 19–20 & A–2 at 41).

"3. *No Causal Connection:* It flies in the face of logic and my personal history to suggest that a reasonable person would deem it necessary for anyone to donate or contribute *anything* to me in order to get me to do *anything*.[4]"

ECR 1) a) (vii)

(vii) On Jan. 20, 1988, Senator Cranston called Chairman Wall and asked him to meet with Charles Keating.

This is a distortion of the facts. *Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), p. 22 states:*

"I have testified that I called Mr. Wall on January 20, 1988 and asked him if he would be willing to see Mr. Keating. Mr. Wall responded to me that he was willing to meet with Mr. Keating but it might not be ncessary because he thought the problem between Mr. Keating and the Bank Board was being worked out. During my conversation with Mr. Wall, no commitment was made to meet, nor was a firm meeting date arranged. (AC, 4/30/90, p. 249). Mr. Wall testified that he was not sure if I had asked him to meet with Mr. Keating. (Wall Test., 12/4/90, pp. 33 & 131). There is *no evidence that I even knew about the meeting* that did occur on January 28, 1988. I did not set it up. The arrangements must have been made by Messrs. Keating and Wall or their assistants.

"3. *No Causal Effect:* Once again, it flies in the face of logic and my personal history to suggest that a reasonable person would deem it necessary for *anyone* to make *any* donation in order to induce me to do *anything* or to *reward* me for doing it. I made the call to Mr. Wall regarding a major California business in view of apparent regulatory excesses that were amounting to harassment. The Committee has stated: (a) Senators should and do provide such constituent services; and (b) that there were sufficient reasons to contact the Bank Board regarding Lincoln. (Senate Ethics Committee Statement, 2/27/91, p. 1, para. 4).[5]"

ECR 1) a) (viii)

(viii) On February 16, 1988, Senator Cranston called Chairman Wall and his notes indicate discussion of Lincoln.

There is evidence to the *contrary* regarding the subject of the call. My handwritten notes indicates a call to Wall on that date. (Cranston Ex. 173). However, in my deposition on April 30, 1990 (pp. 230–31), I replied to Special Counsel Bennett's questions regarding my notes of the 2/16/88 phone call: "I do not believe this call had anything to do with Lincoln or Keating in any way. I'm not positive of that but that is my impression from the notes."

Furthermore, there is no further reference to this call in Wall's affidavit or testimony before the Committee.

ECR 1)a)(ix)

(ix) On April 21, 1988, Senator Cranston called Chairman Wall to obtain a status report on Lincoln;

This is a *distortion* of the facts. Senator Cranston Exhibit 179 consists of my handwritten notes apparently of a phone call made on April 21, 1988 to Wall. Lincoln Savings appears to be one of several matters discussed (item 3). In my deposition on April 30, 1990 (p. 251–4), I translated the notes as follows: "April 21. I had a conversation with Wall on several matters. The notes indicate that it covered four points, only two of which related to Keating." I went on to describe the other items which involved two other institutions unrelated to Lincoln. Item three related to Lincoln and I testified that he presumed he asked Wall what was happening and Wall responded he was trying to resolve it and nothing more was said or I would have made a note. The last item related to a general FSLIC issue (recapitalization etc.) and the notes reflect that Wall had indicated that he had all views on the issue, including Keating's.

ECR 1) a) (x)

(x) On May 6, 1988, after receiving a telephone call from James Grogan, an ACC attorney, Senator Cranston's banking aide talked to FHLBB officials about the FHLBB's proposed supervisory agreement with Lincoln;

The statement is misleading and does not contain all the relevant facts. Cranston Ex. 150 is a memo from Ms. Jordan to me and Roy Greenaway, my A.A., dated May 6, 1988. It states that Ms. Jordan had received a call from Jim Grogan. Grogan told Ms. Jordan that the Board had met and decided to take enforcement action against Lincoln, including a supervisory agreement that triggered required reports to shareholders and the public, which would have an adverse effect on value of stock, etc.

Ms. Jordan's memo goes on to say that she called FHLBB and talked to Jim Boland, a special assistant to Wall and Carl Hoyle, Congressional Affairs, in a 3-way call. The memo indicates Ms. Jordan told them I was very concerned about using the supervisory approach. It describes the situation and discusses upcoming hearings in the Banking Committee on oversight of FSLIC and suggests that this issue could be raised at that time.

I stated that until I received Ms. Jordan's memo I was unaware that Grogan had called her or that Ms. Jordan had called Hoyle and told him that I was concerned about any action they proposed to take. My affidavit further states that I took no action as a result of the memorandum. (Cranston Ex. 82, p. 5). In my deposition, I said I did not recall authorizing Ms. Jordan to make these statements, but that it was consistent with my general views of the situation. (AC, 4/30/90, pp. 256–60).

ECR 1) a) (xi)

(xi) On May 16, 1988, Senator Cranston met with Chairman Wall, and Lincoln was discussed.

This point *distorts* the facts. The "discussion" was in reality a very limited status inquiry.

Initially, I did not recall discussing Lincoln at that meeting. However, after Wall testified that I had asked him when a decision would be made regarding Lincoln, I stated in my January 12, 1991 affidavit that "I recall very little about my meeting with Chairman Wall on May 16, but I believe he is correct in his testimony that when I saw him that month, we talked about a number of matters, and I inquired as to the status of the Lincoln matter. I did not complain about the Board's decision. I did not urge that the Board change or modify its decisions. I did not discuss with Mr. Wall any on going negotiations between the Bank Board and Lincoln." (Cranston Ex. 82, p. 6.).

Wall supported this statement in both his affidavit and testimony. In his affidavit, he stated, "To the best of my recollection, Senator Cranston asked when a decision would be made by the Board regarding Lincoln. The Senator did not suggest a course of action that he thought the Board should take. He repeated that he understood the examination of Lincoln was still pending and he urged that it be concluded." (Wall Aff., p. 13; 12/4/90, p. 56).

ECR 1) a) (xii)

(xii) On February 8 and 9, 1989, Senator Cranston called Chairman Wall and Federal Deposit Insurance Corporation Chairman L. William Seidman concerning the proposed sale of Lincoln and, on February 8, Senator Cranston's banking aide called an FHLBB official about Lincoln;

This statement is a *distortion* of the facts. *Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 27–8* states:

"Both Mr. Wall and Mr. Martin testified that in none of my calls did I urge final approval of any sale, and that there was nothing improper about the nature of my calls. (Sp. Coun. Ex. 428, Wall Affidavit, para. 10h, 12); (Sp. Coun. Ex. 17, Martin Affidavit, para. 11). The Resolution fails to describe the very limited and non-advocacy nature of my calls. It also fails to note that when Messrs. Keating or Grogan asked me to push hard for the approval of a specific sale of Lincoln, I refused to do so. (AC, 5/7/90, pp. 327–8); (Wall, 12/4/90, p. 91).

"3. *No Causal Connection:* It is again absurd to suggest that a donation of *any* sort would be necessary to motivate me to help my California constituents. There is no evidence that I contacted the Bank Board regarding the potential sale of Lincoln because of any donation. I made the calls because a proper sale would resolve a situation that otherwise could have led to a financial catastrophe in my state, California, that would have financially injured constituents of mine."

"The Resolution ignores my true motivation for making the telephone calls between February and April, 1989, instead favoring the *inference* that calls were motivated by a possible charitable donation that was never made. This inference ignores my legitimate motivation: to prevent financial damage to many of my constituents."

Furthermore, the report fails to clarify the nature of my banking aide's inquiry. Taylor's Post-Hearing Submission of January 30, 1991, (page 16, fn. 11) describes the call as follows: "Ms. Jordan called Mr. Dochow on February 8 to inquire about whether there was a pending application to buy Lincoln. (Cranston Ex. 78, Dochow Aff. 6). It was on this occasion that Ms. Jordan first learned that there was a dispute about whether Lincoln satisfied its net worth requirements (Jordan, 12/11/90, p. 107). Mr. Dochow testified that Ms. Jordan did not urge that the Bank Board take any particular action with respect to the sale and that he viewed Ms. Jordan's call as a proper status inquiry. (Cranston Exhibit 78 (Dochow Aff. 6)."

ECR 1) a) (xiii)

(xiii) In early April 1989, Senator Cranston called all three members of the FHLBB concerning the proposed sale of Lincoln.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 26–28 states:

"2. *Official Action:* I called Chairman Wall and Bank Board Members Roger Martin and Larry White between February and April 1989 for the sole and limited purpose of urging that careful consideration be given to three different proposed sales of Lincoln.

"Both Mr. Wall and Mr. Martin testified that in none of my calls did I urge final approval of my sale, and that there was nothing improper about the nature of my calls. (Sp. Coun. Ex. 428, Wall Affidavit, para. 10h, 12); (Sp. Coun. Ex. 17, Martin Affidavit, para. 11). The Resolution fails to describe the very limited and non-advocacy nature of my calls. It also fails to note that when Messrs. Keating or Grogan asked me to push hard for the approval of a specific sale of Lincoln, I refused to do so. (AC, 5/7/90, pp. 327–8); (Wall, 12/4/90, p. 91).

"3. *No. Causal Connection:* It is again absurd to suggest that a donation of *any* sort would be necessary to motivate me to help my California constituents. There is no evidence that I contacted the Bank Board regarding the potential sale of Lincoln because of any donation. I made the calls because a proper sale would resolve a situation that otherwise could have led to a financial catastrophe in my state, California, that would have financially injured countless constituents of mine.

"For whatever reason, none of the sales materialized. However, the concerns that motivated my calls did occur. The consequences have been catastrophic: a cost to taxpayers presently estimated by the Resolution Trust Corporation to be $2.6 billion; tragic losses of the life savings of 23,000 Californians, mostly elderly and infirm, who bought approximately $200 million in now worthless debentures at Lincoln; and the loss of many jobs in California. The Committee correctly found that my contacts with regulators and those of the other four Senators were not the cause of the eventual failure of Lincoln or the thrift industry in general. (Committee Statement, 2/27/91, p. 1, para. 5).

"The Resolution ignores my true motivation for making the telephone calls between February and April, 1989, instead favoring the *inference* that the calls were motivated by a possible charitable donation that was never made. This inference ignores my legitimate motivation: to prevent financial damage to many of my constituents.

"Here, again, unsubstantiated inferences based solely on mere coincidence of time *cannot be a substitute* for evidence of a casual connection between a solicitation and an official action."

ECR 1) c)

ECR 1) *Contacts with Federal Officials Regarding Lincoln S & L*

c) The Committee further finds that, when considered in and of themselves and without regard to any contribution or other benefit, none of Senator Cranston's aforementioned activities concerning Lincoln were illegal or improper and violated no law or Senate rule.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), p. 52 states:

"The Resolution fails to make clear that *all* the contacts I had with regulators during this time—and at all other times—were, standing alone, not only proper, as the Committee's Statement of February 27, 1991 acknowledges, but were also de minimis. The established fact is that they were all routine status inquiries, or requests that somebody see somebody, or requests that various proposed sales of Lincoln be carefully considered. The Committee fails to make clear that in *none* of the contacts I made did I ever advocate any particular action. It fails to make clear that I *never* urged the regulators to take or refrain from any particular action.

"Thus the alleged improprieties that the Resolution suggests occurred arise solely because of routine, non-substantive inquiries I made on behalf of constituents that may have been in some way proximate in time to the solicitation or receipt of charitable or related donations."

ECR 2) a) (i)

ECR 2) *Solicitations and Contributions*

a) The Committee finds that, prior to 1987:

(i) Mr. Keating, his associates, and friends contributed a total of $49,000 to Senator Cranston's 1984 Presidential Campaign and his 1986 Senatorial Campaign;

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), p. 40 states:

"Clearly all five Senators had varying degrees of involvement in respect to Lincoln. Mr. Keating and his friends and associates contributed more political contributions to the campaigns and P.A.C.s of each of the other four Senators, who had direct control over these funds, than to mine. The totals:

Glenn	$252,200
McCain	110,000
DeConcini	85,000
Riegle	78,250
Cranston	49,000"

ECR 2) a) (ii)

ECR 2) *Solicitations and Contributions*

a) The Committee finds that, prior to 1987:

(ii) At Senator Cranston's request, Mr. Keating also caused a contribution of $85,000 to be made by ACC to the California Democratic Party get-out-the-vote campaign in the Fall of 1986.

The resolution omits to mention the bipartisan nature of Mr. Keating's donation. I state in my deposition, "Keating did contribute $85,000 to a partisan get-out-the-vote drive conducted in 1986 in California when I was running . . . I would like to point out he also gave $80,000 to the Republican party, for a get-out-the-vote drive which was harmful to me, so that was sort of a net wash." (AC, 4/30/90, p. 40).

ECR 2) a) (iii)

(iii) At the request of Senator Cranston's chief fund raiser, Lincoln also made a $300,000 line of credit available to Senator Cranston's campaign in the fall of 1986 on an expedited basis, although this line of credit was never used.

Senator Cranston's Letter to Senator Heflin, September 12, 1991, Re Response to Bennett/Helms leak, pp. 13–14 states:

"Loans or lines of credit are often taken out on an expedited basis in the closing, crisis moments of campaigns when fears develop that there will be a fatal, last-minute shortage of the cash needed for victory.

"There was no benefit to my campaign, since the line of credit was not used.

"There was *never* any intention that this line of credit was to be for my personal use or benefit, and there is *no* evidence indicating any such intention. At the time, I was totally engaged in the closing stage of a very close election, and obviously had no time or inclination to deal with my personal finances. The Finance Director for my campaign arranged the loan. She testified that the loan was solicited by her to enable the campaign to pay for last-minute media buys, if needed, and that use of funds was to be solely upon her discretion and authority. (Jacobson, deposition H, P. 87-95. Also B.H., P. 214, footnote 850). Mr. Grogan confirmed in his testimony that Ms. Jacobson solicited the loan, that he understood it to be personal to me, but that he did not know whether ultimately that was the case. (J.G., 12/14/90, p. 138–9 & Grogan, Dep. S1, p. 134–135; Also, B.H., p. 214, footnote 850). If there was ever any discussion of making the line of credit to me personally, I was not aware of it, and that would only have been discussed because those willing to consider making loans to be used for campaign purposes prefer to make them to individuals, not to incorporated campaigns where future repayments are likely to be far more difficult to obtain. In any event, the line of credit was set up to my campaign on an arms-length, purely business-like basis, and I was *required* to make my personal property available as surety."

ECR 2) b)

b) The Committee also finds that, beginning in 1987, Senator Cranston solicited contributions from Mr. Keating for several voter registration organizations with which Senator Cranston was affiliated:

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), p. 51 states:

"The Resolution easily could give the erroneous impression to anyone not familiar with the facts that the donations referred to were all of a political nature to some campaign or P.A.C. of mine. It omits any reference to the established and undisputed fact that 85.3% of the money—totaling $725,000—that Mr. Keating donated from early 1987 through April, 1989 was in the form of I.R.S. approved 501(c)(3) tax-deductible charitable donations to organizations that were not under my control and whose use of the money was not under my control. Furthermore, I held no position in any of these organizations, nor did I serve on any of their boards.

"In addition, Mr. Keating donated $125,000 to America Votes, an organization that raised tax-deductible charitable donations for I.R.S. approved 501(c)(3) independent, non-partisan, grass roots, voter registration organizations in approximately 20 states during 1987 and 1988.

"The Resolution fails to point that *none* of Mr. Keating's donations which are being questioned during this period was in the form of a political contribution to any campaign of mine. Only $10,000 was to a federal P.A.C. that I organized."

ECR 2) b) (ii)

(ii) the Senator solicited $250,000 for voter registration groups on September 24, 1987, and Keating affiliated companies contributed $225,000 to the Forum Institute (a 501(c)(3) tax-exempt organization) and $25,000 to USA Votes on November 6, 1987;

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 16 & 17 states:

"1. *Donation:* . . . The Resolution fails to make clear that these were *not* political contributions to any campaign of mine or to my P.A.C. I received no direct political benefits from the donations.

"$225,000 was in the form of a charitable donation to Forum Institute, an I.R.S. approved 501(c)(3) tax-deductible organization. Forum distributed funds to non-partisan, 501(c)(3), grass roots organizations that registered voters in approximately 20 states. (Sp. Coun. Ex. 145). I accepted the check on behalf of Forum and turned it over to Forum. I had no control over Forum or how the money was used. The independent officers and directors of Forum had that control. (Harmon Affidavit, Sp. Coun. Ex. 501, para. 13).

"$25,000 was in the form of a contribution to USAVotes (formerly America Votes) to support its efforts to raise charitable donations for I.R.S. approved 501(c)(3) nonpartisan registration groups. (Sp. Coun. Ex. 146).

"The Resolution also fails to mention that the donations were agreed to before October 6, 1987 (Sp. Coun. Ex. 182), more than a month prior to my status inquiry call to Mr. Wall."

ECR 2) b) (iii)

(iii) the Senator discussed the Center for Participation in Democracy (a 501(c)(3) tax-exempt organization) with Mr. Keating on January 8, 1988, and ACC donated $400,000 to the Center for Participation in Democracy and $100,000 to the Forum Institute on February 10, 1988;

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 19–23 states:

"1. *Donation:* The Resolution incorrectly insinuates that (a) in January, 1988, Mr. Keating offered to make an additional charitable donation in connection with his asking me to set up a meeting for him to meet with Mr. Wall; and (b) based on my setting up the meeting, Mr. Keating made charitable donations in February. The Resolution's insinuation is unfair and inaccurate and cannot be substantiated in any way.

"There is *no* clear and convincing evidence that Mr. Keating offered to make an additional donation in January, 1988.

"Mr. Keating did make two charitable donations to voter registration groups on February 10, 1988 in Phoenix. The Resolution omits the fact that these were *two* I.R.S. approved charitable, tax-deductible donations to 501(c)(3) organizations for non-partisan, voter participation efforts. One was to Forum Institute, an organization I've already described. The other was to The Center for Participation in Democracy, that engaged in and supported non-partisan registration drives in several states. *Neither* of these two organizations, nor the use of the money, was under my control.

"Regarding this period, there is considerable testimony about a dinner I attended in January with Messrs. Keating, Grogan, and others. Mr. Grogan testified that he recalls no discussion of fund-raising at the dinner. (JG, 12/14/90, p. 166; 12/13/90, p. 24 & p. 265). My son, Kim Cranston, who was present, testified that he recalls no specific offer of support by Mr. Keating (KC, 6/28/90, p. 15). I testified similarly that (a) I did not solicit any funds at the dinner, (b) that I did not recall the discussion of any specific funds, and (c) Mr. Keating may have indicated in a *vague* way that he would continue to support registration efforts. (AC, 4/30/90, p. 191; 10/16/90, p. 87).

"Mr. Grogan testified that he was not aware of any solicitation that preceded my February 10 visit to Phoenix. (JG, 12/13/90, pp. 261–2).

"My visit to Phoenix had been in the works since at least September of the previous year. (JJ, 12/3/90, pp. 164–6). Messrs. Keating and Grogan had a long standing policy of inviting members of Congress, their staffs, and others to visit Phoenix to see the Lincoln/American Continental Corporation operation first hand. Many Congressmen and staff members have visited his company in Phoenix. Mr. Grogan testified that he had invited me to visit Phoenix several times. (JG, 12/14/90, pp. 169–70; 12/15/90, pp. 119–20). I had wanted to visit to see for myself the type of operation Mr. Keating was running. (AC, 4/30/90, p. 184). This was the first time that my schedule permitted this trip. (JJ, 7/19/90, p. 167); (JG, 12/13/90, p. 17). Ergo, this trip *was totally coincidental* to the Wall/Keating meeting. It *had no connection* with the Wall/Keating meeting.

"It is also equally coincidental that this trip finally occurred at the beginning of a new year, and thus coincided with the timing implicit to Ms. Jacobson's practice of seeking contributions from individuals twice in a given year—early and late. (JJ. 12/2/90, p. 161). Ms. Jacobson, in her capacity as a part-time USAVotes employee, had written me a memo dated February 4, 1988, stating that the main goal concerning Mr. Keating was to receive a charitable donation as soon as possible so that he could be asked for an additional donation in the fall. (Sp. Coun. Ex. 269). She testified that the timing of solicitations of donations was largely driven by her own timetable and that charitable giving is based on an annual cycle. (JJ, 12/3/90, pp. 176, 219).

"By happenstance, this trip to Phoenix was also consistent with my practice of going to visit potential donors—rather than inviting them to visit me—to get help for the registration efforts. (AC, 10/16/90, p. 87); (JJ, 12/3/90, p. 143).

"2. *Official Action:* There is *no evidence* that Mr. Keating committed to make a specific donation in connection with asking me to set up an appointment with Chairman Wall to see him.

"The evidence shows only that Ms. Jacobson sent me a memo dated January 18, 1988 relaying a request to her from Mr. Grogan that I help schedule a meeting between Messrs. Keating and Wall. (Sp. Coun. Ex. 172).

"I have testified that I called Mr. Wall on January 20, 1988 and asked him if he would be willing to see Mr. Keating. Mr. Wall responded to me that he was willing to meet with Mr. Keating but it might not be necessary because he thought the problem between Mr. Keating and the Bank Board was being worked out. During my conversation with Mr. Wall, no commitment was made to meet, nor was a firm meeting date arranged. (AC, 4/30/90, p. 249). Mr. Wall testified that he was not sure if I had asked him to meet with Mr. Keating. (Wall Test., 12/4/90, pp. 33 & 131). There is *no evidence that I even knew about the meeting* that did occur on January 28, 1988. I did not set it up. The arrangements must have been made by Messrs. Keating and Wall or their assistants.

"3. *No Causal Effect:* Once again, it flies in the face of logic and my personal history to suggest that a reasonable person would deem it necessary for *anyone* to make *any* donation in order to induce me to do *anything* or to *reward* me for doing it. I made the call to Mr. Wall regarding a major California business in view of apparent regulatory excesses that were amounting to harassment. The Committee has stated: (a) Senators should and do provide such constituent services; and (b) that there were sufficient reasons to contact the Bank Board regarding Lincoln. (Senate Ethics Committee Statement, 2/27/91, p. 1, para. 4).[6]

"There is no evidence of a causal connection between my January 20, 1988 telephone call and the charitable donations. There is no specific evidence that there was even a solicitation of Mr. Keating or a discussion of any donation prior to the February 10, 1988 trip.[7] In fact, for six months there had been efforts to schedule a trip to Phoenix that finally occurred in February, 1988 and resulted in the receipt of charitable donations. *It is pure coincidence* that the trip finally was scheduled and the donations were received three weeks after my telephone call to Mr. Wall.

"Coincidence in time and unsubstantiated inferences about proper inquiries such as my telephone call and receipt of charitable donations on a trip that had been in the making for many months cannot properly substitute for the lack of clear and convincing evidence of improper linkage, particularly where there is a factual and convincing evidence that Mr. Keating *did not* ask me to set up a meeting in connection with a solicitation of a donation of any type."

ECR 2) B) (iv)

(iv) in early 1989, the Senator or his chief fund raiser discussed an additional voter registration contribution with either Keating or ACC attorney, James Grogan, but no further contributions were made to voter registration organizations.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 24–30 states:

"1. *Donation:* The Resolution fails once again to point out that this was a solicitation of an I.R.S. approved 501(c)(3) charitable tax-deductable donation, the use of which I did not control. It was *not* a solicitation of political contributions for my benefit. The Resolution accurately states that this donation was never made.

"The Resolution's description of [his chief fund raiser], Ms. Jacobson is misleading. In early 1987, she directed the fund-raising staff of the Democratic Senatorial Campaign Committee. At the time in question, early 1989 (and for more than a year before that) she was spending 50% of her time as a consultant to the Democratic Senatorial Campaign Committee; 25% as a consultant to a P.A.C. I founded (Committee for a Democratic Consensus); and 25% as a consultant under contract to USAVotes to raise charitable donations for registration efforts.

"Mr. Rob Stein, the Executive Director of USAVotes, was in charge of its over-all operations. I was one of three co-chairmen of USAVotes. I was not the direct supervisor of Ms. Jacobson in her capacity as a part-time employee of USAVotes, nor was I the direct supervisor of any other USAVotes employees.

"There is conflicting testimony concerning who solicited Lincoln at this time. I have testified that I do not recall discussing a donation with Messrs. Keating, Grogan or anybody during this period. (AC, 10/16/90, p. 68; 5/17/90, p. 299). I do not believe such a discussion ever took place. Mr. Grogan, when asked whether anybody on my staff or I solicited a donation from him or Mr. Keating during this period, testified that Ms. Jacobson, not I, discussed a donation with him. (JG, 12/14/90, pp. 179–80). Ms. Jacobson's recollection was that I solicited Mr. Keating during the period. (JJ, 12/3/90, pp. 167–8).

"I believe the following shows that Ms. Jacobson initiated the solicitation and that she did so without my knowledge.

"A memorandum from Joy Jacobson to me and to Rob Stein, the Executive Director of USAVotes, dated March 1, 1989, written on her home computer, shows that I did not make the solicitation and illustrates the mechanics of how the staff of USAVotes and I worked to solicit charitable donations. (Sp. Coun. Ex. 171). It was Ms. Jacobson's job to come up with the names of people, foundations and organizations which she thought would be potential donors. She would write a memorandum with the potential donors' names, suggestions as to who should contact them, and the amounts to be requested. When I reviewed it, I would look down the list for the names suggested for me. I would systematically try to call most, but not necessarily all, of the names suggested to me. When my part of the list was complete. I would hand it back with my notes about the calls to my secretary. She would report these results back to Ms. Jacobson.

"There are 18 names of potential donors of the March 1, 1989 memo. My handwritten notes or my secretary's notes appear under 12 of those names—only those that were proposed as my assignments.

"It is clear that Ms. Jacobson assigned herself three names on the first page: AFSCME, Dick Darling, and Charlie Keating. After Mr. Keating's name these words are typed in the memo: 'Joy is talking with Jim Grogan, 100,000 whenever it's needed.'

"This evidence corroborates Mr. Grogan's testimony that Ms. Jacobson, not I, made this solicitation. It indicates that her memory was incorrect when she testified that I solicited Mr. Keating. It shows that on the date of the memo, March 1, 1989, she had already discussed a $100,000 donation with Mr. Grogan.

"Ms. Jacobson's solicitation of Mr. Grogan is consistent with her explanation in her testimony 'that the first group you go back to [at the beginning of each year is] your past donors and try to renew them.' (JJ, 12/3/90, p. 161). Her solicitation of Mr. Grogan on her own is further evidenced by Ms. Jacobson's statement that 'the timing of the fundraising was something that was driven by my finance plan. If anyone was controlling the timing, I would say I was.' (JJ, 12/3/90, p. 176). She also stated that I never suggested to her to time any request for a donation to coincide with anything before the Bank Board or with any other event or events. (JJ, 12/3/90, pp. 175–6).

"2. *Official Action:* The record shows that, working on an entirely different track from Ms. Jacobson, I called Chairman Wall and Bank Board Members Roger Martin and Larry White between February and April 1989 for the sole and limited purpose of urging that careful consideration be given to three different proposed sales of Lincoln.

"Both Mr. Wall and Mr. Martin testified that in none of my calls did I urge final approval of any sale, and that there was nothing improper about the nature of my calls. (Sp. Coun. Ex. 428, Wall Affidavit, para. 10h, 12); (Sp. Coun. Ex. 17, Martin Affidavit, para. 11). The Resolution fails to describe the very limited and non-advocacy nature of my calls. It also fails to note that when Messrs. Keating or Grogan asked me to push hard for the approval of a specific sale of Lincoln, I refused to do so. (AC, 5/7/90, pp. 327–8); (Wall, 12/4/90, p. 91).

"3. *No Causal Connection:* It is again absurd to suggest that a donation of *any* sort would be necessary to motivate me to help my California constituents. There is no evidence that I contacted the Bank Board regarding the potential sale of Lincoln because of any donation. I made the calls because a proper sale would resolve a situation that otherwise could have led to a financial catastrophe in my state, California, that would have financially injured countless constituents of mine.

"For whatever reason, none of the sales materialized. However, the concerrns that motivated my calls did occur. The consequences have been catastrophic: a cost to taxpayers presently estimated by the Resolution Trust Corporation to be $2.6 billion; tragic losses of the life savings of 23,000 Californians, mostly elderly and infirm, who bought approximately $200 million in now worthless debentures at Lincoln; and the loss of many jobs in California. The Committee correctly found that my contacts with regulators and those of the other four Senators were not the cause of the eventual failure of Lincoln or the thrift industry in general. (Committee Statement, 2/27/91, p. 1, para. 5).

"The Resolution ignores my true motivation for making the telephone calls between February and April, 1989, instead favoring the *inference* that the calls were motivated by a possible charitable donation that was never made. This inference ignores my legitimate motivation: to prevent financial damage to many of my constituents.

"In response to the inference I point to the clear and convincing evidence that (a) I did not solicit a charitable donation, and that (b) I did not know that Ms. Jacobson had made a solicitation until I read her memo of *March 1, 1989*. Once I knew, the knowledge had no effect on my conduct.

"Ms. Jacobson testified that she was not aware that Messrs. Keating or Grogan was talking to me about the sale, nor that I was being asked to do anything about it. (JJ, 7/19/90, p. 179).

"*There is absolutely no evidence* of any causal connection between (a) Ms. Jacobson's solicitation, and (b) my telephone calls in 1989 to regulators regarding possible sales of Lincoln. Here, again, unsubstantiated inferences based solely on mere coincidence of time *cannot be a substitute* for evidence of a causal connection between a solicitation and an official action.

"The *fair inference* from the record is that Ms. Jacobson was on one track following up according to her standard practice with one of the few established contributors whom she solicited personally and regularly at the beginning of each year. Meanwhile, I was on another track taking very limited official actions contacting regulators regarding the possible sale of Lincoln—actions for which there was clear and independent constituent related justification. Senator DeConcini made the same type of inquiries for similar reasons.

"I remind the Committee again of Mr. Grogan's response when my attorney asked him the following question: 'Was there any suggestion, either by word or by body language, or by raised eyebrow, that Senator Cranston's interest in Lincoln Savings' problems was tied to Mr. Keating's support of the non-profit voter registration effort?' Mr. Grogan replied, 'Never.' (JG, 12/15/90, p. 132).

"The Special Counsel has cited no evidence that Mr. Keating authorized donations only on condition that I would help him, or because I had helped him. He cited no evidence that I agreed to help only if Mr. Keating contributed.[8]"

ECR 3)

ECR 3) *Linkage between Official Actions and Contributions*

The Committee finds that, in and of themselves, none of the foregoing actions of Senator Cranston violated any law or Senate Rule. The Committee further finds by clear and convincing evidence that, based upon the totality of the circumstances, Senator Cranston engaged in an impermissible pattern of conduct in which fund raising and official activities were substantially linked in connection with Mr. Keating and Lincoln.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 3 & 4 states:

"I will show that there is *no direct evidence* of any such causal link. I will cite clear and convincing evidence that there were other causes—very legitimate causes—for my official actions.

"The Resolution *infers* a causal connection from the proximity in time between the charitable donations and the official actions. Proximity in time is *not* clear and convincing evidence that the charitable donations caused my official actions. The Resolution's *inference* of a causal connection cannot survive dispassionate, reasoned analysis. It cannot be a substitute for clear and convincing evidence. The inference is particularly inappropriate and unfair given that my conduct was *not different in kind*, as I will show, from that of other Senators who have been under inquiry. The Resolution did not draw such adverse inferences against them.

"In retrospect, I can see that the proximity in time between the charitable donations and the official actions could lead to an appearance of impropriety where no impropriety existed. I wish I had foreseen this development—I have always endeavored to avoid appearances or actions that could reflect adversely upon the Senate or myself.[9]

"I acknowledge and I accept the consequences of an appearance of impropriety due to proximity of time.

"However, since timing and appearances did not warrant institutional action in the cases of the other Senators, it should not in my case.

"The Senate has never set standards *of any kind* governing the timing of contributions of any kind in relationship to legitimate constituent services. I fully recognize that if a Senator engages in conduct that is inimical to generally accepted and understood standards and values, the Senate has an obligation to find that Senator guilty of improper behavior, although his conduct does not violate a specific law or Senate Rule. There is no evidence that I engaged in any improper conduct.

"Without clear and convincing evidence of actual impropriety, there is no justification for subjecting me to disciplinary action. There is *no precedent* for the Senate disciplining a Senator for actions such as mine. The Senate has *never* determined that it is an ethics violation for a Senator to engage in legitimate constituent service on behalf of a contributor because it was—or might appear to be—close in time to a lawful donation to the Senator's campaign or to a charity the Senator supports. To do so now would be contrary to the principles of the Senate and a violation of traditional concepts of fair play by proceeding in an *ex post facto* fashion.

"In every case of financial impropriety considered by the Senate throughout its history, the alleged misconduct was the use of public office for a Senator's *private* profit. Neither any member of my family nor I received any compensation or personally benefitted in any way from these charitable contributions. I had no financial interest in Lincoln Savings, its parent, or affiliates. I received no income from it."

ECR 3) a) (1)

ECR 3) *Linkage between Official Actions and Contributions*

The Committee finds that, in and of themselves, none of the foregoing actions of Senator Cranston violated any law or Senate Rule. The Committee further finds by clear and convincing evidence that, based upon the totality of the circumstances, Senator Cranston engaged in an impermissible pattern of conduct in which fund raising and official activities were substantially linked in connection with Mr. Keating and Lincoln.

a) From early 1987 through April 1989, Senator Cranston personally or through Senate staff contacted the FHLBB on behalf of Lincoln during a period when he was soliciting and accepting substantial contributions from Mr. Keating or his affiliates, to wit:

(i) As a result of a solicitation from Senator Cranston in early 1987, Mr. Keating contributed $100,000 to America Votes on March 3, 1987 near the time when Senator Cranston participated in the April 2 and April 9, 1987 meetings with FHLBB Chairman Edwin J. Gray and the San Francisco regulators.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 11–15 states:

"1. *Donation:* The Resolution accurately notes that a donation was made on March 3, 1987, to America Votes, (Sp. Coun. Ex. 159). America Votes (later known as USAVotes) raised tax-deductible charitable donations for I.R.S. approved 501(c)(3) independent, non-partisan, grass roots, voter registration organizations in approximately 20 states during 1987 and 1988.

"2. *Official Action:* The Resolution is inaccurate and very misleading in stating that this donation was made during the period leading to my participation in the April 2 and April 9 meetings.

"The evidence is undisputed that the donation was discussed, solicited and committed on or before *February 24, 1987*. (Stein Affidavit, Sp. Coun. Ex., 458, para. 14); (AC, 4/30/90, p. 119). The donation check was dated *March 3, 1987*. (Sp. Coun. Ex. 159). The evidence shows that I knew nothing about the proposed meetings before the *second half of March*, and perhaps not until the *last week* in March. (JG, 12/15/90, p. 88); (AC 4/30/90, p. 119). Furthermore, the preponderance of evidence shows that the meetings first were conceived *after* the donation was solicited and received. (Gray, 2/23/90, p. 15; 11/29/90, p. 64); (Grogan 12/12/90, pp. 56–58, 208); (Riegle, 1/7/91, pp. 29–32, 46–9, 51–55, 101–2, 163); (DeConcini, 1/9/91, pp. 45–6, 49, 51–2, 60–63, 199–200, 203, 209); (McCain, 1/4/91, pp. 27–21, 26, 111, 163–4); (Glenn, 1/4/91, pp. 240–47, 193).

"The evidence shows that the April 2 meeting date was not set until a few days prior to the event. (Gray, 2/23/90, p. 15). The evidence shows that the second meeting on April 9 grew out of the April 2 meeting. The evidence shows that I played a very minor but proper role in the April 2 meeting. I asked why the audit was taking so long and agreed with Senator Glenn that if Mr. Keating had broken any law he should be prosecuted, but if he hadn't the regulators should get off his back. (AC, 4/30/90, pp. 131, 133); (Gray, 11/27/90. p. 51). The evidence shows that my participation in the April 9 meeting was essentially limited to sticking my head in the door for a minute. (AC, 4/30/90, p. 150); (Sp. Coun. Ex. 193).

"3. *No Causal Connection:* The Committee's findings conclude that each of the five Senators had information that reasonably caused concern about the fairness of the Bank Board's examination of Lincoln and that was sufficient to justify contacting Bank Board personnel. (Committee Statement, 2/27/91, p. 1, para. 4). The Committee found that, without regard to donations or other benefits, no Senator violated any law or Senate rule by attending the April 2 and 9 meetings. (Committee Statement, 2/27/91, p. 1, para. 1).

"The evidence shows that in that point in time all five of us had good reason:

To view Mr. Keating as a highly successful and respected businessman.

"All five of us also knew that:

Alan Greenspan, who is now the Chairman of the Federal Reserve, had stated in his opinion that Lincoln was solvent for the foreseeable future. (Sp. Coun. Ex. 159); (AC, 4/30/90, p. 101).

Arthur Young, one of the "Big Eight" accounting firms, had found Lincoln to be in good shape and was very critical of the regulators.[10] (Sp. Coun. Ex. 161); (AC, 4/30/90, pp. 99–100).

"I had several additional reasons to be concerned about the fairness of the Bank Board's examination of Lincoln:

Lincoln was a California-chartered Savings and Loan. Many thousands of its employees and depositors were my constituents. Their jobs and financial security were at risk.

I was aware—as perhaps the other Senators were not—that the Arthur Anderson firm, another of the "Big Eight" accountants, had found Lincoln to be in good shape and had grave questions about the performance of the regulators. (AC, 4/30/90, p. 102).

I previously had engaged in a confrontation with Mr. Gray, the Chairman of the Bank Board, and had the clear impression that he was incompetent. (AC, 4/30/90, pp. 106–9).

Mr. Gray had worked in public relations for a savings and loan institution in San Diego, California, before he was appointed to chair the Bank Board. I knew he had a poor reputation in the San Diego business community. (AC, 4/30/90, p. 107).

I knew that a principal newspaper in California, the Los Angeles Times, had called for Mr. Gray's resignation from the Bank Board after the General Accounting office found he had misused $27,000 of public funds. (*Id.*; Cranston Ex. 57); (AC, 4/30/90, p. 92).

"Thus the *evidence is overwhelming* that (a) I had many sound and official reasons to participate in the April meetings, where I played a very minor and proper role, and (b) the donation was solicited and received weeks before I knew of the April meetings. The preponderance of the evidence shows that the donation was solicited and received before *anyone* even conceived of the meetings.

"There is no evidence—nor could there be—that I attended the April meetings because of the donation."

ECR 3) a) (ii)

(ii) Before October 6, 1987, Senator Cranston solicited and received a commitment from Mr. Keating for contributions in the amount of $250,000 for two voter registration groups, which were delivered to the Senator personally by Mr. Keating's employee James Grogan on November 6, 1987. When the contributions were delivered, Mr. Grogan and Senator Cranston called Mr. Keating, who asked if the Senator would contact new FHLBB Chairman M. Danny Wall about Lincoln. Senator Cranston agreed to do so, and made the call six days later.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 16–19 states:

"1. *Donation:* The Resolution omits any description of the donations, and fails to make clear that these were *not* political contributions to any campaign of mine or to my P.A.C. I received no direct political benefits from the donations.

"$225,000 was in the form of a charitable donation to Forum Institute, an I.R.S. approved 501(c)(3) tax-deductible organization. Forum distributed funds to non-partisan, 501(c)(3), grass roots organizations that registered voters in approximately 20 states. (Sp. Coun. Ex. 145). I accepted the check on behalf of Forum and turned it over to Forum. I had no control over Forum or how the money was used. The independent officers and directors of Forum had that control. (Harmon Aff., Sp. Coun. Ex. 501, para. 13).

"$25,000 was in the form of a contribution to USAVotes (formerly American Votes) to support its efforts to raise charitable donations for I.R.S. approved 501(c)(3) non-partisan registration groups. (Sp. Coun. Ex. 146).

"The Resolution also fails to mention that the donations were agreed to before October 6, 1987 (Sp. Coun. Ex. 182), more than a month prior to my status inquiry call to Mr. Wall.

"2. *Official Action:* My notes about the call to Mr. Wall establish that it was a status inquiry.[11] I asked if the end of the audit of Lincoln was in sight. Mr. Wall and I also discussed the personality problems between Lincoln and the San Francisco regulators. (Sp. Coun. Ex. 147). Mr. Wall's testimony confirmed this. (Wall Affidavit, Sp. Coun. Ex. 428, p. 12, para. 10 h.). Mr. Wall also testified that I did not urge him to take any particular course of action. (Wall Affidavit, Sp. Coun. Ex. 428, p. 12, para. 10 h.).

"Furthermore, there is *no* evidence that I attempted to influence the regulatory actions of Mr. Wall *or any other* regulator at any time. Every regulator who was called as a witness or in an affidavit testified that none of his or her actions were influenced by any contact from my office or from me. (Wall Affidavit, Sp. Coun. Ex. 428, p. 6, para. 9); (Rosemary Stewart, 1/2/91, pp. 10–11, 196); (Wall, 12/4/90, pp. 104, 116, 181–2, 184, 191); (Martin, 12/3/90, p. 58; Martin Affidavit, Sp. Coun. Ex. 17, para. 11); (Gray, 11/27/90, p. 97); (Patriarca, 11/27/90, p. 147); (Black, 12/6/90, pp. 29–30); (Cranston Ex. 78, Dochow Aff. Attachments A–1 at 19–20 & A–2 at 41).

"3. *No Causal Connection:* It flies in the face of logic and my personal history to suggest that a reasonable person would deem it necessary for anyone to donate or contribute *anything* to me in order to get me to do *anything*.[12]

"The routine status call that I made to Mr. Wall on November 12 was not motivated by the personal concerns of Mr. Keating. The jobs and financial security of thousands of my California constituents were at stake. I made the call for the same reason that I attended the April 2, 1987 meeting—because I believed it was necessary and proper that I do so on behalf of my many constituents who had stakes in Lincoln.

"The Resolution is incorrect in concluding that Mr. Keating asked me to contact Mr. Wall when I was on the phone with him in Mr. Grogan's presence. At best, there is conflicting testimony on this point. (AC, 4/30/90, pp. 188 & 190); (JG, 12/14/90, p. 162). I do not recall a request from Mr. Keating on November 6 that I call Mr. Wall. *Nor* do I recall that my November 12 call to Mr. Wall was the result of a request from Messrs. Keating or Grogan.

"The Resolution implies that there was a causal connection between the receipt of the donations and my decision to call Mr. Wall on November 12. There is *no* evidence to support such a conclusion.

"Furthermore, Mr. Grogan testified that there was never 'any suggestion, either by word or by body language, or by a raised eyebrow' that my interest in Lincoln's problems was tied to Mr. Keating's support of nonprofit voter registration efforts. (JG, 12/15/90, p. 132). Mr. Grogan also testified, "There was never an occasion where Mr. Keating asked Senator Cranston to do something and Senator Cranston said, 'only if you raise funds for me.' There was never an occasion where Mr. Keating said, 'If you do this for me, I will raise X amount of dollars for you.'" He testified that there was never 'even the suggestion' that fund-raising and official actions were connected in any way. (JG, 12/12/90, pp. 185–8). I repeatedly have testified that there was no connection between Mr. Keating's donations and my decisions to contact the regulators regarding Lincoln. (AC, 4/30/90, p. 95)."

ECR 3) a) (iii)

(iii) In January 1988, Mr. Keating offered to make an additional contribution to voter registration groups affiliated with Senator Cranston and asked Senator Cranston to set up a meeting for him with Chairman Wall. Senator Cranston did so on January 20, 1988. On February 10, 1988 Senator Cranston received checks totaling $500,000 for voter registration groups.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 19–23 states:

"1. *Donation:* The Resolution incorrectly insinuates that (a) in January, 1988, Mr. Keating offered to make an additional charitable donation in connection with his asking me to set up a meeting for him to meet with Mr. Wall; and (b) based on my setting up the meeting, Mr. Keating made charitable donations in February. The Resolution's insinuation is unfair and inaccurate and cannot be substantiated in any way.

"There is *no* clear and convincing evidence that Mr. Keating offered to make an additional donation in January, 1988.

"Mr. Keating did make two charitable donations to voter registration groups on February 10, 1988 in Phoenix. The Resolution omits the fact that these were two I.R.S. approved charitable, tax-deductible donations to 501(c)(3) organizations for non-partisan, voter participation efforts. One was to Forum Institute, an organization I've already described. The other was to The Center for Participation in Democracy, that engaged in and supported non-partisan registration drives in several states. *Neither* of these two organizations, nor the use of the money, was under my control.

"Regarding this period, there is considerable testimony about a dinner I attended in January with Messrs. Keating, Grogan, and others. Mr. Grogan testified that he recalls no discussion of fund-raising at the dinner. (JG, 12/14/90, p. 166; 12/13/90, p. 24 & p. 265). My son, Kim Cranston, who was present, testified that he recalls no specific offer of support by Mr. Keating. (KC, 6/28/90, p. 15). I testified similarly that (a) I did not solicit any funds at the dinner, (b) that I did not recall the discussion of any specific funds, and (c) that Mr. Keating may have indicated in a *vague* way that he would continue to support registration efforts. (AC, 4/30/90, p. 191; 10/16/90, p. 87).

"Mr. Grogan testified that he was not aware of any solicitation that preceded my February 10 visit to Phoenix. (JG, 12/13/90, pp. 261–2).

"My visit to Phoenix had been in the works since at least September of the previous year. (JJ, 12/3/90, pp. 164–6). Messrs. Keating and Grogan had a long standing policy of inviting members of Congress, their staffs, and others to visit Phoenix to see the Lincoln/American Continental Corporation operation first hand. Many Congressmen and staff members have visited his company in Phoenix. Mr. Grogan testified that he had invited me to visit Phoenix several times. (JG, 12/14/90, pp. 169–70; 12/15/90, pp. 199–20). I had wanted to visit to see for myself the type of operation Mr. Keating was running. (AC, 4/30/90, p. 184). This was the first time that my schedule permitted this trip. (JJ, 7/19/90, p. 167); (JG, 12/13/90, p. 17). Ergo, this trip *was totally coincidental* to the Wall/Keating meeting. It *had no connection* with the Wall/Keating meeting.

"It is also equally coincidental that this trip finally occurred at the beginning of a new year, and thus coincided with the timing implicit to Ms. Jacobson's practice of seeking contributions from individuals twice in a given year—early and late. (JJ. 12/2/90, p. 161). Ms. Jacobson, in her capacity as a part-time USAVotes employee, had written me a memo dated February 4, 1988, stating that the main goal concerning Mr. Keating was to receive a charitable donation as soon as possible so that he could be asked for an additional donation in the fall. (Sp. Coun. Ex. 269). She testified that the timing of solicitations of donations was largely driven by her own timetable and that charitable giving is based on an annual cycle. (JJ, 12/3/90, pp. 176, 219).

"By happenstance, this trip to Phoenix was also consistent with my practice of going to visit potential donors—rather than inviting them to visit me—to get help for the registration efforts. (AC, 10/16/90, p. 87); (JJ, 12/3/90, p. 143).

"2. *Official Action:* There is *no evidence* that Mr. Keating committed to make a specific donation in connection with asking me to set up an appointment with Chairman Wall to see him.

"The evidence shows only that Ms. Jacobson sent me a memo dated January 18, 1988 relying a request to her from Mr. Grogan that I help schedule a meeting between Messrs. Keating and Wall. (Sp. Coun. Ex. 172).

"I have testified that I called Mr. Wall on January 20, 1988 and asked him if he would be willing to see Mr. Keating. Mr. Wall responded to me that he was willing to meet with Mr. Keating but it might not be necessary because he thought the problem between Mr. Keating and the Bank Board was being worked out. During my conversation with Mr. Wall, no commitment was made to meet, nor was a firm meeting date arranged. (AC, 4/30/90, p. 249). Mr. Wall testified that he was not sure if I had asked him to meet with Mr. Keating. (Wall Test., 12/4/90, pp. 33 & 131). There is *no evidence that I ever knew about the meeting* that did occur on January 28, 1988. I did not set it up. The arrangements must have been made by Messrs. Keating and Wall or their assistants.

"3. *No Causal Effect:* Once again, it flies in the face of logic and my personal history to suggest that a reasonable person would deem it necessary for *anyone* to make *any* donation in order to induce me to do *anything* or to *reward* me for doing it. I made the call to Mr. Wall regarding a major California business in view of apparent regulatory excesses that were amounting to harassment. The Committee has stated: (a) Senators should and do provide such constituent services; and (b) that there were sufficient reasons to contact the Bank Board regarding Lincoln. (Senate Ethics Committee Statement, 2///27/91, p. 1, para. 4).[13]

"There is no evidence of a causal connection between my January 20, 1088 telephone call and the charitable donations. There is no specific evidence that there was even a solicitation of Mr. Keating or a discussion of any donation prior to the February 10, 1988 trip.[14] In fact, for six months there had been efforts to schedule a trip to Phoenix that finally occurred in February, 1988 and resulted in the receipt of charitable donations. *It is pure coincidence* that the trip finally was scheduled and the donations were received three weeks after my telephone call to Mr. Wall.

"Coincidence in time and unsubstantiated inferences about proper inquiries such as my telephone call and receipt of charitable donations on a trip that had been in the making for many months cannot properly substitute for the lack of clear and convincing evidence of improper linkage, particularly where there is factual and convincing evidence that Mr. Keating *did not* ask me to set up a meeting in connection with a solicitation of a donation of any type."

ECR 3) a) (iv)

(iv) In early 1989, at the time that Senator Cranston was contacting Bank Board officials about the sale of Lincoln, either he or his chief fund raiser discussed another contribution from Keating or his associates. However, no further contribution was even made.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 24–29 states:

"(iv) 1. *Donation:* The Resolution fails once again to point out that this was a solicitation of an I.R.S. approved 501(c)(3) charitable tax-deductible donation, the use of which I did not control. It was *not* a solicitation of political contributions for my benefit. The Resolution accurately states that this donation was never made.

"The Resolution's description of [my "chief fund raiser"] Ms. Jacobson is misleading. In early 1987, she directed the fund-raising staff of the Democratic Senatorial Campaign Committee. At the time in question, early 1989 (and for more than a year before that) she was spending 50% of her time as a consultant to the Democratic Senatorial Campaign Committee; 25% as a consultant to a P.A.C. I founded (Committee for a Democratic Consensus); and 25% as a consultant under contract to USAVotes to raise charitable donations for registration efforts.

"Mr. Rob Stein, the Executive Director of USAVotes, was in charge of its over-all operations. I was one of three co-chairmen of USAVotes. I was not the direct supervisor of Ms. Jacobson in her capacity as a part-time employee of USAVotes, nor was I the direct supervisor of any other USAVotes employees.

"There is conflicting testimony concerning who solicited Lincoln at this time. I have testified that I do not recall discussing a donation with Messrs. Keating, Grogan or anybody during this period. (AC, 10/16/90, p. 68; 5/17/90, p. 299). I do not believe such a discussion ever took place. Mr. Grogan, when asked whether anybody on my staff or I solicited a donation from him or Mr. Keating during this period, testified that Ms. Jacobson, not I, discussed a donation with him. (JG, 12/14/90, pp. 179–80). Ms. Jacobson's recollection was that I solicited Mr. Keating during the period. (JJ, 12/3/90, pp. 167–8).

"I believe the following shows that Ms. Jacobson initiated the solicitation and that she did so without my knowledge.

"A memorandum from Joy Jacobson to me and to Rob Stein, the Executive Director of USAVotes, dated March 1, 1989, written on her home computer, shows that I did not make the solicitation and illustrates the mechanics of how the staff of USAVotes and I worked to solicit charitable donations. (Sp. Coun. Ex. 171). It was Ms. Jacobson's job to come up with the names of people, foundations and organizations which she thought would be potential donors. She would write a memorandum with the potential donors' names, suggestions as to who should contact them, and the amounts to be requested. When I reviewed it, I would look down the list for the names suggested for me. I would systematically try to call most, but not necessarily all, of the names suggested to me. When my part of the list was complete, I would hand it back with my notes about the calls to my secretary. She would report these results back to Ms. Jacobson.

"There are 18 names of potential donors on the March 1, 1989 memo. My handwritten notes or my secretary's notes appear under 12 of those names—only those that were proposed as my assignments.

"It is clear that Ms. Jacobson assigned herself three names on the first page: AFSCME, Dick Darling, and Charlie Keating. After Mr. Keating's name these words are typed in the memo: 'Joy is talking with Jim Grogan. 100,000 wherever it's needed.'

"This evidence corroborates Mr. Grogan's testimony that Ms. Jacobson, not I, made solicitation. It indicates that her memory was incorrect when she testified that I solicited Mr. Keating. It shows that on the date of the memo, March 1, 1989, she had already discussed a $100,000 donation with Mr. Grogan.

"Ms. Jacobson's solicitation of Mr. Grogan is consistent with her explanation in her testimony 'that the first group you go back to [at the beginning of each year is] your past donors and try to renew them.' (JJ, 12/3/90, p. 161). Her solicitation of Mr. Grogan on her own is further evidenced by Ms. Jacobson's statement that 'the timing of the fund-raising was something that was driven by my finance plan. If anyone was controlling the timing, I would say I was.' (JJ, 12/3/90, p. 176). She also stated that I never suggested to her to time any request for a donation to coincide with anything before the Bank Board or with any other event or events. (JJ, 12/3/90, pp. 175–6).

"2. *Official Action:* The record shows that, working on an entirely different track from Ms. Jacobson, I called Chairman Wall and Bank Board Members Roger Martin and Larry White between February and April 1989 for the sole and limited purpose of urging that careful consideration be given to three different proposed sales of Lincoln.

"Both Mr. Wall and Mr. Martin testified that in none of my calls did I urge final approval of any sale, and that there was nothing improper about the nature of my calls. (Sp. Coun. Ex. 428, Wall Affidavit, para. 10h, 12); (Sp. Coun. Ex. 17, Martin Affidavit, para. 11). The Resolution fails to describe the very limited and non-advocacy nature of my calls. It also fails to note that when Messrs. Keating or Grogan asked me to push hard for the approval of a specific sale of Lincoln, I refused to do so. (AC, 5/7/90, pp.327-8); (Wall, 12/4/90, p.91).

"3. *No Causal Connection:* It is again absurd to suggest that a donation of *any* sort would be necessary to motivate me to help my California constituents. There is no evidence that I contacted the Bank Board regarding the potential sale of Lincoln because of any donation. I made the calls because a proper sale would resolve a situation that otherwise could have led to a financial catastrophe in my state, California, that would have been financially injured countless constituents of mine.

"For whatever reason, none of the sales materialized. However, the concerns that motivated my calls did occur. The consequences have been catastrophic; a cost to taxpayers presently estimated by the Resolution Trust Corporation to be $2.6 billion; tragic losses of the life savings of 23,000 Californians, mostly elderly and infirm, who bought approximately $200 million in now worthless debentures at Lincoln; and the loss of many jobs in California. The Committee correctly found that my contacts with regulators and those of the other four Senators were not the cause of the eventual failure of Lincoln or the thrift industry in general. (Committee Statement, 2/27/91, p. 1, para. 5).

"The Resolution ignores my true motivation for making the telephone calls between February and April, 1989, instead favoring the *inference* that the calls were motivated by a possible charitable donation that was never made. This inference ignores my legitimate motivation: to prevent financial damage to many of my constituents.

"In response to the inference I point to the clear and convincing evidence that (a) I did not solicit a charitable donation, and that (b) I did not know that Ms. Jacobson had made a solicitation until I read her memo of *March 1, 1989*. Once I knew, the knowledge had no effect on my conduct.

"Ms. Jacobson testified that she was not aware that Messrs. Keating or Grogan was talking to me about the sale, nor that I was being asked to do anything about it. (JJ, 7/19/90, p. 179).

"*There is absolutely no evidence* of any causal connection between (a) Ms. Jacobson's solicitation, and (b) my telephone calls in 1989 to regulators regarding possible sales of Lincoln. Here, again, unsubstantiated inferences based solely on mere coincidence of time *cannot be a substitute* for evidence of a causal connection between a solicitation and an official action.

"The *fair inference* from the record is that Ms. Jacobson was on one track following up according to her standard practice with one of the few established contributors whom she solicited personally and regularly at the beginning of each year. Meanwhile, I was on another track taking very limited official actions contacting regulators regarding the possible sale of Lincoln—actions for which there was clear and independent constituent related justification. Senator DeConcini made the same type of inquiries for similar reasons.

"The foregoing analysis of each of the four 'occasions' cited in the Resolution demonstrates that there is absolutely no evidence of a causal relationship between any of Mr. Keating's donations and any of my actions, and that there is overwhelming evidence to the contrary.

"I remind the Committee again of Mr. Grogan's response when my attorney asked him the following question: 'Was there any suggestion, either by word or by body language, or by raised eyebrow, that Senator Cranston's interest in Lincoln Savings' problems was tied to Mr. Keating's support of the non-profit voter registration efforts?' Mr. Grogan replied, 'Never.' (JG, 12/15/90, p. 132).

"The Special Counsel has cited no evidence that Mr. Keating authorized donations only on condition that I would help him, or because I had helped him. He cited no evidence that I agreed to help only if Mr. Keating contributed.[15]"

ECR 3) b) (i)

b) Senator Cranston's Senate office practices further evidenced an impermissible pattern of conduct in which fund raising and official activities were substantially linked, in that, with his knowledge, permission, at his direction, or under his supervision, Senator Cranston's fund raiser (who was not a Senate employee):

(i) Senator Cranston's fund-raiser assisted in scheduling and attended meetings in the Senator's Senate office between the Senator and contributors about legislative or regulatory issues.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 31–32 states:

"Mr. Grogan met Ms. Jacobson in 1984. (JG, 12/12/90, pp. 71–73); (JJ, 12/3/90, p. 91; 7/19/90, p.37). He testified that he would call her to schedule appointments until he became acquainted with members of my Senate staff and began to turn to them to arrange appointments. (JG, 12/12/90, p. 93).

"Ms. Jacobson testified that after March, 1987, the only meetings which she was involved in arranging were for fund-raising or social purposes, not substantive purposes. (JJ. 12/3/90. p 96). She testified that she didn't know about the April 2 and April 9 meetings until long after they occured. (JJ, 12/3/90, p. 130). She testified that she arranged *no* substantive meetings during the entire two year period from April, 1987, to April, 1989, during which the other three 'occasions' occurred that raise questions of causal connections. [Referred to in Paragraph (a) 1 of the Resolution].

"The Resolution inaccurately states that Ms. Jacobson scheduled meetings for me. The evidence shows that she had to go through my Secretary or my Administrative Assistant to place appointments on my schedule.[16] (JJ, 7/17/90, p. 76).

"Ms. Jacobson's testimony differs from mine about why she attended such meetings. I have testified that Ms. Jacobson suggested to me that it would be helpful for her to be present so she would know what was going on. (AC, 4/30/90, p. 24). She testified that she was there to make sure that the charitable donor felt at home in my hectic and crowded office before I arrived or if I were called away on Senate business. (JJ, 12/3/90, pp.86–90).

"Ms. Jacobson has testified, and I confirm, that she never participated in substantive discussions in any meetings, (JJ, 12/3/90, p. 86). Moreover, Ms. Jacobson testified that she often paid no attention to the substantive discussion: 'While a substantive discussion was going on, I often would get up and go make phone calls outside of the office. There's round table that I often worked at in Senator Cranston's Whip office. While a substantive meeting was going on in another section of the same room, I would be off doing something else.' (JJ, 12/3/90, p. 90).

"To the best of my knowledge, Ms. Jacobson never attempted to influence an official action in any way. Neither anyone on my staff not I made a decision to substance based on any actions by Ms. Jacobson.

ECR (3)(b)(ii)

(ii) Senator Cranston's fund-raiser served as an intermediary for Mr. Keating or Mr. Grogan when they could not reach the Senator or his banking aide.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), p. 33 states:

"The Resolution's use of the word 'intermediary' is misleading and unfair. The record shows, as I have just indicated, that Ms. Jacobson did not engage in any substantive negotiations or take any substantive actions. She testified that she simply passed messages along occasionally when Mr. Grogan was unable to reach me or members of my Senate staff. (JJ, 12/3/90, p. 156). Ms. Jacobson testified, 'It was Jim Grogan's nature to just keep dialing until he got somebody. Again, it usually had to do with something that was going to happen and he needed to get a hold of somebody, whether it was Roy [Greenaway] or Alan [Cranston] or Carolyn [Jordan], and I would say, I'll pass it along.' (JJ, 7/19/90, p. 168).[17] Ms. Jacobson also testified, '. . . At the beginning they always did call me. My understanding is that later on they often didn't call me, that they called Roy Greenaway [my Administrative Assistant] or they call Mary Lou [McNeely, my Secretary] directly or they just showed up at the office.'" (JJ, 7/19/90, p. 164).

ECR (3)(b)(iii)

(iii) evidenced, through written memoranda addressed to Senator Cranston, an incorrect understanding that contributors may be entitled to special attention and special *access* to official services. The incorrect understanding was never corrected by the Senator.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 34–37 states:

"The Special Counsel focused on one memo dated January 7, 1987. (Sp. Coun. Ex. 154). It was written prior to *all* the specific donations referred to in the Committee's Resolution.

"Ms. Jacobson did *not* state—as the Resolution indicates—that the individuals she mentioned in her January 7 memo were 'entitled to special attention and special access to official services.' She said the individuals expected 'some kind of resolution' of pending matters. That is exactly what every constituent, whether a contributor or not, rightfully expects from their Senator. That is exactly what every constituent of mine gets, whether he is a contributor or not, to the best of my ability and my staff's ability. Note that Ms. Jacobson did not state that these individuals could rightfully expect a favorable resolution. She said they would expect 'some kind' of resolution.

"She explained the meaning of intent of this memo in her testimony. She testified that the individuals she mentioned, like all constituents, were entitled to a response from me as to what, if anything, I was going to do about their problems—not necessarily a positive response or resolution—but *some* response or resolution. (JJ, 7/19/90, p. 99–101; 12/3/90, pp. 204–5). They may not like the response, but they like all constituents are at least entitled to be heard and to be given a decision. That is all Ms. Jacobson advocated and that is all I ever tried to provide.

"Furthermore, Ms. Jacobson testified that several individuals mentioned in her January 7 memo, including Mr. Keating, did not get the results they wanted. (JJ, 12/3/90, pp.

205–6). I understand how someone with 20/20 hindsight might question the implication of Ms. Jacobson's words, but my deeds followed the *words*, not the *implications*.

"Improper inferences drawn from a memo written by someone else, not by me, *must not be accepted as a substitute* for clear and convincing evidence of causal connections between my official actions and donations.

"The only other memos I am aware of from Ms. Jacobson simply passed on information or contained updates on charitable donations.

"Moreover, and in fundamental fairness to Ms. Jacobson, I believe that the Resolution *unfairly implies* that she lacked understanding of proper policy regarding donations and official actions. Ms. Jacobson testified that she knew there could not and must not be a quid pro quo between official actions and donations, and that my absolute firm office practice was to have nothing to do with any potential donor who sought to link a donation to official action. (JJ, 12/3/90, pp. 223–4, 239–40).

"Specifically, in relation to Lincoln, Ms. Jacobson testified that neither Messrs. Keating, Grogan nor I ever indicated that *any* donations were made with any understanding that I would do *anything* in return (JJ. 12/3/90, pp. 175–6):

Q. Did Mr. Grogan ever tell you that the contributions were made with the understanding that Senator Cranston would do anything in return?

A. Absolutely not.

Q. Did anyone whom you knew to be associated with Lincoln Savings or American Continental ever tell you that any of the contributions were made with the understanding that Senator Cranston would do something in return?

A. No.

Q. Did Senator Cranston ever say to you that he thought that the contributions which you have discussed were made with an expectation that he would act in any way on behalf of Mr. Keating, or Lincoln or American Continental?

A. No.

Q. To your knowledge, did Senator Cranston to anything for or on behalf of Lincoln Savings because Mr. Keating assisted his reelection campaign?

A. No.

Q. Did he to your knowledge do anything for or on behalf of Lincoln Savings because Mr. Keating contributed money to USA Votes, Forum Institute or the Center for Participation in Democracy?

A. No.

Q. Did Mr. Keating or anyone associated with him ever tell you that a contribution would be made after Senator Cranston made an inquiry on his behalf?

A. No.

Q. Did Senator Cranston ever tell you or suggest to you that you should time any request for contributions to coincide with anything occurring before the Bank Board?

A. No. In fact, the timing of the fund-raising was something that was driven by my finance plan. If anyone was controlling the timing, I would say I was.

Q. Did Senator Cranston ever tell you to time a solicitation to Mr. Keating to coincide with any event or events to your recollection?

A. No.[18]

"The Resolution inappropriately states that Ms. Jacobson understood that donors were entitled to special access. Mr. Grogan testified that he was able to obtain my attention—in other words get access to me—before any of the charitable donations for voter registration were made by Mr. Keating. (CG, 12/15/90, p. 132).

ECR p. 5: Be it further resolved that the Committee finds:

(1) That in connection with his conduct relating to Charles H. Keating, Jr., and Lincoln Savings and Loan Association, Senator Alan Cranston of California engaged in an impermissible pattern of conduct in which fund raising and official duties were substantially linked in that:

(a) From early 1987 through April 1989, Senator Cranston personally or through Senate staff contacted the Federal Home Loan Bank Board on behalf of Lincoln, during a period when Senator Cranston, on behalf of organizations in whose success he had a deep concern, was soliciting and accepting substantial contributions from Mr. Keating; and

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS), pp. 51–55 states:

"The Resolution easily could give the erroneous impression to anyone not familiar with the facts that the donations referred to were all of a political nature to some campaign or P.A.C. of mine. It omits any reference to the established and undisputed fact that 85.3% of the money—totaling $725,000—that Mr. Keating donated from early 1987 through April, 1989 was in the form of I.R.S. approved 501(c)(3) tax-deductible charitable donations to organizations that were not under my control and whose use of the money was not under my control.

"In addition, Mr. Keating donated $125,000 to America Votes, an organization that raised tax-deductible charitable donations for I.R.S. approved 501(c)(3) independent, nonpartisan, grass roots, voter registration organizations in approximately 20 states during 1987 and 1988.

"The Resolution fails to point out that *none* of Mr. Keating's donations which are being questioned during this period was in the form of a political contribution to any campaign of mine. Only $10,000 was to a federal P.A.C. that I organized.

"The Resolution ignores the important fact that *all* these donations were made *after* my 1986 reelection. An expert on voting, Curtis B. Gans, Director of the nonpartisan, nonprofit, Committee for the Study of the American electorate, testified that registration efforts in California in 1987 and 1988 that were supported by some of the funds I raised would have had "negligible impact" on my reelection campaign four years later (had I chosen to run in 1992). "I could think of no less cost-effective way of advancing one's own interest," he testified. (Affidavit of Curtis B. Gans, Cranston Exhibit 77).

"Section (a)(1) of the Resolution fails to make clear that *all* the contacts I had with regulators during this time—and at all other times—were standing alone, not only proper, as the Committee's Statement of February 27, 1991 acknowledges, but were also de minimis. The established fact is that they were all routine status inquiries, or requests that somebody see somebody, or requests that various proposed sales of Lincoln be carefully considered. The Committee fails to make that in *none* of the contacts I made did I ever advocate any particular action. It fails to make clear that I *never* urged the regulators to take or refrain from any particular action.

"Thus the alleged improprieties that the Resolution suggests occurred arise solely because of routine, non-substantive inquiries I made on behalf of constituents that may have been in some way proximate in time to the solicitation or receipt of charitable or related donations.

"I previously have noted in statements to the Committee that my actions in respect to Mr. Keating *should not be viewed as if they occurred in a vacuum*. I pointed out that my days and my nights are characterized by constant, passionate work on the great issues of our time, like war and peace, the environment and the economy, justice, and equal rights. I cited my many responsibilities during the time these events occurred, including my leadership role in the Senate as Majority Whip: My Chairmanship of the Veterans' Affairs Committee; my membership on several other committees and the Chairmanship of busy and important subcommittees; my very active role in fund-raising for other Senators and causes as well as for my campaigns; and the fact that—along with my Senate colleague from California—I represent many more constituents (30 million) than do any other Senators. Indeed, California's Senators *represent more constituents* than any other legislator *has ever represented* in any country in the *entire history of legislative bodies*.

"Constantly, I am called upon for help by my constituents. Unlike a corporation, I do not have the funds and the capacity to verify the financial status or the moral stature of each constituent who presents a problem to me. I cannot ask Dun and Bradstreet or the FBI to provide me with this information. More than 300,000 constituent requests have been handled by my staff and me in the 22 years I have been in the Senate. I deeply regret that one involving Lincoln Savings has created the problem that is before us.

"A casual observer of the hearings might well have obtained the false impression that I did little else over several years except deal with regulators regarding Lincoln. This is not the case. *In the almost two year period* between the April 1987 meetings and February 8, 1989, *I had only five contacts* with Federal regulators regarding Lincoln. I had no contact at all between May 16, 1988, when Mr. Wall requested an appointment with me to discuss legislation, and February, 1989, when the sale of Lincoln came up.

"In the period from February 8 through April 14, 1989, I had only five contacts with FHLBB members Wall, Martin and White regarding *three different proposals* to sell Lincoln. All contacts that I initiated were proper status inquiries. I had a legitimate basis for making them. All these contacts related to the interests of many thousands of my constituents whose jobs and financial well-being depended upon the fate of Lincoln.

"I by no means responded favorably to every request by Messrs. Keating or Grogan for me to take some official action. I already have cited my refusal to push hard for the approval of a specific sale of Lincoln. Mr. Grogan in his testimony cited several examples of requests for actions that I declined to take. (JG, 12/12/90, p. 113; 12/13/90, pp. 130, 206–7, 215, 306, 12/15/90, pp. 93–4, 96–8).

"Besides citing many facts that contradict the causal connection theory concerning charitable donations and my official actions, I have presented a list of inaccuracies and important facts that were omitted in the Committee documents of February 27. In all fairness, these matters should be corrected in the final documents that are issued by the Committee.

"A fair question to ask is: To what extent was the Committee influenced by these omissions of important facts, inaccuracies, and unwarranted implications in material put before it while reaching its conclusions announced on February 27, 1991?

"I protest allegations of linkage, explicit or implicit, based merely on unsubstantiated and prejudicial inferences instead of demonstrable evidence.

"I am convinced that a full and further review of the record, in light of my Submission, can only lead to three conclusions:

"First, there is no evidence of a causal connection between any solicitation or donation and any official action on my part.

"Second, that my conduct was not materially different from that of the other four Senators involved.

"Third, that whatever differences there were between the actions of the four Senators and mine they were not differences of *kind*. A fair and impartial consideration of this matter can only lead one to the conclusion that the Committee's treatment of my actions *should not differ in kind* from the treatment it accorded Senators DeConcini, Glenn, McCain and Riegle. I concede that I should have recognized that fund-raising—even for charitable donations—close in time to official actions could lead to an appearance of impropriety. It was a mistake not to have given more thought to appearances."

ECR p. 5: Be it further resolved that the Committee finds:

ECR 1)(b)

b) Senator Cranston's Senate office practices further evidenced an impermissible pattern of conduct in which fund raising and official activities were substantially linked.

This statement is a distortion of the facts. *Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ASC), pp. 30.55 states:*

"The Resolution raises questions . . . about my Senate office practices, citing three examples of activities engaged in by Ms. Jacobson, a part-time employee of USAVotes, over whom I had no real supervisory role. I have already indicated that she was *not* a member of my Senate staff. She had no substantive expertise in Banking Committee issues and did not substantively involve herself in my official Senate activities. The words "Senate office practices" is inaccurate and misleading. Ms. Jacobson came to my office occasionally, but by no means frequently or regularly. She worked out of her home in Virginia. Unlike the practice in some Senate offices, I have never assigned major political fund-raising responsibilities to any one serving part time to full time on my Senate staff. I have designated two Senate staff members under Rule 41, but they have done comparatively little political fund-raising. All fund-raising efforts with which I have been involved, whether political or charitable, have been the responsibility of individuals employed elsewhere—*not* in my Senate office.

"Although some of Ms. Jacobson's activities are susceptible to an interpretation that they raise an *appearance* of impropriety, they do not constitute clear and convincing evidence of a causal connection between (a) my personal official actions and (b) solicitations of donations I made or of which I was aware.

"I concede that I should have constrained more closely the individual who was working for an organization that raised charitable contributions.

"I readily concede these errors, but these were errors in judgment, not in intent.

"I deeply regret them.

"Without any clear and convincing evidence that any official action of mine was causally linked to any donation, however, there is no reason for the Committee to recommended institutional action in my case."

It is further resolved:

1) That Senator Cranston's impermissible pattern of conduct violated established norms of behavior in the Senate, and was improper conduct that reflects upon the Senate, as contemplated in Section 2(a)(1) of S. Res. 338, 88th Congress, as amended.

Senator Cranston's April 22, 1991 Written Submission to the Ethics Committee (ACS). pp. 4–5, 43–47 states:

"Since timing and appearances did not warrant institutional action in the cases of the other Senators, it should not in my case.

"The Senate have never set standards *of any kind* governing the timing of contributions of any kind in relationship to legitimate constituent services. I fully recognize that if a Senator engages in conduct that is inimical to generally accepted and understood standards and values, the Senate has an obligation to find that Senator guilty of improper behavior, although his conduct does not violate a specific law or Senate Rule. There is no evidence that I engaged in any improper conduct.

"Without clear and convincing evidence of actual impropriety, there is no justification for subjecting me to disciplinary action. There is *no precedent* for the Senate disciplining a Senator for actions such as mine. The Senate has *never* determined that it is an ethics violation for a Senator to engage in legitimate constituent service on behalf of a contributor because it was—or might appear to be—close in time to a lawful donation to the Senator's campaign or to a charity the Senator supports. To do so now would be contrary to the principles of the Senate and a violation of traditional concepts of fair play by proceeding in an *ex post facto* fashion.

"In every case of financial impropriety considered by the Senate throughout its history, the alleged misconduct was the use of public office for a Senator's *private* profit. Neither any member of my family nor I received any compensation or personally benefited in any way from these charitable contributions. I had no financial interest in Lincoln Savings, its parent, or affiliates. I received no income from it.

"I will discuss the Special Counsel's proposal to extend to Senators the appearance standard in the Code of Ethics for Government Service that applies to federal judges and civil servants. The Senate has never adopted that code as an ethical standard applicable to Senators. There is no reference to it in any of the over 400 published Interpretative Rulings issued by the Select Committee on Ethics. The Special Counsel overlooks fundamental differences between federal judges and civil servants. Federal judges and civil servants do not have to raise funds to stay in office. A judge is not expected to serve the interests of the parties before him. A Senator is expected to *represent* his constituents, and to be—and to appear to be—responsive to their legitimate needs. Senators should not be at risk of discipline for violation of an appearance standard that would prevent us from intervening on behalf of constituents, contributors and non-contributions alike, when intervention is appropriate.

"The Committee did not conclude that there was any causal connection between these three coincidences of receipt by Senators Riegle, DeConcini and Glenn of these political contributions in proximity of time to their official actions. How, then, could the Committee without *any* substantiating evidence conclude that there was any causal connection between my receipt—on behalf of others—of charitable and related donations and my official actions? My case, like the cases of Senators Riegle, DeConcini and Glenn, *can only involve* questions of judgment and appearances.

"I believe, too, that our actions did not differ in kind from legitimate actions of our 95 colleagues. Virtually every Senator raises funds for his campaigns and renders legitimate services to his constituents, including contributors, when they need it. I have noted previously that many Senators are active in one way or another with charitable organizations and some Senators raise very substantial money for them.

"THERE ARE NO U.S. SENATE RULES, PRECEDENTS, OR CASES IN WHICH A SENATOR HAS BEEN DISCIPLINED FOR ASSISTANCE TO A CONSTITUENT WHEN THE SENATOR RECEIVED NO PERSONAL FINANCIAL PROFIT

"If the Committee believes there should be limits on a Senator's ability to perform his official duties for a contributor based upon the timing or proximity of a donation to an official act, it may recommend that change to the full Senate and allow all 100 members of this body to debate such a proposed rule.

"It would be contrary to the principles of the Senate and a violation of traditional concepts of fair play to apply such a rule to me now *in what would clearly be an ex post facto fashion.*

"There is *no precedent* for the Senate disciplining a Senator for actions such as mine. The Senate *never* has determined that it is an ethics violation for a Senator to engage in legitimate constituent service on behalf of a contributor because it was—or might appear to be—close in time to a lawful contribution to the Senator's campaign or to a lawful donation to a charity that the Senator supports.

"The Senate has to date rejected attempts to create Ethics Rules that would restrict the ability of its members to give their supporters the impression that they will be responsive to their needs. There is a *fundamental difference* between a Senator acting on behalf of a constituent and a Senator acting for his personal gain. It is one thing to say that a Senator should not do anything in his official capacity that appears to bring him personal gain. It is quite another to say he should not do anything in his official capacity that appears to benefit supporters or contributors. The former is a conflict of interest and a violation of public trust. The latter is not only *not* a violation of trust, but a fulfillment of it. Its appearance can seem improper only to those who distrust the system itself.

"In *every* case of financial impropriety considered by the Senate throughout its history, the alleged misconduct was the use of public office for a Senator's private profit. The last four Senators who were disciplined by the Senate were involved in actions that resulted in *personal* gain. There has *never* been a case that has led to the disciplining of a Senator for assisting, or appearing to assist, a constituent-contributor when the Senator received no personal profit.[19]

"The history of conflict of interest rules for the Senate and the House demonstrates that the evil at which all those efforts have been directed is the use of elective office for *personal* gain.

"Senate Rule 37, the conflict of interest rule, distinguishes between personal and political benefit. It prohibits Senators and staffers from intervening with federal agencies for the purpose of furthering their financial interest or receiving compensation from a constituent. Its application is limited to agency intervention 'resulting in measurable *personal* financial gain.'

"The Senate in 1977 rejected a proposed rule suggesting that the motive of a contributor could make a contribution improper. Senator Nelson, Chairman of a Special Committee, had proposed that Rule 35, pertaining to gifts, also should ban acceptance of anything "intended to affect the present or future performance of official duties." Senator Stevens attacked the proposal as 'something no one can live up to if he is honest with himself and the American people . . . It is a standard of conduct with which one cannot comply in good faith and good conscience as a member of the U.S. Senate.' Senator Nelson finally agreed, saying, 'I do not think it makes sense at all, and someone who was working overtime and got tired must have written it.' (pp. 144–5, Davidson Legal Counsel Report, March 1991).

"The Committee acknowledges in its Statement of February 27, 1991 that the Senate presently has no specific written standards embodied in Senate rules respecting contact with Federal or independent regulatory agency officials. The Committee suggests a process for establishing such standards and states that until that is accomplished, 'All Senators are encouraged to use House Advisory Opinion No. 1 as a source of guidance for their actions.'

"House Advisory Opinion No. 1 indicates that it is proper for a member to communicate with an executive or independent agency on any matter to request information or status reports; to urge prompt consideration; arrange for interviews or appointments; express judgments; call for reconsideration of an administrative response that the member believes is not supported by established law, Federal regulation or legislative intent; or perform any other service of a similar nature in this area that is compatible with the criteria expressed in the Advisory Opinion.

"The Advisory Opinion makes *absolutely no reference* to campaign contributions or charitable donations, or to the timing of campaign contributions or charitable donations solicited or received by a member who performs any of these approved and specified actions. It notes that it is a felony to seek or receive "compensation for any services rendered.

"All my actions with respect to Lincoln were well within the guidelines of House Advisory Opinion No. 1."

FOOTNOTES

[1] Many of these same inconsistencies are also in the Report of Special Counsel, Robert Bennett, that Senator Helms released to the press on August 2, 1991 in violation of the Ethics Committee rules.

[2] William Seidman subsequently said, referring to the Arthur Young and Alan Greenspan letters, "Those two documents, I think, were pretty extraordinary for Senators to receive in terms of convincing them of the possibility that the bureaucracy was out of control. The Senators had a couple pieces of paper that could have raised questions in their mind. You have to say this on behalf of the Senators: they got a letter from a Big 8 accounting firm, the likes of which I think had never been done before in history in which the firm on the stationery said the regulators are harassing the company, treating them unfairly, et cetera." (AC, 4/30/90, p. 105).

[3] Such status inquiry calls are certainly routine for most if not all Senators. (Senate Ethics Committee, 2/27/91, p. 3, para. 1).

[4] Back in the 70's, another large corporation, Lockheed, was facing bankruptcy. Lockheed had invested millions of dollars in my state. The livelihoods of many thousands of my constituents and their families were at risk—as was the case with Lincoln Savings. I devoted far more time and effort and made many more phone calls about Lockheed's plight than I ever did about Lincoln's as I successfully endeavored to obtain a government guaranteed loan for Lockheed.

Lockheed was not a contributor to my campaigns or causes. In fact, Lockheed had contributed to my opponent in the previous election.

[5] Again, such phone calls are certainly routine for all or most Senators. The Supreme Court has noted, "The making of appointments with government agencies is a 'legitimate errand' performed by Members of Congress for constituents." (*Brewster* 408 U.S. at 512). The Supreme Court has also judicially observed that Senators may be more aggressive than any of the five of us were in dealing with the Bank Board: "Senators are constantly in touch with the Executive Branch of the Government and with administrative agencies—they may *cajole* and *exhort* with respect to the administration of a statute." (Gravel v. U.S., 408 U.S. 606, 626, 1972).

[6] Again, such phone calls are certainly routine for all or most Senators. The Supreme Court has noted, "The making of appointments with government agencies is a 'legitimate errand' performed by Members of Congress for constituents." (*Brewster* 408 U.S. at 512). The Supreme Court has also judicially observed that Senators may be more aggressive than any of the five of us were in dealing with the Bank Board: "Senators are constantly in touch with the Executive Branch of the Government and with administrative agencies—they may *cajole* and *exhort* with respect to the administration of a statute." (Gravel v. U.S., 408 U.S. 606, 626, 1972).

[7] It would not have been unusual for Mr. Keating to make an unsolicited donation. The record shows that in 1985, he made an unsolicited $200,000 political contribution to Senator Glenn's Political Action Committee.

[8] In December, 1990, the San Francisco Chronicle falsely accused me of trading favors for cash. When I threatened to sue the Chronicle for libel, the Chronicle published a complete Page One retraction.

[9] That is why I have voluntarily made my tax returns public for many years. That is why I established a blind trust during my first term in the Senate. That is why I stopped accepting honoraria.

[10] William Seidman subsequently said, referring to the Arthur Young and Alan Greenspan letters, "Those two documents, I think, were pretty extraordinary for Senators to receive in terms of convincing them of the possibility that the bureaucracy was out of control. The Senators had a couple pieces of paper that could have raised questions in their mind. You have to say this on behalf of the Senators: they got a letter from a Big 8 accounting firm, the likes of which I think had never been done before in history in which the firm on the stationery said the regulators are harassing the company, treating them unfairly, et cetera." (AC, 4/30/90, p. 105).

[11] Such status inquiry calls are certainly routine for most if not all Senators. (Senate Ethics Committee, 2/27/91, p. 3, para. 1).

[12] Back in the 70's, another large corporation, Lockheed, was facing bankruptcy. Lockheed had invested millions of dollars in my state. The livelihoods of many thousands of my constituents and their families were at risk—as was the case with Lincoln Savings. I devoted far more time and effort and made many more phone calls about Lockheed's plight than I ever did about Lincoln's as I successfully endeavored to obtain a government guaranteed loan for Lockheed.

Lochheed was not a contributor to my campaigns or causes. In fact, Lockheed had contributed to my opponent in the previous election.

[13] Again, such phone calls are certainly routine for all or most Senators. The Supreme Court has noted, "The making of appointments with government agencies is a 'legitimate errand' performed by Members of Congress for constituents." (*Brewster* 408 U.S. at 512). The Supreme Court has also judicially observed that Senators may be more aggressive than any of the five of us were in dealing with the Bank Board: "Senators are constantly in touch with the Executive Branch of the Government and with administrative agencies—they may *cajole* and *exhort* with respect to the administration of a statute." (Gravel v. U.S., 408 U.S. 606, 626, 1972).

[14] It would not have been unusual for Mr. Keating to make an unsolicited donation. The record shows that in 1985, he made an unsolicited political contribution to Senator Glenn's Political Action Committee.

[15] In December, 1990, the San Francisco Chronicle falsely accused me of trading favors for cash. When I threatened to sue the Chronicle for libel, the Chronicle published a complete Page One retraction.

[16] Ms. Jacobson's activities should be considered in the context of Senate Rule 41 that permits Senators to appoint up to three members of their staffs who may solicit and receive campaign and political contributions. Ninety-nine Senators had done so as of November, 1990. All 99 Senators appointed key staffers, including 90 Administrative Assistants, who could raise and receive contributions while simultaneously possessing the enormous power to schedule appointments; to draft, amend, advance or delay legislation; and to deal with the Executive Branch and regulatory agencies.

Thus, the Senate has ruled that there is no impropriety and no appearance of impropriety if a Senate staffer who raises funds also schedules and attends meetings where substantive matters are discussed with a constituent-contributor. It seems to me that if there is a question of appearances if a fund-raiser who is not on the Senate staff attends such meetings, there is at least an equal possibility of an appearance question when the roles are commingled.

[17] I must note a separate but relevant matter that was established during the hearings involving Bill White, who had formerly been Senator Glenn's Administrative Assistant. Mr. White subsequently left Senator Glenn's staff and proceeded to serve as Chairman and Treasurer of the John Glenn committee, Inc. Mr. White received a letter dated June 6, 1984 from Mr. Grogan. The letter began as follows; "Dear Bill: Many thanks for arranging to meet with Bob Kielty regarding the JHG fundraiser in Phoenix. Also many thanks for coordinating with Dan Dougherty, et cetera, regarding the proposed FHLB regulation limiting direct investments by insured institutions." (Sp. Coun. Ex. 33); (Glenn, 1/4/91, pp. 225–6).

In this instance the Committee did not feel it necessary to be critical of Senator Glenn for the fact that his fund-raiser, who was not on his Senate staff, was coordinating in substantive areas.

[18] The Testimony of my Banking Committee aide, Ms. Jordan, substantiates Ms. Jacobson's. The Special Counsel asked her if it was the general philosophy of my office that donors could rightfully expect some kind of resolution of the issues that they brought to her. She replied that it was the policy of our office to respond to all inquiries. There was no mechanism for keeping staffers informed of who were contributors, nor any effort to do so in any way. Ms. Jordan certainly made no inquiries about whether somebody was a contributor before she decided how to act on a particular request. Ms. Jordan testified, "It was basically our posture that we resolved everything as far as one way or another, either for or against."

The Special Counsel asked Ms. Jordan how she set priorities, how she decided which complaints got handled first and in depth. She responded, "I've never had that problem. I can't remember having a problem like that where I had to stop doing something for one person to do something for another." (Cj, 6/27/90, pp. 57–8).

[19] In one case in 1873 when the Senate investigated whether Senators Harlan and Patterson had been bribed by an offer of Credit Mobilier stock at preferential rates, the Senate also considered whether Senator Harlan's conduct violated ethical standards because of a related campaign contribution. A special Senate Committee apparently found that the contribution was made to influence Senator Harlan, but the Committee recommended no disciplinary action because the contribution did "not appear to have influenced his action as a Senator." (pp. 59–60, Senate Legal Counsel Memorandum to Select Committee on Ethics, March 1991).•

NOTICE OF DETERMINATION BY THE SELECT COMMITTEE ON ETHICS UNDER RULE 35, PARAGRAPH 4, PERMITTING ACCEPTANCE OF A GIFT OF EDUCATIONAL TRAVEL FROM A FOREIGN ORGANIZATION

• Mr. SANFORD. Mr. President, it is required by paragraph 4 of rule 35 that I place in the CONGRESSIONAL RECORD notices of Senate employees who participate in programs the principal objective of which is educational, sponsored by a foreign government or a foreign educational or charitable organization involving travel to a foreign country paid for by that foreign government or organization.

The select committee has received a request for a determination under rule 35 for Steven M. Chase, a member of the staff of Senator BROWN, to participate in a program in Taiwan sponsored by the Soochow University on December 3–7, 1991.

The committee has determined that participation by Mr. Chase in this program, at the expense of Soochow University, is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Rolf Lundberg, Jr., a member of the staff of Senator PACKWOOD, to participate in a program in Mexico City sponsored by the Mexican Business Coordinating Council [CCE] on December 3–6, 1991.

The committee has determined that participation by Mr. Lundberg in this program, at the expense of CCE, is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Patrick Mulloy, a member of the staff of Senator RIEGLE, to participate in a program in Korea sponsored by the Korea Institute for International Economic Policy [KIEP] on December 8–14, 1991.

The committee has determined that participation by Mr. Mulloy in this program, at the expense of KIEP is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Senator ROTH and Daniel Bob, a member of the staff of Senator ROTH, to participate in a program in Australia sponsored by the Australian Government and the United States Government on December 5–15, 1991.

The committee has determined that participation by Senator ROTH and Mr. Bob in this program, at the expense of the Australian Government and the United States Government is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Karen Robb, a member of the staff of Senator DECONCINI, to participate in a program in China sponsored by the Chinese People's Institute of Foreign Affairs on November 30 to December 15, 1991.

The committee has determined that participation by Ms. Robb in this program, at the expense of the Chinese People's Institute of Foreign Affairs is in the interest of the Senate and the United States.

The select committee received a request for a determination under rule 35 for Warren K. Erdman, a member of the staff of Senator BOND, to participate in a program in Hungary and Poland, sponsored by the American Council of Young Political Leaders [ACYPL] and the Hungarian Government, from May 27 to June 5, 1991—9 days.

The committee determined that participation by Mr. Erdman in this program, at the expense of ACYPL and the Hungarian Government, was in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Marie Blanco, a member of the staff of Senator INOUYE, to participate in a program in Taiwan sponsored by the Soochow University on January 12–19, 1991.

The Committee has determined that participation by Ms. Blanco in this program, at the expense of the Soochow University is in the interest of the Senate and the United States.

The select committee received a request for a determination under rule 35 for Christopher McLean, a member of the staff of Senator EXON, to participate in a program in Korea sponsored by the A-san Foundation on December 14–21, 1991.

The Committee has determined that participation by Mr. McLean in this program, at the expense of A-san Foundation is in the interest of the Senate and the United States.

The select committee received a request for a determination under rule 35 for James Sakai, a member of the staff of Senator AKAKA, to participate in a program in Taiwan sponsored by the Soochow University on January 12–19, 1991.

The committee determined that participation by Mr. Sakai in this program, at the expense of the Soochow University is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Tim Carlsgaard, a member of the staff of Senator DECONCINI, to participate in a program in Australia, sponsored by the American Council for Young Political Leaders [ACYPL], from April 23 to May 11, 1990.

The committee has determined that participation by Mr. Carlsgaard in this program, at the expense of ACYPL, was in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Trina Vargo, a member of the staff of Senator KENNEDY, to participate in a program in Ireland, sponsored by the United States Senate and the Government of Ireland, from June 2–5, 1991.

The committee has determined that participation by Ms. Vargo in this program, at the expense of the United States Senate and the Government of Ireland, was in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Suzanne Hildick, a member of the staff of Senator HATFIELD, to participate in a program in Korea sponsored by the A-san Foundation on December 14–21, 1991.

The committee has determined that participation by Ms. Hildick in this program, at the expense of A-san Foundation is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Mary A. Irace, a member of the staff of Senator SARBANES, to participate in a program in Mexico sponsored by the Mexican Business Coordinating Council, Consejo Coordinator Empresarial [CCE] on December 8–11, 1991.

The committee has determined that participation by Ms. Irace in this program, at the expense of CCE is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Dan Stanley, a member of the staff of Senator DOLE, to participate in a program in the Republic of China sponsored by the Soochow University on January 8–14, 1991.

The committee has determined that participation by Mr. Stanley in this program, at the expense of the Soochow University is in the interest of the Senate and the United States.●

HAROLD OHLENDORF

● Mr. PRYOR. Mr. President, recently a Rhodes College (Memphis) publication contained a feature article on a man who has been a visionary in his community. That man is Harold Ohlendorf of Osceola, AR.

In today's society of mass communication, where the trivial or the sensational garners the most attention, we infrequently hear about the contributions that many unassuming loyal Americans make to society and their fellow citizens.

Harold Ohlendorf is just such an individual. He has been a pillar of his community, respected by all who know him, and a man that I am proud to call my friend.

I ask that the feature article from the Rhodes College publication be printed in the RECORD at this point.

The material follows:

IN LAND-OF-OPPORTUNITY ARKANSAS OHLENDORF HAS BROUGHT INDUSTRY KNOCKING

(By Helen Watkins Norman)

Osceola, Ark., is named for a Seminole Indian chief. But the town's genesis as a bustling manufacturing center is the reflection of another leader, a chieftain of change with enough civic boosterism feathers in his cap to rival any Indian headdress.

Rhodes alumnus Harold Ohlendorf ('31), a farmer who'd rather talk industrial development than crops, has spent his adult life altering the mind-set and landscape of Eastern Arkansas. More industry, better schools, improved libraries and ample medical facilities are all part of Ohlendorf's legacy for his adopted state of Arkansas. But nowhere is that more true than in Ohlendorf's hometown of Osceola, 50 miles north of Memphis.

Osceola's economic horizon, once as flat as its cotton fields, is today abloom with industry that Ohlendorf helped secure: a Fruit of the Loom knitwear plant, a Kagan Dixon wire manufacturing facility, an American Greetings plant covering more than 2.5 million square feet. All in all, Osceola, population 9,000, has attracted 11 major industries—employing more than 5,000 workers—since Ohlendorf and a handful of city leaders decided that an influx of manufacturing was needed to diversify their heavily agricultural hometown.

Though he's quick to credit others and unreceptive to the gush of praise, Ohlendorf is, as Osceola's current Chamber of Commerce president Reed Fergus noted, "largely responsible" for the success and progressive nature of the city. "Mr. Ohlendorf has meant more to the city of Osceola than any other person I know."

Ohlendorf would no doubt shrug off such statements as hyperbole. But the evidence is convincing. In the center of town stands the Ohlendorf Civic Center. A few blocks away, at the Mississippi County Community College's satellite branch in Osceola, is the Ohlendorf Center for Economic Development. The First National Bank, on whose board he has served for more than 50 years and which he continues to lead as chairman, occupies another corner of the commercial district. And throughout the town and its outskirts rise manufacturing plants, school facilities and libraries which Ohlendorf had a hand in recruiting or improving.

His office, in an assuming flat brick building overlooking Ohlendorf Farms, overflows with plaques and mementoes from the community and corporate America, as well as a tribute to "the world's greatest grandfather," from his grandchildren. His portfolio of civic and professional achievements runs longer than a school board meeting (he served 36 years on Osceola's school district board). And his schedule of work and volunteer commitments, even as he enters his eighth decade, stays more tightly packed than a bale of his favorite fiber.

He's held appointments under six governors, serving on the Arkansas Industrial Development Commission since 1971, longer than anyone in the commission's history.

His appointment by Arkansas Gov. Orval Faubus to help establish the Arkansas Children's Colony, a facility for mentally retarded children, is the one that he talks about the most tenderly. "Arkansas was one of two states in the nation that did not have facilities for mentally retarded children. The legislature passed a law when Faubus was governor to establish the Children's Colony for these mentally handicapped young people, and Faubus asked me to serve on the original board."

With tears in his eyes, Ohlendorf described the inadequate options that previously confronted families with mentally retarded children, the heartbreak he saw in their faces. The facility that he and other members of the commission helped established was a complex of cottages where these children were taught how to survive in the outside world. It turned out to be a model facility for the rest of the nation. "The greatest satisfaction comes when you feel like you've done something for these kids," said Ohlendorf.

Ohlendorf has also "done" for other segments of the population, and his contributions have been cited by many. The Arkansas Farm Bureau, which he headed for 17 years, has honored him with a state-wide celebration of his contributions. A consortium of county and city organizations which cited his contributions to the development of industry and improvement of health care and education in the area named Feb. 4, 1972, as Ohlendorf Appreciation Day. Both Rhodes and the University of Arkansas have conferred on him honorary degrees. And the Arkansas Library Association named him Trustee of the Year in 1990.

As appreciative as citizens are today, however, it wasn't always so, at least not among his fellow farmers. A minor rift between Ohlendorf and the agricultural fraternity occurred briefly in the early 1950s when Ohlendorf—convinced that farming would not sustain the area's economy for the long run—persuaded city fathers that new industries were needed to boost Osceola's economic base.

"I took quite a lot of heat from the farmers," said Ohlendorf, whose current farm operation consists of about 10,000 acres of cotton, soybean and wheat. "[The farmers] were saying, 'you're going to take the labor off our farms . . . you're going to bring in industry and we're going to be without labor."

But Ohlendorf thought differently. The cotton picking machine was at the time in the early stages of development. International Harvester had, in fact, been doing test-research on some of its models at Ohlendorf Farms. And while many farmers disputed the machines' potential, Ohlendorf presciently regarded the mechanical cotton picker as the harbinger of a new age for his community. He foresaw the impact that the mechanical cotton picker would have on the business of farming and on the elimination of untold numbers of cotton picking jobs.

New industry, Ohlendorf reasoned, could fill the job vacuum created by a mechanical cotton picker. "We had to have something here for people to do," explained Ohlendorf, who had already seen many young people leave Osceola after World War II in search of jobs. What's more, he believed that an influx of industry would be beneficial to the farm families who needed to supplement their farm incomes with a second job.

Ohlendorf has been an effective advocate of change and of the necessity of learning to live with it. That's a lesson ingrained in him since childhood.

Born in Freeburg, Ill., Ohlendorf was the only son of Diedrich and Anna Schmitz Ohlendorf, a couple with German roots and modest means. When Ohlendorf was a young boy his father farmed in Illinois, but the family moved to Osceola when he was three and his father farmed on rented land. When World War I came along, however, his father was drafted and the family moved back to Illinois.

After the war the Ohlendorfs lived in Illinois and Indiana, where his father tried his hand at a number of different businesses: a dairy farm, a car dealership, a flour mill. "He was involved in several businesses. That's why we moved quite a lot. I went to 13 different schools before graduating from high school."

Not only did the young Harold adapt to frequent changes in venue, he learned to accept whatever odd job needed to be done to bolster the family budget.

As a boy he had a paper route in Vincennes, Ind. along the Wabash River, delivering his goods on foot with a "20 below 0" wind at his back. "I knew that was one business I didn't want to do again," he laughs. Some of the other jobs weren't much better: milking cows and delivering the milk in an old Model T for his father's dairy, cleaning the underbellies of cars with a wire brush in 100 degree heat for the family auto shop, peddling eggs for his mother who raised chickens in the backyard.

The last move of his high school years took the family to the boom state, Florida, where his father operated a small orange grove. Finally in the mid-'20s, his parents moved back to Osceola and Harold joined them after graduating from high school in Tampa.

His father bought a small parcel of land outside Osceola and Harold joined him in the fields. "I was behind a pair of mules most of the time," Ohlendorf says, recalling how tired he'd be at the end of each day. "You sure didn't need to take sleeping pills."

It was a friend of the family in Wilson, Ark. (not far from Osceola)—a Dr. Barksdale—who convinced Ohlendorf to come to Rhodes in 1927. He remained at Rhodes until he graduated in 1931, returning to the farm in the mid-'30s and taking over the family-run operation in the 1940s.

Looking back, Ohlendorf's work innovations while at college should come as no surprise. He helped pay for college with an assortment of odd jobs. He was a waiter in the campus dining hall. He held the local franchise for Davis Clothing Company, selling tailor-made suits to willing clients, few of them his classmates. He worked downtown for the public library and for an office supply firm. He spent his summers traipsing across the South in an old touring car, selling magazine subscriptions, or painting the football bleachers on campus. He even ushered at an auditorium downtown, leading operagoers and other patrons of the arts to their seats. "I got all the culture I needed," said Ohlendorf, who admits he hasn't been to the opera too often since.

Ohlendorf's budding business acumen was evident in his extracurricular affairs as well. His junior year he was business manager for the yearbook. "He was always very competent, more mature than the rest of us," said Paul Tudor Jones '32, who was yearbook editor at the time. Dr. Jones, who went on to become the senior minister at Memphis' large Idlewild Presbyterian Church, recalls Ohlendorf as a very effective business manager who always dressed in a jacket and tie.

After college and Dr. Jones's marriage to fellow Rhodes student Anna Hudson "T" Jones, the couple sometimes ran into Ohledorf. "'T' would always say," Dr. Jones laughed, "if she'd known then (back in college) the way things were going to turn our—with my becoming a minister and Harold a successful business tycoon—she certainly would have married the business manager of the yearbook rather than its editor."

Ohlendorf acquired a persistent nickname in college befitting his later advocacy of industry. It was "Rascob," the name of a noted industrialist who was, in the late 1920s, campaign manager for Franklin Delano Roosevelt in his bid for the presidency.

Ohlendorf began to describe how he earned the name "Rascob," But his attention was momentarily diverted by the view of a Barnum and Bailey Circus train barreling down the railroad tracks outside his window (trains hold a special interest for Ohlendorf who served many years on the Frisco Railroad board; an authentic Frisco train caboose currently stands on an abbreviated track, just yards from his office). "I was campaign manager for whoever it was who was running for student body president. People related the two campaigns. And the name 'Rascob' has stuck with me since," he said.

Rascob isn't the only aspect of Rhodes that followed him beyond Memphis. When Ohlendorf was married in 1934 to Frances Jones, college president Charles E. Diehl officiated at the ceremony. Frances died in 1980, and Ohlendorf has since remarried. But he and his second wife, Elvira "Bruce" Kincaid—an active townswoman and busy partner in Ohlendorf Farms—continue to maintain their Rhodes ties. The couple are sustaining members of the Charles E. Diehl Society and they visit the campus periodically. Most recently they attended Ohlendorf's 60th class reunion festivities in October. Ohlendorf also serves Rhodes as an honorary trustee.

Though his ties to Rhodes remain as solid as the campus's giant oaks, it is the dark, fertile Osceola soil where Ohlendorf's roots penetrate the deepest. In the words of Dick Prewitt, the mayor of Osceola for 20 years: "Every community needs a Harold Ohlendorf."•

TREE-MENDOUS MARYLAND

• Mr. SARBANES. Mr. President, I want to bring to the attention of my colleagues in the U.S. Senate the record of "TREE-MENDOUS MARYLAND," a 2-year-old program in my home State of Maryland. This effort was started by Governor Schaefer and the Department of Natural Resources and has a 2-year budget of $250,000. The program has raised more than $225,000 and has actually planted over 2,500,000 trees and seedlings in our State. This contrasts with the National Tree Trust, established by President Bush to reforest the Nation with 1 billion trees. Recent press reports indicate the trust has spent $1.23 million in salaries and other administrative costs, and just $350,000 in grants for groups to plant trees.

Working with the Forestry Division of the Department of Natural Resources, Wally Orlinsky, special assistant to Department Secretary Dr. Torrey Brown, acts as the program's executive director. He has modeled part of his program after the Jewish National Fund. It gives Marylanders a chance to buy trees in honor or memory of friends and loved ones. In 2 years, with no advertising, he has already had some 12,000 people purchase trees.

Marshalling departmental resources, the forestry division now gives courses to people on tree planting, creating a cadre of some 400 tree planting supervisors to date. This program is now expanding to provide instruction in tree care and maintenance, which will lead to "Maryland's Green Gorillas," an army of volunteer coordinators who will spearhead expanding efforts at tree planting, care, and maintenance.

The TREE-MENDOUS Program has allowed Marylanders to purchase trees for parks and for public open space. Maryland corporations and businesses are now involved in planting the State highway clover leaves with trees, and through the newly created Clover Leaf Foundation, flowers, as well. IKEA, Lever Brothers, Winchester Homes, Pepco, James Cassidy, Inc., Foxleigh Enterprises, Langenfelder and Sons, and Westvaco are some of the companies involved to date.

The majority of trees are seedlings. Plantings included efforts like that of the Annapolis Christian Day School plant-a-thon, whereby 600 children spent a day planting 14,000 seedlings on a multiacre tract of weeded highway land.

This past spring, April was declared "TREE-MENDOUS MONTH" in Maryland; and working with the Governor's challenge to county governments, the TREE-MENDOUS program planted 1,500,000 trees and seedlings around the State. Over 35,000 volunteers joined in over 560 projects to accomplish this task.

On December 6, the TREE-MENDOUS MARYLAND Program will be honored by "Keep America Beautiful" as the second best State/Federal environment stewardship program in the Nation.

In Maryland, our Governor and our citizens recognize our special stewardship of the Chesapeake Bay and our responsibility for our own environment. Mr. Orlinsky and his TREE-MENDOUS MARYLAND Program have harnessed these beliefs and transformed them into an active and successful endeavor to get trees planted. Maryland's program is an excellent example of how people, business, and government working together can succeed in the improvement of our lives.•

FILING OF REPORTED LEGISLATIVE AND EXECUTIVE CALENDAR BUSINESS

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate committees may file reported legislative and executive calendar business on Wednesday, December 11, from 11 a.m. until 2 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR TUESDAY, JANUARY 3, 1992, AND TUESDAY JANUARY 21, 1992

Mr. MITCHELL. Mr. President, I ask unanimous consent that when the Senate convenes on January 3, 1992, that the Journal of proceedings be approved to date; that the call of the calendar be waived; that no motions or resolutions come over under the rule, and that the time until 12 noon be divided between the two leaders, or their designees; that following the adjournment sine die of the first session and the convening of the second session at 12 noon, the Journal of proceedings be deemed approved to date; that the morning hour be deemed expired; and that the Senate stand in recess, according to the provisions of House Concurrent Resolution 260 until 11:30 a.m. on Tuesday, January 21, 1991.

I further ask unanimous consent that when the Senate reconvenes on January 21, 1992, following the prayer, the Journal of proceedings be deemed approved to date; that the time for the two leaders be reserved for their use later in the day; and that there be a period for the transaction of morning business not to extend beyond 12:30 p.m.; that the Senate stand in recess from 12:30 p.m. until 2:15 p.m., and that at 2:15 p.m., the Senate proceed to vote on the motion to invoke cloture on the motion to proceed to the consideration of S. 2, the education bill, with the live quorum, pursuant to rule XXII being waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

FIRST SESSION OF THE 102D CONGRESS

Mr. MITCHELL. Mr. President, we have completed the first session of the 102d Congress. The possibility of further action in this session remains open, but at this point it is appropriate to assess some of the actions taken to date.

No baseball game is ever over after four innings, and no football game is over at half time, so there can be no full, fair, and final evaluation of a Congress at the end of the first session. Such an evaluation can occur only after completion of the second and final session, and that will occur late next year. But we do know that this Senate in this first session of this Congress acted in important and substantial ways on many issues relevant to the concerns of Americans.

Much remains to be done, but I would like to look back briefly and suggest some of the areas where I believe significant action has occurred.

We began the year in January on an action of constitutional significance. Following a lengthy period of ambivalence and national uncertainty, the President decided in January to submit to the Congress the question of whether the Nation should be committed to war. There was a lengthy, informative debate. The President's view prevailed and a successful effort resulted in the Persian Gulf war. The constitutional significance lies in the submission by the President to the authority of the Congress with respect to that power.

Following the conflict, we took action on what I believe to be a very significant and comprehensive reform and updating of veterans legislation. It was not controversial, so it did not receive much attention, controversy being the basis by which the newsworthiness of much of what we do is judged. But I submit that little we have done in this year or perhaps in many years will have as beneficial and long lasting an effect for millions of American veterans and their families than will that comprehensive legislation enacted earlier this year in the aftermath of the Persian Gulf war.

Just recently, after months of delay caused by the President's opposition, unemployment insurance was extended for millions of Americans. It was later than we had hoped. We suffered temporary setbacks along the way as the President ignored our first bill and vetoed our second bill, but ultimately the President came to see the need for action to provide extended insurance to the millions of American families who were in desperate need and anxiety, and that provision was made.

We passed the civil rights bill. Again, it was delayed because of Presidential opposition. Again, ultimately the President reversed his position, and I commend him for those reversals because the last position taken in both the unemployment and civil rights cases was the correct one.

I am disappointed that we did not act finally on crime legislation. It was a good bill. We were prevented from proceeding to it by the vote that occurred today. I believe we will be back to it, and I believe we will enact comprehensive legislation which will deal with violent crime where it occurs and where it is prosecuted and where it is punished, and that is at the State and local level.

There has developed in recent years as a result of national political rhetoric the myth that the problem of violent crime in America can be solved by dealing with Federal criminal law.

Mr. President, I have been a prosecutor at the State level. I have been a prosecutor at the Federal level. I can say with experience and assurance that the overwhelming majority of violent crimes that occur in this country, the murders, the rapes, the robberies, the assaults, the overwhelming majority which occur at the State and local level, within the jurisdiction of State and local authorities, are prosecuted by State and local officials and punished by State and local officials.

The bill we presented today would have provided $3.2 billion to State and local officials and law enforcement offices to beef up their actions, in contrast to the President's bill, which had nothing for them. If I may extend the analogy, State and local officials are in the front line of the war against crime. Our bill would have helped them. The President's bill would have built bunkers in rear echelons, not those in the front lines. We are going to be back to the issue, and I hope we pass it.

We dealt with recapitalization of the bank insurance fund and the Resolution Trust Corporation. We ratified the Conventional Forces in Europe Treaty, a significant act for which I commend the President and the Secretary of State for the negotiation of the treaty, and I commend the Senate for ratifying the treaty.

In some respects, it has been overtaken by events. But it represents a step forward in reducing the level of arms in the armies facing each other for so long in Europe, and therefore reduced the risk of conflict in that region.

We have a lot to do when we come back next year. First and foremost must be attention to the problems of our economy—the low rate of economic growth, the low rate of job creation. We are going to have hearings in the next few weeks, and if action can be taken this year, I hope it will be. It does not now appear that will be possible.

But we have to do something to create jobs and economic growth in America for Americans. That means, first and foremost, cutting the taxes of the middle class. No more of the trickle down theory of economics, which says that the only way to help people in the middle class is first to give huge tax breaks to those at the very top of the income scale, and somehow then the benefits will trickle down to the rest of us.

The American people have been trickled on long enough. We need a middle-class tax cut, for families making $30,000, $40,000, $50,000 a year, where both husband and wife work. And that is what we are going to try to do.

We are going to try to provide incentives for first-time home buyers to try to spur home construction in our society. We need to address the credit crunch. We need to reform our systems of education and health care—an education system which is not teaching, a health care system which is not curing—and we have to reduce costs in health care, as we can with comprehensive health care reform.

We will deal early next year with the education bill. It will be the first bill that we consider when we return on January 21. We will then move to cable television legislation. I hope to give a high priority to comprehensive energy legislation early next year.

We have done a good bit. We have much more to do. We must meet our obligation to the American people, and we must address those issues that are relevant to their concerns.

In the next session of this Congress, the agenda of the Congress must be the agenda of American families. In that way we will not only act in the manner we are required to act to meet our responsibilities, we will increase the esteem in which the institution of Congress is held by the American people, and we will further increase that esteem by passing, finally, campaign finance reform legislation, now passed by both Houses, awaiting final action.

Mr. President, I want to thank all Senators for their courtesy to me, their patience and cooperation in what has been a long, at times difficult, but ultimately productive session. The Secretary of the Senate and his staff have been of immense help to me and all Senators; the Sergeant at Arms and her staff. I am very proud of the fact I have appointed the first woman Sergeant at Arms in our Senate's history. Martha Pope, in that position, has more than justified the confidence I had when I appointed her by doing a truly superb job.

The Secretary for the majority and the Secretary for the minority and their staffs in the Cloakroom have done an outstanding job, as have the floor staffs for both leaders.

Lula, Charles, Marty, Howard, and Liz serve as invaluable aides to the leadership on both sides. The Democratic Policy Committee staff has provided guidance and information to Senators. All of those who work to make the operation of the Senate possible—the restaurant staff; the elevator operators; the custodial services; the pages, who we hope have learned something in their experience; the entire staff of the Official Reporters of Debates who so patiently record the ever-increasing volume of words uttered by Senators; the new staffers in the closed captioning office, all of them deserve our gratitude.

I want to reserve special thanks to two people who have made this an especially important and meaningful effort this year: Senator WENDELL FORD, the Democratic whip, my friend and colleague, has done so much to be of assistance to me personally and to all Democratic Senators, indeed to all Senators, widely respected by Members of the Senate on both sides of the aisle, extraordinarily effective in moving legislation forward, and unique among us in the Senate, and not one to seek headlines or time on camera. I am very grateful to Senator FORD for his helpfulness and his friendship.

I want also, before I thank Senator DOLE, to thank my own staff, John Hilley, the chief of staff; Pat Sarcone, my secretary, and the many others who have been extremely helpful; members of my legislative staff, who have been very helpful, as well.

And, as inevitable when I begin to name names, I forget some. I inadvertently missed Art, on the floor staff, and I thank Art as well for his assistance.

Finally, Mr. President, I am very grateful to our Republican colleagues, and especially to their leader and my friend, Senator DOLE. Senator DOLE and I disagree often on issues, publicly and privately. We debate them openly and vigorously. But we have never had a personal disagreement. We have come to be personal friends, as well as Senators serving in a close professional relationship. I trust him implicitly. I hope he feels the same way about me.

In an institution in which the rights of the minority are not just protected, the rules are actually quite solicitous of the rights of minorities, down to a minority of one; it takes cooperation to move forward.

It takes a unique blend of cooperation and competition to move the Senate forward and produce the best policy for the Nation. We do not always succeed. But it would not have been possible to accomplish any of the things I mentioned without Senator **DOLE**'s leadership and his cooperation, where he deemed it appropriate. So I am very grateful to him.

I hope all concerned, Senator **DOLE**, the Republican Senators, Senator **FORD**, and the other Democratic Senators, the staff, and others, have a very happy Thanksgiving with their families, a good and productive break, and that we will all come back here next year renewed and ready to act in the interest of the people in whose behalf we act.

It is, for each of us Members of the Senate, a great honor to serve in the U.S. Senate, to represent our fellow citizens in a representative democracy; and our objective, our responsibility, our overriding concern must be to improve the well-being of the people we represent, and to do it in a fair and responsible manner. To that task we all commit ourselves when we return, and we express our gratitude for the honor done us by permitting us to serve here, and we hope there will be good by what we accomplish here.

THANKS TO THE MAJORITY LEADER AND STAFF

Mr. **FORD**. If the Senator will yield me 30 seconds. Let me thank the distinguished majority leader for his kind words. I appreciate them very much.

I want to thank him for his patience with me, his tolerance, as I worked my way through the first session in this position. The tolerance of the floor staff has been meaningful to me, Mr. Leader, and I hope that with this experience I can be more helpful to you and our colleagues next year, and that we do those things in the second session that will be so meaningful to those people we represent.

I am grateful to you, and I thank you sincerely.

Mr. **MITCHELL**. Mr. President, I thank my colleague. I am advised that the House has not yet acted finally on the adjournment resolution, so we must await that action. While we do, I suggest the absence of a quorum.

The **PRESIDING OFFICER**. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. **MICHELL**. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The **PRESIDENT OFFICER**. Without objection, it is so ordered.

ADJOURNMENT UNTIL JANUARY 3, 1992, AT 11:55 A.M.

Mr. **MITCHELL**. Mr. President, if there are no Senators desiring to speak, I now ask unanimous consent that the Senate stand adjourned pursuant to the provisions of House Concurrent Resolution 260, until 11:55 a.m. Friday, January 3, 1992.

There being no objection, the Senate, pursuant to the provisions of House Concurrent Resolution 260, at 7:05 p.m., adjourned until Friday, January 3, 1992, at 11:55 a.m.

SENATE—*Friday, January 3, 1992*

The Senate met at 11:55 a.m., pursuant to the provisions of House Concurrent Resolution 260, and was called to order by the President pro tempore [Mr. BYRD].

The PRESIDENT pro tempore. In our supplications and petitions to the Almighty, Lord of Hosts, the Senate will be led in prayer by the Chaplain, Richard C. Halverson.

Dr. Halverson, please.

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray:

Where there is no vision, the people perish * * *.—Proverbs 29:18.

Eternal God, Lord of history, we open the 2d session of the 102d Congress at a time of profound crises in the Nation and the world. Somehow, Lord, grant to the Senators and their staffs a perspective on the present situation that comprehends the causes of the crises. Give them a vision for the future that is equal to the enormous task which they face. Save Your servants from self-interests which reduce perilous issues to a business as usual attitude. During the next 18 days prepare them for their immense responsibility with its demand for unprecedented greatness.

Gracious Father, thank You for the recovery of Senator DOLE. We pray for him and all the Senators, their loved ones and staffs, health and strength commensurate with the days ahead.

In the name of Jesus who leads the world by love and sacrifice. Amen.

The PRESIDENT pro tempore. The Senate will be in order.

LEADER TIME

The PRESIDENT pro tempore. Under the previous order the time until 12 o'clock noon is to be equally divided and controlled by the two leaders.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The majority leader is recognized.

THE DISTINGUISHED REPUBLICAN LEADER

Mr. MITCHELL. Mr. President, I want to welcome my colleagues back. Today's session will not include the transaction of any business. But I think I would be remiss if I did not note our pleasure at the full and swift recovery of our colleague, the distinguished Republican leader, Senator DOLE, who, as we know, was operated on during the recent break.

I know that I speak for every single Member of the Senate, Democrat and Republican alike, in saying that our prayers and thoughts have been with him, and we look forward to working with him in the coming session.

Mr. President, I now suggest the absence of a quorum.

The PRESIDENT pro tempore. The absence of a quorum has been suggested. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BAUCUS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Saunders, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

ADJOURNMENT SINE DIE

The PRESIDENT pro tempore. The hour provided under the Constitution for the convening of the 2d session of the 102d Congress having arrived, the 1st session of the 102d Congress is adjourned sine die.

(Whereupon, at 12 noon, the Senate adjourned sine die.)

NOMINATIONS

Executive nominations received by the Senate January 3, 1992:

EXECUTIVE OFFICE OF THE PRESIDENT

JOHN P. WALTERS, OF MICHIGAN, TO BE DEPUTY DIRECTOR FOR SUPPLY REDUCTION, OFFICE OF NATIONAL DRUG CONTROL POLICY, VICE STANLEY E. MORRIS, RESIGNED.

RESOLUTION TRUST CORPORATION

ALBERT V. CASEY, OF TEXAS, TO BE CHIEF EXECUTIVE OFFICER, RESOLUTION TRUST CORPORATION. (NEW POSITION.)

• This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

HOUSE OF REPRESENTATIVES—*Friday, January 3, 1992*

The House met at 11:55 a.m.

The Chaplain, James David Ford, D.D., offered the following prayer:

The Lord bless us and keep us.

The Lord make His face shine on us and be gracious to us.

The Lord look upon us with favor and give us peace. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from New York [Mr. SOLOMON] please come forward and lead the House in the Pledge of Allegiance.

Mr. SOLOMON led the Pledge of Allegiance as follows:

> **I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.**

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair desires to announce that pursuant to clause 4 of rule I, the Speaker signed the following enrolled bills and joint resolutions on Tuesday, December 3, 1991:

H.R. 525. An act to amend the Federal charter for the Boys' Clubs of America to reflect the change of the name of the organization to the Boys & Girls Clubs of America;

H.R. 635. An act for the relief of Abby Cooke;

H.R. 690. An act to authorize the National Park Service to acquire and manage the Mary McLeod Bethune Council House National Historic Site, and for other purposes;

H.R. 829. An act to amend title 28, United States Code, to make changes in the composition of the eastern and western districts of Virginia;

H.R. 948. An act to designate the U.S. courthouse located at North Henry Street in Madison, WI, as the "Robert W. Kastenmeier United States Courthouse";

H.R. 990. An act to authorize additional appropriations for land acquisition at Monocacy National Battlefield, MD;

H.R. 1099. An act to amend the Wild and Scenic Rivers Act by designating segments of the Lamprey River in the State of New Hampshire for study for potential addition to the National Wild and Scenic Rivers System, and for other purposes;

H.R. 1476. An act to provide for the divestiture of certain properties of the San Carlos Indian Irrigation Project in the State of Arizona, and for other purposes;

H.R. 1724. An act to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary;

H.R. 2105. An act to designate an area as the "Myrtle Foester Whitmire Division of the Arkansas National Wildlife Refuge";

H.R. 3012. An act to amend the Wild and Scenic Rivers Act by designating the White Clay Creek in Delaware and Pennsylvania for study for potential addition to the National Wild and Scenic Rivers System, and for other purposes;

H.R. 3029. An act to make technical corrections to agricultural laws;

H.R. 3049. An act to amend the Immigration and Nationality Act to restore certain exclusive authority in courts to administer oaths of allegiance for naturalization, to revise provisions relating to O and P nonimmigrants, and to make certain technical corrections relating to the immigration laws;

H.R. 3169. An act to lengthen from 5 to 7 years the expiration period applicable to legislative authority relating to construction of commemorative works on Federal land in the District of Columbia and its environs;

H.R. 3245. An act to designate National Forest System lands in the State of Georgia as wilderness, and for other purposes;

H.R. 3322. An act to designate the building in St. Louis, Mo., which is currently known as the Wellston Station, as the "Gwen B. Giles Post Office Building";

H.R. 3327. An act to amend title 38, United States Code, to provide for the designations of an Assistant Secretary of the Department of Veterans Affairs as the Chief Minority Affairs Officer of the Department;

H.R. 3387. An act to amend the Pennsylvania Avenue Development Corporation Act of 1972 to authorize appropriations for implementation of the development plan for Pennsylvania Avenue between the Capitol and the White House, and for other purposes;

H.R. 3435. An act to provide funding for the resolution of failed savings associations and working capital for the Resolution Trust Corporation, to restructure the oversight board and the Resolution Trust Corporation, and for other purposes;

H.R. 3531. An act to authorize appropriations for the Patent and Trademark Office in the Department of Commerce for fiscal year 1992, and for other purposes;

H.R. 3576. An act to amend the Cranston-Gonzalez National Affordable Housing Act to reserve assistance under the Home Investment Partnerships Act for certain insular areas;

H.R. 3595. An act to delay until September 30, 1992, the issuance of any regulations by the Secretary of Health and Human Services changing the treatment of voluntary contributions and provider-specific taxes by States as a source of a State's expenditures for which Federal financial participation is available under the Medicaid Program and to maintain the treatment of intergovernmental transfers as such a source;

H.R. 3604. An act to direct acquisitions within the 11 point wild and scenic river, to establish the Greer Spring special management area in Missouri, and for other purposes;

H.R. 3709. An act to waive the period of congressional review for certain District of Columbia acts;

H.R. 3807. An act to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty Organization in conjunction with implementation of the treaty on conventional armed forces in Europe;

H.R. 3881. An act to expand the boundaries of Stones River National Battlefield, TN, and for other purposes;

H.R. 3909. An act to amend the Internal Revenue Code of 1986 to extend certain expiring provisions, and for other purposes;

H.R. 3919. An act to temporarily extend the Defense Production Act of 1950;

H.R. 3932. An act to improve the operational efficiency of the James Madison Memorial Fellowship Foundation, and for other purposes;

H.J. Res. 157. Joint resolution making dire emergency supplemental appropriations and transfers for relief from the effects of natural disasters, and for other urgent needs, and for incremental costs of Operation Desert Shield/Desert Storm for the fiscal year ending September 30, 1992, and for other purposes;

H.J. Res. 191. Joint resolution designating January 5, 1992, through January 11, 1992, as "National Law Enforcement Training Week";

H.J. Res. 212. Joint resolution to designate the week beginning February 16, 1992, as "National Visiting Nurse Associations Week";

H.J. Res. 372. Joint resolution designating December 21, 1991, as "Basketball Centennial Day";

H.J. Res. 356. Joint resolution designating December 1991 as "Bicentennial of the District of Columbia Month";

S. 159. An act for the relief of Maria Erica Bartski;

S. 367. An act to amend the Job Training Partnership Act to encourage a broader range of training and job placement for women, and for other purposes;

S. 1532. An act to revise and extend the programs under the Abandoned Infants Assistance Act of 1988;

S. 2050. An act to ensure that the ceiling established with respect to health education assistance loans does not prohibit the provision of Federal loan insurance to new and previous borrowers under such loan program, and for other purposes;

S. 2098. An act to authorize the President to appoint Maj. Gen. Jerry Ralph Curry to the Office of Administrator of the Federal Aviation Administration; and

S. J. Res. 198. Joint resolution to recognize contributions Federal civilian employees provided during the attack on Pearl Harbor and during World War II.

And the Speaker signed the following enrolled bills on Thursday, December 5, 1991:

H.R. 1776. An act to authorize for fiscal year 1992 the U.S. Coast Guard budget;

S. 543. An act to require the least-cost resolution of insured depository institutions, to

improve supervision and examinations, to provide additional resources to the bank insurance fund, and for other purposes;

S. 1176. An act to establish the Morris K. Udall Scholarship and Excellence in National Environmental Policy Foundation, and for other purposes;

S. 1193. An act to make technical amendments to various Indian laws;

S. 1462. An act to amend the Communications Act of 1934 to prohibit certain practices involving the use of telephone equipment; and

S. 1891. An act to permit the Secretary of Health and Human Services to waive certain recovery requirements with respect to the construction or remodeling of facilities, and for other purposes.

And the Speaker pro tempore signed the following enrolled bill on Monday, December 9, 1991:

H.R. 2950. An act to develop a national intermodal service transportation system, to authorize funds for construction of highways, for highway safety programs, and for mass transit programs, and for other purposes.

OFFICE OF THE CLERK,
U.S. HOUSE OF REPRESENTATIVES,
Washington, DC, December 2, 1991.

Hon. THOMAS S. FOLEY,
The Speaker,
U.S. House of Representatives, Washington, DC.

Dear Mr. Speaker: Pursuant to the permission granted in Clause 5 of Rule III of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on Monday, December 2, 1991 at 10:50 a.m.: That the Senate passed without amendment, H.R. 3245, H.J. Res. 356, H.J. Res. 372, H.R. 3531, H.R. 3919, H.R. 3169, H.R. 3435, H.R. 635, H.R. 3327, H.R. 948, and H. Con. Res. 168; agreed to Conference Report on H.R. 3595, and S. 543; agreed to the House amendment to S. 1891, S. 159, S. 1462 and S. 2050; agreed to House amendments to Senate amendments to H.R. 3807; agreed to House amendment to Senate amendment to H.R. 1776; agreed to House amendment to Senate amendment to House amendment to S. 1193; and disagreed to House amendments to S. Con. Res. 77.

With great respect, I am
Sincerely yours,
DONNALD K. ANDERSON,
Clerk,
U.S. House of Representatives.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 1028 AND H.R. 1916

Mr. ZELIFF. Mr. Speaker, I ask unanimous consent that my name be withdrawn as a cosponsor of two measures:

H.R. 1028, the Social Security Benefits Improvement Act; and

H.R. 1916, the Long-Term Care Insurance Consumer Protection Act.

The SPEAKER. Is there objection to the request of the gentleman from New Hampshire?

There was no objection.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair announces that it will receive requests for 1-minute speeches at the beginning of the next session of the Congress.

SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 2015. An act to urge and request the award of the bronze star to Navy and Marine Corps personnel who served in the defense of Corregidor Island, the Philippines, under General Wainwright; to the Committee on Armed Services.

S. 2034. An act to establish certain requirements for the Secretary of the Interior to undertake environmental cleanup at the Phoenix Indian School property; to the Committee on Interior and Insular Affairs.

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED AFTER ADJOURNMENT

Mr. ROSE, from the Committee on House Administration, reported that that committee had examined and found truly enrolled bills and joint resolutions of the House of the following titles, which were thereupon signed by the Speaker:

On December 3, 1991:

H.R. 525. An act to amend the Federal charter for the Boys' Clubs of America to reflect the change of the name of the organization to the Boys & Girls Clubs of America;

H.R. 635. An act for the relief of Abby Cooke;

H.R. 690. An act to authorize the National Park Service to acquire and manage the Mary McLeod Bethune Council House National Historic Site, and for other purposes;

H.R. 829. An act to amend title 28, United States Code, to make changes in the composition of the eastern and western districts of Virginia;

H.R. 948. An act to designate the U.S. courthouse located at North Henry Street in Madison, WI, as the "Robert W. Kastenmeier United States Courthouse";

H.R. 990. An act to authorize additional appropriations for land acquisition at Monocacy National Battlefield, MD;

H.R. 1099. An act to amend the Wild and Scenic Rivers Act by designating segments of the Lamprey River in the State of New Hampshire for study for potential addition to the National Wild and Scenic Rivers System and for other purposes;

H.R. 1476. An act to provide for the divestiture of certain properties of the San Carlos Indian Irrigation Project in the State of Arizona, and for other purposes;

H.R. 1724. An act to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary;

H.R. 2105. An act to designate an area as the "Myrtle Foester Whitmire Division of the Arkansas National Wildlife Refuge;

H.R. 3012. An act to amend the Wild and Scenic Rivers Act by designating the White Clay Creek in Delaware and Pennsylvania for study for potential addition to the National Wild and Scenic Rivers System, and for other purposes;

H.R. 3029. An act to make technical corrections to agricultural laws;

H.R. 3049. An act to amend the Immigration and Nationality Act to restore certain exclusive authority in courts to administer oaths of allegiance for naturalization, to revise provisions relating to O and P nonimmigrants, and to make certain technical corrections relating to the immigration laws;

H.R. 3169. An act to lengthen from 5 to 7 years the expiration period applicable to legislative authority relating to construction of commemorative works on Federal land in the District of Columbia and its environs;

H.R. 3245. An act to designate National Forest System lands in the State of Georgia as wilderness, and for other purposes;

H.R. 3322. An act to designate the building in St. Louis, MO, which is currently known as the Wellston Station, as the "Gwen B. Giles Post Office Building";

H.R. 3327. An act to amend title 38, United States Code, to provide for the designation of an assistant Secretary of the Department of Veterans Affairs as the Chief Minority Affairs Officer of the Department;

H.R. 3387. An act to amend the Pennsylvania Avenue Development Corporation Act of 1972 to authorize appropriations for implementation of the development plan for Pennsylvania Avenue Between the Capitol and the White House, and for other purposes;

H.R. 3435. An act to provide funding for the resolution of failed savings associations and working capital for the Resolution Trust Corporation, to restructure the Oversight Board and the Resolution Trust Corporation, and for other purposes;

S. 1462. An act to amend the Communications Act of 1934 to prohibit certain practices involving the use of telephone equipment; and

S. 1891. An act to permit the Secretary of Health and Human Services to waive certain recovery requirements with respect to the construction or remodeling of facilities, and for other purposes.

SINE DIE ADJOURNMENT

Mr. MONTGOMERY. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to.

The SPEAKER. Pursuant to the 20th amendment of the Constitution of the United States and pursuant to the provisions of House Concurrent Resolution 260, the Chair declares the 1st session of the 102d Congress adjourned sine die.

Thereupon, (at 11 o'clock and 58 minutes a.m.) pursuant to the 20th amendment of the Constitution of the United States and pursuant to the provisions of House Concurrent Resolution 260, the House adjourned.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

2424. A communication from the President of the United States, transmitting three new and two revised deferrals of budget authority for fiscal year 1992, pursuant to 2 U.S.C. 683(a)(1) (H. Doc. No. 102–171); to the Committee on Appropriations and ordered to be printed.

2425. A letter from the Assistant Secretary of State for Legislative Affairs, transmitting the President's determination pursuant to section 553 of Public Law 101-513; to the Committee on Appropriations.

2426. A letter from the Comptroller of the Department of Defense, transmitting a report of three violations involving the improper use of appropriations which occurred in the Departments of the Army, Navy, and Air Force, pursuant to 31 U.S.C. 1351; to the Committee on Appropriations.

2427. A letter from the Director, the Office of Management and Budget, transmitting the cumulative report on rescissions and deferrals of budget authority as of December 1, 1991, pursuant to 2 U.S.C. 685(e) (H. Doc. No. 102–173); to the Committee on Appropriations and ordered to be printed.

2428. A letter from the Under Secretary of Defense, transmitting the Secretary's certification with respect to the Army's MLRS program and the AAWS–M program, pursuant to 10 U.S.C. 2433(e)(1); to the Committee on Armed Services.

2429. A letter from the Secretary of Housing and Urban Development, transmitting the annual report of the operations of the Federal National Mortgage Association [FNMA] and the Federal Home Loan Mortgage Corporation Association [FHLMC], pursuant to 12 U.S.C. 1723a(h); to the Committee on Banking, Finance and Urban Affairs.

2430. A letter from the Secretary of Housing and Urban Development, transmitting the interim report on the Public Housing Comprehensive Transition Demonstration Program, pursuant to 42 U.S.C. 1437f nt; to the Committee on Banking, Finance and Urban Affairs.

2431. A letter from the President and Chairman, Export-Import Bank of the United States, transmitting notice of a guarantee loan by a financial institution acceptable to the Bank for $11.7 million to the Bank for Foreign Economic Affairs of the U.S.S.R. Moscow, pursuant to 12 U.S.C. 635(b)(3)(ii); to the Committee on Banking, Finance and Urban Affairs.

2432. A letter from the President, Oversight Board, Resolution Trust Corporation, transmitting the Board's report required by section 21A(k)(9) of the Federal Home Loan Bank Act, as added by section 102(a)(3) of the Resolution Trust Corporation Funding Act of 1991; to the Committee on Banking, Finance and Urban Affairs.

2433. A letter from the Secretary of Education, transmitting a copy of Final Resolutions for Student Assistance General Provisions—Verification, pursuant to 20 U.S.C. 1232(d)(1); to the Committee on Education and Labor.

2434. A letter from the Assistant Attorney General, Department of Justice, transmitting the annual report of the Office of Juvenile Justice and Delinquency Prevention for Fiscal Year 1990, pursuant to 42 U.S.C. 5417; to the Committee on Education and Labor.

2435. A letter from the Chairman, National Commission for Employment Policy, transmitting the annual report of the Commission, pursuant to 29 U.S.C. 1775; to the Committee on Education and Labor.

2436. A letter from the Secretary of Education, transmitting the annual report of the International Research and Studies Program; to the Committee on Education and Labor.

2437. A letter from the Acting Director of Legislative Affairs, U.S. Equal Employment Opportunity Commission, transmitting the fiscal year annual report on the operations of the Office of General Counsel; to the Committee on Education and Labor.

2438. A letter from the Secretary, Department of Energy, transmitting the quarterly report on the Strategic Petroleum Reserve during the period July 1, 1991, through September 30, 1991, pursuant to 42 U.S.C. 6245(a); to the Committee on Energy and Commerce.

2439. A letter from the Acting Assistant General Counsel, Department of Energy, transmitting a notice of a meeting related to the International Energy Program to be held on November 19, 1991, at the OECD, in Paris, France; to the Committee on Energy and Commerce.

2440. A letter from the Secretary, Interstate Commerce Commission, transmitting notification that the Commission has extended the time period for issuing a final decision in Ex Parte No. 346 (Sub-No. 14A), Rail General Exemption Authority—Miscellaneous Agricultural Commodities—Petition of G & T. Terminal Packaging Co., Inc. et al. to Revoke Conrail Exemption by 90 days to March 18, 1992, pursuant to 49 U.S.C. 11345(e); to the Committee on Energy and Commerce.

2441. A letter from the Secretary, Interstate Commerce Commission, transmitting notification that the Commission has extended the time period for issuing a final decision in Docket No. 40365, "National Starch and Chemical Corporation v. The Atchison, Topeka and Santa Fe Railway Company, et al.", by 31 days to January 6, 1992, pursuant to 49 U.S.C. 11345(e); to the Committee on Energy and Commerce.

2442. A letter from the Acting Director, Defense Security Assistance Agency, transmitting the Department of the Army's proposed lease renewal of defense articles to Singapore (Transmittal No. 04–92), pursuant to 22 U.S.C. 2796a(a); to the Committee on Foreign Affairs.

2443. A letter from the Deputy Director, Defense Security Assistance Agency, transmitting notification of the Department of the Army's proposed Letter(s) of Offer and Acceptance [LOA] to Saudi Arabia for defense articles and services (Transmittal No. 92-12), pursuant to 22 U.S.C. 2776(b); to the Committee on Foreign Affairs.

2444. A letter from the Acting Director, Defense Security Assistance Agency, transmitting an addendum to the listing of all outstanding Letters of Offer to sell any major defense equipment for $1 million or more; an addendum to the listing of all Letters of Offer that were accepted, as of September 30, 1991, pursuant to 22 U.S.C. 2776(a); to the Committee on Foreign Affairs.

2445. A letter from the Acting Director, Defense Security Assistance Agency, transmitting a copy of Transmittal No. 07-91, concerning a proposed Memorandum of Understanding Cooperative Project certifying a program of cooperation in over-the-horizon radar activities with Australia, pursuant to 22 U.S.C. 2767(f); to the Committee on Foreign Affairs.

2446. A letter from the Acting Director, Defense Security Assistance Agency, transmitting the fiscal year 1991 annual report on the operation of the Special Defense Acquisition Fund, pursuant to 22 U.S.C. 2795b(a); to the Committee on Foreign Affairs.

2447. A communication from the President of the United States, transmitting notification that the Libyan emergency is to continue in effect beyond January 7, 1992, pursuant to 50 U.S.C. 1622(d) (H. Doc. No. 102-172); to the Committee on Foreign Affairs and ordered to be printed.

2448. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting a report on United States-Soviet reciprocity in matters relating to embassies, pursuant to Public Law 101-246, section 134(b) (104 Stat. 33); to the Committee on Foreign Affairs.

2449. A letter from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting copies of international agreements, other than treaties, entered into by the United States, pursuant to 1 U.S.C. 112b(a); to the Committee on Foreign Affairs.

2450. A letter from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting copies of international agreements, other than treaties, entered into by the United States, pursuant to 1 U.S.C. 112b(a); to the Committee on Foreign Affairs.

2451. A letter from the Assistant Secretary of State for Legislative Affairs, transmitting a report on special purpose international organizations, as required by section 176 of the fiscal year 1992-93 Department of State authorization; to the Committee on Foreign Affairs.

2452. A letter from the Chairman, U.S. Advisory Commission on Public Diplomacy, transmitting a copy of one of its short topical papers dealing with international broadcasting, information, and educational exchange matters of interest to policymakers; to the Committee on Foreign Affairs.

2453. A letter from the Director of the Office of Management and Budget, transmitting OMB estimate of the amount of change in outlays or receipts, as the case may be, in each fiscal year through fiscal year 1995 resulting from passage of House Joint Resolution 346, pursuant to Public Law 101-508, section 13101(a) (104 Stat. 1388-582); to the Committee on Foreign Affairs.

2454. A letter from the Director of the Office of Management and Budget, transmitting OMB estimate of the amount of change in outlays or receipts, as the case may be, in each fiscal year through fiscal year 1995 resulting from passage of H.R. 2100, pursuant to Public Law 101-508, section 1301(a) (104 Stat. 1388-582); to the Committee on Government Operations.

2455. A letter from the Director, Office of Management and Budget, transmitting OMB estimate of the amount of change in outlays or receipts, as the case may be, in each fiscal year through fiscal year 1995 resulting from passage of S. 1745, pursuant to Public Law 101-508, section 1301(a) (104 Stat. 1388-582); to the Committee on Government Operations.

2456. A letter from the Director, Office of Management and Budget, transmitting OMB estimate of the amount of change in outlays or receipts, as the case may be, in each fiscal year through fiscal year 1995 resulting from passage of H.R. 3932, pursuant to Public Law 101-508, section 1301(a) (104 Stat. 1388-582); to the Committee on Government Operations.

2457. A letter from the Director, Office of Management and Budget, transmitting OMB estimate of the amount of change in outlays or receipts, as the case may be, in each fiscal year through fiscal year 1995 resulting from passage of H.R. 2038, pursuant to Public Law 101-508, section 1301(a) (104 Stat. 1388-582); to the Committee on Government Operations.

2458. A letter from the Director, Office of Management and Budget, transmitting OMB estimate of the amount of change in outlays or receipts, as the case may be, in each fiscal year through fiscal year 1995 resulting from passage of S. 1891, pursuant to Public Law 101-508, section 1301(a) (104 Stat. 1388-582); to the Committee on Government Operations.

2459. A letter from the Director, Office of Management and Budget, transmitting OMB estimate of the amount of change in outlays or receipts, as the case may be, in each fiscal year through fiscal year 1995 resulting from passage of H.R. 3029, pursuant to Public Law 101-508, section 1301(a) (104 Stat. 1388-582); to the Committee on Government Operations.

2460. A letter from the Director, Office of Management and Budget, transmitting OMB estimate of the amount of change in outlays or receipts, as the case may be, in each fiscal year through fiscal year 1995 resulting from passage of H.R. 3575 and H.R. 1724, pursuant to Public Law 101-508, section 1301(a) (104 Stat. 1388-582); to the Committee on Government Operations.

2461. A letter from the Director, Office of Management and Budget, transmitting OMB estimate of the amount of change in outlays or receipts, as the case may be, in each fiscal year through fiscal year 1995 resulting from passage of H.R. 3245, pursuant to Public Law 101-508, section 1301(a) (104 Stat. 1388-582); to the Committee on Government Operations.

2462. A letter from the Director, Office of Management and Budget, transmitting OMB estimate of the amount of change in outlays or receipts, as the case may be, in each fiscal year through fiscal year 1995 resulting from passage of H.R. 1476, pursuant to Public Law 101-508, section 1301(a) (104 Stat. 1388-582); to the Committee on Government Operations.

2463. A letter from the Secretary of Agriculture, transmitting the semiannual report of the Inspector General for the period April 1, 1991 through September 30, 1991, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2526); to the Committee on Government Operations.

2464. A letter from the Secretary of Energy, transmitting the semiannual report of the Office of Inspector General covering the period April 1, 1991 to September 30, 1991, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2515, 2526); to the Committee on Government Operations.

2465. A letter from the Secretary of Labor, transmitting the semiannual report of the Inspector General for the period April 1, 1991 through September 30, 1991, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2526); to the Committee on Government Operations.

2466. A letter from the Comptroller General, General Accounting Office, transmitting the list of all reports issued or released in October 1991, pursuant to 31 U.S.C. 719(h); to the Committee on Government Operations.

2467. A letter from the Administrator, Agency for International Development, transmitting the semiannual report of activities of the Inspector General covering the period April 1, 1991 through September 30, 1991, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2526); to the Committee on Government Operations.

2468. A letter from the Director, ACTION Agency, transmitting the semiannual report of activities of the Inspector General covering the period April 1, 1991 through September 30, 1991, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2526); to the Committee on Government Operations.

2469. A letter from the Chairman, Board for International Broadcasting, transmitting the semiannual report of activities of the Inspector General covering the period April 1, 1991 through September 30, 1991, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2526); to the Committee on Government Operations.

2470. A letter from the Corporation for Public Broadcasting, transmitting the semiannual report of activities of the Inspector General covering the period April 1, 1991 to September 30, 1991, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2526); to the Committee on Government Operations.

2471. A letter from the Attorney General, Department of Justice, transmitting the semiannual report of the Inspector General for the period April 1, 1991 through September 30, 1991, and the management report for the same period, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2515, 2526); to the Committee on Government Operations.

2472. A letter from the Farm Credit Administration, transmitting the semiannual report of activities of the Inspector General covering the period April 1, 1991 through September 30, 1991, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2526); to the Committee on Government Operations.

2473. A letter from the Chairman, Federal Election Commission, transmitting the semiannual report of activities of the Inspector General covering the period April 1, 1991 through September 30, 1991, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2526); to the Committee on Government Operations.

2474. A letter from the Federal Housing Finance Board, transmitting the semiannual report of activities of the Inspector General covering the period April 1, 1991 through September 30, 1991, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2526); to the Committee on Government Operations.

2475. A letter from the Chairman, Federal Reserve System, transmitting the semiannual report covering activities of the Inspector General covering the period April 1, 1991 through September 30, 1991, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2526); to the Committee on Government Operations.

2476. A letter from the Administrator, General Services Administration, transmitting the semiannual report on the activities of the Department's Inspector General for the period April 1, 1991, through September 30, 1991, together with a report by management, pursuant to Public Law 95-452, section 5(b) (102 Stat. 2526); to the Committee on Government Operations.

2477. A letter from the Administrator, General Services Administration, transmitting views on H.R. 3161 "The Federal Property and Administrative Services Authorization Act of 1991"; to the Committee on Government Operations.
